

INCIDENT ACTION PLAN

NORTH COMPLEX

CA-PNF-001308 P5NFZ7 (0511)

Saturday

OPERATIONAL PERIOD

9/5/2020 0600 – 9/6/2020 0600

0600 – Day Operations Briefing

1800 - Night Operations Briefing

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period:	
NORTH COMPLEX		Date/Time From: 09/05/2020 0600 SAT	Date/Time To: 09/06/2020 0600 SUN
3. Objective(s):			
<p><u>Leaders Intent:</u> Defend communities, commercial timber, critical infrastructure and natural, cultural and historic values.</p> <p><u>Management Objectives:</u></p> <ul style="list-style-type: none"> · Utilize nationally recognized risk management processes to minimize threats to the public and emergency responders. · Use risk-based decision making and MIST tactics to protect and defend cultural values and natural resources. · Foster and maintain positive relationships with all stakeholders and the public by sharing critical information so timely decisions and actions can be implemented. · Manage incident cost effectively for the values at risk through regular and ongoing cost analysis. · Follow identified standard procedures to minimize the spread of Covid-19 to all functions of the incident. <p><u>Control Objectives:</u></p> <ul style="list-style-type: none"> · Keep all contained fires within existing perimeters <p>Keep the fire:</p> <ul style="list-style-type: none"> · South of East Quincy and Road Systems 23N14 and 23N16. · North of Cleghorn Bar Road and 23N92 Road · West of 24N51 Road and Highway 70 corridor · East of 23N60 Road and Hartman Bar Trail 			
4. Operational Period Command Emphasis:			
Heightened level of situational awareness.			
General Situational Awareness:			
Continue to excel.			
SAFETY MESSAGE			
Managers care for the body of an organization; leaders care for the spirit, but truly great leadership does both!			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located at:			
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

North Complex: Claremont & Bear Fires
Weather Forecast

FORECAST NO:15
UNIT:CA-PNF
SHIFT DATE:Saturday, Sep 5th, 2020
PREDICTION FOR: 0600 - 0600
FORECAST ISSUED: 2000 hrs. 9/4/20

Incident Meteorologist: Brett Lutz
SIGNED:

*** Hotter & Drier This Afternoon-Evening ***

*** Fire Weather Watch for Gusty Winds & Low RHs Monday Night to Wed Morning ***

WEATHER DISCUSSION: It will a hotter, drier, and a bit more unstable with a little more winds today than it was Friday. Heat peaks Monday, then a dry cold front arrives Monday Night with gusty east winds and very dry air.

Today (0600-1800):

Weather: Smoky throughout the day, dense at times, in the Middle Fork of the Feather River drainage. Sunny.

High Temperatures:85-91°F/29-33°C Upper Slopes &Ridges, 92-99°F/33°-37°C Low-Mid Slopes & Valleys.
(24hr Trend: Up 3°F/2°C)

Afternoon Humidity:10-15%. (24hr Trend: Down 6%)

20 Foot Winds:

Valleys/Lower Slopes:Down slope/drainage 5mph/8kph, becoming upslope 5-10mph/8-16kph, then becoming Up slope and up valley 5-10mph/8-16kph with gusts 10-15mph/16-24kph afternoon.

Upper Slopes & Ridges:South 5-10mph/8-16kph becoming WSW 7-12mph/11-19kph with gusts 15-22mph/24-35kph mid-late afternoon.

(24hr Wind Trend: Up 2mph / 3kph.)

Transport Wind:SW 7 mph/11kph in the morning, becoming SW 15mph/24kph in the afternoon.

LAL:1. **Chc of Wetting Rain (> or = to 0.10"):**0%

Inversion/Thermal Belt: 5,500ft MSL thru morning. **Afternoon Mixing Height:** 13,000 feet AGL.

Tonight (1800-0600):

Weather: Smoky, dense at times. Otherwise clear.

Temperatures: Lows 49°F/9°C valley bottoms to 75°/24°C ridges.(24hr Trend: Little Change)

Overnight Max Humidity:Valleys/Lower Slopes: 40-75%; Upper Slopes/Ridges: 20-40%.
(24hr Trend: Little Change)

20 Foot Winds:

Lower Slopes:Up slope and up drainage 5-10mph/8-16kph early evening, becoming downslope and down drainage 5mph/8kph overnight.

Upper Slopes:SW 5-10mph/8-16kph.

LAL:1 **Chc of Wetting Rain (> OR = to 0.10"):**0%

Inversion:5,500ft MSL with smoke becoming trapped below it. Expect thermal belt between 5500 and 6500ft.

2-5 Day Outlook, Sunday-Wednesday: *Heat peaking Sun-Mon, East Winds Mon Night-Wed AM *

Dry. Wide diurnal temperature ranges, hot afternoons, and moderate to poor RH recoveries on the upper slopes and Ridges thru Mon. Mostly clear. Max Temps 75-100°F/24-38°C with Min RHs 7-20%. Overnight Lows 46-76°F/8-24°C. Max RHs: 20%-70%. SW winds Sun, West winds Mon, East winds gusty Mon night- Wed. Mostly smoky.

Observations from Friday, 9/4/20:

Eureka Ridge (6895ft) S of Claremont Fire: Temps: 67F/88F, RH: 39%,17%, Max wind: WSW 10mph.

Cashman (4478ft) near Quincy- Temps: 62F/96F, 62%,15%, Max wind: SW 19 mph.

Buck Lake Road West (3793ft) NE of Bear Fire- Temps: 49F/93F, RH: 95%,19%, Max wind: WSW 17mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER:17

TYPE OF FIRE: Wildfire

FIRE NAME: North Complex

OPERATIONAL PERIOD: Saturday, Sept. 5,2020

DATE ISSUED: Friday, Sept. 4, 2020

TIME ISSUED: 1930Hours

UNIT: Plumas National Forest

SIGNED: RichMcCrea – FBAN

Weather Summary

Discussion: See attached weather forecast

Outputs

GENERAL FIREBEHAVIOR:Fire behavior potential to increase today due to hotter temperatures, lower humidity (trend down 3 %), and higher winds than the previous day. Expect active fire behavior with upslope and short upslope/upcanyon fire runs, tree torching and short-range spotting. Resistance to control will be high due to steep slopes, deep/narrow canyons, deep duff, snags, and very dry downed woody fuels. Burning debris can roll downhill on steep slopes creating new spot fires that may then run back upslope. There is a chance of extreme fire behavior due to the instability of the atmosphere as measured by the Haines Index (measured at a level 5 which is moderate), which can cause plume or column development that can spread fire in any direction with rapid spread rates. Smoke over the fires will limit the drying of fuels and fire behavior. If smoke disperses on the fire expect enhanced fire behavior.

Spread Rate: Timber: 1200 feet per hour (365 Meters);**Spotting**, up to 3/10 mile (one half kilometer);**Flame Length:** up to 8 ft.(2.5 meters) except in large concentrations of heavy dead fuels and on steep slopes. Maximum daily spread up to one half mile to a mile (.8 to 1.60 kilometers per hour). Fire spread in narrow canyons/steep slopes with wind alignment may exhibit even faster spread rates.

Fire Danger Values: The Energy Release Component (ERC)is average for this time of year with a fire danger rating of "High".

Drought Severity Index: This area of California is in moderate drought.**Humidity Recovery at night:** poor humidity recovery.

FIREBEHAVIOR SPECIFIC:

Branch II: Claremont Fire

DIV. P: The fire will continue to be active with upslope/upcanyon movement to the north/northwest, torching, and spotting. The burnout is completed or nearly completed between the Bear and Claremont fires, and there is about a 3 mile (4.8 kilometers) stretch of backing fire spreading down Grizzly Creek and Pigeon Roost Creek towards the Middle Fork of the Feather River which is about a mile and a half away (2.4 kilometers). Watch out for spot fires across lines.

DIV. S/V/X:These divisions are in patrol and mopup. Expect residual burning in stump holes, logs and snags and burn out of interior islands which may cast spot fires across established firelines.

DIV Z: Watch out for burning of islands in interior areas that may cast hot embers across fire lines

Branch VII: Claremont Fire

DIVS DD: Watch out for column development on the north side of the Middle Fork of the Feather River that may cast spot fires onto the south side of the river, with associated upslope upcanyon fire runs.

Branch: X: Bear Fire

DIV. AA: Expected continued upslope and upcanyon fire runs with associated torching of conifer trees and spot fires. The burnout has closed with Div. P on the Claremont Fire.

DIVs QQ and TT; Watch out for spot fires across fire lines and upslope fire spread. The fire run near Lookout Rock will continue to be active and watch out for spot fires

DIV. MM: The Willow Creek Canyon, on the southwest side of the fire continues to hold.

Aviation: Smoke is being trapped between the 5500 to 6500-foot level, causing poor visibility, limiting operations.

SAFETY:Know where the fire is located and what the how potential movement of flames can impact your tactics and safety. Ensure escape routes are established and marked and that the fire does not breach access roads where personnel, equipment and vehicles can be trapped

INCIDENT RISK ANALYSIS NORTH COMPLEX CA-PNF-001308 (ICS 215a) Day/Night Shift

DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> • Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing or turning around. • Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent. • 5mph speed limit in and around ICP, keep your speed down in all areas. • Use warning lights when working on roads or traveling in smoke. • Drive at or below posted speed limits. • Use chock blocks, turn wheels into hill. • Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents.
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> • Follow Hazard Tree Safety Guidelines (IRPG p.22.) • Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. • Be alert around hazard trees during wind events, even green trees. • The hazard zone extends a minimum of 2½ tree lengths. • Avoid parking vehicles or taking breaks under or near hazard trees.
ALL	FATIGUE/COMPLACENCY	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Maintain 2:1 work/rest ratio. • Monitor ALL resources for level of fatigue. • Repeated assignments in the same area can lead to complacencymaking personnel more vulnerable to accidents. • Take steps to maintain situational awareness for the duration of the incident.
ALL	STEEP TERRAIN AND ROLLING DEBRIS	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Be alert for rolling rocks, debris, or burning material. • Evaluate necessity to send personnel in areas with limited access. • Post lookouts where feasible.
ALL	FIRING OPERATIONS and DEVICES	<ul style="list-style-type: none"> • Follow the chain of command when undertaking burning operations. • Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. • Wear and use appropriate PPE. • Initiate burning after ensuring the plan is authorized and understood by all.
ALL	HEAT RELATED ILLNESS	<ul style="list-style-type: none"> • Drink 2 to 1 water to sports drinks. • Take frequent breaks, minimum of 10 minutes every hour. • Recognize symptoms of HEAT RELATED ILLNESS which include low energy, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating.
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> • Ensure communications are established with operators (Visual & Radio) • Avoid working downslope from heavy equipment. • Maintain a 50'-150' exclusion area around equipment. • In timber increase safety distance to 2 ½ times canopy height.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> • Share your Situational Awareness (hazards, changes, etc) to those who also have a need. • Radio communications may be poor in some areas. Identify & pass along to coms. • Ensure all personnel are familiar with the incident communications plan.
ALL	NIGHT OPERATIONS	<ul style="list-style-type: none"> • Have a purpose for where you drive and what you do. Don't rush into assignments. • Use caution where you park or stage, especially in steep timbered areas. • Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area. • Increase SA by trying to see the work area during daylight hours. • Use glow sticks to mark hazards, and ensure personnel have headlamps.
ALL	AIR OPERATIONS	<ul style="list-style-type: none"> • Follow "Aviation Watch-Out Situations" on page 46, IRPG. • Don't plan on air resources for tactical support or medical transportation. • Refer to page 58, IRPG for directing bucket drops. • Ensure positive communication with all air resources.
ALL	COVID-19	<ul style="list-style-type: none"> • Utilize social distancing, wear facemasks in camp. • Maintain the "module of one" concept. • Disinfect vehicles, tools, and commonly touch surfaces frequently. • Do not share equipment and wash hands frequently.
INCIDENT NAME:		Operational Period: 0600-0600
North Complex		September 5/6, 2020
		DATE AND TIME PREPARED: September 4, 2020 1600

North Complex – Safety Message

INCIDENT # CA-PNF-001308

DATE: 09-5/6-2020 TIME: 0600-0600 Day/Night Shift

“SAFETY is a CORE VALUE to be integrated into ALL incident activities”

See Something Say Something, Communicate Safety!

- **Take Charge** of assigned resources.
- **Motivate** firefighters with a “can do safely” attitude.
- **Demonstrate Initiative** by taking action in the absence of orders.
- **Communicate** by giving specific instructions and asking for feedback!
- **Supervise** at the scene of the action.

Module as One

- Same as “module as a crew/family. Same people travel together for the season. No need to physical distance within the crew.
- A “close contact” is defined as less than 6 feet, for at least 15 minutes with or without face coverings/mask.
- On the fireline; the **Fire** is the focus. Try not to co-mingle close (less than 6’ apart) from other personnel.
- In camp, **coronavirus** is the focus. **Use face coverings** and physical distance in common areas such as briefing areas, chow line, shower area etc.

Driving

- When driving keep the speed at or below the posted speed limit and turn your headlights on. Is the posted speed limit a safe speed under the current conditions and traffic?
- **Use caution on unimproved roads as some have soft shoulders. Some roads are also only one lane with pullouts!**
- Road surfaces are variable with washboard conditions and thick dust that can compromise turning and braking.
- Watch for and anticipate stock and wildlife especially from dusk to dawn.
- Always fasten your seat belt before the vehicle is set into motion. Use backlers.
- Don’t tail gate, especially in dusty conditions.
- Slow down, slow down, and slow down!

Hazard Tree Indicators

- Tree burning for any period of time.
- High risk tree species (rot and shallow roots).
- Numerous downed trees.
- Dead, broken, or burning tops and limbs overhead.
- Accumulation of needles, bark, or limbs.
- Leaning or hung-up trees.

Eliminate the hazards with qualified sawyers and modify suppression tactics or fireline location to avoid high risk areas. Always provide timely feedback to others regarding any hazard trees.

Prepared by,

Team 4 Safety Group

North Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- **As you travel through the local communities proximal to the fire, be mindful that in the State of California, face coverings are required inside local businesses.**
- Being a Federal fire, incident personnel are expected to comply with the following Region 5 and incident guidance.
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus. This limits “close contacts” to those within the module. A “close contact” is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks.
- **Social Distancing.** Maintain a minimum of 6’ physical distancing, especially from those outside of your module-as-one.
- **Face Coverings.** Face coverings are required to be worn, **in the appropriate manner covering nose and mouth**, when in identified “mask areas” at Camp. Outside of camp, all incident personnel will wear a face covering when social distancing is not possible, especially with those outside your module-as-one.
- **Wash your hands.** Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

NORTH COMPLEX COVID-19 DAILY SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

Instructions for Screening

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	NOTIFY SUPERVISOR IMMEDIATELY
At entries to established camps (ICP): COVID-19 Daily Screening Tool will be posted for self screening of Incident Personnel, Cooperators and Guests.	DO NOT ANNOUNCE Ask individual or "module-as-one" to step aside and follow the steps below.
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	

Steps to follow for a symptomatic screening

Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel.
Isolation support personnel should begin documentation.
Notify Line Medics or MEDL if at ICP.
COVID Safety will coordinate with Incident COVID Advisor.
Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet.
Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

¹ Symptoms of Coronavirus

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o - 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o - 3^o burns not more than 1-3 palm sizes.</i>	
	<input type="checkbox"/> GREEN / PRIORITY 3 Minor injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Crew Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: (IRPG PAGE 106)	Age:	Weight:	Chief Complaint:
Skin Signs: (color/moisture/temp)	Level of Consciousness:	BP:	HR: Respirations:
Treatment:			

4. TRANSPORT PLAN:

Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards)	Patient's ETA to Location:
--	----------------------------

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***

Feel free to call/text or come by the HRSP trailer if you have questions, concerns, or just want to chat.

Adam Alvarez - HRSP - 707-373-8715

Maidu Requests for Visiting Homeland

1. "Be good to the land and the land will be good to you." Maidu quote

Thank you fire fighters for helping us keep our homes and cultural sites safe.

2. Enjoy your visit in the Mountain Maidu and Valley Maidu homelands.

Archeological sites and the resources they contain are not public property. A place, site or resource may have significance to a family or local tribe, which often carries with it a special level of protection.

3. Take care to avoid injuries.

Cultural sites are very old and fragile. Archeological resources are anything over 50 years old and can therefore erode easily. Also, historic dump sites can be hazardous, with sharp glass, rusty metal, and compounds and chemicals that can harm you.

4. Enjoy with care.

Oils from skin damage pictographs (rock paintings) and petroglyphs (rock carvings). It ruins irreplaceable historic resources, and it is illegal.

5. Don't touch the knickknacks.

ALWAYS LEAVE ARTIFACTS RIGHT WHERE YOU FIND THEM. Out of context, artifacts mean little to archeologists. Often the most important aspect of archeological resources is their relationship to the place and other adjacent resources. Archeological sites and artifacts are our direct link to stories that otherwise might not be told. How can these stories be complete or accurate if the setting is altered or lost? For this and other reasons, it is illegal to move or remove artifacts.

6. Feel free to discover.

Some of the sites are identified, and some sites are not recorded. If you happen to come across a cultural site we ask you to treat it like you would any cultural artifact. And note the location and report it to a Resource Advisor.

Speak with resource advisors about the potential for archaeological sites being located adjacent to roads or proposed fire lines. It's easy to destroy features and artifacts in the dark.

- Over approximately 160 years, many changes have reshaped tribal relationships with these vast landscapes as well as with each other, and yet our knowledge of and responsibilities to these incredibly rich and vast landscapes remains strong. **We appreciate your dedication to care for and building your own relationships with our natural environment while protecting these fragile and irreplaceable resources!**

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4

EXPECTATIONS

Welcome to this Incident.
Thank You for your Cooperation & Support!

2020

CONDUCT AND BEHAVIOR

This team is committed to “**ZERO TOLERANCE**” of careless, illegal, inappropriate and unsafe actions.

Alcohol and/or illegal drugs are **NOT allowed** within the incident environment or while actively assigned to the incident. Local Law Enforcement Officials will be called to deal with any suspected illegal activities. Each employee has the responsibility to be ready, willing, and able to perform the duties for which they are qualified.

Sexual Harassment

Inappropriate actions or comments will not be tolerated. Everyone is expected to act in a professional manner. It is your responsibility to stop inappropriate actions or comments immediately upon becoming aware of such. Sexual Harassment must be reported to the Human Resource Specialist or Incident Commander. When outside of your designated sleeping area, you are required to wear at least a shirt, appropriate shorts, and shoes or sandals. If you need clarification of these expectations contact the Human Resource Specialist or IC. What we PERMIT we PROMOTE!!!!

SAFETY

The commitment to and accountability for safety is a joint responsibility of firefighters, managers and administrators. Individuals must personally be committed and responsible for their own performance and accountability. Everyone assigned to this incident can expect an assignment that follows all safety rules & regulations. Every person is expected to perform his or her duties in compliance with all known safety practices at all times. Anything less is unacceptable.

EMPHASIS AREAS

Training

All trainees and trainers are expected to follow the procedures outlined in the California Interagency Incident Management Team 4 **Training Expectations – See back page.**

Evaluations

All supervisory personnel assigned will complete an ICS 225 Incident Personnel Performance Rating form for their assigned resources according to agency policy or contractual agreement.

Injuries/Claims

Ensure all injuries and potential claims are reported to the Comp/Claims Unit for completion of appropriate paperwork. Contract claims will be reported to the Procurement Unit Leader.

Work Rest Cycles

The 2: 1 work/rest ratio is mandatory. For every two hours on shift you will be required to rest for one hour. Every effort shall be used to limit work hours to a maximum of 16. If circumstances require you to exceed 16 hours, this needs to be coordinated in advance with your supervisor and the Justification/Mitigation form completed to support the excessive hours prior to submitting for approval by the IC. It is your responsibility to comply with this direction and provide the appropriate documentation to your Supervisor and Finance.

Position Qualifications

Personnel shall only be assigned to positions for which they are qualified. Proof of qualifications shall be approved prior to being assigned to any fire line position. Non-fireline positions may be filled based on the word of the employee pending home unit confirmation, which must be requested immediately. Contract dozer operators, tactical water tender operators and contract fallers must provide proof that they have received the annual fire refresher training.

Engagement/Disengagement

The 10 Standard Orders & 18 Watchout Situations will be followed at all times and mitigated as needed. Staying aware of your situation is critical. This includes Geographic Area and incident briefings. Follow the Risk Management Process outlined in the Incident Response Pocket Guide.

Debriefing

All Branch Directors/Division/Group Supervisors will report to their Supervisor and Situation Unit at the end of the operational period for debriefing with emphasis on the accomplishment of objectives. All unit logs (ICS 214) will be turned in after the debriefing to Documentation reflecting accomplishment and/or special incidents that occurred during the operational period.

Crew Time Reports/Shift Tickets

It is your responsibility to ensure all time is properly accounted for and recorded each shift. The records are to be reviewed and signed by the next level supervisor. A finance “Rules of Engagement” document will be provided in the IAP explaining further requirements.

Social Media

It is your responsibility to know and understand guidelines for firefighter photography, video and social media use. California Interagency Incident Management Team 4 goal is simple: to participate online in a respectful, relevant way that protects our incident’s professional reputation, does not confuse the public about the incident and follows the letter and spirit of the law. Be mindful that social media postings can be viewed as unprofessional, damage careers and lead to disciplinary actions. For further information, contact the Public Information Officer.

We look forward to working with you as a valuable member of this effort. If you have any questions or feedback, please feel free to contact any Command and General Staff Member.

JAY KURTH - Incident Commander

ROCKY W. OPLIGER - Deputy Incident Commander

THANK YOU FOR YOUR COOPERATION AND GOOD WORK!!
