

Incident Status Summary (ICS-209)

Incident: **SALMON AUGUST COMPLEX**

1. Incident Name: SALMON AUGUST COMPLEX		2. Incident Number: CA-KNF-006081	
3. Report Version (check one box): Initial <input checked="" type="checkbox"/> Update Final	4. Incident Commander(s) & Agency or Organization: Kelly Zombro, SoCal Team 2 (IMT2) Ron Bravo, CALFIRE	5. Incident Management Organization: Type 2 Team <input checked="" type="checkbox"/> Unified Command	6. Incident Start Date/Time: Date: 08/13/2017 Time: 1938 PDT
7. Current Incident Size or Area Involved (use unit label – e.g., “Acres”, “Square Miles”): 63743 Acres	8a. Percent (%) Contained or Completed: 14 %	9. Incident Type: Complex B. Incident Description: Multiple fires in wilderness C. Cause: Unknown D. Fire Suppression Strategy:	10. Incident Complexity Level: Single <input checked="" type="checkbox"/> Complex 10% MONITOR 25% COMPLETE 15% CONFINE 25% COMPLETE 15% PT ZONE PROT 30% COMPLETE 60% FULL SUPPRESSION 5% COMPLETE
	b. Total Percentage (%) of Perimeter that will be Contained or Completed: 60 %		
12. Prepared By: Print Name: Kyle Hauducoeur Date/Time Prepared: 09/06/2017 0545 PDT		13. Approved By: Print Name: Kelly Zombro / Nickie Washington Signature: _____	
14. Date/Time Submitted: 09/06/2017 0554 PDT		15. Primary Location, Organization, or Agency Sent To: ONC GACC	
16. State: CA	17. County / Parish / Borough: Siskiyou		18. City: Etna
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership (if different than jurisdiction): CA-KNF	
22. Latitude/Longitude: Latitude: 41° 15' 48" Longitude: 123° 5' 56"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:		24. Legal Description: Principal Meridian: Mt. Diablo Township: 39N Range: 11W Section: 3 1/4 Sec: of 1/4 Sec:
25. Short Location or Area Description (list all affected areas or a reference point): Marble Mountain Wilderness and Klamath NF side of the Trinity Alps Wilderness			26. UTM Coordinates: Zone: Easting: Northing:
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): http://ftp.nifc.gov/incident_specific_data/calif_n/2017_20FEDERAL_Incidents/CA-KNF-006081_Salmon_August_Complex/GIS/IncidentData/			

Incident Status Summary (ICS-209)

Incident: SALMON AUGUST COMPLEX

FSPro data at same location

28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

- Active
- Wind Driven Runs
- Group Torching
- Spotting

Narrative:

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

- Timber (Grass and Understory)
- Brush (2 feet)
- Timber (Litter and Understory)

Narrative:

This wilderness area has high tree mortality and fuels are primarily dense stringers of mixed conifers with heavy dead & down fuels and brush in open areas. Large down fuels can exceeds 200 tons/ac. with high numbers of standing snags. 2013 and 2014 burn perimeters have a receptive fuel bed of fine fuels.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

An area closure has been issued for the Salmon-August Complex Fire. To include the following trails: Pacific Crest, North Fork Salmon, Snowslide, English Peak, Hancock Lake, Upper Abbott's, Big Meadows Tie, Big Meadow Creek, Kidder Creek, Shackelford, Ethel, and Kidder along with the following trailheads: Creek, Pacific Crest Etna Summit and Mule Bridge.

Level 2 road closure from Etna summit to Nordheimer.

<p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Observed: Tropical moisture moved over the Salmon August Complex overnight bringing scattered showers and lightning to the region. Temperatures cooled overnight as well with lows in the 50s and 60s. Relative humidities increased substantially with at least moderate recoveries. Forecasted: Tropical moisture and instability will bring a chance for thunderstorms over the complex today. A Red Flag Warning is in effect today for abundant lightning. The changing weather pattern will bring cooler temperatures with higher relative humidities. Developed storms will bring gusty outflow winds, lightning and brief heavy rain.</p>																																					

<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p>	<p>12 hours: Red Flag Warning in effect from 11 pm this evening to 11 pm Thursday for abundant lightning and dry fuels. Cooler temps with West to Southwest winds throughout the night will continue to spread the Wallow fire. East to Snoozer Ridge into Etna Creek. The fire has the potential to push toward Communications Towers on Etna Summit, Etna Creek, Western Scott Valley and the city of Etna. Northern fire spread will push into Grant Meadows. The fire will continue to move South into Forks of Salmon, Quail Flats and be threatening Little North Fork, Sawyers Bar, Bestville along the North Fork of the Salmon River. Thunderstorms could be an issue with outflow winds causing unexpected fire spread Tuesday night.</p> <p>24 hours: Red Flag Warning in effect through 11 pm Thursday for abundant lightning and dry fuels. Cooler temps</p>
--	---

Incident Status Summary (ICS-209)

Incident: SALMON AUGUST COMPLEX

	<p>with Southwest winds throughout the operational period will continue to spread the Wallow fire. The fire has the potential to push toward Communications Towers on Etna Summit, Etna Mill Creek, Western Scott Valley and the city of Etna. Fire continues to spread North. The fire will continue to move South into Forks of Salmon, Quail Flats and be threatening Little North Fork, Sawyers Bar and Bestville along the North Fork of the Salmon River. Thunderstorms will be an issue with outflow winds causing unexpected fire spread. Lightning will be a source of new fire starts in the area.</p>
48 hours:	<p>Cooling trend continues with a Southwest wind. Thunderstorms continue throughout the day. Possibility of outflow winds from thunderstorms could be an issue causing unexpected fire spread. Lightning could be a source of new fire starts in the area.</p>
72 hours:	<p>Cool with a Southwest wind. Chance of thunderstorms throughout the day. Possibility of outflow winds from thunderstorms could be an issue causing unexpected fire spread. Lightning could be a source of new fire starts in the area.</p>
Anticipated after 72 hours:	
<p>37. Strategic Objectives (define planned end-state for incident): The Wallow Fire is 60% full suppression strategy with direct, indirect and contingency lines established on the south and east side of the incident. The north portion in the wilderness area is a confine strategy.</p>	
<p>38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:</p>	
12 hours:	<ul style="list-style-type: none"> * ~200 residents are under evacuation warning: Mule Bridge, Sawyers Bar, Little North Fork, Forks of Salmon and Historic Cabins in the Marble Mountain Wilderness. Fire will damage communication and electrical lines. * Smoke inversion makes the area air quality unhealthy. * Cultural interests and resources on ancestral lands of the Shasta and Karuk Tribes, as well as those of the Quartz Valley Indian Reservation. * Wildlife impacts include: the Spotted Owl, coho, steelhead and chinook. * Economic impact to timber sales, live stock grazing and local businesses that rely on recreational tourism (hiking on the PCT, fishing & hunting)
24 hours:	<ul style="list-style-type: none"> * Evacuation warning for ~200 residents in: Mule Bridge, Sawyers Bar, Little North Fork, Forks of Salmon and Historic Cabins in the Marble Mountain Wilderness. Fire will damage communication and electrical lines. * Smoke inversion makes the area air quality unhealthy. * Cultural interests and resources on ancestral lands of the Shasta and Karuk Tribes, as well as those of the Quartz Valley Indian Reservation. * Wildlife impacts include: the Spotted Owl, coho, steelhead and chinook. * Economic impact to timber sales, live stock grazing and local businesses that rely on recreational tourism (hiking on the PCT, fishing & hunting)

Incident Status Summary (ICS-209)

Incident: SALMON AUGUST COMPLEX

72 hours:	<ul style="list-style-type: none"> * Evacuation warning for ~200 residents in: Mule Bridge, Sawyers Bar, Little North Fork, Forks of Salmon and Historic Cabins in the Marble Mountain Wilderness. Fire will damage communication and electrical lines. * Smoke inversion makes the area air quality unhealthy. * Cultural interests and resources on ancestral lands of the Shasta and Karuk Tribes, as well as those of the Quartz Valley Indian Reservation. * Wildlife impacts include: the Spotted Owl, coho, steelhead and chinook. * Economic impact to timber sales, live stock grazing and local businesses that rely on recreational tourism (hiking on the PCT, fishing & hunting)
Anticipated after 72 hours:	
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
12 hours:	<ul style="list-style-type: none"> 4 IHC crews (Timing out) 4 T2IA crews (Timing out) 4 WFM modules (Timing out) 2 S/T ENG3 or ENG6 6 ENG4 IR flight (UTF Mechanical X 2 days) 1 FBAN 2 T1 helicopters 2 T2 helicopters 1 ASGS 2 HEQB 3 SOFR 1 TFLD 1 SITL BCMG (for Forks of Salmon Spike Camp) RCDM SUPL ORDM
24 hours:	<ul style="list-style-type: none"> 3 IHC Crews (Timing Out) 3 S/T ENG3 or ENG6 IR flight 1 FBAN 1 SITL BCMG
48 hours:	<ul style="list-style-type: none"> 3 2IA Crews (Timing Out) 1 EXCA 1 MAST
72 hours:	<ul style="list-style-type: none"> 5 IHC Crews (Timing Out)
Anticipated after 72 hours:	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:	
<ol style="list-style-type: none"> 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. 	
Explain major problems and concerns such as operational challenges, incident management problems, and social, political,	

Incident Status Summary (ICS-209)

Incident: SALMON AUGUST COMPLEX

economic, or environmental concerns or impacts.
 Use of type 1 hand crews due to steep rocky terrain in the sensitive wilderness areas, has been slowed due to crews timing out and lack of replacement resources. Thus reducing our ability to complete planned direct and indirect line construction. Use of mechanical equipment is not possible or practical in all areas.
 Smoke conditions limits/negates use of aircraft, ground forces have to make up the effort.
 Missed direct / indirect opportunities, due to lack of crews has lead to increased need for engines for structure point protection and indirect actions.
 Shifting winds, dead & down fuels, snags and long travel times; combined with limited resources will extend the incident till the first significant wetting rain fall.
 Evacuation warning for Salmon River Valley Communities to protect the public.

41. Planned Actions for Next Operational Period:
 * Improving indirect and direct line construction to defend the Salmon River communities.
 * Improve previous hand lines along Patterson Ridge, Patterson Creek, Kidder Creek, Etna Mill Creek, Whiskey Butte, Yellow Jacket Ridge and Sawyers Bar Road.
 * Fuel reduction and preparation around structures with point protection defense along Salmon River Valley communities.
 * Maintain the evacuation warning for Salmon River Valley Communities.
 * Strengthen direct & indirect line construction in defense for the City of Etna.

42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):

43. Anticipated Incident Containment or Completion Date: **10/20/2017**

44. Projected Significant Resource Demobilization Start Date:

45. Estimated Incident Costs to Date: **\$17,055,200.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):
 31 & 34. Level 2 evacuation warning in effect for the communities of Sawyers Bar, Little North Fork and Forks of Salmon (Salmon River Valley communities)
 39. Crew time outs will significantly limit our ability to construct indirect/direct line and increase fire spread. The spread will increase impact to residents, infrastructure and cultural resources.
 35/36. Thunderstorms across increase potential for new starts, resources will be designated for IA in the Ranger District.
 IA Resources FED 2-ENG3 1-CRW1. STATE 1 GOLF S/T, 5-ENG3, 1 DOZZ
