Fire Weather Forecast

FORECAST NO: 18
PREDICTION FOR: 0700-0700
SHIFT DATE: 8/3-8/4
FORECAST ISSUED: 2000 8/2

NAME OF FIRE: Dixie Fire West Zone
UNIT: Butte Unit

SIGNED: Ryan Walbrun 
Incident Meteorologist

WEATHER DISCUSSION: The large scale weather pattern remains seasonable for the region for one last day. Heavy smoke will linger through mid-morning before lifting by midday/early afternoon. Light winds in the morning will become southwest again by early afternoon and be adverse to the line across much of the West Zone with afternoon gusts in excess of 20 mph. Humidity values will start the day around 30 percent and then lower to the mid teens through the afternoon hours. **Take five at 2 pm and assess your actions and trigger points.** Southwest winds will ease after sunset but expect poor humidity recovery overnight as winds slowly turn downcanyon overnight.

WEATHER FORECAST TUESDAY:

WEATHER: Areas of smoke through mid-morning otherwise mostly sunny. Seasonably warm and dry.

TEMPERATURES: Mid 80s above 4500 feet with mid 90s lower elevations.

HUMIDITY: Lowering 12-22% afternoon hours with direct sunshine on sun exposed slopes.

20 FT WINDS:

RIDGETOP - Southwest 6-11 mph afternoon gusts 18-24 mph. Wind at your back Branch V and adverse to the line in Branch IX and X.

SLOPE/VALLEY - Light through 1000 am then afternoon upcanyon 3-7 mph gusts 10-12 mph.

HAINES INDEX: 4 **LAL:** 1 **Chance of Rain:** 0%

STABILITY/INVERSION: Moderate morning inversion breaking by 1000-1100.

Tuesday Night: Smoke settling into the drainages. Otherwise mostly clear with poor humidity recovery.

LOW TEMPERATURES: Lower 60s valleys with lower 70s mid and upper slopes.

HUMIDITY: Poor to moderate briefly recovering 28-42% after midnight through sunrise.

20 FT WINDS:

RIDGETOP - Southwest 5-10 mph evening gusts 15 mph through 2100 then light overnight.

SLOPE/VALLEY - Evening upcanyon through 2200 then northeast downcanyon 4-8 mph except Gusts 15-20 mph Branch I

HAINES INDEX: 2 **LAL:** 1 **Chance of Rain:** 0%

STABILITY/INVERSION: Strong night time inversion setting up after 2200 hours.

EXTENDED FORECAST: Critical Fire Weather pattern for Wednesday as a Dry Cold Front passes through the region with increasing Southwest winds Wednesday afternoon and evening. Wind gusts 30 to 40 mph then winds turning northerly into early Thursday morning. Humidity as low as 10 percent Weds afternoon. High pressure rebuilds Thursday afternoon into the weekend. Staying hot and dry.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 9

TYPE OF FIRE: Wildfire

FIRE NAME: Dixie Fire West Zone

OPERATIONAL PERIOD: 8/3/2021

DATE ISSUED: 8/2/2021

TIME ISSUED: 2100

UNIT: CA-BTU

Signed: John Cook FBAN 

WEATHER SUMMARY: HOT, DRY, breezy

Temp: Day mid 90s RH: Day 15%, Night 35% on ridge,

Winds: Day up valley @8, Night NE@10 gust to 18

FIRE BEHAVIOR

General:

Highest fire danger present since fire made large runs July 21st, again. Dry fuels are creating serious resistance to control. Conditions remain elevated today and into the night with clear skies and very low fuel moistures. Fire activity will continue in the remaining unburned pockets. Activity will continue at night with lower RH and winds present. Probability of Ignition (PIG) is high today due to higher temperature and sun. Spotting distances should remain less than ½ mile, unless an extreme crown run occurs. Large fuel mop up still critical due to dryness. Watch for needle drop and creeping into unburned areas. Surface fire has been observed transitioning into ladder fuels.

Extreme Fire Behavior:

Extreme behavior is mostly influenced by heavy fuel loadings, stand density and steep slopes. When this occurs, it will burn with high intensity with group torching and spotting. The potential for crown runs is likely when intensive surface fire occurs where slopes and wind align in thick stands with low branches. These runs can develop Pyro cumulus clouds with erratic and unpredictable behavior.

Fuels: There is a large variety of fuels throughout the area. Mixed conifer forest with grass or shrub understory, open grass and isolated shrub areas. Live fuel moistures are very low. Drought conditions are extreme in the region and large dead fuels are very dry. The predominant fuel type in the fire area is TL6, TU5

Energy Release Component is **at the 90th** percentile at 81. (*Fuel Model G 90th percentile is 81*)
ERC is projected to rebound back by the beginning of the week

1HR fuel moisture: 3% (-2)

10HR moisture: 4% (-1)

100HR fuel moisture: % 6 (--)

Energy Release Component: 81 (+4)

Burning Index: 86 (--)

Probability of Ignition: 70%

Local Watchout Thresholds: (bold if present) ALL 4 present today.

20' winds over 10 mph, RH below 20%, Temp > 85 deg, 10 HR < 5%

Expected Surface Fire Behavior: (assumes 5mph eye level wind and 15% slope)

Timber Understory (TU5) Timber with branches, shrubs:

7-9' flame length and ROS 10-12 ch/hr head

Timber Litter (TL6) Timber with needles and branches:

1-3' flame length and ROS 5-8 ch/hr head

SPECIFIC: West Zone

BRANCH I, V, VII: Smoldering and torching still possible with increase in temperatures and low RH. Expect activity to pick up earlier around 1100. Continued backing and creeping of unburned pockets, especially further interior. Snags from previous firing will continue to smolder and present spotting. Identify snags at high and mid slope that could be problematic in high winds. Down drain winds will keep smoke on the line in the night. Any spots outside containment will spread quickly.

BRANCH IX: Fire will continue to spread to the north towards Hwy 32 as it moves downslope, pushed by southerly winds. Spread can reach up to 15 ch/hr on upslope runs in Red fir stands. Spotting will be extended up to ¾ mile as it spots downhill and will spread quickly.

BRANCH X: DIV L fire will continue to push towards the northeast with southerly winds. Heavier slash and open stands will allow wind to be more effective at moving the fire. Watch jackpots for spotting.
DIV M will have continued challenge from the southerly and downslope winds through the day.

AIR OPERATIONS and SMOKE FORECAST: Visibility will improve for air operations after 1100

SAFETY: Fire Order #2: Know what your fire is doing at all times.

Fire is extremely active with several working areas and the potential for new spots to start. Keep your head up to adjacent activity

SAFETY MESSAGE/PLAN (ICS 208)

Dixie CA-BTU-009205
WEST ZONE

Operational Period: Date From: 8/03/21 Date to: 8/04/21
Time From: 0700 Time to: 0700

//// MAJOR HAZARDS AND RISKS: ////

Driving:

Steep, narrow, or dusty roads throughout fire area. Maintain safe following distances and appropriate speed when traversing roads. SLOW DOWN! Flag unstable roads and other hazards that may be encountered while driving. Follow posted speed limits while driving in base camp. Drive with your vehicle headlights on. Pay extra attention while driving on Highway 70, there are several areas where rocks have fallen onto the roadway and closures maybe in effect. Limit your exposure time while in the Highway 70 fire area. Reduce speed on Hwy 32 and always maintain control of your vehicle.

Physical and Mental Wellness:

Continually monitor yourself and your crew. Hydrate and increase your caloric intake when performing arduous work during long shifts. Monitor work / rest cycle.

Communications:

There are areas on the fire that Command Channels have limited reception. Use human repeaters to relay messages. Make sure your radios are cloned with the correct frequencies. Review the ICS 205 for both zones. Monitor neighboring Tac channels.

COVID-19:

Follow California Department of Public Health masking guidance. Ensure you are performing good personal hygiene practices by washing your hands frequently. Ensure you are reporting any illnesses or if you are not feeling well to your supervisor. If you are coughing or sneezing, ensure you cover your mouth properly.

Multiple Base Camps:

The fire has three base camps. It is imperative that personnel and resources are briefed on which base camp they are assigned to. Personnel shall receive a briefing at each base camp. The Westwood and Quincy base camps are in areas that personnel have not been to before. Please make sure you are driving safely, increase following distances, and maintain situational awareness.

Wildlife:

Rattlesnakes, bears, and other potentially dangerous animals have been spotted in the fire area. Be aware of where you are stepping and placing your hands especially around rock piles. If you come across a potentially dangerous animal, let it be known and leave the area.

SAFETY MESSAGE/PLAN (ICS 208)

Dixie CA-BTU-009205
WEST ZONE

Operational Period: Date From: 8/03/21 Date to: 8/04/21
Time From: 0700 Time to: 0700

//// **MAJOR HAZARDS AND RISKS:** **////**

Zoning the fire:

With the fire being zoned, maintain accountability of all personnel and resources in assigned work locations. Ensure personnel have access to both IAP's and specifically review the communication plan for both zones. Personnel should be aware of the strategy and tactics occurring in different zones.

Extreme Fire Behavior:

Expect intense fire runs with plume dominated fire behavior. Take weather regularly. Maintain situational awareness specific to wind direction changes and increased fire spread. Long range spotting of one mile plus has been observed. Beware of pyro-cumulus development and the potential for rapid changes in conditions and weather/lightning associated. Prepare for possible deterioration of pyro-cumulus which will cause severe out flow winds in all directions.

Safety Zones/TRA:

Locations where the threatened firefighter may find refuge from danger. Safety zones should be large enough and planned as a location where no shelter is needed. Utilize temporary refuge areas when appropriate.

Entrapment Avoidance:

Adhere to the 10 Standard Firefighting orders. Consider the 18 Situations that Shout Watch Out. Consider the Common Denominators of Fire Behavior on Tragedy Fires. Maintain LCES. Establish your decision point(s). Conduct risk management.

“One earnest worker can do more by personal suggestion than a carload of safety signs.”

Peer Support Team Message:

INCIDENT PEER SUPPORT:

We have a few people on the incident for any peer support related needs. The best way to get a hold of them is to call them directly.

Sam Lazarich - 530 796-1025

Shawna Powell - 530 717-0667

or

CAL FIRE Peer Support/Helpline

916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543

Mike Aiello 916-584-0548

Jeremy Sanders 916-281-6472

Amy Head 916 956-3277

Warren Parrish 916-823-6641

Amber Henderson 805-794-1690

Chris Lomanto 916-247-6974

Krissy Schaefer 619 592-6337

Mike Deleo 916 661-0724

In addition to peer support, if there is a need, we can have a culturally competent Clinician available on the incident that could meet with you on an individual and/or group basis.

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!

CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762

Current Information

CURRENT INCIDENT STATUS	
Incident Start Date: 7/13/21	Incident Start Time: 5:15 p.m.
Cause: Under Investigation	Acres:
Containment:	Total Personnel:

MEDIA

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY

When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency, and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

PHOTOGRAPHS AND VIDEOS OF INCIDENT

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional, or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND

The Information Section will manage lost and found items for the incident, located at the PIO Trailer.
