INCIDENT OF IT

	ENI OBJECTIV	ES (ICS 2	02)		
1. Incident Name:	2. Operational Period:	Date From:	9/6/2022	Date To:	9/7/2022
Mill / Mountain Incident		Time From:	0700	Time To:	0700
3. Objective(s):					
Management Objectives					
- Provide for emergency personnel and public sa	afety at all times.				
- Ensure COVID-19 precautions and best practic	es are met at all times.				
- Protect property, improvements, and infrastruct	ure.				
- Ensure coordinated, timely and accurate releas	se of public information.				
- Foster and maintain relationships with all coope	erators and stakeholders.				
- Protect economic, natural, cultural and heritage	e resources.				
- Maintain fiscal accountability and keep costs co	ommensurate with values at ri	sk.			
Control Objectives					
Mill Fire Keep the fire North of South Davis Street. Keep the fire East of I-5. Keep the fire South of Louie Road. Keep the fire West of HWY 97. Mountain Fire Keep the fire North of Houston Creek.					
Keep the fire East of McConaughy Gulch Road Keep the fire South of Macs Gulch. Keep the fire West Dewey Mine Road.	and Duezl Creek.				
General Situational Awareness:					14 <u>-14-14-14-14-14-14-14-14-14-14-14-14-14-</u>
- Steep and rugged terrain, critically dry and rece	entive fuel heds, active area for	or fire history and d	rought atroop	nd trans	
 In the COVID-19 environment, high density poperand to ensure all employees return home safely 	oulations or large groups are p y, make sure to practice socia	particulary at risk. T I distancing.	o help protect	yourself, yo	our family
- Enhanced hygiene (especially handwashing), F	PPE & monitoring practices he	lp limit the infection	n rate of first r	esponders.	
5. Site Safety Plan Required?	Yes □ No

INCIDENT Weather Forecast

FORECAST NO:

2

NAME OF FIRE: Mill and Mountain

PREDICTION FOR:

24 hour shift

UNIT: CalFire

SHIFT DATE:

9/6/22-9/7/22 (0700-0700)

SIGNED:

FORECAST ISSUED:

9/5/22 @ 1900

Rich Thompson Incident Meteorologist

WEATHER DISCUSSION: ... RED FLAG WARNING 100 PM to 800 PM TODAY...

...FIRE WEATHER WATCH WEDNESDAY AFTERNOON AND WEDNESDAY EVENING...

... EXCESSIVE HEAT WARNING THROUGH 1100 PM WEDNESDAY...

Critical fire weather conditions are expected across the Mountain Fire this afternoon through early evening due to wind gusts of 20-25 MPH and relative humidity in the low teens and upper single digits. Therefore, a RED FLAG WARNING is in effect this afternoon and evening for the Mountain Fire. Across the Mill Fire, hot and dry conditions can be expected today, but critical fire weather conditions are not expected.

For tonight, warm and dry conditions will continue with poor to moderate humidity recovery. Winds overnight will shift to a downcanyon/easterly direction and diminish noticeably in speed.

On Wednesday, there will be some very slight cooling, but hot and dry conditions will persist. For the Mountain Fire, there is a chance of critical fire weather conditions, due to gusty winds and low relative humidity, and a FIRE WEATHER WATCH is in effect for the Mountain Fire. Conditions across the Mill Fire are not expected to be critical. Additionally, there is an outside chance of thunderstorm development (10% chance) Wednesday afternoon. If any thunderstorms do develop, the storms would be dry, resulting in lightning and outflow winds as the main hazards.

WEATHER FORECAST:

WEATHER:

Mostly clear. Areas of smoke.

TEMPERATURES:

Max: 92-102.

Min: Mountain: 64-72. Mill: 58-64.

HUMIDITY:

Min: 8-18%.

Max: Mountain: 25-35%. Mill: 40-50%.

20 FT WINDS:

RIDGETOP -

0700-1300: South 4-8 MPH.

1300-1700: Southwest 6-12 MPH Gust 16-22 MPH.

1700-2100: West to northwest 8-15 MPH Gusts 20-25 MPH.

2100-0200: North to northeast 5-10 MPH. 0200-0700: East to southeast 4-8 MPH.

SLOPE/VALLEY -

0700-0900: Variable/upslope 3-6 MPH.

0900-1300: Upvalley 4-8 MPH.

Upvalley 5-10 MPH Gusts 12-18 MPH. 1300-2000:

2000-0700: Downslope/downvalley 2-5 MPH Gusts 8-10 MPH.

STABILITY/MIXING HEIGHT:

Moderate to high instability. Mixing height 15000-20000 feet.

OUTLOOK FOR WEDNESDAY: Partly cloudy with areas of smoke. A 10% chance of dry thunderstorms in the afternoon. High temperatures 90-100. Low Temperatures 56-66. Min RH: 10-20%. Max RH: 35-50%. Winds: typical diurnal winds at lower elevations with upcanyon gusts around 15 MPH in the afternoon. For ridgetops, southwest to northwest winds with gusts around 20 MPH in the afternoon and evening hours.

FORECAST NUMBER: 3 FORECAST NUMBER: 3 FIRE NAME: Mill - Mountain DATE ISSUED: Sep 5, 2022 UNIT: CALFIRE SISKIYOU UNIT Typed/printed: Troy Velin - FBAN INPUTS

WEATHER SUMMARY:

RED FLAG WARNING Today. SEE SPOT FORECAST

OUTPUTS

FIRE BEHAVIOR

GENERAL:

NFDRS- Energy Release Component is 64 and above the 97th percentile. BI – Burning Index is 46 also above the 97th percentile. 100hr FM 10%, 1000 hr FM 11%. LFM in Manzanita approaching critical at 85%. Annual grass is completely cured. The Mill fire is burning in annual grass, light to heavy brush and scattered high desert timber fuels. The Mountain fire is burning in annual grasses, light to heavy brush and scattered hardwood litter and timber litter. Fire area ranges from 2700' to 6000' elevation. On September 2nd, 2022, a Fuels and Fire Behavior advisory was issued for Northern California. Due to extreme drought, extremely dry fuels and extended periods of hot weather, fire behavior will be elevated for the near future.

SPECIFIC:

Mill

Increased winds this afternoon may affect isolated pockets of heat within the perimeter.

Mountain

The fire is actively burning in steep broken terrain absent of modern fire history; expect torching, short duration crown runs and spotting. General movement of the fire will be to the West and North. Fire backing into creek drainages has the potential to make slope reversals with rapid runs to ridgetops. Winds will be stronger on the ridges and provides an opportunity for mid to long range spotting. **Chance of plume dominated fire behavior and rapid growth this afternoon.** All areas of the fire may become active today, including areas considered "cold".

- Div BB will likely be the first division with clear air. Continue to monitor for rollout.
- In GG unburned islands and unimproved line will be a threat with today's weather.
- In Div LL, the fire will continue to challenge Moffet Creek. Under clear air and strong winds spotting
 potential will increase today.
- The upper elevations of Div OO will likely receive the most wind today. Monitor for spot fires in the Sissel Gulch drainage in Sections 4 and 5.
- Div's PP, TT and WW will get wind tested today; vigilance required.

AIR OPERATIONS:

Sunrise 6:41 am Sunset 7:34 pm. Expect smoke inversion to lift. Sunny and clear

SAFETY

Winds will increase today. This will disrupt the smoke inversion over the Mountain fire. With clear air, full sun strong surface winds, and an unstable atmosphere fire behavior will increase rapidly. Pay attention to smoke cover overhead as this will be an indicator of changing conditions and the resulting increase in fire behavior.

Fuels and Fire Behavior Advisory

Northern California

September 2nd, 2022

Subject: Potential for extreme fire behavior due to critically elevated fire danger indices, low live and dead fuel moistures, and very hot and dry conditions across much of northern California.

Discussion: An extended period of hot, dry weather with embedded periods of enhanced winds will impact Northern California. The elevated fire weather concerns with fuels reaching their yearly minimum moisture values will create conditions conducive to long range spotting, rapid fire growth, and high resistance to control.

Difference from normal conditions: The current values for Energy Release Component (ERC) are at or above the 90th percentile for the majority of Northern California, with live fuel moistures dropping to critical levels as herbaceous and woody fuels cure. These conditions will be exacerbated by a predicted heat wave, resulting in anomalous daytime highs with little relief in temperature or humidity recovery overnight. Some PSA's, may reach daily record ERC values, with all covered PSA's predicted to reach or exceed the 97th percentile for an extended period. The combination of extreme ERC's with high temperatures and poor overnight humidity recovery is highly correlated with extreme fire behavior in Northern California.

Concerns to Firefighters and the Public:

- The advisory coincides with the Labor Day holiday weekend that is likely to result in increased outdoor recreation and visitor use to public lands across Northern California. The increase in public use carries an increased risk of fire starts as well as potential for evacuations of visitors/ recreational users in the event of a fire starting.
- Energy Release Component (ERC) in areas covered by this advisory are at or above the 90th percentile and are expected to approach or exceed the 97th percentile. **Anticipate increased spread rates, long range spotting, and active nighttime burning.**
- The combination of persistent drought, a building heat wave, and a very dry atmosphere will continue to decrease already low fuel moisture values:
 - o 1000-hour fuel moistures are below average and approaching the 90th percentile,
 - Live woody fuel moisture in brush is near or slightly below average, making them readily available and will likely reach critical levels because of the forecasted hot, dry weather.
 - The above average herbaceous fuel load at low and mid elevations (below 5,000 ft.) is fully cured, with high elevation herbaceous fuels rapidly curing during the hot, dry forecast.
 - Higher than average surface fuel loading is present in areas that experienced winter snow and ice storms in the Coast Range and northern Sierra Nevada.

Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.

- Periods of enhanced winds are expected during the hot and dry period. Given the current and anticipated fuels conditions, increases in winds will make direct attack of any new starts difficult and may hamper use of aerial resources.
- Review the current <u>North Ops Outlooks</u> and <u>national fuels and fire behavior advisories</u>.

Mitigation Measures:

- Suppression actions need to be based on good anchor points, escape routes, and safety zones.
 Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates
- Fire managers should be aware of high use recreation and visitor sites in their area. The holiday weekend will bring increased visitor use, increasing risk of starts during critical fire weather.

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast, Bay Marine, and west of Highway 101 in Mid-Coast to Mendocino.

- Division Supervisor or designee will serve as point of contact and run medical emergencies on the assigned channel.
 - A pre-assigned COMMAND frequency and CALCORD should be used for IWI and only for duration of need.
- Communications Unit will clear the command channel for emergency traffic as needed and only for the duration of need.

CAMP EMERGENCY:

Contact the Medical Unit 831-325-4221 with a patient complaint/condition and location. Medical Staff will respond to stabilize incident:

- **Medical Unit contacts:**
 - 1. Communications
 - Safety Logistics
- 5. Crew Supervisor

\$ FINANCE MESSAGE \$

Please No Off Site Feeding Unless Approved by a Finance Section Chief. Certain circumstances will need to apply for our approval.

CAL FIRE PERSONNEL

Make sure to create a paper FC-33 so we can update. If anyone has any CalCard travel receipts and meal/lodging sign in sheets, please get a copy to Finance.

LOCAL GOVERNMENT RESOURCES

Make sure you check in with TIME Unit for ABH or F-42 Paperwork.

ALL HIRED EQUIPMENT

Make sure you get your shift ticket filled out by your **Division Group Supervisor or Supervisor.**

ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to TIME daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly. **Example included in IAP.**

PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the Comp/Claims Unit.

Cause: Under Investigation	Total Personnel:	Cause: Under Investigation	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND - The Information Section will manage lost and found items for the incident.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

Siskiyou County Fairgrounds

ATTN: Mill or Mountain Information (Your Name and Resource) 1712 Fairlane Road Yreka, CA 96097

PEER SUPPORT MESSAGE

Watch for the signs and symptoms of stress in yourself and the people around you. Some of the signs and symptoms you may be experiencing include, but are not limited to:

Irritability, lack of sleep, quick to anger, isolation, above average tobacco use, an increase in negative coping mechanisms such as excessive alcohol and/or substance abuse. You might experience lack of appetite, isolate yourself, or various other unexplained reactions to normal everyday events.

Peer Support Handouts

You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit or have a co-worker who is. You may be triggered by a past event, that has impacted you, while assigned to future incidents. A sight, sound, smell, or touch could trigger a memory, affecting you now, but you are not sure why?

If you find yourself in this situation and need to talk to someone, please contact a peer support team member.

The peer support team is available on the incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding the science behind stress and reactions, assistance with professional or personal crisis, other behavioral health, and wellness impacts. Come see and ask us what we do and can provide.... We will gladly explain!

Stay Healthy, Stay Alert and Stay Strong!

TRAINING MESSAGE

The Training Specialist is located in the same trailer as Safety.

When stopping by Training please make sure to enter at the last door to not disturb anyone in the Safety Shop.

Checking in with Training is quick and easy and takes less than 2 minutes to complete.

Remember, if you are a trainee and have checked in with check-in you still need to check in with Training.

If you are unable to stop by and check-in in person, please reach out to me via email, phone, or text.
