### Fire Weather Forecast

FORECAST NO: 12 INCIDENT: August Complex

PREDICTION FOR: 24 Hr ShiftUNIT: Mendocino NFSHIFT DATE: Tuesday 9/01/2020SIGNED: Chuck Redman

TIME AND DATE ISSUED: 8/31/2020 1800 PDT Incident Meteorologist (IMET)

### Discussion:

An increase in northeast wind is expected this morning in response to an upper low digging southeast from Idaho towards the four corners region. By late morning, winds should subside and become west again as an upper ridge pushes into Northern California. As the ridge moves into the region, very dry air moves in over the region bringing poor RH recovery to the region each morning...especially over the higher terrain.

### WEATHER FORECAST FOR TODAY:

**SKY/WEATHER:** Mostly sunny.

Max Temperature: 78 to 83 higher elevation, except mid 90s lower valleys.

Min RH: 15 to 22 percent.

### -20 ft Level WINDS:

**Lower Valleys/Lower Slopes EASTSIDE** – North to northeast 10 to 15 mph with early morning gusts to 20 mph, decreasing and becoming up drainage to 10 mph by late morning. **REMAINDER OF THE FIRE** – Down drainage in the morning to 10 mph becoming up-drainage by early afternoon.

Upper Ridges: Northeast 10to 15 mph with gusts to 20 mph in the morning becoming Northwest around 10 mph

by early afternoon.

**TRANSPORT WINDS:** Northeast shifting Northwest in the afternoon 10 to 15 mph.

**MIXING HEIGHT: 7 KFT AGL** 

### **TONIGHT:**

**SKY/WEATHER:** Clear with poor RH recovery

Min Temperature: 68 to 75. Max RH: 20 to 40 percent.

WINDS: -20 ft Level-

Valleys/Lower Slopes: Down drainage to 10 mph after sunset. Gusts to 15 mph in the Thomes Creek area,

**Upper Ridges:** East to Northeast to 10 mph by midnight.

### WEDNESDAY:

**SKY/WEATHER:** Mostly sunny.

Max Temperature: 80 to 85 higher elevation, except mid 90s lower valleys

Min RH: 15 to 25 percent.

WINDS:

-20 ft Level- Lower Valleys Down drainage to 10 mph in the morning becoming up drainage by noon.

**Upper Ridges:** Winds becoming South to Southwest 10 mph by mid afternoon.

**TRANSPORT WINDS:** Southwest around 10 mph. MIX. HEIGHT 8 KFT AGL.

Mendocino

Monkey Rock

FIRE BEHAVIOR FORECAST							
FORECAST NUMBER: #14	TYPE OF FIRE: Wildfire						
FIRE NAME: August Complex	OPERATIONAL PERIOD: Tuesday 01 September 2020						
<b>DATE ISSUED:</b> Monday 31 August 2020	TIME ISSUED: 1800						
UNIT: CA-MNF	Michael W. Housh						
Prepared By: Michael W. Housh/FBAN	Muchael W. Groush						

### **INPUTS**

### **WEATHER SUMMARY:**

TODAY (Tuesday): See Fire Weather Forecast.

**WEATHER:** Mostly Sunny

<u>Lower Valleys/Slopes: MAX Temp</u>: 90-95 degrees <u>MIN Rh</u>: 15-22% <u>WIND</u>: EASTSIDE N/NE 10 to 15 mph with morning gusts to 20 mph, decreasing and becoming up drainage to 10 mph by late morning. **REMAINDER OF THE FIRE**: Down drainage in the morning to 10 mph becoming updrainage by early afternoon.

Upper Ridges: MAX Temp: 78-83 degrees MIN Rh: 15-22% WIND: Northeast 10 mph with gusts to 15 mph in the morning becoming

Northwest around 10 mph by early afternoon.

LAL: 1 CWR: 0%

MIXING HEIGHT 7,000 ft AGL TRANSPORT WINDS Northeast shifting Northwest in the afternoon to 10 mph

**GENERAL FUEL ASSUMPTIONS**: It has been over 100 days since much of the fire area has received over 0.10" of precipitation and all three groups are extremely dry and are burning readily. 10 Hr fuel moistures in the fire area were again observed at 5-8% on August 31<sup>st</sup>.

### FIRE BEHAVIOR OUTPUTS

### GENERAL

Fuels continue to dry due to lack of precipitation combined with low humidity's (18-28%) yesterday. Smoke over the fire area is impacting fire spread and behavior, but the potential is still there for rapid fire movement and moderate/extreme fire behavior if the airshed clears out. Most of the fire spread is anticipated to be terrain driven except on exposed ridgetops.

		Fire Behavior Potential					
Vegetation Type	Fuel Model	ROS (ch\hr)	FL (ft)	PIG (%)	Spot Dist (mi)		
Grass	GR2	55-60	5-6	76	0.3		
Grass/Shrub	GS2	35-40	6-7	76	0.3		
Shrub	SH7	56-59	15-16	76	0.3		
Timber	TL8	7-8	4-5	76	0.3		

### SPECIFIC:

- >Branch I: Anticipate continued Fire spread up the Willow Creek drainage towards the M2 Road closing the gap between the Doe and Glade Fires. Tatham Fire showed significant activity yesterday with the strong NE winds around mid-day. Post lookouts and monitor the situation on the Tatham and Elkhorn Fire to the N/NE. Movement on the spot fire on Boswell Ridge is expected to spread up the ridgeline with backing and flanking down the ridge edges.
- >Branch II: Active upslope fire spread on the Western edge of the Doe Fire. The pocket of unburned fuel in the 311/61 Road area will continue to fill in as the fire moves upslope along Bear Wallow Ridge.
- >Branch III: Anticipate continued terrain influenced fire spread along Brushy Camp Ridge.
- >Branch IV: Hull Fire, the NE portion of the fire has aligned with terrain and is in more favorable terrain for fire spread to the N/NW. Maintain SA during the firing operations on the Southern portion of the fire.
- >Branch V: Hopkins fire, IR indicates significant heat along the Northern half of the fire perimeter. Expect continued fire movement to the north following terrain and fuels. Willow Basin fire, some heat detected on SE corner of the fire. Does not appear to be significant perimeter growth over the last few operational periods. Continue to monitor fire spread.
- \*\*ElkHorn fire: The Elkhorn fire showed significant activity yesterday due to increased windspeeds from the NE as observed on local RAWS stations. Continue to maintain SA on this developing situation. \*\*

### **AIR OPERATIONS:**

Smoke will continue to impact air operations.

### SAFETY

Fuel conditions in the fire area are conducive to active fire behavior, and with any additional slope or wind, would resist fire control efforts. Base all actions on current and expected behavior of the fire.

# **AUGUST COMPLEX HEALTH AND SAFETY MESSAGE**

We can't improve a situation if we don't communicate with each other.

**INCIDENT:** August Complex DATE: Sep 1, 2020

Major Hazards and Risks: Communications, Driving, Hazard Trees

**Communications:** Every firefighter will be giving and receive briefings at some point on an incident. This is a key part of communications on any incident. Give and get all the information necessary. Is the task understood? If you are not sure, ask the receiver to repeat the information back to you. Maps are another way to receive information. They provide key information about transportation, drop points, hazards, and division breaks.

**Driving:** This is a repeat item but always worth mentioning. Driving is something we do every day and the roads on the incident are getting a lot of use by heavy vehicles. That means they are deteriorating and many won't receive the maintenance needed quickly. Slow down and don't drive faster than conditions allow for safe travel. You can't fight the fire if you don't get there.

**Hazard Trees:** With the drought conditions the fire will burn deep into the ground which means the root systems are weaker created more hazard trees. Hazard trees are killers and can fall with little warning. A slight breeze or rotor wash can bring a weak tree down. Pay attention where you park and as you move throughout the day. Keep your situational awareness high.

### Human Factor Barriers to Situational Awareness

IRPG p.xi

- Low experience level with Local Factors
- Distraction from Primary Task
- Fatigue
- Stress Reactions
- Hazardous Attitudes

Incident Safety Officers: Pat Sheridan, Brian Beisel

### **INCIDENT SAFETY ANALYSIS 215a**

	August Complex/CA-MNF-000753 - Tuesday, September 01, 2020						
8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)					
ALL	Driving & Traffic	~ Practice "Defensive Driving" techniques on all roads.					
ALL	Helicopter Operations	<ul> <li>Stay clear of all bucket drops when suppression actions are in place and allow 1 minute prior to re-entry.</li> <li>Monitor A-G communications.</li> <li>Follow aviation safety guidelines in IRPG P. 58 and IHOG.</li> <li>Report any flying hazards to pilot.</li> </ul>					
All	Fatigue & Over Exertion	~ Drink 1 quart of water each hour during and after work.					
DIVS A,C,D,N,O,R	Firing Operations & Devices	~ Only personnel trained in the use of each device will be authorized to use firing equipment. ~ Ensure all personnel are aware of firing operation that may affect them. ~ Wear appropriate PPE and aviod fuel spills on clothes. ~ Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.					
All	Indirect Fireline	∼ Post lookouts, identify escape routes and safety zones IRPG page 7. ∼ Review "Strategy/Indirect Attack" (IRPG pg. 87).					
ALL	Heavy Equipment Operations	~ Ensure communications are established with operators. ~ Use hand signals if other communications are unavailable. ~ Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. ~ Use a spotter when backing. ~ Avoid working below heavy equipment.					
ALL	Heat Related Illness (HRI) & Dehydration	~ Drink Fluids throughout operational period (6-8 qts/shift).					

### **INCIDENT SAFETY ANALYSIS 215a**

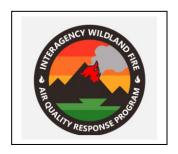

Al	Steep Terrain & Rolling Debris	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Don't work above any personnel, including bucket work.</li> <li>Be on the lookout for rolling rocks, debris, or burning material.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> <li>Post lookouts and refer to IRPG page 7.</li> </ul>
ALL	Communications	<ul> <li>Maintain communication with aviation resources, and suppression organization.</li> <li>Ensure all know frequency and protocol for contacting resources.</li> <li>Utilize the ICS 205.</li> <li>Utilize human repeaters when working in dead spots.</li> </ul>
All	Extreme Fire Behavior	~ Share weather observations with all personnel assigned to division. ~ Establish "Trigger Points" to withdraw. ~ Use "Risk Management" process prior to engaging in suppression actions, refer to page 1, IRPG.
Branch 1 & 2	Spike Camp	<ul> <li>Keep a clean camp.</li> <li>Logistical support in place.</li> <li>Ensure communications are in place.</li> <li>Review and observe "Line Spike" considerations IRPG page 95.</li> </ul>
Branch 1,2	Power Utilities	~ Notify all personnel of down electrical lines.   ~ Refer to the IRPG page 24 for Power Line Safety.   ~ Always treat downed wires as energized.   ~ Identify and avoid high tension transmission lines.   ~ Identify and avoid high pressure natural gas lines.   ~ Identify and avoid damaged gas service near structures.   ~ Be aware of utility restoration in your work area.
ALL	COVID-19	~ Maintain at least 6' distancing from others when possible.   ~ Work as a module of 1 for duration of incident.   ~ Wear masks around others if 6' distancing isn't maintained   ~ Wear masks in camp at all times \ if others are not around use common sense.   ~ Wash hands often and use hand sanitizer through out the day.   ~ Report any illness to supervisor immediately and remove yourself from others   ~ Notify Medical Unit of any illness   ~ Do not share tools or equipment   ~ Do not touch any part of your face
All	Wildlife & Livestock	~ Rattle snakes and scorpions are plentiful in this area. ~ Look around before you sit or step over logs. ~ Watch for wildlife and livestock on roads. ~ Clean up all trash and debris through out the day. ~ Wear gloves when moving logs or debris.
All	Night Operations	<ul> <li>Wear high visibility reflective vests when in roadways.</li> <li>Use glow sticks to mark hazards.</li> <li>Ensure personnel are using headlamps.</li> <li>Watch for signs of fatigue.</li> <li>Take breaks away from areas of known hazard.</li> <li>Review escape routes and safety zones in daylight.</li> </ul>
All	Bees, Ticks, Mosquitoes	<ul> <li>Canvas crew members for those with known allergic reactions to stings.</li> <li>Ensure crew members have medication pens if needed.</li> <li>Perform daily self inspection.</li> <li>Use repellent as necessary.</li> <li>Advanced Life Support, multi-dose epi and airway protection.</li> <li>Keep affected area clean and bandaged.</li> <li>Be extra careful when eating and/or drinking to avoid stings to mouth and throat.</li> </ul>

### **INCIDENT SAFETY ANALYSIS 215a**

Branch 2 & 4	Chain Saw Operations	~ Follow "Hazard Tree Safety" guidelines, IRPG page 22 ~ Look up, Look down, Look around for hazard tree indicators. ~ Only fell and trees within your expertise, and training. ~ Follow "Procedural Felling Operations" IRPG page 85. ~ Do not fall trees during high wind events. ~ Ensure proper use of all required PPE.
All	Structure Protection & HAZMAT	<ul> <li>Review "Wildland Urban Interface" Watch outs, IRPG page 12-16.</li> <li>Use "Structure Assessment" checklist, IRPG pages 12-16.</li> <li>Follow "HAZMAT Incident Operations" IRPG on page 36.</li> </ul>
All	Firefighter & Public Smoke Exposure	~ Identify homes and structures with private parties remaining behind the evacuation.   ~ Identify personnel responsible for contacting private parties.   ~ Use warning lights and provide traffic control on roadways during smoky and night operations.   ~ Rotate crews out of smoky areas during firing and mop-up operations.   ~ Contact Communications when firing operations are initiated.

### **DID YOU KNOW:**

Breathing air with a high concentration of CO reduces the amount of oxygen that can be transported in the blood stream to critical organs like the heart and brain.

At very high levels, CO can cause dizziness, confusion, unconsciousness and death.

When CO levels are elevated outdoors, they can be of particular concern for people with some types of heart disease. These people already have a reduced ability for getting oxygenated blood to their hearts in situations where the heart needs more oxygen than usual. They are especially vulnerable to the effects of CO when exercising or under increased stress. In these situations, short-term exposure to elevated CO may result in reduced oxygen to the heart accompanied by chest pain also known as angina.

Most people recognize that stress, heat, and strenuous activity can put additional strain on the heart but may not recognize the additional cardio risk from CO. Also there is a risk of confusion from lack of oxygen to the brain, so decision making can be affected. Watch out for team members who may not realize they are being affected. If your somewhat goofy buddy is acting even more dazed and confused than usual in dense smoke, consider whether CO exposure might be to blame! Get them into cleaner air and if you are concerned about their condition, seek medical attention.

(1) Continue improving line and firing. (2) Conduct tactical burnouts according to Division Supervisor in advance of Glade Fire approaching line. (3) Construct and improve dozer line along the north side of Blue Slide Creek from FH7 road southwest towards Black Butte River. Implement hand line construction within river buffer. (4) Implement defensive firing operations around Keeran Camp and Garnett Camp as necessary if fire reaches top of Rock Basin Ridge.

### WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms<sup>1</sup>?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
* Take temperature with no-touch thermometer, if available *

### **Instructions for Screening**

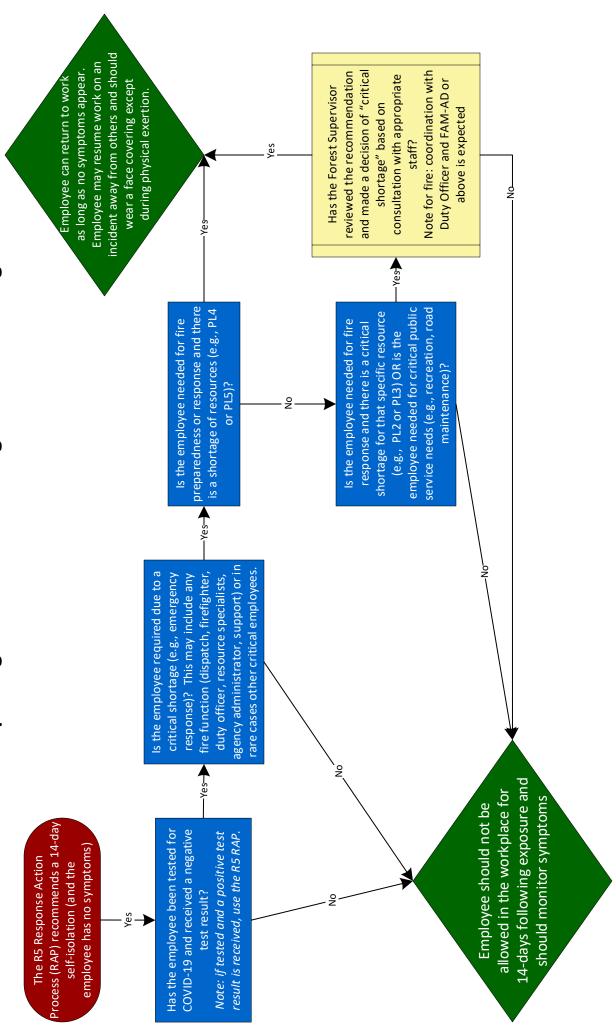

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries:	DO NOT ANNOUNCE
Consider adequate number of personnel needed for screening.  Although medical personnel are ideal, screeners do not have to be medically trained.	Ask individual to step aside and follow the steps below.
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	

Steps to follow
Escort symptomatic individual to isolation area.
Isolation support personnel should begin documentation.
Have symptomatic individual contact Supervisor for further direction.
Notify public health officials.
Have individual transported as appropriate.
Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

COVID-19 Response and Employee Notification

# Important Notes:

- \* Recovered is defined as 10 days since symptoms first appeared AND 24 hours with no fever without the use of fever-reducing medicines AND other symptoms of COVID-19 are improving.
- Symptoms of COVID-19 include cough, shortness of breath, trouble breathing, fever, chills, repeated shaking with chills, muscle or body aches, headache, sore throat, new loss of taste or smell, congestion or runny nose, nausea or vomiting, or diarrhea.
- Contact Assessment should be conducted to help determine potential exposure of additional employees; conduct assessment for the 2-day period before illness onset or test date of sick employees, whichever came first.
- Close contact is defined as less than 6 feet, for at least 1.5 minutes with or without face coverings/ masks. Casual contact is defined as less than 6 feet for less than 1.5 minutes or more than 6 feet for more than 1.5 minutes.
- Any employee in "close contact with someone who is sick" may return to the workplace if the sick person is tested for COVID-19 and the test is negative.
- Contact with exposed individuals is classified as secondary contact and does not typically require selfisolation unless the exposed individual tests positive.
- You do not need to self-isolate unless you meet one of the criteria identified.
- Always follow the advice of a medical provider, if given, including any need for isolation or clearance for return-to-duty.

This document is subject to change based on CDC guidance.

### **Line Emergency Day/Night:**

Once any injury/illness has occurred:

- Ensure patient receives immediate First Aid and care
- Crew Supervisor to contact Division Supervisor
- Division Supervisor to contact August Communications via on Command Channel and relay information on Medical Incident Report
- DO NOT USE THE INJURED PERSON'S NAME ON THE RADIO.
- MEDL and Incident Safety Officer will assist with the coordination of further medical care and mode of transportation.
- Ambulance and/or air resources will be coordinated through MEDL and SOF1.

### **Basecamp or ICP Emergency**

Contact MEDL and SOF1 with patient complaint/condition and location.

Notify Medical Unit of any injury/illness being transported to Medical Unit prior to transport.

### MNF AUGUST COMPLEX

### **COVID MITIGATION PLAN**

Check-In: All personnel will be required to complete COVID-19 questionnaire and undergo

thermal screening.

Briefing: It is requested that only module leaders and trainees attend briefings as

appropriate.

ICP: All personnel are to maintain physical distancing and required to wear a face

covering while in ICP / Base Camp(s).

Med Plan: Refer to the COVID-19 Operational Flowchart and the ICS 206 in the IAP for

more information.

Management: A qualified Medical Unit Leader will be assigned as an incident COVID Mitigation

Manager to ensure established measures are followed.

Contact is MEDL Shanna Ellis -318-229-6515 or 318-224-0421

Any Personnel that fail thermal screening will be rechecked manually by medical

personnel in the Medical Unit.

Any personnel that become symptomatic will be evaluated by Medical

Personnel and appropriate actions taken per CDC and Federal guidelines.

but the english fifth resp. to this offer product the first beautiful

MEDL: COVID-19 Mitigation Plan

### **CHECK-IN PROCEDURES**

Virtual Check-In: Please complete online check-in with your smart phone.

Use your Resource Order and Incident Qualification Card to complete the check-in information accurately. For CREWS, only the leader must check in online. For all other resources with multiple people per resource order number, all people should complete check-in.

1.SCAN THE QR CODE and COMPLETE the form in its entirety.

### 2.EMAIL RESOURCE ORDER AND MANIFEST TO:

or 2020.augustcomplex.resources@firenet.gov

If you do not have the capability or information needed to complete online check-in on your smart phone, please come to Check-In Trailer and knock on the door and someone will come outside to assist you with check-in. Thank You!

Base Camp Check-in Trailer Hours 0600 – 2000

Willows ICP Check-In Hours 0700-2100

### **FINANCE**

Send all finance documentation (SIGNED CTR/shift ticket/AD forms/inspections/etc) to:

2020.augustcomplex.finance@firenet.gov

When submitting a finance document to finance please use the following format in your email subject line:

# Resource order number\_Last name, First name\_Document type\_Date \*Casual Hires add "AD" after Date\*

### **Examples:**

0-2\_Duck, Daffy\_CTR\_0821\_AD
O-4\_Bear, Smokey\_CTR\_0821
E-34\_Bob's Dozer\_ST\_0821
C-3 Smoky Hot Shots CTR 0821

For all other Issues/questions use the email above. Be specific in the subject line to ensure your email is directed to the appropriate finance contact.

### **DMOB** Instructions

Are you on the DMOB list? Are you supposed to be on the DMOB list?

If you are supposed to be on the DMOB list, there are several things you need to do before leaving the incident:

- Return all equipment to supply and communications.
- Does your vehicle need inspection from Ground Support? If so, get it done!
- Then proceed to the ICP in Willows to meet with finance.

When done call DMOB @ 540-798-2218 answer 5 short questions about your travel and be on your way!

Did you request an extension and your DMOB has not changed!? Talk with resources at Camp.

QUESTIONS? Call 540-798-2218

### **Public Information**

California Law concerning journalist's access to fires California Penal Code 409.5(d):

www.fs.usda.gov/mendocino

Media cannot be prevented from accessing the fire unless their presence would impede firefighting operations, the location is a crime scene, or accessing private property without owner permission. If entering a location is hazardous, they should be advised of the situation. Call PIO for more details.

### **SEND US YOUR PHOTO**

Scan this QR Code to send us your pictures from the field by email:

2020.AugustComplex@firenet.gov

## <u>Consider agency guidelines and potential ramifications before sharing</u> pictures of:

- fireline personnel not wearing full PPE
- identifiable structures (i.e. addresses)
- burning / burned structures
- inmate crews
- faces of children (written parental consent required)
- accident or investigation scenes
- sensitive natural or cultural resources (or QR codes to maps that identify them)
- whiteboards / flipcharts with passwords or internal contacts listed

### Human Resource Message

# Thought for the Day FIRE

Fatigue...... Be aware of fatigue having a negative impact on

your conduct and speech

Integrity...... Integrity and Honesty are vital on a fire. If you

mess up, fess up. Whatever you did can most likely be fixed if you report it as soon as you are aware of it.

Respect....... Treat others as you would like to be treated.

Example...... Set an example. Realize that you influence

others around you, therefore, always conduct

yourself in a professional and competent manner,

but still have fun!

Setting a goal is not the main thing. It is deciding how you will go about achieving it and staying with that plan. – Tom Landry

Tony Torres anthony.torres@usda.gov or 505-249-2341

### TRAINING MESSAGE

<u>Check-in</u> – If you have a position task book (PTB), please check in by scanning the QR code below to initiate the registration process. Please complete the form in its entirety. To complete the registration process, at your earliest convenience, please email a copy of your qualification card and position task book cover to Debra Burgos, TNSP at <u>debra.burgos@usda.gov</u>. If you have questions, please call 404-987-3256.

### **AUGUST COMPLEX TRAINEE REGISTRATION**

<u>Demob</u> – In order to receive credit for your assignment, you must 'closeout' with the Training Specialist prior to demob.

Closeout requirements include:

- 1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB;
- 2. Obtain an Incident Performance Evaluation (ICS Form 226 an electronic copy will sent to you and your trainers/evaluators) signed by your trainer(s)/evaluator(s);
- 3. Obtain an evaluation record an electronic copy will be sent to you and your trainer(s)/evaluator(s);
- 4. If evaluator initialed #1 on your evaluation record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page);
- 5. Email all documentation (including item #3, when appropriate) to <a href="mailto:debra.burgos@usda.gov">debra.burgos@usda.gov</a> (please do not text);
- 6. Complete Exit Interview To complete exit interview, please can QR Code below.
