North Complex: Claremont & Bear Fires Weather Forecast

Incident Meteorologist: Tony Fuentes

FORECAST NO: 20 UNIT: CA-PNF

SHIFT DATE: Thursday, Sep 10th, 2020

PREDICTION FOR: 0600 - 0600 FORECAST ISSUED: 2000 hrs. 9/9/20

WEATHER DISCUSSION: Typical southwest afternoon breezes will return this afternoon with warm and dry conditions continuing into Saturday. An incoming low pressure system may increase SW wind gusts on Sunday and into early next week with critical fire weather conditions possible. No precipitation is expected into early next week.

Today (0600-1800):

Weather: Southwest breezes return. Increasing areas of smoke. Sunny.

High Temperatures: (24hr Trend: Little Change)

Upper Slopes & Ridges: 69-75°F (21-24°C)

Mid Slopes & Valleys: 85-90°F (29-32°C) **Afternoon Min RH:** 10-15% (24hr Trend: +3%)

20 Foot Winds: (24hr Trend: Winds becoming SW)

Valleys/Low Slopes: Down drainage 5-8 mph, then SW 7-10 mph after 1100. (8-13kph, then 11-16kph)

Ridges/Upper Slopes: Down drainage 4-7 mph, then SW 10 mph after 1100. (6-11kph, then 16kph)

Transport Wind: SW 10-13 mph (16-22kph)

LAL: 1 Chance of Wetting Rain (> or = to 0.10"): 0%

A.M. Inversion/Thermal Belt: 6,000-6,500ft MSL

Afternoon Mixing Height: 11,000 feet AGL.

Tonight (1800-0600):

Weather: Clear, areas of smoke.

Low Temps: Valleys: 40-45°F (3-6°C) Slopes/Ridges: 58-63° F (14-17°C) (24hr Trend: +2° F)

Max RH: Valleys: 65-85% Slopes/Ridges: 30-35% (24hr Trend: +10%)

20 Foot Winds:

Lower Slopes: SW 5-10 mph, becoming down drainage 5-8 mph after 2200. (8-16kph, then 8-13kph) **Upper Slopes:** SW 5-10 mph, becoming down drainage 4-7 mph after 2200. (8-16kph, then 6-11kph)

LAL: 1 Chance of Wetting Rain (> OR = to 0.10"): 0%

Inversion: 6,000-6,500ft MSL.

<u>2-5 Day Outlook, Friday-Monday</u>: Warm/dry into Sat. Gusty SW winds, low RH. Critical Fire Weather possible. High pressure rebuilds across the region resulting in lighter southwesterly breezes along with warming and drying conditions through the weekend. An incoming low pressure across the Pacific Northwest may result in increasing gusty southwest winds by Sunday through early next week.

Latest Weather Observations near the Incident

FIRE BEHAVIOR FORECAST									
FORECAST NUMBER: 22	TYPE OF FIRE Wildfire								
FIRE NAME: North Complex	OPERATIONAL PERIOD 09/10-9/11 Day/Night 2020								
DATE ISSUED Wednesday, Sept. 9, 2020	TIME ISSUED 2000								
UNIT Plumas National Forest	SIGNED Rich McCrea FBAN Diondray Wiley, FBAN (T)								

INPUTS

WEATHER SUMMARY:

WEATHER: Southwest breeze return. Increase areas of smoke. Sunny

MAX TEMP: Mid Slope & Valleys: 85-90° Upper Slopes & Ridges: 69-75° MIN RH: 10-15% 20 FOOT WINDS: Valley/Lower Slopes: Down drainage 5-8 mph, then SW 7-10 mph after 1100.

Upper Slopes & Ridges Down drainage 4-7, then **SW 10 mph** after1100

LAL: 1 **CHANCE OF WETTING RAIN** (≥ 0.10"): 0%

FUELS: The major fuel types, found in and around the fire area are timber litter and shrubs.

Ignition Receptiveness: ERC levels are above the 90th percentile. Probability of Ignition Day 90% Night 40%.

Dryness: Dead and down fuel moistures :1 hour – 3% day, **10 hour – 3%**, 100 hour – 5%, and 1000 hour – 7%.

FIRE BEHAVIOR

Expect a moderate to high risk burn environment due to high temperatures, low RH and critically low fuel moistures, live and dead. Limited overnight recovery on ridge tops. Local Thresholds will be exceeded today 20' wind over 6mph, RH less than 20%, Temperature over 80 degrees and 10hr FM less than 5% (see forecasted above). Where fuel, topography and wind align, expect a significant increase in fire activity from active to very active (crown fire and long-range spotting). Smoke inversion may limit fire behavior in the North Zone.

SPECIFIC FIRE BEHAVIOR:

Branch V South Zone:

Division BB: Fuel/topography driven fire consisting of flanking, upslope runs and slope reversals. **Division DD:** Active fire behavior with SW/NE drainage alignment. potential for spotting and erratic winds.

Branch VII South Zone:

Division JJ: SW/NE drainage alignment will increase fire behavior, spotting and erratic winds. Anticipate fire activity from the West Zone (CALFire).

Division GG: Expect active fire behavior with potential for SW/NE drainage alignment. Possibility of erratic winds.

Branch X North Zone:

Division AA: Minimal fire activity expected.

Division MM/QQ: Expect significant fire activity as the fire continues to advance to the North with SW/NE drainage alignment and receptive fuel beds.

Division TT: DP88 will be tested with the predicted SW wind. Potential for upslope runs and spotting.

Division P: Expect creeping and smoldering.

Division S/V/X: These divisions are in mop-up/patrol status. Interior islands will continue to smolder and creep.

Night Division: Limited overnight RH recovery on the ridge tops. Winds will be SW 5-10 mph. the General wind coupled with the Diurnal downslope may increase the wind in drainages.

AIR OPERATIONS

Air operations in the North Zone may be limited due to smokey conditions.

Safety Message

WATCH OUT SITUATIONS: Weather becoming hotter and drier.

IN		H COMPLEX CA-PNF-001308 (ICS 215a) Day/Night Shift
DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	FIRE BEHAVIOR	 Are you seeing what we have predicted? Conduct thorough assessments before starting work Ensure LCES is in place Plan & Communicate your exit strategy with your crew and adjacent resources Provide additional briefing for new resources and maintain communications.
ALL	WILDLAND URBAN INTERFACE OPERATIONS	 Maintain continuous Situational Awareness based upon the fire environment, observed fire behavior, hazards and incident objectives. Key to success in the WUI is preparation and preplanning. Be active and engage in defense preparations & don't wait for the fire to arrive. Be decisive in tactical engagement. Know when to engage or not. Establish management decision points, Safety Zones, and Escape Routes.
ALL	HAZARD / DANGER TREES	 Follow Hazard Tree Safety Guidelines (IRPG p.22.) Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. Be alert around hazard trees during wind events, even green trees. The hazard zone extends a minimum of 2½ tree lengths. Avoid parking vehicles or taking breaks under or near hazard trees.
ALL	TRAFFIC HAZARDS AND DRIVING	Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing or turning around. Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent. 5mph speed limit in and around ICP, keep your speed down in all areas. Use warning lights when working on roads or traveling in smoke. Drive at or below posted speed limits. Use chock blocks, turn wheels into hill. Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents.
ALL	FIRING OPERATIONS and DEVICES	 Follow the chain of command when undertaking burning operations. Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. Wear and use appropriate PPE. Initiate burning after ensuring the plan is authorized and understood by all.
ALL	POWERLINES / UTILITIES	Notify all personnel of down electrical lines. IRPG Page 24 Take time to do a Tailgate Safety Briefing Always treat downed wires as energized. Avoid parking under any type of overhead lines. Identify all gas lines in and around structures Report damaged service lines.
ALL	AVIATION OPERATIONS	 Conduct thorough mission assessments before starting work. Follow the guidelines in the IHOG and other aviation guidelines and reference materials. Ensure coordination and communication are in place and understood by all involved resources in a mission. Ensure close coordination between Air Attack, air tankers, helicopters, and ground resources.
ALL	HEAT RELATED ILLNESS	 Drink 2 to 1 water to sports drinks. Take frequent breaks, minimum of 10 minutes every hour. Recognize symptoms of HEAT RELATED ILLNESS which include low energy, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating.
ALL	NIGHT OPERATIONS	 Have a purpose for where you drive and what you do. Don't rush into assignments. Use caution where you park or stage, especially in steep timbered areas. Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area. Increase SA by trying to see the work area during daylight hours. Use glow sticks to mark hazards, and ensure personnel have headlamps.
ALL	HEAVY EQUIPMENT OPERATIONS	 Ensure communications are established with operators (Visual & Radio) Avoid working downslope from heavy equipment. Maintain a 50'-150' exclusion area around equipment. In timber increase safety distance to 2 ½ times canopy height.
ALL	COVID-19	 Utilize social distancing, wear facemasks in camp. Maintain the "module of one" concept. Disinfect vehicles, tools, and commonly touch surfaces frequently. Do not share equipment and wash hands frequently.
	INCIDENTNAME:	Operational Period: 0600-0600

North Complex

September 10/11, 2020

DATE AND TIME PREPARED:

September 9, 2020 1600

North Complex - Safety Message

INCIDENT # CA-PNF-001308

DATE: 09-10/11-2020 TIME:0600-0600 Day/Night Shift

Emotional Awareness

Wildfires with a wide range of destruction can cause mood swings, sleep disruption, and stress reactions. Take care of yourself by;

- Talking to a trusted friend, colleague, adviser, or family about what your feeling.
- Staying connected to life outside of the fire.
- Taking frequent breaks from firefighting efforts if feasible.
- Eating healthy and get plenty of sleep.

Command and Control

Ask yourself key questions:

- Are tasks in alignment with tactical objectives?
- Are tactical objectives in alignment with the strategic objectives?
- Are the strategic objectives in alignment with the incident priorities?
- What am I going to do to make a positive impact on this incident today?

Wildland Urban Interface

- Maintain continuous situational awareness.
- Key to success in the WUI is preparation and preplanning.
- Be active and engage in defense preparations and don't wait for the fire to arrive.
- Be decisive in tactical engagement. Know when to engage or disengage.
- Establish management decision points, safety zones, and escape routes.
- Expect to encounter hazardous conditions such as solar, septic tanks, propane, increased carcinogens due to plastics and other materials.

Ensure....

- Strategic and tactical decisions take into account extended duration firefighting efforts with massive destruction.
- Tactical decisions keep pace with the evolving fire conditions and behavior.
- Firefighting operations are coordinated with adjacent branches, divisions, and groups.
- Specific firefighting tasks are consistent with the strategy and tactics to control the incident.
- We avoid the arrogance of success or, think what we did yesterday will be sufficient for tomorrow.

 AND TOTAL

 AND T

Prepared by:

CIIMT 4 Safety Group

North Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- As you travel through the local communities proximal to the fire, be mindful that in the State of California, face coverings are required inside local businesses.
- Being a Federal fire, incident personnel are expected to comply with the following Region 5 and incident guidance.
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus. This limits "close contacts" to those within the module. A "close contact" is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks.
- <u>Social Distancing.</u> Maintain a minimum of 6' physical distancing, especially from those outside of your module-as-one.
- Face Coverings. Face coverings are required to be worn, in the appropriate manner covering nose and mouth, when in identified "mask areas" at Camp. Outside of camp, all incident personnel will wear a face covering when social distancing is not possible, especially with those outside your module-as-one.
- Wash your hands. Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

NORTH COMPLEX COVID-19 DAILY SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom

Cough more than expected?

Shortness of breath or difficulty breathing?

Fever? Chills?

Muscle pain, outside your normal for firefighting?

Sore throat?

New loss of taste or smell?

Fatigue, outside your normal for firefighting?

Headache, outside your normal for firefighting?

Congestion or runny nose, outside your normal for firefighting?

Nausea or vomiting

Diarrhea

* Take temperature with no-touch thermometer, if available *

Instructions for Screening

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed. At entries to established camps (ICP):	NOTIFY SUPERVISOR IMMEDIATELY DO NOT ANNOUNCE
COVID-19 Daily Screening Tool will be posted for self screening of Incident Personnel, Cooperators and Guests.	Ask individual or "module-as-one" to step aside and follow the steps
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	below.

Steps to follow for a symptomatic screening

Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel.

Isolation support personnel should begin documentation.

Notify Line Medics or MEDL if at ICP.

COVID Safety will coordinate with Incident COVID Advisor.

Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet.

Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

https://www.edc.gov/coronavirus/2019-neov/symptoms-testing/symptoms.html

Medical Incident Report

FOR A <u>NON-EMERGENCY INCIDENT</u>: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A <u>MEDICAL EMERGENCY</u>: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency	IMMEDIATE	_	° – 3° burns more than 4 palm si			
AND	DYELLOW / PRIORITY	/ 2 Serious Injury or illi	ness. Evacuation may	be DELAYED If		
Transport Priority (priority 1, 2, 3)		able to walk, 2° – 3° burns not m	ore than 1-3 palm sizes. s. Non-Emergency tran	snort		
	Ex: Sprains, strains, minor		s. mon-Emergency class			
Nature of Injury or Illness &				nary of Injury or Illness ous, Struck by Falling Tree)		
Mechanism of Injury			Air Ambu	lance / Short Haul/Hoist		
Transport Request			Ground	l Ambulance / Other		
Patient Location			Descriptive Loc	ation & Lat. / Long. (WGS84)		
Incident Name			(Ex: Tro	hic Name + "Medical" out Meadow Medical)		
On-Scene Incident Commander				ene IC of Incident within an nt (Ex: TFLD Jones)		
Crew Patient Care				of Care Provider Ex: EMT Smith)		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)						
Patient Assessment: Age: (IRPG PAGE 106)	: Weight:	Chief Complaint:				
Skin Signs: (color/moisture/temp)	Level of Conscious	ness: BP:	HR:	Respirations:		
Treatment:	en e					
4. TRANSPORT PLAN:				annes per a conscious qui acons seconomico de la seconda se el contribido mentro de la contribida de la cont		
Evacuation Location (drop point, in	tersection, helispot, Lat. / Long,	hazards) Patient's E	TA to Location:			
5. ADDITIONAL RESOURCES	/ EQUIPMENT NEEDS:					
Paramedic / EMT - Crews - Immobiliza	ation Devices - AED - Oxygen - T	rauma Bag - IV/Fluid(s) - Spli	nts - Rope rescue - Wheeled I	itter - HAZMAT - Extrication		
6. COMMUNICATIONS: Identi	ify State Air/Ground EMS F	requencies and Hospit	al Contacts as applica	ble		
Function Channel Name/Num	mber Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *		
COMMAND						
AIR-TO-GRND						
TACTICAL						
7. CONTINGENCY: Considerations	: If primary options fail, what actio	ns can be implemented in con	junction with primary evacuat	ion method?		

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

Be thinking ahead.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***

FINANCE MESSAGE

We would like to offer you another option for submitting your CTR's and Shift Tickets:

- <u>Electronic fillable PDF CTR/Shift Ticket.</u> If you have QR code capability, QR codes to fillable forms are at bottom of this page. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- Hard copy CTR/Shift Ticket. You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom.

EMAIL: Write TIME in subject line and email to:

2020.northcomplex.finance@firenet.gov

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day.

WHEN YOU ARE CLOSE TO DEMOB:

- Follow the demob plan instructions based on your travel route home.
- Submit all time documentation (including travel home) ahead of demob.
- Abide by scheduled demob time.

QR codes for Electronic Times

Use this link for fillable Crew Time Report (CTR)

Use this for fillable Equipment Time Report (Shift Ticket)

FINANCE SECTION STANDARD OPERTING PROCEDURES

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional time may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

<u>Personnel time</u> will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

<u>Private Contracted Equipment time</u> must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation. Please also show in remarks section what division you are working in.

Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

You're OES AREP on the North Complex Kit Bailey 530-307-1307

THURSDAY SEPTEMBER 10 2020

Suicide Prevention Week September 6-12, 2020

We are in unprecedented times in our Nation and the world. We are being told to social distance and isolate. Studies show that these factors can have a significant impact on physical and mental health. It is important to realize that while we are talking about taking care of ourselves, we need to continue to watch out for each other, this includes our mental health. Suicide is the 10th leading cause of death in the US. Each year 47,000 Americans die by suicide. A study done in 2017 showed that more firefighters died by suicide than in the line of duty. This tragic loss of life has increased every year and does not discriminate. Exposure to traumatic events has a high impact on your mental and physical health and wellbeing.

There is no single cause to suicide. No one is beyond it, so take the time today to check in with each other. There should be no shame or embarrassment in identifying and reaching out for help.

National Suicide Prevention Lifeline: 24/7, free and confidential support for people in distress, prevention and crisis resources for you or your loved ones, and best practices for professionals. 800-273-8255 suicidepreventionlifeline.org/

Veterans Crisis Line: Confidential support available 24/7/365 for veterans and their families and friends, regardless of enrollment in VA health care. 800-273-8255 and Press 1. Text message to 838255 veteranscrisisline.net (online chat available)

American Addiction Centers Firefighter & First Responders: Peer support for behavioral health and substance abuse. 888-731-FIRE (3473) americanaddictioncenters.org/firefighters-first-responders/

Even if you haven't contemplated these thoughts, please call home and check in with those that are waiting on you. I am sure they will be glad to hear from you.

Be safe ~ Have a great shift.

Feel free to call/text
if you have questions, concerns, or
just want to chat.

~HRSP: Adam Alvarez

(707) 373-8715

Maidu Requests for Visiting Homeland

1. "Be good to the land and the land will be good to you." Maidu quote

Thank you fire fighters for helping us keep our homes and cultural sites safe.

2. Enjoy your visit in the Mountain Maidu and Valley Maidu homelands.

Archeological sites and the resources they contain are not public property. A place, site or resource may have significance to a family or local tribe, which often carries with it a special level of protection.

3. Take care to avoid injuries.

Cultural sites are very old and fragile. Archeological resources are anything over 50 years old and can therefore erode easily. Also, historic dump sites can be hazardous, with sharp glass, rusty metal, and compounds and chemicals that can harm you.

4. Enjoy with care.

Oils from skin damage pictographs (rock paintings) and petroglyphs (rock carvings). It ruins irreplaceable historic resources, and it is illegal.

5. Don't touch the knickknacks.

ALWAYS LEAVE ARTIFACTS RIGHT WHERE YOU FIND THEM. Out of context, artifacts mean little to archeologists. Often the most important aspect of archeological resources is their relationship to the place and other adjacent resources. Archeological sites and artifacts are our direct link to stories that otherwise might not be told. How can these stories be complete or accurate if the setting is altered or lost? For this and other reasons, it is illegal to move or remove artifacts.

6. Feel free to discover.

Some of the sites are identified, and some sites are not recorded. If you happen to come across a cultural site we ask you to treat it like you would any cultural artifact. And note the location and report it to a Resource Advisor.

Speak with resource advisors about the potential for archaeological sites being located adjacent to roads or proposed fire lines. It's easy to destroy features and artifacts in the dark.

 Over approximately 160 years, many changes have reshaped tribal relationships with these vast landscapes as well as with each other, and yet our knowledge of and responsibilities to these incredibly rich and vast landscapes remains strong. We appreciate your dedication to care for and building your own relationships with our natural environment while protecting these fragile and irreplaceable resources!
