3. Objective(s):

Strategic Objective

Implement a full suppression strategy on the Dixie Fire. Strategy and Tactics implemented on the incident are to be prioritize utilizing life safety, community infrastructure defense, and natural/cultural values as a guiding principal. Minimize acres burned on all lands by effective and efficient firefighting efforts that offer the highest probability of success while maintaining safety first.

Leaders Intent

Work effectively with cooperative partners towards a common goal of protecting values in a safe and efficient manner. All incident assigned personnel should be prepared to take the appropriate actions regarding:

- Professional behavior, conduct timely / effective communications
- Personal safety and safety of others, including driving slowly, safely and defensively Implementation of tactics that offer a high probability of success
- Manage fatigue by taking breaks and maintaining work rest guidelines
- All line supervision personnel including crew and striketeam leaders must attend the morning Operational Briefing

Management Objectives

- Utilize the risk management process to identify and mitigate hazards to protect first responders and the public. Emphasize strategies and tactics that have the highest probability of success and the least exposure to first responders and the public.
- Develop proactive strategies to protect life, residential properties, communities, businesses and infrastructure. Employ tactics that fulfill these strategies while being mindful of the necessity for contingency and emergency plans. Ensure strategies account for incident priorities, applying resources to those protecting life and residential properties first.
- Follow COVID-19, CDC and established local, state and federal guidance to limit virus spread within the incident and surrounding communities near the fire area.
- Provide timely and continuous incident information to affected agency partners, cooperators, California Team 1 as well as the public.
- Utilize social media and all other communications tools to keep the public well informed of the fire conditions and other pertinent information.
- Maintain fiscal accountability and keep costs commensurate with values at risk.

Control Objectives

- Keep the fire north of Grizzly Ridge and Lake Davis
- Keep the fire south of Highway 299
- Keep the fire east of Ponderosa Way and within established control lines
- Keep the fire west of Highway 395 while ensuring infrastructure defense in the communities of Janesville and Milford

General Situational Awareness

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

Stop, Think, Organize, Proceed

INPUTS

WEATHER SUMMARY:

The weather will be cool and continue to dry out. Temperatures will be 72-82 degrees during the day and 35-52 degrees overnight. Humidity will be 12-22 percent during the day and 40-70 percent overnight. The wind will be southwest 5-10 mph with gust to 15 mph in the afternoon. Overnight winds will be northwest around 5 mph.

OUTPUTS

FIRE BEHAVIOR

GENERAL: **FUELS AND FIRE BEHAVIOR ADVISORY IN EFFECT FOR THE FIRE AREA******

The fuels will continue to dry out from the small amount of rain received on Friday morning. The relative humidity recovery overnight will help to moderate the behavior in the morning. In the afternoon the fire will increase in activity as the sun heats the fuels and continues to dry them out. The rate of spread will also increase in the afternoon, with potential moderate rates of spread in wind prone areas. The spotting potential continues to increase as the fire fuels dry with the wind and sun. The spotting distance will be short range, several hundred feet, unless the fire becomes established and develops a column.

SPECIFIC:

Lassen Sector: The fuels will continue to dry, and the fire will become more active in the afternoons. The winds will return to more terrain driven, creating different wind patterns around the peaks. The fuels on top of the Hat Creek Rim will continue to be more active. Torching can be expected in the afternoon, with potential for short range spotting.

Shasta Sector: The heavy materials will continue to consume, and the ground fuels will continue to smolder in the morning and active in the afternoon. The terrain driven winds will create different wind patterns throughout the day. The denser tree stands can expect interior torching, with potential for short range spotting.

Butte/Westwood Sector: The rain and wind increased the amount of overstory dropping to the ground. The rain was not enough to completely extinguish the heavy materials. The increasing new ground layer will dry out over the next couple of days and new smokes will continue to emerge.

AIR OPERATIONS

Visibility will be good for aircraft operations over all areas of the fire throughout the day.

SAFETY

Be prepared for fire activity to increase in the afternoon and base all decisions of expected weather and fire behavior.

The convention calls for frequency lists to show four digits after the decimal place (five digits for 700 MHz frequencies). The letter "U", "N", or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow (6.25 kHz), narrow (12.5 kHz) or wide band (25 kHz). Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeaters (and depending on use, base stations) must be programmed with the Rx and Tx reversed.

MEDIA

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found by scanning the QR code to the right with your mobile device.

CAL FIRE SOCIAL MEDIA POLICY

When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media by scanning the QR code to the right with your mobile device.

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency, and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

PHOTOGRAPHS AND VIDEOS OF INCIDENT

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional, or embarrassing circumstances, which are a serious breach of ethics. You can email the photos to: dixiefire2021@gmail.com.
