FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 48	TYPE OF FIRE: Wildfire
FIRE NAME: Dixie – West Zone	OPERATIONAL PERIOD: 9/11/21 – 9/12/21 0700-0700
DATE ISSUED: 9/10/21	TIME ISSUED: 2000
UNIT: BTU – Butte Unit	SIGNED: <i>Don Watt</i> Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

The weather will be cooler and start to dry out. Temperatures will be 70-80 degrees during the day and 32-50 degrees overnight. Humidity will be 20-30 percent during the day and 55-78 percent overnight. The wind will be southwest 5-10 mph with gust to 20 mph in the afternoon. Overnight winds will be south-southwest 5-10 mph.

OUTPUTS

FIRE BEHAVIOR

GENERAL: *FUELS AND FIRE BEHAVIOR ADVISORY IN EFFECT FOR THE FIRE AREA*****

The less than ¼ inch of rain from yesterday and the humidity recovery last night will help to moderate the fire activity. The afternoon will increase in fire activity as the sun warms the fuels and continues to dry them out. The areas in the heavy timber will see increase in fire activity sooner as the rain will have less effect on the ground fuels. The reduced activity will only last for a couple days before the conditions begin to return to before the rain came. The large, 100 and 1,000 hour, fuels will continue to burn readily as the limited moisture will not have enough of an affect on them. The rates of spread will be slow, and the probability of ignition will be low in the shaded areas. Short range spotting will be possible especially in exposed fuels in the afternoon sun.

SPECIFIC:

Lassen Sector: The ground fuels under the heavier tree canopy will have less moisture as they were more sheltered from the rain. The fire will continue to smolder and skunk around in the understory and burn the heavy dead and down. The brush and grass fields will continue to dry out in the afternoon and promote active fire.

Shasta Sector: The fire will continue to burn under the canopy of the trees until the afternoon as the exposed fuels dry out with the sun exposure. The spotting potential will continue to increase in the afternoon over the next several days. The trees will have torching potential as the ground fuels dry out and become more active.

Butte/Westwood Sector: The rain and wind increased the mount of overstory dropping to the ground. The rain was not enough to completely extinguish the heavy materials. The increasing new ground layer will dry out over the next couple of days and new smokes will continue to emerge.

AIR OPERATIONS

Visibility will be good for aircraft operations over all areas of the fire throughout the day.

SAFETY

Light fuels react quickly to environmental changes, as the atmosphere dries the fuel dries. The limited rain will only affect the fuels for a day or two before it returns to its dry state and increase in activity.

 The convention calls for frequency lists to show four digits after the decimal place (five digits for 700 MHz frequencies). The letter "U", "N" or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow (6.25 kHz), narrow (12.5 kHz) or wide band (25 kHz). Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeaters (and depending on use, base stations) must be programmed with the Rx and Tx reversed.

MEDIA

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found by scanning the QR code to the right with your mobile device.

CAL FIRE SOCIAL MEDIA POLICY

When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media by scanning the QR code to the right with your mobile device.

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency, and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

PHOTOGRAPHS AND VIDEOS OF INCIDENT

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional, or embarrassing circumstances, which are a serious breach of ethics. You can email the photos to: dixiefire2021@gmail.com.
