## **INCIDENT OBJECTIVES (ICS 202)**

1.	Incident Name: August Complex - North Zone	2. Operational Period: Date From: FRI 9/25 Date To: SAT 9/26 Time From: 0700 Time To: 0700									
3. Obje	ective(s):										
•	Provide for firefighter and p	blic safety by assessing and mitigating risk in order to develop and									
	implement sound tactical or	erations. Ensure all resources have a clear understanding of									
	assignments and associated	nazards.									
•	Protect homes, businesses,	ommunities, utility infrastructure, transportation corridors, county									
	watersheds and timber valu	s from immediate and long-term threats. Contain the fire where it	is								
	safe to do so. Have contingency plans for uncontained fire edge.										
•	Maintain and enhance relat	onships with agency partners, cooperators, stakeholders, and the p	ublic								
	through timely and accurate	information exchange. Ensure long-term strategies are communica	ted.								
•		munication is taking place between South Zone, West Zone, and A									
		strategic direction, efficient resource use, and common public									
	messaging across all three z	•									
•	Follow CDC, local, state, and	federal COVID-19 mitigation guidance and protocols to reduce expe	osure								
		he public from virus spread.									
•		ty and respect by providing a harassment free, zero-tolerance wor	k								
	environment.										
•	Ensure financial and docum	ntation packages are prepared in accordance with agency requiren	nents								
		ut when no longer necessary.									
4.0==											
	rational Period Command Em										
		ence today impacting Highway 36 corridor for the next 24–72 hours

#### **Fire Weather Forecast**

FORECAST NO: 17

PREDICTION FOR: Friday-Friday Night

DATE: September 25th, 2020

FORECAST ISSUED: 1900 September 24th, 2020

**Fire: August Complex North Zone** 

UNIT: CA-MNF-000753

**Incident Meteorologist: Brooke Taber** 

Signed: Brooke Taber

<u>WEATHER DISCUSSION:</u> A warming and drying trend develops today, as winds shift to the west/northwest behind our departing trough. Temperatures warm into the 70s, as relative humidity values fall back into the upper teens to mid 20s. Aspect and elevation will once again influence the temperatures, winds, and relative humidity values, with warmest and driest conditions on western slopes. Breezy northwest ridgetop winds develop Friday night into Saturday morning with localized gusts up to 20 mph possible on exposed ridges, while light terrain driven winds prevail in the valleys and midslope areas.

**TODAY:** 

**WEATHER:** A few clouds over the higher terrain. Areas of smoke.

**MAX TEMP**: **3000 feet**: 74-81° **MIN RH**: **3000 feet**: 18-24%

**5000 feet**: 68-73° **5000 feet**: 26-31%

CHC WTG RAIN: 0% LAL: 1

WINDS: 3000 feet: Downslope/downvalley 3 to 5 mph becoming west 4 to 8 mph with gusts up to 12 mph after

1300.

(20 FEET) 5000 feet: WNW winds 6 to 10 mph, becoming 8 to 12 mph with localized gusts up to 18 mph after 1300.

**MIXING HEIGHT:** Rising to 5000 feet by 1600. **TRANSPORT WIND**: Northwest 12-18mph.

**VISIBILITY:** ½ to 2 mile in valley areas in the morning. Increasing to 5-7 miles in the afternoon.

**TONIGHT:** 

**WEATHER:** Becoming partly cloudy with developing breezy ridgetop winds and areas of smoke in the deeper valleys.

MIN TEMP: 3000 feet: 46-52° MAX RH: 3000 feet: 85-95%

**5000** feet: 49-55° **5000** feet: 65-75%

CHC WTG RAIN: 0% LAL: 1

**WINDS: 3000 feet:** Downslope/downvalley winds 3-6mph.

**5000 feet:** Increasing northwest wind 10-15 mph with gusts up to 20 mph after 2200.

**TRANSPORT WIND**: Northwest 20 to 25 mph.

INVERSION: Inversion lifts by 1400.

**EXTENDED OUTLOOK:** Saturday through Tuesday: \*\*\*A Fire Weather Watch in effect from early Sunday Morning through Monday Morning\*\*\* Critical fire weather conditions are forecasted to occur early Sunday morning into Monday across the August Complex as strong ridge of high pressure builds into northern California. This will produce east to northeast winds of 12 to 18 mph with localized ridgetop winds 25 to 30 mph possible, minimum afternoon humidity in the teens and poor overnight recoveries. Lighter winds, but very

warm and dry conditions prevail most of next week.

FIRE BEHAVIOR FORECAST										
FORECAST NUMBER: 17	INCIDENT TYPE: Wildland Fire									
FIRE NAME: August Complex North Zone	OPERATIONAL PERIOD: Day/Night Shift, September 25, 2020									
DATE ISSUED: September 24, 2020	TIME ISSUED: 2000									
UNIT: CA-MNF-000753	PREPARED BY: Chris Moore FBAN Christopher Moore									
	INPUTS '									

**WEATHER SUMMARY:** \*\*\*Warming and Drying Trend Begins to Develop\*\*\* **Temp:** Max. 3,000': 74-81°, 5,000': 68-73°; Min. 3,000': 46-52°, 5,000': 49-55°. **RH:** Min. 3,000': 18-24%, 5,000': 26-31%; Max. 3,000': 85-95%, 5,000': 65-75%.

Wind: 3,000' Downslope/down valley 3-5 mph becoming west 4-8 g 12 mph in the afternoon.

5,000' WNW 6-10 mph becoming 8 to 12 gusts to 18 mph in the afternoon.

#### **FUELS & FUEL MOISTURE:**

• Fuels vary greatly based on elevation and aspect but are primarily timber with patches of open grass and areas of brush.

- At all elevations, fuels are **critically dry** in all size classes, both live and dead.
- Heavy fuels are supporting fire spread even when weather conditions are not conducive for large fire growth.
- Significant grass load can support rapid rates of spread under favorable weather conditions.

Fine Fuels: 5-8% based on shading; 1000-hr 9%; ERCg Friend Mountain 63 (62<sup>nd</sup> percentile); PIG 60%

#### **OUTPUTS - FIRE BEHAVIOR**

**GENERAL:** The following fire behavior outputs are based on wind and slope alignment.

Fuel Model	Head fire Rate of Spread	Flame Length (ft.)	Spot Dist.(mi.)
	CH/HR	Head fire	
Timber	15-20	8-10'	.2
Grass	60-80	5-7'	
Brush	60-80	15-20'	

#### SPECIFIC:

**Branch 21 –** Heavy fuel concentrations will result in single and group tree torching. Fire spread will continue to actively back down the slope. Upper slopes could become more active in afternoon with lower RHs and afternoon heating.

**Branch 31 –** Fire will continue to back down Rattlesnake Ridge to the north. Areas above East Fork of Smoky Creek will continue to be active in the afternoon especially on aligned ridges. Fine Dead Fuel Moistures between 5-10% will be the most conducive to burnout operations.

**North Structure Group** – The threat to Post Mountain will decrease slightly as the winds turn more W/NW. Fire progression below the 36 road will need to be monitored throughout the day.

**Branch 40 -** Minimal threats to the line are expected. Interior fuels will continue to burn out especially in areas that have heavy fuel concentrations to support combustion. The Buck fire scar will continue to check fire spread.

**AIR OPERATIONS:** Sunrise 0700 Sunset 1900. Lower elevations will have poor visibility in the morning but clearing through the day. At higher elevations there is a chance for better air in the afternoon.

**SAFETY:** Burn out in different fuels will yield different fire behavior. Pay attention to how your burnout is progressing as you pass through different fuel types and as the weather progresses through the day.

<sup>\*\*</sup>Base all action on current and expected fire behavior\*\*

#### 6. Control Operations/Work Assignments:

TASK: Implement opportunities to connect containment lines that hold fire growth from impacting Hwy 36. Coordinate with Division E for tie-in points in Taylor Flats. Identify roads and ridges from Taylor Flats east toward 46 Road and build alternate containment line utilizing dozers. Utilize Hwy 36 as primary containment line.

JIM MORGAN

R WILD/0700

R WILD/0700

R WILD/0700

2

R WILD/1900

R WILD/1900

R WILD/1900

PURPOSE: Protect the communities of Forest Glen and Trinity Pines. The fire does not advance north over Hwy 36.

10/06

10/07

10/02

END STATE: Fire remains south of Hwy 36 and east of Trinity River.

Lookouts Communications Escape Routes Safety Zones

## **August Complex North**

Operation Period: 09/25/2020 Day/Night Shift 0700-0700

## **SAFETY MESSAGE**

## STRUCTURE PROTECTION PLANNING

- Don't enter a burning structure unless you are trained, equipped, and authorized.
- Always stay mobile and wear all of your PPE.
- Back in equipment to allow for a quick escape.
- Coil a short, 1 ½", charged line with fog nozzle on your engine for safety and quick knock down capability.
- Check the road system before the fire approaches. Know bridge limits, alternate access routes, and turnarounds for your vehicle and other support vehicles.
- Check and mark hazmat; (ie. LPG, pesticides, and paint storage)
- Clearly Communicate LCES to all resources, and make sure it is understood.

#### MAJOR HAZARDS AND RISKS

STEEP TERRAIN	ROLLING MATERIAL	HEAVY EQUIPMENT
FATIGUE	POISON OAK	HAZARD TREES
DRIVING	LONG DRIVE TIMES	CHANGING WEATHER

Be sure all elements of your safety plan are in place prior to engagement

## Hwy 36 Hazards

- Public traffic is prohibited, although some live within the closure zone.
- Winding steep mountain roads are unforgiving, please drive slow.
- Poor visibility, Always drive with you lights on.
- Changing fuel types will effect fire behavior.
- Snags can throw spots over the line.
- Trees and rocks can impact the road.
- Vehicle turn around locations are limited.
- Slow is smooth and smooth is fast!

## Have multiple plans and make them know

P – Primary Plan (Offense)

Focused on firefighter safety and mission objectives

A – Alternate Plan (Offense)

A fall back plan that closely supports the primary

C- Contingency Plan (Defense)

Entirely focused on firefighter safety

E – Emergency Plan (Defense)

Entirely focused on individual firefighter survival

From the August Complex North, Incident Safety Officers

#### IMT COVID-19 INTENT for the AUGUST NORTH COMPLEX

All wildland firefighters must take COVID-19 messaging seriously and demonstrate consistent, preventative measures known to be effective in limiting viral spread. The Alaska IMT is reminding firefighters to apply the core values of wildland fire management community of "Duty, Respect, and Integrity" and apply these values to the COVID mitigation requirements:

- **Duty**: To provide a workforce safe from known hazards such as disease transmission, and keep us, our fellow firefighters, and the public safe, on and off the clock.
- **Respect**: To demonstrate respect to oneself and to each other by taking routine precautions as guided, such as wearing a mask and social distancing.
- Integrity: To do the right thing when at home, while travelling, or on assignment. Undertake the precautions to keep ourselves and the rest of the workforce healthy and able to respond, then we are not the source of an outbreak within the public we are assigned to protect.

#### Concept of "Module as One:"

Team members, crews, and other resources should use a "Module as One" approach to insulate as one unit and reduce exposure to the public and other crews. If each member within a unit is monitored, screened, and healthy, then proximity, when necessary, is not an issue.

By insulating as a unit, crews and modules can limit outside viral exposure and may safely complete operational tasks in closer proximity, and ride in vehicles without face coverings when working within their "Module as One" concept:

- As often as practical, the same team members should travel in the same vehicle, work together in the same space, and ensure module members are conscientious regrading mitigations.
- Identify select individuals on a crew or module that will interact with the public, ensuring this
  person relies on social distancing, wears a cloth face covering, and practices hand hygiene
  during or after every interaction.
- When the "Module as One" has been established, minimize contact with public and outside community. This is to protect every crew member, their family, and the community we serve.

#### **Essential Mitigations:**

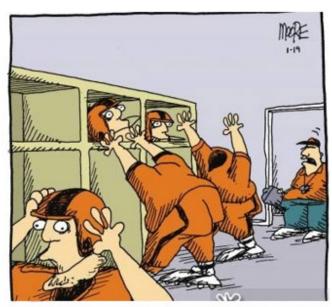

- **Pre-Screening and Regular Monitoring**: Individuals should measure temperature and assess symptoms each day prior to starting work. Ideally, temperature checks should happen before the individual enters the facility or interacts with others on staff or the crew.
- **Social/Physical Distance:** The employee should maintain 6 feet and practice social distancing as work duties permit in the workplace.
- Wearing a Mask: Employees should always wear a facemask or face covering when social
  distancing cannot be maintained. When facemasks cannot be worn during arduous work tasks,
  social distancing practices should be implemented.
- **Disinfect and Clean**: Clean and disinfect all areas, particularly "high touch surfaces" such as engine compartments, bathrooms, common areas and shared electronic equipment routinely.
- Empower all individuals to ask co-workers to follow social distancing guidelines.

## **HUMAN RESOURCE MESSAGE**

## Keep Your Head in the Game.... and a Level Head

The demands expected of the people assigned to incidents are complex, different, exhausting, and exciting. No matter what our particular assignment to the incident is, there is a common expectation placed on each of us - our readiness to take on the assignment.

To maintain this readiness throughout the incident, we need to continue focusing on the objectives. We should not be distracted by discussions which can cause dissent. We all have the right to our opinion, but save these conversations for a later time and more appropriate place.

"Get on the field! Let's go! Get your heads in the game!!"

Human Resource Specialist – Linda Overton 707-333-7631 linda.overton@usda.gov

#### **FINANCE CHECK IN**

Due to there being so many incidents that have rolled into the August Complex we are asking all resources to complete this form and send to Finance. You can complete and email to <a href="mailto:2020.elkhorn.finance@firenet.gov">2020.elkhorn.finance@firenet.gov</a>, drop it off with Logistics at either camp or give to your Division Supervisor to get to Finance. We want to ensure we have all resources accounted for in our system and getting everyone's time posted correctly so that you can get paid.

#### **DEMOB**

## 2020.elkhorn.dmob@firenet.gov

#### PLEASE READ THE FOLLOWING PROCEDURES IF YOU ARE DEMOBING IN THE NEXT FOUR DAYS

Resources that are flying home need to contact demob 3-4 days prior to their demob date so that their flight can be arranged. We will need: Your **Name**, as it appears on your picture ID you use at airport security, your **Date of Birth**, **Gender**, and a few other questions. Call **608-797-6554**.

\_\_\_\_\_\_

#### DAY OF DEMOB INSTRUCTIONS FOR RESOURCES AT HETTENSHAW AND R WILD:

#### Step 1: PICK UP AN ICS221, DEMOBILIZATION CHECKOUT SHEET TO START THE PROCESS

- At R Wild go to Ground Support to pick up the checkout sheet
- At Hettenshaw go to the Plans Tent to pick up the checkout sheet

#### Step 2: CHECK OUT IN PERSON WITH SUPPLY\*, COMMO\*, AND GROUND SUPPORT\*

- Supply: return non-expendable supplies and equipment
- o Commo: Return radios and other commo gear
- o Ground Support: Weed wash, inspections, etc. until a weed wash is set up at Hettenshaw the only weed wash is located at R Wild.

#### Step 3: CHECK OUT REMOTE OR IN PERSON WITH FINANCE\*:

- You can checkout in person at Hettenshaw and when there is a Finance representative at R Wild
- Or you can check out Remote by calling the following:

• Equipment: 907-371-0512

Personnel: 907-371-6311

- o If you are passing by ICP on your way home, you can check out in person at ICP.
- **Step 4:** CHECK OUT REMOTE OR IN PERSON WITH DEMOB\* We need your actual departure time, estimated arrival times and any overnight stops. This helps us coordinate with Dispatch to close out your travel home.
  - If you are passing by ICP on your way home, you can check out in person at ICP.
  - Or you can check out Remote by calling the following:
    - DEMOB: 608-797-6554

\*Required Check-outs

# Step 5: Turn in Unit Logs, Evaluations, General Messages, and ICS221 Demobilization Checkout Sheet\*

- Turn these in at Logistics as you leave R Wild if your demob was remote
- o Turn these in at Plans as you leave Hettenshaw if your demob was remote
- o Turn these in at ICP if your finishing your demob at ICP

#### Step 6: ARRIVE HOME SAFELY.

\_\_\_\_\_

For Extension Request forms and instructions, please call 828-541-1082.

Special Instructions:

Ensure all Medical Resources are in place to provide rapid response to medical incidents. Field Operations must determine medical response times for REM teams, Ambulances, Short Haul and Line Medics/ EMTs before engaging. 42

## Special Medical Emergency Procedures:

Follow the Medical Incident Report (MIR) on the back of the IAP

## Fireline/ Spike Camp Medical Transports and Emergencies:

**Green** - Provide immediate patient care, Notify Division Medic or EMT on Tac. Medic or EMT will contact MEDL by phone at earliest convenience. Minimize, non-critical, operational radio traffic on Command and maintain situational awareness.

Yellow/Red- Contact Communications on Command with a Medical Incident Report.

## **Night Shift**

**Green-** Provide immediate patient care, Notify Night Med Team or Ambulance on Tac. Med Team/ Ambulance will contact MEDL by phone at end of shift. Minimize, noncritical, operational radio traffic on Command and maintain situational awareness.

Yellow/ Red- Contact Communications on Command with a Medical Incident Report.

## **ICP/ Helibase Emergencies:**

Call 911 and contact MEDL as soon as possible.

## Covid- 19 Tip of the day:

Make you cell phone "Hands Free" of all hands except yours!

#### **Medical Incident Report**

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Commun	ications, I have a Red p	oriority pat	tient, unconscious, struct providing medical care."			Forest Road 1 at (Lat./Long.) This will be the Trout	
	ergency / Transport riority	□ RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE  Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.  □ YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.  Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.  □ GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport  Ex: Sprains, strains, minor heat-related illness.					
Nature of Ir	njury or Illness						
Mechani	& sm of Injury					Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)	
Transpo	ort Request					Air Ambulance / Short Haul/Hoist Ground Ambulance / Other	
Patien	t Location					Descriptive Location & Lat. / Long. (WGS84)	
Incide	ent Name					Geographic Name + "Medical" (Ex: Trout Meadow Medical)	
On-Scene Inci	dent Commander					Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)	
Patie	ent Care					Name of Care Provider (Ex: EMT Smith)
