Fire Weather Forecast

FORECAST NO: 32

PREDICTION FOR: Saturday-Saturday Night

DATE: October 10th, 2020

FORECAST ISSUED: 2000 October 9th, 2020

Fire: August Complex Northeast Zone UNIT: CA-MNF-000753

Incident Meteorologist: Eric Evenson

Signed: Eric Evenson

WEATHER DISCUSSION: ...STRONGER WINDS OVER THE MIDSLOPES AND RIDGETOPS TODAY...

Heads up for stronger winds across the midslopes and ridges today ahead of a cold front. Winds will be strongest from the west and southwest after 1100 and continue through at least 2000. Wind gusts to 20 mph will be possible across Branch 40, especially in DIVs M, Q, and T. Wind direction may align favorably for two drainages in particular, the upper portions of the Little Bear Wallow Creek and Beegum Creek, to enhance the winds. The best chance for rain will come between 1100 and 1700 with Branch 31 having the best chance to see precipitation. Amounts will be light however with a tenth of an inch or less expected. Noticeably cooler temperatures and higher humidities are expected today and tonight. Winds will gradually become northwest early Sunday morning and remain gusty.

TODAY:

Becoming cloudy with rain showers possible between 1100 and 1800. Rainfall amounts will be a tenth of WEATHER:

an inch or less.

3000 feet: 60-64° MAX TEMP:

5000 feet: 56-60°

MIN RH:

3000 feet: 58-62%

5000 feet: 61-65%

CHC WTG RAIN: 40%

Haines Index: 3

WINDS: (20 FEET) 3000 feet: Downvalley/downslope 2 to 4 mph, becoming upslope/upvalley 4 to 8 mph after 1200.

5000 feet: Branch 31: South-Southwest 4 to 8 mph until 1100, then west-southwest 8 to 12 mph with gusts to 16 mph. Branch 40: South-Southwest 4 to 8 mph until 1100, then west-southwest 10 to 15 with

gusts to 20 mph, especially over Divisions M,Q, and T.

MIXING HEIGHT: Rising to 3000 feet by 1300.

TRANSPORT WIND: West-Southwest at 8 to 12 mph.

VISIBILITY: Improving as smoke gets moved out of the deeper valleys.

TONIGHT:

Becoming partly cloudy. WEATHER:

MIN TEMP: 3000 feet: 36-40°

5000 feet: 40-44°

MAX RH:

3000 feet: 75-80%

5000 feet: 65-70%

CHC WTG RAIN: 0%

Haines Index: 3

WINDS:

3000 feet: Downvalley/downslope winds 3 to 7 mph.

5000 feet: West-Northwest 6 to 10 mph with gusts to 14 mph until 2400, then 4 to 8 mph with gusts to 10

mph.

TRANSPORT WIND: West-Northwest 5 to 9 mph.

INVERSION: Inversion develops after 0300.

EXTENDED OUTLOOK: Sunday through Thursday: Winds will be gusty from the northwest along the midslopes and ridges on Sunday. Temperatures will be slightly warmer and relative humidties lower than Saturday. Warming and drying trend develops early next week with more noticeable warming/drying for back half of next week. The potential for offshore winds may develop late in the week.

FIRE BEHAVIOR FORECAST TYPE OF FIRE: Wildfire

FIRE NAME: August Complex-Northeast OPERATIONAL PERIOD: Day/Night shift 10/10/2020

DATE ISSUED: 10/9/2020 **TIME ISSUED:** 2000

UNIT: Shasta-Trinity National Forest Prepared by:_/s/ Ryan Jones_____

INPUTS

WEATHER SUMMARY: See fire weather forecast for details

**Strong winds over the mid-slopes and ridgetops today ahead of the frontal passage.

Cooler temperatures and higher humidities.

FORECAST NUMBER: 32

Fuels: At all elevations, fuels are <u>Critically Dry</u> in all size classes, both live and dead. Fine fuels: 6%-exposed and 6-8%-shaded; 1000hr 9%, ERC-G Aug SIG 68 (90th percentile).

FIRE BEHAVIOR

OUTPUTS

GENERAL: Fire activity is expected to be active with wind/slope alignment or any smoke clearing midslope to the ridge tops occurs. Probability of ignition is slightly less than the previous shift but still high and spotting could be problematic depending on distance from resources and the availability of aircraft due to smoke impacts.

Rates of spread and flame lengths are representative values with wind/slope alignment

Spotting distance: (.2 to .3) miles. **Probability of Ignition:** 60-80%

Timber-Shrub: Head fire ROS-(15-22 ch/hr), FL(5-11 ft) **Shrub:** Head fire ROS-(77-120) ch/hr, FL(14-25 ft) **Grass:** Head fire ROS-(22-38) ch/hr, FL (2-5 ft)

SPECIFIC:

Branch 31-. Fire will continue to be active in the upper portion of Little Bear Wallow creek area with SW winds the fire will be exposed and could make a significant push to the NE causing potential issues along the 14 road with higher forecasted winds. In the Rattlesnake creek area along on the FS57 road there is still scattered heat and potential for the fire threaten Post Mountain but area should be partly sheltered from the SW winds with any push being more cross-slope to the east in the drainage.

Branch 40- Fire activity in the upper areas of the North Fork of Beegum, Middle Fork Beegum, Texas Chow, Dark Canyon creeks, and the East Fork of the South Fork of the Trinity River will continue to be active as pockets of fuel clean up NW of the Buck fire scar. SW winds have the potential to push the fire down the Middle Fork Beegum Creek drainage and across slope around North Star and Round Mountains. Fire activity from DP-145 to DP-135 is expected to be minimal with scattered heat.

Night Operations-Fire behavior is expected to be moderate overnight as temperatures drop and humidities increase with the storm passage. If moisture is light and winds continue to be strong there's potential for down slope down canyon winds to push fire spread down the drainage of Beegum creek even with the presence of smoke inversions. Night time winds should be favorable for both Little Bear Wallow and Rattlesnake Creek areas pulling smoke back down drainage.

AIR OPERATIONS:

Sunrise: 0716 **Sunset**: 1838

Expect visibility to be better today with the stronger winds clearing smoke out of the deeper valleys today. Higher winds could be problematic for operations.

SAFETY

Pay attention to where the fire is in relationship to wind flow, slope and your position before engaging.

6. Control Operations/Work Assignments:

TASK: Resource accountability. Assess structure protection opportunities by deliberately analyzing probability of success given current and expected fire behavior. Assist other divisions as requested. Develop plan for containment lines N of Hwy 36.

PURPOSE: Minimize structure loss in the Forest Glen area, protect Rowdy Bear and Hayfork communities.

END STATE: Structure loss is minimized. Values at risk are minimally impacted by fire.

7. Special Instructions:

For urgent access through any construction delay on Hwy 36 near Dinsmore, contact Lou Robertson of Mercer Frazer Construction at 707-599-6372.

6. Control Operations/Work Assignments:

TASK: Resource accountability. Assess structure protection opportunities by deliberately analyzing probability of success given current and expected fire behavior. Assist other divisions as requested. Develop plan for containment lines N of Hwy 36. PURPOSE: Minimize structure loss in the Forest Glen area, protect Rowdy Bear and Hayfork communities. END STATE: Structure loss is minimized. Values at risk are minimally impacted by fire.

7. Special Instructions:

Read Special Instructions: Sensitive areas are flagged in yellow/white candy striped flagging for avoidance.

Control Operations/Work Assignments:

TASK: Resource accountability. Identify, assess and provide viable and attainable contingency options north of Hwy 36. Reduce the impacts to values at risk and minimize fire growth.

PURPOSE: Protect values at risk along the HWY 36 corridor.

END STATE: Structure loss minimized. Values at risk are minimally impacted by fire.

7. Special Instructions:

For urgent access through any construction delay on Hwy 36 near Dinsmore, contact Lou Robertson of Mercer Frazer Construction at 707-599-6372.

6. Control Operations/Work Ass	ignments:							

TASK: Resource accountability. Structure prep in potentially impacted areas. Identify, evaluate and implement strategies and tactics to keep fire south of Hwy 36. Assist other divisions as requested.

PURPOSE: Minimize fire growth to the northeast. Fire remains south of control lines so Hwy 36 is not impacted.

END STATE: Fire remains south of Hwy 36.

7. Special Instructions:

Read Special Instructions: Sensitive areas are flagged in yellow/white candy striped flagging for avoidance.

6. Control Operations/Work Assignments:

TASK: Resource accountability. Mop up to the extent necessary to keep fire within current containment lines. Continue to patrol, hold, and monitor. Assist other divisions as requested.

PURPOSE: Prevent fire from crossing 35 Road to Stuart Gap.

END STATE: Contained, controlled and in placed in a monitor and patrol state.

7. Special Instructions:

Continue to backhaul unnecessary equipment and trash.

*Loan/Lease Only

6 Control Operations/Work Ass	ignments:							

TASK: Continue direct and indirect line construction. Prepare for burnout to keep square with fire edge. Coordinate with NW Zone for all burning operations. Assist other divisions as requested. Develop plan for containment lines N of Hwy 36.

PURPOSE: Minimize structure loss in the River Spirt, Indian Valley, Post MTN, and Hayfork communities.

END STATE: Structure loss is minimized. Values at risk are minimally impacted by fire.

7. Special Instructions:

For urgent access through any construction delay on Hwy 36 near Dinsmore, contact Lou Robertson of Mercer Frazer Construction at 707-599-6372.

Radio Cloning Procedures:

- At operational briefings, one representative from each module should be cloned by Communications Unit, then subsequently share the radio code plug/program with the module.
- Cloning procedure:
 - 1. COMT puts on gloves and face covering.
 - 2. COMT clones radio (COMT is only person that handles cloning cable and cloner).
 - 3. COMT wipes down customer radio with appropriate disinfecting solution or wipes and returns the radio.
 - 4. COMT wipes down cloner, cable, and gloves.
 - 5. Move on to the next radio.
- Module representatives, single resources, and cooperators will maintain social distancing as they line up for service.
- As practical, cloning areas should be set up outdoors in wellventilated areas with enough space for social distancing.

FINANCE MESSAGE

All incident personnel (crews, contractors, and overhead resources) need to turn in daily CTR's and Shift Tickets to one of the following locations:

- Hayfork Spike
- ICP Redding

Time can also be submitted electronically via email to:

2020.elkhorn.finance@firenet.gov

In the email subject line, please put your resource number, your company/engine name, followed by the date. (Example: E-1045 South River Fire Rescue 10-07-20).

Shift Ticket Requirements:

If you have equipment or an engine that has a secondary rate for mileage, additional operators (i.e., crew) and/or a lowboy (or other transport), please ensure your shift tickets reflect the necessary justification for both the start and stop odometer readings, any additional operator names, and "transport attached" if applicable. Also enter your "current" E# in the upper right corner of the ticket.

If you are a contractor who is purchasing fuel in the field, please make sure and keep a copy of your fuel ticket to turn in to finance during your demob so that the fuel deduction can be made on your final invoice.

CTR Requirements:

Any shift times that exceed 16 hours unless already authorized by the incident, must have a shift justification form attached.

Please ensure you have accurately notated any travel time, hazard pay, or meal breaks with justifications as needed.

Finance Demobing:

If you are within two (2) days from your scheduled demob date, please take a few minutes to review all your time submissions and ensure that they were properly completed and signed. Any missing CTRs/Shift Tickets or other finance documents will delay your demob process.

Finance Section
August Complex - Northeast Zone
ICP Finance: (530)-200-2164

Hayfork Spike Finance: (984) 227-1448

FINANCE CHECK IN

Due to there being so many incidents that have rolled into the August Complex we are asking all resources to complete this form and send to Finance. You can complete and email to 2020.elkhorn.finance@firenet.gov, drop it off with Logistics at either camp or give to your Division Supervisor to get to Finance. We want to ensure we have all resources accounted for in our system and getting everyone's time posted correctly so that you can get paid.

TRAINING MESSAGE - Trainees - please SIGN IN with the Training Specialist, by accessing the fillable Trainee Sign-In Form here:

ONCE YOU HAVE SIGNED IN.....at any time during the during the incident:

If Trainee or Trainer is demobing: Trainers – Trainer needs to fill out the relevant parts of the Task Book and do an Incident Personnel Performance Rating and discuss the assignment with the trainee.

If Trainee is staying: Trainee should contact Training Specialist to discuss plans for remainder of the assignment.

If Trainee is demobing: Trainee should access the Trainee SIGN OUT form here:

If you have any questions or need to discuss your assignment, please contact the Training Specialist

Don Washco, 623-695-6487 Don Washco@firenet.gov

Human Resource Message

Employee welfare is a high priority. The team practices open communication and deals with misunderstandings swiftly and up front.

In the era of COVID-19, we must be diligent in caring for ourselves and others. COVID-19 is a respecter of no one. Wearing your mask appropriately, washing your hands and maintaining physical distancing is a way of showing respect toward others. We all want to go home safe.

We each need to take responsibility for our own actions, keep our personal opinions to ourselves when they can be hurtful toward another person.

Most of all, set an example by squelching inappropriate comments or behaviors as it is non-productive to performance or the incident.

If you are unsure if your actions are inappropriate you can fall back on this advice: "When in doubt-Don't!"

Larry Sandoval Human Resource Specialist 213-431-4031

Great Basin Team 2 Expectations 2020 Safety is the Team's Number One Priority Everyone is a safety officer—See It, Say It, and Fix It!

The Team is committed to identifying clear Task, Purpose, and End State that achieves the Agency Administrator's direction and objectives in a timely and cost effective manner.

The Team provides every person associated with the incident a safe, productive, and supportive work environment.

The Team operates in a transparent manner, facilitating open communication and dialogue up, down, and across the chain of command, with active listening and opportunity for discussion and collaboration.

Here are a few ways you can help the Team create an atmosphere of Duty, Respect, and Integrity as outlined in the Incident Response Pocket Guide (IRPG):

If you Need to Leave the Incident Environment when Off Duty: Notify your supervisor of destination and estimated time of return in the event you are needed for duty prior to expected time.

Alcohol /Illegal Drugs / Fitness for Duty Alcohol and illegal drugs are not permitted within the incident environment. Be ready, willing, and able to perform your duties. If you are unable to perform your duties, you may be released from the incident with the home unit or employer being notified of the circumstances.

Work Environment/Human Relations:

Conduct yourselves as professionals and maintain a positive, non-hostile work environment with mutual respect. Sexual harassment, discrimination, acts of reprisal or any inappropriate behavior that violates human rights, the provisions of equal employment opportunity (EEO), or ethics and conduct standards will not be tolerated. If you need clarification of these expectations, contact the Human Resource Specialist.

Your actions in the community outside of the incident environment must also conform to these standards while assigned to this incident. Your integrity is shown by obeying the law and following local rules and ordinances. Non-compliance with these expectations could result in your being released from the incident with the home unit or employer being notified of the circumstances.

Work / Rest Guidelines:

Any shift times over 16 hours require written justification and approval by the appropriate Section Chief on the Crew Time Report, and will be reviewed by the Incident Commander.

Performance Evaluations:

Performance Evaluations will be completed for all trainees and contractors (including ADs). Any unsatisfactory performance will be documented on an evaluation. It is your responsibility to ensure that your supervisor has completed an evaluation.

Use of Social Media on Wildland Fire Assignments:

Firefighters and Incident Management Team (IMT) members should be aware that existing agency-specific ethics and conduct regulations and restrictions governing the use of social media by federal employees on fire assignments apply.

Only authorized employees designated by the hosting unit may represent the government on public social media websites. If you choose to post to a social media website you should have a disclaimer that clearly states the views or opinions that you express are yours alone and do not represent the views of your agency or the IMT.

However, anything that you do post regarding wildland firefighting and the agency you work for reflects on that agency, the IMT you are assigned to and all wildland firefighters.

Social media sites are regularly monitored by federal agencies and employees may be held accountable for inappropriate conduct or ethics. When in doubt, don't post!

I hope you have a safe, productive and rewarding experience here. If you have any needs or concerns that cannot be addressed by my Command and General Staff, please feel free to visit with me.

Tony DeMasters

Incident Commander

DMOB PROCESS - Northeast Zone

PLEASE READ THE FOLLOWING PROCEDURES IF YOU ARE DEMOBING IN THE NEXT FOUR DAYS

Resources that are flying need to contact DMOB 48 hours prior to DMOB Date so flight can be arranged. We will need your NAME, as it appears on your picture ID, your Date of Birth, Gender, and a few other questions.

PAPERLESS DEMOBILIZATION CHECKOUT PROCESS:

1.) Visit the DMOB Unit Last for final checkout.

At each of the following Units, take a picture of the Unit Leads signature after you have been cleared by them for DMOB.
Supply Communications Ground Support
Weed Wash
**IF YOU HAVE A RENTAL VEHICLE CHECKED OUT THROUGH THIS FIRE. PLEASE TELL GROUNI SUPPORT **
2.) That Could be ill for any and time a growth in ICD at Haliday law 1000 Hillton Drive

- 3.) TIME Complete all finance and time paperwork in ICP at Holiday Inn, 1900 Hilltop Drive, Redding, CA.
- 4.) Once cleared from all units, present your pictures to the DMOB unit for final approval and checkout.
- * If you do not have all pictures, you will not be cleared for demobilization.
- * If you do not have the ability to take pictures please let your line supervisor know.
- **IF YOU HAVE FURTHER DMOB QUESTIONS, PLEASE CONTACT LORIE AT: 925-588-6734 or 801-710-7043

HEALTH AND SAFETY MESSAGE

SAFETY starts with **YOU**

We are <u>ALL</u> accountable for <u>SAFE</u> behaviors For Day/Night Operations: October 10, 2020

INCIDENT: August Complex North East Zone

TIME: Day-0700/ Night-1800

Major Hazards and Risks:

- DRIVING: Drive defensively, be aware of <u>oncoming traffic</u> on all roadways and fire area. SLOW DOWN and SHARE the ROAD.
- Heat Related Illness (HRI): Take care to monitor the health and welfare of yourself and crew, drink plenty of water/fluids, take frequent breaks, get 8 hours of sleep, and get enough food.
- HAZARD TREES: Look up, Look down, Look around for signs of fire weakened trees.
- EXTREME SMOKEY CONDITIONS: Maintain awareness of changing conditions and Visibility while driving!

Fire Order of the Day:

Give clear instructions and be sure they are understood.

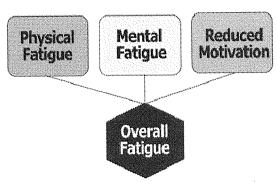

- Brief others as needed.
- Be clear and specific.
- Don't assume they know what you mean.

Hazard Trees

- Follow "Hazard Tree Safety" guidelines IRPG page 22
- Post lookouts or spotters in mopup areas.
- Don't take breaks in high concentrations of hazard trees
- Consider the effect of wind on hazard trees
- Remember the hazard zone is 2 ½ times the tree height
- Use qualified fallers to mitigate snags

Fatigue Management

- Fatigue management goes beyond counting hours on timesheets, it is individualized and overt.
- Cumulative fatigue is dangerous. It prevents sound decision-making, confounds situational awareness, and dulls reaction times. It is as problematic in the office as it is on the fireline.
- Cumulative fatigue is manifest in the explanations used when folks are asked to take a break, or take a day off..."I don't have time." "There is too much going on." "As soon as things calm down a bit."

Please take the time to watch out for each other!

Your Safety Team: Laney Cutshaw, Paul Guachay, Brad Wagner Our Safety Record to date is GREAT keep it up. "Safety in Leadership and Actions will benefit EVERYONE"

Driving SafetyVehicles/Roads Category

Driving is one of the most hazardous things we do because we literally perform the task hundreds of times in the course of our daily lives – we tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.

- To be a safe driver you have to *want* to be one. Take a good hard look at your driving habits. Are you training yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and maintaining safe following distances?
- Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Since the average adult attention span is 15-20 minutes we must develop techniques that allow us to refocus our attention on our driving.
- Many things can lure our attention away from our driving such as fatigue, eating and drinking, reading directions and maps, writing, cell phone and radio use, conversation within the vehicle, and music.
 - ✓ Drive only when you are well-rested and alert and avoid driving during the hours of 10:00 PM and 6:00 AM. Take a 10- to 15-minute break after every 2 hours.
 - Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.
 - ✓ Never drive when taking medications that make you drowsy.
 - ✓ Delegate navigation and communication to a passenger or pull over.
 - ✓ By constantly moving your vision, checking mirrors and distant road conditions, you can avoid highway hypnosis and daydreaming.
 - ✓ Avoid eating or drinking while driving.
 - ✓ When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.
 - ✓ Switch off driving with others if multiple people are in the vehicle.
 - ✓ Do not be in a hurry, be patient.
- Safe driving starts with a safe vehicle. Something as simple as under-inflated tires can have serious consequences. Before operating any vehicle, do a walk-around to look for potential problems, make sure the lights and blinkers work, and adjust your seat and mirrors. If it is the first time you have driven the vehicle, make yourself aware of where everything is.

Resources: Engine Rollover: Lessons Learned Video, Road Learning, Fall 2012 Two More Chains: "Wings, Wheels, and Rotors", LLC Annual Incident Review Summaries

2020 COVID-19 Guidance

LEADERS INTENT:

- Incident responders have a DUTY to safeguard each other and the public we serve from hazards. It is through our RESPECT for everyone's health and safety that we follow these mitigations, and we rely on everyone's INTEGRITY to ensure that we do so and expect the same of others.
- All incident personnel are expected to conduct self-screening of their health on a daily basis. Individuals experiencing any of the symptoms should take precautions to self-isolate and immediately report symptoms to your supervisor and to the IMT's Medical Officer or MEDL for assessment.
- All incident personnel will adhere to the Module of One concept to the extent practical.
- All incident personnel and visitors will wear cloth face coverings when six feet of social distancing cannot be maintained with others outside of their Module of One.
- All incident personnel and visitors are required to wear cloth face coverings when attending briefings or meetings in common use areas at ICP and camps.
- All incident personnel and visitors will wear cloth face coverings whenever they enter an enclosed incident facility, such as yurt, tent, building, restroom facility, or other common-use areas regardless of proximity to other people.

ALL RESOURCES (IMT Members, Single Resource, Operational & Support resources):

• Each resource should arrive at the incident "self-sufficient" for 72 hours, including food, water, sanitizer or wipes, batteries, etc.

ICP AND CAMPS

- Access into ICP and some base camp facilities may be restricted to essential personnel only, i.e. module supervisors and trainees.
- To promote isolation and social distancing, operational resources will be assigned to camps and spike camps dispersed on the incident.
- Food will be individually packaged and delivered to drop points for distribution. Special dietary needs should be reported to your line supervisor.
- Daily operational briefings will be conducted via radio or virtually. Only supervisors and trainees should attend in-person briefings.

¹ Symptoms of Corona virus
https://www.cdc.gov/corona virus/2019-ncov/symptoms-testing/symptoms.html

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
* Take temperature with no-touch thermometer, if available *

Instructions for Screening

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries:	DO NOT ANNOUNCE
Consider adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained.	Ask individual to step aside and follow the steps below.
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	

Steps to follow
Escort symptomatic individual to isolation area.
Isolation support personnel should begin documentation.
Have symptomatic individual contact Supervisor for further direction.
Notify COVID Coordinator at 910-973-5027.
Have individual transported as appropriate.
Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

¹ Symptoms of Coronavirus https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html

INCIDENT SAFETY ANALYSIS 215a

August Complex North East Zone CA-000753 - Saturday, October 10, 2020

	gast complex itere	
8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
ALL	Hazard Trees	 Follow "Hazard Tree Safety" guidelines, IRPG page 22. Post lookouts, or use a spotter in mop-up areas with personnel. Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during high wind events. Remember that the hazard zone extends a minimum of 2 1/2 tree heights.
ALL	Driving & Traffic	~ Practice "Defensive Driving" techniques traveling on all roads and city streets. ~ Use spotters when backing. ~ Honk horn to alert personnel when backing. ~ Keep clutter off dash and inside cab. ~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts. ~ Always use headlights. ~ Yield to pedestrians and bicycles. ~ Observe posted speed limits. ~ Use the 3 second rule for following distance when driving. ~ Use chock blocks, turn wheels into hill. ~ Avoid distractions (eating, cell phones, radio). ~ Ensure that windshields are kept clean of dust and bugs.
All	Extreme Fire Behavior	 Share weather observations with all personnel assigned to division. Establish "Trigger Points" to withdraw. Use "Risk Management" process prior to engaging in suppression actions, refer to page 1, IRPG.
All	Heat Related Illness (HRI)& Dehydration	~ Drink Fluids throughout operational period (6-8 qts/shift).
ALL	Chain Saw Operations	 Follow "Hazard Tree Safety" guidelines, IRPG page 22 Look up, Look down, Look around for hazard tree indicators. Only fell and buck trees within your expertise, and training. Follow "Procedural Felling Operations" on page 79 in IRPG. Do not fall trees during high wind events. Ensure proper use of all required PPE.
All	Helicopter Operations	 Stay clear of all bucket drops when suppression actions are in place and allow 1 minute prior to re-entry. Monitor A-G communications. Follow aviation safety guidelines in IRPG and IHOG.
All	Heavy Equipment Operations	 Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. Use a spotter when backing. Avoid working below heavy equipment.

INCIDENT SAFETY ANALYSIS 215a

ALL	Bees, Ticks, Mosquitoes	 Canvas crew members for those with known allergic reactions to stings. Ensure crew members have medication pens if needed. Perform daily self inspection. Use repellent as necessary. Advanced Life Support, multi-dose epi and airway protection. Keep affected area clean and bandaged. Be extra careful when eating and/or drinking to avoid stings to mouth and throat.
ALL	COVID-19	 Follow local and CDC guidelines. Practice social distancing and hand washing guidelines. Wear face coverings in designated areas and when social distancing is not possible. Follow module of one concept. Minimize number of indivuals at briefings and meetings. Monitor symptoms of all resourses daily and report concerns to COVID Coordinator.
ALL	Air Operations	 Follow " Aviation Watch-Out Situations" on page 44, IRPG. Don't plan on air resources for medical transport or resupply. Refer to page 57, IRPG for directing bucket drops. Ensure positive communication with all air resources.
ALL	ATV/UTV use	 Ensure equipment is inspected and safe to use. Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions. Ensure operator is trained and certified to operate. Ensure operator has proper PPE according to the Redbook and/or RMA. Question if it is mission critical.
ALL	Injury & Medical Emergency	 Assist injured employee appropriate medical care. Use EMT's on Division for initial care. Follow medical protocol as outlined in ICS-206 & IRPG Pgs 99-108
ALL	Unburned Area/Reburn Potential	 Monitor weather. Base actions upon observed and predicted fire behavior. LCES Checklist (IRPG pg. 6). Look Up, Down and Around (IRPG pg. 2-3).
ALL	Power Utilities	 Notify all personnel of down electrical lines. Refer to the IRPG page 24 for Power Line Safety. Always treat downed wires as energized. Identify and avoid high tension transmission lines. Identify and avoid high pressure natural gas lines. Identify and avoid damaged gas service near structures. Be aware of utility restoration in your work area.
Branch 31	Firing Operations & Devices	 Only personnel trained in the use of each device will be authorized to use firing equipment. Ensure all personnel are aware of firing operation that may affect them. Wear appropriate PPE. Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.
Branch 31,40 Mop-up & Rehab ~ Do not work above or below personnel during rehab/ ~ Alert crew personnel of rolling debris by yelling to aff ~ Position debris that could roll vertically on slope. ~ Wear eye protection.		~ Wear eye protection.
Branch 31,40	Night Operations	 Maintain high visibility in work area and wear vest while in roadway. Use glow sticks to mark hazards. Ensure personnel have a personal light (headlamp). Watch for signs of fatigue. Take breaks away from areas of known hazard.
All	Poisonous Plants	Identify and Avoid hazard areas.Launder clothing.Shower frequently.

INCIDENT SAFETY ANALYSIS 215a

All	Steep Terrain & Rolling Debris	 Maintain 8'-10' spacing when working & walking. Don't work above any personnel. Be on the lookout for rolling rocks, debris, or burning material. Evaluate necessity to send personnel in areas with limited access. Post lookouts (IRPG pg 6).
All	Fatigue & Over Exertion	 Drink 1 quart of water each hour during and after work. Rotate crews out of smoky areas. Set a reasonable work pace and allow adequate rest breaks while on the project. Stagger work crews start time to limit fatigue. Use buddy system to monitor personnel of heat related and fatigue issues. Follow work / rest guidelines.
All	Indirect Fireline	Post lookouts, identify escape routes and safety zones (IRPG pg. 6).Review "Strategy/Indirect Attack" (IRPG pg. 87).
All	Structure Protection & HAZMAT	 Review "Wildland Urban Interface" Watch outs, IRPG page 12. Use "Structure Assessment" checklist, IRPG pages 12-16. Follow "HAZMAT Incident Operations" on pages 34-36 in IRPG.
ALL	Wildlife & Livestock	 Watch out for wildlife & livestock inside fire area and along roadways. Clean up all debris and trash during each operational period. There are Moose in the area with calves. Avoid getting between the female and calf. Be Bear Aware.
ALL	Communications	 Maintain communication with aviation resources, and suppression organization. Ensure all know frequency and protocol for contacting resources. Utilize the ICS 205. Don not rely on human repeaters.
ALL	Firefighter & Public Smoke Exposure	 Use warning lights and provide traffic control on roadways during smoky and night operations. Rotate crews out of smoky areas during firing and mop-up operations. Contact Communications when firing operations are initiated.
Branch 40	Gas Lines	Identify locations before operations in areas of concern.Monitor depth before using Heavy Equipment in areas of concern.

Special Instructions:

When calling in an Emergency:

- 1) Slow down, speak clearly.
- 2) Identify who, and where you are.
- 3) What the emergency is (paint a good picture.)
- 4) What the needs are i.e.. Helicopter / Ambu / REMS / etc..

Timothy Egan (MEDL) 775-232-3515 Bruce Toy (MEDL) 775-815-4888

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE
"MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

	MEDICAL EN	ERGENCY TO INITIA	IE KESPUNSE I	KOM IMI COMMON	CATIONS/DISPATON.
