Comments /notes on tonight's mission and this interpretation: Used 20170729@2240 IR perimeter to start interpretation. Fire is holding at ridge to north between the South Fork Clear Creek and Slippery Creek. Growth in perimeter since last IR is to the NE and SW, and in the previously unburned area north of South Fork Clear Creek. Intense heat detected along eastern and western perimeter. No isolated heat sources detected outside the perimeter.
