Fire Weather Forecast

FORECAST NO: 10

PREDICTION FOR: 24 Hr Shift **SHIFT DATE:** Sunday 8/30/2020

TIME AND DATE ISSUED: 8/29/2020 1800 PDT

INCIDENT: August Complex

UNIT: Mendocino NF SIGNED: Chuck Redman

Incident Meteorologist (IMET)

Discussion: ***HOT AND DRY CONDITIONS TO CONTINUE THROUGH THE WEEKEND***

The region will remain between the main jet stream (well to the north) and a weak upper trough across Southern California for one more day. As a result, light winds are expected across the fire area this afternoon. A weak dry cold front drops into the northern portions of the Great Basin Sunday night and into Monday. Slight cooling is possible along with a brief shift of winds from the NE. This may bring battling winds to the east side of the fire where normal down drainage winds typically are from the west. A strong upper ridge re-builds over the region for the first part of the week bringing once again well above normal temperatures.

WEATHER FORECAST FOR TODAY:

SKY/WEATHER: Mostly sunny.

Max Temperature: 80 to 85 higher elevation, except mid 90s lower valleys.

Min RH: 18 to 28 percent.

-20 ft Level WINDS:

Lower Valleys/Lower Slopes Down drainage wind in the morning up to 10 mph, becoming up drainage by noon. **Upper Ridges:** East 10 mph shifting South to Southwest around 10 mph by early afternoon. Afternoon gusts to 15

mph

TRANSPORT WINDS: West to Southwest to 10 mph.

MIXING HEIGHT: 11 KFT AGL

TONIGHT:

SKY/WEATHER: Clear. Min Temperature: 65 to 75. Max RH: 30 to 40 percent.

WINDS: -20 ft Level-

Valleys/Lower Slopes: Down drainage to 10 mph after sunset. Gusts to 15 mph in the Thomes Creek area,

Upper Ridges: East to Northeast to 10 mph after midnight.

MONDAY:

SKY/WEATHER: Mostly sunny and slightly cooler.

Max Temperature: 80 to 85 higher elevation, except 90 to 95 lower valleys

Min RH: 18 to 25 percent.

WINDS:

-20 ft Level- Lower Valleys Variable and possibly erratic wind in the morning around 10 mph, becoming up drainage by early

afternoon.

Upper Ridges: Winds becoming South to Southwest 10 mph by mid afternoon.

TRANSPORT WINDS: Northeast wind becoming South to Southeast around 10 mph. MIX. HEIGHT 8 KFT AGL.

INPUTS

WEATHER SUMMARY:

TODAY (Saturday): See Fire Weather Forecast.

WEATHER: Warm and dry conditions with generally light wind

<u>Lower Valleys/Slopes: MAX Temp</u>: 90-95 degrees <u>MIN Rh</u>: 18-28% <u>WIND</u>: Down drainage wind in the morning up to 10 mph, becoming up drainage by noon.

Upper Ridges: MAX Temp: 80-85 degrees MIN Rh: 18-28% WIND: East 10 mph shifting South to Southwest around 10 mph by early afternoon. Afternoon gusts to 15 mph.

LAL: 1 CWR: 0%

MIXING HEIGHT 11,000 ft AGL TRANSPORT WINDS SW@ 10 mph..

GENERAL FUEL ASSUMPTIONS: It has been over 100 days since much of the fire area has received over 0.10" of precipitation and all three groups are extremely dry and are burning readily. 10 Hr fuel moistures in the fire area were again observed at 5-8% on August 29th.

OUTPUTS

FIRE BEHAVIOR

GENERAL

Fuels continue to dry due to lack of precipitation combined with low humidity's (18-28%) yesterday. Smoke over the fire area is impacting fire spread and behavior, but the potential is still there for rapid fire movement and moderate/extreme fire behavior if the airshed clears out. Most of the fire spread is anticipated to be terrain driven except on exposed ridgetops.

A STATE OF STREET WITH SELECTION OF STREET		Fire Behavior Potential						
Vegetation Type	Fuel Model	ROS (ch\hr)	FL (ft)	PIG (%)	Spot Dist (mi)			
Grass	GR2	45-50	5-6	76	0.25			
Grass/Shrub	GS2	30-33	6-7	76	0.25			
Shrub	SH7	49-52	15-16	76	0.25			
Timber	TL8	7-8	3-4	76	0.25			

SPECIFIC:

- >Branch I: Anticipate continued Fire spread up the Willow Creek drainage towards the M2 Road closing the gap between the Doe and Glade Fires. Post lookouts and monitor the situation developing on the Elkhorn Fire to the N/NE.
- >Branch II: Active upslope fire spread on the Western edge of the Doe Fire. The pocket of unburned fuel in the 311 Road area will continue to fill in as the fire moves upslope along Bear Wallow Ridge.
- >Branch III: Anticipate continued terrain influenced fire spread along Brushy Camp Ridge.
- >Branch IV: Hull Fire, the NE portion of the fire is beginning to curve to the NW towards Pole Point/Goat Rock. Maintain SA during the firing operations on the Southern portion of the fire.
- >Branch V: Hopkins fire, IR indicates significant heat along the Northern half of the fire perimeter. Expect continued fire movement to the north following terrain and fuels. Willow Basin fire, some heat detected on SE corner of the fire. Does not appear to be significant perimeter growth over the last few operational periods. Continue to monitor fire spread.

AIR OPERATIONS:

Smoke will continue to impact air operations.

SAFETY

Accurate situational awareness (SA) requires constant reassessment of conditions (existing or potential) that may impact the safety and effectiveness of tactics. Monitoring for the 18 Watchout Situations and establishing operational / environmental limits ("trigger points") ahead of time can help to focus SA, prompt reassessment, and help you re-evaluate the risk of current actions.

AUGUST COMPLEX HEALTH AND SAFETY MESSAGE

If you **SEE** something, **SAY** something

QR code for hazards and risks

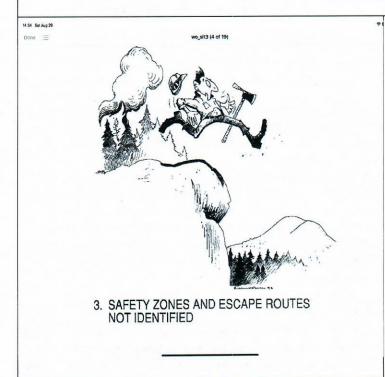

INCIDENT: August Complex DATE: Sunday August 30, 2020

Major Hazards and Risks: Dusty Roads, Night Operations, Burn Operations

Dusty Roads: Driving to your work assignments may take you on new roads with hazards you have not seen before. Some of the incident roads are narrow with limited visibility and few pull-outs. Increased fire traffic and residents should be expected around homes. Adjust your driving for smoke, dust and night operations. **Watch for degraded areas in the road on between drop point 10 & drop point 11.**

Night Operations: Be sure to get a good briefing before you start your assignment. Identify whom you might get additional information from and can you meet up with the departing overhead/resource leaders? Travel your escape route before the sun sets if possible, stay alert by staying engaged with your assignment.

Burn Out Operations: All burning operations must be approved through operations, fire should be applied slowly and strategically in order to the maximize benefits of the indirect firefighting approach. After the operation is complete, be sure to monitor the area, looking for areas that are still holding heat and could threaten to jump over the containment line.

Safety Zones

In an area where a firefighter can survive without a fire shelter? IRPG p.8

- Take advantage of hear barriers such as lee side of ridges, rocks, or solid structures.
- When possible, burn out safety zones prior to arrival of the fire front.
- Avoid locations that are upslope or downwind from the fire, chimneys, saddles, or narrow canyons, and steep uphill escape routes.
- Not intended for structure protection.

Incident Safety Officers: Paul Churchill, Pat Sheridan, Brian Beisel

Control Operations/Work Assignments:

- Continue improving line and firing.
- Conduct tactical burnouts according to Division Supervisor in advance of Glade Fire approaching line.
- Construct and improve dozer line along the north side of Blue Slide Creek from FH7 road southwest towards Black Butte River. Implement hand line construction within river buffer.

Special Instructions:

Use caution around snags and flag as needed for safety; Use caution when driving on roadways and on the fireline; Backhaul excessive equipment and trash. Follow all COVID protocols and precautions; READS will call DIVS when entering.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

Symptom	
Cough more than expected?	
Shortness of breath or difficulty breathing?	
Fever? Chills?	
Muscle pain, outside your normal for firefighting?	
Sore throat?	
New loss of taste or smell?	
Fatigue, outside your normal for firefighting?	
Headache, outside your normal for firefighting?	
Congestion or runny nose, outside your normal for firefighting?	
Nausea or vomiting	
Diarrhea	
* Take temperature with no-touch thermometer, if available *	

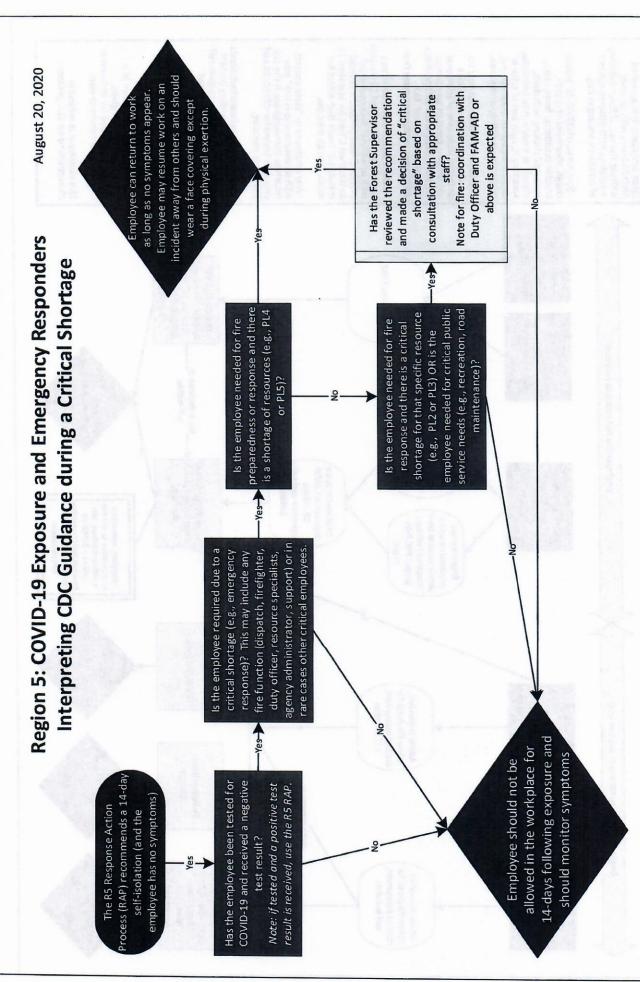

Instructions for Screening

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries:	DO NOT ANNOUNCE
Consider adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained.	Ask individual to step aside and follow the steps below.
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	

Steps to follow	
Escort symptomatic individual to isolation area.	
solation support personnel should begin documentation.	
Have symptomatic individual contact Supervisor for further direction.	
Notify public health officials.	
Have individual transported as appropriate.	0.0000000000000
Protect and secure any collected Personal Identifiable Information (PII) or Personal H nformation (PHI).	ealth

Employee has mask) Test-based strategy Symptoms without testing or medical follow Playbook for contact assessment Advise supervisor, Employee is sick (symptoms or positive test) Employee has self-isolation COVID-19 diagnosk) Symptom based strategy With symptoms Testor Medical – Diagnosis follow Playbook for contact assessment, workplace after 10 positive for COVID-Advise supervisor **Employee tested** Employee has (confirmed or presumptive) days have passe self-isolation 19 and never return to the COVID-19 symptoms Employee ca symptoms developed Never had since test

Important Notes:

- * Recovered is defined as 10 days since symptoms first appeared AND 24 hours with no fever without the use of fever-reducing medicines AND other symptoms of COVID-19 are improving.
- Symptoms of COVID-19 include cough, shortness of breath, trouble breathing, fever, chills, repeated shaking with chills, muscle or body aches, headache, sore throat, new loss of taste or smell, congestion or runny nose, nausea or vomiting, or diarrhea.
- Contact Assessment should be conducted to help determine potential exposure of additional employees; conduct assessment for the 2-day period before illness on set or test date of sick employees, whichever came first.
- Close contact is defined as less than 6 feet, for at least 1.5 minutes with or without face coverings/masks. Casual contact is defined as less than 6 feet for less than 1.5 minutes or more than 6 feet for more than 1.5 minutes.
- Any employee in "close contact with someone who is sick" may return to the workplace if the sick person is tested for COVID-19 and the test is negative.
- Contact with exposed individuals is classified as secondary contact and does not typically require self-isolation unless the exposed individual tests positive.
- You do not need to self-isolate unless you meet one of the criteria identified.
- Always follow the advice of a medical provider, if given, including any need for isolation or clearance for return-to-duty.

This document is subject to change based on CDC guidance.

Line Emergency Day/Night:

Once any injury/illness has occurred:

- . Ensure patient receives immediate First Aid and care
- Crew Supervisor to contact Division Supervisor
- Division Supervisor to contact August Communications via on Command Channel and relay information on Medical Incident Report
- DO NOT USE THE INJURED PERSON'S NAME ON THE RADIO.
- MEDL and Incident Safety Officer will assist with the coordination of further medical care and mode of transportation.
- Ambulance and/or air resources will be coordinated through MEDL and SOF1.

Basecamp or ICP Emergency

Contact MEDL and SOF1 with patient complaint/condition and location.

• Notify Medical Unit of any injury/illness being transported to Medical Unit prior to transport.

MNF AUGUST COMPLEX

COVID MITIGATION PLAN

Check-In:

All personnel will be required to complete COVID-19 questionnaire and undergo

thermal screening.

Briefing:

It is requested that only module leaders and trainees attend briefings as

appropriate.

ICP:

All personnel are to maintain physical distancing and required to wear a face

covering while in ICP / Base Camp(s).

Med Plan:

Refer to the COVID-19 Operational Flowchart and the ICS 206 in the IAP for

more information.

Management:

A qualified Medical Unit Leader will be assigned as an incident COVID Mitigation

Manager to ensure established measures are followed.

Contact is MEDL Shanna Ellis -318-229-6515 or 318-224-0421

Any Personnel that fail thermal screening will be rechecked manually by medical

personnel in the Medical Unit.

Any personnel that become symptomatic will be evaluated by Medical Personnel and appropriate actions taken per CDC and Federal guidelines.

MEDL: COVID-19 Mitigation Plan

CHECK-IN PROCEDURES

Virtual Check-In: Please complete online check-in with your smart phone.

Use your Resource Order and Incident Qualification Card to complete the check-in information accurately. For CREWS, only the leader must check in online. For all other resources with multiple people per resource order number, all people should complete check-in.

1.SCAN THE QR CODE and COMPLETE the form in its entirety.

2.EMAIL RESOURCE ORDER AND MANIFEST TO:

or 2020.augustcomplex.resources@firenet.gov

If you do not have the capability or information needed to complete online check-in on your smart phone, please come to Check-In Trailer and knock on the door and someone will come outside to assist you with check-in. Thank You!

Base Camp Check-in Trailer Hours 0600 - 2000

Willows ICP Check-In Hours 0700-2100

FINANCE

Send all finance documentation (SIGNED CTR/shift ticket/AD forms/inspections/etc) to:

2020.augustcomplex.finance@firenet.gov

When submitting a finance document to finance please use the following format in your email subject line:

Resource order number_Last name, First name_Document type_Date *Casual Hires add "AD" after Date*

Examples:

0-2_Duck, Daffy_CTR_0821_AD
O-4_Bear, Smokey_CTR_0821
E-34_Bob's Dozer_ST_0821
C-3_Smoky Hot Shots_CTR_0821

For all other Issues/questions use the email above. Be specific in the subject line to ensure your email is directed to the appropriate finance contact.

Are you on this list? Are you supposed to be on this list?

If you are supposed to be on the list, there are several things you need to do before leaving the incident:

- 1. Return all equipment to Supply and Communications.
- 2. Does your vehicle need inspection from Ground Support? If so, get it done!
- 3. Then proceed to the ICP in Willows to meet with Finance.
- 4. When done, call DMOB @ 540-798-2218, answer 5 short questions about your travel and be on your way!

Questions? Call 540-798-2218.

HUMAN RESOURCES MESSAGE

August 30, 2020.

There is a new Human Resource Specialist in Camp...

My name is Tony Torres and I am happy to assist all with you HR Questions...

I will start off the week with...

Communication is a two way street. When communication becomes a one way, it becomes a traffic jam and turns into an issue. Some examples are:

- Someone irritating you and getting on your nerves, but you don't say anything until it boils over and causes a crash.
- ❖ A misunderstanding of what someone was trying to communicate to you, but you didn't take the time to clarify what was said and just stewed about it.
- ❖ It can be like the telephone game. It starts with specific information and by the time it gets to the end it very different than what was first communicated.

Whatever it is, clear the communication lines in a respectful manner and make it a smooth safe flowing two way street!

"The single biggest problem in communication is the illusion that it has taken place"....by George Bernard Shaw

Human Resources Specialist August Complex Fire – Tony Torres 505.249.2341 (call/text) or email @ Anthony.Torres@usda.gov

TRAINING MESSAGE

<u>Check-in</u> – If you have a position task book (PTB), please check in by scanning the QR code below to initiate the registration process. Please complete the form in its entirety. To complete the registration process, at your earliest convenience, contact the Debra Burgos, TNSP at 404-987-3256. Please email a copy of your qualification card and position task book cover to debra.burgos@usda.gov.

<u>Demob</u> – In order to receive credit for your assignment, you must 'close out' with the Training Specialist prior to demob.

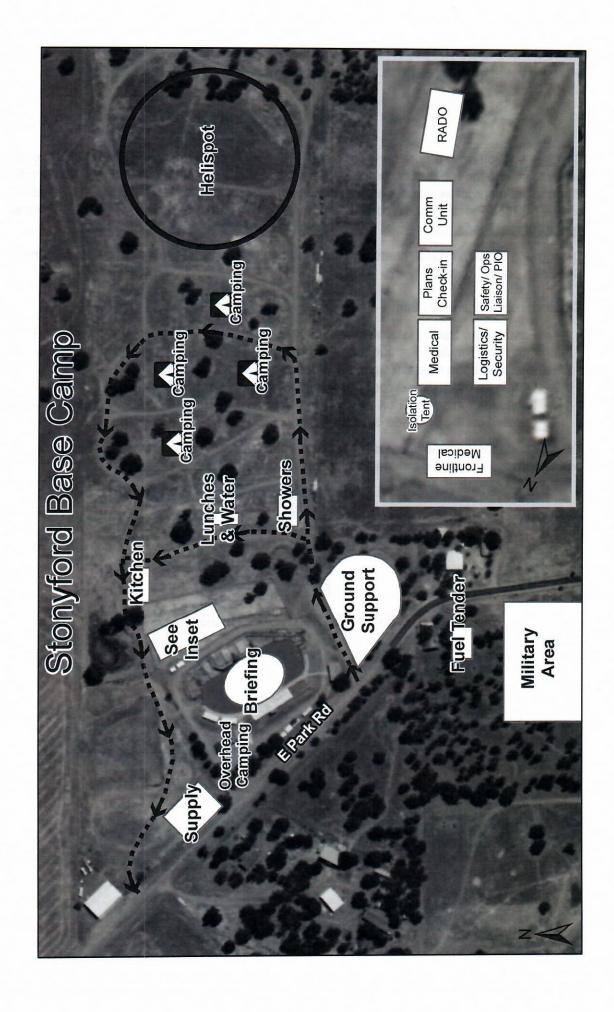

Closeout requirements include:

- Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB;
- 2. Obtain an Incident Performance Evaluation (ICS Form 226 an electronic copy is available upon request) signed by your trainer(s)/evaluator(s);
- 3. Obtain an evaluation record (located in the back of your PTB), and
- 4. If evaluator initialed #1 on your evaluation record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page).

The QR code for the fillable forms will be available in the IAP Training Message or can be emailed/texted to both the trainee and trainer(s)/evaluator(s) upon request.

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

Fx: "Commun	DMMUNICATIONS / DISPA nications, Div. Alpha. Stand-by	for Emergency Traffic."						
Fy: "Commun	FATUS: Provide incident sumi	atient, unconscious, struc	ck by a falling tree. Requesti	ing air ambulance to Forest Road 1	at (Lat./Long.) This will be the			
Severity of Eme	property / Transport	EMT Smith is providing medical care." RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented. YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes. GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.						
	njury or Illness &			Brief Summ (Ex: Unconscio	nary of Injury or Illness ous, Struck by Falling Tree)			
	ism of Injury ort Request				lance / Short Haul/Hoist I Ambulance / Other			
Patien	t Location				Location & Lat. / Long. (WGS84)			
Incident Name				(Ex: Tro	nic Name + "Medical" ut Meadow Medical)			
On-Scene Incident Commander				Incider	ene IC of Incident within an at (Ex: TFLD Jones)			
Patient Care					Name of Care Provider (Ex: EMT Smith)			
3. INITIAL PAT	IENT ASSESSMENT: Comp	lete this section for each pa	atient as applicable (start with t	he most severe patient)				
Patient Assessm	nent: See IRPG PAGE 106							
Treatment:								
4. TRANSPORT	PLAN:			et (Lana) Bationt's ETA to Ev	racuation Location:			
Evacuation Loca	ation (if different): (Descript	ve Location (drop poil	nt, intersection, etc.) or La	at. /Long.) Patient's ETA to Ev	actation Essation.			
Helispot / Extrac	ction Site Size and Hazards							
	. RESOURCES / EQUIPME							
Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication 6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable Transmit (TX) Transmit (TX)								
6. COMMUNICA	ATIONS: Identify State Air	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *			
Function	Channel Name/Number	Receive (RA)	TOHERWO					

AIR-TO-GRND
TACTICAL

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
