#### INCIDENT WEATHER FORECAST

UNIT: USFS El Dorado NF SIGNED: Mark Stubblefield 7/18

Incident Meteorologist

PREDICTION FOR: 24 Hour Shift

SHIFT DATE: 09/13/21

FORECAST NO: 26

FORECAST ISSUED: 09/12/21 1816 

WEATHER DISCUSSION: Weak high pressure will slowly build over the fire early this week. This will bring a slow warming and drying trend with generally light diurnal and terrain driven winds.

.TODAY...

Sky/weather.....Sunny.

Max temperature...77-82 Branches 10 and 20 and 85-90 Branches 1 and 30.

Min humidity......17-23 percent.

Wind (20 ft).....

Slope/valley.....Downslope/down canyon 4-8 MPH with gusts to 13 MPH through 0900

then becoming southwest 7-12 MPH with gusts to 20 MPH.

Ridgetop.....Southwest 5-10 MPH...gusts to 20 MPH.

Mixing height....near surface...becoming 6000 ft AGL mid-afternoon.

\_\_\_\_\_\_

.TONIGHT...

Sky/weather.....Clear.

Min temperature.....50-56 Branches 10 and 20 and 59-64 Branches 1 and 30.

Max humidity......43-53 percent.

Wind (20 ft).....

Slope/valley...... Becoming downslope/down canyon 4-9 MPH with gusts to 13 MPH lower drainages.

Ridgetop.....Southeast 10-15 MPH.

.TUESDAY...

Sky/weather.....Sunny.

Max temperature.....78-83 Branches 10 and 20 and 87-92 Branches 1 and 30.

Min humidity......15-21 percent.

Wind (20 ft)......

Slope/valley......Downslope/down canyon 4-8 MPH with gusts to 13 MPH through 0900 in Branches 1 and 30 otherwise,

southwest 10-15 MPH with gusts to 25 MPH.

Ridgetop.....South 8-12 MPH.

Mixing height... near surface...becoming 6000 ft AGL mid-afternoon.

Incident Weather Station Data - SCAN Code with Smart Phone

Branch 1: Pine Tree Rd (TR113), Hawkeye Rd (PG433)

Branch 10: Sugarloaf (SKBC1), Strawberry (TT431), Owens Camp (OWNC1)

FIRE BEHAVIOR FORECAST										
FORECAST NUMBER: 26	TYPE OF FIRE: WILDLAND FIRE									
FIRE NAME: CALDOR WEST ZONE CA-ENF-024030	OPERATIONAL PERIOD: 9/13-9/14/21 0700-0700									
DATE ISSUED: 9/12/2021	TIME ISSUED: 1900Hrs									
UNIT: ELDORADO NATIONAL FOREST	SIGNED: Robert Clark									
	Typed/printed: R. Clark									

#### **INPUTS**

#### WEATHER SUMMARY:

Sky/ Weather.... Sunny... Tonight...Clear.

Max Temp 77-82 Branch 10 and 20, 85-90 Branch 1 and 30. Min Humidity 17-23%

Wind (20 ft)

DAY- SLOPE/VALLEY: SW 7-12 gusts 20mph RIDGETOPS: SW 5-10 gusts to 20mph.

NIGHT- SLOPE/ VALLEY: Downslope/ down canyon 4-9 with gusts to 13mph in lower drainages.

RIDGETOPS: SE 10-15mph.

\*\*Review the weather forecast for more details and QR for RAWS unit information\*\*

#### **OUTPUTS**

FIRE BEHAVIOR \*\* Fuels and Fire Behavior Advisory in effect for Northern California\*\*

#### GENERAL:

Active fire behavior will continue with the warm and dry weather trend. Re-burn potential exists within green islands where fire intensity/understory fuel bed was not adequate to ignite and consume the overstory. Winds may align with slopes and ignite these areas within the interior. Needle cast and leaf drop in areas has led to a fuel layer that may allow creeping fire to spread from a heat source. Consumption of stumps and heavy down fuels will continue to occur until mopped up. Live and dead fuels throughout the fire area are critically dry and will remain very receptive to ignition.

Timber Litter– Rate of Spread up to 12 ft/mn
Understory– Rate of Spread up to 25 ft/mn
Brush – Rate of Spread up to 70 ft/mn
Flame Lengths 3-6 ft.
Flame Lengths 10-14 ft
Flame Lengths 8-12 ft.

Probability of Ignition: up to 80% Spotting Distance: up to .5 mile. (Peak gusts)

Forecasted ERC: 81 1000Hr fuel moisture: 7

**ENF Pocket Card Watch out Thresholds**: Combinations of any of these factors can greatly increase fire behavior. 20' Wind speed over 5mph, RH less than 22%, Temperature over 84, 1000 Hr fuel moisture less than 9

Fire behavior predictions are based on the hottest and driest period of the day. Rates of spread and flame lengths could exceed forecasted values.

#### SPECIFIC:

ALL BRANCHES...Interior islands, heavy downed fuels, and green timber stringers will continue to smolder, burn out, and will have the potential for active fire runs and isolated torching. Ensure the control lines are clear of needle and leaf cast in areas of understory burn.

AIR OPERATIONS: Sunset: 1913 Sunrise: 0644

Weak inversion in the drainages and valleys through 0900.

#### SAFETY

- Snags and stump holes are likely in timber areas. Deep hot ash pits should be expected.
- Fuels outside the line continue to be very receptive. Be prepared to react to rollout or new starts
- Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels or by the wind.

## **Fuels and Fire Behavior Advisory**

#### Northern California

September 1, 2021 to September 15, 2021

**Subject:** Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

**Discussion:** Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Events with wind have led to extreme rates of spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

**Difference from normal conditions:** Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify thorough out the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

#### **Concerns to Firefighters and the Public:**

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97<sup>th</sup> percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. Anticipate increased spread rates, spotting, and active nighttime burning.
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. Anticipate higher resistance to control in all fuel types.
- Already this year, Northern California has experienced large fire activity and multiple team
  deployments. California will likely experience an extended fire season. It is important to be mindful of
  and manage fatigue for all resources. Everyone, every day, returns home safely.

#### Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding
  normal expectations for this time of the year. Local briefings need to be thorough and highlight
  specific fire environment conditions. These include but are not limited to local weather
  forecasts, Pocket Cards, ERC's, live and dead fuel moistures.
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates.

**Area of Concern:** Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

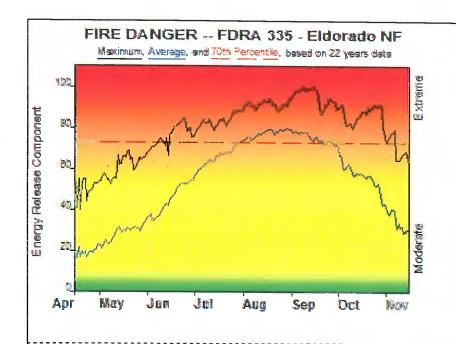

## **Fuels and Fire Behavior Advisory**

## Northern California

September 1, 2021 to September 15, 2021

#### Fire Danger Area:

- FDRA 335
- Fire Wx Zone: CAZ259
- 70th Percentile ERC: 72
- \* Meets NWCG Wx Station Standards

# Eldorato NF

## Fire Danger Interpretation:

EXTREME - Use extreme caution

Caution) — Watch for change

Moderate - Lewer Potential, but always be aware

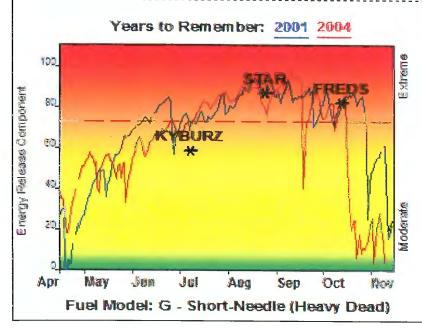

Maximum — Highest Energy Release Component by day for 1992 - 2013

Average — skilds pask fire session over 22 years (4671 observations) 70th Percentile — Only 30% of the 4571 days from 1992 - 2013

had an Energy Release Component above 72

#### Local Thresholds - Watch out: Combinations

of any of these factors can greatly increase fire behavior: 20" Wind Speed over 5 mph. RH less than 22%, Temperature over 84, 1900-Hour Fuel Moisture less than 9

#### Remember what Fire Danger tells you:

W Emergy Release Component gives sessonal trands

calculated from 2 pm temperature, humidity, daily temperature & rh ranges, and precip duration.

Wind is NOT part of ERC calculation.

Watch local conditions and variations across

the landscape - Fuel, Weather, Topography.

W Listen to weather forecasts - especially WIND.

#### Past Experience:

Fires > 100 acres typically occur at an ERC of 72 or greater. Most large fire growth occurs due to a combination of steep slopes, fuel conditions and winds. The majority of large fires on the ENF occur late in the sesson when fuels have fully cured in conjunction with North wind events. Early sesson large fires have occur on the ENF and are associated with years that have a lack of precipitation resulting in early sesson drying of large fuels. ENF fire history is highlighted with fires that have a high resistance to control due to topography, and fuels promoting high fire line intensities and spotting. ENFRAWS: Hellhole, Bald Mtn. Owens Camp, Steely Fork, Seaver.

Responsible Agency: USFS-ENF

FF+4.1 hold 1522 04/20/2014-14:15 (CHENF FIRE MGMTMFDRS/FireSeason\_Values)

## SAFETY MESSAGE

## Carefulness doesn't cost anything. Carelessness could cost your life.

## **Repopulation Hazards**

- Working around structures
- Hazardous materials
- Utility Company Operations
- Heavy Equipment
- Hazardous trees and ash pits
- Congested roadways
- Increased civilian presence

## **Covid-19 Precautions:**

- Keep your distance. Wear a mask when less than 6' from other people.
- No group gatherings without masks.
- Wash your hands.
- Don't show up to work sick.
- Conduct daily health evaluations on your personnel.

## Mop Up:

- Conduct thorough briefing for all personnel.
- Use all required PPE, including eye protection.
- Be alert for stump holes and root cavities.
- Evaluate unburned islands/Increase situational awareness.
- Back haul all trash and equipment off the line.
- Lift equipment with your legs and not your back.

CAL FIRE INCIDENT MANAGEMENT TEAM 2 SOF1 Ryan Danielsen

## Caldor Incident West Zone Risk Analysis ICS 215-A

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	EXTREME FIRE BEHAVIOR	<ul> <li>-Note areas of green fuel stringers or needle cast (near heat signatures) that could cause the fire to stand up.</li> <li>-Expect deep duff, stump holes, and heavy fuels to retain heat for long durations.</li> <li>-Be diligent if fire spots and expect fire to advance quickly.</li> <li>-Read forecasts and seek input from IMET and FBAN. Validate on site observations with expectations.</li> <li>-Use PACE: Primary, Alternate, Contingency, Emergency planning.</li> <li>-Know your LCES and maintain Situational Awareness.</li> </ul>
ALL	COVID 19, ILLNESS, & HYGIENE	-Adhere to local, state, federal and CDC health guidelinesMaintain social distancing. Wear a <u>mask</u> regardless of vaccination status when in clusters, briefings, chow lines, etcReport any illness symptoms immediately to a supervisorHygiene, hand washing, and disinfecting of surfaces & handles oftenEnact practices that protect all assigned resources despite personal opinions and error on the side of the potential best outcome to protect against all infectious diseases.
ALL	CIV PRESENCE/ REPOP	<ul> <li>-Watch for civilian traffic in all areas – particularly with the recent partial opening of HWY 50.</li> <li>-Grizzly Flats area will have more residents – provide support, information, IMT contacts as feasible; show compassion and patience.</li> <li>-Watch for residents in and around the opened areas – but also in unexpected locations.</li> </ul>
ALL	COMPLACENCY	-Be alert for signs of fatigue and distractions; remain engagedIntentionally maintain situational awarenessHave the right radio clone. Know your adjoining forces and FREQUENCIESDo not expect closures and checkpoints to limit access – residents will find ways int closed areas.
ALL	DRIVING	-SLOW DOWN! That means ALL resources!  -Use headlights – avoid "auto headlight" settings that may not activate in smoke or do not trigger taillights to turn on.  -Drive defensively. Use flaggers, overhead lights, pullouts, etc. & limit exposure when working along roads.  -Watch Speed through communities; public perception and safety are key.  -Utilize spotters and backers; when in doubt, scout it out.
ALL	STEEP TERRAIN / ROLLING DEBRIS	-Watch your footing while hiking in steep terrainExpect loose/rolling debris, particularly in areas that fire has burned away surface fuelsMaintain Situational Awareness. Reassess Tree hazards frequently in the work areaDangerous Mountain Roads – SLOW Defensive DrivingWatch for trees and rocks falling across roads and fire lines.
ALL	HAZARD TREE AWARENESS	-The ones that haven't fallen yet; look up, look around <u>Identify Hazard Trees</u> Drought-Stressed Trees are weakened – dry soils provide no support for root systems!Communicate the hazard. Flag and make proper notificationsUse equipment to mitigate hazard trees where feasibleDo not fall trees out of your certification level. Evaluate wind and lean prior to cutting.
ALL	FATIGUE, HEAT & DEHYDRATION	- Do not underestimate the task at hand. Adhere to work/rest cycle for all tasks.  - Drink water before, during and after shifts, up to 1.5 gal. per shift.  -Review Heat Related Emergencies (IRPG Pg. 109). Seek shade when you can.  -Watch for stack-effect of fatigue and exhaustion; REST & Plan operations.
ALL	AIRCRAFT OPERATIONS	-Monitor air-to-ground frequencies; they are your eyes in the sky.  -Use air-to-ground frequency to communicate with aircraft.  -Use clear, concise statements when directing aircraft; CLEAR THE LINE!  -Do not rely on aircraft: visibility & priorities can change quickly.
CALDO	Incident Name: OR INCIDENT WEST ZONE	Prepared by:  Ryan Danielsen, CAL FIRE IMT2 SOF1  Jen Rabuck, NIMO Team 2 SOF1  OPERATIONAL PERIOD  9/13/21-9/14/21  0700 - 0700

## **CAL FIRE / Incident Management Team 2**

**COVID-19 Response Algorithm** 

#### **Employee Response Action Plan**

#### **COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation**

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

#### **Incident Action Plan**

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

#### **Facilities Response**

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

#### **Medical Evaluation & Contact Tracing**

- Personnel interviewed by Medical Unit. List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

#### 6. Control Operations/Work Assignments:

Utilize appropriate suppression methods to keep the fire within its current foot print while protecting life threats and impacts to infrastructure. Mop-up to the degree safe to do so and required for containment.

#### 7. Special Instructions:

Backhaul all unneeded supplies, nets, food, delivery items and trash. All firing operations require notification of chain of command.

FOBS Gorrindo and FOBS (T) Grey will be working throughout Branches 12 and 15. They will check in and out with appropriate divisions.

### CALDOR INCIDENT CA-ENF-024030

### Fire Suppression Repair

### **OBJECTIVES**

- Repair damage caused by suppression actions.
- Prevent future environmental and public safety risks that exist due to suppression actions.
- Protect economic, natural, cultural and heritage resources.

Frequently coordinate repair efforts with REAFs or Suppression Repair Specialists on repair priorities and specific guidelines. The following standards are to be met during suppression repair operations:

### Roads

- Install waterbars where waterbars previously existed.
- Install or maintain rolling dips where a rolling dip previously existed.
- Clean culverts plugged with soil and rock resulting from fire suppression actions.
- Remove all slash and debris from culvert inlets\outlets resulting from suppression actions.
- Clean and grade ditch lines and lead off ditches as necessary.
- Water roads for dust abatement.
- Remove sediment from watercourse crossing locations and stabilize watercourse crossing approaches as appropriate for pre-existing road use.

### Hand Lines, Dozer Lines, and Safety Zones

- Install waterbars. Coordinate with REAFs or Suppression Repair Specialists for guidelines.
- Interior lines and contingency lines that are no longer needed by the incident shall have vegetative material pulled back onto the soil surface (FRA only).
- Remove sediment from watercourse crossing locations and stabilize watercourse crossing approaches with scattered brush or other soil stabilization material.
- Block access to hand lines and dozer lines to prevent unauthorized vehicle use.

### Vegetative Debris (activity fuels) Treatment

- Concentrations of slash created by fire suppression activities along roadways and among structures should be treated to reduce fire hazard. Treatments include mastication, lopping and scattering, and chipping. Where feasible, vegetation treated by mastication or lopping and scattering should not exceed 18 inches in height. Chipped material should be spread across the cleared area. Chip piles should not exceed 6 inches in depth.
- Concentrations of slash within 100 feet of habitable structures should be removed or chipped.

### **Fences**

• Repair fences damaged during fire suppression operations. Intent of fence repair is to prevent livestock or other animals from escaping.

### **Compensation Claims**

• For all other property damage beyond the scope of the Suppression Repair Plan, please document the damage on an ICS 213 and submit it to the Incident Management Team Compensation Claims Unit.

# INCIDENT TRAINING MESSAGE

All trainees on the incident need to check in with the Training Specialist

• Training Specialist is located on "Main Street" at the ICP

DEMOBING trainees need to close out with the Training Specialist in order to receive documented credit for your assignment

- Bring a completed and signed ICS 225
- Evaluator's recommendation Letter
- A completed Exit Interview Form
- Position Task Book

ALL forms are available at the training trailer

Trainers, if you leave the incident before your trainee you will need to complete a <u>Performance Evaluation</u> for the time your trainee was assigned to you.

Claudia Soiza - 949.632.7813

**Training Specialist** 

Charlie Blankenheim – INCIDENT COMMANDER

### **DEMOBILIZATION PLAN - SUMMARY** CALDOR FIRE INCIDENT CA-ENF-024030

### **GENERAL INFORMATION**

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

### **GENERAL GUIDELINES**

- NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours. 0
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only. 0
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled demobilization time.
- All Rental Vehicles will receive a safety inspection prior to leaving the incident.
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call North Ops at 1-530-224-2466 immediately upon being released from the incident

### RESPONSIBILITIES

Unit Leaders will declare resources excess to their Section Chief. Section Chiefs will declare excess resources to the Planning Section Chief through the Resource Unit Leader. This should be done 36 hours in advance of anticipated release. Use the Declaration of Excess Resources sheet or General Message Form (ICS-213) to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the RESOURCE UNIT where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the **DEMOB UNIT**, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact South Ops or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

### RELEASE PRIORITIES

- 1. Organized fire departments
- **OES** engines 2.
- Hired personnel and equipment 3.
- 4. Other agencies (USFS, BLM, etc.)
- 5. Out of region CAL FIRE forces
- 6. Within Region CAL FIRE Forces
- **Unit CAL FIRE Forces** 7.

### TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

### FINANCE MESSAGE

CAL FIRE EMPLOYEE TIME- Computers are available next to the TIME building. Please drop off personnel updates.

DIVISION/GROUP SUPERVISORS – FILL OUT THE SHIFT TICKETS AND TURN IN DAILY.... Please see the examples if you have any questions. HEMS hired - equipment need to be done with CALFIRE Shift Tickets.....

Ensure there is a REQUEST number on every Shift Ticket

HIRED EQUIPMENT SUPPLIERS- ensure you get a copy of your shift ticket and you have turned your agreement in with the TIME unit. This goes for in camp equipment too...

If you have been assigned to demob from the West Zone follow this QR code to get a start for your TIME UNIT the Payment process

COMP/CLAIMS issues- Document all incidents on a 213 at time of incident and proper Department forms as needed. Contact 925-588-6902 if you have questions.

Federal Resources please see federal message

### Federal Finance Message

### TIME COLLECTION:

While electronic submission of CTR's and Shift tickets is preferred, Federal Incident Finance will also accept hard-copy documents. Please see the Federal Finance Box located at the Finance Section Chief trailer at Placerville Camp, or near Ticket Windows at Heavenly Camp.

- ◆PLEASE INCLUDE RO IN SUBJECT LINE OF EMAIL, PLEASE DOCUMENT H-PAY FOR DUTY BEING PERFORMED
- PLEASE MARK YOUR LAST DAY AS FINAL WHEN YOU ARE DEMOBING
- ◆PLEASE MAKE EVERY EFFORT TO TURN IN ALL CTR's AND SHIFT TICKETS DAILY.
- ◆PLEASE INCLUDE DOCUMENTATION ON CTR OR SHIFT TICKET OF SUPERVISOR APPROVAL OF LODGING AND/OR MEAL REINBURSMENT, IN ADDTION TO RECEIPTS
- ◆PLEASE INCLUDE YOUR RESOURCE ORDER # ON ALL DOCUMENTATION SUBMITTED, INCLUDING RECEIPTS.
- ◆IF EQUIPMENT HAS BEEN ASSIGNED MORE THAN 14 DAYS, FEEL FREE TO CONTACT US TO REQUEST AN INTERIM/PROGRESS INVOICE PAYMENT.
- \*PLEASE ENSURE YOU INCLUDE LOCATION OF WHERE YOU ARE WORKING (BRANCH OR DIVISION) ON CTR OR SHIFT TICKET

### **FINANCE CHECK IN:**

•PLEASE ENSURE THE BELOW DOCUMENTS ARE EMAILED TO FINANCE WITH RO NOTED:

Agency	Overhead:	Contract Equipment/Contract	Cooperator:
Equipment/Crews:	<ul><li>Resource</li></ul>	Crews:	<ul><li>Cooperative</li></ul>
<ul> <li>Manifest</li> </ul>	Order	<ul><li>Agreement/Manifest</li></ul>	Agreement
<ul> <li>Resource Order</li> </ul>	<ul> <li>AD Hire Form</li> </ul>	Resource Order	<ul> <li>Resource Order</li> </ul>
⊕ CTR's	(If an AD)	<ul><li>Shift Ticket</li></ul>	Shift Ticket
	• CTR's	<ul> <li>Inspection Forms</li> </ul>	<ul><li>Inspection Forms</li></ul>

### CALDOR FEDERAL FINANCE PROCEDURES

Finance Email: 2021.caldor.finance@firenet.gov

Finance Hotline: 530-330-5450

**Directions for emailing Documents:** 

Federal Co	ntract Resources	Federal Overhead and Crews
Send To: 2021.caldor SUBJECT: Include Key	finance@firenet.gov Word: Equipment	Send To: 2021.caldor.finance@firenet.gov SUBJECT: Include Key Word: Time
	DOCUMENTS TO E	MAIL TO FINANCE
	Federal Overhead and Crews	Regular Government Personnel & ADs attachments:  @Check-In: Crew Manifests, MOUs, or Cooperative Agreement (if applies), AD Casual Hire Sheet/RO  Daily: Crew Time Report (CTR), Shift Ticket (when applies), receipts(fuel issues, travel receipts, etc.)  @Demob: Signed OF288, Final Equipment Use Invoice
	Federal Contract Resources	Private: Contractor Attachments:  @Check-In: Resource Order, Full Contract/Agreement, Certifications (if required), Pre-Inspection Daily: SHIFT Tickets, receipts (fuel issues, claims, etc.) @Demob: Contractor Evaluations, Final Shift Tickets and receipt for Addition/Deductions, Post-Inspection, Final Signed Invoices

### FEDERAL FINANCE DEMOB PROCEDURES

All Resources will be sent their DRAFT OF-288/OF-286's via the Finance email. 12 hours will be provided to allow the resource to review their document and reply back to Finance with the statement "No Corrections Necessary" or a description of any issues. After Finance receives the email, any discrepancies will be resolved. Next, the resource is sent the FINAL DOCUMENT for signature. They will then email the signed document back to Finance, if able. Finance will then sign the FINAL DOCUMENT and email it back to the resource. This completes the process.

### Turn in to Comp/Claims Daily

The intent of this document is intended to track, record and validate the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

# Check-In

# For Federal Resources and Federally Sponsored Contractors

### **Process**

- 1. Check-in at the Check-in trailer at ICP.
- 2. Next, use the QR code or URL to access the Federal Check-in Form.
  - 3. In remarks indicate you are working on the West Zone.

https://bit.ly/2Rr545v

If you are a Federal Resource and have not Checked in through the Check-in form please do so at your earliest convenience.

Thank you!

### **CALDOR INCIDENT PEER SUPPORT:**

The Caldor Peer Support Team is available on the incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding stress reactions, dealing with traumatic experiences, professional or personal crisis, other behavioral health impacts and/or obtain vetted resiliency resources.

The best way to get a hold of a Peer Team member is to call the number below or stop by the ESS Trailer.

eer Support Handouts

In addition, there is an onsite clinician available to meet on an individual and/or group basis.

## Caldor Incident Peer Support Help Line 925-532-5607

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

A message to our firefighters from ASHLEY IVERSON.

Stay Healthy, Stay Alert and Stay Strong!

### Media Law

The <u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is not permitted on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

### CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be no posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Inappropriate pictures or videos

### Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.

### **Incident Base Camp Mailing Address**

c/o Public Information Office/Trailer 102 Placerville Dr. Placerville, CA 95667

### Resource Advisor Update

Avoidance areas for cultural and sensitive resources are being flagged within Divisions. If work needs to occur in areas identified by the following flagging/placard, please contact a REAF assigned to your Branch.

Avoidance Areas = Pink/Black Checkered Flagging and yellow placards

Lead READ - Jen House available at ICP

### **Human Resources Message**

Caldor Fire September 8, 2021

### Reporting Harassment

Harassment, or other forms of inappropriate misconduct, such as bullying, intimidation, etc., can sometimes go unreported. Employees may not know what to report, how to report, or who to report to. If this is case, please come talk to us, and we'll help you out.

But there are other reasons inappropriate behavior may go unreported, including employees being fearful of:

- losing their job
- being demoted
- being denied a raise or promotion
- being treated differently
- not being believed

While the above is understandable, we are fully committed to maintaining a policy of zero tolerance for these types of behaviors that are toxic to the work environment.

We can address issues here on the incident, and we can also follow up with your home units to ensure the behaviors are addressed once you demob, but we can't do anything about issues we aren't aware of. So please, if you see something, say something.
