INCIDE	ENT OBJECTIV	/ES (ICS 2	02)		
1. Incident Name:	2. Operational Period:	Date From:	9/8/2022	Date To:	9/9/2022
Mill / Mountain Incident		Time From:	0700	Time To:	0700
3. Objective(s):					
Management Objectives					
- Provide for emergency personnel and public safe	ety at all times.				
- Protect property, improvements, and infrastructur	·e.				
- Ensure coordinated, timely and accurate release	of public information.				
- Foster and maintain relationships with all coopera	ators and stakeholders.				
- Protect economic, natural, cultural and heritage r	esources.				
- Maintain fiscal accountability and keep costs com	nmensurate with values at ri	isk.			
- Ensure COVID-19 precautions and best practices	s are met at all times.				
Control Objectives					
Mill Fire Keep fire within the current perimeter.					
Mountain Fire Keep the fire North of Houston Creek. Keep the fire East of McConaughy Gulch Road an Keep the fire South of Macs Gulch. Keep the fire West Dewey Mine Road.	nd Duzel Creek.				
General Situational Awareness:					
- Steep and rugged terrain, critically dry and recept	ive fuel beds, active area fo	or fire history and dr	ought stressed	d trees.	
- In the COVID-19 environment, high density popula					ır
family and to ensure all employees return home sa				, - = , ,	
- Enhanced hygiene (especially handwashing), PPE			rate of first re	sponders.	
5. Site Safety Plan Required?	Yes □ No				
Approved Site Safety Plan(s) Located at:

INCIDENT Weather Forecast

FORECAST NO:

SHIFT DATE:

4

NAME OF FIRE: Mill and Mountain

PREDICTION FOR:

24 hour shift

9/8/22-9/9/22 (0700-0700)

FORECAST ISSUED:

9/7/22 @ 1900

UNIT: CalFire SIGNED:

Rich Thompson Incident Meteorologist

WEATHER DISCUSSION:

Cooler conditions are expected through the operational period with afternoon high temperatures in the mid 80s to lower 90s. Relative humidity will be a little higher with minimum humidity dropping into the 20-30% range with moderate recovery tonight. Ridgetop winds will remain northeasterly through the period with gusts around 15 to 20 MPH. At lower elevations, typical diurnal winds will prevail although these diurnal winds will be battling with the northeasterly ridgetop winds.

On Friday, there will some slight warming along with an associated decrease in relative humidity. Ridgetop winds will remain northeast to east with diurnal winds anticipated at lower elevations. From Saturday into early next week, a noticeable cooling trend is anticipated with the potential for some precipitation by the Sunday through Tuesday time frame as moisture from Hurricane Kay moves into the area.

WEATHER FORECAST:

WEATHER:

Partly cloudy.

TEMPERATURES:

Max: 83-93.

Mountain: 62-68. Mill: 52-58. Min:

HUMIDITY:

20-30%. Min: Max: 40-55%.

20 FT WINDS:

RIDGETOP -

0700-1000: North to northeast 4-8 MPH.

1000-2100:

North to northeast 6-12 MPH Gusts 15-20 MPH.

2100-0200:

Northeast 3-6 MPH Gusts 8-14 MPH.

0200-0700:

Northeast to east 6-12 MPH Gusts 15-20 MPH.

SLOPE/VALLEY -

0700-1000:

Variable/upslope 3-6 MPH.

1000-1300:

Upvalley 4-8 MPH.

1300-2000:

Upvalley 5-10 MPH Gusts 12-16 MPH.

2000-0700:

Downslope/downvalley 2-5 MPH Gusts 8-10 MPH.

STABILITY/MIXING HEIGHT:

Moderate instability. Mixing height 8000-10000 feet.

OUTLOOK FOR FRIDAY:

Mostly clear. High temperatures 86-96. Low temperatures 52-62. Min RH: 14-24%. Max RH: 35-50%. Ridgetop winds: Northeast to east 6-12 MPH Gusts 15-20 MPH. Slope/valley winds: typical diurnal winds with upcanyon gusts around 10-15 MPH in the afternoon.

OUTLOOK FOR SATURDAY:

Partly cloudy. High temperatures 82-92. Low temperatures 52-62. Min RH: 20-30%. Max RH: 40-55%. Ridgetop winds: Southeast to south 8-15 MPH with gusts 20-25 MPH. Slope/valley winds: typical diurnal winds with

upcanvon gusts around 12-18 MPH in the afternoon.

FORECAST NUMBER: 5 FORECAST NUMBER: 5 FIRE NAME: Mill - Mountain DATE ISSUED: Sep 7, 2022 UNIT: CALFIRE SISKIYOU UNIT Typed/printed:/Troy Velin - FBAN INPUTS

WEATHER SUMMARY:

SEE WEATHER INCIDENT FORECAST

OUTPUTS

FIRE BEHAVIOR

GENERAL:

NFDRS- Energy Release Component is 64 and above the 97th percentile. BI – Burning Index is 46 also above the 97th percentile. 100hr FM 10%, 1000 hr FM 11%. LFM in Manzanita approaching critical at 85%. Annual grass is completely cured. The Mill fire is burning in annual grass, light to heavy brush and scattered high desert timber fuels. The Mountain fire is burning in annual grasses, light to heavy brush and scattered hardwood litter and timber litter. Fire area ranges from 2700' to 6000' elevation. On September 2nd, 2022, a Fuels and Fire Behavior advisory was issued for Northern California. Due to extreme drought, extremely dry fuels and extended periods of hot weather, fire behavior will be elevated for the near future.

SPECIFIC:

Mill

Winds this afternoon may affect isolated pockets of heat within the perimeter.

Mountain

The area of the Mountain fire is steep and broken. There are deep drainages and incontiguous ridges. Recent field observations and IR data shows that most of the heat is interior of the line. There may still be areas of heat near lines or in areas that may compromise the line. Wind change today (daytime winds more Northerly). Critically dry fuels and steep terrain will support growth outside of control lines.

- Div BB Monitor for rollout and fire weakened trees.
- In GG Interior pockets of unburned fuels will remain ember threats during times of strong winds.
- In Div LL, The Moffett Creek drainage will enhance diurnal winds. Monitor for rollout and trees across
 the line.
- Div OO Monitor for rollout and fire weakened trees.
- Div's PP, TT and WW Monitor for post fire hazards.

AIR OPERATIONS:

Sunrise 6:42 am Sunset 7:32 pm. Partly cloudy.

SAFETY

There is a small change in weather today (lower temps and higher RH) this will do very little to critically dry fuels. Take weather observations throughout the day including Probability of Ignition.

Fuels and Fire Behavior Advisory

Northern California

September 2nd, 2022

Subject: Potential for extreme fire behavior due to critically elevated fire danger indices, low live and dead fuel moistures, and very hot and dry conditions across much of northern California.

Discussion: An extended period of hot, dry weather with embedded periods of enhanced winds will impact Northern California. The elevated fire weather concerns with fuels reaching their yearly minimum moisture values will create conditions conducive to long range spotting, rapid fire growth, and high resistance to control.

Difference from normal conditions: The current values for Energy Release Component (ERC) are at or above the 90th percentile for the majority of Northern California, with live fuel moistures dropping to critical levels as herbaceous and woody fuels cure. These conditions will be exacerbated by a predicted heat wave, resulting in anomalous daytime highs with little relief in temperature or humidity recovery overnight. Some PSA's, may reach daily record ERC values, with all covered PSA's predicted to reach or exceed the 97th percentile for an extended period. The combination of extreme ERC's with high temperatures and poor overnight humidity recovery is highly correlated with extreme fire behavior in Northern California.

Concerns to Firefighters and the Public:

- The advisory coincides with the Labor Day holiday weekend that is likely to result in increased outdoor recreation and visitor use to public lands across Northern California. The increase in public use carries an increased risk of fire starts as well as potential for evacuations of visitors/ recreational users in the event of a fire starting.
- Energy Release Component (ERC) in areas covered by this advisory are at or above the 90th percentile and are expected to approach or exceed the 97th percentile. **Anticipate increased spread rates, long range spotting, and active nighttime burning.**
- The combination of persistent drought, a building heat wave, and a very dry atmosphere will continue to decrease already low fuel moisture values:
 - o 1000-hour fuel moistures are below average and approaching the 90th percentile.
 - Live woody fuel moisture in brush is near or slightly below average, making them readily available and will likely reach critical levels because of the forecasted hot, dry weather.
 - The above average herbaceous fuel load at low and mid elevations (below 5,000 ft.) is fully cured, with high elevation herbaceous fuels rapidly curing during the hot, dry forecast.
 - Higher than average surface fuel loading is present in areas that experienced winter snow and ice storms in the Coast Range and northern Sierra Nevada.

Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.

- Periods of enhanced winds are expected during the hot and dry period. Given the current and anticipated fuels conditions, increases in winds will make direct attack of any new starts difficult and may hamper use of aerial resources.
- Review the current North Ops Outlooks and national fuels and fire behavior advisories.

Mitigation Measures:

- Suppression actions need to be based on good anchor points, escape routes, and safety zones. Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates
- Fire managers should be aware of high use recreation and visitor sites in their area. The holiday weekend will bring increased visitor use, increasing risk of starts during critical fire weather.

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast, Bay Marine, and west of Highway 101 in Mid-Coast to Mendocino.

Mill/Mountain INCIDENT HEALTH AND SAFETY MESSAGE

Maintain Situational Awareness!!!

INCIDENT Mill/Mountain CA-SKU-007568/007586 DATE: September 8, 2022 TIME: 0700-0700

Major Hazards and Risks:

HEAT - FATIGUE - SNAGS- TERRAIN - RECEPTIVE FUELS - DRIVING

Situational Awareness: Access your current situation constantly, maintain radio communication with your division, adjacent divisions, and monitor air-to-ground frequencies to understand what is happening around you at all times. Pay attention to any changes in weather and fire behavior.

Fatigue: Take frequent nutrition and hydration breaks throughout the day. Hydrate with a 2 water to 1 electrolyte drink ratio on hot dry days. Monitor personnel for fatigue and plan accordingly with work assignments. Make sure you are taking care of your personnel as there are other incidents evolving throughout the state. If you are getting demobed, make sure you are well rested before departing.

Steep slopes/rolling material/snags: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness while working around trees and snags.

Line Construction: Use Downhill Line Checklist (IRPG). Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Establish Safety Zones. Utilize Risk Management Process.

COVID: Maintain good hygiene and report any symptoms to supervisor.

Environmental Hazards: Watch for damaged propane tanks and other hazards around damaged structures. Wear appropriate PPE when overhauling structures.

Fire Behavior: Be prepared for spot fires and erratic winds. Fuels are receptive to fire. Consider P.A.C.E and know your L.C.E.S. Be prepared for erratic fire behavior.

Lookouts, Communication, Escape routes, Safety zones

TAILGATE SAFETY

- **Accountability:** Supervisors know where their crews are at all times.
- **Hydration and Nutrition:** Monitor each other for proper hydration and nutrition.
- **Communication:** Everyone knows the comm plan and follows it.
- **Briefing:** Leaders intent is fully communicated, and safety briefing is provided.
- Safety gear: Everyone has the appropriate PPE and is using it.
- LCES: They are clear, understandable and made known to everyone.

Planning For Medical Emergencies

Supervisors and all firefighters need to Review your ICS 206 ask and be able to answer the following questions:

What are we going to do if someone gets hurt?

• Is there personnel and equipment available to assist?

How will we get them out of here?

• What is your best extraction and transport method? Road, helispot, hoist? Primary plan and contingency plan in place?

How long will it take to get them to the hospital?

- Will you request air or ground resources?
- Are helicopters able to fly?

SOF1 6

Incident Safety Officer: Dan McNamara, SOF1

Mill/Mountain Incidents CA-SKU-007568/007586 RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / I					
ALL	FATIGUE/HEAT/DEHYDRATION	Be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; Find shade when you car Drink electrolyte drinks at a 2 water to 1 sport drink ratio.					
ALL	COMPLACENCY	Don't underestimate the task at hand. Everyone should be briefed on the conditions and circumstances regarding their assignment. Stay focused on the task at hand. We know that there are other incidents going on in the state, but we need to be vigilant and finish this incident Be alert while working along roadways.					
ALL	DRIVING HAZARDS	Complete appropriate DOT daily vehicle inspection. Slow Down! Long travel times to the line, stay alert. S Drive defensively! Expect the unexpected around even Drive with headlights and seatbelts on. Narrow roads w Expect roads to deteriorate over the shift.	ry curve.				
ICP Ground Support	DEMOB	Watch out for pedestrian and vehicle congestion. Provide spotters when backing or driving in tight place Monitor fatigue when traveling home. Secure and stow gear and equipment within your vehice	cle.				
Mountain	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft. Clear the area for incoming water and retardant drops.					
ALL	HEAVY EQUIPMENT	Watch for rolling material avoid working below heavy equipment. Monitor safe working distances provide adequate working space.					
Mountain	LINE CONSTRUCTION	Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Follow "Look Up, Look Down, Look Around" proced Utilize Risk Management Process. Reference the IRPO	ures. G.				
ALL CAMP HOTELS	COVID 19	Wear a mask when applicable. Utilize hand sanitizer and wash hands frequently. Maintain social distancing. Disinfect apparatus and coolers frequently. Adhere to local, state and federal Covid-19 guidelines					
ALL	COMMUNICATIONS	Confirm correct tactical and command channel. No un Check your Air to Ground channel to make sure it is c Check your tactical frequency if you have moved branches of	orrect.				
ALL	HAZARD TREES/TREE FELLING SAFETY	Identify and isolate the area to provide for the safety of others.					
ALL	ENVIRONMENTAL HAZARDS	Maintain situational awareness for illegal activity, Be aware of wild animals. (Bears, Mountain Lions, Bees, etc.) Bow hunting season is open near the Mountain fire area. Be aware of possible propane leaks and live wires in areas of damaged structures.					
Incident Na	ame: Mill/Mountain	DATE PREPARED: Dan McNamara Safety:	OPERATIONAL PERIOD: September 8, 2022 0700-0700

\$ FINANCE MESSAGE \$

*Please No Off Site Feeding Unless Approved by a Finance Section Chief.

CAL FIRE PERSONNEL

If anyone has any CalCard travel receipts and meal/lodging sign in sheets, please get a copy to Finance.

Don't forget to stop at the TIME Unit and do two separate FC33's if you were assigned to both Incidents please.

FEDERAL RESOURES

Please see the attached information labeled "Mill & Mountain Incident Fed & Fed Contract Resources". Here you will find detailed information for you to send and how to send your documents to a Federal Timekeeper.

LOCAL GOVERNMENT RESOURCES

Make sure you check in with OES for F-42 Paperwork.

ALL HIRED EQUIPMENT

Make sure you get your shift ticket filled out by your <u>Division Group</u> <u>Supervisor or Supervisor each shift.</u>

ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to TIME daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly. Example included in IAP.

PROPERTY DAMAGE or INIURIES

Please report any property damage caused by suppression activities and/or injuries to the Comp/Claims Unit ASAP (951) 234-7667.

MILL & MOUNTAIN INCIDENT FED & FED CONTRACT RESOURCES

Please send all documents to R5.CalFire.Support@firenet.gov for all resources.

NOTE: Please scan a single resources order number's documents at a time. Do not scan multiple resource orders' CTRs and Shift Tickets together. Thank you.

Email all documents that pertain to your assignment:

Agency Personnel	Agency ADs / EFFs	VIPR Resources	Contract / Agency Crews
Crew Time	• Resource	 Resource 	Resource Order
reports	Order	Order	Manifest
(CTR)	 Casual Hire 	• VIPR	Agreement / Contract

Total acres:	Containment:	Total acres:	Containment:
Cause: Under Investigation	Total Personnel:	Cause: Under Investigation	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy <u>here</u>.

PHOTOGRAPHS AND VIDEOS OF INCIDENT — We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND - The Information Section will manage lost and found items for the incident.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

Siskiyou County Fairgrounds

PEER SUPPORT MESSAGE

Watch for the signs and symptoms of stress in yourself and the people around you. Some of the signs and symptoms you may be experiencing include, but are not limited to:

Irritability, lack of sleep, quick to anger, isolation, above average tobacco use, an increase in negative coping mechanisms such as excessive alcohol and/or substance abuse. You might experience lack of appetite, isolate yourself, or various other unexplained reactions to normal everyday events.

Peer Support Handouts

You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit or have a co-worker who is. You may be triggered by a past event, that has impacted you, while assigned to future incidents. A sight, sound, smell, or touch could trigger a memory, affecting you now, but you are not sure why?

If you find yourself in this situation and need to talk to someone, please contact a peer support team member.

The peer support team is available on the incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding the science behind stress and reactions, assistance with professional or personal crisis, other behavioral health, and wellness impacts. Come see and ask us what we do and can provide.... We will gladly explain!

Stay Healthy, Stay Alert and Stay Strong!

Training Message

Are you demobing?

If so, please make sure to bring the following with you to Training before you Demob:

- > Taskbook
- ➤ ICS 225
- ➤ Performance Evaluation

It is not necessary to bring your Trainer with you to Training to close out you're Training.

If you are unable to come to basecamp to process your Training packet, please scan and email your documents to:

Dottie.Shaw@fire.ca.gov

I will process your documents and email your completed packet back to you.

If you are emailing your documents, please make sure to send all the requested information.

Any questions, please do not hesitate to contact me at 619-971-1701

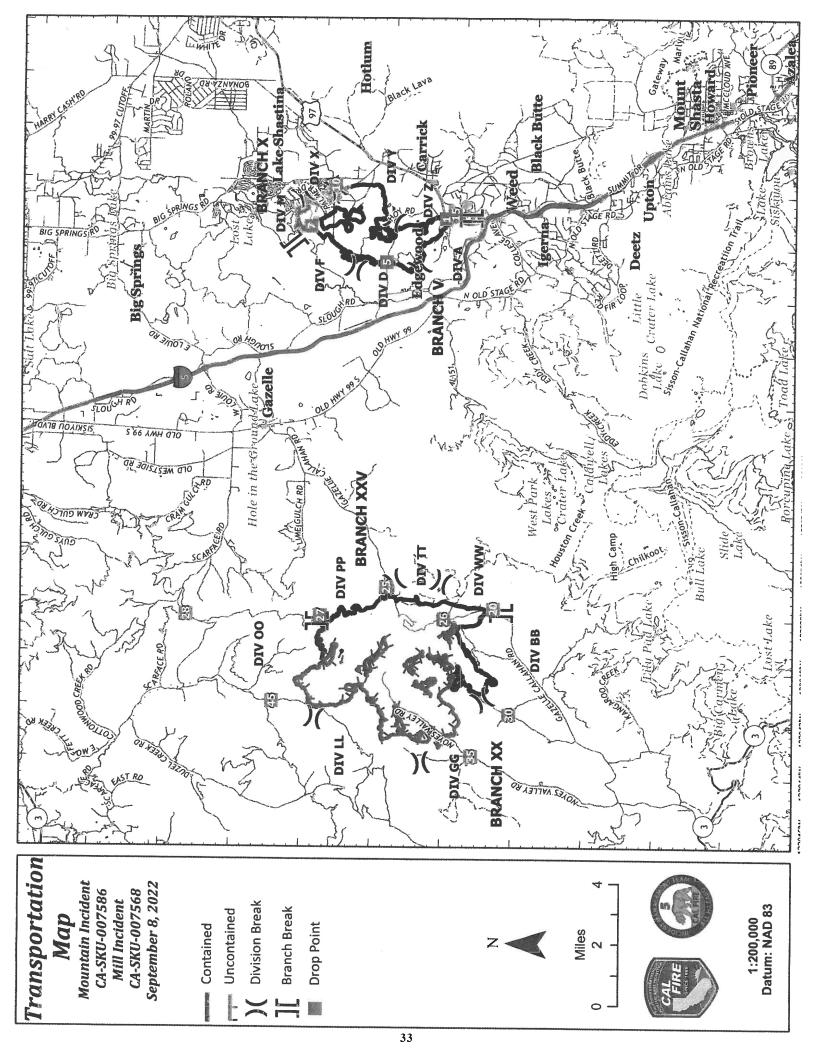

DEMOBILIZATION PLAN MILL CA-SKU-007568 MOUNTAIN CA-SKU-007586

DEMOB PROCEDURES

- Check the demob list daily. You can find the demob list posted around camp or by utilizing the QR code on your IAP.
- Please report to demob only at your scheduled time.
- Only one person per resource is to report to demob.
- The Demob Unit will provide you with an ICS-221 check-out form.
- For the following units, Demob personnel will make positive contact to ensure you are clear for demobilization:
 - Supply Unit
 - o Communications Unit
 - Accommodations Unit (If applicable)
- For the following units, you will report in person to complete your check-out:
 - o Time Unit
 - o Documentation Unit
 - Training Specialist (If applicable)
 - Ground Support Unit
- Return your completed iCS 221 to the Demob Unit and you will be advised of your status (released home, reassigned, etc.)
