

# Mad River Complex

## Near Term Fire Behavior August 14, 2015

August 14-16, 2015 Near Term Fire Behavior Analysis (NTFB)  
 Run Inputs & Assumptions:  
 3-Day analysis (August 14-16, 2015)  
 30 Meter landscape  
 12-Hour Burn Period

The NTFB runs assumes the fire is actively burning in "Clear Air" burning conditions with out suppression actions; dozer line provides an adequate barrier to fire spread; and fire growing is only growing from intense heat sources from infrared mapping.
