| DIXIE FIRE WEST ZONE | Date/Time From: 10/22/2021 0700 FRI | Date/Time To: 10/22/2021 2100 FRI |

3. Objective(s):

Management Objectives:

1. Ensure firefighter and public safety by using strategies and tactics, with the highest probability of success, that keeps the fire within the existing containment lines and minimize the impact to the cultural, heritage, and natural resources.
2. Implement and/or account for the repair of fire suppression-related activities as specified in the Dixie Fire Suppression Repair plan
3. Identify and communicate hazards and conduct actions only when risks have been mitigated to acceptable level.
4. Maintain an elevated awareness of current COVID-19 precautions and best infectious disease control measures to ensure the health of fire personnel and the public.
5. Provide safe and efficient initial attack within the current fire area or when requested by the local units.
6. Provide timely and accurate information to the public, stakeholders, cooperators and the adjacent incident management teams (East & West zones) about fire status, fire management strategies and tactics, repair efforts, and any potential fire-related safety and health concerns.
7. Maintain fiscal accountability and keep costs commensurate with values at risk.

Control Objectives:

Keep the fire within the current containment lines and maintain availability for initial attack if requested.

4. Operational Period Command Emphasis:

An audible is a verbal instruction that can slightly change the predetermined play, or completely scrap it for something else. A quarterback often calls an audible when he doesn't like how the offensive play that was called matches up with the defensive formation. Apply the audible concept to your work assignment; are you prepared to adjust the plan to meet changed conditions?

Safety Message:

SAFETY IS OUR FIRST PRIORITY
Firefighter safety comes first on every fire, every time.

Safety Thought:

“MODULE AS ONE”

Module as One should be used by crews and modules to reduce exposures to COVID-19 and other sickness from outside resources or the public. Face coverings must still be worn within the module when operating in close quarters EXCEPT when alone, when outside and able to maintain at least 6-feet of distance, or actively engaged in firefighting on the fireline.

Key Points:

- *Exposing yourself could mean also exposing your module and your family.* Crews and modules should limit close contact with other resources and the public on incidents to insulate their module. When coming into close contact or riding in vehicles, all resources should wear cloth face coverings or masks. While the practice of handshaking, hugging, or any physical contact is a deeply rooted etiquette within the United States, this practice should be avoided to reduce further potential for disease transmission.
- *Further reduce exposure by identifying select individuals on your crew or module that will pick up meals and supplies, interact with the public and enter ICP.* Ensure these select individuals protect themselves by using face coverings, physical distance, and good hand hygiene during every interaction. This is especially important when working in or traveling through an area with high community transmission.

Kaili McCray MEDL/ COVID & Cliff McClure, SOF1(t)

COVID TESTING PROCEDURES: ALL Federal employees and federal contractors agree to be tested for COVID-19 prior to incident check-in, demob and when relieving personnel for crew swaps; regardless of vaccination status. Watch Out Situations

Part three

13. Teasing on a hillside where jokes get rolling may ignite an enraged response.
14. Tolerance evaporates and tempers flare when weather gets hotter and drier.
15. A person's word must be steady and true, not like the wind that becomes erratic and unpredictable.
16. People can ignite spot fires behind each other's backs.
17. A buildup of debris and dead fuels between individuals makes escape routes and safety zones difficult to find.
18. Taking a nap while someone is giving directions shows lack of interest and respect, leading to initial attack from another person.

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM ICP COMMUNICATIONS.

Use the following items to communicate situation to ICP COMMUNICATIONS.

1. CONTACT ICP COMMUNICATIONS: **(Verify correct frequency prior to starting report)**
Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."
2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*
Ex: "ICP Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

|---|---|---|
| Severity of Emergency / Transport Priority | <input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i> | |
| Nature of Injury or Illness & Mechanism of Injury | | <i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i> |
| Transport Request | | <i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i> |
| Patient Location | | <i>Descriptive Location & Lat. / Long. (WGS84)</i> |
| Incident Name | | <i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i> |
| On-Scene Incident Commander | | <i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i> |
| Patient Care | | <i>Name of Care Provider (Ex: EMT Smith)</i> |
