INCIDENT Weather Forecast

FORECAST NO: 18
 PREDICTION FOR: 24 Hour Shift
 SHIFT DATE: 09/05/21
 FORECAST ISSUED: 09/04/21 1700

NAME OF FIRE: Caldor West Zone
 UNIT: USFS EI Dorado NF
 SIGNED: James Dudley
 Incident Meteorologist

WEATHER DISCUSSION: High pressure will remain over the fire area through Sunday night and then weak low pressure will develop off the Northern California coast on Monday. A strong smoke-trapping inversion will continue on Sunday however a slight weakening of the inversion and an uptick in winds aloft occur on Monday giving the fire area better ventilation. Temperatures will remain above normal and the airmass will remain very dry. Overnight recoveries will be poor and afternoon humidity values will fall into the upper single digits

.SUNDAY...

Sky/weather.....Sunny with areas of smoke.
 Max temperature.....72-82 Branches 10 and 20 and 82-92 Branches 1 and 30.
 Min humidity.....9-14 percent.
 Wind (20 ft).....
 Slope/valley.....Downslope/down canyon 4-8 mph with gusts to 12 mph through 0900 then becoming upslope 4-9 mph with gusts to 15 mph except gusts to 20 mph along the Highway 50 corridor.
 Ridgetop.....Southwest 4-9 mph.
 Mixing height.....Increasing to around 8000 ft AGL.
 Transport winds.....South around 12 mph.

.SUNDAY NIGHT...

Sky/weather.....Clear. Areas of smoke.
 Min temperature.....52-62 Branches 10 and 20 and 62-72 Branches 1 and 30.
 Max humidity.....17-22 percent.
 Wind (20 ft).....
 Slope/valley.....South to southwest 3-8 mph with gusts to 13 mph through 1900 then downslope/down canyon 4-9 mph with gusts to 13 mph lower drainages.
 Ridgetop.....Southwest 7-10 mph.
 Mixing height.....Lowering to near surface.
 Transport winds.....Southeast around 3 mph.

.MONDAY...

Sky/weather.....Sunny with areas of smoke.
 Max temperature.....74-84 Branches 10 and 20 and 84-94 Branches 1 and 30.
 Min humidity.....8-13 percent.
 Wind (20 ft).....
 Slope/valley.....Downslope/down canyon 4-8 mph with gusts to 13 mph through 0900 then becoming upslope 4-9 mph with gusts to 18 mph except gusts to 25 mph along the Highway 50 corridor.
 Ridgetop.....Southwest to west 8-11 mph...gusts to 18 mph.
 Mixing height.....Increasing to around 8000 ft AGL.
 Transport winds.....South around 13 mph.

Incident Weather Station Data - SCAN Code with Smart Phone

- Branch 1: Pine Tree Rd (TR113), Hawkeye Rd (PG433)
- Branch 10: Sugarloaf (SKBC1), Strawberry (TT431), Owens Camp (OWNC1)
- Branch 20: Leek Peak (TT017), Eldorado Portable NE DP14 (TS445)
- Kirkwood (TT436)
- Branch 30: So So Road (PG415)

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 18	TYPE OF FIRE: WILDFIRE
FIRE NAME: CALDOR WEST ZONE CAENF-024030	OPERATIONAL PERIOD: 9/5-9/6/21 0700-0700
DATE ISSUED: 9/4/2021	TIME ISSUED: 1900
UNIT: ELDORADO NATIONAL FOREST	SIGNED:  Typed/printed: Stephen Volmer FBAN

INPUTS

WEATHER SUMMARY:

Sunny and warm after the inversion burns off. Daytime humidity remains very low 9-14%. Winds upslope upcanyon after 9am 4-9mph with gusts to 15mph. Hwy 50 corridor could experience gusts to 20mph. Ridgetop winds southwest 4-9mph. Nighttime temperatures will be 52-72 degrees with humidity 17-22%, with ridgetop winds southwest 7-10mph. Expect an inversion in the lower elevations and drainages to form overnight.

****Review the weather forecast for more details and QR for RAWs unit information****

OUTPUTS

FIRE BEHAVIOR

FUEL MODEL	RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE	PROBABILITY OF IGNITION
TIMBER LITTER	8	6	.5 miles	90%
UNDERSTORY	19	11	.5 miles	90%
BRUSH	56	9	.3 miles	90%

GENERAL:

BRANCH 1... Smoldering material will continue to be found. Expect call for service to increase due to repopulation of the area.

BRANCH 10... Heavy fuels near the river will continue to burn out and smolder. Continued active burning in Div I. Fire behavior will allow for direct tactics.

BRANCH 20... The fire will continue to be active in Div N. Expect spot fires to continue to be found and initiate new fires. Interior islands, heavy fuels, and timber will continue to burn out and threaten the control lines.

BRANCH 30... Smoldering material will continue to be found. Interior islands will have the potential to burn out causing ember-cast that could create new spot fires. Calls for service will increase due to repopulation.

SPECIFIC:

- Erratic winds will be possible in all the drainages, especially those along Hwy 50, Div I, Div N.
- Fuels remain extremely dry. Review the Fuels and Fire Behavior Advisory.
- Single tree torching will continue to occur with the high chance of producing new spot fires.

AIR OPERATIONS:

Limited visibility until the inversion layer burns off early in the morning. Transport winds out of the south 12mph with a mixing height of 8,000' AGL. Air resources may be limited or ineffective due to reduced visibility.
Sunset 19:26 Sunrise 06:37

SAFETY:

-Deceptively quiet areas of large fires. Always keep your situational awareness up.
- On a hillside where rolling material can ignite fuel below you.
- Stay alert for changes in the weather. Winds will increase and decrease as the inversion burns off.

Fuels and Fire Behavior Advisory

Northern California

September 1, 2021 to September 15, 2021

Subject: Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

Discussion: Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Events with wind have led to extreme rates of spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

Difference from normal conditions: Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify throughout the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97th percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. **Anticipate increased spread rates, spotting, and active nighttime burning.**
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. **Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.**
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. **Anticipate higher resistance to control in all fuel types.**
- Already this year, Northern California has experienced large fire activity and multiple team deployments. California will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. **Everyone, every day, returns home safely.**

Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding normal expectations for this time of the year. **Local briefings need to be thorough and highlight specific fire environment conditions. These include but are not limited to local weather forecasts, Pocket Cards, ERC's, live and dead fuel moistures.**
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. **Remember LCES. Experienced lookouts are essential under these conditions.**
- Base all actions on current and expected behavior of the fire. **Augment initial attack resources as incident activity dictates.**

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

SAFETY MESSAGE

CALDOR INCIDENT WEST ZONE

1. Incident Name: CALDOR	2. Operational Period: Date From: 09/05/21 Time From: 07:00	Date To: 9/06/21 Time To: 07:00
---------------------------------	---	------------------------------------

TREE HAZARDS & SNAGS

Tree Hazards – Look up, look around, identify; gravity and wind increase potential. Trees don't just **Threaten** the line, they threaten your **LIFE!**
Numerous Reports of sections released and caught up in the canopy;
 Plan your work zones with look outs – listen! You have discretionary time.

“Sharing the ROADWAYS”

Safe Speeds are a must! Rehab and Repopulation is going on.
 Watch for congestion and blind corners; we are sharing the road.
 Evaluate your driving routes; monitor speed, gear selection, & brakes.

THINK Big Picture; STAY ENGAGED & AWARE of Surroundings.

PPE for the **potential of the operation**, not just the work at hand.
Watch Out for Roll Out and Falling Rocks; know who is below you.
 Watch your footing; soils and rock cropping's are loose and fire weakened.
 Monitor Conditions and be aware of flare ups or new starts.

AIR SUPPORT

CLEAR the line when coordinating drops.
 Assure proper A/G Coms: CMD or TAC between zones.
 Be aware of knocking snags or taking down trees with drops.

HEALTH & WELLNESS: Take Care of Ourselves & Others

Be cognizant of COVID-19 Best Practices – Wipe Surfaces & Door Handles.
 Social Distancing encouraged, Masks Mandatory at Operational Briefing Areas.

▪ **4. Site Safety Plan Required?** Yes No

5. Prepared by: Name: J. Novak SOF1

Jen Rabuck SOF1

ICS 208

Date/Time September 4, 2021 / 1900

**CALDOR INCIDENT WEST ZONE
RISK ANALYSIS (ICS 215-A)**

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES	
ALL	FATIGUE & COMPLACENCY	Don't underestimate the task at hand. Adhere to work/rest cycle for all tasks. Watch for stack-effect of fatigue and exhaustion, REST & plan operations. Be alert for signs of fatigue and distractions; remain engaged. Drink water before, during and after shifts, up to 1.5 gal. per shift. Have the correct radio clone. Know your adjoining forces and FREQUENCIES.	
ALL	COVID 19, ILLNESS, & HYGIENE	Adhere to local, state, federal and CDC health guidelines. Maintain social distancing. Wear a mask regardless of vaccination status when in clusters, briefings, chow lines, etc. Report any illness symptoms immediately to a supervisor. Hygiene, hand washing, and disinfecting of surfaces & handles often, including vehicles. Enact practices that protect all assigned resources despite personal opinions. Err on the side of the potential best outcome to protect against all infectious diseases.	
ALL	GRAVITY HAZARDS: ROLLING DEBRIS AND SNAGS/ WEAKENED TREES	The ones that haven't fallen yet; look up, look around Identify Hazard Trees. Drought-Stressed Trees are weakened – dry soils provide no support for root systems! Communicate the hazard. Flag and make proper notifications. Use equipment to mitigate hazard trees where feasible. Do not fall trees out of your certification level. Evaluate wind and lean prior to cutting.	
ALL	DRIVING HAZARDS	SLOW DOWN! That means ALL resources and agencies! Use headlights – avoid “auto headlight” settings that may not activate in smoke or do not trigger taillights to turn on. Do 360s before moving vehicles. Utilize chocks, spotters, and backers. Be alert for increased civilian presence in repopulated areas. Watch speed through communities; public perception and safety are key. Keep roadways clear for through traffic and park away from travel paths.	
ALL	IGNITION POTENTIAL/ FIRE BEHAVIOR	Monitor weather conditions and forecasts. Make sure all personnel receive a briefing. Critically low fuel moistures will contribute to rapid fire growth and rates of spread. Expect spotting in receptive fuel beds adjacent to active burning. Evaluate unburned islands for re-burn potential. Identify escape routes, temporary refuge areas and safety zones.	
ALL	MOP UP AND PATROL/ ASH PITS	Use all required PPE at ALL times. Be alert for overhead hazards and uneven terrain. Scout out work areas when under tree canopy and assess risk vs. gain. White ash may indicate deep ash pits and root cavities with hot coals. Use caution while travelling through the burn. Watch for vehicles along roadways.	
ALL	STEEP TERRAIN	Watch your footing while hiking in steep terrain. Expect loose/rolling debris, particularly in areas that fire has burned away surface fuels. Maintain Situational Awareness. Reassess Tree hazards frequently in the work area. Watch for trees and rocks falling across roads and fire lines. Avoid working below other personnel and equipment when possible.	
ALL	BEARS, REPTILES & BEES	This incident area is home to RATTLESNAKES, bees, and wasps. Be bear aware: secure food, trash and sleeping locations to deter possible interactions. Be cautious with other animals and the hazards associated with each.	
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequencies; they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft; CLEAR THE LINE! Do not rely on aircraft: visibility & priorities can change quickly.	
Incident Name: CALDOR INCIDENT WEST ZONE		Prepared by: Jen Rabuck, SOFI <i>J Rabuck</i> Jason Novak, SOFI <i>Jan Novak</i>	OPERATIONAL PERIOD 0700 - 0700

Employee Response Action Plan

COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

Incident Action Plan

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

Facilities Response

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

Medical Evaluation & Contact Tracing

- Personnel interviewed by Medical Unit . List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

DEMOBILIZATION SAFETY MESSAGE

We would like to thank you for your assistance. We wish you safe travels home or to your next assignment. Below are a few reminders to make your trip safer:

- Conduct walk around before driving
- Check for and secure all loose items (ie: tools, hose, and packs)
- Wear seat belts at all times
- Monitor all drivers for fatigue,
 - Switch drivers regularly if possible
 - Find a safe place to stop, exit the vehicle and stretch
 - If all else fails, stop and take a short rest to revitalize
- Obey Posted Speed Limits
- Ensure Personnel have adequate nutrition and hydration for the trip
- Be prepared for the next incident

Thank you again for your hard work!

Jason Novak SOF1

Jen Rabuck SOF1

DEMOBILIZATION PLAN - SUMMARY CALDOR FIRE INCIDENT CA-ENF-024030

GENERAL INFORMATION

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

GENERAL GUIDELINES

- **NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.**
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled demobilization time.
- **All Rental Vehicles will receive a safety inspection prior to leaving the incident.**
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call **North Ops at 1-530-224-2466** immediately upon being released from the incident

RESPONSIBILITIES

Unit Leaders will declare resources excess to their **Section Chief**. **Section Chiefs** will declare excess resources to the Planning Section Chief through the **Resource Unit Leader**. This should be done 36 hours in advance of anticipated release. **Use the Declaration of Excess Resources sheet or General Message Form (ICS-213) to list all excess resources.** Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the **RESOURCE UNIT** where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the **DEMOB UNIT**, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact **South Ops** or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

RELEASE PRIORITIES

1. **Organized fire departments**
2. **OES engines**
3. **Hired personnel and equipment**
4. **Other agencies (USFS, BLM, etc.)**
5. **Out of region CAL FIRE forces**
6. **Within Region CAL FIRE Forces**
7. **Unit CAL FIRE Forces**

TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

FINANCE MESSAGE

FEDERAL RESOURCES

- Refer to Caldor Federal Finance Procedures

CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- **CAL FIRE PERSONNEL** – Ensure you have started your eFC-33's and update after each shift. Please make sure Epay schedules are up to date.
- **HIRED EQUIPMENT SUPPLIERS** – Check-in with the TIME Unit and drop off your agreements.

DIVISION / GROUP - LINE SUPERVISORS

- Please turn in hired equipment shift tickets at the end of each shift.
- **SHIFT TICKET BOOKS** – Available in the TIME Unit for agency line supervisors only.

COMP / CLAIMS

- **Damage Claims (suppression, property, vehicle)**
 - ICS-213. We will need location, description of damages, and your contact information.

Federal Finance Message

---	--

DOCUMENTS TO EMAIL TO FINANCE

	<p>Federal Overhead and Crews</p>	<p>Regular Government Personnel & ADs attachments: @Check-In: Crew Manifests, MOUs, or Cooperative Agreement (if applies), AD Casual Hire Sheet/RO Daily: Crew Time Report (CTR), Shift Ticket (<i>when applies</i>), receipts (fuel issues, travel receipts, etc.) @Demob: Signed OF288, Final Equipment Use Invoice</p>
	<p>Federal Contract Resources</p>	<p>Private: Contractor Attachments: @Check-In: Resource Order, Full Contract/Agreement, Certifications <i>(if required)</i>, Pre-Inspection Daily: SHIFT Tickets, receipts (fuel issues, claims, etc.) @Demob: Contractor Evaluations, Final Shift Tickets and receipt for Addition/Deductions, Post-Inspection, Final Signed Invoices</p>

FEDERAL FINANCE DEMOB PROCEDURES

All Resources will be sent their **DRAFT OF-288/OF-286's** via the Finance email. 12 hours will be provided to allow the resource to review their document and reply back to Finance with the statement "No Corrections Necessary" or a description of any issues. After Finance receives the email, any discrepancies will be resolved. Next, the resource is sent the **FINAL DOCUMENT** for signature. They will then email the signed document back to Finance, if able. Finance will then sign the **FINAL DOCUMENT** and email it back to the resource. This completes the process.

CALDOR INCIDENT PEER SUPPORT:

The Caldor Peer Support Team is available on the incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding stress reactions, dealing with traumatic experiences, professional or personal crisis, other behavioral health impacts and/or obtain vetted resiliency resources.

The best way to get a hold of a Peer Team member is to call the number below or stop by the ESS Trailer.

Peer Support Handouts

In addition, there is an on-site clinician available to meet on an individual and/or group basis.

**Caldor Incident Peer Support Help Line
916-206-9957**

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

A message to our firefighters from ASHLEY IVERSON.

Stay Healthy, Stay Alert and Stay Strong!

Media Law

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE’s mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media **is not permitted** on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an “off the record” comment.

CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be no posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Inappropriate pictures or videos

Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.

<p>Incident Base Camp Mailing Address c/o Public Information Office/Trailer 102 Placerville Dr. Placerville, CA 95667</p>

Resource Advisor Update

Avoidance areas for cultural and sensitive resources are being flagged within Divisions. If work needs to occur in areas identified by the following flagging/placard, please contact a REAF assigned to your Branch.

Avoidance Areas = Pink/Black Checkered Flagging and yellow placards
