## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 21	<b>TYPE OF FIRE</b> Wildfire
<b>FIRE NAME:</b> North Complex	<b>OPERATIONAL PERIOD</b> 09/09-9/10/ Day/Night 2020
<b>DATE ISSUED</b> Tuesday, Sept. 8, 2020	<b>TIME ISSUED</b> 2000
<b>UNIT</b> Plumas National Forest	<b>SIGNED</b> Rich McCrea FBAN Diondray Wiley, FBAN (T) 

### INPUTS

**\*\*\*RED FLAG WARNING FOR GUSTY WINDS AND LOW RH THROUGH NOON\*\*\***

**WEATHER SUMMARY:**

**WEATHER:** Gusty NE winds, dry conditions through early afternoon, shifting ENE. Sunny

**MAX TEMP:** Mid Slope & Valleys: 84-89° Upper Slopes & Ridges: 72-77° **MIN RH:** 7-13%

**20 FOOT WINDS:** Valley/Lower Slopes: ENE 10-15 mph gust 20 mph, becoming E 10 mph after 1300.  
Upper Slopes & Ridges ENE 10-15 mph

**LAL: 1 CHANCE OF WETTING RAIN** ( $\geq 0.10''$ ): 0%

**FUELS:** The major fuel types, found in and around the fire area are timber litter and shrubs.

**Ignition Receptiveness:** ERC levels are just below the 90<sup>th</sup> percentile. Probability of Ignition Day 90% Night 40%.

**Dryness:** Dead and down fuel moistures :1 hour – 3% day, 10 hour– 4%, 100 hour–6%, and 1000 hour– 7%.

### FIRE BEHAVIOR

The weather will remain hot and dry over the next few days. Expect a moderate risk burn environment due to high temperatures, low RH and critically low fuel moistures, live and dead. Limited overnight recovery. Where fuel, topography and wind align, expect a significant increase in fire activity from active to very active (crown fire and long-range spotting).

### SPECIFIC FIRE BEHAVIOR:

**Branch II North Zone:**

**Division P:** Minimal activity consisting of creeping and smoldering.

**Division S/V/X/Z:** These divisions are in mop-up/patrol status. Expect interior islands and heavies to be consumed.

**Branch VII South Zone:**

**Division JJ:** Fire activity will increase dramatically with fuel, slope and wind alignment. NE winds are predicted through noon and then East. Logging roads and clear-cut areas should reduce fire behavior towards the South and South West of the latest fire progression.

**Division GG:** No fire activity expected

**Division DD:** unstaffed.

**Branch X North Zone:**

**Division AA:** NE winds should assist with holding and mopping up control lines.

**Division MM/QQ:** Expect minimal fire activity

**Division TT:** The fire will continue to move up the ridge and test containment lines (DP88). Watch for rolling material and associated upslope runs with the predicted NE and E winds.

**Night Division:** Limited overnight RH recovery may extend the burn period. Winds will be East 5-10 mph. The General wind coupled with the Diurnal downslope may increase the wind in drainages.

### AIR OPERATIONS

Air operations on the West side of the fire will be limited due to smokey conditions.

### Safety Message

**Standard Firefighting Orders:** Base all action on current and expected behavior of the fire.

# North Complex– Safety Message

INCIDENT #CA-PNF-001308

DATE: 09-9/10-2020 TIME: 0600-0600 Day/Night Shift

## Mission Analysis and Engagement

- What is the mission, what is the assignment?
- Are all hazards identified and made known?
- Is additional information needed?
- Lookouts – Communications – Escape Routes – Safety Zones
- Situational Awareness – Perception of the elements in the environment!  
Comprehension of the situation and Projection of Future Status.

***Be sure all elements of your safety plan are in place prior to engagement***

### Communication Responsibilities

All Firefighters have five communication responsibilities

- \***Briefings** – All resources require briefings. Use briefing checklist in pocket guide.
- \***Debrief Actions** – as necessary. Use pocket guide After Action Review to stimulate discussion and provide guidance.
- \***Communicate Hazards to Others**
- \***Acknowledge messages**
- \***Ask if you do not know** – Ask questions in unfamiliar situations. The only dumb question is the one you did not ask.

### Mitigate or Change Tactics When Faced With

- Indirect Fireline
- Compromised LCES
- Frontal Assault
- Change in wind speed and/or direction
- Re-burn Potential
- Predicted Lightning
- Lack of Communications
- Structural Protection
- Spotting Becomes Common
- Downhill Line Construction

---

## ***North Complex COVID-19 Expectations***

---

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- **As you travel through the local communities proximal to the fire, be mindful that in the State of California, face coverings are required inside local businesses.**
- Being a Federal fire, incident personnel are expected to comply with the following Region 5 and incident guidance.
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus. This limits “close contacts” to those within the module. A “close contact” is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks.
- **Social Distancing.** Maintain a minimum of 6’ physical distancing, especially from those outside of your module-as-one.
- **Face Coverings.** Face coverings are required to be worn, **in the appropriate manner covering nose and mouth**, when in identified “mask areas” at Camp. Outside of camp, all incident personnel will wear a face covering when social distancing is not possible, especially with those outside your module-as-one.
- **Wash your hands.** Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

## FINANCE SECTION STANDARD OPERATING PROCEDURES

---

### **WORK REST CYCLE**

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

### **OPERATIONAL SHIFTS**

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional time may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

### **DUTY STATUS**

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed **at least 8 hours** of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

### **PERSONNEL/EQUIPMENT TIME REPORTING**

Personnel time will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

Private Contracted Equipment time must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

### **MEAL AND OTHER WORK BREAKS**

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation. Please also show in remarks section what division you are working in.

## HUMAN RESOURCE MESSAGE

### Self-Control

Self-control is strength. Calmness is mastery,  
You must get to a point where your mood doesn't shift based on the actions of  
someone else.

Don't allow others to control your emotions and in doing so overpower your  
intelligence.

Be kind, patient and respectful to one another as we share a common goal and have  
many days left to get it done together. Anything else is not acceptable.

Be safe ~ Have a great shift.

Feel free to call/text HRSP if you have questions, concerns, or just want to chat. ~

# Maidu Requests for Visiting Homeland

## 1. "Be good to the land and the land will be good to you." Maidu quote

Thank you fire fighters for helping us keep our homes and cultural sites safe.

## 2. Enjoy your visit in the Mountain Maidu and Valley Maidu homelands.

Archeological sites and the resources they contain are not public property. A place, site or resource may have significance to a family or local tribe, which often carries with it a special level of protection.

## 3. Take care to avoid injuries.

Cultural sites are very old and fragile. Archeological resources are anything over 50 years old and can therefore erode easily. Also, historic dump sites can be hazardous, with sharp glass, rusty metal, and compounds and chemicals that can harm you.

## 4. Enjoy with care.

Oils from skin damage pictographs (rock paintings) and petroglyphs (rock carvings). It ruins irreplaceable historic resources, and it is illegal.

## 5. Don't touch the knickknacks.

**ALWAYS LEAVE ARTIFACTS RIGHT WHERE YOU FIND THEM.** Out of context, artifacts mean little to archeologists. Often the most important aspect of archeological resources is their relationship to the place and other adjacent resources. Archeological sites and artifacts are our direct link to stories that otherwise might not be told. How can these stories be complete or accurate if the setting is altered or lost? For this and other reasons, it is illegal to move or remove artifacts.

## 6. Feel free to discover.

Some of the sites are identified, and some sites are not recorded. If you happen to come across a cultural site we ask you to treat it like you would any cultural artifact. And note the location and report it to a Resource Advisor.

Speak with resource advisors about the potential for archaeological sites being located adjacent to roads or proposed fire lines. It's easy to destroy features and artifacts in the dark.

- Over approximately 160 years, many changes have reshaped tribal relationships with these vast landscapes as well as with each other, and yet our knowledge of and responsibilities to these incredibly rich and vast landscapes remains strong. **We appreciate your dedication to care for and building your own relationships with our natural environment while protecting these fragile and irreplaceable resources!**
