Fire Weather Forecast WEDNESDAY JUL 29, 2020

FORECAST NO: PREDICTION FOR: SHIFT DATE: ISSUED: 3 Wednesday July 29, 2020 1900, Jul 28, 2020

NAME OF FIRE: UNIT:

Incident Meteorologist:

JULY COMPLEX MDF
Tom Wright Ten

*** RED FLAG WARNING FOR STRONG WINDS AND LOW HUMIDITY 1400-2000 TODAY ***

DISCUSSION: Hot, dry, breezy and unstable weather today. The combination of gusty afternoon winds and low humidity will result in red flag conditions early this afternoon into early evening. Haines 5 will also promote plume domination should other factors align.

WEDNESDAY: RED FLAG WARNING 1400-2000 HRS

- WEATHER: Mostly sunny.
- WIND (20 FT): South-southwest 2-6 mph through 1100 then becoming south-southwest 10-15 mph with gusts to 25 mph.
- MAX TEMPERATURES: 90-95
- MIN RH: 8-13%
- HAINES: 5
- CHANCE RAIN/T-STORMS: 0%
- LAL; 1

WEDNESDAY NIGHT:

- WEATHER: Clear.
- WIND (20 FT): South-southwest 2-6 mph.
- MIN TEMPERATURES: 55-60.
- MAX RH: 30-40%.
- CHANCE RAIN/T-STORMS: 0%

THURSDAY: POSSIBLE RED FLAG CONDITIONS FOR GUSTY WIND/LOW HUMIDITY

- WEATHER: Mostly sunny.
- WIND (20 FT): South-southwest 2-6 mph through 1100 then becoming south-southwest 10-15 mph with gusts to 25 mph.
- MAX TEMPERATURES: 90-95
- MIN RH: 8-13%
- HAINES: 5
- CHANCE RAIN/T-STORMS: 0%
- LAL: 1

LONG TERM TRENDS

Friday: Possible red flag conditions due to wind, humidity, and possibly Haines 6. Sunny, very hot, dry, breezy, and unstable. Highs 90-95. Minimum humidity 8-13%. Winds SW 13-18 mph gusts to 25 mph. Haines 6 possible. **Saturday through Tuesday:** Continued sunny, warm, and dry. Highs 87-92. Minimum humidity 13-18%. Winds SW-NW 6-12 mph gusts to 17 mph.

FIRE BEHAVIOR FORECAST

FORECAST NO. 5

NAME OF FIRE: July Complex

UNIT: CA-MDF-0486

DATE & TIME ISSUED: 07/28 1745 hr

PREDICTION FOR:7/29/20 24hr

SIGNED: Dan O'Connor

FIRE BEHAVIOR ANALYST (t)

WEATHER SUMMARY:

RED FLAG for Low RH and Winds 1400-2000

Winds:

Day

S-SW 10-15 gusts to

Night S-SW 2-6.

RH:

25mph Day Min 8-13%

Night Max 30-40%

Temperatures:

Day High 90-95

Night Min 55-60

GENERAL FIRE BEHAVIOR:

With Red Flag conditions over our fires all existing containment lines will be challenged. Torching with spotting will continue and with add to fire spread. Expect sustained crown runs in continuous stands of timber. As the fire moves into lighter fuel types expect dramatic increases in rates of spread where wind and slope align. Drought stressed fuels are holding heat for extended periods and the heavy dead and down logs are very receptive to spotting. ERC's are at or above 90th percentile at local stations. Expect the fire to remain active into the night until the winds die down and we get some RH recovery.

Probability of Ignition 90-100%

Spotting distance 400' to up to 1/2 mile

SPECIFIC:

Branch 5

Strong southwest winds have the potential scour out heat along the entire northern perimeter, challenging containment lines. Be heads up for long range spotting potential into receptive agricultural fields downwind to the north.

Branch 3

Afternoon winds should be mostly favorable. Continued burn down of heavies and fire weakened snags.

Allen and Dalton Fires

Another round of testing for these fires today. Drought stressed fuels will continue to hold heat that could threaten containment lines.

Initial Attack New Fires

Anticipate FL 8-12'+, ROS 40-80 ch/hr, and spotting up to 1/2 mile in areas exposed to SW.

Air Operations: Smoke should clear out by 1100 today.

SAFETY:

Any new ignitions have the potential to see rapid rates of spread.

- 7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking
- 8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Glearly. Act Decisively.

SAFETY MESSAGE

Incident:

July Complex CA-MDF-000486

Date: 0/29/2020 0600 07/30/2020 0600

Operational Period: Day/Night Shift

Structural "Watch Out Situations" can be remembered by the words - ALWAYS THINK SAFE - which stand for:

- A Access is poor (i.e. roads are narrow, twisting, single lane tracks with inadequate turning radii).
- L Load limits of local bridges are light or unknown, and the bridges themselves are of narrow proportions.
- W Winds are strong and erratic fire behavior is occurring.
- A Area contains garages with closed, locked doors.
- Y You have an inadequate water supply to attack the fire.
- S Structure windows are black or smoked over.
- **T** There are septic tanks and leech lines. (These are found in most rural situations).
- **H** House or structure is burning with puffing rather than steady smoke.
- I Inside and/or outside construction of structures is wood and they are topped with shake single roofs.
- N Natural fuels occur within 30 feet of the structures.
- **K** Known or suspected panicked publics are in the vicinity.
- S Structure windows are bulging, and the roof has not been vented.
- **A** Additional fuels can be found in open crawl spaces beneath the structures.
- **F** Firefighting is taking place in or near chimney or canyon situations.
- E Elevated fuel or propane tanks are present.

Look Up, Look Down, Look Around:

- *Look Up: Check the sky for any weather changes such as building or approaching thunderstorms, wind shifts or increasing in speed. Watch for air operations and water drops. Look for snags.
- *Look Down: Watch your footing. Keep an eye out for loose rocks, rattlesnakes and wet or loose soil.
- * Look All Around: Check fuel loading in the area, general terrain, current fire behavior and ladder fuels, and look in your IDP for weather forecasts and expected fire behavior.

Human Resource Message July Complex Wednesday, July 29, 2020

HUMAN RESOURCE MESSAGE

SEE SOMETHING - SAY SOMETHING

We sometimes encounter people behaving in a way that is not appropriate in the workplace including on Fire Incident. We've all been made aware and continue to be reminded of what behavior will not be tolerated. Yet there are those that aren't taking the message seriously.

Everyone's commitment to duty must be to create a workplace that is respectful, rewarding, and above all, a safe place for all employees.

Being aware of the work environment around you and taking personal responsibility to ensure a safe and healthy working environment is everyone's responsibility.

If you see something, say something.

Feel free to call/text or come by the HRSP trailer if you have questions, concerns, or just want to chat.

Todd Morrow - (HRSP) - (707) 373-0204 Adam Alvarez - (HRSP) - (707) 373-8715

FINANCE MESSAGE

Options for submitting time:

Fillable PDF CTR/Shift Ticket: QR codes to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.

Hard Copy CTR/Shift Ticket: You may fill out a hard copy CTR, snap a picture and email/text that in to finance OR you may turn in your actual hard copy as usual. If you send in a picture please make sure it is legible and includes the supervisor's signature at the bottom.

- Please try to submit time at least every other day
- Justifications are still required on your CTRs
- Tips for a successful finance demob:
 - Send in all time documentation (including travel home) ahead of demob
- There will be a waitlist at finance so you can leave your contact info and wait in your vehicles to stay out of the heat. Finance will call you when they are available in the order you are listed on the sheet.
 - o Abide by scheduled demob time or call finance for an unscheduled demob

The work we do is dangerous, COVID-19 is making it worse

We are seeing a steep rise in cases of coronavirus in our Forest Service, and especially our wildland fire communities. Let's do our part to mitigate this risk through our core values.

DUTY - It is our duty to do our jobs safely. Safety includes following these CDC guidelines:

- Wearing a Mask (where feasible)
- Washing your Hands (where you can)
- Maintaining Social Distancing (in briefings and around camp)

RESPECT — Have respect for your crew, your family and yourself by following the CDC guidelines above both on and off duty. When in the office or vehicles with your co-workers, wear a mask to respect the "Module as One". Remember your off-duty behavior will influence the health and well being of your crew and their families too.

INTEGRITY – Do all of these things even when no one is watching. This way you show up for everyone in your life in the best way you can.

THOUGHTFUL BEHAVIOR IS OUR MOST POWERFUL PPE

For more information go to COVID-19 Prevention for Firefighter Personnel video: https://www.youtube.com/watch?time continue=8&v=qKXYYHJaNE8&feature=emb logo.

WILDLAND FIRE COVID-19 SCREENING TOOL

DO YOU HAVE ANY OF THESE SYMPTOMS?

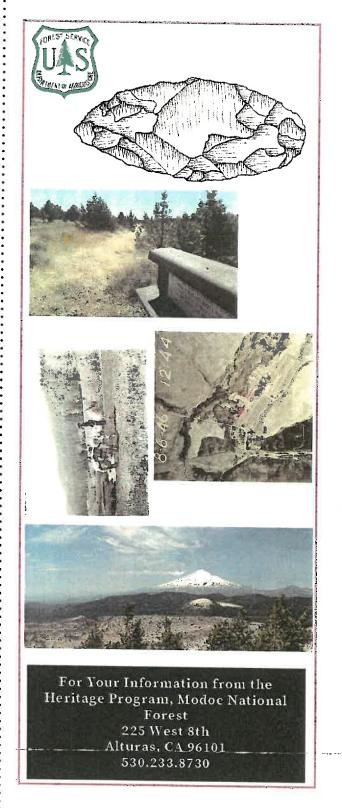

Today or in the past 24 hours, have you had any of the following symptoms?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
* Take temperature with no-touch thermometer, if available *

In the past 14 days, have you had contact with a person known to be infected with the coronavirus (COVID-19)?

If you experience any of the above symptoms of COVID-19, notify your direct supervisor and immediately contact the Medical Unit at:

ICP (Brandon Bennewate –MEDL(T): 805-813-3858) Medicine Spike (Juan Delgado - MEDL(T): 385-224-6204) Tule Lake Spike (Brian Wisler - MEDL: 209-620-0660)

Welcome to Modoc National Forest from the Heritage Program

Heritage is more than Archaeological Sites-

It is our responsibility as federal and state employees to help in the identification and protection of our heritage. A cultural resource is anything resulting from human activities. This includes tools, art, trails, buildings and dams over 45 years, rock cairns, archaeology sites, and contemporary places that are important to our knowledge of human development.

The Modoc National Forest Heritage Resources Program is set up to discover and preserve these places and artifacts for scientific, cultural, educational, spiritual, and religious uses.

Should you encounter heritage items or cultural places please notify the Forest Archaeologist or through your supervisory chain. This will enable us to support you to protect the resource.

Many of these areas have-been intentionally vandalized or looted—Please respect these places and items by leaving them as you find them and by refraining from revealing their locations to those who would do harm.

Also, please do not post georeferenced photos to social media or to family and friends.

If you have any questions as to what is a cultural, historical or a sensitive area, or what your responsibilities are towards cultural resources, ask for a resource advisor.

Thank you

M. Pamela Bumsted, Ph.D., Forest Archaeologist and Heritage Program Manager, 530-233-8730, cell 530-708-2889, mary.bumsted@usda.gov
Vicki Adkison, Archaeologist, vicki.adkison@usda.gov, 530-233-8733
Dayne Crosby, Archaeologist, dayne.crosby@usda.gov, 530-233-8731
