

INCIDENT ACTION PLAN

ELECTRA INCIDENT

CA-AEU-017769

Friday

OPERATIONAL PERIOD

7/8/2022 0700

to

7/9/2022 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Electra</p>	2. Operational Period:	Date From: 7/8/2022 Time From: 0700	Date To: 7/9/2022 Time To: 0700
--	-------------------------------	--	------------------------------------

3. Objective(s):
Strategic Objective

Implement a full suppression strategy on the Electra Fire. Strategy and Tactics implemented on the incident are to be prioritized utilizing life safety, community infrastructure defense, and natural/cultural values as a guiding principle. Minimize acres burned on all lands by effective and efficient firefighting efforts that offer the highest probability of success while maintaining safety first.

Leaders Intent

Work effectively with cooperative partners towards a common goal of protecting values in a safe and efficient manner. All incident assigned personnel should be prepared to take the appropriate actions regarding:

- Professional behavior, conduct timely / effective communications
- Personal safety and safety of others, including driving slowly, safely and defensively Implementation of tactics that offer a high probability of success
- Manage fatigue by taking breaks and maintaining work rest guidelines
- All line supervision personnel including crew and striketeam leaders must attend the morning Operational Briefing

Management Objectives

- Provide for emergency personnel and public safety at all times.
- Protect property, improvements, and infrastructure.
- Ensure coordinated, timely and accurate release of public information.
- Foster and maintain relationships with all cooperators and stakeholders.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability.

Control Objectives

- Keep the fire North of Jesus Maria Road
- Keep the fire South of Highway 88
- Keep the fire East of Highway 49
- Keep the fire West of Highway 26 / Railroad Flat Road

General Situational Awareness:

- Steep and rugged terrain, critically dry and receptive fuel beds, and drought stressed trees.
- In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.
- Enhanced hygiene (especially handwashing), PPE, and monitoring practices help limit the infection rate of first responders.
- Unified Command with Cal Fire, Amador Sheriff, and Calevaras Sheriff

5. Site Safety Plan Required? Yes No

INCIDENT Weather Forecast

FORECAST NO: 1
PREDICTION FOR: 0700-0700
SHIFT DATE: 7/8/22 to 7/9/22
FORECAST ISSUED: 7/7/22 @ 1830

NAME OF FIRE: Electra
UNIT: CalFire
SIGNED: Rich Thompson
Incident Meteorologist

WEATHER DISCUSSION: An onshore/southwesterly flow pattern will remain over the fire through the operational period. Temperatures this afternoon will be a few degrees warmer with highs around 90 degrees with temperatures falling into the lower to mid 60s tonight. Relative humidity will drop to around 20 percent this afternoon with moderate recovery tonight. Ridgetop winds will generally remain light and southwesterly with typical diurnal winds at lower elevations.

On Saturday, persistence conditions are anticipated. However for Sunday into early next week, a warming and drying trend is expected.

WEATHER FORECAST:

WEATHER: Clear.

TEMPERATURES: Max: 88-93.
Min: 61-66.

HUMIDITY: Min: 18-24%
Max: 55-60%.

20 FT WINDS:

RIDGETOP -

0700-1100: Southwest to west 3-6 MPH.
1100-1900: Southwest to west 6-12 MPH.
1900-2300: Southwest to west 5-10 MPH.
2300-0700: Variable 3-6 MPH.

SLOPE/VALLEY -

0700-1100: Variable/upslope 3-6 MPH.
1100-1900: Upvalley 4-8 MPH Gust 12-15 MPH.
1900-0700: Downslope/downvalley 3-6 MPH.

MIXING HEIGHT: 4800-5200 feet AGL during the daytime.
Below 1000 feet AGL overnight.

EXTENDED FORECAST:

SATURDAY: Mostly clear. Highs: 88-94. Lows: 60-66. Min RH: 18-24%. Max RH: 55-60%. Ridgetop Winds: Southwest to west 6-12 MPH. Slope/Valley Winds: typical diurnal winds with upcanyon gusts near 15 MPH in the afternoon hours.

SUNDAY: Mostly clear. Highs: 90-95. Lows: 62-68. Min RH: 15-20%. Max RH: 50-55%. Ridgetop Winds: Southwest to west 6-12 MPH. Slope/Valley Winds: typical diurnal winds with upcanyon gusts near 15 MPH in the afternoon hours.

MONDAY: Mostly clear. Highs: 92-98. Lows: 64-70. Min RH: 12-18%. Max RH: 45-50%. Ridgetop Winds: Southwest to west 6-12 MPH. Slope/Valley Winds: typical diurnal winds with upcanyon gusts near 15 MPH in the afternoon hours.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 3	TYPE OF FIRE: Wildfire
FIRE NAME: ELECTRA CA-AEU-17769	OPERATIONAL PERIOD: 7/08/22 – 7/09/22
DATE ISSUED: 7/07/22	TIME ISSUED: 1900
UNIT: AMADOR – EL DORADO	SIGNED: <i>Brian Newman</i> Typed/printed: Brian Newman FBAN

INPUTS

WEATHER SUMMARY

Temperatures will increase slightly to near normal ranges, with humidity values dropping another 10 to 12%. Overnight humidity recovery decreases slightly from previous nights, but we will still see decent recovery. Winds will generally be terrain driven, strongest in the afternoon and evening.

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fire is located in steep topography of the Mokelumne river drainage. The fire is burning in mainly grass and brush, with some oak and pine tree stands and standing dead snags from the 2015 Butte fire. With the higher temperatures and lower humidity's, expect activity in the islands and fingers due to the holdover heat. When alignment of slope and wind is not present, there is not enough convective heating for the brush to be receptive to burning.

SPECIFIC:

Branches I, III: Fire activity is primarily in the heavier fuels and drainages with oaks and pine trees but expect minimal fire activity in those areas. Residual heat in the unburned islands and smoldering edges of green fingers pose the biggest threat for producing short intense upslope runs when winds and slope are in alignment.

Branch V: Fire is in heavier fuels of brush and mixed timber with a grass understory. Expect more residual heat and higher chances of rollout from the recent firing operation. Be aware of fire weakened trees burning out and falling. The brush and timber are not at critical moisture levels, so firing operations will generally not result in complete consumption.

Branches X, XIV: Fire activity is primarily limited to unburned islands and smoldering edges of green fingers. Short range spotting could occur from slope runs, but shouldn't pose challenges to control. Expect erratic winds near confluences of the main river and tributary drainages, and along the leeside of spur ridges. Fire weakened snags may be an issue as crews work into the canyon.

Air Operations: Smoke inversion will obscure the fire area during the transition in winds in the morning but will lift out around 1000. Once the smoke clears, there will be opportunities for air operations on the ridges first then into the canyon itself.

SAFETY

- Be aware of diurnal wind shifts throughout the morning and evening.
- Watch out for rolling burning debris crossing firelines and starting fires below you!

CAL FIRE INCIDENT MANAGEMENT TEAM 3

1. INCIDENT NAME: Electra Incident		2. DATE PREPARED: July 7, 2022	3. TIME PREPARED: 1000
4. PREPARED BY: David Sargenti SOF1	5. LEADER NAME: David Sargenti SOF1	6. OPERATIONAL PERIOD: 7/8/2022 0700 TO 7/9/2022 0700	

SAFETY MESSAGE

ac-count-a-bil-i-ty

1. the obligation of an individual or organization to account for its activities, accept responsibility for them, and to disclose the results in a transparent manner.

- Trees are stressed due to previous fire activity. Look Up, Down, and Around.
- Make sure everyone gets a briefing!
- Monitor your hydration/nutrition intake and keep adequate supplies of each.
- Scout, size up and mitigate hazards during handline, mop up and patrol.
- Drive defensively and expect the unexpected.
- All types of heavy equipment are working on the incident. Give them space.
- Understand the plan for the day and your individual role within the plan.
- Be aware that civilians continue to occupy the fire area.

SNAG (Hazard Tree) SAFETY:

- S**ize up snag hazards in work area
- N**ever become complacent
- A**lways look up
- G**et weather reports
- S**cout out parking, work areas, and safety zones
- A**dvice co-workers of known hazards
- F**ace your hazards and take appropriate action
- E**xamine work area for other hazards
- T**ake extra caution around heavy equipment
- Y**ou are responsible for your own safety

- Lookouts
- Communications
- Escape Routes
- Safety Zones

CAL FIRE INCIDENT MANAGEMENT TEAM 3 SOF1 David Sargenti

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/ CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	FIRE AND DROUGHT WEAKENED TREES/SNAG HAZARDS	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG p. 20). Many of the trees within the fire area and along roadways are stressed due to previous fires and drought conditions.
ALL	STEEP TERRAIN	<ul style="list-style-type: none"> Ensure proper footing and maintain spacing between crew members. Develop a plan for medical emergency extrication utilizing resources on your Branch.
ALL	DRIVING HAZARDS	<ul style="list-style-type: none"> Watch your speeds. Drive defensively! Expect the unexpected. Watch for road degradation, smokey and dusty conditions. Be aware of debris in the roadways from rollout and suppression operations.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> Ensure adequate personnel and resources are available for the operation. Validate LCES with all resources. Follow the Firing Operations checklist. Utilize Risk Management Process IRPG (p. 1).
ALL	BRIEFINGS	<ul style="list-style-type: none"> Make sure everyone gets a briefing on the plan for the day. Document this on your ICS 214.
ALL	HYDRATION	<ul style="list-style-type: none"> Drink water before, during and after each shift. Be alert for signs of heat stress in yourself and others.
ALL	HELICOPTER AWARENESS	<ul style="list-style-type: none"> Be aware of rotor wash when working near helicopters. Understand that hazardous trees may react to helicopters overhead.
ALL	HEAVY EQUIPMENT	<ul style="list-style-type: none"> Give ample space for heavy equipment to work (100ft in front, 50 feet behind) Avoid working downhill from equipment where rolling material could jeopardize your safety.
ALL	PERSONNEL SAFETY	<ul style="list-style-type: none"> All personnel are responsible for their personal safety. Immediately report any suspicious activity. Be sure to wear all required PPE while on the fire line.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Check the communication plan for frequency assignments. Be clear and concise when talking on the radio. Use human repeaters as needed.
ALL	CIVILIAN PRESENCE	<ul style="list-style-type: none"> Watch for civilian traffic. Be aware that civilians continue to occupy the fire area. Watch for residents in and around the area.
ALL	WEATHER	<ul style="list-style-type: none"> Maintain your situational awareness . Review the forecast for the operational period.
ALL	COVID 19	<ul style="list-style-type: none"> Monitor yourself and crews for signs and symptoms. Wash/sanitize hands often. Maintain social distancing when applicable.
Incident Name: Electra Incident		Date Prepared: 7/7/2022 Prepared by: David Sargenti SOF1 <i>David Sargenti</i>
		Operational Period: 7/8/2022-7/9/2022 0700-0700

In readiness is all

ELECTRA INCIDENT PEER SUPPORT:

The Electra Peer Support Team is available on this incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding stress reactions, dealing with traumatic experiences, professional or personal crisis, other behavioral health impacts and/or obtain vetted resiliency resources.

The best way to make contact with the Peer Team members is to call the number below.

Jake Hannan 530-333-5184

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

A message to firefighters from **ASHLEY IVERSON**.

Stay Healthy, Stay Alert and Stay Strong!

8. MEDICAL EMERGENCY PROCEDURES

LINE EMERGENCY: Crew Supervisor to contact Division Supervisor with patient complaint/condition and location.

- Division Supervisor contacts:
 - FEMT / FEMP
 - Communications Unit
- Communication Unit will clear command channel for emergency traffic; as needed for Minor/Major Emergency
- Communications will switch all emergency traffic to **CALCORD** as needed or requested.
- Communications Unit contacts:
 - Medical Unit
 - Safety
 - Operations
- Division Supervisor will run medical emergency on **CALCORD**.
- Medical Unit will:
 - Dispatch air/ground ambulance to as appropriate.
 - If necessary, after patient pickup, dispatch ambulance to helibase for transportation.
 - Notify receiving hospital of injury status.

CAMP EMERGENCY: Contact Medical Unit with patient complaint/condition and location. Medical Staff will respond to stabilize incident.

INJURY REPORTING PROCEDURES

NATURE OF INJURY _____

LOCATION OF PATIENT _____

TRANSPORTATION REQUESTED BY: AIR ___ GROUND ___

POINT OF PICKUP _____

LAT _____ LONG _____

PATIENT UNIT ID _____

REMINDER: DO NOT GIVE PT NAME OVER RADIO
IS AN EMT WITH PATIENT: YES ___ NO ___

AGE _____

SEX: MALE ___ FEMALE ___

ALL EMERGENCIES---Secure the area and identify witnesses for later investigation. Keep an accurate log of events.

Medical Unit (951) 264-9340

ICS 206 8-78

SACK LUNCH SURVEY QR CODE

Please complete one Sack Lunch Feedback Survey for each sack lunch that you receive. The feedback we receive will help with quality control and drive future changes to the Sack Lunch Program. Help us to help you. All comments are welcome and will be taken into considerations on current and future policy decisions.

Training Message

The Training Specialist has arrived at Base Camp.
If you are here as a trainee, please make sure to stop
by and check-in.

The Training Specialist is located in the trailer
outside of Check-In.

If you have any questions, please do not hesitate to
reach out to me @ 619-971-1701 or

Dottie.Shaw@fire.ca.gov

INCIDENT MANAGEMENT TEAM 3

DEMOBILIZATION MESSAGE

**ELECTRA Incident
CA-AEU-017769**

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

In readiness is all

PUBLIC INFORMATION SECTION

Incident Information Line: (916) 597-0228
Incident Media Line: (209) 680-6595

STATUS	
Incident Start Date: July 4, 2022	Incident Start Time: 3:44pm
Incident Type: Wildland	Cause: Unknown
Total Acreage:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.

ELECTRA INCIDENT FINANCE MESSAGE

Roger Raines, FSC1

Krissy Schaefer, FSC1-T

FINANCE SECTION is located on trailer row south of Pokerville Hall

CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- ◆ **CAL FIRE PERSONNEL** – make sure you have started your eFC-33's and update after each shift. Please make sure Epay schedules are up to date.
- ◆ **HIRED EQUIPMENT SUPPLIERS** – Check in with the Time Unit and drop off your agreements.
- ◆ **SHIFT TICKET BOOKS** - for line supervisors are available in the Time Unit (agency personnel only).
- ◆ **DIVISION GROUP SUPERVISORS / LINE SUPERVISORS** - Please make sure to turn in hired equipment shift tickets at the end of each shift.
- ◆ OES REP Located west of the feeding area.
- ◆ FEDERAL Time, Please see CAL FIRE Time Unit.

COMP / CLAIMS

- ◆ **DAMAGE CLAIMS** (suppression, property, vehicle), 2 ways to report:
 - ⇒ QR code at the bottom left
 - ⇒ ICS-213 with location, description of damages, and your contact information.
- ◆ Report all injuries to the Comp / Claims, no matter how minor.

*****WATER SOURCE WORKSHEET*****

***Please complete the attached form for water sources used.
You can also use the QR code at the bottom right.***

FIRE SUPPRESSION REPAIR PLAN: ELECTRA INCIDENT

Fire suppression repair is the repair of damage caused directly from fire suppression activities. It is not the repair of infrastructure or rehabilitation of burned areas that happened as a result of the fire.

Damaged facilities will be upgraded to functional status to mitigate future damage. Projects too large or complex to be completed by the Fire Suppression Repair Group shall be transferred to the Comp/Claims Unit or the local Unit. Repair work shall only occur in locations authorized by Operations and where fire suppression activities are complete. Fire Suppression Repair Group resources shall evaluate all Divisions for appropriate repair needs. This includes areas inside and outside the fire perimeter, provided the damage was caused by official fire suppression activities. Extra care will be exercised and equipment will be monitored when operating in locations where new fire starts are more likely to occur, such as rocky areas in dry grass. New fires will be reported following the instructions in the radio call plan.

Examples of items that may be repaired include, but are not limited to:

Infrastructure Damage	Natural Resource Damage
Fences and gates	Soil erosion
Culverts, bridges, and other watercourse crossings	Adverse impacts to air and water quality
Water sources	Adverse impacts to protected species of plants and animals
Utility distribution lines (above or below ground)	Archaeological sites
Road barriers removed for fire access	
Trash, debris, and supplies left by fire suppression resources	
Miscellaneous damage to residential property	

Brush piles / windrows: Within 100 feet of public roads or residences and along strategic fuel break areas, brush piles and windrows will be scattered, lopped, crushed, or masticated.

Block access: Where fireline crosses public roads, access will be blocked using slash, masticated material, tank traps, or other methods.

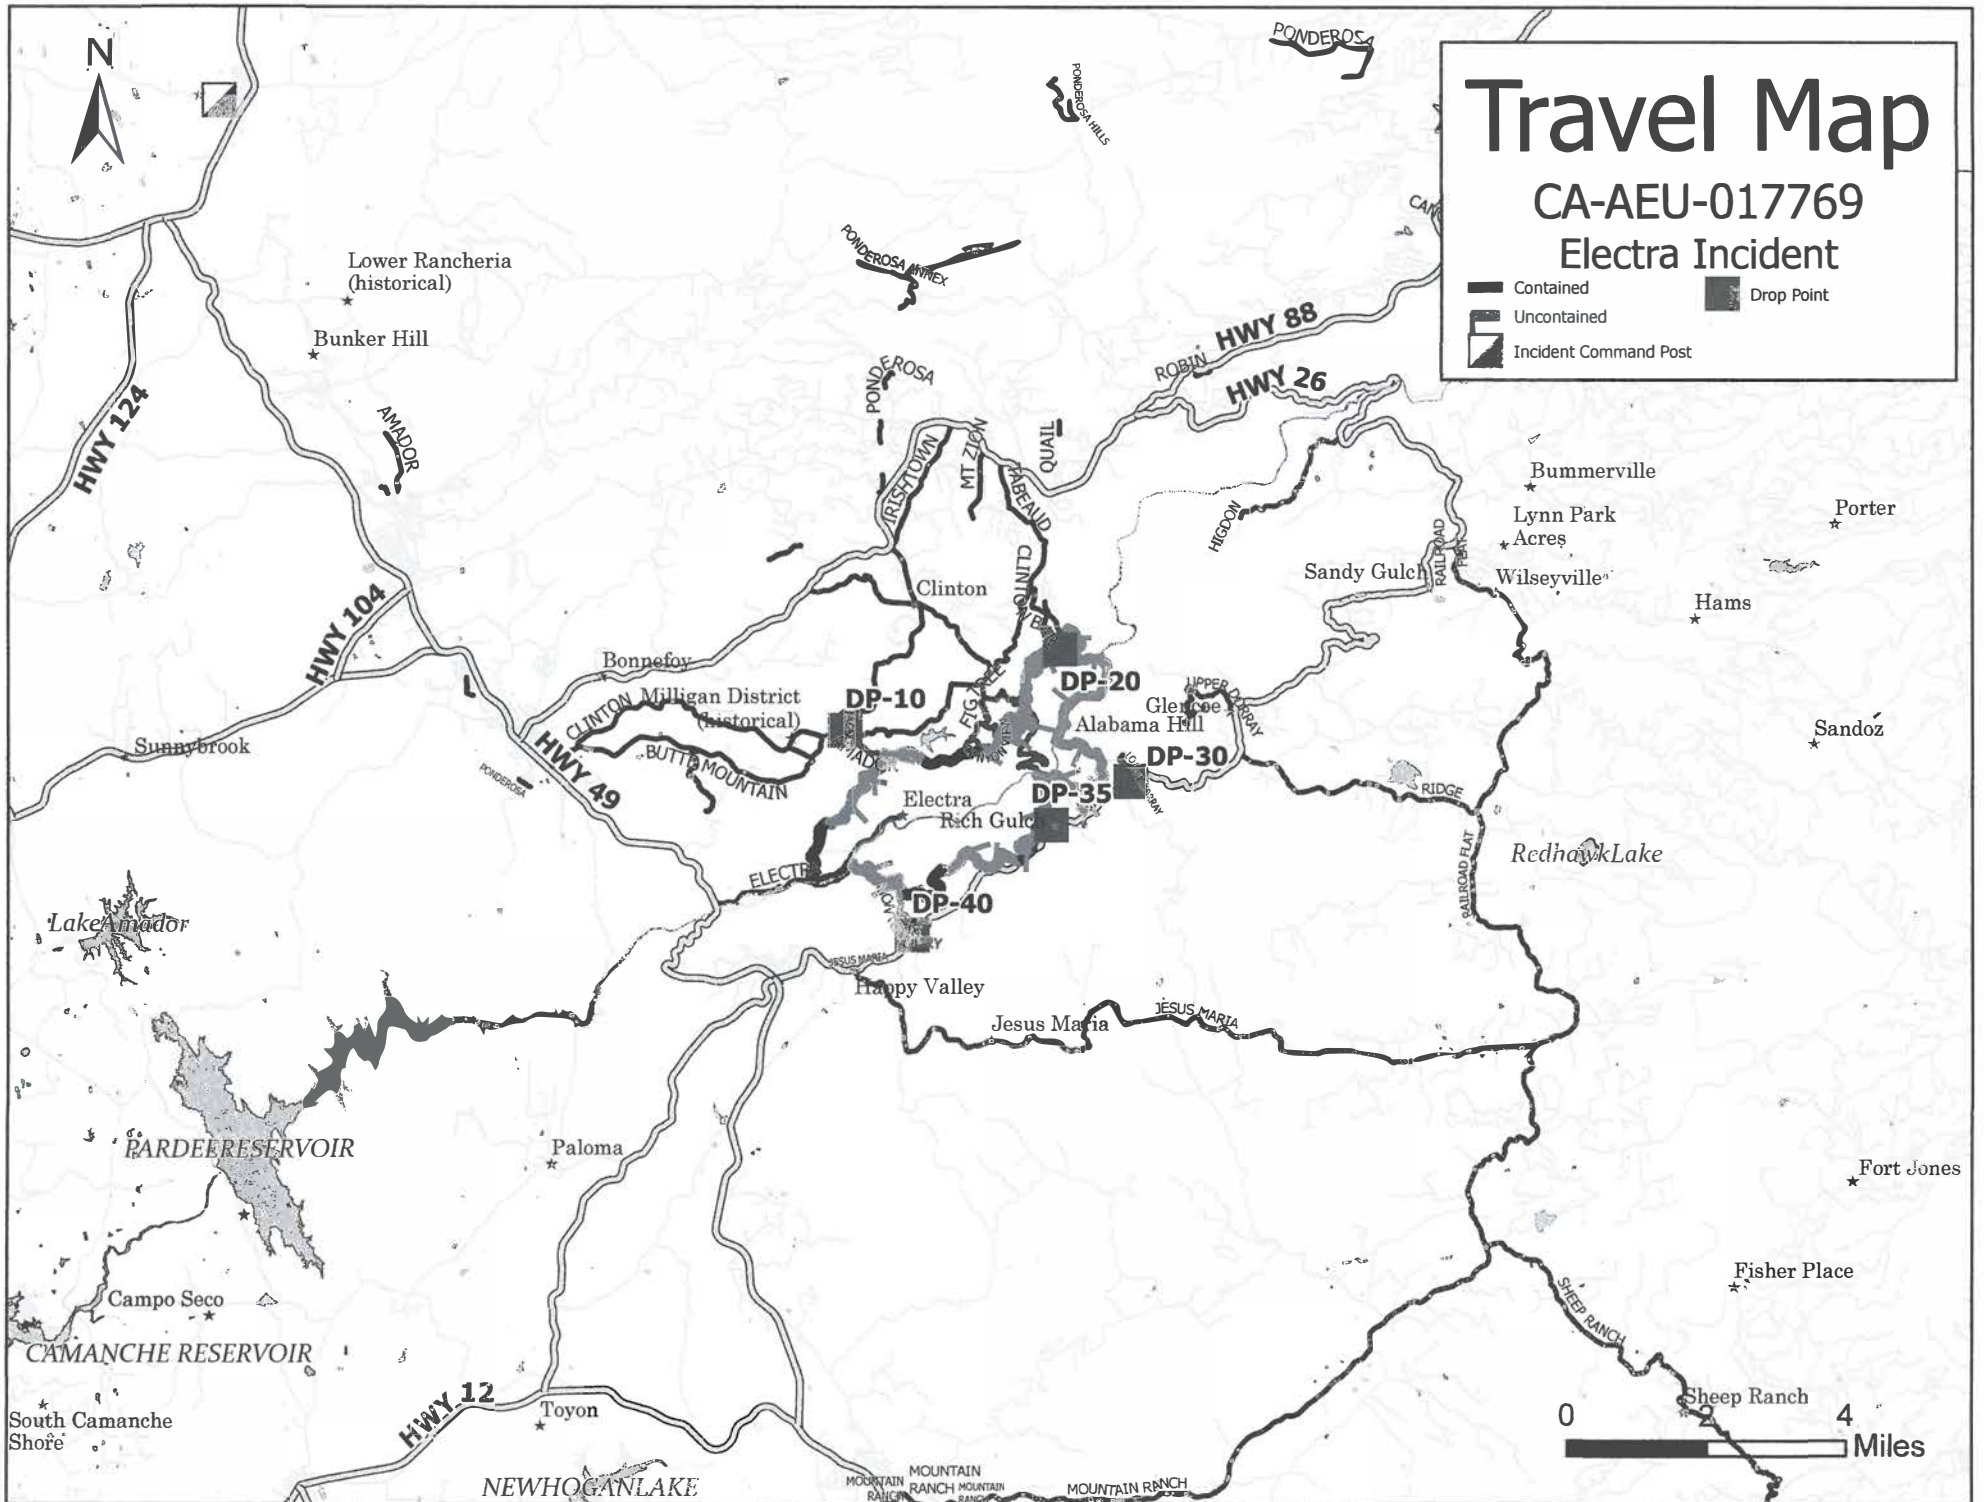

Dozer line and road repair

- Berms and push-piles shall be spread out to the extent feasible. This may be accomplished by back-blading and/or using ripper shanks or grapples. Debris piled against trees or perched above watercourses is especially important to remove or disperse.
- Waterbreaks shall be constructed at a 30-45 degree angle and shall be a minimum depth of 12 inches from the bottom of the cut to the top of the berm. Where feasible, the discharge from waterbreaks shall be directed into vegetated or rocked areas.
- Roads used in fire suppression activities shall be left in the same condition they were found or better. Gravel and soil-surfaced roads shall be watered to prevent excessive dust. Where fire suppression activities have damaged or rendered road drainage facilities non-functional, waterbreaks or drivable dips shall be installed for drainage.
- Where fire suppression activities have filled in or damaged inside ditches, the ditches shall be cleaned and left unobstructed.
- Spacing of waterbreaks shall be as follows:

Prevailing gradient	Maximum waterbreak spacing
0-10%	200 feet
11-25%	150 feet
26-50%	100 feet
>50%	75 feet

Spacing criteria is a general guide. Actual location of waterbreaks should be tailored to the topography and placement suited to the best dispersal of water flow.
