behavior and weather conditions is critical to Order demonstrates how lookouts are used to gather and communicate details on fire

Lookouts, Communications, Escape Routes, and Safety Zones (LCES) are a critical approach all wildland firefighters use to engage in fire suppression safely. This Watch Out depicts a crew without established escape routes or safety zones.

SUNDAY, NOVEMBER 1, 2020 DAY OPERATIONAL PERIOD 0700-1900

COVID-19 MITIGATION ACTIONS AND LEADER'S INTENT

- Assigned resources will practice social distancing (to the extent possible) and be in alignment with the "module of one" concept. When interacting outside the "module of one" face-coverings are required; this includes ICP, established businesses and fireline interactions outside of the "module of one".
- Frequent handwashing is encouraged.
- Please utilize the virtual check-in and demob procedures to reduce potential exposures.
- All personnel entering the ICP will be temperature screened by Incident Medical Staff.

INCIDENT Weather Forecast

FORECAST NO: 7

NAME OF FIRE: August Complex South

PREDICTION FOR: Sunday 0700 - 1900

UNIT: Mendocino National Forest

SHIFT DATE: November 1, 2020

Incident Meteorologist: Dan Harty

FORECAST ISSUED: 1900, October 31, 2020

... Very dry with well above normal daytime temperatures...

<u>WEATHER DISCUSSION:</u> A strong ridge of high pressure will continue the unseasonably warm and very dry air mass over the region. Temperatures will remain well above normal with afternoon humidity in the single digits to lower teens. Humidity recovery will be poor from mid-slope to ridge tops with better recovery in the lower elevations, especially in valleys and drainages. Mainly clear skies and light terrain driven winds will prevail.

WEATHER FORECAST for SUNDAY:

WEATHER: Sunny. Very dry.

TEMPERATURES: 77-85 below 3000 feet; 69-77 above 3000 feet

HUMIDITY: 8-15%

20 FT WINDS:

RIDGETOP - West 4-8 mph with afternoon gusts around 12 mph.

SLOPE/VALLEY - Upslope/upvalley 3-9 mph

WEATHER FORECAST for SUNDAY NIGHT:

WEATHER: Clear. Continued poor humidity recovery over ridges/upper slopes.

TEMPERATURES: 32-42 below 3000 feet; 45-53 above 3000 feet

HUMIDITY: 25-35% ridges and upper slopes; 40-55% valleys and lower slopes.

20 FT WINDS:

RIDGETOP - West northwest 4-8 mph with gusts around 12 mph in the evening decreasing to

northeast 3-7 mph after midnight.

SLOPE/VALLEY - Downslope/downvalley 2-8 mph.

<u>OUTLOOK for Monday and Tuesday:</u> A slight downward trend in temperatures and bump up in winds is expected as the high pressure weakens a little. But conditions will still remain unseasonably warm and dry for this time of year. Southwesterly ridge winds will become a little breezy with terrain influences prevailing in the lower elevations.

Weather observations around the fire area.

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 21 TYPE OF FIRE: Wildland Fire FIRE NAME: August Complex South Zone OPERATIONAL PERIOD: Day Shift, November 1, 2020 DATE ISSUED: October 31, 2020 UNIT: Mendocino National Forest SIGNED: Mike Beasley, FBAN INPUTS

WEATHER SUMMARY: For Specifics Please see the attached Incident Weather Forecast.

WEATHER: Little change from yesterday. Sunny, very dry.

MAX TEMP: 69-85° MIN RH: 8-15%

20 FOOT WINDS: Ridges: West 4-8 mph w/ gusts around 12 mph;

Slope/Valley: Upslope/upvalley 3-9 mph

Chance of Wetting Rain: 0%

FUELS: The fire is burning in mixed fuels, i.e. grasses, duff, brush, and conifer at the lower elevations with mixed conifer in the upper elevations. Fuels remain extraordinarily dry for this dime of year.

Ignition Receptiveness: Probability of Ignition @ peak of the burn period: Below 3000': 65-88% unshaded/60-82% shaded. Above 3000': 63-86% unshaded/58-80% shaded

<u>Dryness:</u> Dead and down fuel moistures: 1-hour 3-7%, 10-hour 4%, 100-hour 4-8%, and 1000-hour <10%.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

No perimeter growth is expected. Dry conditions will continue to encourage emergent hot spots in dozer berms, logs, standing snags, and a even a thin layer of litter from scorched needles that have been recently blown off the standing trees. This smoldering fire behavior will continue in the Hell Hole Canyon area (Division S). The fuels outside of the fire perimeter will remain dry and highly receptive to fire. Any escaped fire would likely only exhibit short-range spotting. Fine fuel moisture continues to rise with the increased shading from shortening day length.

SPECIFIC: Division S: Smoldering within the perimeter in stumps, logs, and in aerial fuels (candles). Watch for newly available fuel from needlecast. Any fire moving into new fuels will exhibit active fire behavior w/ short-range (< ¼ mile) spotting. Active fire behavior only during the 2-3 hours at the peak of the burn period. Only creeping with low flame lengths in the morning and evening hours.

All Other Divisions: Interior smoldering.

AIR OPERATIONS: No issues.

"Life is never made unbearable by circumstances, but only by lack of meaning and purpose."

- Viktor E. Frankl

"It's a funny thing about life, once you begin to take note of things you are grateful for, you begin to lose sight of the things that you lack."

- Germany Kent

"Now is the time for us to look after the people who work for us. When an organization steps up at a time like this, it builds loyalty, commitment, and long-lasting teams."

- Arjun Agarwal

Driving Safety

Driving is one of the most hazardous things we do because we literally perform the task hundreds of times in the course of our daily lives – we tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.

- To be a safe driver you have to want to be one. Take a good hard look at your driving habits. Are you training
 yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and
 maintaining safe following distances?
- Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Since the average adult attention span is 15-20 minutes we must develop techniques that allow us to refocus our attention on our driving.
- Many things can lure our attention away from our driving such as fatigue, eating and drinking, reading directions and maps, writing, cell phone and radio use, conversation within the vehicle, and music.
 - Drive only when you are well-rested and alert and avoid driving during the hours of 10:00 PM and 6:00
 AM. Take a 10- to 15-minute break after every 2 hours.
 - Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.
 - Never drive when taking medications that make you drowsy.
 - Delegate navigation and communication to a passenger or pull over.
 - By constantly moving your vision, checking mirrors, and distant road conditions, you can avoid highway hypnosis and daydreaming.
 - Avoid eating or drinking while driving.
 - When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.
 - Switch off driving with others if multiple people are in the vehicle.
 - · Do not be in a hurry, be patient.
- Safe driving starts with a safe vehicle. Something as simple as under-inflated tires can have serious
 consequences. Before operating any vehicle, do a walk-around to look for potential problems, make sure the
 lights and blinkers work, and adjust your seat and mirrors. If it is the first time you have driven the vehicle,
 make yourself aware of where everything is.

FINANCE AUGUST COMPLEX SOUTH REMOTE PROCESSING PROCEDURES

FINANCE CHECK-IN & DO	OCUMENTATION NEEDED
OVERHEAD-FEDERAL: Resource Order CTRs	CREWS – AD: Resource Order Manifest w/ AD Rates and ECI#
OVERHEAD-AD: Resource Order Casual Hire Form w ECI# CTRs	CONTRACTORS: Resource Order Agreement: Signature Page, Page that includes the ordered resource & the Page that includes DUNS and mailing address Completed SIGNED shift tickets
FEDERAL ENGINES and CREWS: Resource Order Manifest CTRs	COOPERATORS: Resource Order CTR's and/or shift tickets Agreement

How do I submit my time? There are two options:

 Electronic submission (take a picture of the hard copy or use the electronic document and email to location below). Preferred

In the Subject Line include: CTR or Shift Ticket

Please make sure you add this because it sends it straight to the posting box for the Time Recorders. If not, there may be a delay.

2) Send a hard copy of CTR or Shift Ticket through divisions to the locations below.

Fire replacement items should be sent in via email 24 hours prior to demob.

Where to submit your time documents? Per the area you are working i.e. the IAP you are assigned, do not send to both email addresses.

Zones	Email Address:	Phone	Location
Northeast	2020.augustcomplex.finance@firenet.gov	409-739-3298	Eureka
	(phone number reflects for both East & West)	EQTR	
Northwest	2020.augustcomplex.finance@firenet.gov	916-591-9006	Eureka
	(phone number reflects for both East & West)	PTRC	· v
South	2020.augustcomplex.finance.south@firenet.gov	510-507-1560	Willits

Reminder: Ensure Resource Order Number is on all documents submitted.

**Federal Employees use P5NFP421 starting 10/1/20 in your Time/Payment System or your new Fiscal Year 21 indicator.

CHECK-IN PROCEDURES

Virtual Check-In: Please complete online check-in with your smart phone.

Use your Resource Order and Incident Qualification Card to complete the check-in information accurately. For CREWS, only the leader must check in online. For all other resources with multiple people per resource order number, all people should complete check-in.

1.SCAN THE QR CODE and COMPLETE the form in its entirety.

2.EMAIL RESOURCE ORDER AND MANIFEST TO:

or 2020.augustcomplex.finance.south@firenet.gov

If you do not have the capability or information needed to complete online check-in on your smart phone, please call or come to Check-In and someone will assist you with check-in. (510)507-1544

DEMOBILIZATION PROCESS

If you require AIR TRAVEL contact Demob at least 72 hrs in advance

 Email to Finance, final SIGNED times and contractor evaluations at:

2020.augustcomplex.finance.south@firenet.gov

- Please ensure all CTRs / shift tickets are emailed to Finance prior to coming in.
- Return any items checked out from Supply.
- Return any items checked out from Communications.
- Complete any required inspections at Ground Support. Scan QR code at Ground Support.
 - All E-#s and C-#s must complete inspection.
 - Any O#s required by their cooperative agreement must complete inspection.
 - o For all other Federal O-#s, inspection is optional.

After completing the items above, scan the QR code below and answer all of the questions.

When all the questions are answered and submitted, call and verify all items above completed by the Demob Unit Leader at:

Human Resource Messag

The Importance of Teamwork

Teamwork is defined as: "co-operation between those who are working on a task." Commonly teamwork is understood as co-operation and willingness of a group of individuals to work together to achieve a set goal with best practice.

- Teamwork is important because you and your fellow co-workers are there for one purpose, which is to carry out the goal(s) of the organization
- Believe in each other
- TRUST... your teammate
- Be RESPONSIBLE...make your team proud!
- Two people know more than one person
- Each person has different qualities that can complete and complement other people
- Working in a team can motivate a person to do more

August Complex South Zone Fire **COVID-19 PREVENTION PROCEDURES**

DAILY SAFETY & HYGIENE
