INCIDENT ACTION PLAN

MILL INCIDENT

CA-SKU-007568

MOUNTAIN INCIDENT

CA-SKU-007586

Friday

OPERATIONAL PERIOD

9/9/2022 0700

to

9/10/2022 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Mill / Mountain Incident</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">9/9/2022</td> <td style="border: none;">Date To:</td> <td style="border: none;">9/10/2022</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0700</td> <td style="border: none;">Time To:</td> <td style="border: none;">0700</td> </tr> </table>	Date From:	9/9/2022	Date To:	9/10/2022	Time From:	0700	Time To:	0700
Date From:	9/9/2022	Date To:	9/10/2022						
Time From:	0700	Time To:	0700						

3. Objective(s):

- Management Objectives**
- Provide for emergency personnel and public safety at all times.
 - Protect property, improvements, and infrastructure.
 - Ensure coordinated, timely and accurate release of public information.
 - Foster and maintain relationships with all cooperators and stakeholders.
 - Protect economic, natural, cultural and heritage resources.
 - Maintain fiscal accountability and keep costs commensurate with values at risk.
 - Ensure COVID-19 precautions and best practices are met at all times.

- Control Objectives**
- Mill Fire**
Keep fire within the current perimeter.
- Mountain Fire**
Keep the fire North of Houston Creek.
Keep the fire East of McConaughy Gulch Road and Duzel Creek.
Keep the fire South of Macs Gulch.
Keep the fire West Dewey Mine Road.

- General Situational Awareness:**
- Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.
 - In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.
 - Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

5. Site Safety Plan Required? Yes No

INCIDENT Weather Forecast

FORECAST NO: 5
PREDICTION FOR: 24 hour shift
SHIFT DATE: 9/9/22-9/10/22 (0700-0700)
FORECAST ISSUED: 9/8/22 @ 1900

NAME OF FIRE: Mill and Mountain
UNIT: CalFire
SIGNED: 
 Rich Thompson **Incident Meteorologist**

WEATHER DISCUSSION: ...RED FLAG WARNING IN EFFECT UNTIL 900 PM...

Warmer and drier conditions will prevail across the incidents through the operational periods. Afternoon temperatures will top out in the mid 80s to mid 90s while relative humidity drops into the 15-25% range. Overnight humidity recovery will be poor. At the ridgetops, northeast to east winds will prevail through the evening with the winds shifting to the southeast and south tonight. At lower elevations, typical diurnal winds can be anticipated with gusts around 15 MPH in the afternoon hours. However, these lower elevation winds will be battling with the northeasterly winds at the ridges, so there could be some chaotic winds at lower elevations through the day.

Please note, the RED FLAG WARNING has been issued for the entire Fire Weather zone. However, critical fire weather conditions are not expected locally for either the Mill or Mountain Fires.

On Saturday, some slight cooling is anticipated although relative humidity will remain low. Southerly winds will be gusty on Saturday at all elevations. On Sunday, noticeably cooler conditions are anticipated with an associated increase in relative humidity. Southerly winds will continue across the fires.

WEATHER FORECAST:

WEATHER: Mostly clear.
TEMPERATURES: Max: 85-95.
 Min: Mountain: 66-72. Mill: 58-64.
HUMIDITY: Min: 13-23%.
 Max: Mountain 25-30%. Mill 35-45%.

20 FT WINDS:
RIDGETOP - 0700-2200: Northeast to east 4-8 MPH Gusts 12-15 MPH.
 2200-0200: Southeast 4-8 MPH Gusts 10-15 MPH.
 0200-0700: Southeast to south 5-10 MPH Gusts 12-18 MPH.
SLOPE/VALLEY - 0700-1000: Variable 4-8 MPH.
 1000-2000: Upvalley 4-8 MPH. Gusts 10-15 MPH.
 2000-0700: Downslope/downvalley 4-8 MPH.

STABILITY/MIXING HEIGHT: Moderate instability. Mixing height 8000-10000 feet.

OUTLOOK FOR SATURDAY: Partly cloudy. High temperatures 83-93. Low temperatures 54-64. Min RH: 15-25%. Max RH: 30-50%. Ridgetop winds: Southeast to south 8-15 MPH with gusts 20-25 MPH. Slope/valley winds: typical diurnal winds with upcanyon gusts around 12-18 MPH in the afternoon.

OUTLOOK FOR SUNDAY: Partly cloudy. High temperatures 74-84. Low temperatures 52-62. Min RH: 25-40%. Max RH: 40-60%. Ridgetop winds: South to southwest 6-12 MPH with gusts 15-20 MPH. Slope/valley winds: typical diurnal winds with upcanyon gusts around 12-18 MPH in the afternoon.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 6	TYPE OF FIRE: WILDFIRE
FIRE NAME: Mill - Mountain	OPERATIONAL PERIOD: Sep 9, 2022, 24 HR
DATE ISSUED: Sep 8, 2022	TIME ISSUED: 1900
UNIT: CALFIRE SISKIYOU UNIT	SIGNED: 
Typed/printed: Troy Velin - FBAN	

INPUTS

WEATHER SUMMARY:

SEE WEATHER INCIDENT FORECAST

OUTPUTS

FIRE BEHAVIOR**GENERAL:**

NFDRS- Energy Release Component is 64 and above the 97th percentile. BI – Burning Index is 46 also above the 97th percentile. 100hr FM 10%, 1000 hr FM 11%. LFM in Manzanita approaching critical at 85%. Annual grass is completely cured. The Mill fire is burning in annual grass, light to heavy brush and scattered high desert timber fuels. The Mountain fire is burning in annual grasses, light to heavy brush and scattered hardwood litter and timber litter. Fire area ranges from 2700' to 6000' elevation. On September 2nd, 2022, a Fuels and Fire Behavior advisory was issued for Northern California. Due to extreme drought, extremely dry fuels and extended periods of hot weather, fire behavior will be elevated for the near future.

SPECIFIC:**Mill**

Winds this afternoon may affect isolated pockets of heat within the perimeter.

Mountain

The area of the Mountain fire is steep and broken. There are deep drainages and incontinous ridges. Recent field observations and IR data shows that most of the heat is interior of the line. There may still be areas of heat near lines or in areas that may compromise the line. Critically dry fuels and steep terrain will support growth outside of control lines.

All Divisions

- Interior pockets will continue to burn out
- Monitor for rollout
- Trees near the line may still pose a threat
- Stump holes, fire weakened trees, and underground root fires are numerous

AIR OPERATIONS:

Clear skies

SAFETY

Establish decision points to help ensure that you are maintaining accurate situational awareness. Decision points need to be based on measurable factors such as time, geographical features, operational constraints, safety hazards, etc. As you approach a decision point, re-evaluate your situation and determine if a change in strategy or tactics is required. Pre-plan your alternatives and be prepared to communicate and implement them.

Fuels and Fire Behavior Advisory

Northern California

September 2nd, 2022

Subject: Potential for extreme fire behavior due to critically elevated fire danger indices, low live and dead fuel moistures, and very hot and dry conditions across much of northern California.

Discussion: An extended period of hot, dry weather with embedded periods of enhanced winds will impact Northern California. The elevated fire weather concerns with fuels reaching their yearly minimum moisture values will create conditions conducive to long range spotting, rapid fire growth, and high resistance to control.

Difference from normal conditions: The current values for Energy Release Component (ERC) are at or above the 90th percentile for the majority of Northern California, with live fuel moistures dropping to critical levels as herbaceous and woody fuels cure. These conditions will be exacerbated by a predicted heat wave, resulting in anomalous daytime highs with little relief in temperature or humidity recovery overnight. Some PSA's, may reach daily record ERC values, with all covered PSA's predicted to reach or exceed the 97th percentile for an extended period. The combination of extreme ERC's with high temperatures and poor overnight humidity recovery is highly correlated with extreme fire behavior in Northern California.

Concerns to Firefighters and the Public:

- The advisory coincides with the Labor Day holiday weekend that is likely to result in increased outdoor recreation and visitor use to public lands across Northern California. The increase in public use carries an increased risk of fire starts as well as potential for evacuations of visitors/ recreational users in the event of a fire starting.
- Energy Release Component (ERC) in areas covered by this advisory are at or above the 90th percentile and are expected to approach or exceed the 97th percentile. **Anticipate increased spread rates, long range spotting, and active nighttime burning.**
- The combination of persistent drought, a building heat wave, and a very dry atmosphere will continue to decrease already low fuel moisture values:
 - 1000-hour fuel moistures are below average and approaching the 90th percentile,
 - Live woody fuel moisture in brush is near or slightly below average, making them readily available and will likely reach critical levels because of the forecasted hot, dry weather.
 - The above average herbaceous fuel load at low and mid elevations (below 5,000 ft.) is fully cured, with high elevation herbaceous fuels rapidly curing during the hot, dry forecast.
 - Higher than average surface fuel loading is present in areas that experienced winter snow and ice storms in the Coast Range and northern Sierra Nevada.

Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.

- Periods of enhanced winds are expected during the hot and dry period. Given the current and anticipated fuels conditions, increases in winds will make direct attack of any new starts difficult and may hamper use of aerial resources.
- Review the current North Ops Outlooks and national fuels and fire behavior advisories.

Mitigation Measures:

- Suppression actions need to be based on good anchor points, escape routes, and safety zones. **Remember LCES. Experienced lookouts are essential under these conditions.**
- Base all actions on current and expected behavior of the fire. **Augment initial attack resources as incident activity dictates**
- Fire managers should be aware of high use recreation and visitor sites in their area. **The holiday weekend will bring increased visitor use, increasing risk of starts during critical fire weather.**

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast, Bay Marine, and west of Highway 101 in Mid-Coast to Mendocino.

Mill/Mountain INCIDENT HEALTH AND SAFETY MESSAGE

Maintain Situational Awareness!!!

INCIDENT Mill/Mountain CA-SKU-007568/007586 | **DATE:** September 9, 2022 | **TIME:** 0700-0700

Major Hazards and Risks:

HEAT – DRIVING - SNAGS- TERRAIN - RECEPTIVE FUELS - SNAGS

Situational Awareness: Access your current situation constantly, maintain radio communication with your division, adjacent divisions, and monitor air-to-ground frequencies.

Driving: Drive defensively and make sure you have plenty of clearance when passing on narrow roads. There is no need to speed while going or returning from the fireline.

Fatigue: Take frequent nutrition and hydration breaks throughout the day. Hydrate with a 2 water to 1 electrolyte drink ratio on hot dry days. Monitor personnel for fatigue and plan accordingly with work assignments. Make sure you are taking care of your personnel as there are other incidents evolving throughout the state. If you are getting demobed, make sure you are well rested before departing.

Steep slopes/rolling material/snags: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness while working around trees and snags.

Line Construction: Use Downhill Line Checklist (IRPG). Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Establish Safety Zones. Utilize Risk Management Process.

COVID: Maintain good hygiene and report any symptoms to supervisor.

Environmental Hazards: Watch for damaged propane tanks and other hazards around damaged structures. Wear appropriate PPE when overhauling structures.

Lookouts, Communication, Escape routes, Safety zones

TAILGATE SAFETY

- **Accountability:** Supervisors know where their crews are at all times.
- **Hydration and Nutrition:** Monitor each other for proper hydration and nutrition.
- **Communication:** Everyone knows the comm plan and follows it.
- **Briefing:** Leaders intent is fully communicated, and safety briefing is provided.
- **Safety gear:** Everyone has the appropriate PPE and is using it.
- **LCES:** They are clear, understandable and made known to everyone.

Planning For Medical Emergencies

Supervisors and all firefighters need to Review your ICS 206 ask and be able to answer the following questions:

What are we going to do if someone gets hurt?

- Is there personnel and equipment available to assist?

How will we get them out of here?

- What is your best extraction and transport method? Road, helispot, hoist? Primary plan and contingency plan in place?

How long will it take to get them to the hospital?

- Will you request air or ground resources?
- Are helicopters able to fly?

Incident Safety Officer: Dan McNamara, SOF1

**Mill/Mountain Incidents CA-SKU-007568/007586
RISK ANALYSIS (ICS 215a)**

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES	
ALL	FATIGUE/HEAT/DEHYDRATION	Be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; Find shade when you can. Drink electrolyte drinks at a 2 water to 1 sport drink ratio.	
ALL	COMPLACENCY	Don't underestimate the task at hand. Everyone should be briefed on the conditions and circumstances regarding their assignment. Stay focused on the task at hand. We know that there are other incidents going on in the state, but we need to be vigilant and finish this incident. Be alert while working along roadways.	
ALL	DRIVING HAZARDS	Complete appropriate DOT daily vehicle inspection. Slow Down! Long travel times to the line, stay alert. Stop if fatigued. Drive defensively! Expect the unexpected around every curve. Drive with headlights and seatbelts on. Narrow roads with limited passing room. Expect roads to deteriorate over the shift.	
ICP Ground Support	DEMOB	Watch out for pedestrian and vehicle congestion. Provide spotters when backing or driving in tight places. Monitor fatigue when traveling home. Secure and stow gear and equipment within your vehicle.	
Mountain	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft. Clear the area for incoming water and retardant drops.	
ALL	HEAVY EQUIPMENT	Watch for rolling material avoid working below heavy equipment. Monitor safe working distances provide adequate working space.	
Mountain	LINE CONSTRUCTION	Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Follow "Look Up, Look Down, Look Around" procedures. Utilize Risk Management Process. Reference the IRPG.	
ALL CAMP HOTELS	COVID 19	Wear a mask when applicable. Utilize hand sanitizer and wash hands frequently. Maintain social distancing. Disinfect apparatus and coolers frequently. Adhere to local, state and federal Covid-19 guidelines.	
ALL	COMMUNICATIONS	Confirm correct tactical and command channel. No unassigned radio channels. Check your Air to Ground channel to make sure it is correct. Check your tactical frequency if you have moved branches or divisions.	
ALL	HAZARD TREES/TREE FELLING SAFETY	Identify and isolate the area to provide for the safety of others. Flag and make proper notifications. Size up and mitigate concerns, put the tree fire out if possible! Work within your qualifications if considering felling a tree	
ALL	ENVIRONMENTAL HAZARDS	Maintain situational awareness for illegal activity, Be aware of wild animals. (Bears, Mountain Lions, Bees, etc.) Bow hunting season is open near the Mountain fire area. Be aware of possible propane leaks and live wires in areas of damaged structures.

AIR OPERATIONS SUMMARY ICS-220

Incident Name / Number
MountLain / CA-SKU-007586

Sunrise 644 **Startup** 714 **Cutoff** 1900 **Sunset** 1930

General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.
 TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN.
 TRACK ALL DROP LOCATIONS / NUMBER OF DROPS / GALLONS DROPPED
 ALL GPS DATA TO BE COLLECTED IN DEGREES.MINUTES.DECIMAL MINUTES.FORMAT.
 AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc.
 If Retardant / Foam / Agent is Dropped Within These Areas Immediately Notify the AOBBD and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.

Your Sunrise and Sunset info has not been updated for the current Op period AM / FM

8. MEDICAL EMERGENCY PROCEDURES

EMERGENCY FREQUENCY:
"LINE EMERGENCY"

The Crew Supervisor will contact the Division Supervisor with patient complaint/condition, location and resource needs.

- Division/Group Supervisor contacts:
 1. Closest EMS resource
 2. Communications Unit
- Communications Unit contacts:
 1. Ground or Air ambulance as requested
 2. Operations
 3. Safety
 4. Medical Unit
- Division Supervisor or designee will serve as point of contact and run medical emergencies on the assigned channel.
 1. A pre-assigned COMMAND frequency and CALCORD should be used for IWI and only for duration of need.
- Communications Unit will clear the command channel for emergency traffic as needed and only for the duration of need.

CAMP EMERGENCY:

Contact the Medical Unit 831-325-4221 with a patient complaint/condition and location. Medical Staff will respond to stabilize incident:

- Medical Unit contacts:

1. Communications	4. Operations
2. Safety	5. Crew Supervisor
3. Logistics	6. Comps/Claims

INJURY REPORTING PROCEDURES

CHIEF COMPLAINT _____
 LOCATION OF PATIENT _____
 POINT OF CONTACT _____
 TRANSPORTATION REQUESTED BY: AIR__ GROUND__
 POINT OF PICKUP _____
 LAT _____ LONG _____
 PATIENT UNIT ID _____
 IS AN EMT/P WITH PATIENT: YES ___ NO ___
 AGE _____
 SEX: MALE ___ FEMALE ___

**ALL EMERGENCIES---Secure the area
and identify witnesses for later investigation.
Keep an accurate log of events.**

**EMERGENCY
916-883-0931**

\$ FINANCE MESSAGE \$

***Please No Off Site Feeding Unless Approved by a Finance Section Chief.**

CAL FIRE PERSONNEL

If anyone has any CalCard travel receipts and meal/lodging sign in sheets, please get a copy to Finance.

Don't forget to stop at the TIME Unit and do two separate FC33's if you were assigned to both Incidents please.

FEDERAL RESOURCES

Please see the attached information labeled "Mill & Mountain Incident Fed & Fed Contract Resources". Here you will find detailed information for you to send and how to send your documents to a Federal Timekeeper.

LOCAL GOVERNMENT RESOURCES

Make sure you check in with OES for F-42 Paperwork.

ALL HIRED EQUIPMENT

Make sure you get your shift ticket filled out by your **Division Group Supervisor or Supervisor each shift.**

ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to TIME **daily**. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly. **Example included in IAP.**

PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the Comp/Claims Unit ASAP (951) 234-7667 .

MILL & MOUNTAIN INCIDENT

FED & FED CONTRACT RESOURCES

Please send all documents to R5.CalFire.Support@firenet.gov for all resources.

NOTE: Please scan a single resources order number's documents at a time. Do not scan multiple resource orders' CTRs and Shift Tickets together. Thank you.

Email all documents that pertain to your assignment:

Agency Personnel	Agency ADs / EFFs	VIPR Resources	Contract / Agency Crews
<ul style="list-style-type: none"> • Crew Time reports (CTR) 	<ul style="list-style-type: none"> • Resource Order • Casual Hire Form • Crew Time reports (CTR) 	<ul style="list-style-type: none"> • Resource Order • VIPR Agreement # • Schedule of Items • Inspections • Shift Tickets 	<ul style="list-style-type: none"> • Resource Order • Manifest • Agreement / Contract Schedule of Items • Inspections • Crew Time Reports / Shift Tickets

Submit Equipment Shift Tickets or Crew Time Reports (CTRs) daily to R5.CalFire.Support@firenet.gov

Please include your email address and phone number in the body of the email when sending your documents.

If you have any questions, please call: FINANCE – (512) 829-1479

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.

PEER SUPPORT MESSAGE

Watch for the signs and symptoms of stress in yourself and the people around you. Some of the signs and symptoms you may be experiencing include, but are not limited to:

Irritability, lack of sleep, quick to anger, isolation, above average tobacco use, an increase in negative coping mechanisms such as excessive alcohol and/or substance abuse. You might experience lack of appetite, isolate yourself, or various other unexplained reactions to normal everyday events.

Peer Support Handouts

You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit or have a co-worker who is. You may be triggered by a past event, that has impacted you, while assigned to future incidents. A sight, sound, smell, or touch could trigger a memory, affecting you now, but you are not sure why?

If you find yourself in this situation and need to talk to someone, please contact a peer support team member.

The peer support team is available on the incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding the science behind stress and reactions, assistance with professional or personal crisis, other behavioral health, and wellness impacts. Come see and ask us what we do and can provide.... We will gladly explain!

Stay Healthy, Stay Alert and Stay Strong!

Training Message

If you are a Trainee and demobing please make sure that you have the following items when you come to Training prior to your demob time.

- ✓ Taskbook
- ✓ ICS 225
- ✓ Performance Evaluation

Without these items a Type 1 Incident Training Packet is **unable** to be issued.

If you are not at base camp and need to demob, please email, or text the requested items to me.

DEMOBILIZATION PLAN
MILL CA-SKU-007568
MOUNTAIN CA-SKU-007586

DEMOB PROCEDURES

- Check the demob list daily. You can find the demob list posted around camp or by utilizing the QR code on your IAP.
- Please report to demob only at your scheduled time.
- Only one person per resource is to report to demob.

- The Demob Unit will provide you with an ICS-221 check-out form.
- For the following units, Demob personnel will make positive contact to ensure you are clear for demobilization:
 - Supply Unit
 - Communications Unit
 - Accommodations Unit (If applicable)
- For the following units, you will report in person to complete your check-out:
 - Time Unit
 - Documentation Unit
 - Training Specialist (If applicable)
 - Ground Support Unit
- Return your completed ICS 221 to the Demob Unit and you will be advised of your status (released home, reassigned, etc.)
