North Complex Fire Weather Forecast

Forecast Number: 44

Office Responsible: CA-PNF
Shift Date: Friday, Oct 4, 2020
Incident Meteorologist: Jeff Colton

Forecast Issued At: 2000 hrs. 10/03/2020 Forecast For Shift Times: 0600 - 0600

WEATHER DISCUSSION: ...Hot and Dry Conditions through Tuesday...

High pressure centered over the Western U.S. will be breaking down this week as a strong Pacific storm approaches the west coast. This system will eventually bring cooler temperatures and improving relative humidity values. However, before it arrives, hot and dry weather will persist with an increase in southerly winds after Wednesday. At this point, confidence is increasing that a significant pattern change will occur with the potential for showers arriving over the weekend.

WEATHER FORECAST:

WEATHER: Widespread haze and smoke, otherwise clear.

TEMPERATURES: Ridges: Highs: 74-78 F / 23-26 C Lows: 48-53 F / 6-9 C

Valleys: Highs: 87-94 F / 31-33 C Lows: 61-67 F / 16-19 C

 HUMIDITY:
 Ridges/Slopes:
 Min:
 10-20%
 Max:
 20-30%

 Valleys:
 Min:
 8-16%
 Max:
 45-60%

20 FT WINDS: Ridges: Downslope/down-valley 10-15 mph / 16-24 km/h with gusts to 25 mph / 40 km/h until

1100... then winds becoming upslope/up-valley 5-10 mph / 8-16 km/h with gusts to 18 mph / 29 km/h during the afternoon. Winds returning to downslope/down-valley 5-10 mph / 8-16 km/h with gusts near 20

mph / 32 km/h after 2100.

Valleys: Downslope/down-valley 0-4 mph / 0-6 km/h until 1300...then winds becoming upslope/up-valley

4-8 mph / 6-13 km/h. Winds returning to downslope/down-valley 2-5 mph / 3-8 km/h after 2100.

CHANCE OF WETTING RAIN: 0 percent.

LAL: 1.

A.M. INVERSION/THERMAL BELT: 5000-6000 ft. / 1500-1800 m MSL.

TRANSPORT WINDS: Northeast 15 mph / 24 km/h, light and variable by noon.

OUTLOOK FOR MONDAY:

Mostly Clear (0-10%). Areas of smoke and haze. Hot and dry with minimum humidity values from 12-18%. Gusty northeast winds in the morning, becoming upslope/up-valley by midday.

EXTENDED OUTLOOK:

Tuesday through Thursday: Continued hot and dry through Wednesday with poor RH and terrain driven winds, peaking during the early morning hours. Winds will be shifting to the south by Thursday ahead of a Pacific trough that is expected to reach western California by the weekend. Temperatures will cool slightly while some improvement in RH should be expected.

Weather Word of the Day: Inversion - (abbrev. INVRN) Generally, a departure from the usual increase or decrease in an atmospheric property with altitude. Specifically it almost always refers to a temperature inversion, i.e., an increase in temperature with height, or to the layer within which such an increase occurs. An inversion is present in the lower part of a cap.

Latest Weather Observations near the Incident

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 43 TYPE OF FIRE: Wildland FIRE NAME: North Complex OPERATIONAL PERIOD: October 4, 2020 TIME ISSUED; 20:00 UNIT: Plumas National Forest SIGNED: Robert Scott – 530.990.4048c

INPUTS

WEATHER SUMMARY: Widespread haze and smoke, otherwise clear. Hot and dry weather will persist with an increase in southerly winds after Wednesday.

 Temperatures:
 Day Night
 Ridges: 74–77 Degrees (23-25 C)
 Valleys/Canyons:
 87–92 Degrees (21-33 C)

 61–67 Degrees (16-19 C)
 61–67 Degrees (16-19 C)

Relative Humidity: Ridges: Min 10%-20% Max 20%-30% Valleys: Min8%-16% Max 45%-60%

20 FT Winds: Ridgetop: Downslope/down valley 10-15 mph with gusts to 25 mph becoming upslope/up valley 5-10 mph with gusts to 18 mph in the afternoon. Evening winds downslope/down valley 5-10 mph with gusts to 20 mph.

Slope/Valley: Downslope/down valley 0-4 mph becoming upslope/up valley 4-8 mph. Evening winds downslope/down valley 2-5 mph.

Fuels and Fire Behavior Advisory for Northern California areas below 3000 feet was updated - see link in Safety Message below

Wildland Fire Assessment System Outputs (PSA NC07 - Northern Sierra):

- Severe Fire Danger Index High
- 1000 Hour FM 7% (3rd Percental)
- 100 Hour FM 6% (3rd Percental)
- ERC 83 (95th Percental)

Incident Weather Thresholds

RH Below 17%, Mid Flame Wind Speed Greater Than 8 MPH, Temperature Above 85 Degrees.

Weather is forecast to exceed thresholds but may not do so at the same time.

OUTPUTS

GENERAL FIRE BEHAVIOR:

Fire behavior is balanced between fuel temperature and fuel moisture and is very sensitive to changes fuel shading and RH. Direct sun and/or RH below 17% has been associated with transition from surface fire to group torching. Torching in areas of moderate wind or slope could produce upslope runs.

SPECIFIC:

Branch II:

DIV OO (South) – Fire will continue to back into the North Fork Feather River. Potential for roll out and moderate upslope runs exist during periods of clear air and moderate winds. Moderate and continuous surface fuels are present in the south side of the river. Fire should continue flanking east toward the penstocks.

DIV OO (North) – Fire established in the 2008 BTU Lightening Complex fire scar above Rock Creek could exhibit rapid rates of spread with wind and slope alignment. Fine fuel is dry and abundant (See **Fuels and Fire Behavior Advisory**). Shading from smoke or cloud cover will affect intensity. Breaks in smoke, especially, will lead to rapid changes in fire intensity and speed. Transition to flatter terrain and cooler conditions near The Big Hill and North Valley should reduce fire intensity.

DIV QQ/AA – Spots outside the line during periods of low RH may transition from surface fire to isolated torching. Winds will blow across the line in the afternoon hours. POI of 80% can be expected during daytime hours with short range spotting possible.

DIV MM – Fire movement down the North Fork Feather River is unlikely, but the greatest threat is during the morning hours when peak downslope winds are forecast. Fire in the thermal belt will remain active until mixing occurs near sunup. Monitor fire behavior to identify thermal belt location and monitor fire location for the potential

Branch V/XX – Though unlikely, fire established on the south side of Rubicon drainage could impact the north side at the bend in the river at Stony Creek. Monitor fire activity and set appropriate decision points.

AIR OPERATIONS:

Smokey conditions deteriorating into the afternoon as wind shifts to a westerly flow

SAFETY

JASON TREAT

BRENDAN ROBERT

6. Control Operations/Work Assignments:

Develop and implement defense plans for values at risk along the Hwy 70 corridor.

10/14

10/15

7. Special Instructions:

HEQB O-1300

HEQB (T) O-1304

Backhaul all trash, and modules need to take all trash back to ICP. Drafting restrictions to prevent spread of deadly fungus to endangered frogs. Avoidance Flagging: North Complex will be red and black candy striped. AMB1 (Wilderness Medics) @ DP130 and available branch-wide.

North Complex - Safety Message

INCIDENT #CA-PNF-001308

DATE: 10-4/5-2020 TIME: 0600-0600 Day/Night Shift

Incident Management Team Transition

- Sometimes called the 19th Watch Out Situation
- Take the time to understand the plan. Ensure all resources completely understand the assignment, the Communications Plan, and the Medical Plan.
- Supervisory positions have changed. Know who you are working for.
- Briefings: Required every shift, for all personnel, for new assignments, and for changing conditions.

Any Firefighter knows how Every firefighter should know why

Make a Safety Difference

- As a supervisor, provide constant and relentless oversight.
- Stay focused on the task at hand, all the time!
- Come up with a safer way to perform a risky assignment.
- Discuss situations that might cause a near miss.
- Never tolerate "Hey, watch this!"
- Discuss the effects of fatigue and how to mitigate the effects of fatigue.
- While in the fire zone, wear your hardhat when you leave the vehicle.
- Have a purpose in what you do.

Covid-19

- Be Smart! Stay Apart! Maintain at least 6 feet distance from people when feasible
- Practice good hygiene. Wash hands often and avoid touching your face
- Cover your nose and mouth with a facial covering and cough into your elbow if needed
- Monitor your health. If you have fever, shortness of breath, coughing, sneezing or any other Covid-19 related symptom, tell a supervisor and maintain social distancing

Prepared by:

CIIMT 4 Safety Group

North Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- As you travel through the local communities proximal to the fire, be mindful that in the State of California, face coverings are required inside local businesses.
- Being a Federal fire, incident personnel are expected to comply with the following Region 5 and incident guidance.
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus. This limits "close contacts" to those within the module. A "close contact" is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks.
- <u>Social Distancing.</u> Maintain a minimum of 6' physical distancing, especially from those outside of your module-as-one.
- <u>Face Coverings.</u> Face coverings are required to be worn, in the appropriate manner covering nose and mouth, when at ICP and camps. Outside of camps, all incident personnel will wear a face covering when social distancing is not possible, especially with those outside your module-as-one.
- Wash your hands. Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

NORTH COMPLEX COVID-19 DAILY SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

| Symptom |
|---|
| Cough more than expected? |
| Shortness of breath or difficulty breathing? |
| Fever? Chills? |
| Muscle pain, outside your normal for firefighting? |
| Sore throat? |
| New loss of taste or smell? |
| Fatigue, outside your normal for firefighting? |
| Headache, outside your normal for firefighting? |
| Congestion or runny nose, outside your normal for firefighting? |
| Nausea or vomiting |
| Diarrhea |
| * Take temperature with no-touch thermometer, if available * |

Instructions for Screening

| Item | What to Do |
|---|--|
| If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed. | NOTIFY SUPERVISOR IMMEDIATELY |
| At entries to established camps (ICP): | DO NOT ANNOUNCE |
| COVID-19 Daily Screening Tool will be posted for self screening of Incident Personnel, Cooperators and Guests. | Ask individual or "module-as-one" to step aside and follow the steps |
| If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry. | below. |

| Steps to follow for a symptomatic screening |
|--|
| Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel. |
| Isolation support personnel should begin documentation. |
| Notify Line Medics or MEDL if at ICP to begin evaluation for COVID-19 potential. |
| COVID Safety will coordinate with Incident COVID Advisor. |
| Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet. |
| Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI). |

Medical Incident Report

FOR A <u>NON-EMERGENCY INCIDENT</u>: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A <u>MEDICAL EMERGENCY</u>: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training

Be Alert - Keep Calm - Think Clearly - Act Decisively

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

| | | □RED / PRIORITY 1 IMMEDIATE | | | | | |

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hrs shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, <u>and/or</u> be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs). Off duty time will be in a non-pay status. Each federal employee is guaranteed **at least 8 hours** of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

<u>Personnel time</u> shall be emailed to Finance on electronic fillable CTR/SHIFT Tickets signed by supervisor. QR codes have these fillable forms. If you do not have QR code capability, Finance can email the forms directly to you. Hard copy CTR/Shift Ticket may be used, take a picture and email/text to Finance OR turn in actual hard copy as usual. Local Government Resources hired under CFAA will use the F-42 form. OES resources will be monitored by OES Agency Rep (if assigned) for 2/1 Work Rest compliance. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

<u>Private Contracted Equipment time</u> must be tracked on a Shift Ticket daily or every 2 days with hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.

The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Human Resource Message

Sunday October 4 2020

REBOOT YOUR RIGHTS AND RESPONSIBILITIES 2.0

Rights:

- To work in a harassment-free environment where people treat one another with dignity, equity, courtesy and respect.
- To say "no" to unwelcome advances or requests for favors.
- To file complaints or grievances through appropriate avenues.

Responsibilities:

- To behave in a manner that treats people with dignity, equity, courtesy and respect.
- To abide by agency and incident ethics and conduct regulations including zero tolerance for drugs and alcohol in the work environment.
- To report any harassment or other inappropriate behavior you observe or Experience. If you see something, say something.

ALSO

HR is available to assist you with personal issues that may have you overwhelmed.

Feel free to call/text or come by the HRSP yurt if you have questions, concerns, or just want to chat. ~ HRSP: Adam Alvarez – (707) 373-8715

North Complex Training Message

Below are the QR Codes needed to register and check out of the training program. Follow instructions in each form carefully as there are required documents we must receive to complete your training package.

If you are missing any required forms stop by training at the Incident Command Post or I can email you electronic versions, just contact me!

EMIL PICCHI, TNSP

(650) 520-5102

epicchi@woodsidefire.org

I am available at ICP or by phone, text, or email from 0630-2130 daily.

TURN IN TO FINANCE EQUIPMENT TIME DAILY

This document is intended to track, record, and validate the amount of water used on an incident. It is not intended to review the performance of equipment using water on an incident.

Maidu Requests for Visiting Homeland

1. "Be good to the land and the land will be good to you." Maidu quote

Thank you fire fighters for helping us keep our homes and cultural sites safe.

2. Enjoy your visit in the Mountain Maidu and Valley Maidu homelands.

Archeological sites and the resources they contain are not public property. A place, site or resource may have significance to a family or local tribe, which often carries with it a special level of protection.

Take care to avoid injuries.

Cultural sites are very old and fragile. Archeological resources are anything over 50 years old and can therefore erode easily. Also, historic dump sites can be hazardous, with sharp glass, rusty metal, and compounds and chemicals that can harm you.

4. Enjoy with care.

Oils from skin damage pictographs (rock paintings) and petroglyphs (rock carvings). It ruins irreplaceable historic resources, and it is illegal.

5. Don't touch the knickknacks.

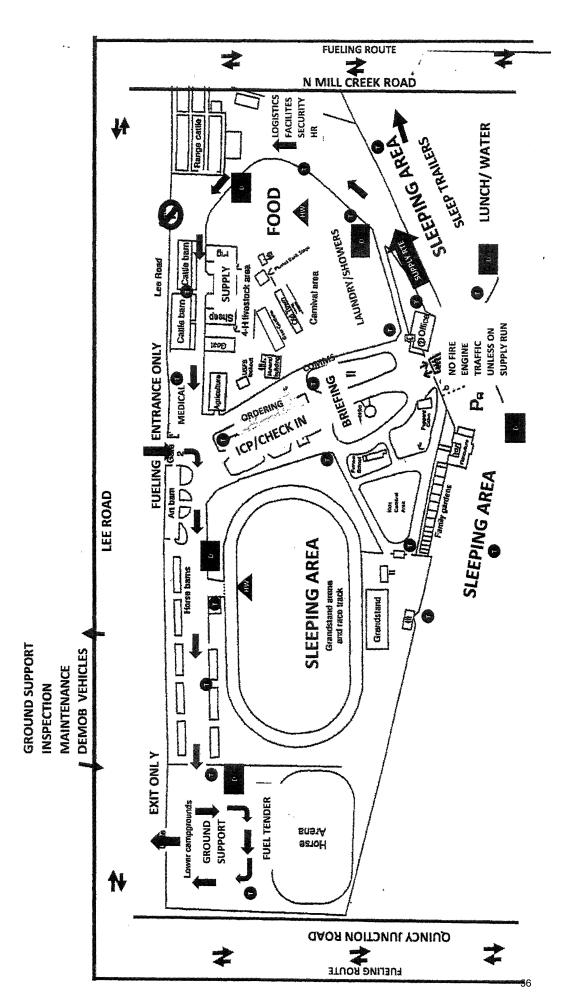

ALWAYS LEAVE ARTIFACTS RIGHT WHERE YOU FIND THEM. Out of context, artifacts mean little to archeologists. Often the most important aspect of archeological resources is their relationship to the place and other adjacent resources. Archeological sites and artifacts are our direct link to stories that otherwise might not be told. How can these stories be complete or accurate if the setting is altered or lost? For this and other reasons, it is illegal to move or remove artifacts.

5. Feel free to discover.

Some of the sites are identified, and some sites are not recorded. If you happen to come across a cultural site we ask you to treat it like you would any cultural artifact. And note the location and report it to a Resource Advisor.

Speak with resource advisors about the potential for archaeological sites being located adjacent to roads or proposed fire lines. It's easy to destroy features and artifacts in the dark.

 Over approximately 160 years, many changes have reshaped tribal relationships with these vast landscapes as well as with each other, and yet our knowledge of and responsibilities to these incredibly rich and vast landscapes remains strong. We appreciate your dedication to care for and building your own relationships with our natural environment while protecting these fragile and irreplaceable resources!

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4

EXPECTATIONS

Welcome to this Incident.
Thank You for your Cooperation & Support!

2020

CONDUCT AND BEHAVIOR

This team is committed to "ZERO TOLERANCE" of careless, illegal, inappropriate and unsafe actions.

Alcohol and/or illegal drugs are **NOT allowed** within the incident environment or while actively assigned to the incident. Local Law Enforcement Officials will be called to deal with any suspected illegal activities. Each employee has the responsibility to be ready, willing, and able to perform the duties for which they are qualified.

Sexual Harassment

Inappropriate actions or comments will not be tolerated. Everyone is expected to act in a professional manner. It is your responsibility to stop inappropriate actions or comments immediately upon becoming aware of such. Sexual Harassment must be reported to the Human Resource Specialist or Incident Commander. When outside of your designated sleeping area, you are required to wear at least a shirt, appropriate shorts, and shoes or sandals. If you need clarification of these expectations contact the Human Resource Specialist or IC. What we PERMIT we PROMOTE!!!!

SAFETY

The commitment to and accountability for safety is a joint responsibility of firefighters, managers and administrators. Individuals must personally be committed and responsible for their own performance and accountability. Everyone assigned to this incident can expect an assignment that follows all safety rules & regulations. Every person is expected to perform his or her duties in compliance with all known safety practices at all times. Anything less is unacceptable.

EMPHASIS AREAS

Training

All trainees and trainers are expected to follow the procedures outlined in the California Interagency Incident Management Team 4 **Training Expectations** – **See back page.**

Evaluations

All supervisory personnel assigned will complete an ICS 225 Incident Personnel Performance Rating form for their assigned resources according to agency policy or contractual agreement.

Injuries/Claims

Ensure all injuries and potential claims are reported to the Comp/Claims Unit for completion of appropriate paperwork. Contract claims will be reported to the Procurement Unit Leader.

Work Rest Cycles

The 2: 1 work/rest ratio is mandatory. For every two hours on shift you will be required to rest for one hour. Every effort shall be used to limit work hours to a maximum of 16. If circumstances require you to exceed 16 hours, this needs to be coordinated in advance with your supervisor and the Justification/Mitigation form completed to support the excessive hours prior to submitting for approval by the IC. It is your responsibility to comply with this direction and provide the appropriate documentation to your Supervisor and Finance.

Position Qualifications

Personnel shall only be assigned to positions for which they are qualified. Proof of qualifications shall be approved prior to being assigned to any fire line position. Non-fireline positions may be filled based on the word of the employee pending home unit confirmation, which must be requested immediately. Contract dozer operators, tactical water tender operators and contract fallers must provide proof that they have received the annual fire refresher training.

Engagement/Disengagement

The 10 Standard Orders & 18 Watchout Situations will be followed at all times and mitigated as needed. Staying aware of your situation is critical. This includes Geographic Area and incident briefings. Follow the Risk Management Process outlined in the Incident Response Pocket Guide.

Debriefing

All Branch Directors/Division/Group Supervisors will report to their Supervisor and Situation Unit at the end of the operational period for debriefing with emphasis on the accomplishment of objectives. All unit logs (ICS 214) will be turned in after the debriefing to Documentation reflecting accomplishment and/or special incidents that occurred during the operational period.

Crew Time Reports/Shift Tickets

It is your responsibility to ensure all time is properly accounted for and recorded each shift. The records are to be <u>reviewed and signed</u> by the next level supervisor. A finance "Rules of Engagement" document will be provided in the IAP explaining further requirements.

Social Media

It is your responsibility to know and understand guidelines for firefighter photography, video and social media use. California Interagency Incident Management Team 4 goal is simple: to participate online in a respectful, relevant way that protects our incident's professional reputation, does not confuse the public about the incident and follows the letter and spirit of the law. Be mindful that social media postings can be viewed as unprofessional, damage careers and lead to disciplinary actions. For further information, contact the Public Information Officer.

We look forward to working with you as a valuable member of this effort. If you have any questions or feedback, please feel free to contact any Command and General Staff Member.

JAY KURTH - Incident Commander ROCKY W. OPLIGER - Deputy Incident Commander

THANK YOU FOR YOUR COOPERATION AND GOOD WORK!!
