DISCUSSION: A disturbance to our north will maintain a slight (~20%) chance of *light* showers on Tuesday, before a drier and sunnier pattern takes hold through Friday. Any showers would be brief, with little in the way of any accumulations. Snow levels will start near 6,000 ft early Tuesday, rising through the day to near 9,000 ft by the evening. Thus, a dusting of snow is possible on the peaks above 6,000 ft Tuesday morning. Winds will be light out of the southwest. Expect considerable low-level clouds/ceilings to prevail through the day on Tuesday, with better clearing by Wednesday afternoon. Considerably warmer daytime highs on Wednesday, as we climb into the mid 60's.

	TUESDAY & TUESDAY NIGHT	WEDNESDAY
WEATHER SUMMARY	Mostly cloudy, with a slight (20%) chance of brief light showers.	15% chance of a light morning showers. Otherwise, clouds gradually clearing in the afternoon.

Guidance On Safe Transition To Home Unit

After Demobilization

The Incident Commander and the EA/MT leadership offer this informational guidance to refer to concerning safe travel after demobilization from the Dixie East Zone during the COVID-19 pandemic.

Once you leave the Incident, you will lose the protective “bubble” you have built up and will be traveling among the public. It is readily evident that social distancing, handwashing, and vaccinations are inconsistent in many communities that you will travel through.

For you to remain free from exposure to COVID-19, you will need to be especially disciplined in continuing these common practices. The safe practices that have been developed for health and safety remain:

- **Social Distance:** Maintain minimum of 6 feet spacing whenever possible. Expose as few team members as possible to public areas like shops and convenience stores whenever possible. Avoid unnecessary face-to-face or close contact with persons outside your module while in transit. Avoid sharing food, utensils, or personal items.
- **Mask:** Wear your mask, especially if you are not vaccinated.
- **Hand Hygiene:** Continue regular hand hygiene. Wash hands for 20-30 seconds with soap and water. You may substitute hand sanitizer as needed. Rub generously into all hand surfaces for 20-30 seconds.
- **Disinfect and Clean Common Spaces:** Clean and disinfect all areas such as door handles (interior and exterior), dashboards, steering wheel, buttons/knobs, and other interior surfaces. Be especially careful of contact with public items, including gas pumps, door handles, restroom surfaces and keypads.
- **Regular Monitoring and Self-Assessment:** Daily self-check using the standard symptom list. Maintain awareness of any change in your health. Immediately discuss with your supervisor should you exhibit symptoms.

Should you develop symptoms and exhibit distress, seek care immediately. Do not delay care to continue travel to your home unit.

Symptoms to monitor (This list does not include all possible symptoms):

- Headache
- New Loss of Taste or Smell
- Sore Throat
- Congestion or Runny Nose
- Nausea or Vomiting
- Diarrhea
- Fever or Chills
- Measured Temperature of 100.4 or Greater
- Cough
- Shortness of Breath or Difficulty Breathing
- Fatigue
- Muscle or Body Aches
