#### North Complex: Claremont & Bear Fires Weather Forecast

FORECAST NO: 17 UNIT: CA-PNF

SHIFT DATE: Monday, Sep 7<sup>th</sup>, 2020

PREDICTION FOR: 0600 - 0600 FORECAST ISSUED: 2000 hrs. 9/6/20 **Incident Meteorologist:** Tony Fuentes

SIGNED:

\*\*\* RED FLAG WARNING - (Dry Front - Gusty NE Winds/Low RH) Mon Night to Wed Morning \*\*\*

WEATHER DISCUSSION: One more day of hot and dry conditions this afternoon before a dry cold front approaches the region tonight through Tuesday. Red Flag Warning for gusty NE winds and low humidity in effect Monday night into Wednesday morning.

Today (0600-1800):

Weather: Hot, smoky conditions through the day.

**High Temperatures:** Upper Slopes & Ridges:

Mid Slopes & Valleys:

85-91°F (29-33°C) 92-99°F (33-37°C)

24hr Trend: Little Change

Afternoon Min RH: 10-15%.

20 Foot Winds:

Valleys/Lower Slopes:

24hr Trend: Little Change

Downslope/down drainage 5mph (8kph), becoming W 6-12mph

*Upper Slopes & Ridges:* 

gusts 15 mph (10-19 kph gusts to 23kph). WNW 8-16mph gusts 22 mph (13-26 g 35 kph) by mid-late

afternoon.

24hr Wind Trend: Little Change

Transport Wind: W 12mph (19kph) in the afternoon.

LAL: 1.

Chc of Wetting Rain (> or = to 0.10"): 0%

Inversion/Thermal Belt: 5,500ft MSL thru morning.

Afternoon Mixing Height: 14,000 feet AGL.

Tonight (1800-0600): WATCH OUT: Red Flag Warning, Dry Cold Front w/ NE Wind Shift.

Weather: Areas of smoke, dry cold front w/ NE wind shift after 2200 local.

Low Temperatures:

*Valleys:* 55°F (13°C)

Ridges: 60° (16°C)

24hr Trend: -11° ridges

Overnight Max RH:

Valleys/Lower Slopes: 50-85% Upper Slopes/Ridges: 30-35% 24hr Trend: Little Change

20 Foot Winds:

Lower Slopes: NW 4-8 mph, shifting NE 10-15 mph after 2200, increasing to 15-20 with gusts 25mph.

(NW 6-13kph, shifting NE 16-24kph increasing to 24-32kph with gusts 40kph)

Upper Slopes: NW 14-18mph shifting NE 15-20 with gusts 25-30 mph behind the front after 2200.

(NW 23-29kph, NE 24-32kph with gusts 40-48kph)

LAL: 1

Che of Wetting Rain (> OR = to 0.10"): 0%

Inversion: 7,500ft MSL.

2-5 Day Outlook, Tuesday-Friday: \* Red Flag Warning through Wed AM, Warming/Drying into the Weekend\* Gusty northeast and dry conditions will continue on Tuesday behind the cold front. This will result in Red Flag conditions that will persist until Wednesday morning. Temperatures will cool to near season averages on Tuesday before high pressure rebuilds across the region resulting in warming and dry conditions through the weekend.

Latest Weather Observations near the Incident

FIRE BEHAVIOR FORECAST									
FORECAST NUMBER: 19	TYPE OF FIRE: Wildfire								
FIRE NAME: North Complex	OPERATIONAL PERIOD: Monday, Sept. 7, 2020								
DATE ISSUED: Sunday, Sept.6, 2020	TIME ISSUED: 1930 Hours								
UNIT: Plumas National Forest	SIGNED: Rich McCrea – FBAN								

**Weather Summary** 

Discussion: See attached weather forecast

**GENERAL FIRE BEHAVIOR**: Fire behavior potential to be like Sunday however ridge top winds will turn more out of the west. Expect active fire behavior with short upslope/upcanyon fire runs, tree torching and short-range spotting. Resistance to control will be high due to steep slopes, deep/narrow canyons, deep duff, snags, and very dry downed woody fuels. Burning debris can roll downhill on steep slopes creating new spot fires that may then run back upslope. Smoke over the fires may limit the drying of fuels and fire behavior. If smoke disperses on the fire expect enhanced fire behavior. There is potential for the fire to spot across the Middle Fork of the Feather River.

Spread Rate: Timber on steep slopes- 1600 feet per hour (490 Meters); Spotting, up to 3/10 mile (one half kilometer); Flame Length: up to 8 ft. (2.5 meters) except in large concentrations of heavy dead fuels and on steeper slopes.

Maximum daily spread up to one half mile to a mile (.8 to 1.60 kilometers per hour). Fire spread in narrow canyons/steep slopes with wind alignment may exhibit even faster spread rates.

<u>Fire Danger Values</u>: The Energy Release Component (ERC) is forecasted to be about the same. Four weather stations in the area show a high to very high fire danger level. **Probability of Ignition (PIG):** 80%, which will vary during the day due to smoke.

Drought Severity Index: This area of California is in moderate drought.

#### FIRE BEHAVIOR SPECIFIC:

#### Branch II: Claremont Fire

**DIV. P:** The fire spread on the north edge has diminished due to control actions by fire crews but watch for spot fires. There is about a 3 mile (4.8 kilometers) stretch of backing fire spreading down slope towards the Middle Fork of the Feather River. Fire is also flanking across the slope moving towards Grizzly Creek pushed by west winds. Watch out for spot fires across lines.

**DIV. S/V/X:** These divisions are in patrol and mopup. Expect residual burning in stump holes, logs and snags and burn out of interior islands which may cast spot fires across established fire lines.

DIV Z: Watch out for burning of islands in interior areas that may cast hot embers across fire lines

#### Branch VII: Claremont and Bear Fire

**DIVS DD:** Spot fires may be lofted to the south side of the Middle Fork of the Feather River and keep heads up for new fire starts.

#### Branch: X: Bear Fire

**DIV. AA:** Short fire runs still possible with spots established outside fire lines. The burnout has closed with Div. P on the Claremont Fire. Reference DIV. P for further information. Fire will continue to spread into the east and west oriented canyons in Fourth Water Creek and Third Water Creek area.

**DIVs QQ and TT;** Watch out for torching and associated spot fires across fire lines and short upslope fire movement especially near Lookout Rock.

**DIV. MM:** The Willow Creek Canyon, on the southwest side of the fire continues to hold and watch out for spot fires across lines.

Aviation: Smoke is being trapped between the 5500 to 6500-foot level, causing poor visibility, limiting operations.

**SAFETY**: Ensure escape routes are established and marked and know where the fire is located and the direction it is spreading.

INCIDENT RISK ANALYSIS NORTH COMPLEX CA-PNF-001308 (ICS 215a) Day/Night Shift

INCIDENT RISK ANALYSIS NORTH COMPLEX CA-PNF-001308 (ICS 215a) Day/Night Shift							
DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES					
ALL	FIRE BEHAVIOR	<ul> <li>Are you seeing what we have predicted?</li> <li>Conduct thorough assessments before starting work.</li> <li>Ensure LCES is in place.</li> <li>Plan &amp; Communicate your exit strategy with your crew and adjacent resources.</li> <li>Provide additional briefing for new resources and maintain communications.</li> </ul>					
ALL	AIR OPERATIONS	<ul> <li>Follow "Aviation Watch-Out Situations" on page 46, IRPG.</li> <li>Don't plan on air resources for tactical support or medical transportation.</li> <li>Refer to page 58, IRPG for directing bucket drops.</li> <li>Ensure positive communication with all air resources.</li> </ul>					
ALL	TRAFFIC HAZARDS AND DRIVING	<ul> <li>Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing or turning around.</li> <li>Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent.</li> <li>5mph speed limit in and around ICP, keep your speed down in all areas.</li> <li>Use warning lights when working on roads or traveling in smoke.</li> <li>Drive at or below posted speed limits.</li> <li>Use chock blocks, turn wheels into hill.</li> <li>Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents.</li> </ul>					
ALL	HAZARD / DANGER TREES	<ul> <li>Follow Hazard Tree Safety Guidelines (IRPG p.22.)</li> <li>Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled.</li> <li>Be alert around hazard trees during wind events, even green trees.</li> <li>The hazard zone extends a minimum of 2½ tree lengths.</li> <li>Avoid parking vehicles or taking breaks under or near hazard trees.</li> </ul>					
ALL	FATIGUE/COMPLACENCY	<ul> <li>Be alert for signs of fatigue and take breaks as necessary.</li> <li>Maintain 2:1 work/rest ratio.</li> <li>Monitor ALL resources for level of fatigue.</li> <li>Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents.</li> <li>Take steps to maintain situational awareness for the duration of the incident.</li> </ul>					
ALL	HEAT RELATED ILLNESS	<ul> <li>Drink 2 to 1 water to sports drinks.</li> <li>Take frequent breaks, minimum of 10 minutes every hour.</li> <li>Recognize symptoms of HEAT RELATED ILLNESS which include low energy, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack ofsweating.</li> </ul>					
ALL	FIRING OPERATIONS & DEVICES	<ul> <li>Follow the chain of command when undertaking burning operations.</li> <li>Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations.</li> <li>Wear and use appropriate PPE.</li> <li>Initiate burning after ensuring the plan is authorized and understood by all.</li> </ul>					
ALL	NIGHT OPERATIONS	<ul> <li>Have a purpose for where you drive and what you do. Don't rush into assignments.</li> <li>Use caution where you park or stage, especially in steep timbered areas.</li> <li>Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area.</li> <li>Increase SA by trying to see the work area during daylight hours.</li> <li>Use glow sticks to mark hazards, and ensure personnel have headlamps.</li> </ul>					
ALL	WILDLAND URBAN INTERFACE OPERATIONS	<ul> <li>Maintain continuous Situational Awareness based upon the fire environment, observed fire behavior, hazards and incident objectives.</li> <li>Key to success in the WUI is preparation and preplanning.</li> <li>Be active and engage in defense preparations &amp; don't wait for the fire to arrive.</li> <li>Be decisive in tactical engagement. Know when to engage or not.</li> <li>Establish management decision points, Safety Zones, and Escape Routes.</li> </ul>					
ALL	HEAVY EQUIPMENT OPERATIONS	<ul> <li>Ensure communications are established with operators (Visual &amp; Radio).</li> <li>Avoid working downslope from heavy equipment.</li> <li>Maintain a 50'-150' exclusion area around equipment.</li> <li>In timber increase safety distance to 2 ½ times canopy height.</li> </ul>					
ALL	COVID-19	<ul> <li>Utilize social distancing, wear facemasks in camp.</li> <li>Maintain the "module of one" concept.</li> <li>Disinfect vehicles, tools, and commonly touch surfaces frequently.</li> <li>Do not share equipment and wash hands frequently.</li> </ul>					
	INCIDENT NAME:	Operational Period: 0600-0600					

Operational Period: 0600-0600

# **North Complex**

**September 7/8, 2020** 

DATE AND TIME PREPARED:

September 6, 2020 1600

# North Complex - Safety Message

#### INCIDENT # CA-PNF-001308

DATE: 09-07-8-20 TIME: 0600-0600 Day/Night Shift

#### Communications

- Share your Situational Awareness (hazards, changes, etc.) to those who also have a need.
- Radio Communications may be poor in some areas: use human repeaters as needed.
- Ensure all personnel are familiar with the ICS 205 incident communications plan and the ICS 206 medical plan.
- Make sure all resources have radios cloned appropriately.
- Ensure that non-agency resources understand radio use and procedures.

#### **Fight Complacency**

- Stay mentally engaged on the task at hand
- Give clear briefings.
- Address complacency in your daily AAR.
- · Clearly identify the day's mission and purpose.
- Use the "Buddy System" and watch out for each other. If you see something, say something.
- Ask yourself: "Are you doing the job safely, the way you were trained?"
- Look for a "new" or "fresh" approach to repetitive assignments.

#### **Driving & Fatigue**

- Make sure you are getting your rest when you can! Stick to work/rest guidelines.
- Fatigue can cause us to mentally stray from the driving task.
- It only takes a second of distraction to lose control of our vehicle. The faster you are traveling, the faster you get in trouble.
- Make sure you recognize when you are too tired to drive!
- Don't tough it out and put yourself and your passengers at risk!
- Slow down, take breaks, and talk to your passengers. If possible, keep an alert passenger in the front seat next to you. Know your limits.

#### COVID-19

#### As a Reminder:

- Cover your <u>nose and mouth</u> with facial covering.
- Maintain at least 6 feet of physical distancing when feasible.
- Practice good hygiene. Wash hands often.
- Clean and disinfect frequently touched surfaces frequently.
- Monitor your health daily. Be alert for symptoms.

CIIMT 4 Safety

#### North Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- As you travel through the local communities proximal to the fire, be mindful that in the State of California, face coverings are required inside local businesses.
- Being a Federal fire, incident personnel are expected to comply with the following Region 5 and incident guidance.
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus. This limits "close contacts" to those within the module. A "close contact" is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks.
- <u>Social Distancing.</u> Maintain a minimum of 6' physical distancing, especially from those outside of your module-as-one.
- Face Coverings. Face coverings are required to be worn, in the appropriate manner covering nose and mouth, when in identified "mask areas" at Camp. Outside of camp, all incident personnel will wear a face covering when social distancing is not possible, especially with those outside your module-as-one.
- Wash your hands. Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

## NORTH COMPLEX COVID-19 DAILY SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms<sup>1</sup>?

Symptom	
Cough more than expected?	
Shortness of breath or difficulty breathing?	
Fever? Chills?	
Muscle pain, outside your normal for firefighting?	
Sore throat?	
New loss of taste or smell?	
Fatigue, outside your normal for firefighting?	
Headache, outside your normal for firefighting?	
Congestion or runny nose, outside your normal for firefighting?	
Nausea or vomiting	
Diarrhea	
* Take temperature with no-touch thermometer, if available *	

#### **Instructions for Screening**

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	NOTIFY SUPERVISOR IMMEDIATELY
At entries to established camps (ICP):	DO NOT ANNOUNCE
COVID-19 Daily Screening Tool will be posted for self screening of Incident Personnel, Cooperators and Guests.	Ask individual or "module-as-one" to step -aside and follow the steps
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	below.

Steps to follow for a symptomatic screening	
Escort individual or "module-as-one" to isolation area. Separate the symptomatic persor	nel
Isolation support personnel should begin documentation.	
Notify Line Medics or MEDL if at ICP.	
COVID Safety will coordinate with Incident COVID Advisor.	
Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet.	
Protect and secure any collected Personal Identifiable Information (PII) or Personal Heal Information (PHI).	lth

#### Medical Incident Report

FOR A **MON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A <u>MEDICAL EMERGENCY</u>: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency	IMMEDIATE	RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is  IMMEDIATE  Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.						
AND	□ YELLOW / PRIORITY	7 2 Serious Injury o	r Illness. Evac	uation may be	DELAYED IF			
Transport Priority (priority 1, 2, 3)	Ex: Significant trauma, una	able to walk, 2° – 3° burns r	not more than 1-3 pal	m sizes.				
	Ex: Sprains, strains, minor		ness. Non-Eme	rgency trans	port			
Nature of Injury or Illness & Mechanism of Injury					ry of Injury or Illness s, Struck by Falling Tree)			
Transport Request					nce / Short Haul/Hoist Ambulance / Other			
Patient Location			D		on & Lat. / Long. (WGS84)			
Incident Name					: Name + "Medical" : Meadow Medical)			
On-Scene Incident Commander		market manufact for any one community of profession of a second manufacture and a second manufac			ne IC of Incident within an (Ex: TFLD Jones)			
Crew Patient Care				(Ex:	f Care Provider EMT Smith)			
3. INITIAL PATIENT ASSESS	MENT: Complete this section for each	h patient as applicable (start v	with the most severe p	atient)				
Patient Assessment: Age (IRPG PAGE 106)	: Weight:	Chief Complai	int:

#### **FINANCE MESSAGE**

We would like to offer you another option for submitting your CTR's and Shift Tickets:

- <u>Electronic fillable PDF CTR/Shift Ticket</u>. If you have QR code capability, QR codes to fillable forms are at bottom of this page. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- Hard copy CTR/Shift Ticket. You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom.

#### EMAIL: Write TIME in subject line and email to :

2020.northcomplex.finance@firenet.gov

#### PLEASE:

- Crews need to include a manifest with their first CTR.
- · Try to submit your times at least every other day.

#### WHEN YOU ARE CLOSE TO DEMOB:

- Follow the demob plan instructions based on your travel route home.
- · Submit all time documentation (including travel home) ahead of demob.
- · Abide by scheduled demob time.

#### **QR** codes for Electronic Times

Use this link for fillable Crew Time Report (CTR)

Use this for fillable Equipment Time Report (Shift Ticket)

#### FINANCE SECTION STANDARD OPERTING PROCEDURES

#### **WORK REST CYCLE**

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

#### **OPERATIONAL SHIFTS**

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional time may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

#### **DUTY STATUS**

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

#### PERSONNEL/EQUIPMENT TIME REPORTING

<u>Personnel time</u> will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

<u>Private Contracted Equipment time</u> must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

#### MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation. Please also show in remarks section what division you are working in.

# Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND
CFAA AGREEMENT

You're OES AREP on the North Complex Kit Bailey 530-307-1307

# NORTH COMPLEX TRAINING MESSAGE

## 09/07/2020

Hello from the North Fire Training Specialist! Below are the QR Codes needed to register and check out of the training program. Follow instructions in each form carefully as there is required documents we must receive to complete your training package.

If you are missing any required forms, we can email you electronic versions, just contact us!

HEATHER GROVE, TNSP- (530) 394-8076 or <a href="heather.e.grove@usda.gov">heather.e.grove@usda.gov</a> STEVE TOLEN, TNSP(t) – (530)394-8114 or <a href="william.tolen@usda.gov">william.tolen@usda.gov</a> We are available at ICP or by phone, text, or email from 0600-2100 daily.

#### **Trainee Registration**

**Training Check-Out** 

**Exit Interview** 

# Human Resource Message Alcohol and Drug Free Incident

North Complex September 7, 2020

Alcohol, Non-Prescription, and Federal-Illegal Drugs are Not Allowed on This or Any Incident!

Feel free to call/text or come by the HRSP yurt if you have questions, concerns, or just want to chat. Adam Alvarez – (HRSP) (707) 373-8715

**MUTUAL RESPECT, YOU MAKE THE DIFFERENCE!** 

# Maidu Requests for Visiting Homeland

1. "Be good to the land and the land will be good to you." Maidu quote

Thank you fire fighters for helping us keep our homes and cultural sites safe.

2. Enjoy your visit in the Mountain Maidu and Valley Maidu homelands.

Archeological sites and the resources they contain are not public property. A place, site or resource may have significance to a family or local tribe, which often carries with it a special level of protection.

#### 3. Take care to avoid injuries.

Cultural sites are very old and fragile. Archeological resources are anything over 50 years old and can therefore erode easily. Also, historic dump sites can be hazardous, with sharp glass, rusty metal, and compounds and chemicals that can harm you.

#### 4. Enjoy with care.

Oils from skin damage pictographs (rock paintings) and petroglyphs (rock carvings). It ruins irreplaceable historic resources, and it is illegal.

#### 5. Don't touch the knickknacks.

ALWAYS LEAVE ARTIFACTS RIGHT WHERE YOU FIND THEM. Out of context, artifacts mean little to archeologists. Often the most important aspect of archeological resources is their relationship to the place and other adjacent resources. Archeological sites and artifacts are our direct link to stories that otherwise might not be told. How can these stories be complete or accurate if the setting is altered or lost? For this and other reasons, it is illegal to move or remove artifacts.

#### 6. Feel free to discover.

Some of the sites are identified, and some sites are not recorded. If you happen to come across a cultural site we ask you to treat it like you would any cultural artifact. And note the location and report it to a Resource Advisor.

Speak with resource advisors about the potential for archaeological sites being located adjacent to roads or proposed fire lines. It's easy to destroy features and artifacts in the dark.

 Over approximately 160 years, many changes have reshaped tribal relationships with these vast landscapes as well as with each other, and yet our knowledge of and responsibilities to these incredibly rich and vast landscapes remains strong. We appreciate your dedication to care for and building your own relationships with our natural environment while protecting these fragile and irreplaceable resources!
