

INCIDENT ACTION PLAN

CALDOR FIRE INCIDENT

CA-ENF-024030
P5N8GM21

Friday

OPERATIONAL PERIOD

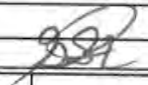

8/20/2021 0700
to
8/21/2021 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Caldor Fire</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">8/20/2021</td> <td style="border: none;">Date To:</td> <td style="border: none;">8/21/2021</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0700</td> <td style="border: none;">Time To:</td> <td style="border: none;">0700</td> </tr> </table>	Date From:	8/20/2021	Date To:	8/21/2021	Time From:	0700	Time To:	0700												
Date From:	8/20/2021	Date To:	8/21/2021																		
Time From:	0700	Time To:	0700																		
3. Objective(s):																					
<u>Management Objectives</u> <ul style="list-style-type: none"> - Provide for emergency personnel and public safety at all times. - Ensure COVID-19 precautions and best practices are met at all times. - Protect property, improvements, and infrastructure. - Ensure coordinated, timely and accurate release of public information. - Foster and maintain relationships with all cooperators and stakeholders. - Protect economic, natural, cultural and heritage resources. - Maintain fiscal accountability and keep costs commensurate with values at risk. 																					
<u>Control Objectives</u> <ul style="list-style-type: none"> - Keep the fire North of HWY 88 and Shake Ridge Rd - Keep the fire South of Wentworth Springs Rd - Keep the fire East of E16 and Fiddletown Rd - Keep the fire West of Strawberry Creek 																					
General Situational Awareness: <ul style="list-style-type: none"> - Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees. - In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing. - Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

INCIDENT Weather Forecast

FORECAST NO: 2
PREDICTION FOR: 24 Hour Shift
SHIFT DATE: 08/20/21
FORECAST ISSUED: 08/19/21 1700

NAME OF FIRE: Caldor
UNIT: USFS Eldorado NF
SIGNED: James Dudley
Incident Meteorologist

WEATHER DISCUSSION: Smoke from both the Caldor and other fires in the region and inversion conditions will persist on Friday before a weather disturbance moving through Oregon shifts the winds aloft around to the southwest and speeds increase on Saturday. Light winds and a stubborn smoke inversion will keep temperatures moderated and relative humidity slightly elevated Friday before the influx of clearer air pushes into the region from the southwest on Saturday. This will push the smoke away from the fire and provide ventilation in addition to allowing full sun to reach the surface. Winds will subside on Sunday with the winds aloft and at the surface remaining from a westerly direction.

.FRIDAY...

Sky/weather.....Mostly sunny. Areas of smoke.
 Max temperature.....69-79.
 Min humidity.....30-35 percent.
 Wind (20 ft).....
 Slope/valley.....East 2-6 mph through 0900 then becoming west 4-9 mph with gusts to 12 mph after 1200.
 Ridgetop.....Southwest 6-10 mph.
 Mixing height.....Near surface increasing to around 7500 ft AGL.
 Transport winds.....South around 5 mph.

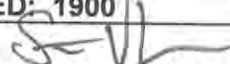

.FRIDAY NIGHT...

Sky/weather.....Mostly clear. Areas of smoke.
 Min temperature.....55-65.
 Max humidity.....45-50 percent.
 Wind (20 ft).....
 Slope/valley.....East 2-6 mph through 0400 then becoming southerly after 0400.
 Ridgetop.....Southwest 15-20 mph.
 Mixing height.....Lowering to near surface.
 Transport winds.....South around 9 mph.

.SATURDAY...

Sky/weather.....Sunny and locally windy.
 Max temperature.....71-81.
 Min humidity.....17-22 percent.
 Wind (20 ft).....
 Slope/valley.....South to southwest 10-16 mph with gusts to 25 mph.
 Ridgetop.....South to southwest 18-26 mph.
 Mixing height.....Near surface increasing to around 6000 ft AGL.
 Transport winds.....Southwest around 25 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 2	TYPE OF FIRE: WILDFIRE
FIRE NAME: CALDOR CAENF-024030	OPERATIONAL PERIOD: 8/20-8/21/21 0700-0700
DATE ISSUED: 8/19/2021	TIME ISSUED: 1900
UNIT: ELDORADO NATIONAL FOREST	SIGNED:  Typed/printed: Stephen Volmer FBAN

INPUTS

WEATHER SUMMARY:

Temperatures will be in the high 70's with minimum relative humidity 30-35%. Winds will be out of the east in the morning, shifting to the West 4-9mph with gusts to 12mph after 12:00. Ridgetop winds will vary from southwest 6-10mph. The dense inversion could begin lifting by noon allowing for more air movement and cleaner air. Nighttime temperature will be in the 50's with humidity rising to 50%. Winds will be downslope during the night, changing to south after 4am and strengthening by 8am.

Review the weather forecast for more details

OUTPUTS

FIRE BEHAVIOR

FUEL MODEL	RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE	PROBABILITY OF IGNITION
TIMBER	8	7	.4 miles	86%
WOODLAND	14	10	.4 miles	86%

GENERAL:

All the fuel in the area is extremely dry and receptive to ignition. A Fuels and Fire Behavior Advisory has been issued for the area by the Northern California Predictive Services for critical fire spread conditions. Current ERC's are above the 90th percentile, 100hr fuels are below the 10th percentile and 1000 hr fuels are below the 3rd percentile. Local live fuel moistures are above critical levels, but brush fields still maintain an abundant amount of dead material within them due to the prolonged drought. Heavy fuels and fire weakened trees will continue to smolder and be a source of deep-seated heat, very hot ash pits, and ember cast throughout the fire area.

SPECIFIC:

- Dead and down material is the main contributor to fire spread. This material is a very receptive fuel bed for ember cast to start new spot fires.
- Spot fires will be hidden from view due to dense timber stands and limited road systems. Use caution, where there is one spot, there are probably many more in the area.
- Multiple drainages containing heavy fuels are in alignment with the winds and topography and will produce moderate rates of spread and ember cast.

AIR OPERATIONS:

Smoke will fill the low-lying areas throughout the mid-morning. The inversion will begin to lift by noon allowing for better visibility and increased fire activity. Transport winds out of the south 5mph. Ridgetop winds will be from northeast 6-11mph in the afternoon, then shifting to northwest 6-11mph with a mixing height of 6,500' AGL.

Sunset 19:50

Sunrise 06:23

SAFETY:

- Know where your escape routes and safety zones are and have an alternate route to them if possible.
- Be alert. Keep calm. Think clearly. Act decisively.
- Fire weakened trees are a good source of ember cast and could release without warning.

Fuels and Fire Behavior Advisory

Northern California

August 17, 2021 to August 31, 2021

Subject: Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

Discussion: Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

Difference from normal conditions: Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify thorough out the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97th percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. **Anticipate increased spread rates, spotting, and active nighttime burning.**
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. **Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.**
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. **Anticipate higher resistance to control in all fuel types.**
- Already this year, Northern California has experienced large fire activity and multiple team deployments. California will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. **Everyone, every day, returns home safely.**

Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding normal expectations for this time of the year. **Local briefings need to be thorough and highlight specific fire environment conditions. These include but are not limited to local weather forecasts, Pocket Cards, ERC's, live and dead fuel moistures.**
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. **Remember LCES. Experienced lookouts are essential under these conditions.**
- Base all actions on current and expected behavior of the fire. **Augment initial attack resources as incident activity dictates.**

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

SAFETY MESSAGE CALDOR INCIDENT

1. Incident Name: CALDOR INCIDENT	2. Operational Period: Date From: 08/20/21 Time From: 07:00	Date To: 08/21/21 Time To: 07:00
--	--	-------------------------------------

LCES – 10’s – 18’s: ALWAYS

WINDS ADD DANGER IN ALL OPERATIONS.

Anticipate Winds changing and increasing; monitor weather conditions/take weather.
No frontal assaults when combating wind-driven fire conditions.
Watch alignment and rates of spread.

HEALTH & WELLNESS: Take Care of Ourselves & Others.

Be cognizant of COVID-19 Best Practices – Wipe Surfaces & Door Handles.
MONITOR yourself and your assigned personnel for FATIGUE and DEHYDRATION.
Avoid Complacency; Maintain Good Work Rest Cycles.
Caution: Rattle Snakes are out.

DEFENSIVE DRIVING REQUIREMENTS: Be the PROFESSIONAL.

Caution with smoke or blind corners; watch for civilian traffic.
EVALUATE your driving routes; monitor speed, gear selection, & brakes.
TURN ON headlights; prepare for the unexpected.
UTILIZE chocks, backers and spotters; when in doubt scout it out!

FIRE BEHAVIOR: Maintain Situational Awareness & Predict.

ALWAYS wear proper PPE for the potential fire behavior.
Drought & Fire Weakened trees all have accident potential; especially with wind.
Fuels: RECEPTIVE - Rates of Spread: Spotting – Watch for alignment!

Terrain & Drainages:

Steep, Footing Issues, Access Issues – Creates alignment and Safety Issues.
WATCH OUT for fires establishing in River Bottoms; have look outs & Escape Routes.

Primary, Alternate, Contingency, Emergency Planning on all new assignments;
Calculate Risk and Take Appropriate Actions based on predicted extreme fire behavior and available resources; have them in-place prior to executing any plan.

REST when opportunity provides itself;
Time to Think – Time to Drink! Stay Hydrated.

4. Site Safety Plan Required? Yes No

5. Prepared by: Name: Jason Novak SOF1

ICS 208

Date/Time: 8/19/21 1900

**CALDOR FIRE
RISK ANALYSIS (ICS 215-A)**

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	EXTREME FIRE BEHAVIOR & NEW START(S)	Know your LCES and maintain Situational Awareness. Use experienced Look Outs. Follow downhill line construction guidelines. Monitor weather for changes in the wind, temp, and RH during the shift. Have a contingency plan with established decision points and safety zones.
ALL	COVID 19, ILLNESS, & HYGIENE	Adhere to local, state, federal and CDC health guidelines. Maintain social distancing when applicable. Wear a mask if unvaccinated. Report any illness symptoms immediately to a supervisor. Hygiene, hand washing, and disinfecting of surfaces & handles often.
ALL	FATIGUE, HEAT, & DEHYDRATION	Don't underestimate the task at hand. Adhere to work/rest cycle for all task(s). Drink water before, during and after shifts, up to 1.5 gal. per shift. Review Heat Related Emergencies (IRPG Pg. 109). Seek shade when you can. Watch for stack-effect of fatigue and exhaustion; REST & Plan operations.
ALL	COMPLACENCY	Be alert for signs of fatigue and distractions; remain engaged. Know your LCES and maintain situational awareness. Have the right radio clone. Know your adjoining forces and FREQUENCIES. Primary, Alternate, Contingency, Emergency on all assignments.
ALL	REPTILES, BEE'S & ANIMALS	Watch Out for RATTLESNAKES! Be aware of possible bee or wasp hives. Be cautious to other natural animals and hazards associated with each.
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness . Know Tree Hazards in the work area. Dangerous Mountain Roads – SLOW Defensive Driving.
ALL	FALLING MODULES & HAZARD TREES.	The ones that haven't fallen yet; look up, look around – identify hazard trees. Identify and isolate the area to provide for the safety of others. Drought-Stressed Trees are weakened; Flag and make proper notifications. Do not fall trees out of your certification level. Evaluate wind and lean prior to making cuts.
ALL	DRIVING HAZARDS	SLOW DOWN! Do 360's before moving vehicles. Utilize Chocks. Drive with headlights & seatbelts on; drive defensively on steep winding roads. Watch Speed through communities; public perception and safety are key. Utilize spotters and backers; when in doubt, scout it out. Assess Road Conditions; Flag hazard if you cannot mitigate, report.
ALL	MINE SHAFTS	Caution to mine shafts that may be in the fire area. Do not enter or seek shade in shafts; stay clear and identify.
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequencies; they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft; CLEAR THE LINE! Only utilize aircraft to insert personnel on the line when necessary.

CAL FIRE INCIDENT MANAGEMENT TEAM 6

Jeff Veik– INCIDENT COMMANDER

DEMOBILIZATION PLAN - SUMMARY CALDOR FIRE INCIDENT CA-ENF-024030

GENERAL INFORMATION

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

GENERAL GUIDELINES

- **NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.**
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled demobilization time.
- **All Rental Vehicles will receive a safety inspection prior to leaving the incident.**
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call **North Ops** at **1-530-224-2466** immediately upon being released from the incident

RESPONSIBILITIES

Unit Leaders will declare resources excess to their **Section Chief**. **Section Chiefs** will declare excess resources to the Planning Section Chief through the **Resource Unit Leader**. This should be done 36 hours in advance of anticipated release. Use the **Declaration of Excess Resources sheet** or **General Message Form (ICS-213)** to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the **RESOURCE UNIT** where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the **DEMOB UNIT**, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact **South Ops** or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

RELEASE PRIORITIES

1. **Organized fire departments**
2. **OES engines**
3. **Hired personnel and equipment**
4. **Other agencies (USFS, BLM, etc.)**
5. **Out of region CAL FIRE forces**
6. **Within Region CAL FIRE Forces**
7. **Unit CAL FIRE Forces**

TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

FINANCE MESSAGE

FEDERAL RESOURCES

- Refer to Caldor Federal Finance Procedures

CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- **CAL FIRE PERSONNEL** – Ensure you have started your eFC-33's and update after each shift. Please make sure Epay schedules are up to date.
- **HIRED EQUIPMENT SUPPLIERS** – Check-in with the TIME Unit and drop off your agreements.

DIVISION / GROUP - LINE SUPERVISORS

- Please turn in hired equipment shift tickets at the end of each shift.
- **SHIFT TICKET BOOKS** – Available in the TIME Unit for agency line supervisors only.

COMP / CLAIMS

- **Damage Claims (suppression, property, vehicle)**
 - ICS-213. We will need location, description of damages, and your contact information.

Dedicated to Effective, Efficient, and Professional Service

CALDOR FEDERAL FINANCE PROCEDURES

Finance Email: 2021.caldor.finance@firenet.gov

Finance Hotline: 530-330-5450

Directions for emailing Documents:

Federal Contract Resources	Federal Overhead and Crews
<p>Send To: 2021.caldor.finance@firenet.gov SUBJECT: <i>Include Key Word: Equipment</i></p>	<p>Send To: 2021.caldor.finance@firenet.gov SUBJECT: <i>Include Key Word: Time</i></p>

DOCUMENTS TO EMAIL TO FINANCE

	<p>Federal Overhead and Crews</p>	<p>Regular Government Personnel & ADs attachments: @Check-In: Crew Manifests, MOUs, or Cooperative Agreement (if applies), AD Casual Hire Sheet/RO Daily: Crew Time Report (CTR), Shift Ticket (<i>when applies</i>), receipts(fuel issues, travel receipts, etc.) @Demob: Signed OF288, Final Equipment Use Invoice</p>
	<p>Federal Contract Resources</p>	<p>Private: Contractor Attachments: @Check-In: Resource Order, Full Contract/Agreement, Certifications <i>(if required)</i>, Pre-Inspection Daily: SHIFT Tickets, receipts (fuel issues, claims, etc.) @Demob: Contractor Evaluations, Final Shift Tickets and receipt for Addition/Deductions, Post-Inspection, Final Signed Invoices</p>

FEDERAL FINANCE DEMOB PROCEDURES

All Resources will be sent their **DRAFT OF-288/OF-286's** via the Finance email. 12 hours will be provided to allow the resource to review their document and reply back to Finance with the statement "No Corrections Necessary" or a description of any issues. After Finance receives the email, any discrepancies will be resolved. Next, the resource is sent the **FINAL DOCUMENT** for signature. They will then email the signed document back to Finance, if able. Finance will then sign the **FINAL DOCUMENT** and email it back to the resource. This completes the process.

Media Law

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is **not permitted** on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be no posting of:

- Inappropriate information or materials, no opinions, no endorsements, inappropriate pictures or videos

Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.

INCIDENT PEER SUPPORT:

Team members are available on the incident for any peer support related needs. The best way to get a hold of them is to call them directly or stop by the ESS Trailer

In addition, there is an onsite clinician available to meet on an individual and/or group basis

Jeremy Sanders 916-281-6472

John Kiszka 530-448-2402

or

CAL FIRE 24 Hr. Peer Support/Helpline

916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543

Mike Aiello 916-584-0548

Warren Parrish 916-823-6641

Nikole Schutz 916-709-0434

Amber Henderson 805-794-1690

Amy Head 916-956-3277

Chris Lomanto 916-247-6974

Connie Quarisa 916-213-8697

Noelle Bahnmilller 916-661-0011

Krissy Shaefer 619-592-6337

Shawna Powell 530-717-0667

Mike Deleo 916-661-0724

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

A message to our firefighters from ASHLEY IVERSON.

Stay Healthy, Stay Alert and Stay Strong!
