### Fire Weather Forecast

**FORECAST NO: 29** 

**PREDICTION FOR:** 24 Hr Shift

SHIFT DATE: Thursday 9/17/2020

TIME AND DATE ISSUED: 9/16/2020 1800 PDT

**INCIDENT:** August Complex

**UNIT:** Mendocino NF

SIGNED: Benjamin Bartos and Steve Hannah

Incident Meteorologist (IMET) and (Trainee)

### Discussion:

Today will see higher RH as additional moisture arrives in the area from the west. Additional moisture in the area could lead to light showers late today. However, these showers will not produce wetting rainfall. Temperatures will continue to cool to Friday. The transport winds will stay southwest for today and become more westerly for tomorrow. This will continue to produce clearer skies on the southwest portion of the fire.

### **WEATHER FORE**CAST FOR TODAY:

SKY/WEATHER: Cool, dry in the morning becoming moister. Small chance for very light rainfall.

Max Temperature: 65 to 70 higher elevations and except 82 to 87 lower valleys

Min RH: 25 to 30 percent.

WINDS:

-20 ft Level-WINDS

Lower Valleys/Lower Slopes Terrain or southwest winds 5 to 10 mph with gusts to 15 mph.

**Upper Ridges:** Southwest winds becoming west 15 to 20 mph with gusts to 25 mph. **TRANSPORT WINDS:** Southwest 15 to 25 mph. **Mixing Height** 6,000 ft.

### **TONIGHT:**

SKY/WEATHER: Partially Clear skies with increasing moisture.

Min Temperature: low 50s and 60s.

Max RH: 25 to 35 percent.

WINDS: -20 ft Level-

Valleys/Lower Slopes: Down drainage 5 to 10 mph after sunset. Upper Ridges: Southwest 10 to 15 mph with gusts to 20 mph.

### **FRIDAY:**

SKY/WEATHER: Cooler and moister with a chance of light rainfall. No wetting rains expected.

Max Temperature: 60 to 65 higher elevations and 70 to 80 lower valleys

Min RH: 35 to 40 percent.

WINDS:

### -20 ft Level-WINDS

Lower Valleys/Lower Slopes Terrain or Southwest 5 to 10 mph with gusts to 15 mph.

Upper Ridges: West wind 10 to 15 mph with gusts to 20 mph.

TRANSPORT WINDS: West 10 to 20 mph. Mixing Height 5,500 ft

### Outlook Saturday through Sunday:

WNW winds Sat switching to W on Sunday. High temps around 70 and Min RH 25 to 30%.

Mendocino Pass

Stonyford

Monkey Rock

Solder Ridge

Thomes Creek

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 30	TYPE OF FIRE: Wild Fire
FIRE NAME: August Complex South	OPERATIONAL PERIOD: September 17, 2020 24hr
DATE ISSUED: 9/16/20	TIME ISSUED: 2000
UNIT: CA-MNF	SIGNED: /s/ Dennis Burns

### **INPUTS**

WEATHER SUMMARY: Cooler with increasing RH

Temps: Day Valleys 82-87 Ridges 65-70 Night Valleys 50-60 Ridges 50-60

RH: Day 25-30% Night 25-30%

Winds: Day Ridges SW-W 10-15 gusts to 20mph Night Ridges SW to S 10-15 gusts to 20mph

### **OUTPUTS**

### **FIRE BEHAVIOR**

**GENERAL:** The fire will remain a fuels driven fire. Main fire progression will continue to the south towards Lake Pillsbury. Expect active backing and flanking fire spread with single and group tree torching. There is the potential for short intense crown runs when the fire aligns with the smaller sub-drainages. Some unburned interior islands may actively burn out but they are not anticipated to be a threat to any of our lines. The fire is established in continuous fuel beds and is actively burning for 10-12 hrs per day.

The primary trigger point for active fire is "Clear Skies". When the smoke clears or you lose cloud cover expect the fire behavior to increase.

With the dry fuels, spotting will be problematic it should be short range less than 100ft and from rollout.

1000hr fuels are at 6-10%FM and are receptive to spots

Probability of Ignition will be 70-80%

Night Shift: Expect the fire to remain active with similar conditions as to the day shift until about 0300hrs.

#### SPECIFIC:

**Branch I:** No forward fire progression is expected. The island in Div. F will continue to burnout but is not expected to impact containment. Any fire that becomes established outside of existing lines will exhibit rapid rates of spread.

**Branch III:** The fire will continue to back to the south with lateral spread east towards the DP16 area and west towards Little Signal Peak. Expect to see multiple group tree torching as the fire backs against the wind. None of the structure groups are expected to be impacted during the shift today.

**AIR OPERATIONS:** Branch I Smokey in the morning clearing by 1000hrs if air is needed. Branch III Smoke but skies should be clear enough by 0900 for air operations

### SAFETY

Most of our fire is situated on steep slopes, assess your work area for rollout potential.

Fuels are at critically dry moisture levels expect active burning and complete consumption of dead fuels.

## Fuels and Fire Behavior Advisory

### Northern California Geographic Area

September 7, 2020

Subject: Extended high temperatures continues to rapidly dry out an above normal live fuel load and dead fuels across Northern California. Extreme fire behavior and rapid to dangerous rates of spread has occurred during enhanced breezy periods accompanied with low humidity in areas clear of smoke. Extreme fire behavior will become more common as the fuel drying continues in September.

Discussion: Weeks of record temperatures in August and early September coupled with limited precipitation has been expanding extreme to severe drought conditions across much of the Geographic Area. All indications show these drought conditions persisting through September. The thunderstorm event of August 16-17 produced much lightning with limited rainfall that only lowered fire danger for a very brief period. Fires have recently shown or exhibited rapid or dangerous spread rates or generate extreme fire behavior once the any cap of smoke lifts out. There is a high potential for extreme fire behavior to persist under a wider range of conditions as fuel continues to dry and gusty north to northeast foehn winds events become more frequent.

Difference from normal conditions: Winter precipitation was below to well below normal with 55% of normal mountain snowpack. Late spring moisture during the heart of the low-mid elevation growing season led to above normal fine fuel loading. Typical dry summer conditions coupled with above normal temperatures has dramatically effected fuel dryness and fire danger indices. ERC's will generally range between 90th to 97th percentile the next 2 weeks with some PSA's experiencing seasonal record values. This time of year, live brush has typically low moisture levels due to normal seasonal drying but recently sampled live brush are at the at historic lows for many sampling sites.

### Fuels - Low Elevation Grass Crop

### Sierra Foothills Rangeland Forage Production Data

- 40 years of consistent data
- 2019-20 growing season 4th highest total
- 5 seasons of above normal in a row

<b>Top 5 Growing Seasons</b>	Pounds/Acres
2017-18	5514
1992-93	4696
1982-83	4630
2019-20	4420
2004-05	4410

For more information about the very unseasonable environmental conditions occurring, follow these links: https://gacc.nifc.gov/oncc/fuelsFireDanger Bi.php https://gacc.nifc.gov/oncc/fuelsFireDanger Erc.php https://gacc.nifc.gov/oncc/fuelsFireDanger Hundred.php https://www.esrl.noaa.gov/psd/eddi/

https://vegdri.unl.edu/Home/StateVegDRI.aspx?CA https://gacc.nifc.gov/oncc/fuelsFireDanger Thousand.php

### Concerns to Firefighters and the Public:

- Cured fine fuel loading below 3,000' elevation is above normal, exhibiting very rapid fire spread.
- Firefighters should be prepared for potential extreme fire behavior and dangerous or otherwise rapid rates of spread at any time of day, especially during foehn wind events.
- The potential for extreme fire activity will be likely to continue until enough precipitation occurs to significantly increase fuel moisture.
- Rapid rates of spread could have a significant impact on public safety and make evacuations difficult.

### Mitigation Measures:

- All local and visiting firefighters need to remain aware of current and expected weather and burning conditions and consider such information while making strategic and tactical decisions.
- Employ LCES principles (Lookouts, Communications, Escape Routes, Safety Zones).
- Review current fire potential products from Predictive Services at https://gacc.nifc.gov/oncc/predictive/weather/index.htm or potential Red Flag conditions from the National Weather Service and weather at https://www.wrh.noaa.gov/fire2/cafw/.

Area of Concern: All areas across Northern California could see very active fire behavior. The PSA numbers associated with those areas are NC01, NC02, NC03A, NC03B, NC04, NC05, NC06, NC07 and NC08.

### 7. Special Instructions:

Use caution around snags and flag as needed for safety. Use caution when driving on roadways and on the fireline. Backhaul excessive equipment and trash. Contact READ for locations of naturally occurring asbestos. READS will call DIVS when entering.

fire. Secure and mop up firing operations utilizing existing hoselays and heavy equipment.

Follow CDC guidance and established local, state, and national guidance to ensure a healthy work environment. Adhere to the "module of one" concept to reduce physical exposure and transmission of COVID 19. Resources with symptoms notify COVID coordinator at 916-591-9006

### 7. Special Instructions:

Use caution around snags and flag as needed for safety. Use caution when driving on roadways and on the fireline. Backhaul excessive equipment and trash. READS will call DIVS when entering.

SOFR's will maintain contact with resources as they transition along the control lines between DIV O and DIV R.

Follow CDC guidance and established local, state, and national guidance to ensure a healthy work environment. Adhere to the "module of one" concept to reduce physical exposure and transmission of COVID 19. Resources with symptoms notify COVID coordinator at 916-591-9006.

### **Radio Cloning Procedures:**

- At operational briefings, one representative from each module should be cloned by Communications Unit, then subsequently share the radio code plug/program with the module.
- o Cloning procedure:
  - 1. COMT puts on gloves and face covering.
  - 2. COMT clones radio (COMT is only person that handles cloning cable and cloner).
  - 3. COMT wipes down customer radio with appropriate disinfecting solution or wipes and returns the radio.
  - 4. COMT wipes down cloner, cable, and gloves.
  - 5. Move on to the next radio.
- Module representatives, single resources, and cooperators will maintain social distancing as they line up for service.
- As practical, cloning areas should be set up outdoors in wellventilated areas with enough space for social distancing.

### Finance Message

**ALL Resources** – if you have not already done so, please submit all the required paperwork to finance (contracts, casual hire forms, cooperator agreements, etc.

### TO SUBMIT TIME:

- Be sure to get your hard copies to the appropriate individual after morning briefing.
- Hard copies are preferred but you may also send digital copies to 2020.AugustComplex.finance@firenet.gov.
- Ensure your resource order number is on your CTR and shift tickets.
- Single resources please put only one person on each CTR.
- Please remember to put the **reason for hazard pay** and **compensable meal** justifications in the Remarks block on the CTR or shift ticket.
- Please submit time at least every other day.

### Please Click the QR code below for the following fillable Finance forms:

### CTRs/Shift Tickets and Comps/Claim

If submitting a digital copy "pdf" is preferred. When sending "jpg" please use high resolution. When completing claims form be sure to include your Resource Order #, your home unit address, your contact number and email address as well as pictures of the damage/damaged item.

### **Finance Contact Information**

Finance Chief:	Carol Bass	775-296-2402
Finance Chief Trainee	Sharon Holmes	318-730-5813
Procurement Unit Leader	Dan Myers	970-485-0139
Comp Claims	Judy May	775-340-0224

## **CHECK-IN PROCEDURES**

Virtual Check-In: Please complete online check-in with your smart phone.

Use your Resource Order and Incident Qualification Card to complete the check-in information accurately. For CREWS, only the leader must check in online. For all other resources with multiple people per resource order number, all people should complete check-in.

1.SCAN THE QR CODE and COMPLETE the form in its entirety.

### 2.EMAIL RESOURCE ORDER AND MANIFEST TO:

or 2020.augustcomplex.resources@firenet.gov

If you do not have the capability or information needed to complete online check-in on your smart phone, please come to Check-In Trailer and knock on the door and someone will come outside to assist you with check-in. Thank You!

Base Camp Check-in Trailer Hours 0600 – 2000

Willows ICP Check-In Hours 0700-2100

## **PAPERLESS DEMOBILIZATION CHECKOUT PROCESS**

Questions??? Contact Lori Price @ DEMOB 925-588-6089

1.) Visit the DMOB Unit Last for final checkout.

2.) At each of the following units, take a picture of the Unit Lead's signature after you have been cleared by them for DEMOB.

Supply (856-430-5621)

**Communications** (925-817-9846)

Ground Support (928-679-0611)

- 3.) Once cleared from <u>all 3 units</u> present your pictures to the DEMOB unit leader for final approval and checkout.
- If you do not have all required signatures you will not be cleared from ICP.
- Those without the ability to take a picture on their phones should coordinate with their supervisor.

## **CREW SWAP???**

Click the QR code below to complete e-Form

24 hours prior to GROUND travel and 48 hours prior to AIR travel...

<u>SECTION</u> SUPERVISORS will complete either paper or fillable electronic Gen Msg (213) containing the following info to lorie\_price@firenet.gov

- Release Date and Time
- ETD and ETA in Pacific ST
- Mode of Transport: (Air, AOV, POV)
- Name on Driver's License
- Date of Birth
- 3 letter Jetport Identifier
- Need for transport to airport?
- Preferred time of day to travel

## **TENTATIVE RELEASE**

TRAINING MESSAGE - Trainees - please check in with the Training Specialist, by accessing the fillable Trainee Check-In Form here:

If Trainee or Trainer is demobing: Trainers – Trainer needs to fill out the relevant parts of the Task Book and do an Incident Personnel Performance Rating and discuss the assignment with the trainee.

**If Trainee is staying:** Trainee should contact Training Specialist to discuss plans for remainder of the assignment.

If Trainee is demobing: Trainee should access the Trainee Check-Out form here:

Don Washco, 623-695-6487 Don\_Washco@firenet.gov

## Human Resource Message

"It comes down to the way you treat people. When you treat people with dignity and respect all the time, you can work through anything."

-John Bacon, British Sculptor 1740-1799

Karen Mora, HRSP 970-420-5108 (call or text)

#### Please Send Us Your Fireline Photos:

Email them to <u>2020.augustcomplex@firenet.gov</u> and include the date, location, and a photo credit.

# PAUSE BEFORE POSTING IMAGES

## Consider agency guidelines and potential ramifications before posting pictures of:

- fireline personnel not wearing full PPE
- identifiable structures (i.e. addresses)
- burning / burned structures
- inmate crews
- faces of children
- accident or investigation scenes
- sensitive natural or cultural resources (or QR codes to maps that identify them)
- whiteboards / flipcharts with passwords or internal contacts listed

#### Media in California

The media in California have unlimited access to the fire area, with very few exceptions.

California Penal Code 409.5(d): Nothing shall prevent a duly authorized representative of any news service, newspaper, radio or television station or network from entering the areas closed pursuant to this section. Exceptions are crime scenes or deliberately interfering with incident operations.

Only California and New Jersey have laws which allow unlimited access to emergency areas to legitimate press. Journalists do not have a general right to access private property. Consent is between the journalists and persons having control of the property; not the public safety agency.

The California Penal Code allows media access to scenes of disaster, riot, or civil disturbance, but not to crime scenes. Media access cannot be prevented for safety reasons unless their presence would impede firefighting operations. If entering a location is hazardous, they should be advised of the situation.

Contact your incident Public Information Officer at (530) 487-4602 with any questions.

## Great Basin Team 2 Expectations 2020 Safety is the Team's Number One Priority Everyone is a safety officer—See It, Say It, and Fix It!

The Team is committed to identifying clear Task, Purpose, and End State that achieves the Agency Administrator's direction and objectives in a timely and cost effective manner.

The Team provides every person associated with the incident a safe, productive, and supportive work environment.

The Team operates in a transparent manner, facilitating open communication and dialogue up, down, and across the chain of command, with active listening and opportunity for discussion and collaboration.

Here are a few ways you can help the Team create an atmosphere of **Duty**, **Respect**, and **Integrity** as outlined in the Incident Response Pocket Guide (IRPG):

#### If you Need to Leave the Incident Environment when Off Duty:

Notify your supervisor of destination and estimated time of return in the event you are needed for duty prior to expected time

#### Alcohol /Illegal Drugs / Fitness for Duty

Alcohol and illegal drugs are not permitted within the incident environment. Be ready, willing, and able to perform your duties. If you are unable to perform your duties, you may be released from the incident with the home unit or employer being notified of the circumstances.

#### Work Environment/Human Relations:

Conduct yourselves as professionals and maintain a positive, non-hostile work environment with mutual respect. Sexual harassment, discrimination, acts of reprisal or any inappropriate behavior that violates human rights, the provisions of equal employment opportunity (EEO), or ethics and conduct standards will not be tolerated. If you need clarification of these expectations, contact the Human Resource Specialist.

Your actions in the community outside of the incident environment must also conform to these standards while assigned to this incident. Your integrity is shown by obeying the law and following local rules and ordinances. Non-compliance with these expectations could result in your being released from the incident with the home unit or employer being notified of the circumstances.

#### Work / Rest Guidelines:

Any shift times over 16 hours require written justification and approval by the appropriate Section Chief on the Crew Time Report, and will be reviewed by the Incident Commander.

#### Performance Evaluations:

Performance Evaluations will be completed for all trainees and contractors (including ADs). Any unsatisfactory performance will be documented on an evaluation. It is your responsibility to ensure that your supervisor has completed an evaluation.

#### Use of Social Media on Wildland Fire Assignments:

Firefighters and Incident Management Team (IMT) members should be aware that existing agency-specific ethics and conduct regulations and restrictions governing the use of social media by federal employees on fire assignments apply.

Only authorized employees designated by the hosting unit may represent the government on public social media websites. If you choose to post to a social media website you should have a disclaimer that clearly states the views or opinions that you express are yours alone and do not represent the views of your agency or the IMT.

However, anything that you do post regarding wildland firefighting and the agency you work for reflects on that agency, the IMT you are assigned to and all wildland firefighters.

Social media sites are regularly monitored by federal agencies and employees may be held accountable for inappropriate conduct or ethics. When in doubt, don't post!

I hope you have a safe, productive and rewarding experience here. If you have any needs or concerns that cannot be addressed by my Command and General Staff, please feel free to visit with me.

Tony DeMasters

Incident Commander

**GREAT BASIN 2 TEAM EVALUATION FORM** Please help us improve and share your comments.

#### **HEALTH AND SAFETY MESSAGE**

#### SAFETY starts with YOU PREDICTABLE IS PREVENTABLE

For Day/Night Operations

#### INCIDENT: August Complex

DATE: September 17, 2020

#### Major Hazards and Risks:

- Drink-Drink water.
- HEAVY EQUIPMENT OPERATION: Maintain 50 100 ft exclusion area around equipment and 1 ½ times the height of timber. Avoid working below equipment.
- Slips, Trips and Falls!
- SAFETY ZONES: Know at all times where your safety zone is located. Be sure you can get there
  under the conditions that exist.

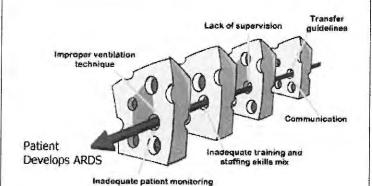

#### Fire Order of the Day:

#### Uninformed on Strategy, Tactics, and Hazards

- Be alert to changing conditions.....does your perception = reality?????
- Share as much information as possible......sometimes it's the little things that make the difference
- Flag hazards and mitigate by avoidance, removing the hazard, and sharing with all personnel

#### **Situation Awareness**

- Speak up if you see something that looks wrong!!!
- Get a good briefing prior to beginning task
- Ask if you don't understand!!!!

• HELP BREAK THE "ERROR CHAIN"!!

- Establish situation awareness.
- Identify hazards and assessing the risk.
- Control or eliminate hazards.
- Make decisions based on acceptability of remaining risk.
- Evaluate effectiveness of hazard controls and continuously reevaluate the situation.

Your Safety Team: Laney Cutshaw, Brandon Hoffman

#### Safety Zones 2 (LCES)

Operational Engagement Category

Safety Zone(s) are locations where the threatened firefighter may find refuge from the danger. Unfortunately, shelter deployment sites have been incorrectly called safety zones. Safety zones should be conceptualized and planned as a location where no shelter is needed. This does not intend for the firefighter to hesitate to deploy their shelter if needed, just if a shelter is deployed the location is not a tree safety zone. Fireline intensity and safety zone topographic location determine safety zone effectiveness.

- How have you determined the distinction between a safety zone and a deployment zone?
- Is refuge in a vehicle or house an acceptable tactic?
- Consider access to the incident. You are often confronted with considerable distances of unburned fuel to cross. How do you mange Lookouts, Communications, Escape Routes, and Safety Zones (LCES)?

#### **COVID-19 SAFETY BULLETIN**

# Do YOUR Part, Prevent Spread!

Remind & Correct: Any Public Area, MASK UP!

When off the line,

When moving around the incident, MASK UP!

When wiping down apparatus/vehicles, MASK UP!

When in Public Spaces,

MASK UP!

While washing your hands frequently!

MASK UP!

When meetings outside & in PUBLIC, MASK UP!

When at the chow line and mess hall,

MASK UP!

WHAT IS OUR MESSAGE?

### MASK UP, PLEASE!

#### 2020 COVID-19 Guidance

#### **LEADERS INTENT:**

- Incident responders have a DUTY to safeguard each other and the public we serve from hazards. It is through our RESPECT for everyone's health and safety that we follow these mitigations, and we rely on everyone's INTEGRITY to ensure that we do so and expect the same of others.
- All incident personnel are expected to conduct self-screening of their health on a daily basis. Individuals experiencing any of the symptoms should take precautions to self-isolate and immediately report symptoms to your supervisor and to the IMT's Medical Officer or MEDL for assessment.
- All incident personnel will adhere to the Module of One concept to the extent practical.
- All incident personnel and visitors will wear cloth face coverings when six feet of social distancing cannot be maintained with others outside of their Module of One.
- All incident personnel and visitors are required to wear cloth face coverings when attending briefings or meetings in common use areas at ICP and camps.
- All incident personnel and visitors will wear cloth face coverings whenever they enter an enclosed incident facility, such as yurt, tent, building, restroom facility, or other common-use areas regardless of proximity to other people.

#### ALL RESOURCES (IMT Members, Single Resource, Operational & Support resources):

• Each resource should arrive at the incident "self-sufficient" for 72 hours, including food, water, sanitizer or wipes, batteries, etc.

#### ICP AND CAMPS

- Access into ICP and some base camp facilities may be restricted to essential personnel only, i.e. module supervisors and trainees.
- To promote isolation and social distancing, operational resources will be assigned to camps and spike camps dispersed on the incident.
- Food will be individually packaged and delivered to drop points for distribution. Special dietary needs should be reported to your line supervisor.
- Daily operational briefings will be conducted via radio or virtually. Only supervisors and trainees should attend in-person briefings.

#### WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
* Take temperature with no-touch thermometer, if available *

#### **Instructions for Screening**

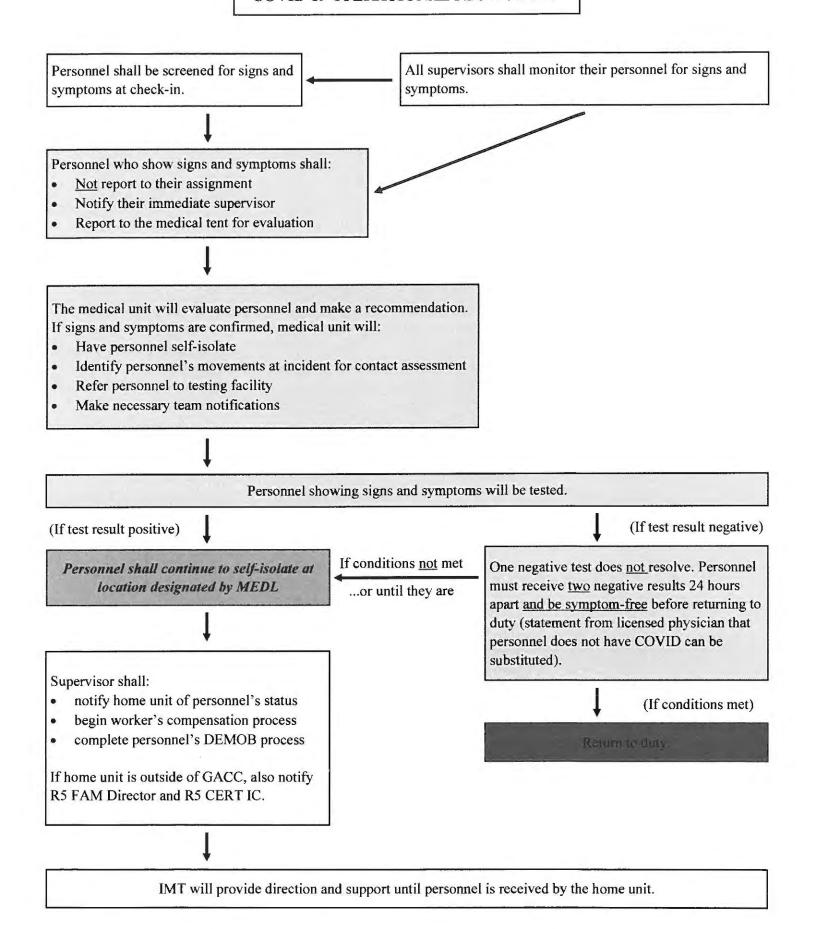

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries:	DO NOT ANNOUNCE
Consider adequate number of personnel needed for screening.  Although medical personnel are ideal, screeners do not have to be medically trained.	Ask individual to step aside and follow the steps below.
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	

Steps to follow	
Escort symptomatic individual to isolation area.	
Isolation support personnel should begin documentation.	
Have symptomatic individual contact Supervisor for further direction.	
Notify public health officials.	
Have individual transported as appropriate.	.,
Protect and secure any collected Personal Identifiable Information (PII) or Persona Information (PHI).	l Health

#### **COVID-19 OPERATIONAL FLOWCHART**

#### **INCIDENT SAFETY ANALYSIS 215a**

August Complex CA-000753 - Wednesday, September 16, 2020

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
ALL	Helicopter Operations	<ul> <li>Stay clear of all bucket drops when suppression actions are in place and allow 1 minute prior to re-entry.</li> <li>Monitor A-G communications.</li> <li>Follow aviation safety guidelines in IRPG and IHOG.</li> </ul>
Branch I	Mop-up & Rehab	<ul> <li>Do not work above or below personnel during rehab/mop-up operations.</li> <li>Alert crew personnel of rolling debris by yelling to affected individuals.</li> <li>Position debris that could roll vertically on slope.</li> <li>Wear eye protection.</li> <li>Identify and mitigate hazard trees within areas of mop-up operations</li> <li>Assure LCES is in place at all time.</li> </ul>
ALL	Driving & Traffic	~ Practice "Defensive Driving" techniques traveling on all roads and city streets.  ~ Use spotters when backing.  ~ Honk horn to alert personnel when backing.  ~ Keep clutter off dash and inside cab.  ~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts.  ~ Always use headlights.  ~ Yield to pedestrians and bicycles.  ~ Observe posted speed limits.  ~ Use the 3 second rule for following distance when driving.  ~ Use chock blocks, turn wheels into hill.  ~ Avoid distractions (eating, cell phones, radio).  ~ Ensure that windshields are kept clean of dust and bugs.  ~Allow Dust to settle to maintain safe visibility.
ALL	Fatigue & Over Exertion	<ul> <li>Drink 1 quart of water each hour during and after work.</li> <li>Rotate crews out of smoky areas.</li> <li>Set a reasonable work pace and allow adequate rest breaks while on the project.</li> <li>Stagger work crews start time to limit fatigue.</li> <li>Use buddy system to monitor personnel of heat related and fatigue issues.</li> <li>Follow work / rest guidelines.</li> </ul>
DIVS O,R,D/F, T,Structure Branch	Firing Operations & Devices	<ul> <li>Only personnel trained in the use of each device will be authorized to use firing equipment.</li> <li>Ensure all personnel are aware of firing operation that may affect them.</li> <li>Wear appropriate PPE.</li> <li>Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.</li> </ul>
DIVS O,T,R, Structure Branch	Indirect Fireline	<ul> <li>Post lookouts, identify escape routes and safety zones (IRPG pg. 7).</li> <li>Review "Strategy/Indirect Attack" (IRPG pg. 83).</li> </ul>
ALL	Firefighter & Public Smoke Exposure	<ul> <li>Identify homes and structures with private parties remaining behind the evacuation.</li> <li>Identify personnel responsible for contacting private parties.</li> <li>Use warning lights and provide traffic control on roadways during smoky and night operations.</li> <li>Rotate crews out of smoky areas during firing and mop-up operations.</li> <li>Contact Communications when firing operations are initiated.</li> </ul>
DIVS O,R,D/F, T,Structure Branch	Heavy Equipment Operations	<ul> <li>Ensure communications are established with operators.</li> <li>Use hand signals if other communications are unavailable.</li> <li>Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber.</li> <li>Use a spotter when backing.</li> <li>Avoid working below heavy equipment.</li> </ul>

#### **INCIDENT SAFETY ANALYSIS 215a**

		~ Drink Fluids throughout operational period (6-8 qts/shift).
ALL	Heat Related Illness (HRI)& Dehydration	~ Maintain water/electrolyte ratio of 3 to 1.  ~ Carry extra water on line and cache water at drop points.  ~Take Frequent breaks, minimum of 10 minutes every hour.  ~Allow out of area resources time to acclimatize before expecting peak performance.  ~ Recognize symptoms of HEAT RELATED ILLNESS which include.  o Lack of energy  o Headaches, dizziness  o Lack of rest  o No hunger, poor eating habits  o Hot skin, and lack of sweating
ALL	Steep Terrain & Rolling Debris	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Don't work above any personnel.</li> <li>Be on the lookout for rolling rocks, debris, or burning material.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> <li>Post lookouts (IRPG pg 7).</li> </ul>
ALL	Communications	<ul> <li>Maintain communication with aviation resources, and suppression organization.</li> <li>Ensure all know frequency and protocol for contacting resources.</li> <li>Utilize the ICS 205.</li> <li>Utilize human repeaters when working in dead spots.</li> </ul>
ALL	Extreme Fire Behavior	<ul> <li>Share weather observations with all personnel assigned to division.</li> <li>Establish "Trigger Points" to withdraw.</li> <li>Use "Risk Management" process prior to engaging in suppression actions, refer to page 1, IRPG.</li> </ul>
ALL	Spike Camp	∼ Keep a clean camp. ∼ Ensure communications are in place. ∼ Review and observe "Line Spike" considerations (IRPG pg. 95).
DIVS O,R,D/F, T,Structure Branch	Structure Protection & HAZMAT	<ul> <li>Review "Wildland Urban Interface" Watch outs, IRPG page 12.</li> <li>Use "Structure Assessment" checklist, IRPG pages 12-16.</li> <li>Follow "HAZMAT Incident Operations" on pages 36-41 in IRPG.</li> </ul>
ALL	Chain Saw Operations	<ul> <li>Follow "Hazard Tree Safety" guidelines, IRPG page 22</li> <li>Look up, Look down, Look around for hazard tree indicators.</li> <li>Only fell and buck trees within your expertise, and training.</li> <li>Follow "Procedural Felling Operations" on page 85 in IRPG.</li> <li>Do not fall trees during high wind events.</li> <li>Ensure proper use of all required PPE.</li> </ul>
DIVS O,R,T, Structure Group	Chipper Operations	~ Follow Assigned JHA ~ Avoid loose clothing. ~ Don't wear radio mic. cords. ~ Feed vegitation butt first. ~ Only authorized personnel can operate or feed the chipper. ~ Get proper training before chipping. ~ Familarize yourself with the chipper and it's safety features. ~ Wear appropriate PPE incuding gloves, hearing and eye protection. ~ Keep hand out of the feeder area.
ALL	ATV/UTV use	<ul> <li>Ensure equipment is inspected and safe to use.</li> <li>Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions.</li> <li>Ensure operator is trained and certified to operate.</li> <li>Ensure operator has proper PPE according to the Redbook and/or RMA.</li> <li>Question if it is mission critical.</li> </ul>
ALL	Unburned Area/Reburn Potential	∼ Monitor weather. ∼ Base actions upon observed and predicted fire behavior. ∼ LCES Checklist (IRPG pg. 6). ∼ Look Up, Down and Around (IRPG pg. 2-3).

#### **INCIDENT SAFETY ANALYSIS 215a**

ALL	COVID-19	<ul> <li>∼ Follow local and CDC guidelines.</li> <li>∼ Practice social distancing.</li> <li>∼ Wear face coverings in designated areas and when social distancing is not possible.</li> <li>∼ Wash and Sanitize hands often.</li> <li>∼ Follow module of one concept.</li> <li>∼ Minimize number of indivuals at briefings and meetings.</li> <li>∼ Monitor symptoms of all resourses daily and report concerns to COVID Coordinator.</li> </ul>
ALL	Power Utilities	~ Notify all personnel of down electrical lines.  ~ Refer to the IRPG page 24 for Power Line Safety.  ~ Always treat downed wires as energized.  ~ Identify and avoid high tension transmission lines.  ~ Identify and avoid high pressure natural gas lines.  ~ Identify and avoid damaged gas service near structures.  ~ Be aware of utility restoration in your work area.
ALL	Wildlife & Livestock	~ Watch out for wildlife & livestock inside fire area and along roadways. ~ Clean up all debris and trash during each operational period. ~ Rattlesnakes and Scorpions are pleantiful in the fire area, keep your distance from these critters. ~ Wear gloves when moving logs and debris. ~ Look around before you sit or step over logs and rocks. ~ Give wildlife pleanty of room to escape/ retreat to safety.
Branch III	Night Operations	∼ Maintain high visibility in work area and wear vest while in roadway. ∼ Use glow sticks to mark hazards. ∼ Ensure personnel have a personal light (headlamp). ∼ Watch for signs of fatigue. ∼ Take breaks away from areas of known hazard.
ALL Bees, Ticks, Mosquitoes		<ul> <li>Canvas crew members for those with known allergic reactions to stings.</li> <li>Ensure crew members have medication pens if needed.</li> <li>Perform daily self inspection.</li> <li>Use repellent as necessary.</li> <li>Advanced Life Support, multi-dose epi and airway protection.</li> <li>Keep affected area clean and bandaged.</li> <li>Be extra careful when eating and/or drinking to avoid stings to mouth and throat.</li> </ul>
