FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 1 TYPE OF FIRE: Wildfire

FIRE NAME: ELECTRA CA-AEU-17769 OPERATIONAL PERIOD: 7/06/22 – 7/07/22

DATE ISSUED: 7/05/22 TIME ISSUED: 1900

UNIT: AMADOR – EL DORADO SIGNED: Brian Newman

Typed/printed: Brian Newman FBAN

INPUTS

WEATHER SUMMARY

Low pressure area along the west coast will help to keep temperatures cooler and humidity's higher for this time of year. The winds will end up being stronger than normal with afternoon ridgetop gusts between 15 and 20 mph. Other than a slight decrease in humidity's and increase in temperatures Thursday weather conditions will be similar the next two days.

See spot weather forecast for specific details

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fire is located in steep topography of the Mokelumne river drainage. The fire is burning in mainly grass and brush, with some oak and pine tree stands and standing dead snags. Overall, expect continued upcanyon fire spread with occasional spread upslope. Overnight downcanyon winds will limit inversions, allowing for continued activity until the early hours of the morning. Diurnal wind shifts are very predominant in this area and occur regularly just after sunset and again just after sunrise. When the winds are transitioning during these times, expect a inversion to settle in before lifting out again with the increase in winds and resulting increase in fire activity.

SPECIFIC:

Branches I, III, V: Expect continued activity to challenge the lines near the ridgetops and on the flank dropping into the canyon on the eastern portion. Short intense upslope runs are possible when winds and slope are in alignment, and could produce short range spotting, especially in the receptive grass fuel beds. Spotting distances are generally 100 to 300 feet.

Branches X, XII, XIV: Fire will make pushes out of the main canyon on the eastern portion with moderate intensity. Expect swirling winds near confluences of the main river and tributary drainages. Short range spotting is possible but should not be resistive to control efforts.

Air Operations: Smoke inversion will obscure the fire area during the transition in winds in the morning, but will lift out around 1000. Once the smoke clears, opportunities for air operations may present themselves on the ridges first then into the canyon itself.

SAFETY

- Be aware of diurnal wind shifts throughout the morning and evening.
- Short intense fire runs are possible. Make sure you know where your safety zone is at and the time it takes to get there.

ELECTRA INCIDENT FINANCE MESSAGE

FINANCE SECTION is still being set. We are available near Accommodations

CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- CAL FIRE PERSONNEL make sure you have started your eFC-33's and update after each shift. Please make sure Epay schedules are up to date.
- HIRED EQUIPMENT SUPPLIERS Check in with the Time Unit and drop off your agreements.
- SHIFT TICKET BOOKS for line supervisors are available in the Time Unit (agency personnel only).
- DIVISION GROUP SUPERVISORS / LINE SUPERVISORS Please make sure to turn in hired equipment shift tickets at the end of each shift.

COMP / CLAIMS

- Damage Claims (suppression, property, vehicle), 2 ways to report:
 - o QR code at the bottom left
 - ICS-213. We will need location, description of damages, and your contact information.
- Please report all injuries and suppression damage to the Comp / Claims, no matter how minor.
- ***WATER SOURCE WORKSHEET: Please complete the attached form for water sources used. You can also use the QR code at the bottom right.***

Roger Raines, FSC1 Krissy Schaefer, FSC1-T

WATER USAGE REPORT

ATE:			Division / Group:				
ESOURCE / VI	ENDOR ID:			REQUEST #_			
WATER	SOURCE LOCATION	Source (Hydrant, Pond, Tank, Other)	Gallons Used	Property Owner & Contact Number**			

**Please note PROPERTY OWNER AND CONTACT NUMBER! (Use reverse side if needed.)

The intent of this document is to track, record and validated the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

PUBLIC INFORMATION SECTION

Incident Information Line: (530) 647-5218 Incident Media Line: (530) 209-680-6595

STATUS								
Incident Start Date: July 4, 2022	Incident Start Time: 3:44pm							
Incident Type: Wildland	Cause: Unknown							
Total Acreage:	Total Personnel:							

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy here.

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.
