INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: August Complex

2. Operational Period: Date From: 09-04-2020 Date To: 09-04-2020
Time From: 0700 Time To: 1900

3. Objective(s):

Leaders Intent:

Suppress the August Complex fires using management strategies and tactics that provide the highest likelihood of success given risks to responders.

Management Objectives:

1. Ensure the safety and wellbeing of emergency responders and the public by making timely risk-informed decisions that align with Agency values.
2. Protect natural and cultural resources of Federal, State, and Local interest by engaging agency resource advisors, partners and community stakeholders in effective communication and planning.
3. Develop and implement a strategic plan for the Hopkins Wilderness fires in collaboration with the Shasta-Trinity and Six Rivers National Forests.
4. Foster good relationships with local cooperators, stakeholders and the public by providing coordinated, accurate and timely information.
5. Keep costs commensurate with values at risk by working with the local unit and coordinating with the Agency Administrator and Incident Business Advisor.
6. Coordinate with the Forest's COVID-19 Advisor to ensure COVID mitigation measures are in alignment with Agency expectations and adapt as necessary to changing conditions.
7. Coordinate suppression efforts with CALFIRE and Shasta-Trinity National Forests on the Elkhorn Fire.

Control Objectives

- Hold the Glade and Tatham Fires south of the M2 road and Riley Ridge to Hull Canyon Road to the 302 Road. Coordinate closely with Crane Mills resources.
- Hold the Hull and Doe fires east of the M1 and north of the M3 roads, Brushy Ridge and Horse Ridge to M1 Road and west of the 306 Road.
- Construct and improve line along the Doane Ridge working closely with Resource Advisors in Black Butte Wild and Scenic River Corridor.

4. Operational Period Command Emphasis:

See attached Weather Forecast

General Situational Awareness:

See attached Safety Message

5. Site Safety Plan Required? Yes No X

Fire Weather Forecast

FORECAST NO: 16

PREDICTION FOR: 24 Hr Shift

SHIFT DATE: Friday 9/04/2020

TIME AND DATE ISSUED: 9/3/2020 1800 PDT

INCIDENT: August Complex

UNIT: Mendocino NF

SIGNED: *Rick Davis*

Incident Meteorologist (IMET)

Discussion: *****Excessive Heat Warning For The Weekend*****

The upper ridge over the Great Basin will dominate the weather for the fire area with prolonged hot and dry conditions. Well above normal temperatures are expected with mainly terrain induced winds along with developing southwesterly ridge top winds through the weekend. A weak and dry backdoor front is expected to move into the region early next week with a brief northerly wind shift.

WEATHER FORECAST FOR TODAY:

SKY/WEATHER: Sunny and hazy.

Max Temperature: 80 to 88 higher elevation and smoked filled valleys, except 95 to 100 lower valleys.

Min RH: 8 to 14 percent.

-20 ft Level WINDS:

Lower Valleys/Lower Slopes Down drainage to 10 mph, becoming up drainage to 10 mph by noon.

Upper Ridges: Southeast wind around 10 mph, becoming south by early afternoon with gusts to around 15 mph.

TRANSPORT WINDS: Southwest 10 to 15 mph. **Mixing Height** 7,000 ft.

TONIGHT:

SKY/WEATHER: Clear with continued poor RH recovery

Min Temperature: Mid 60s, except mid 70s in the Thomes Creek drainage.

Max RH: 20 to 40 percent.

WINDS:

-20 ft Level-

Valleys/Lower Slopes: Down drainage to 10 mph after sunset. Gusts to 15 mph in the Thomes Creek area,

Upper Ridges: East to Northeast to 10 mph by midnight.

Saturday:

SKY/WEATHER: Mostly sunny.

Max Temperature: 84 to 92 higher elevations and smoked filled valleys except 98 to 105 lower valleys

Min RH: 6 to 12 percent.

WINDS:

-20 ft Level- Lower Valleys Down drainage to 10 mph in the morning becoming up drainage by noon.

Upper Ridges: Winds becoming Southwest 10 to 15 mph by mid afternoon.

TRANSPORT WINDS: Southwest around 15 mph. **Mixing Height** 8,000 ft

INPUTS

WEATHER SUMMARY: ***Excessive Heat Warning for the weekend***
TODAY (Thursday): See Fire Weather Forecast.
WEATHER: Mostly sunny
Lower Valleys/Slopes: **MAX Temp:** 95-100 degrees **MIN Rh:** 08-14% **WIND:** Down drainage to 10 mph, becoming up drainage to 10 mph by noon
Upper Ridges: **MAX Temp:** 80-88 degrees **MIN Rh:** 08-14% **WIND:** East to northeast wind around 10 mph, becoming southwest by early afternoon
LAL: 1 **CWR:** 0%
MIXING HEIGHT 6,500 ft AGL **TRANSPORT WINDS** SW @ 10 mph

GENERAL FUEL ASSUMPTIONS: It has been over 100-150 days since much of the fire area has received over 0.10" of precipitation and fuels are extremely dry and are burning readily. 10 Hr fuel moistures in the fire area were again observed at 5-8% on September 3rd. Smoke has moderated fire behavior for several days. Be mindful if visibility improves over the fire area as this will bring elevated fire behavior. .

FIRE BEHAVIOR OUTPUTS

GENERAL
 Fuels continue to dry due to lack of precipitation combined with low humidity's (7-20%) yesterday. Smoke over the fire continues to impact fire spread and behavior, but the potential is still there for rapid fire movement and moderate/extreme fire behavior if the airshed clears out. Most of the fire spread is anticipated to be terrain driven except on exposed ridgetops.

| | | Fire Behavior Potential (Clear Air) | | | | Fire behavior Potential (Under Smoke) | | | |
|-----------------|------------|-------------------------------------|---------|---------|----------------|---------------------------------------|---------|---------|----------------|
| Vegetation Type | Fuel Model | ROS (ch\hr) | FL (ft) | PIG (%) | Spot Dist (mi) | ROS (ch\hr) | FL (ft) | PIG (%) | Spot Dist (mi) |
| Grass | GR2 | 60-66 | 6-7 | 86 | 0.3 | 50-55 | 5-6 | 62 | 0.3 |
| Grass/Shrub | GS2 | 39-40 | 7-8 | 86 | 0.3 | 33-36 | 6-7 | 62 | 0.3 |
| Shrub | SH7 | 58-61 | 16-18 | 86 | 0.3 | 54-57 | 15-17 | 62 | 0.3 |
| Timber | TL8 | 8-9 | 4-5 | 86 | 0.3 | 7-8 | 3-4 | 62 | 0.3 |

SPECIFIC: Smoke will inhibit fire spread and behavior again today.
 >**Branch I:** Anticipate continued Fire spread up slope/up drainage during the day and down drainage/downslope at night with diurnal wind patterns. Post lookouts and monitor the situation on the Elkhorn Fire to the N/NE. Movement on the spot fire on Boswell Ridge is expected to spread up the ridgeline with backing and flanking down the ridge edges.
 >**Branch II:** Active upslope fire spread on the Western edge of the Doe Fire. Maintain SA on fire moving into Panther Creek near the Archer Cabin area. If fire moves into the bottom of the drainage expect fire spread up drainage to the SW towards Smith Camp.
 >**Branch III/IV:** Anticipate pockets of unburned fuel especially along Brushy Camp Ridge to clean up. Hull Fire, the NE portion of the fire has aligned with terrain and is in more favorable terrain for fire spread to the N/NW. This area of fire has reached the M1 Road. Maintain SA during the firing operations on the Southern portion of the fire.
 >**Branch V:** Hopkins fire, IR indicates significant heat along the Northern half of the fire perimeter. Expect continued fire movement to the north following terrain and fuels. Willow Basin fire, some heat detected on SE corner of the fire. Does not appear to be significant perimeter growth over the last few operational periods. Continue to monitor fire spread.

 The mixing of the airmass that has kept fire spread and behavior moderated the last few days will begin on Saturday and strengthen through Monday/Tuesday. This wx could support conditions for more active fire behavior than we have seen the last few days. Think about securing those identified weak spots along control lines now to set us up for success. Winds are forecasted for SW on Sat, transitioning to NE by Monday/Tuesday. ****ElkHorn fire:** Continue to maintain SA on this developing situation. ******

AIR OPERATIONS:

Smoke will continue to impact air operations.

SAFETY

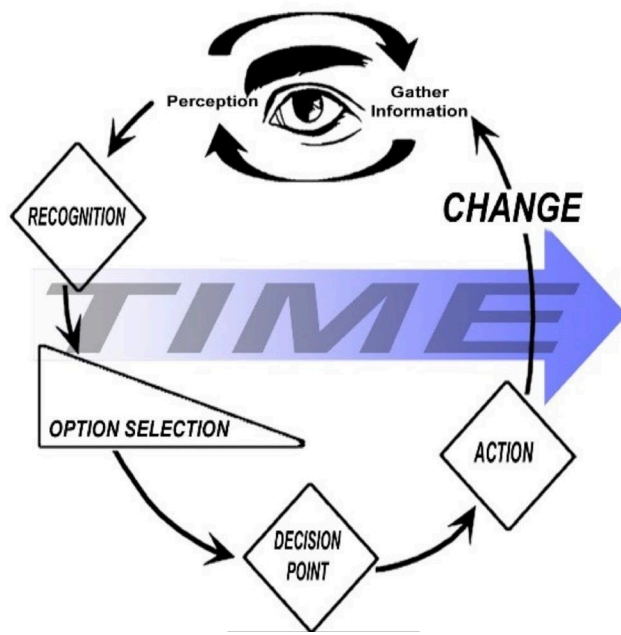

Mild, moderate, and EXTREME fire behavior has always been present in cases of shelter deployment. It is critical for firefighters to maintain situational awareness of live and dead fuel moisture conditions, as well as predicted and current weather conditions. As fire behavior changes, it is critical to act decisively in regard to the changing situation.

HEALTH AND SAFETY MESSAGE

“Safety is a product of your willingness to speak up”

| | |
|---|---------------------------------|
| INCIDENT: August Complex | DATE: September 04, 2020 |
| Major Hazards & Risks: Fire Behavior, Fatigue, Communications | |
| <p>Fire Behavior: Temps are getting hotter this week. This will cause an increase in fire behavior. Keep your situational awareness up, if the smoke or cloud cover breaks, the fire will take this opportunity to make aggressive runs. Fuels are cured and available to burn when conditions are favorable. The terrain is the major influence at this time on the fire behavior. Watch for winds increases in the fire weather forecast as this will increase the fire activity.</p> <p>Fatigue: The pace of work greatly influences your ability to perform long-term. This is a marathon rather than a sprint. Energy reserves are being used each day and the cumulative affect begins to show up in physiological warnings. Your immune system is working hard to protect you but is weakened the less recovery time you have. You are required to mitigate shifts exceeding 16 hours the next operational period. You must have 8 hours off for that needed recovery. Maintain the 2:1 work/rest ratio.</p> <p>Communications: The communications plan was recently changed. Ensure you have your radio cloned with the latest information.</p> | |

Sound & Timely Decisions Loop

Sound and Timely Decisions

- Assess the Situation
- Seek out relevant information
 - Weigh options
 - Make judgements
- Initiate action to create a positive outcome within time constraints

Situational Awareness

How well your perception matches reality, the higher your SA.

As we prepare for very high temperatures, I will jump on the HYDRATE wagon:

Getting enough water is as important for the lungs as it is for the rest of the body.

Adequate hydration helps keep the mucosal linings in the lungs thin, which improves lung function. Especially in a smoky environment, this is one of the things you can do every day to protect yourself from smoke impacts. Staying hydrated is a process so HYDRATE before it's too late!

Line Emergency Day/Night:

Once any injury/illness has occurred:

- Ensure patient receives immediate First Aid and care
- Crew Supervisor to contact Division Supervisor
- Division Supervisor to contact August Communications via on Command Channel and relay information on Medical Incident Report
- **DO NOT USE THE INJURED PERSON'S NAME ON THE RADIO.**
- MEDL and Incident Safety Officer will assist with the coordination of further medical care and mode of transportation.
- Ambulance and/or air resources will be coordinated through MEDL and SOF1.

Basecamp or ICP Emergency

Contact MEDL and SOF1 with patient complaint/condition and location.

- Notify Medical Unit of any injury/illness being transported to Medical Unit prior to transport.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

| Symptom |
|---|
| Cough more than expected? |
| Shortness of breath or difficulty breathing? |
| Fever? Chills? |
| Muscle pain, outside your normal for firefighting? |
| Sore throat? |
| New loss of taste or smell? |
| Fatigue, outside your normal for firefighting? |
| Headache, outside your normal for firefighting? |
| Congestion or runny nose, outside your normal for firefighting? |
| Nausea or vomiting |
| Diarrhea |
| <i>* Take temperature with no-touch thermometer, if available *</i> |

Instructions for Screening

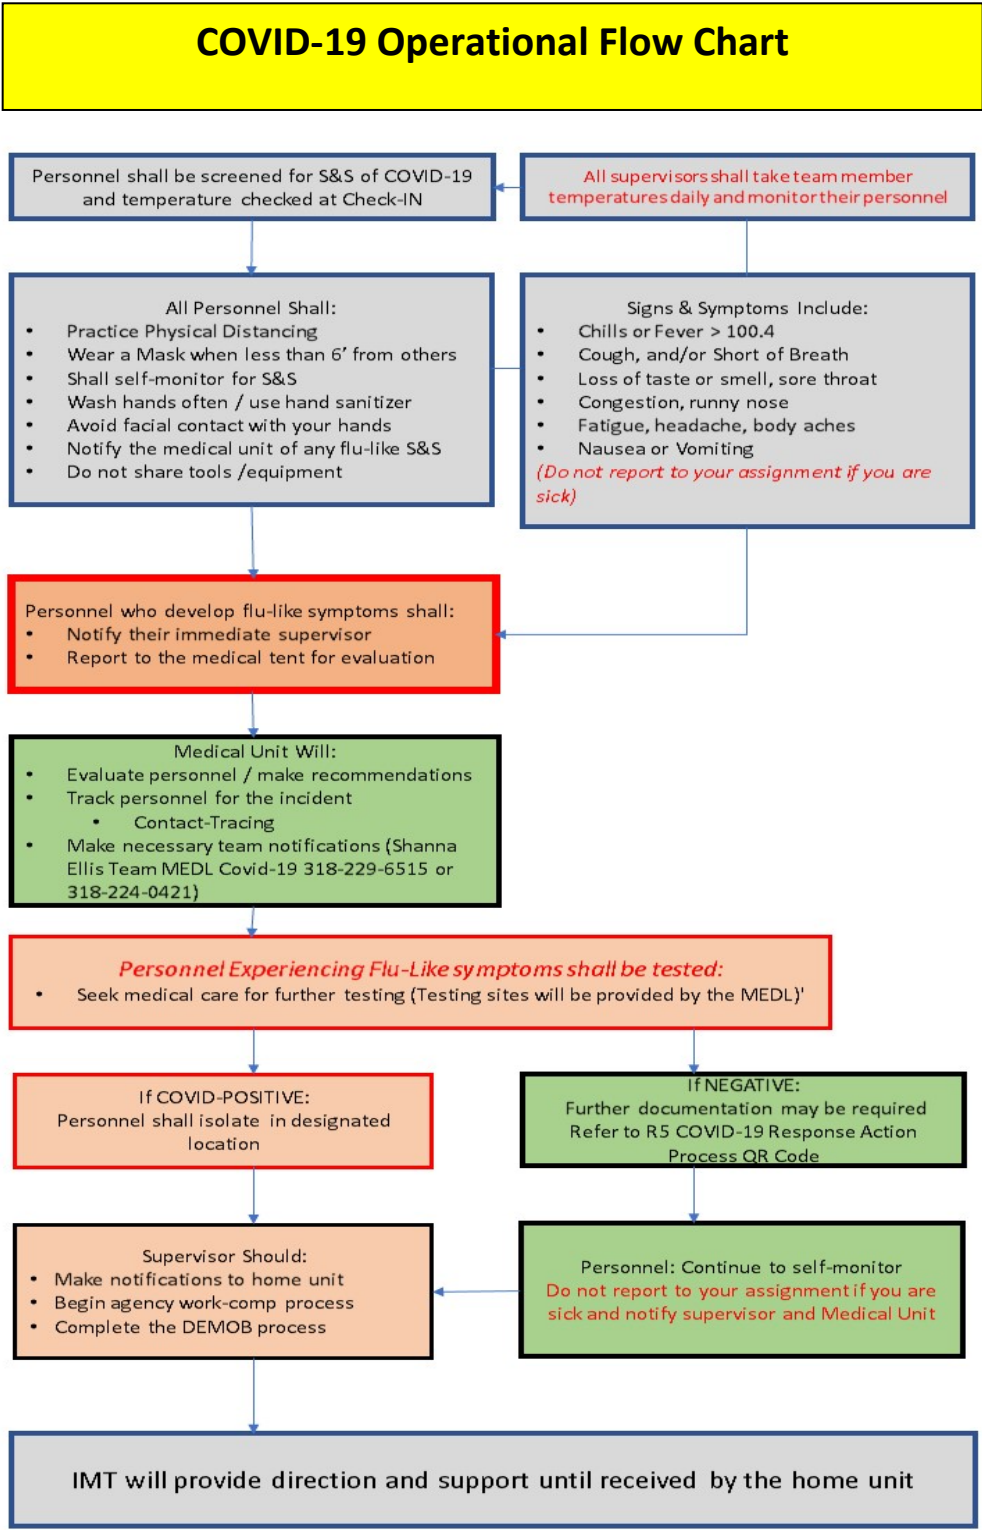

| Item | What to Do |
|---|---|
| If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed. | DO NOT MOBILIZE |
| At Entries: Consider adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained. If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry. | DO NOT ANNOUNCE Ask individual to step aside and follow the steps below. |

| Steps to follow |
|--|
| Escort symptomatic individual to isolation area. |
| Isolation support personnel should begin documentation. |
| Have symptomatic individual contact Supervisor for further direction. |
| Notify public health officials. |
| Have individual transported as appropriate. |
| Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI). |

CHECK-IN PROCEDURES

Virtual Check-In: Please complete online check-in with your smart phone.

Use your Resource Order and Incident Qualification Card to complete the check-in information accurately. For CREWS, only the leader must check in online. For all other resources with multiple people per resource order number, all people should complete check-in.

1. SCAN THE QR CODE and COMPLETE the form in its entirety.

2. EMAIL RESOURCE ORDER AND MANIFEST TO:

or 2020.augustcomplex.resources@firenet.gov

If you do not have the capability or information needed to complete online check-in on your smart phone, please come to Check-In Trailer and knock on the door and someone will come outside to assist you with check-in. Thank You!

Base Camp Check-in Trailer Hours 0600 – 2000

Willows ICP Check-In Hours 0700-2100

FINANCE

Send all finance documentation (SIGNED CTR/shift ticket/AD forms/inspections/etc) to:

2020.augustcomplex.finance@firenet.gov

When submitting a finance document to finance please use the following format in your email subject line:

Resource order number_Last name, First name_Document type_Date
Casual Hires add "AD" after Date

Examples:

0-2_Duck, Daffy_CTR_0821_AD

0-4_Bear, Smokey_CTR_0821

E-34_Bob's Dozer_ST_0821

C-3_Smoky Hot Shots_CTR_0821

For all other Issues/questions use the email above. Be specific in the subject line to ensure your email is directed to the appropriate finance contact.

DMOB Instructions

Are you on the DMOB list? Are you supposed to be on the DMOB list?

If you are supposed to be on the DMOB list, there are several things you need to do before leaving the incident:

- Return all equipment to supply and communications.
- Does your vehicle need inspection from Ground Support? If so, get it done!
- Then proceed to the ICP in Willows to meet with finance.

When done call DMOB @ 540-798-2218 answer 5 short questions about your travel and be on your way!

Did you request an extension and your DMOB has not changed!? Talk with resources at Camp.

QUESTIONS? Call 540-798-2218

August Complex

Thank You Notes

Please provide the contact information for those people, groups or enterprises you wish to recognize for their efforts or contributions to the management of this incident.

Human Resource Message

Navigate

Our ability to navigate through difficult situations has a lot to do with our ability to shift our perspectives. When we get locked into a particular viewpoint, an obstacle can appear overwhelming. Sometimes, we just need to step back and look at the situation from different angles. In doing so, we often can find ways to easily navigate around an obstacle that once appeared insurmountable. Some call this going with the flow.

When dealing with a difficult situation or challenge, do you react or respond? Are you thinking, “It’s going to be my way or the highway” or “How do I need to look at this differently?”

If you would like a bit on coaching to shift your perspective, please feel free to contact your HRSP.

When you come to a fork in the road, take it. – Yogi (NY Yankees)

Tony Torres – HRSP
Cell: 505-249-2341 or Anthony.torres@usda.gov

TRAINING MESSAGE

Check-in – If you have a position task book (PTB), please check in by scanning the QR code below to initiate the registration process. Please complete the form in its entirety. To complete the registration process, at your earliest convenience, please email a copy of your qualification card and position task book cover to Debra Burgos, TNSP at debra.burgos@usda.gov (if you have questions, please call 404-987-3256).

For your convenience, an electronic ICS-226 and Evaluation Record will be sent to you after you complete the registration process.

[AUGUST COMPLEX TRAINEE REGISTRATION](#)

Demob – In order to receive credit for your assignment, you must 'close out' with the Training Specialist prior to departure.

Close out requirements include:

1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB;
2. Obtain an Incident Performance Evaluation;
3. Obtain an Evaluation Record;
4. If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page);
5. Email all documentation (including item #3, when appropriate) to debra.burgos@usda.gov (please do not text);
6. Complete Exit Interview – Scan QR Code below.

[AUGUST COMPLEX TRAINEE EXIT INTERVIEW](#)

A Message from the DOCL

Good morning! I'm your friendly Documentation Unit Leader (DOCL), and I'm providing this message to give you an idea of what is needed from you as far as documentation goes.

- The documentation that applies to each of you are Unit Logs (214s) and General Messages (213s). These can be submitted as a print or electronic copy. The unit log form (214) is found in the daily IAP, and is an important way of documenting anything significant that may have happened during your shift. These records can be very important, especially in the instance of an accident, so please try to get them turned in.
- About those 213s..... I only need the original or electronic document that was sent **to you**. If it is a carbon copy of a 213 that you sent to someone else, please keep that for your own records but I do not need it.
- There are many other documents that should be submitted during an incident, and I have a list available for your particular section at your request. I can also provide you with labeled folders if you need them.
- The new electronic filing system allows you to upload documents directly into Microsoft Teams and the eDoc Box. Please **do not** file these documents in the eDoc Box section folders, but use the folder called **"9 – TO BE FILED"** instead. I have to use a specific naming convention, and this also allows me to know that something was submitted that I need to take care of. The folder is found in Teams under **"Files > General > eDoc Box > Doc Box Template > 9 – To Be Filed"**. For convenience you may create a folder in your section's channel called "To Be Filed", and I will be happy to copy the documents from there.
- If you do not have access to the Microsoft Teams, documentation can be emailed to me at **chris_oelschlager@firenet.gov**.
- **Please send any original paper copies of documents to ICP as often as possible.** A lot of paperwork comes in as a team leaves an incident, and this can be a challenging to handle in a short window of time.

Finally, I'm thrilled to be here working with you and want to assist however I can. Let me know how I can help and I will be happy to.

Thanks so much for your cooperation,
Chris Oelschlager, DOCL

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

| | | |
|---|--|--|
| Severity of Emergency / Transport Priority | <input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i> | |
| Nature of Injury or Illness & Mechanism of Injury | | Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i> |
| Transport Request | | Air Ambulance / Short Haul/Hoist Ground Ambulance / Other |
| Patient Location | | Descriptive Location & Lat. / Long. <i>(WGS84)</i> |
| Incident Name | | Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i> |
| On-Scene Incident Commander | | Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i> |
| Patient Care | | Name of Care Provider <i>(Ex: EMT Smith)</i> |

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location *(if different):* (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

| Function | Channel Name/Number | Receive (RX) | Tone/NAC * | Transmit (TX) | Tone/NAC * |
|-------------|---------------------|--------------|------------|---------------|------------|
| COMMAND | | | | | |
| AIR-TO-GRND | | | | | |
| TACTICAL | | | | | |

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
