

# SLATER & DEVIL INCIDENTS CA-KNF-007035 (P5NKM3) IAP

Friday, September 25, 2020 (0700-0700)

# Fight Fire Aggressively, But Provide for Safety First

Standard Fire Order #10 must be taken into account at all times when fighting fire. In order to fight fire safely and aggressively, every firefighter must be able to answer the following questions:

- Is the suppression method adequate? Ask yourselves, are we making progress? Are we beating our heads against a wall? Is there a better way to get this done? Give examples when you have had to change your suppression method.
- Are there adequate resources and time for effective suppression? Ask yourselves, do we need to retreat and reevaluate? Talk about times when you have realized you weren't getting anywhere and needed to retreat and start managing firefighters and placing orders.
- Are lookouts posted? Discuss when you post lookouts, who you would choose to be a lookout, and where they should be located.
- Are communications prompt with crews and other resources? Review the importance of good communications on the fireline.
- Have escape routes and safety zones been established? Talk about your crew's procedure for establishing escape routes and safety zones. Review what constitutes an escape route and a safety zone.
- Do you feel comfortable with your assignment? Discuss the situation check. Remind firefighters that every individual has the right to question an assignment.
- To reduce the risks:
  - Post lookouts.
  - Retreat if the situation is too complex. Emphasize that safety is everyone's responsibility; we all want to be good firefighters and being safe is part of that.
  - Do you have established trigger points?

# INCIDENT OBJECTIVES 1. INCIDENT NAME Slater & Devil 2. DATE 09/24/2020 1930

### 4. OPERATIONAL PERIOD

### Commander's Intent:

It is my expectation that we as an organization will meet the following Leader's Intent as well as the objectives identified below:

- Ensure all incident strategies and actions reflect a commitment to public, responder, and aviation safety through use of the risk management process as outlined in the IRPG and the aviation risk assessment process.
- Coordinate incident management activities with our requesting and cooperating agencies including but not limited to suppression actions and support needs.
- Treat all incident personnel, cooperators, and local publics with dignity and respect creating a "no tolerance" atmosphere for harassment, alcohol, or illegal drug use.

### Values of Concern:

- Neighboring communities and private residences in California and Oregon.
- Critical communication and utility infrastructure including high power transmission lines, DOD/AT&T fiber optic cable, communication sites and repeaters.
- Highway 199 providing a main thoroughfare for inland and coastal areas of Southern Oregon and Northern California.
- Many historic, natural, cultural and recreational values within the fire area including historic buildings and multiple T&E species.
- Economic values impacted by area closures.

### Management Objectives:

- Provide for emergency personnel and public safety at all times through the utilization of a deliberate risk-informed approach, with avenues
  for feedback from personnel. Also, ensure COVID-19 precautions and best practices are met by following agency, team and county
  quidance.
- Reduce the impacts of fire on communities, major infrastructure and private lands.
- Foster and maintain relationships with the public, cooperators and stakeholders.
- Ensure coordinated, timely and accurate release of public information. When possible utilize virtual platforms.
- Maintain fiscal accountability by making good risk-informed decisions.
- All personnel assigned should receive evaluations prior to leaving the incident.

### Operational Objectives:

- Under the full suppression strategy, utilize direct and indirect tactics to minimize fire size. As feasible utilize minimum impact suppression tactics within the Red Buttes and Siskiyou Wilderness areas.
- Protect the values of concern identified above by suppressing the wildfire and utilizing point protection of structures when necessary.
- Scout, recon and identify primary and alternate containment opportunities considering resource availability and probability of success.
- Work collaboratively to refine and implement the population protection plan when necessary.
- Coordinate with lead Resource Advisor, including the Karuk Tribe representative, and operational Resource Advisors to minimize natural and cultural resource damage.
- Provide initial attack for the Rogue Siskiyou NF in the area under the Temporary Flight Restriction.
- Secure lines and mop-up to the level necessary based on site conditions associated with the values at risk to make the likelihood of escape minimal considering current/predicted weather conditions.

### FIRE WEATHER FORECAST

**FORECAST NO. 15** 

NAME OF FIRE: Slater & Devil PREDICTION FOR: Friday September 25, 2020

**UNIT:** Klamath National Forest

TIME AND DATE SIGNED: <u>Eric C. Kurth</u>

FORECAST ISSUED: 2000 Thursday 9/24/20 Julia Ruthford & Eric Kurth 971-221-6728 605-484-1172

**Incident Meteorologists** 

**WEATHER DISCUSSION:** A low pressure trough will persist over the area through Friday bringing more cool weather and high RHs to the fire area. A cold front moves through in the afternoon and early evening, bringing light rain showers, with highest rainfall over the western side. Winds today will be out of the west to southwest and breezy over ridges in the afternoon. Saturday will be dry and warmer, with winds starting light northwest and turning towards the northeast by evening.

### FRIDAY:

**WEATHER:** Mostly cloudy in the morning, with scattered showers from the afternoon into the evening. **MAXIMUM TEMPERATURE:** Highs in the lower 70s 1500 ft valleys, lower 60s mid-slopes & lower ridges and mid 50s higher ridges and peaks.

MINIMUM RELATIVE HUMIDITY: RHs remaining 80-90% in the morning, then drying with minimum afternoon RHs 50 to 60% west and around 40% east, 30% higher ridges.

### **20 FOOT WINDS:**

**Slopes and Valleys –** SW winds 2 to 4 mph becoming WSW 5 to 10 mph late morning through early afternoon, with local gusts 12 to 15 mph mid to late afternoon.

**Ridges and Peaks –** W-SW winds around 10 mph in the morning, W 12 to 15 mph with gusts to 20 to 25 mph in the afternoon.

**STABILITY:** Stable with patchy valley fog in the morning...then moderately unstable in the afternoon.

CHANCE OF RAIN: 20% through 1400...then 70% LAL: 1 Smoke Transport Wind: W-SW 15 mph

### **FRIDAY NIGHT:**

**WEATHER:** Partly cloudy and cool.

MINIMUM TEMPERATURE: Lows in the mid to upper 40s.

**MAXIMUM RELATIVE HUMIDITY:** 100%.

**20 FOOT WINDS:** NW winds 5 to 10 to 5 mph becoming down slope/down-valley 2-4 mph after midnight.

**STABILITY:** Patchy morning fog in areas that received rain. Moderate valley inversions overnight.

**CHANCE OF RAIN:** 70% in the evening then 20% after midnight. **LAL:** 1

Smoke Transport Wind: NW 10 mph.

**SATURDAY:** Drier and warmer, with humidity recovery over mid slopes in the morning 60-70%, 70-80% in the valleys. Morning winds upslope/up valley winds around 3 to 6 mph becoming NW around 6 to 12 mph in the afternoon. Along ridges and peaks W winds around 5 to 10 mph in the morning becoming NW 10 to 20 mph with gusts to 25 mph in the afternoon, then shift NE evening. Highs in the low 80s valleys to low 70s ridges. Min RHs 50% west and 40% east.

<u>OUTLOOK FOR SUNDAY THROUGH WEDNESDAY:</u> A high pressure strong ridge will continue to build over the weekend into early next week, bringing very warm and dry weather. Breezy northeast winds increase in strength and peak on Sun with poor to very poor RH recovery along mid-slopes and ridges. E to NE offshore flow will continue through early next week with strongest winds overnight into the morning then diminishing some each afternoon. Record high temperatures possible Tue.

FIRE BEHAVIOR FORECAST						
FORECAST NUMBER: #10	TYPE OF FIRE: Wildland Fire					
FIRE NAME: Slater and The Devil	OPERATIONAL PERIOD: Day 09/25/2020					
DATE ISSUED: 09/24/2020	TIME ISSUED: 2000 hrs					
UNIT: Klamath National Forest SIGNED: /S/ Jon Trapp (FBAN)						
WEATHER						

# High Minimum RH, Moderate Temps and Moderate Winds

See Fire Weather Forecast for Details

### **FUELS**

- Fire is burning in mixed conifer stands with a shrub understory.
- Secondary fuel types are moderate brush fields and grass shrub mix.
- Fuel Moistures Fine Dead and 10-hour fuels will increase with overnight moisture and relative humidity

### **FIRE BEHAVIOR**

### GENERAL:

- Primarily smoldering and creeping fire activity due to higher relative humidity across the fire area.
- Fire activity will start picking up as 10s and 100 hour fuels dry. 1,000 hour fuels are still below 10% and ready to burn.
- Expect flame lengths to be less than 1 foot, and rates of spread to be less than 1 chain/hr.

### **AIR OPERATIONS**

Air resources should have clear air over the Devil Fire and the southern portion of Slater Fire.

### **SAFETY**

Conditions will allow for direct attack options, but will increase risk from hazard trees.

Look up down and all around.

# SAFETY MESSAGE

# Slater Fire

September 24, 2020

# COVID-19

Wildland Fire in the age of COVID. This virus is serious and doesn't discriminate. There are still a lot of unknown about it what is known is there are ways to protect yourself and those around you. Everyone on this incident must and will take it serious.

# What are your responsibilities to prevent the spread of the virus

- Wear a mask that covers both nose and mouth
- Wash hands often with hand sanitizer or soap and water
- Maintain social distancing
- Disinfect and clean common spaces
- Regular monitoring and self-assessment report any symptoms to supervisor

Fever or chills Muscle/ body aches
Cough Loss of taste or smell

Shortness of breath Fatigue

# Leaders Intent

- > "Everyone on this incident, regardless of position has the right to safe work and environment and is empowered to direct a person to back up in they get within six feet"
- > Resources will maintain a "Module of One" concept
- > Resources must maintain "Social Distancing" practices of minimum of six feet separation when possible
- Cloth face covering at a minimum will be required in meetings and briefings, especially when interaction with individual outside of your "Module of One"
- Conduct daily self-assessments and temperature checks when possible. Isolate immediately and report to the Medical Unit if you show any symptoms of COVID-19

Respect one another - Thanks for your Efforts - Keep it up!

### 7. Control Operations/Work assignments:

O-286 READ Benjamin Daly

Pasources Assigned this Pariod

**Task:** Clear and patrol Happy Camp Road/Grayback Road and other access roads that give access to the fire edge. Mitigate hazard trees that could fall in roadway. Patrol and monitor Happy Camp Road/Grayback Road daily once initial clearing has occurred. Minimize any additional trees that will impact road in the future. Mop-up control lines and around structures as appropriate to secure these areas. Scout and communicate alternate control lines should primary lines fail.

Daly, Benjamin

0700 Happy Camp

1900 Happy Camp

**Purpose:** Allow safe access between the north and south ends of fire to Bolan Lookout communications site and to fire edges. Protect life, property, and resource values. Bring fire down to control lines across the division where appropriate.

End State: Maintain roadways for safe travel of fire resources. All line on the Division is direct control line.

8. Special Instructions: Backhaul any excess line supplies and trash. Air support as needed.

10/2

**Mop up Standards:** The level of mop-up intensity will be based on site conditions associated with the values at risk, fuel bed receptiveness, and spread potential in the areas adjacent to the containment line to the extent necessary to make the likelihood of escape minimal. Operate based on your professional experience and current/predicted weather conditions.

### 7. Control Operations/Work Assignments:

Task: Maintain and prepare indirect line on the northern boundary Seiad. Patrol Devil (south edge) by air. Continue to secure Thompson Creek road with black line operations as necessary moving north. Mop-up control lines and around structures as appropriate to secure these areas. Scout and communicate alternate control lines should primary lines fail.

Purpose: Protect life, property, and resource values. Bring fire down to control lines across the division where appropriate.

**End State:** Keep Slater Fire west of Thompson Creek Road. Community of Seiad is secure from fire. Keep Devil fire from moving south of current location. All line on the Division is direct control line.

### 8. Special Instructions: Backhaul any excess line supplies and trash. Air support as needed.

**Mop up Standards:** The level of mop-up intensity will be based on site conditions associated with the values at risk, fuel bed receptiveness, and spread potential in the areas adjacent to the containment line to the extent necessary to make the likelihood of escape minimal. Operate based on your professional experience and current/predicted weather conditions.

### 7. Control Operations/Work assignments:

Task: Secure, improve, and hold containment lines within Division from division break with DIV RR to Althouse Crk to the North. Hold containment lines south along Althouse Creek Road to the 0-11 road. Continue mop-up along Althouse Creek on north end of division as fire backs to the creek. Complete prep on dozer line from 0-18 road to FS 4703, locate and contain any spots over dozer line. Secure dozer line from 0-42 to Sucker Creek and prep for black lining where necessary.

**Purpose:** Keep fire south of Althouse Creek along northern portion of division and west of Althouse road to minimize fire spread north into areas with additional values at risk. Protect life and property within division.

**End State:** Fire spread north into areas with higher values at risk is minimized. Division resources execute their respective missions and return safely at end of shift. All resource assignments are clearly understood. Resources are under clear command and within span of control.

8. Special Instructions: Safety: Be aware of hazards due to active mining claims in the area. Constructed line is in steep terrain. Watch footing, potential rollout, and snags in burned area. Current dozer line construction and operations on BLM property in division has been verbally approved by Bureau of Land Management resource (Jim Berge). Work with your resource advisor to avoid open mine shafts and protect cultural resource.

**Mop up Standards:** The level of mop-up intensity will be based on site conditions associated with the values at risk, fuel bed receptiveness, and spread potential in the areas adjacent to the containment line to the extent necessary to make the likelihood of escape minimal. Operate based on your professional experience and current/predicted weather conditions.

### 7. Control Operations/Work assignments:

**Task:** Continue prepping indirect line with Masticators from Sucker Creek to Limestone trailhead as well as the 4612 road. Continue prepping Limestone Trail and Dozer line with crews.

Engine personnel to assess and implement prep needs for improvements/structures in mining claims along Sucker Cr Continue to evaluate opportunities to go direct in Sucker and Left Fork of Sucker Cr drainage.

Stage dozer at DP-61

**Purpose:** Protect life and property along the Highway 46 and Oregon Caves National Monument. Establish an anchor point for Branch V operations to minimize fire spread towards the Oregon Caves National Monument.

**End State:** Threat of fire spread along Highway 46 and Oregon Caves National Monument is minimized. Division resources execute their respective missions and all resources are under clear command and control.

8. Special Instructions: Develop management action point on south edge of Oregon Caves National Monument boundary. Proposed action would be to consider activating structure protection sprinklers, dependent on observed rates of spread.

Work with your resource advisor to protect cultural resources, rare plants, and the Oregon Caves National Monument.

### 7. Control Operations/Work assignments:

Task: Mop up the hand lines off the 1040 RD. Continue to hold the fire south of the 1040 Road, and the Butte Fork Creek to the West of DP-16. To the East hold the fire on the hand line off the 1040 RD and utilizing The Old Miller Complex burn scar to slow the fire to the East and keep it in the Wilderness and Designated Roadless Area.

Purpose: Protect life and property in the Jobar Community, the cabin near the California Dip, and the USFS Harlow cabin.

End State: Threat of fire spread is minimized. Division resources are executing their respective missions and all resources are under clear command and control.

### 7. Control Operations/Work Assignments

Task: Establish control line around fire perimeter w. of Hwy.199. Use Structure Group to mop up & monitor in Dwight Cr. & Elk Cr. Continue contingency line in Arrowhead housing. Scout/communicate alternate control lines should primary lines fail. Coordinate w/ Branch VIII on control lines and firing op. to contain fire w. of 199. Continue to seek direct control lines from Monkey Ridge north to Blue Cr.

**Purpose:** Protect life and property in the O'Brien community. Establish Branch VII ops. anchor pt. Coordinate w/ adjacent DIVS on firing ops. Keep planned ignition area as small as possible. Continue looking for direct line opportunities.

End State: Threat of fire spread on the west side of Hwy.199 into O'Brien is minimized.

### 8. Special Instructions:

Validate existing dozer and hand lines are spatially defined in Collector. If dozer line is planned to cross Bureau of Land Management, consult with READ. Coordinate with adjoining resources in Branch VIII regarding progress or barriers to containment of fire west of Hwy.199. Coordinate w/ Structure Branch resources adjacent to DIV. Communicate resource status and supply orders to Branch VII by 1400 daily. Avoid ground disturbance in the W. Fork Illinois River RNA & Oregon Mtn. Botanical Area. Within a ¼ of a mile of the river ground disturbance should be avoided. **Mop up Standards:** Level of mop-up intensity will be based on site conditions associated w/ values at risk, fuel bed receptiveness, and spread potential in the areas adjacent to the containment line to the extent necessary to make the likelihood of escape minimal. Operate based on your professional experience and current/predicted weather.

### 7. Control Operations/Work assignments:

**Task:** DIVPP has assumed control operations in the former adjacent DIVRR. Mop up to be defined specifically for defined areas. In areas near structures, mop up standards may be greater than area's without structures. Coordinate with Structure Group to identify mop up needs south and west of DP53. Previous days shift included Structure group gathering detailed information around structures south and west of Takilma Rd.

Purpose: Protect life, property, and resource values on entire division.

End State: Threat of fire spread and further impact of the community of Takilma is minimized. Division and Structure Group resources are executing their respective missions and all resources are under clear command and control.

7. Special Instructions: Mop up Standards: Mop up Standards: The level of mop-up intensity will be based upon on-site conditions (at the division or task force leader level) of the value(s)at risk. If greater depth from containment lines is required near structures; ensure work area has been scouted for hazardous trees. Utilize FALM to assist with assessing working areas.

### 6. Control Operations/Work assignments:

**Task:** Scout areas on the south and west side of fire to determine contingency lines from Division break to town of Gasquet. Assess the Little Jones Road Corridor as possible contingency line to the wilderness boundary. Continue to access structures along the Hwy 199 corridor.

Purpose: Determine resource needs and locations of contingency lines to prevent fire spread.

End State: Fire is contained within control and contingency lines.

7. Special Instructions: Spike camp at Grassy Campground off Hwy 199. Continue to scout and prep counting your lines. Assist with structure protection as needed. Use Chippers along the Jawbone Road and elsewhere if needed.

### 7. Control Operations/Work assignments:

**Task:** Continue prepping Knopki creek road from previous days burns towards Haystack Mountain. Hold and secure sections of Knopki road and Hwy199 that have been burned in previous days. Scout and prep potential handline along wilderness boundary to tie into Naches fire scar.

Purpose: Hold the fire east of Hwy 199 and north and east of Knopki creek road and eventually tie the fire back into the wilderness.

End State: Fire remains east of Hwy 199 and north and east of Knopki Creek road and is tied into natural barriers in the wilderness. To prevent fire spread from going west of Hwy 199.

8. Special Instructions: Scout area to determine contingency lines and what equipment and resources needed for completion. Prepare for hose lay operations as fire line moves towards the designated wilderness areas. As weather permits utilize aerial ignition to begin backing fire from the ridge down towards Knopki road. Resources will spike at Grass Flats CG.

### 7. Control Operations/Work assignments:

Task: Continue improvements and prep work on contingency lines to prevent movement and contain fire on west side of Highway 199. Continue black lining along Monkey Ridge Rd.

Purpose: Keep fire movement in check. Contain fire on west side of Highway 199 tunnel to DIVS DD/GG break to keep it from growing in size.

End State: Fire movement is stopped and contained east of the Monkey Creek drainage.

8. Special Instructions: Spike Camp at Grassy Flats. Use dozers and tactical water tenders to suppress and hold fire east of Monkey Ridge - FS 18N14 road. Work with your resource advisors about avoidance areas, cultural resources.

7. Control Operations/Work Task: Structure Group and corres structures 100' and conduct taction	sponding D	vision v							

**Purpose:** Allow Structure Group and corresponding DIVS the opportunity to focus on the strategies and tactics to protect structures and keep the fire from spreading into the communities.

**End State:** Wildfire threat to the communities and critical infrastructure are reduced. All resources shall be aware of structure assessments, safety zones, and water sources. Divisions and Structure Group will work together so that command and control of resources are clearly defined. Ensure mop up 100' around structures affected by fire.

**8. Special Instructions:** Community members still living in the evacuation area. They may not be cooperative. Document in Survey123 as allowed by homeowner. Ensure LCES are defined, communicated, and understood by all crews working in your Group and DIVS.

# Micro-trash:

Micro-trash refers to any small piece of trash in the environment that is dangerous (even deadly) to wildlife when ingested in addition to being an eye-sore on the landscape. Micro-trash is anything from cigarette butts and gum wrappers to single use water bottles (which we use frequently on fires), candy wrappers, tiny fruit labels, and various other discarded pieces of packaging and related plastic. The watersheds within the Slater Fire Perimeter are some of the most pristine in the US and home to a diverse amount of wildlife.

- Keep your breakfast, lunch and snack trash secure by taking it with you and off the fireline.
- If you find large amounts micro-trash or just trash in general, note the location and pass the information along to a READ

# Remember:

- Weed Wash: Please remember to use the weed wash when checkingin and during demob. Resources that arrived without initial weedwashing are being cycled through by division. Do not park in the flagged off weed patch at the mill site briefing area
- Fish Screens: Please ensure that Mark 3 and engine/tender suction hoses have a 3/16" fish screen attached when drafting. Do not draft from areas marked as no-draft zones due to the presence of invasive aquatic species.
- Port-Orford cedar root disease: All water tenders and engines will apply bleach to their tanks in a 1 to 1000 ratio (using bleach with 6.0 % sodium hypochlorite).

# **Slater Fire**

# Demobilization Check-out Instructions

Due to Covid-19 safety precautions, we will be using virtual approvals instead of obtaining signatures on a paper copy of the ICS-221 form.

All departing resources will complete the Demobilization Check-out process by the contact methods listed below. *The unit's approving official will notify the Demob unit of your clearance.* 

# Lake Selmac

Weed Wash Station- located at Lake Selmac
Supply - Lake Selmac Base Camp
Communications - Lake Selmac Base Camp
Facilities - Lake Selmac Base Camp
Ground Support (vehicle inspections) - Lake Selmac Base Camp parking lot

# **Happy Camp**

Please see Connie at Base Camp Headquarters

**Time - submit all records to 2020.slater.finance.north@firenet.gov**Documentation - submit all records to: 2020.slater.plans.north@firenet.gov

Demob – Scan the QR code below to access a form to enter your ETAs prior to departing ICP. This will ensure that IROC gets accurately updated of your release from the incident.

\*\*Any resource requiring commercial air travel, must make those arrangements with the Demob unit at least 72 hours in advance.\*\*

Please call the Demob Unit (contactless only) if you need assistance!

# FINANCE PROCEDURES

### **How to Check in with Finance**

- <u>Contractors & Cooperators</u>: Scan, take a picture, or attach an electronic copy of your 1. Resource Order,
  - 2. Agreement, 3. Pre-Use Equipment Inspection (if applicable), 4. Crew Manifest (if applicable), and 5. Travel Shift Ticket signed by your supervisor and email to <a href="mailto:2020.Slater.Finance.North@firenet.gov">2020.Slater.Finance.North@firenet.gov</a> with <a href="mailto:Finance.North@firenet.gov">Finance Check In & your Resource Order #</a> in the subject line.
- <u>ADs/Casual Hires:</u> Scan, take a picture, or attach an electronic copy of your 1. Resource Order, 2. Casual Hire Form with ECI#, and 3. Forest Service ADs only: Receipts for travel to the incident if the fire will be processing your travel and email to <a href="mailto:2020.Slater.Finance.North@firenet.gov">2020.Slater.Finance.North@firenet.gov</a> with <a href="mailto:Finance.North@firenet.gov">Finance Check In & your Resource Order #</a> in the subject line.
- <u>Federal or State Gov't Employees:</u> Scan, take a picture, or attach an electronic copy of your 1. Resource Order and email it to <a href="mailto:2020.Slater.Finance.North@firenet.gov">2020.Slater.Finance.North@firenet.gov</a> with <a href="mailto:Finance Check In & your Resource Order #" in the subject line.">2020.Slater.Finance.North@firenet.gov</a>
- ODF, OSFM and Local Fire Support resources DO NOT need to check in with Finance.

### **How to Submit Your Time**

All resources must submit their time to Slater North Finance **EXCEPT OSFM and Local Fire Support All other resources have two options:** 

- Fill out your CTR/Shift Ticket, have your supervisor sign it, take a picture of it, and email
  it to Finance with the word <u>Time & your Resource Order #</u> in the subject line:
   <u>2020.Slater.Finance.North@firenet.gov</u>.
- Fill out an electronic CTR/Shift Ticket, email it to your supervisor to sign, and then email
  it to Finance with the word <u>Time & your Resource Order #</u> in the subject line:
   2020.Slater.Finance.North@firenet.gov.

# Slater North Finance Phone Number: (541) 450-9632

Please Include a contact email and cell phone in the remarks of your CTR or Shift Ticket in case there are questions about your time. Do not wait to turn in your time. The electronic process may take some extra time, and we want to make this as smooth as possible for you. Thank you!

# SLATER AND DEVIL FIRES CHECK-IN

# Illinois Valley Support, ODF, & Large Fire Support Resources

Follow these check-in steps if your resource order shows you as assigned to Illinois Valley Support (ODF) or Large Fire Support:

- 1) Call status check in at 406-270-9870 or email 2020.slater.plans.north@firenet.gov
- 2) Provide the following information:
  - arrival date/time,
  - resource order number,
  - resource name,
  - contact information (name, phone number, email),
  - first work day,
  - number of total personnel.

# **Slater Fire Assigned Resources**

If your resource order shows you as assigned to the Slater Fire, follow these check-in steps:

- 1) Fill out and submit the online check-in form available at <a href="https://linktr.ee/slater\_incident">https://linktr.ee/slater\_incident</a> (or scan the QR code). Use your resource order to help you answer the questions.
- 2) Email copies of your 1) resource order; 2) red/qualification cards (line resources); and 3) manifest/roster (if applicable) to <a href="mailto:2020.slater.plans.north@firenet.gov">2020.slater.plans.north@firenet.gov</a> with your resource order number in the subject line.
- 3) Email copies of your finance paperwork to <a href="mailto:2020.slater.finance.north@firenet.gov">2020.slater.finance.north@firenet.gov</a> with "Finance Check In" and your resource order number in the subject line. See the finance page in the IAP for more information.
- 4) Wait for confirmation that you are checked in. Check in will provide instructions for how to contact your division. Contact check-in at 406-270-9870 or <a href="mailto:2020.slater.plans.north@firenet.gov">2020.slater.plans.north@firenet.gov</a> if you have not been contacted within 2 hours of initially emailing your paperwork.

### TRAINING MESSAGE

<u>Check-in</u> – If you have a position task book (PTB), please check in by scanning the QR code below to initiate the registration process. Please complete the form in its entirety. To complete the registration process, at your earliest convenience, please email a copy of your qualification card and position task book cover to Debra Burgos, TNSP at <u>debra.burgos@usda.gov</u> (if you have questions, please call 404-987-3256).

For your convenience, an electronic ICS-225 or ICS-226 and Evaluation Record with be sent to you after you complete the registration process.

### **SLATER FIRE TRAINEE REGISTRATION**

<u>Demob</u> – In order to receive credit for your assignment, you must 'close out' with the Training Specialist prior to departure.

Close out requirements include:

- 1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB;
- 2. Obtain an Incident Performance Evaluation;
- 3. Obtain an Evaluation Record;
- 4. If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page);
- 5. Email all documentation (including item #3, when appropriate) to <a href="mailto:debra.burgos@usda.gov">debra.burgos@usda.gov</a> (please do not text);
- 6. Complete Exit Interview Scan QR Code below.
