ELECTRA INCIDENT

CA-AEU-017769

OPERATIONAL PERIOD

7/12/2022 0700

to

7/15/2022 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Electra</p>	2. Operational Period: Date From: 7/12/2022 Date To: 7/15/2022 Time From: 0700 Time To: 0700																					
3. Objective(s): Management Objectives <ul style="list-style-type: none"> - Provide for emergency personnel and public safety at all times. - Protect property, improvements, and infrastructure. - Ensure coordinated, timely and accurate release of public information. - Foster and maintain relationships with all cooperators and stakeholders. - Protect economic, natural, cultural and heritage resources. - Maintain fiscal accountability. 																						
<u>Control Objectives</u> <ul style="list-style-type: none"> - Keep the fire within the current fire perimeter 																						
General Situational Awareness: <ul style="list-style-type: none"> - Steep and rugged terrain, critically dry and receptive fuel beds, and drought stressed trees. - In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing. - Enhanced hygiene (especially handwashing), PPE, and monitoring practices help limit the infection rate of first responders. 																						
5. Site Safety Plan Required? Yes <input type="checkbox"/> No

INCIDENT Weather Forecast

FORECAST NO: 5
PREDICTION FOR: 3 Day (Tue-Thu)
SHIFT DATE: 7/12/22 to 7/14/22
FORECAST ISSUED: 7/11/22 @ 1130

NAME OF FIRE: Electra
UNIT: CalFire
SIGNED: Rich Thompson
Incident Meteorologist

WEATHER DISCUSSION: Through the week, the fire will be between a trough of low pressure along the coast and high pressure over the Four Corners area. This will result in above normal temperatures through the week with only minor day-to-day fluctuations. With the warm temperatures, afternoon relative humidity will drop into the teens and 20s with moderate overnight recoveries. Typical diurnal winds are anticipated with southwesterly/upcanyon winds, gusting 10 to 15 MPH, each afternoon and evening.

WEATHER FORECAST:

TUESDAY:

Sky/Weather: Mostly clear.
Temperatures: Highs: 88-98. Lows: 64-72.
Relative Humidity: Min RH: 15-25%. Max RH: 35-50%.
20 Foot Wind:
Ridgetop Winds: Southwest to west 5-10 MPH Gust 15 MPH.
Slope/Valley Winds: Typical diurnal winds with upcanyon gusts around 15 MPH in the afternoon hours.

WEDNESDAY:

Sky/Weather: Mostly clear.
Temperatures: Highs: 85-95. Lows: 62-70.
Relative Humidity: Min RH: 20-30%. Max RH: 40-55%.
20 Foot Wind:
Ridgetop Winds: Southwest to west 5-10 MPH Gust 15 MPH.
Slope/Valley Winds: typical diurnal winds with upcanyon gusts around 15 MPH in the afternoon hours.

THURSDAY:

Sky/Weather: Mostly clear.
Temperatures: Highs: 88-98. Lows: 62-70.
Relative Humidity: Min RH: 15-25%. Max RH: 35-50%.
20 Foot Winds:
Ridgetop Winds: Southwest to west 5-10 MPH Gust 15 MPH.
Slope/Valley Winds: typical diurnal winds with upcanyon gusts around 15 MPH in the afternoon hours.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 7	TYPE OF FIRE: Wildfire
FIRE NAME: ELECTRA CA-AEU-17769	OPERATIONAL PERIOD: 7/12/22 – 7/15/22
DATE ISSUED: 7/11/22	TIME ISSUED: 1200
UNIT: AMADOR – EL DORADO	SIGNED: <i>Brian Newman</i> Typed/printed: Brian Newman FBAN

INPUTS

WEATHER SUMMARY

Above normal temperatures continue through the week with humidity values in the teens. Moderate overnight humidity recovery along with warm temperatures overnight. Winds will generally be up slope / up canyon, strongest in the afternoon and evening on the ridgetops, followed by diurnal winds shifts overnight.

OUTPUTS

FIRE BEHAVIOR

GENERAL: Increased temperatures and lowering humidity could cause smoldering material to become active. Only a few areas of isolated heat with smokes remain visible but no threats to containment lines are expected. The inaccessible terrain and numerous drainages are limiting the ability of ground crews to discover hidden pockets of heat. Infrared (IR) maps have been accurate in locating isolated heat sources. .

SPECIFIC:

Division A: Isolated pockets of smoldering materials and stump holes remain, but these will not threaten control lines. Fire weakened trees and smoldering roots continue to be a concern as crews work deeper into the interior.

Division X: Fire activity is primarily limited to smoldering pockets unburned islands and edges of green fingers. Fire weakened snags may be an issue as crews work into the canyon.

Suppression Repair: As heavy equipment is working in the green, be aware of the warmer and drier conditions that could potentially lead to a new ignition. Expect new ignitions to burn a slow to moderate rate of spread unless aligned with slope and wind. Ignitions outside the fire perimeter will exhibit moderate activity unless aligned with slope and wind. Spotting will be limited to short range, with a PIG of 90% in the heat of the day and fine dead fuel moisture of 3%

Air Operations:

Light haze and smoke in the morning in the canyons, otherwise no weather or fire behavior conditions will be present that will hinder air operations.

SAFETY

- Rolling material can ignite fires below crews.
- Mop up should be more extensive in areas that could generate wind blown embers across the line.

1. INCIDENT NAME:		2. DATE PREPARED:		3. TIME PREPARED:	
Electra Incident		July 11, 2022		1000	
4. PREPARED BY:		5. LEADER NAME:		6. OPERATIONAL PERIOD:	
David Morrison SOF1 (T)		David Sargenti SOF1		7/12/2022 0700 TO 7/15/2022 0700	

SAFETY MESSAGE

Before you do it, take time to think through it.

- Drive defensibly, be aware of increased traffic in the fire area.
- Ensure all crews receive a proper briefing on the plan for the day.
- Continue to Hydrate, weather is getting hotter and drier.
- Maintain proper work/rest rotation.
- Watch out for wildlife on or near the fire line.
-
-

Repopulation Hazards

- Working around structures
- Hazardous materials
- Utility Company Operations
- Heavy Equipment
- Hazardous trees and ash pits
- Congested roadways
- Increased civilian presence

15. WIND INCREASES AND/OR CHANGES DIRECTION

SOF1 (T) David Morrison

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/ CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	FIRE AND DROUGHT WEAKENED TREES/SNAG HAZARDS	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG p. 20). Many of the trees within the fire area and along roadways are stressed due to previous fires and drought conditions.
ALL	STEEP TERRAIN	<ul style="list-style-type: none"> Ensure proper footing and maintain spacing between crew members. Develop a plan for medical emergency extrication utilizing resources on your Branch.
ALL	DRIVING HAZARDS	<ul style="list-style-type: none"> Watch your speeds. Drive defensively! Expect the unexpected. Watch for road degradation, smokey and dusty conditions. Be aware of debris in the roadways from rollout and suppression operations.
ALL	BRIEFINGS	<ul style="list-style-type: none"> Make sure everyone gets a briefing on the plan for the day. Document this on your ICS 214.
ALL	HYDRATION	<ul style="list-style-type: none"> Drink water before, during and after each shift. Be alert for signs of heat stress in yourself and others.
ALL	MOP UP AND PATROL OPERATIONS	<ul style="list-style-type: none"> Ensure that LCES in place. Stay focused on assignment given. Down Hill Checklist
ALL	HEAVY EQUIPMENT	<ul style="list-style-type: none"> Give ample space for heavy equipment to work (100ft in front, 50 feet behind) Avoid working downhill from equipment where rolling material could jeopardize your safety.
ALL	PERSONNEL SAFETY	<ul style="list-style-type: none"> All personnel are responsible for their personal safety. Immediately report any suspicious activity. Be sure to wear all required PPE while on the fire line.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Check the communication plan for frequency assignments. Be clear and concise when talking on the radio.
ALL	CIVILIAN PRESENCE	<ul style="list-style-type: none"> Watch for an increase in weekend vehicle traffic. Be aware that civilians continue to occupy the fire area.
ALL	WEATHER	<ul style="list-style-type: none"> Review the forecast for the operational period.
ALL	WILDLIFE	<ul style="list-style-type: none"> Wildlife has been observed near and on the roadways around the incident. Slow down when passing animals and give them space.

8. MEDICAL EMERGENCY PROCEDURES

LINE EMERGENCY: Crew Supervisor to contact Division Supervisor with patient complaint/condition and location.

- Division Supervisor contacts:
 - Camino ECC
- ECC will clear command channel for emergency traffic; as needed for Minor/Major Emergency
- Communications will switch all emergency traffic to CALCORD as needed or requested.
- Division Supervisor will run medical emergency on CALCORD.

INJURY REPORTING PROCEDURES

NATURE OF INJURY _____

LOCATION OF PATIENT _____

TRANSPORTATION REQUESTED BY: AIR ___ GROUND ___

POINT OF PICKUP _____

LAT _____ LONG _____

PATIENT UNIT ID _____

REMINDER: DO NOT GIVE PT NAME OVER RADIO

IS AN EMT WITH PATIENT: YES ___ NO ___

AGE _____

SEX: MALE ___ FEMALE ___

ALL EMERGENCIES---Secure the area and identify witnesses for later investigation. Keep an accurate log of events.

DEMOBILIZATION MESSAGE

ELECTRA Incident

CA-AEU-017769

Tuesday 7/12/22 and Wednesday 7/13/22

For ALL resources/overhead that need to Demob

Please contact:

Sean Birkimer (530) 448-2495

Starting Thursday 7/14/2022

For ALL resources/overhead that need to Demob

Please contact:

Nicholas Pimlott (530) 363-4252

GROUND SUPPORT

Wednesday 7/13/22 and Thursday 7/14/22

For ALL resources needing mechanical demob inspections or repairs

Please contact:

Scott Hogan (530) 708-2730

LOCATION:

AEU Station 60

11600 CA-49

Sutter Creek, CA 95685

PUBLIC INFORMATION SECTION

Incident Information Line: (916) 597-0228
Incident Media Line: (209) 680-6595

STATUS	
Incident Start Date: July 4, 2022	Incident Start Time: 3:44pm
Incident Type: Wildland	Cause: Unknown
Total Acreage:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.

ELECTRA INCIDENT FINANCE MESSAGE

Roger Raines, FSC1 Pat Aguada, FSC1 Krissy Schaefer, FSC1-T

FINANCE SECTION

As of Wednesday, July 13, 2022, Finance will be located at:

Holiday Inn Express & Suites El Dorado Hills
4360 Town Center Blvd
El Dorado Hills, CA 95762

CAL FIRE TIME (Personnel and Hired Equipment)

- *CAL FIRE PERSONNEL: Continue self-reporting using your existing eFC33 created by the incident.*
- *HIRED EQUIPMENT SUPPLIERS: All Hired Equipment assigned to fire suppression repair between Tuesday-7/12/2022 and Friday-7/15/2022, will have documents completed and closed by the IMT TIME Unit until 0700 hours on Friday, 7/15/2022.*

COMP / CLAIMS

- *Any Comp/Claims issues between Tuesday-7/12/2022 and Friday-7/15/2022 will be handled by the IMT Finance Section. Please continue to use the QR Codes for damage claims and water use until Friday.*

ANY FINANCE QUESTIONS (up-to FRIDAY, 7/15/2022) CONTACT :

TIME UNIT: Jon Warwick (510) 507-1514
COMP/CLAIMS: Matt Gibaldi (510) 507-1107

*****WATER SOURCE WORKSHEET*****

***Please complete the attached form for water sources used.
You can also use the QR code at the bottom right.***

FIRE SUPPRESSION REPAIR PLAN: ELECTRA INCIDENT

Fire suppression repair is the repair of damage caused directly from fire suppression activities. It is not the repair of infrastructure or rehabilitation of burned areas that happened as a result of the fire.

Damaged facilities will be upgraded to functional status to mitigate future damage. Projects too large or complex to be completed by the Fire Suppression Repair Group shall be transferred to the Comp/Claims Unit or the local Unit. Repair work shall only occur in locations authorized by Operations and where fire suppression activities are complete.

Extra care will be exercised and equipment will be monitored when operating in locations where new fire starts are more likely to occur, such as rocky areas in dry grass. New fires will be reported following the instructions in the radio call plan.

Mechanized equipment use in areas where rock strikes could start new fires will be suspended when two of the following three factors exist: temperature 95 degrees or greater; relative humidity below 15%; sustained winds greater than 15 mph.

Examples of items that may be repaired include, but are not limited to:

Infrastructure Damage	Natural Resource Damage
Fences and gates	Soil erosion
Culverts, bridges, and other watercourse crossings	Adverse impacts to air and water quality
Water sources	Adverse impacts to protected species of plants and animals
Utility distribution lines (above or below ground)	Archaeological sites
Road barriers removed for fire access	
Trash, debris, and supplies left by fire suppression resources	
Miscellaneous damage to residential property	

Brush piles / windrows: Within 100 feet of public roads or residences and along strategic fuel break areas, brush piles and windrows will be scattered, lopped, crushed, or masticated.

Block access: Where fireline crosses public roads, access will be blocked using slash, masticated material, tank traps, or other methods.

Dozer line and road repair

- Berms and push-piles shall be spread out to the extent feasible. This may be accomplished by back-blading, using ripper shanks or grapples, or with excavators. Debris piled against trees or perched above watercourses is especially important to remove or disperse.
- Waterbreaks shall be constructed at a 30-45 degree angle and shall be a minimum depth of 12 inches from the bottom of the cut to the top of the berm. Where feasible, the discharge from waterbreaks shall be directed into vegetated or rocked areas.
- Roads used in fire suppression activities shall be left in the same condition they were found or better. Gravel and soil-surfaced roads shall be watered to prevent excessive dust. Where fire suppression activities have damaged or rendered road drainage facilities non-functional, waterbreaks or drivable dips shall be installed for drainage.
- Where fire suppression activities have filled in or damaged inside ditches, the ditches shall be cleaned and left unobstructed.
- Spacing of waterbreaks shall be as follows:

Prevailing gradient	Maximum waterbreak spacing
0-10%	200 feet
11-25%	150 feet
26-50%	100 feet
>50%	75 feet

Spacing criteria is a general guide. Actual location of waterbreaks should be tailored to the topography and placement suited to the best dispersal of water flow.
