## North Complex: Claremont & Bear Fires Weather Forecast

FORECAST NO: 11 **UNIT:** CA-PNF

SHIFT DATE: Tuesday, Sep 1st, 2020 **PREDICTION FOR: 0700 - 0700 FORECAST ISSUED:** 2000 hrs. 8/31/20 Incident Meteorologist: Brett Lutz SIGNED:

You can call, text, or e-mail obs to: (240) 778-5297 / Brett.Lutz@noaa.gov

# ...Gusty, Moderate East Winds This Morning Weakening This Afternoon...

WEATHER DISCUSSION: Moderate and gusty east winds this morning will be strongest over the ridges and in the Middle Fork of the Feather River drainage, especially in the canyon near the Bear Fire. These east winds are likely to continue through the morning and then will diminish some, but still continue into the afternoon to early evening. Smoke will be blown down drainage and west of the fires, primarily through the Middle Fork of the Feather River drainage. It will be hot and dry this afternoon under clear skies. Dry weather will continue, becoming slightly hotter with time. Daily record high temperatures will be threatened this upcoming weekend.

Today (0700-1900):

Weather: Sunny. Smoke down canyon of the fires, mainly in the main Middle Fork of the Feather River drainage.

High Temperatures: 80-85° Upper Slopes & Ridges, 86-97° Low-Mid Slopes & Valleys. (Trend: Up 2F)

Afternoon Humidity: 11-18%. (Trend: Little-Change)

20 Foot Winds:

Valleys/Lower Slopes: E 10 mph with gusts 20 mph in the morning, diminishing to 5 mph with gusts to 10-15 mph mid to late afternoon.

Upper Slopes & Ridges: East 15 mph with gusts 25 mph in the morning, diminishing to 5-10 mph with gusts 10-20 mph in the afternoon.

(Wind Trend: Up 5-10 mph valleys and 10-15 mph upper slopes & ridges in the morning.)

Transport Wind: E 17 mph in the morning, becoming E 12 mph in the afternoon.

LAL: 1.

Che of Wetting Rain (> or = to 0.10"): 0%

Stability: Weak Inversion near 6,500ft MSL until late AM.

Afternoon Mixing Height: 13,000 feet MSL.

Tonight (1900-0700):

Weather: Clear. Smoke down canyon of the fires, mainly in the main Middle Fork of the Feather River drainage.

Temperatures: Lows 42° valley bottoms to 62° ridges. (Trend: Down 5°)

Overnight Max Humidity: Valleys: 35-85%; Ridges: 25-35%. (Trend: Down 10% on the ridges)

20 Foot Winds:

Lower Slopes: E 5 mph gusting 10 mph, becoming downslope and down drainage 5-10 mph overnight. Upper Slopes: E 5-10 with gusts 10-15 mph.

LAL: 1

Chc of Wetting Rain (> OR = to 0.10"): 0%

Inversion: 6,000ft MSL with smoke becoming trapped below it.

2-5 Day Outlook, Wednesday-Saturday: Getting hotter, with record breaking temps possible next weekend. Dry with wide diurnal temperature ranges, hot afternoons, and moderate to poor RH recoveries on the upper slopes and ridges. Mostly clear. Max Temps 81-100° with Min RHs 10-20%. Overnight Lows 45-65°. Max RHs: 25%-95%. SW winds 5-10mph G15 mph each PM, 5-10 mph drainage winds overnight. Mostly smoky.

Observations from Sunday, 8/31/20:

Red Hill Lookout (6333ft) W of Bear Fire: Temps: 61F/82F, RH: 32%, 18%, Max wind: NNW 16 mph @ 1am. Cashman (4478ft) near Quincy-Temps: 46F/95F, 99%, 14%, Max wind: SSE 8 mph. Buck Lake Road West (3793ft) NE of Bear Fire-Temps: 45F/89F, RH: 96%, 16%, Max wind: NE 11 mph.

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 13	TYPE OF FIRE: Wildland Fire
FIRE NAME: North Complex	OPERATIONAL PERIOD: 9/1/20 Day
DATE ISSUED: 8/31/20	TIME ISSUED: 2100
UNIT: Plumas NF	SIGNED:/s/ Patrick Dovle, FBAN-t/Rich McCrea, FBAN

### INPUTS

WEATHER SUMMARY: \*\*\*\* See Fire Wx Forecast \*\*\*\* - Dry N-NE winds over next day -

### **OUTPUTS**

### **FIRE BEHAVIOR**

### GENERAL:

One more day of N-NE wind flow, this will not have the windspeeds what would be considered a North Wind "Event", which is a critical fire weather situation in this geographical area. Northwest-to-Northeast winds bring higher wind speeds and gusts, down canyon winds, and usually much lower relative humidity (Rh) and night-time fuel moisture recovery rates, Fire activity this morning through today will test lines on S to SW areas fire. WATCHOUT for spotting across control lines, drainages, and spreading out of control lines. Key Points:

- Very low fuel moistures (~90th percentile conditions) and low nighttime Rh recovery continues to make most if not all dead and down fuels available for burning.
- North Winds will increase in the afternoon, causing increased fire activity and potential spotting with to low relative humidity.
- Torching and spotting has contributed significantly to fire spread and challenged control efforts. Watch for holdover heat near control lines.

Northern Sierras PSA NC07

ERC 75 (▲ up +1, below 90<sup>th</sup> percentile) BI 52 (▼ down -2, below 90<sup>th</sup> percentile) 100 HR Dead Fuel Moisture: 8% (no change, below 90<sup>th</sup> percentile)

1000 HR Dead Fuel Moisture: 8.0% (no change, at 90th percentile)

Expected ROS, FL, and PIGs below for uncontained/controlled fires, or if fire spots or slops outside of control lines. Rate of Spread (ROS): max 10-90 ch/hr, min ROS creeping to 1-10 ch/hr. Prob. Of Ignition (PIG): 82-90% afternoon Flame Lengths (FL): areas in alignment expect FL 5-10+ ft., where fuels and topography are not in alignment expect FLs creening to <1-5 ft.

### SPECIFIC:

Branch IV & V: Sheep Fire - Minimal fire behavior overall, low Rh's, low dead fuel moisture recovery overnight. Where there is fuels-- backing and smoldering fire, and concentration of fuels continue to burn logs, stump holes, snags and dozer berms. Retaining heat consuming dead and down fuels. Key Points:

- Div A/B/D watch out for spotting today from N to E winds increasing in afternoon and being gusty. Increased fire activity in dead & down fuels due to low Rh and dry winds.
- Div H little activity, smoldering and burning up heavy fuels in the interior.
- Div M/F little activity, smoldering and burning up heavy fuels in the interior.

Branch II: Claremont Fire - Heads up again today in Div Z. Expect N to NE wind direction, windspeeds and gusts from the winds can cause fire to spot or spread in direction that has not been a problem, and increase activity in a previously quiet section of the fire or line.

### Key Points:

- Watch out for N-NE winds, expect increased fire activity from low Rh's and afternoon winds increasing from the N-NE.
- Div Z Expect increased fire activity, watch out for spread/spot across dozer lines between La Porte Road (near Red Bridge) and Harrison Flat over 23N10 road. Where upslope runs from Bray Creek can impact control efforts or firing operations on the 23N10 road.
- Div S/V/X minimal fire activity in Div S/V and greatly reduced activity in Div X.

Branch X: Bear Fire - Fire spread has reached the Willow Creek on the SW side of Bear Fire and has shown unusual level of decreased activity near lower slope. Heads up for any new activity today with downcanyon winds in alignment with N-NE winds. Downcanyon winds will be supplemented by these N-NE winds, so be heads up for increase in fire activity today. Canyon winds will funnel N-NE winds in going downcanyon, the morning winds should be stronger than afternoon due to diurnal conditions pushing back on down canyon winds. Key Point:

- Div QQ/TT N-NE winds today will continue test SW of portion of fire at Willow Creek drainage. Potentially spotting across Willow Creek, with upslope downcanyon alignment.
- Watch out for roll-out igniting material below and making uphill runs in drainage, and in afternoon spotting continues to be a significant component of fire spread (spotting distances 1/10 to 1/25 of mile). Fire will actively back, flank, and spread uphill/updrainage in most directions.

### AIR OPERATIONS:

North winds should help clear out smoke and haze to enable air operations to support and provide intel to ground operations today.

### SAFETY

Be alert for overhead hazards, dead and fire weakened trees coming down. Especially with increased in windspeeds and gusts!

continue holding existing line from repeater site to DIV S/V/X / DIV Z break.

Mop up and secure burn areas around structures to prevent ignition to the degree possible.

Continue holding and mopping up along Hwy 70, dozer lines and the 23N22 Rd.

Continue to conduct strategic firing operations to clean up the unburned fuel near Estray Creek, and to secure the dozer line that ties into Middle Fork Feather River.

### 7. Special Instructions:

Backhaul all trash, modules need to take all trash back to ICP.

Ambulance Medic 2 @ DP57 assigned to DIV P available branch wide.

REMS 1 assigned to DIV P @ DP42 and REMS 2 assigned to DIV TT @ DP88, both are available incident wide

Avoidance Flagging: North Complex will be red and black candy striped: Sheep Fire will be red and white candy stripe.

# **INCIDENT SAFETY ANALYSIS 215a**

North Complex and Sheep Fire - Tuesday, September 01, 2020

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All	Air Operations	~ Ensure positive communication with all air resources. ~ Don't plan on air resources for medical transport or resupply. ~ Follow "Aviation Watch-Out Situations" IRPG Pg 46. ~ Refer to "Directing Bucket or Retardant Drops" IRPG Pg 58 . ~ Refer to "Aerial Retardant Safety" IRPG Pg57. ~ Refer to "Aircraft Mishap Response Procedure" IRPG Pg 62.
All	Hazard Trees	<ul> <li>Follow "Hazard Tree Safety" guidelines, IRPG page 22.</li> <li>Post lookouts, or use a spotter in mop-up areas with personnel.</li> <li>Don't park vehicles or take breaks in high concentrations of hazard trees.</li> <li>Establish trigger points for disengagement during high wind events.</li> <li>Remember that the hazard zone extends a minimum of 2 1/2 tree heights.</li> </ul>
All	Extreme Fire Behavior	<ul> <li>Share weather observations with all personnel assigned to division.</li> <li>Establish "Trigger Points" to withdraw.</li> <li>Use "Risk Management" process prior to engaging in suppression actions IRPG Pg 1.</li> <li>Refer to "Common Denominators of Fire Behaior Tragedy Fires" IRPG Pg 5.</li> <li>Refer to "Alighnments &amp; Patterns for Dangerous Fire Behavior" IRPG Pg 73</li> </ul>
All	Injury & Medical Emergency	∼ Assist injured employee appropriate medical care. ∼ Use EMT's on Division for initial care. ∼ Follow "Emergency Medical Care" IRPG Pgs 105-118 ∼ Follow procedures in Medical Plan, ICS 206 ∼ Refer to "Planning for Medical Emergencies" IRPG Pg 2
Br X	Indirect Fireline	~ Post lookouts, identify escape routes and safety zones IRPG Pg. 7 ~ Review "Strategy Direct/Indirect Attack" IRPG Pg. 82-83 ~ Refer to "Line Location" IRPG Pg 84
All	Driving & Traffic	~ Practice "Defensive Driving" techniques traveling on all roads and city streets.  ~ Use spotters & Honk horn to alert personnel when backing.  ~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts).  ~ Always use headlights.  ~ Yield to pedestrians and bicycles.  ~ Observe posted speed limits.  ~ Use the 3 second rule for following distance when driving.  ~ Use chock blocks, turn wheels into hill.  ~ Avoid distractions (eating, cell phones, radio).  ~ Ensure that windshields are kept clean of dust and bugs.  ~ Refer to "Smoke and Transportation Safety" IRPG Pg 31  ~ Refer to "Roadside Response Safety" IRPG Pg 26
All	Fatigue & Over Exertion	<ul> <li>Drink 1 quart of water each hour during and after work.</li> <li>Rotate crews out of smoky areas.</li> <li>Set a reasonable work pace and allow adequate rest breaks while on the project.</li> <li>Stagger work crews start time to limit fatigue.</li> <li>Use buddy system to monitor personnel of heat related and fatigue issues.</li> <li>Follow work / rest guidelines.</li> </ul>
Br II & X	Steep Terrain & Rolling Debris	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Don't work above any personnel.</li> <li>Be on the lookout for rolling rocks, debris, or burning material.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> <li>Post lookouts IRPG Pg 7</li> </ul>

# Maidu Requests for Visiting Homeland

# 1. "Be good to the land and the land will be good to you." Maidu quote

Thank you fire fighters for helping us keep our homes and cultural sites safe.

# 2. Enjoy your visit in the Mountain Maidu and Valley Maidu homelands.

Archeological sites and the resources they contain are not public property. A place, site or resource may have significance to a family or local tribe, which often carries with it a special level of protection.

### 3. Take care to avoid injuries.

Cultural sites are very old and fragile. Archeological resources are anything over 50 years old and can therefore erode easily. Also, historic dump sites can be hazardous, with sharp glass, rusty metal, and compounds and chemicals that can harm you.

### 4. Enjoy with care.

Oils from skin damage pictographs (rock paintings) and petroglyphs (rock carvings). It ruins irreplaceable historic resources, and it is illegal.

### 5. Don't touch the knickknacks.

ALWAYS LEAVE ARTIFACTS RIGHT WHERE YOU FIND THEM. Out of context, artifacts mean little to archeologists. Often the most important aspect of archeological resources is their relationship to the place and other adjacent resources. Archeological sites and artifacts are our direct link to stories that otherwise might not be told. How can these stories be complete or accurate if the setting is altered or lost? For this and other reasons, it is illegal to move or remove artifacts.

### 6. Feel free to discover.

Some of the sites are identified, and some sites are not recorded. If you happen to come across a cultural site we ask you to treat it like you would any cultural artifact. And note the location and report it to a Resource Advisor.

Speak with resource advisors about the potential for archaeological sites being located adjacent to roads or proposed fire lines. It's easy to destroy features and artifacts in the dark.

 Over approximately 160 years, many changes have reshaped tribal relationships with these vast landscapes as well as with each other, and yet our knowledge of and responsibilities to these incredibly rich and vast landscapes remains strong. We appreciate your dedication to care for and building your own relationships with our natural environment while protecting these fragile and irreplaceable resources!

# Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Your OES AREP for the North Complex including the Sheep

Patrick Titus 916-634-9225
