MOUNTAIN INCIDENT

CA-SKU-007586

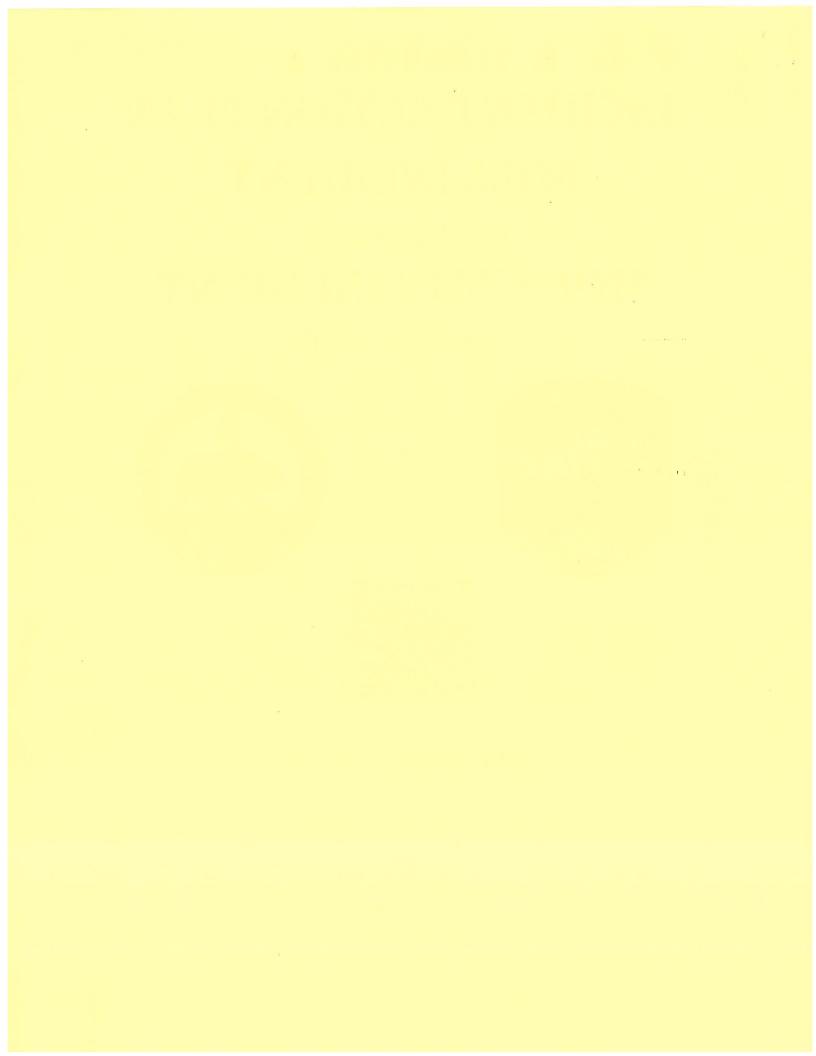

OPERATIONAL PERIOD

9/12/2022 0700

to

9/13/2022 0700

1. Incident Name:	2 Operational Baria					
Mill / Mountain Incident	2. Operational Perio		From: From:	9/12/2022 0700	Date To: Time To:	9/13/2022
3. Objective(s):		Tillie	T TOTTI.	0700	Time 10:	0700
Management Objectives						
- Provide for emergency personnel and public sa	ifety at all times.					
- Protect property, improvements, and infrastruct	ure.					
- Ensure coordinated, timely and accurate releas	e of public information.					
- Foster and maintain relationships with all coope	erators and stakeholders					
- Protect economic, natural, cultural and heritage	resources.					
- Maintain fiscal accountability and keep costs co	mmensurate with values	at risk.				
- Ensure COVID-19 precautions and best practic						
Control Objectives						
Mill Fire Keep fire within the current perimeter.						
Mountain Fire Keep the fire North of Houston Creek. Keep the fire East of McConaughy Gulch Road Keep the fire South of Scarface Road. Keep the fire West of Old Highway 99.	and Duzel Creek.			a.		
General Situational Awareness:						
Steep and rugged terrain, critically dry and recep	otive fuel beds, active are	ea for fire histo	ory and d	rought stressed	I trees.	
In the COVID-19 environment, high density popu	llations or large groups a	are particulary	at risk. To	o help protect y	ourself, you	ır
family and to ensure all employees return home	safely, make sure to pra	ctice social dis	stancing.			
Enhanced hygiene (especially handwashing), PF	PE & monitoring practice	s help limit the	e infection	rate of first res	sponders.

INCIDENT Weather Forecast

FORECAST NO:

8

NAME OF FIRE: Mill and Mountain

PREDICTION FOR:

24 hour shift

SHIFT DATE:

9/12/22-9/13/22 (0700-0700)

FORECAST ISSUED:

9/11/22 @ 1900

UNIT: CalFire SIGNED:

Rich Thompson Incident Meteorologist

WEATHER DISCUSSION:

Skies will remain partly to mostly cloudy today as remnant moisture from former Hurricane Kay streams across the West Coast. There will be a slight chance of some showers, mainly this morning and afternoon. Slightly cooler conditions will prevail across the incidents through the operational period. This afternoon, relative humidity will drop to around 20 to 25 percent with moderate to good recovery tonight. As for winds, southwest to northwest winds will prevail at the ridges and upper slopes this afternoon and evening with typical diurnal winds at lower elevations.

For Tuesday and Wednesday, the cooling trend will continue across the area with an associated increase in relative humidity. Typical westerly winds will prevail at the higher elevations with diurnal winds at the lower elevations.

WEATHER FORECAST:

WEATHER:

Partly cloudy to mostly cloudy. A slight chance of showers.

TEMPERATURES:

Max: 70-80.

Min: Mountain: 58-64. Mill: 54-62.

HUMIDITY:

18-28%. Min:

Max: Mountain 35-50%. Mill 45-65%.

20 FT WINDS:

RIDGETOP -

Variable 4-8 MPH. 0700-1100:

Southwest 5-10 MPH Gust 12-16 MPH. 1100-1800:

Northwest to north 4-8 MPH Gust 10-15 MPH. 1800-2300:

Variable 4-8 MPH. 2300-0700:

SLOPE/VALLEY -

Variable/upslope 4-8 MPH. 0700-1000:

Upvalley 6-12 MPH Gust 15-20 MPH. 1000-1900: 1900-0700: Downslope/downvalley 4-8 MPH.

STABILITY/MIXING HEIGHT:

Moderate instability. Mixing height 8000-10000 feet.

OUTLOOK FOR TUESDAY:

Partly cloudy. High temperatures 68-78. Low temperatures 48-58. Min RH: 20-30%, Max RH: 50-70%. Ridgetop winds: Southwest to west 5-10 MPH Gusts 12-18 MPH. Slope/valley winds: typical diurnal winds with upcanvon

gusts around 15 MPH in the afternoon.

OUTLOOK FOR WEDNESDAY: Mostly clear. High temperatures 64-74. Low temperatures 46-56. Min RH: 25-40%. Max RH: 50-70%. Ridgetop winds: Southwest to west 5-10 MPH Gusts 12-18 MPH. Slope/valley winds: typical diurnal winds with upcanyon

gusts around 15 MPH in the afternoon.

FIRE BEHAVIOR FORECAST TYPE OF FIRE: WILDFIRE FORECAST NUMBER: 9 OPERATIONAL PERIOD: Sep 12, 2022, 24 HR FIRE NAME: Mill - Mountain TIME ISSUED: 1900 Sep 11, 2022 DATE ISSUED: UNIT: CALFIRE SISKIYOU UNIT SIGNED: Typed/printed: Troy Velin - FBAN **INPUTS**

WEATHER SUMMARY:

SEE WEATHER INCIDENT FORECAST

OUTPUTS

FIRE BEHAVIOR

GENERAL:

NFDRS- Energy Release Component is 68 and above the 97th percentile. BI – Burning Index is 47 also above the 97th percentile. 100hr FM 10%, 1000 hr FM 11%. LFM in Manzanita approaching critical at 81%. Annual grass is completely cured. The Mill fire is burning in annual grass, light to heavy brush and scattered high desert timber fuels. The Mountain fire is burning in annual grasses, light to heavy brush and scattered hardwood litter and timber litter. Fire area ranges from 2700' to 6000' elevation. On September 2nd, 2022, a Fuels and Fire Behavior advisory was issued for Northern California. Due to extreme drought, extremely dry fuels and extended periods of hot weather, fire behavior will be elevated for the near future.

SPECIFIC:

Mill

Monitor for isolated pockets of heat within the perimeter.

Mountain

The area of the Mountain fire is steep and broken. There are deep drainages and incontiguous ridges. Recent field observations and IR data shows that most of the heat is interior of the line. There may still be areas of heat near lines or in areas that may compromise the line. Critically dry fuels and steep terrain will support growth outside of control lines.

DIV PP If spots are established West of Scarface Ridge expect afternoon winds to direct the fire North parallel with the ridge.

DIV QQ The fire is established in the Lime Gulch drainage in heavy timber fuels. This Northeastern aspect will have sun on it early in the day and will be active before lunch. Expect uphill runs towards the ridgelines. Monitor for rollout and spotting. Only moderation will be from cloud cover. Open air will increase fire activity.

All other Divisions

- Interior pockets will continue to burn out
- Monitor for rollout
- Trees near the line may still pose a threat
- Stump holes, fire weakened trees, and underground root fires are numerous

AIR OPERATIONS:

Partly to mostly cloudy

SAFETY

Inversions in valleys are very effective at preventing general winds from surfacing on the mid slopes or valley floor. Light local slope and valley flow will likely be the dominant winds. Inversions generally form at night but may persist through daylight hours if sunlight is diminished by smoke, fog, or cloud cover. Beware, strong general winds at night can dissipate an inversion through turbulent mixing. Always pay attention to what you are observing and validate it against you own weather observations.

Fuels and Fire Behavior Advisory

Northern California

September 2nd, 2022

Subject: Potential for extreme fire behavior due to critically elevated fire danger indices, low live and dead fuel moistures, and very hot and dry conditions across much of northern California.

Discussion: An extended period of hot, dry weather with embedded periods of enhanced winds will impact Northern California. The elevated fire weather concerns with fuels reaching their yearly minimum moisture values will create conditions conducive to long range spotting, rapid fire growth, and high resistance to control.

Difference from normal conditions: The current values for Energy Release Component (ERC) are at or above the 90th percentile for the majority of Northern California, with live fuel moistures dropping to critical levels as herbaceous and woody fuels cure. These conditions will be exacerbated by a predicted heat wave, resulting in anomalous daytime highs with little relief in temperature or humidity recovery overnight. Some PSA's, may reach daily record ERC values, with all covered PSA's predicted to reach or exceed the 97th percentile for an extended period. The combination of extreme ERC's with high temperatures and poor overnight humidity recovery is highly correlated with extreme fire behavior in Northern California.

Concerns to Firefighters and the Public:

- The advisory coincides with the Labor Day holiday weekend that is likely to result in increased outdoor recreation and visitor use to public lands across Northern California. The increase in public use carries an increased risk of fire starts as well as potential for evacuations of visitors/ recreational users in the event of a fire starting.
- Energy Release Component (ERC) in areas covered by this advisory are at or above the 90th percentile and are expected to approach or exceed the 97th percentile. **Anticipate increased spread rates, long range spotting, and active nighttime burning.**
- The combination of persistent drought, a building heat wave, and a very dry atmosphere will continue to decrease already low fuel moisture values:
 - o 1000-hour fuel moistures are below average and approaching the 90th percentile,
 - Live woody fuel moisture in brush is near or slightly below average, making them readily available and will likely reach critical levels because of the forecasted hot, dry weather.
 - o The above average herbaceous fuel load at low and mid elevations (below 5,000 ft.) is fully cured, with high elevation herbaceous fuels rapidly curing during the hot, dry forecast.
 - o Higher than average surface fuel loading is present in areas that experienced winter snow and ice storms in the Coast Range and northern Sierra Nevada.

Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.

- Periods of enhanced winds are expected during the hot and dry period. Given the current and anticipated fuels conditions, increases in winds will make direct attack of any new starts difficult and may hamper use of aerial resources.
- Review the current North Ops Outlooks and national fuels and fire behavior advisories.

Mitigation Measures:

- Suppression actions need to be based on good anchor points, escape routes, and safety zones.
 Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates
- Fire managers should be aware of high use recreation and visitor sites in their area. The holiday weekend will bring increased visitor use, increasing risk of starts during critical fire weather.

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast, Bay Marine, and west of Highway 101 in Mid-Coast to Mendocino.

Mill/Mountain INCIDENT HEALTH AND SAFETY MESSAGE

Maintain Situational Awareness!!!

INCIDENT Mill/Mountain CA-SKU-007568/007586 DATE: September 12, 2022 TIME: 0700-0700

Major Hazards and Risks:

COMPLACENCY- DRIVING - RECEPTIVE FUELS - SNAGS

Fatigue: Take frequent nutrition and hydration breaks throughout the day. Hydrate with a 2 water to 1 electrolyte drink ratio on hot dry days. Monitor personnel for fatigue and plan accordingly with work assignments. Stay operationally ready for possible new assignments.

Potential Fire Behavior: Post lookouts when appropriate and monitor weather. A spot outside the line could result in a dangerous rate of spread. Don't be complacent while mopping up, wear proper PPE.

Situational Awareness: Assess your current situation constantly. Take the time to educate your crew on various parts of your division as it relates to the safety message.

Driving: Drive defensively and make sure you have plenty of clearance when passing on narrow roads. There is no need to speed while going to or returning from the fireline.

Environmental Hazards: Be aware of wild animals around the fire area. We have had a few bear sightings on the fireline and in the drop points where trash is waiting for backhaul.

Steep Slopes/Rolling Material/Snags: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness while working around trees and snags.

COVID: Maintain good hygiene and report any symptoms to supervisor.

Lookouts, Communication, Escape routes, Safety zones

TAILGATE SAFETY

- **Safety gear:** Ensure everyone has the appropriate PPE and is using it.
- **Accountability:** Supervisors know where their crews are at all times.
- **Hydration and Nutrition:** Monitor each other for proper hydration and nutrition.
- **Communication:** Everyone knows the comm plan and follows it.
- **Briefing:** Leader's intent is fully communicated, and safety briefing is provided.
- LCES: They are clear, understandable, and made known to everyone.

Planning For Medical Emergencies

Supervisors and all firefighters need to Review your ICS 206 ask and be able to answer the following questions:

What are we going to do if someone gets hurt?

• Is there personnel and equipment available to assist?

How will we get them out of here?

• What is your best extraction and transport method? Road, helispot, hoist? Primary plan and contingency plan in place?

How long will it take to get them to the hospital?

- Will you request air or ground resources?
- Are helicopters able to fly?

Incident Safety Officer: Andrew Kibby, SOF1

Mill/Mountain Incidents CA-SKU-007568/007586 RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS /	REMEDIES				
ALL	FATIGUE/HEAT/DEHYDRATION	Be alert for signs of fatigue and take breaks as necessar Monitor incoming resources for level of fatigue. \$ FINANCE MESSAGE \$

*Please No Off Site Feeding Unless Approved by a Finance Section Chief.

CAL FIRE PERSONNEL

If anyone has any CalCard travel receipts and meal/lodging sign in sheets, please get a copy to Finance.

Don't forget to stop at the TIME Unit and do two separate FC33's if you were assigned to both Incidents please.

FEDERAL RESOURES

Please see the attached information labeled "Mill & Mountain Incident Fed & Fed Contract Resources". Here you will find detailed information for you to send and how to send your documents to a Federal Timekeeper.

LOCAL GOVERNMENT RESOURCES

Make sure you check in with OES for F-42 Paperwork.

ALL HIRED EQUIPMENT

Make sure you get your shift ticket filled out by your **Division Group Supervisor or Supervisor each shift.**

ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to TIME daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly. Example included in IAP.

PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the Comp/Claims Unit ASAP (951) 234-7667.

MILL & MOUNTAIN INCIDENT FED & FED CONTRACT RESOURCES

Please send all documents to R5.CalFire.Support@firenet.gov for all resources.

NOTE: Please scan a single resources order number's documents at a time. Do not scan multiple resource orders' CTRs and Shift Tickets together. Thank you.

Email all documents that pertain to your assignment:

Agency Personnel	Agency ADs / EFFs	VIPR Resources	Contract / Agency Crews
Crew Time reports (CTR)	 Resource Order Casual Hire Form Crew Time reports (CTR) 	 Resource Order VIPR Agreement # Schedule of Items Inspections Shift Tickets 	 Resource Order Manifest Agreement / Contract Schedule of Items Inspections Crew Time Reports / Shift Tickets

Submit Equipment Shift Tickets or Crew Time Reports (CTRs) daily to R5.CalFire.Support@firenet.gov

Please include your email address and phone number in the body of the email when sending your documents.

If you have any questions, please call: FINANCE - (512) 829-1479

PUBLIC INFORMATION SECTION

Incident Information

Public Information Line: (844)668-3474 Media Line: (209)628-3097

		Status	Carrier Control			
Mill Incident Start Date: 9-2-2	2 12:49 p.m.	Mountain Incident Start Date: 9-2-22 3:48 p.m.				
Total acres:	Containment:	Total acres:	Containment:			
Cause: Under Investigation	Total Personnel:	Cause: Under Investigation	Total Personnel:			

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here/benal/code-section-409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not imply that the news media may interfer with incident operations while they are in the areas of concern. More information can be found here-section-409.5cm in the areas of concern. More information can be found here-section-409.5cm in the areas of concern.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy <u>here</u>.

PHOTOGRAPHS AND VIDEOS OF INCIDENT — We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND - The Information Section will manage lost and found items for the incident.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

Siskiyou County Fairgrounds

Yreka, CA 96097

PEER SUPPORT MESSAGE

Watch for the signs and symptoms of stress in yourself and the people around you. Some of the signs and symptoms you may be experiencing include, but are not limited to:

Irritability, lack of sleep, quick to anger, isolation, above average tobacco use, an increase in negative coping mechanisms such as excessive alcohol and/or substance abuse. You might experience lack of appetite, isolate yourself, or various other unexplained reactions to normal everyday events.

Peer Support Handouts

You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit or have a co-worker who is. You may be triggered by a past event, that has impacted you, while assigned to future incidents. A sight, sound, smell, or touch could trigger a memory, affecting you now, but you are not sure why?

If you find yourself in this situation and need to talk to someone, please contact a peer support team member.

The peer support team is available on the incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding the science behind stress and reactions, assistance with professional or personal crisis, other behavioral health, and wellness impacts. Come see and ask us what we do and can provide.... We will gladly explain!

Stay Healthy, Stay Alert and Stay Strong!

TRAINING MESSAGE

If you are a Trainee and have not yet checked in with the Training Specialist, please do so by noon today.

Please reach out to me either in person, by email, text, or by phone.

You do not need to come in person to check in with Training.

If you are demobing please bring the following items with you to Training prior to demobing:

ICS 225

PERFORMANCE EVAULATIONS
QUALIFICATION PAGE OF YOUR TASKBOOK.

You do not need to come in person to check out with Training.

Training now has a Training Specialist Trainee in the Training Shop. There will be someone available until 8:30 pm nightly.

Dottie.Shaw@fire.ca.gov 619-971-1701

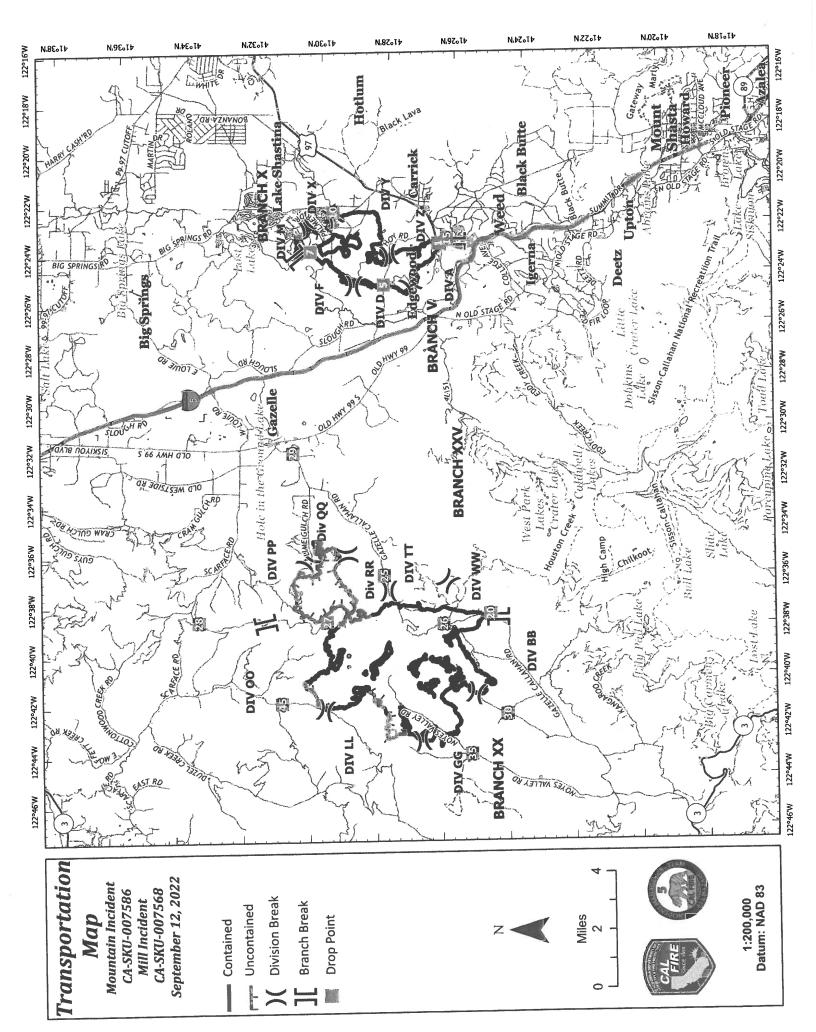

DEMOBILIZATION PLAN MILL CA-SKU-007568

MOUNTAIN CA-SKU-007586

DEMOB PROCEDURES

- Check the demob list daily. You can find the demob list posted around camp or by utilizing the QR code on your IAP.
- Please report to demob only at your scheduled time.
- Only one person per resource is to report to demob.
- The Demob Unit will provide you with an ICS-221 check-out form.
- For the following units, Demob personnel will make positive contact to ensure you are clear for demobilization:
 - Supply Unit
 - o Communications Unit
 - Accommodations Unit (If applicable)
- For the following units, you will report in person to complete your check-out:
 - o Time Unit
 - o Documentation Unit
 - Training Specialist (If applicable)
 - Ground Support Unit
- Return your completed ICS 221 to the Demob Unit and you will be advised of your status (released home, reassigned, etc.)

Greg Barnhart Demobilization Unit Leader CAL FIRE Incident Management Team 5
