Dixie West Zone Fire Weather Forecast

FORECAST NO: 42
DATE: August 28th, 2021
FORECAST ISSUED: 1800 August 27th, 2021

FIRE: Dixie West Zone
Incident Meteorologist: Derek Williams
Signed: *Derek Williams*

WEATHER DISCUSSION: East to southeast winds in the wake of a dry cold front will continue this morning, before diminishing and becoming west-southwest this afternoon. Temperatures continue to climb and could reach the lower 90s in valley areas this afternoon. A dry air mass aiding poor overnight slope recoveries will also allow for critically low relative humidity values this afternoon below 15% in many locations. Lingering smoke around the area could delay the rise in temperatures through the morning hours along with poor visibility in valleys.

TODAY:

SKY/WEATHER: Smoke and haze.

MAX TEMP:	Valleys:	85-88°	MIN HUMIDITY:	Valleys:	10-15%
	Ridgetops:	78-83°		Ridgetops:	12-17%

CHANCE OF THUNDERSTORMS: 0% **LAL:** 1.

WINDS: **Valley Lassen/Shasta Sectors.** Southeast 4-7 mph in the morning becoming southwest in the afternoon.
(20 FEET) **Ridgetop Lassen/Shasta Sectors:** Southeast 7-10 mph with gusts to 15 mph in the morning becoming west-southwest 5-8 mph in the afternoon.
 Valley Westwood/Butte Sectors. East-northeast 4-7 mph in the morning becoming southwest late afternoon.
 Ridgetop Westwood/Butte Sectors: East-northeast 7-10 mph with gusts to 15 mph in the morning becoming southwest and diminishing in the late afternoon.

HAINES: 4 (low)
MIXING HEIGHT: Rising to 6,500 feet by 1700. **TRANSPORT WIND:** South-Southwest around 5 mph.
VISIBILITY: One mile in valleys in the morning. 4-6 miles in the afternoon.
INVERSION: Inversion gradually mixing out between 1230 and 1330.

TONIGHT:

SKY/WEATHER: Smoke and haze.

MIN TEMP:	Valleys:	41-46°	MAX HUMIDITY:	Valleys:	55-65%
	Ridgetops:	48-53°		Mid Slopes:	30-40%
				Ridgetops:	40-50%

CHANCE OF THUNDERSTORMS: 0% **LAL:** 1

WINDS: **Valleys:** Downslope/down valley 3-5 mph after 2000.
 Ridgetops: South-southwest 4-6 mph.
TRANSPORT WIND: South-southwest 5-10 mph.
STABILITY/INVERSION: Moderate inversion and poor ventilation developing overnight.

EXTENDED OUTLOOK: Sunday through Thursday. Very dry and warm conditions expected Sunday with southwest winds returning to the area as another trough pattern emerges. A very dry air mass will lead to poor overnight slope recoveries and single digit daytime humidity with stronger southwest winds expected Monday resulting in elevated fire weather conditions. A southwest wind pattern will continue into midweek but temperatures will cool a bit and humidity will rise slightly. The area will remain dry with little to no clouds.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 34	TYPE OF FIRE: Wildfire
FIRE NAME: Dixie – West Zone	OPERATIONAL PERIOD: 8/28/21 – 8/29/21 0700-0700
DATE ISSUED: 8/27/21	TIME ISSUED: 2000
UNIT: BTU – Butte Unit	SIGNED:  Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

The weather will be warm and dry, with temperatures in the high 70's to 80's. The relative humidity will continue to be low, 10 to 17%, with poor recovery in the mid and upper slopes. Winds will be variable throughout the fire and during the day, refer to the Weather Forecast for specifics. Overnight temperatures will be in the 40's to low 50's and relative humidity 30 to 65%. Winds overnight will be south-southwest 4 to 6 mph on the ridges.

OUTPUTS

FIRE BEHAVIOR

GENERAL: ****FUELS AND FIRE BEHAVIOR ADVISORY IN EFFECT FOR THE FIRE AREA****

The winds will be the strongest in the morning hours turning to more terrain driven in the afternoon. The terrain will create a variable wind pattern around the fire perimeter. The fire will have multiple influences around the isolated peaks and can funnel between close peaks. Observing the weather in the area you are working will be critical. Fire progression will generally be slow with isolated and some group torching. Spotting distances will short range, around a ¼ or less without large column build-up. Ground fuels will be the main carriers in the open understory. The taller brush will contribute to fire in the tree canopy. Smoke cover will be shifting over the fire as the winds transition through the day.

SPECIFIC:

Lassen/Shasta Sector: The fire will be the least active in the valleys in the afternoon with the light variable winds. Ridgetops will carry fire early in the morning with the higher winds and become less active in the afternoon. The flatter terrain will allow for more funneling around the buttes causing changing and converging wind patterns. The general fire progression will be a slow rate of spread until it moves into the ridges or drainages with wind alignment.

Butte Sector: The low humidity will aid in the larger fuels to consume and burn out. Due to the longevity of the fire the remaining overstory is beginning to drop to the ground creating a new receptive fuel bed. Standing trees with smoldering material at the base have potential to reignite creating ember cast, especially on ridgetops.

Janesville Branch: The wind will have a complete switch in direction during the operational period. The smoke may clear out in the morning but will most likely return in the afternoon when the wind shifts. The early morning winds will be the strongest and will be across the line on the western portion. Be aware of the wind shift and the activity of the main fire to the southwest.

Clear/Lake Branch: The fire will continue to smolder throughout the area. The remaining overstory will continue to fall to the ground and create a new receptive fuel bed. Trees with smoldering material at the base will continue to burn and will become more active especially on the ridge tops, creating possible spotting issues.

AIR OPERATIONS

The shifting winds may create visibility over different sections of the fire throughout the day. The northern portion may be the clear in the morning and smoked out in the afternoon.

SAFETY

Evaluate the terrain you are working in and how it will affect the wind patterns which will affect the fire behavior.

Kody Kerwin, COML (925) 953-3044 Communications: 480-640-0402				Latitude: " N		Longitude: W					
The convention calls for frequency lists to show four digits after the decimal place (five digits for 700 MHz frequencies). The letter "U", "N", or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow (6.25 kHz), narrow (12.5 kHz) or wide band (25 kHz). Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeaters (and depending on use, base stations) must be programmed with the Rx and Tx reversed.

CAL FIRE INCIDENT MANAGEMENT TEAM 1

1. INCIDENT NAME: Dixie Incident		2. DATE PREPARED: August 27, 2021		3. TIME PREPARED: 1800	
4. PREPARED BY: Brad Niven SOF1		5. LEADER NAME: Brad Niven SOF1		6. OPERATIONAL PERIOD: 8/28/2021 0700 TO 8/29/2021 0700	

SAFETY MESSAGE

“You are your last line of defense in safety. It boils down to you.”

- **Make sure everyone gets a briefing.**
- **Check the communication plan for frequency assignments.**
- **Stay hydrated. Drink water before, during and after each shift.**
- **Be aware of rotor wash when working near helicopters.**
- **Be watchful around heavy equipment, they may not see you.**
- **Reduce speeds while driving in and around Susanville.**
- **Watch for open range cattle on Highway 36 and Highway 44.**
- **Make sure L.C.E.S is being utilized.**

Repopulation Hazards

- Working around structures
- Hazardous materials
- Utility Company Operations
- Heavy Equipment
- Hazardous trees and ash pits
- Congested roadways
- Increased civilian presence

COVID-19

- Follow local masking guidelines
- Practice good personnel hygiene
- Report all illness to your supervisor
- Maintain social distancing
- Wash your hands often
- Clean and disinfect often
- Be alert for symptoms

MEDIA

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found by scanning the QR code to the right with your mobile device.

CAL FIRE SOCIAL MEDIA POLICY

When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media by scanning the QR code to the right with your mobile device.

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency, and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

PHOTOGRAPHS AND VIDEOS OF INCIDENT

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional, or embarrassing circumstances, which are a serious breach of ethics. You can email the photos to: dixiefire2021@gmail.com.

LOST AND FOUND

The Information Section will manage lost and found items for the incident, located at the PIO Trailer.

Peer Support Team Message:

INCIDENT PEER SUPPORT:

We have one or two peers on the incident for any peer support related needs for the duration of the incident. The best way to get a hold of them is to call the ESS Helpline number below. They will get you in contact with the peers on the incident.

**CAL FIRE Peer Support/Helpline
916-445-4337**

Below is a list with all the ESS Team Members:

**Tony Howard 916-224-1543
Mike Aiello 916-584-0548
Jeremy Sanders 916-281-6472
Sam Lazarich - 530 796-1025
Amy Head 916 956-3277
Warren Parrish 916-823-6641
Amber Henderson 805-794-1690
Chris Lomanto 916-247-6974
Krissy Schaefer 619 592-6337
Mike Deleo 916 661-0724**

**For any Federal employees needing peer support contact the number below, Melanie is the lead peer at the Quincy ICP
Melanie Hornsby 775 350-0331**

In addition to peer support, if there is a need, we can have a culturally competent Clinician available on the incident that could meet with you on an individual and/or group basis. Please contact the Helpline to get in contact with the peer that's at the incident to make the request.
