INCIDENT ACTION PLAN

AUGUST COMPLEX SOUTH ZONE

CA-MNF-000753 P5NFP4 (0508)

FRIDAY, OCTOBER 30, 2020 DAY OPERATIONAL PERIOD 0700-1900

COVID-19 MITIGATION ACTIONS AND LEADER'S INTENT

- Assigned resources will practice social distancing (to the extent possible) and be in alignment with the "module of one" concept. When interacting outside the "module of one" face-coverings are required; this includes ICP, established businesses and fireline interactions outside of the "module of one".
- Frequent handwashing is encouraged.
- Please utilize the virtual check-in and demob procedures to reduce potential exposures.
- All personnel entering the ICP will be temperature screened by Incident Medical Staff.

INCIDENT Weather Forecast

FORECAST NO:

NAME OF FIRE: August Complex South

PREDICTION FOR: Friday 0700 - 1900

UNIT: Mendocino National Forest

SHIFT DATE: October 30, 2020

Incident Meteorologist: Dan Harty

FORECAST ISSUED: 1900, October 29, 2020

... Very dry with well above normal daytime temperatures...

WEATHER DISCUSSION: Very dry and unseasonably warm conditions will continue with afternoon temperatures 10-15 degrees above normal for this time of year. Afternoon humidity will fall into the single digits again in some areas with poor overnight recovery over higher elevations. Winds will remain fairly light with a small uptick over the higher elevations.

WEATHER FORECAST for FRIDAY:

WEATHER: Sunny, Very dry.

TEMPERATURES: 77-84 below 3000 feet; 67-77 above 3000 feet

HUMIDITY: 7-14%

20 FT WINDS:

RIDGETOP - West northwest 4-8 mph with gusts around 12 mph.

SLOPE/VALLEY - Upslope/upvalley 3-9 mph

WEATHER FORECAST for FRIDAY NIGHT:

WEATHER: Clear. Continued poor humidity recovery over ridges/upper slopes.

TEMPERATURES: 35-45 below 3000 feet; 45-53 above 3000 feet

HUMIDITY: 15-25% ridges and upper slopes; 41-51% valleys and lower slopes.

20 FT WINDS:

RIDGETOP - Northwest 5-10 mph with gusts around 15 mph in the evening decreasing to

4-8 mph after midnight.

SLOPE/VALLEY - Downslope/downvalley 2-8 mph.

<u>OUTLOOK for Saturday and Sunday:</u> A very dry air mass will remain over the fire area through the weekend. Poor humidity recovery over the higher elevations will be followed by very low afternoon RH. Well above normal temperatures and light terrain driven winds will continue.

Weather observations around the fire area.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 19	TYPE OF FIRE: Wildland Fire
FIRE NAME: August Complex South Zone	OPERATIONAL PERIOD: Day Shift, October 30, 2020
DATE ISSUED: October 29, 2020 UNIT: Mendocino National Forest	TIME ISSUED: 1900
UNIT: Mendocino National Forest	SIGNED: Mike Beasley, FBAN

INPUTS

WEATHER SUMMARY: For Specifics Please see the attached Incident Weather Forecast.

WEATHER: Little change from yesterday. Sunny, very dry.

MAX TEMP: 67-84° MIN RH: 7-14%

20 FOOT WINDS: Ridges: Variable 4-8 mph w/ gusts around 12 mph;

Slope/Valley: Upslope/upvalley 3-9 mph

Chance of Wetting Rain: 0%

FUELS: The fire is burning in mixed fuels, i.e. grasses, duff, brush, and conifer at the lower elevations with mixed conifer in the upper elevations. Fuels remain extraordinarily dry for this dime of year.

Ignition Receptiveness: Probability of Ignition @ peak of the burn period: Below 3000': 86-88% unshaded/80-82% shaded, Above 3000': 83-86% unshaded/77-80% shaded

<u>Dryness:</u> Dead and down fuel moistures :1-hour 3%, 10-hour 3-4%, 100-hour 4-8%, and 1000-hour <10%.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

No perimeter growth is expected. Dry conditions will continue to encourage emergent hot spots in dozer berms, logs, standing snags, and a even a thin layer of litter from scorched needles that have been recently blown off the standing trees. This smoldering fire behavior will continue in the Hell Hole Canyon area (Division S). The fuels outside of the fire perimeter will remain dry and highly receptive to fire. Any escaped fire would likely only exhibit short-range spotting. Probability of ignition will continue to decline with a gradual increase in fine fuel moisture later in the week, as onshore flow returns.

SPECIFIC: Division S: Smoldering within the perimeter in stumps, logs, and in aerial fuels (candles). Watch for newly available fuel from needlecast and freezing temperatures. Any fire moving into new fuels will exhibit active fire behavior w/ short-range (< ½ mile) spotting.

All Other Divisions: Interior smoldering.

AIR OPERATIONS: No issues.

"The ingredients of health and long life are great temperance, open-air, easy labor, and little care."

- Philip Sydney

"Outstanding leaders go out of the way to boost the self-esteem of their personnel. If people believe in themselves, it's amazing what they can accomplish."

- Sam Walton, founder of Walmart and Sam's Club

portuguity work Assignments.

- · Hold fire within the current footprint.
- · Back-haul all excess equipment and supplies.
- Communicate with READs for priority repair assignments.
- Consult READs on the repair standards.

7. Special Instructions:

- · Utilize Risk Assessment Tool before tactical engagement.
- · Do not deviate from planned travel route to and from worksite.
- · Disengage all resource in localized threat areas.
- · Complete logistical duties, such as fueling, in the morning outside of spike camp.
- · Follow CDC guidance and established local, state and national guidance to ensure a healthy work environment.
- Adhere to the "module of one" concept to reduce physical exposure and transmission of COVID 19.
- · Resource Advisors will be operating in multiple divisions. Check in & out with DIVS each time they enter and exit.
- · Resources returning from R&R or swapping crew members MUST CALL CHECK-IN prior to shift.
- · Communicate radio dead spots to DIVS.
- · Ensure communication with divisions on adjacent Zones.
- ** Indicates Task Force

DOZER/PLOW OPERATIONS

Vehicles & Roads Category

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety.
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.

August Complex South Zone Fire COVID-19 PREVENTION PROCEDURES

DAILY SAFETY & HYGIENE

- FREQUENTLY WASH HANDS WITH SOAP & WATER.
- · Regularly use hand sanitizer.
- Social Distance (6 feet apart) whenever possible.
- Facial coverings/masks are required at all times inside (any structures) & when social distancing is not possible outside.
- · Use shower and laundry facilities when available

DAILY SCREENING REQUIRED

- · All incident personnel or resource supervisors are required to complete a DAILY SCREEN ON EACH OTHER at the BEGINNING of EVERY work day.
- IF ANY QUESTIONS, CONTACT COVID COORDINATOR: (505-506-7170) or MEDL (406-544-3070)

COVID-19 SIGNS & SYMPTOMS

- -TEMPERATURE ABOVE 100°F (38°C)
- -SORE THROAT
- MUSCLE ACHES
- -VOMITING

- FATIGUE
- -CHILLS
- COUGH -HEADACHE
- -SHORTNESS OF BREATH -DIFFICULTY BREATHING - DIARRHEA -ABDOMINAL DISCOMFORT
- NEW ONSET LOSS OF TASTE OR SMELL

PERSONNEL WITH ILLSIGNS OR SYMPTOMS

- PLACE MASK OR AVAILABLE FACIAL COVERING ON YOURSELF AND INDIVIDUAL **IMMEDIATELY**
- · ISOLATE INDIVIDUAL FROM OTHERS (6 FEET MINIMUM) AND KEEP ENTIRE CREW INTACT
- REPORT OVER COMMAND CHANNEL AS AN IWI ILL PERSON AND REQUEST LINE MEDICS
- ASK THE INDIVIDUAL FOR COVID LIKE SYMPTOMS
- · HAVE ASSOCIATED CREW MEMBERS & OTHERS IN CONTACT DON N95 MASK OR AVAILABLE **FACIAL COVERING**
- TREAT LIFE THREATENING ISSUES OR COMPLAINTS AS APPROPRIATE
- REMAIN AT LOCATION AND WAIT FOR MEDICAL PERSONNEL

IF YOU HAVE HAD CONTACT WITH SOMEONE IN THE PAST 14 DAYS WHO HAD ANY OF THE ABOVE SIGNS OR SYMPTOMS CONTACT THE COVID COORDINATOR: (505-506-7170) or MEDL (406-544-3070)

FINANCE AUGUST COMPLEX SOUTH REMOTE PROCESSING PROCEDURES

FINANCE CHECK-IN & DO	DCUMENTATION NEEDED
OVERHEAD-FEDERAL: Resource Order CTRs	CREWS – AD: Resource Order
OVERHEAD-AD: Resource Order Casual Hire Form w ECI# CTRs	Manifest w/ AD Rates and ECI# CONTRACTORS: Resource Order Agreement: Signature Page, Page that includes the ordered resource & the Page
FEDERAL ENGINES and CREWS: Resource Order Manifest CTRs	that includes DUNS and mailing address Completed SIGNED shift tickets COOPERATORS: Resource Order CTR's and/or shift tickets Agreement

How do I submit my time? There are two options:

1) Electronic submission (take a picture of the hard copy or use the electronic document and email to location below). *Preferred*

In the Subject Line include: CTR or Shift Ticket

Please make sure you add this because it sends it straight to the posting box for the Time Recorders. If not, there may be a delay.

2) Send a hard copy of CTR or Shift Ticket through divisions to the locations below.

Fire replacement items should be sent in via email 24 hours prior to demob.

Where to submit your time documents? Per the area you are working i.e. the IAP you are assigned, do not send to both email addresses.

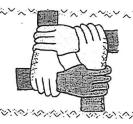

Zones	Email Address:	Phone	Location
	2020.augustcomplex.finance@firenet.gov	409-739-3298	Eureka
Hortificast	(phone number reflects for both East & West)	EQTR	
Northwest	2020.augustcomplex.finance@firenet.gov	916-591-9006	Eureka
7,0,0,0	(phone number reflects for both East & West)	PTRC	
South	2020.augustcomplex.finance.south@firenet.gov	510-507-1560	Willits

Reminder: Ensure Resource Order Number is on all documents submitted.

**Federal Employees use P5NFP4<u>21</u> starting 10/1/20 in your Time/Payment System or your new Fiscal Year 21 indicator.

Human Resource Message

Our time is getting shorter... How about our Tempers???

Some of us can see the end in sight and are ready to leave; some will be staying longer.

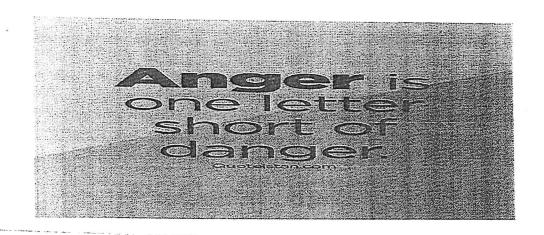

With the repetitive work routine and the changes taking place, it is easy to get on edge and "on the edge" with each other. Let's guard against that, and try to help each other out. Take care and be safe.

A quick temper will make a fool of you soon enough. ~Bruce Lee

Men are like steel. When they lose their temper, they lose their worth. - Chuck Norris

He that is slow to wrath is of great understanding: but he that is hasty of spirit exalteth folly. – Proverbs 14:29

A soft answer turns away wrath, but a harsh word stirs up anger. - Proverbs, 15:1

To order crews, overhead, equipment, supplies and S# requests

Please email your requests to <u>2020.augustcomplex.ordering.south@firenet.gov</u> using an electronic fillable ICS-213 based on Word document so the ordering manager can add an identifying number and make edits as necessary.

If you don't have a Word based ICS-213 email the above email and I can email a form to you. They are also available online from NWCG, FEMA and other sources.

Any issues just ask, I will work with you.

Some helpful tips to speed up the ordering process

Like orders can be combined on a single 213, but Overhead, Equipment, Crew and Supply orders need to be on separate 213s. These go to different people at dispatch when ordered.

At this time North Ops is requiring a minimum of 72 hours for date and time needed on resource requests. Providing a longer period of time increases the chances of getting a fill on your order. You may say will take sooner to ensure a resource does not wait until the date and time listed.

Local resources dispatched by CA-MNF can have shorter report times since they are handled at the forest level. Supply orders should allow at least 24 hours for delivery.

Name Requests

Name requests require a clear and defensible justification. Most California state and local government employees require an additional name request form.

Check the spelling of the name, and how they are listed in IROC (first and last only, middle initial, middle name, full name or shortened name (Dave or David) etc.

Ensure they are qualified for the position they are being requested to fill, that they are available and have checked with their supervisor before placing an order. Including the home dispatch and a contact phone number for the individual can speed up ordering.

Other considerations

Overhead - Approval for rental vehicle, laptop, cell phone, special equipment?

Equipment – 12 or 24 hour operational period? Will the transport stay with heavy equipment?

Supplies – Many requests for brand name items are no longer being accepted by the buying team, but you may suggest "like" Pilot G2 pen.

CHECK-IN PROCEDURES

Virtual Check-In: Please complete online check-in with your smart phone.

Use your Resource Order and Incident Qualification Card to complete the check-in information accurately. For CREWS, only the leader must check in online. For all other resources with multiple people per resource order number, all people should complete check-in.

1.SCAN THE QR CODE and COMPLETE the form in its entirety.

2.EMAIL RESOURCE ORDER AND MANIFEST TO:

or 2020.augustcomplex.finance.south@firenet.gov

If you do not have the capability or information needed to complete online check-in on your smart phone, please call or come to Check-In and someone will assist you with check-in. (510)507-1544

DEMOBILIZATION PROCESS

If you require AIR TRAVEL contact Demob at least 72 hrs in advance

 Email to Finance, final SIGNED times and contractor evaluations at:

2020.augustcomplex.finance.south@firenet.gov

- Please ensure all CTRs / shift tickets are emailed to Finance prior to coming in.
- Return any items checked out from Supply.
- Return any items checked out from Communications.
- Complete any required inspections at Ground Support. Scan QR code at Ground Support.
 - o All E-#s and C-#s must complete inspection.
 - Any O#s required by their cooperative agreement must complete inspection.
 - o For all other Federal O-#s, inspection is optional.

After completing the items above, scan the QR code below and answer all of the questions.

When all the questions are answered and submitted, call and verify all items above completed by the Demob Unit Leader at:

510-507-1526

Appendix A: Effective Waterbars

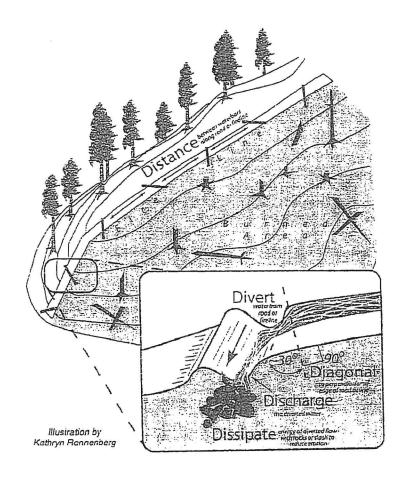

When locating and building water bars, place them the right **distance** apart, at a **diagonal** to the fireline, so that they **divert**, then **discharge**, then **dissipate** the energy of the flowing water. Be sure to make them deep enough so they'll be durable, and that soil does **not block** the water bar outlet. Waterbars should be dug as dips, not constructed from fill.

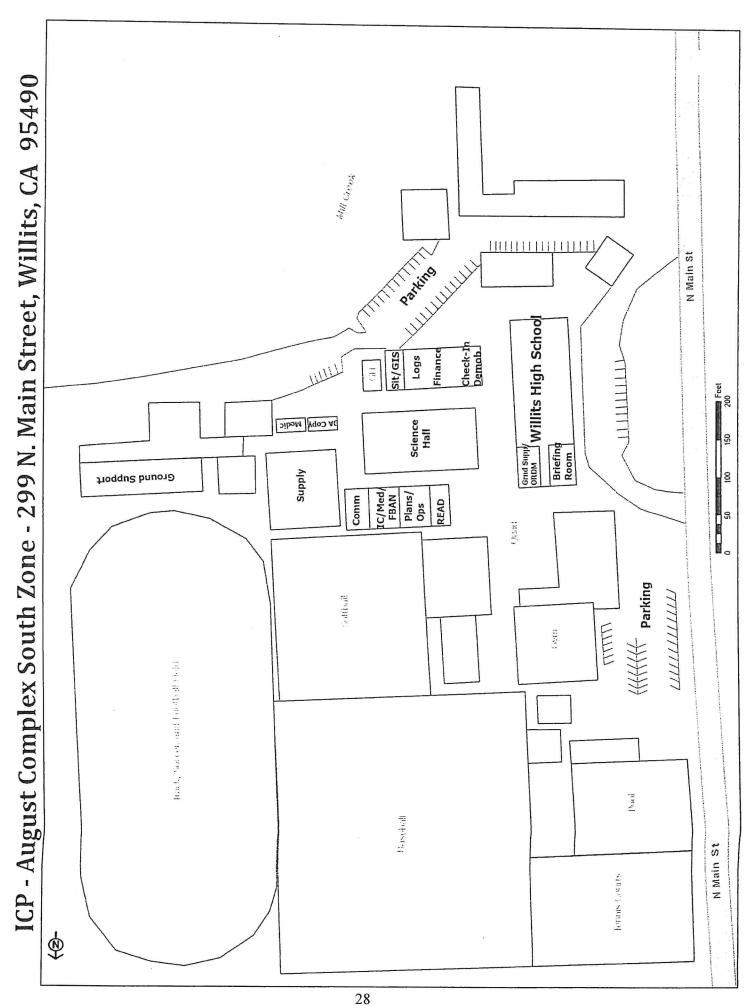

Recommended spacing for waterbars on firelines.

Fireline slope %	Maximum Distance Apart <u>(feet)</u>
1-5	 200
6 – 20	 125
21 - 40	 60
41 – 60	 40
>60	 25

Waterbars constructed by hand on hand line should be at least two Pulaski widths (4-6 inches) wide and 6-12 inches high.

Waterbars constructed by heavy equipment on dozer lines should be at least 12 inches wide and 12-18 inches high.
