

Slater & Devil Incidents

Incident Action Plan

Thursday, October 8, 2020 (0700 – 1900)

CA-KNF-007035

(P5NKM3)

NOTES:

This QR Code provides access to IAP, Incident Maps, Briefings, Electronic Forms and Check-in process

http://linktr.ee/Slater_Incident

Traffic Control Plan: Happy Camp, Grayback, and Indian Creek Roads

- 0500-0900 Open for Slater Fire incident traffic
- 0900-1200 EMERGENCY traffic only
- 1200-1300 Open for Slater Fire incident traffic
- 1300-1530 EMERGENCY traffic only
- 1530-2200 Open for Slater Fire incident traffic

24 hour Communication Line: 541-423-2631

INCIDENT OBJECTIVES	1. Incident Name Slater & Devil Fires	2. Date Prepared 10/7/2020	3. Time 2000
----------------------------	---	--------------------------------------	------------------------

4. Operational Period
Day Operations Thursday, October 8, 2020 0700 – 1900

5. **Commander's Intent:**

It is my expectation that we, as an organization, will meet the following Leader's Intent as well as the objectives identified below:

- Ensure all incident strategies and actions reflect a commitment to public, responder, and aviation safety through use of the risk management process as outlined in the IRPG and the aviation risk assessment process.
- Coordinate incident management activities with our requesting and cooperating agencies including but not limited to suppression actions and support needs.
- Treat all incident personnel, cooperators, and local publics with dignity and respect creating a "no tolerance" atmosphere for harassment, alcohol, or illegal drug use.

Values of Concern:

- Neighboring communities and private residences in California and Oregon.
- Critical communication and utility infrastructure including high power transmission lines, DOD/AT&T fiber optic cable, communication sites and repeaters.
- Highway 199 providing a main thoroughfare for inland and coastal areas of Southern Oregon and Northern California.
- Many historic, natural, cultural and recreational values within the fire area including historic buildings and multiple T&E species.
- Economic values impacted by area closures.

Management Objectives:

- Provide for emergency personnel and public safety at all times through the utilization of a deliberate risk-informed approach, with avenues for feedback from personnel. Also, ensure COVID-19 precautions and best practices are met by following agency, team and county guidance.
- Reduce the impacts of fire on communities, major infrastructure and private lands.
- Foster and maintain relationships with the public, cooperators and stakeholders.
- Ensure coordinated, timely and accurate release of public information. When possible utilize virtual platforms.
- Maintain fiscal accountability by making good risk-informed decisions.
- All personnel assigned should receive evaluations prior to leaving the incident.

Operational Objectives:

- Under the full suppression strategy, utilize direct and indirect tactics to minimize fire size. As feasible utilize minimum impact suppression tactics within the Red Buttes and Siskiyou Wilderness areas.
- Protect the values of concern identified above by suppressing the wildfire and utilizing point protection of structures when necessary.
- Scout, recon and identify primary and alternate containment opportunities considering resource availability and probability of success.
- Work collaboratively to refine and implement the population protection plan when necessary.
- Coordinate with Lead Resource Advisor, including the Karuk Tribe representative, and operational Resource Advisors to minimize natural and cultural resource damage.
- Provide initial attack support with both air and ground resources, if requested, for all cooperating agencies in the area under the Temporary Flight Restriction.
- Secure lines and mop-up to the level necessary based on site conditions associated with the values at risk to make the likelihood of escape minimal considering current/predicted weather conditions.
- Coordinate with resources advisors and technical specialists to prioritize, initiate, and complete fire suppression repair as specified in the suppression repair plan.

6. Weather Forecast for Period See attached weather forecast regarding an inversion and smoke.

7. General Safety Message "Slow is smooth and smooth is fast"

FIRE WEATHER FORECAST

FORECAST NO. 28

NAME OF FIRE: Slater & Devil

PREDICTION FOR: Thursday October 8, 2020

UNIT: Klamath National Forest

TIME AND DATE

FORECAST ISSUED: 1930 Wed 10/7/20

SIGNED: Angie Enyedi
Angie Enyedi 904-318-4041
Incident Meteorologist

WEATHER DISCUSSION: A pattern change Thu more persistent SW flow develops in advance of an approaching front. Cloud cover will gradually increase with cooler high temperatures and a continued gradual rise in minimum humidity. The lowest humidity values are expected through early afternoon, then humidity recovery is expected from west to east during the afternoon and evening. Terrain driven winds will continue across the valleys and lower slopes with gusty SSW winds on ridges. A little better humidity recovery on ridges Thu night with less smoke coverage.

THURSDAY:

WEATHER: Partly cloudy with morning smoke and haze, smoke improvement into afternoon.

MAXIMUM TEMPERATURE: Low 70s lower slopes near 60 ridges.

MINIMUM RELATIVE HUMIDITY: 18-28% through early afternoon, recovery to 25-35% into evening.

20 FOOT WINDS:

Slopes & Valleys – Terrain driven winds, generally 3-7 mph, gusts 10-15 mph.

Ridges & Peaks – SSW winds 15-20 mph, gusts 20-25 mph morning. Winds becoming WSW into afternoon 10-15 mph with gusts near 20 mph.

STABILITY: Moderate morning valley inversion. Smoke lingering 4000 ft and below through the morning, then improvement into the afternoon. Unstable conditions above afternoon smoke layer.

SMOKE TRANSPORT WIND: SW 20-25 mph weakening to 15-20 mph afternoon.

CHANCE OF RAIN: 0%

LAL: 1

RAINFALL AMOUNT: 0.0

THURSDAY NIGHT:

WEATHER: Partly cloudy with less smoke.

MINIMUM TEMPERATURE: Lows 40s valleys & low slopes to near 50 ridges.

MAXIMUM RELATIVE HUMIDITY: 40-50% ridges. Slopes & Valleys 80 to 100%.

20 FOOT WINDS:

Slopes & Valleys – Terrain driven drainage winds settling to less than 5 mph.

Ridges & Peaks – Ridge-top winds WSW 10-15 mph, gusts near 20 mph.

STABILITY: Thermal belt impacts along mid-slopes. Less smoke coverage drainages/valleys.

CHANCE OF RAIN: 0%

LAL: 1

SMOKE TRANSPORT WIND: WSW 15-20 mph

FRIDAY AND SATURDAY: Moisture increases Fri under breezy SSW winds and mostly cloudy skies. There is a low chance of passing light showers late afternoon and Fri night, then rain moves across the fire from the west through Sat ahead of the cold front. Widespread wetting rainfall of 0.10-0.25 inches is likely with gusty SSW winds. Winds shift WNW trailing cold front into Sat night with a low chance of snow showers above 6kft (peaks). Fri highs 60s, Sat highs 50s. Fri lowest RH 25%, Sat 75%.

OUTLOOK FOR SUNDAY THROUGH TUESDAY: Rainfall potential decreases Sun as WNW flow develops behind the cold front with a low chance of passing showers through Mon morning. Cool but drier NNW flow is expected Mon. High pressure builds over the region Tue with a warming and drying trend under NE flow and the redevelopment of the low level thermal trough.

Fire Behavior Forecast # 22

Name of Incident: Slater and Devil Fires

Fire Number: CA-KNF-7035

Date & Time Issued: Oct 7, 2020 @ 2000

Operational Period: Oct 8, 2020

FBAN: Steve Ziel / Barry Kleckler (T)

Signed: /s/ Barry Kleckler

Assumptions:

The transition to cooler temps and higher relative humidity will reduce potential fire activity across the fire except for wind facing slopes and ridgetops where it should be similar to yesterday. The persistent inversion will start our ridgetops off warmer and drier than the low elevations, however peak burn period should be shorter today as clouds begin to build and humidity begins recovery in the afternoon.

Weather Summary

**See IAP Fire Weather Forecast **

Fire Behavior Summary

Fuels in the fire area are primarily composed of:

- Timber Litter:** Timber stand lacking significant understory, generally underburns with moderate rates of spread without wind/slope alignment with occasional torching. Ponderosa pine and Douglas-fir are common.
- Timber with Understory:** Timber stand with brush or small trees in the understory will burn readily and aggressively with occasional torching, even with little wind. Heavy down fuels are common, receptive to embers, and consume completely once ignited. True fir with low crown base heights are common.
- Grass-Shrubs*:** Shrubs or grass/shrub mix. Cured grasses will support rapid fire spread with any wind. Shrubs contribute to spread rate and flame length. *Grass/shrub fuel models are dynamic and respond to seasonal changes in live fuel moisture.

Today's Peak Fire Behavior Potential (wind and slope alignment):

The remaining isolated pockets of fire activity on wind exposed slopes and ridges may produce short upslope finger runs and occasional torching with short-range spotting. Otherwise expect creeping and backing where protected from the wind. Where containment lines have been established expect creeping, smoldering, and consumption of heavies and unburned fuel. Flare-ups are possible with isolated torching as interior pockets consume. Leaf fall and needlecast from scorched canopies could cause previously burned areas to rekindle. As always, watch for falling snags and rollout.

Fine fuel moisture = 6-9%

Live herbaceous fuels = 30%
Live woody fuels = 60-70%

POI = 30 - 50%

Fuel Type	Head Fire		Backing Fire		Spotting Distance
	ROS	Flame	ROS	Flame	
Timber litter (TL8)	4 - 6 ch/hr	3 - 4 feet	<1 ch/hr	1 foot	0.1 mile
Timber with Understory (TU5)	8 - 11 ch/hr	7 - 8 feet	<1 ch/hr	2 feet	0.1 mile
Grass-Shrubs (GS2)	15 - 30 ch/hr	4 - 6 feet	1 - 2 ch/hr	1 - 2 feet	<0.1 mile

Specific Assignments:

- Divs G,M,P,T** - Secured control lines with no perimeter spread expected. Continuing smoldering consumption of heavies and interior burnout.
- Divs U, Z** - Slater fire will continue to back off the ridgeline west of Swan Mountain flanking to the east. New spot fires in the Left Fork should be protected from the wind. Thompson Creek should remain active and smoky. Devil fire will remain alive creeping to the west along the Butte Fork.
- Divs W, F** - Slater Fire edge will remain active in Thompson Creek with pockets backing to the east. Devil fire could see more flanking and uphill pushes on the southeast toward Kangaroo Mtn. within the wilderness.
- Div D** - Fire continues to flank to the south and burn up the hill into the black to the east of the East Fork Illinois. A shift to southwest flow could bring some marine influence to relative humidity in the afternoon.

Aviation

Decreased visibility especially in the morning as smoke from the south continues to pool under the inversion. Potential for air to clear a bit in the afternoon.

Safety

Subtle changes in the weather pattern today. Watchout Situation #15: Wind increases and/or changes direction.

DIVISION ASSIGNMENT LIST		1. Branch		2. Division/Group F			
3. Incident Name SLATER		4. Operational Period Date: October 08, 2020 Time: 0700 - 1900

READ GROUP will check in/out with Divisions at the morning briefings on days assigned to those divisions.

AIR OPERATIONS SUMMARY 220

Prepared By: Ted Hass, AOB

Prepared Date: 10/07/2020

Prepared Time: 1900

INCIDENT NAME: Slater Fire	OPS PERIOD DATE: 10/08/2020	START TIME: 0900	END TIME: 2000	SUNRISE: (SV) 0717	SUNSET: IV 1842 SV 1840
Risk Assessment Mitigations, Special Instructions, and Remarks:					
Assess Risk Daily: assess visibility, weather, complacency, communications, fatigue, etc. -- Make informed risk acceptance decisions.					
Be alert for unauthorized drone use in fire area					
Ensure altimeter is coordinated between aircraft operating out of Illinois Valley and Scotts Valley					
Helibase Info:					
Illinois Valley Latitude N42°06.216 Longitude W123°40.945					
Scott Valley Latitude N41° 33.47 Longitude W122° 51.30					
Helicopter Lend/Lease: To lend/borrow aircraft among other incidents: submit requests through YICC to ensure proper ordering procedures.					
Rescue Helicopter: med plan

TASK/ MISSION/ ASSIGNMENT (Type/function includes: Air Tactical, Retardant, Recon, Personnel Transport, Bucket Operations, SAR, etc.				
Request from	Mission	AIRCRAFT	Time Needed	Comments
Divs U	Bucket support as requested and conditions allow.			
Divs D	Bucket support			
Divs T	Bucket as requested			

RESOURCE CONCERNS/INSTRUCTIONS

Retardant	Track locations and gallons applied AVOID aerial application of retardant / foam / agent within 300' of waterways, bodies of water, etc. If Retardant / Foam / Agent is dropped within these areas immediately notify the AOB and provide the following information: Lat / Long, estimated number of gallons and a map detailing the area.
Dip sites	Track all dip site use by gallons and locations (for cost share purposes)
Illinois Valley HB	Dips from Kelly Lake must be dropped north of Klamath River and south of Oregon border Minimize driving off pavement, utilize weed wash adjacent to airport, utilize Hotsy for bucket rinse if changing watersheds

HEALTH AND SAFETY MESSAGE

SAFETY starts with *YOU*

We are ALL accountable for SAFE behaviors

INCIDENT: Slater and Devil

DATE: 10/8/2020

SHIFT: Day

Major Hazards and Risks: SNAGS - STEEP TERRAIN - INCREASING FIRE ACTIVITY

Fire Order of the Day:

#5 "Post Lookouts When There is Possible Danger" (Always)

What are the qualities of a good lookout?

- Well experienced person who knows fire behavior, can read a map, communicates well, has good judgement, and is attentive.
- Put them on a good vantage point where they can see the people and the fire. Clear brush and trees if necessary. Consider use of IR drone if no good vantage points.
- Establish and maintain good comms with people being looked out for. Use binoculars and a belt weather kit if available.
- Is one lookout enough to cover your work area?

Watch Out Situation of the Day

11. UNBURNED FUEL BETWEEN YOU AND THE FIRE

DISCUSS IT AT BREAKOUT

Safety Pro Tips

- Slow Down! Breathe. "Slow is smooth and smooth is fast."
- Focus on the task at hand
- Be deliberate in your choices and actions.
- Watch out for each other.
- Communicate hazards, mitigate them if possible.
- Brief your relief resources if possible.

Incident Safety Officers: Matt Broyles (ICP), Eric Brown (OR-FOB – Selmac), John Foley (CA-FOB Road Group)
Duane Franklin (Div. U)

Hazardous Tree Mitigation Traffic Control Plan Happy Camp RD, Grayback RD and Indian Creek

In order to decrease the amount of non-essential traffic travel delays on the Happy Camp Road, Grayback Road and Indian Creek Road, the following timeline will allow for increase work efficiency and reduce travel delays.

It is essential that emergency traffic will have no more than a 15 minute delay.

05:00-09:00 Open for Slater Fire incident traffic

09:00-12:00 EMERGENCY traffic only

12:00-13:00 Open for Slater Fire incident traffic

13:00-15:30 EMERGENCY traffic only

15:30-22:00 Open for Slater Fire incident traffic

Pacific Southwest Region
Peer Support/Critical Incident Stress Management

Our wildland firefighters and support employees are resilient under stress, shown time and again in our daily jobs. We do great; however, stress is cumulative. And 2020 has pushed us and our coping mechanisms to the limit.

Here are a few reminders for employees working under these stressful conditions:

- Eat Right
- Stay Hydrated
- Get Plenty of Rest
- Connect with your support system (family, friends, co-workers...)
- Reach out for additional help if needed... (Peer Support, Clinician Services, Spiritual, Employee Assistance Program, etc.)

CISM Coordinators/Peer Support and a Clinician will be onsite today.

We want to hear from you and we will be visiting your incident...how are you doing? How is your crew doing? What helps maintain resiliency? What are your plans for recuperation when the fires go out? How can we help? We have been so operational this year, with COVID-19 mitigations and fire suppression, are your needs being met in regards to crisis management? Would you or your crew or unit benefit from follow-up support?

Connect with us today or call anytime.

Wendy Flannery, R5 CISM/CAP Coordinator 209-283-4552
Tessa Chicks, R5 Deputy CISM/CAP Coordinator 360-982-8220

Fish Screens: Coho Salmon Critical Habitat

Most rivers and streams in this area are considered critical habitat for Threatened Coho salmon. Please ensure that Mark 3 and Engine/Tender suction hoses have the appropriate screen attached. Talk to a READ if you think you need a screen!

Port Orford Cedar root disease

Some local drainages are infected with a root disease that spreads via mud and water. To prevent spreading this disease to uninfected areas, all water tenders and engines will apply bleach to their tanks in a 1 to 1000 ratio (using bleach with 6.0 % Sodium hypochlorite). Talk to a READ if you need some bleach!

Invasive Yellow-tuft (Alyssum)

Please do not park in or drive through the flagged off area at the mill-site briefing area. There is an introduced plant in this area that spreads aggressively in the serpentine areas in the Illinois Valley. Most invasive plants do not spread into

serpentine soils. Serpentine soils are home to rare plants that only grow here in the Illinois Valley. This invasive plant does threaten those unique plants. The READs would appreciate people utilizing the weed wash when they can, especially if they've been

working or parking near the IV Airport. Don't know what serpentine is? Not sure if you should hit the weed wash? Ask a READ!

TIME Instructions

*Due to Covid-19 safety precautions and the physical distance of resource locations, virtual procedures and approvals will be used in lieu of paper copies.

ODF resources ordered under Illinois Valley Support Incident (OR-712S-047521)

- Submit time by completing a CTR/shift ticket, get supervisor signature, then take a clear picture of the document. Email the signed CTR or Shift Ticket to 2020.slater.finance.north@firenet.gov. The subject line should read "Time". Slater finance will forward your time to ODF Illinois Valley Finance personnel.
- If you have questions, please call ODF finance at 541-474-3152.

LFS resources ordered under RSF Large Fire Support Incident (OR-RSF-000001)

- Continue to submit your time as directed by RSF Large Fire Support finance personnel. Please **do not** send your time to Slater Finance.
- For questions please call 541-592-4002 or 541-589-2142.

Slater resources ordered under Slater Incident (CA-KNF-007035)

- Submit time by completing a CTR/shift ticket, get supervisor signature, then take a clear picture of the document. Email the signed CTR or Shift Ticket to 2020.slater.finance.north@firenet.gov. The subject line should read "Time".
- Electronic time forms are available at https://linktr.ee/slater_incident or by scanning the universal Slater QR code.
- If you have questions for Slater Finance call 541-255-5738.

SLATER FIRE

CHECK-IN PROCEDURES

1. All contracted resources need an inspection before moving to the next step. Call Ground Support at:

847-946-8847

2. Email The Following Documents:

To: 2020.slater.plans.north@firenet.gov

Subject: (Your Resource Order Number)

- **Manifest** (crews and engines)
- **Resource order** (crews, equipment, and overhead)
- **Red cards** (crews, equipment, and overhead)
- **Casual hire form** (A.D. resources)
- **Contractor agreement** (pgs. 1-3)

3. Fill Out The Check-In Form:

https://linktr.ee/slater_incident

4. Wait for confirmation that you are checked-in. Check-In will provide instruction for how to contact your supervisor.

5. If you have not been contacted within 2 hours of initially emailing your paperwork or need help with steps 1-3 call:

847-946-6416

SLATER DEMOB PROCEDURE/CHECK OUT SHEET

C# / E# / O# _____ Name of Resource _____

Phone # _____ Email for timesheet _____

1. All resources wash vehicles
 - a. Happy Camp resources get a token from Chuck House-Logs, and self wash.
 - b. All other resources proceed to weed wash.

Happy Camp resources complete steps 2-5 with Chuck House-Logs. To schedule demob, call 541-423-2631.

2. Ground support (contracted resources only)
3. Supply Unit
4. Communications
5. Documentation (inspections, CTR's, Shift Tickets, evaluations, etc.)

Return Travel Info

Departure Date and Time _____

Rest Overnight Location(s) _____

Estimated Arrival Date and Time _____

E number of vehicle (if applicable) _____

****Indicate resource type "ODF" or "LFS" or "Slater" and Resource Order# in subject line**

****ODF and LFS resources will continue using current payroll processes.**

- Resources do **NOT** need to remain at incident to receive pay documents. Finance will email pay documents once CTR's/Shift Tickets have been posted.

TRAINING MESSAGE

Check-in – If you have a position task book (PTB), please check in by scanning the QR code below to initiate the registration process. Please complete the form in its entirety. To complete the registration process, at your earliest convenience, please email a copy of your qualification card and position task book cover to Debra Burgos, TNSP at debra.burgos@usda.gov (if you have questions, please call 404-987-3256).

For your convenience, an electronic ICS-225 or ICS-226 and Evaluation Record will be sent to you after you complete the registration process.

SLATER FIRE TRAINEE REGISTRATION

Demob – In order to receive credit for your assignment, you must 'close out' with the Training Specialist prior to departure.

Close out requirements include:

1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB;
2. Obtain an Incident Performance Evaluation;
3. Obtain an Evaluation Record;
4. If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page);
5. Email all documentation (including item #3, when appropriate) to debra.burgos@usda.gov (please do not text);
6. Complete Exit Interview – Scan QR Code below.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

Instructions for Screening

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries: Consider adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained. If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	DO NOT ANNOUNCE Ask individual to step aside and follow the steps below.

Steps to follow

Escort symptomatic individual to isolation area.
Isolation support personnel should begin documentation.
Have symptomatic individual contact Supervisor for further direction.
Notify public health officials.
Have individual transported as appropriate.
Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

Har-Tish Spike = DP-18	42 03.101 X 123 07.607	N/A	N/A	45 min	Yes		Air ambos. lands at Applegate Dam routinely- it is near H-T spike
Scott Valley helibase	41 33.470 X 122 51.300	N/A	25 min.	N/A	Yes	1,2,3	
Div. ROADS DP-51	42 01.438 X 123 34.474		N/A		Yes		15 min drive to DP-52
Div. ROADS DP-52 = H52	42 00.391 X 123 32.906	1 hr 5 min.	N/A	1 hr 40 min.	Yes	3	

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
