Fire Weather Forecast

FORECAST NO: 42

PREDICTION FOR: Day/Night Shift DATE: Thursday September 10th, 2020

FORECAST ISSUED: 1900 Sept 9th, 2020

NAME OF FIRE: Red Salmon Complex UNIT: Six Rivers / Shasta Trinity Incident Meteorologist: Jon Pelton Incident Meteorologist: Lamont Bain (T)

Signed: Anthony Lamont Bain Jon

Jon Petton

WEATHER DISCUSSION: High pressure will lead to continued hot and dry weather through the end of the week. Generally poor humidity recoveries should continue with low minimum humidity. Smoke from fires across the region will continue to pass overhead at times, potentially shading all or portions of the complex. When and if this occurs, temperatures could be lower and afternoon humidity could be higher.

TODAY:

WEATHER: Hazy from smoke aloft. Areas of smoke near the ground.

TEMPERATURES: Valleys: 86-92°

2000-4500 FT: 80-85°

Above 4500 FT: 76-81º

HUMIDITY:

Valleys: 15-20%

2000-4500 FT: 12-17%

Above 4500 FT: 12-17%

20 FT WINDS:

Valleys up to mid slopes: Downslope/downvalley 3-6 mph before 1300, then upslope/upvalley 3-7

mph.

Upper slopes/ridges: East southeast 4-8 mph, becoming west southwest 4-8 mph around 1300 with gusts up to 12 mph.

STABILITY/INVERSION: Inversion lifting to 6,000'-8000' MSL.

MIXING HEIGHTS: 6,000'-8000' MSL TRANSPORT WINDS: East southeast 5-10 mph, then west southwest 5-10 mph.

TONIGHT:

WEATHER: Patchy smoke. Areas of smoke west and northwest side of the complex.

TEMPERATURES: Valleys: 49-54°

2000-4500 FT: 59-64°

Above 4500 FT: 54-59°

HUMIDITY:

Valleys: 35-45%

2000-4500 FT: 19-25%

Above 4500 FT: 25-30%

20 FT WINDS:

Valleys: Downslope/downvalley 2-4 mph.

Ridges: West 3-7 mph, then becoming southeast 3-7 mph after 0200.

Friday: Humidity recovery, while still less than 30%, will be higher than the previous mornings. Winds will be largely diurnal in nature, with light southeast winds in the morning, becoming more westerly in the afternoon. Speeds of 5 to 10 mph with gusts up to 12 mph, mainly on the ridge tops, can be expected. High temperatures should range from the mid-80s on the upper slopes and higher elevations to the low 90s in the valleys. Smoke from fires across the region will continue to cross the area at times, potentially shading all or portions of the complex.

Saturday through Monday: An upper level trough will begin to approach. This will lead to the start of a trend toward cooler temperatures, improving minimum relative humidity, and higher overnight recovery with on shore flow in the low levels. Some gusts on the ridges to 15 mph are possible on both days.

FIRE BEHAVIOR FORECAST NO. 45

NAME OF FIRE: Red Salmon Fire	FCST FOR OPERATIONAL DATE: 09/10/2020
AGENCIES: USFS Six Rivers National Forest	FCST FOR OPERATIONAL PRD:Day/Night Shift
DATE/TIME FCST ISSUED: 9/09 @ 20:00	BY FBAN, John Kern, FBAN
WEATHER OF A LECTOR OF THE	

WEATHER: See attached Fire Weather Forecast

GENERAL FIRE BEHAVIOR:

Fuels are continuing to dry with very low humidity, including at night. Fire behavior has been active, day and night, a little less active in places heavily shaded by persistent smoke.

Low RH, very dry abundant fuels, steep topography and winds with gusts to 12 in the afternoon will result in the potential for active burning. Torching and short intense runs are certainly possible

All areas with moving fire will likely see isolated single tree torching (day and night) which can lead to spreading of fires. Upslope runs and down ridge runs are likely where winds (ESE switching through south to WSE in the afternoon) are oriented and aligned along draws and ridges. These areas could see strong runs, crowning at times, during all periods of the day.

Spotting distances of 0.1 to 0.5 mi. depending on wind speed and location (ridge or valley). Probability of Ignition is 60-70%.

All dead fuels (even the larger fuels) will continue to be extremely dry and will burn freely adding lots of heat to the environment. Fine fuels will remain dry even in the mornings due to very poor RH recovery.

ERC is on the rise and is above the 97th percentile for this area and is setting all time records for this date.

SPECIFIC FIRE BEHAVIOR:

Divisions:

Div W/Y/A/D: Minimal fire behavior expected, except for one spot at the D/K break,

Div K/O: This Division has some new fire from the past few days. Fire may make runs up slope where exposed to the south and SW winds or upslope winds. Ridgetops will experience stronger winds than sheltered locations. Look for upslope rapid runs with high flame lengths.

Div P: Fire has been moving well in this division for days. Possible upslope and up valley runs where slope and winds align. Fire intensity can be significant during uphill runs with likely torching and spotting ahead of the flaming front. There was significant fire movement in this Division the past few days.

Div Q/R: The fire yesterday moved south which will allow movement of that fire to the west today towards Tish Tang Point. Rapid rates of spread and high flame lengths are likely during runs in if gusts surface in this division.

Div U: Fire will be pushed downhill towards control lines with the ESE winds in the morning, and there will be a direction reversal as upslope winds dominate the afternoon. Heavy down timber under conifers can lead to plentiful torching and increased spotting and rapid rates of spread. Watch for upslope runs of spot fires across the line. Night time down slope/valley winds are likely.

Timbered Areas and in brush fields:

ROS: 8-15 ch/hr, with faster runs during gusts.

Flame Length: 5-10 ft. are predicted, however runs of increased activity could have greater lengths.

Spotting from torching trees can be from 0.1 to 0.3 mi. depending on wind speed and position on the slope.

Probability of Ignition will be high at over 60-70%.

Crown fire runs are possible under these dry, steep and at times windy conditions.

AIR OPERATIONS:

The areas west of the fire may remain in the smoke most of the day.

SAFETY:

Always have LCES in place and use lookouts to ensure safety of crews and personnel.

BR/DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	Air Operations	 Follow "Aviation Watch-Out Situations" on page 46, IRPG. Don't plan on air resources for medical transport or resupply. Refer to page 58, IRPG for directing bucket drops. Ensure positive communication with all air resources.
ALL	Hazard Trees	 Follow "Hazard Tree Safety" guidelines, IRPG pages 22-23. Post lookouts, or use a spotter when personnel are in the mop up area. Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during high wind events. Remember that the hazard zone extends a minimum of 2 1/2 tree heights.
ALL	Heat Related Injury (HRI)& Dehydration	 Drink Fluids throughout operational period (6-8 quarts/shift). Maintain water/electrolyte ratio of 3 to 1. Carry extra water on line and cache water at drop points. Take frequent breaks, minimum of 10 minutes every hour. Allow out of area resources to acclimate before expecting peak performance. Recognize symptoms of HEAT RELATED INJURY which include: Lack of energy, headaches, dizziness, hot skin, and lack of sweating.
ALL	Driving & Traffic	 Practice "Defensive Driving" techniques traveling on all roads and city streets. Use spotters and honk horn when backing. Keep clutter off dash and inside cab, and clean windshields. Follow Driving LCES (Lights, Chock blocks, Emergency brake, & Seat belts). Always use headlights and obey posted speed limits. Use chock blocks, turn wheels into hill. Avoid distractions (eating, & cell phones etc.) and use the 3 second rule.
K,O,P,Q,R,W Nights Contingency & Denny	Indirect Fireline	Post lookouts, establish communications, identify escape routes and safety zones (IRPG pg. 7). Review "Strategy/Indirect Attack" (IRPG pg. 82-83). Establish trigger points for disengagement during high wind events.
K,O,R, & Nights & Denny	Firing Operations	 Follow the chain of command when undertaking burning operations. Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. Initiate burning after ensuring the plan is authorized and understood by all. Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.
ALL	Steep Terrain & Rolling Debris	 Maintain 8'-10' spacing when working & walking. Don't work above any personnel. Be on the lookout for rolling rocks, debris, or burning material. Evaluate necessity to send personnel into areas with limited access.
K, Q, R,W Contingency & Denny	Heavy Equipment Operations	 Do not walk dozer up Freeway Ridge Road. Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. Use a spotter when backing. Avoid working below heavy equipment.
ALL	Wildlife	Watch out for wildlife inside the fire area and along roadways Clean up all debris and trash during each operational period
	Incident Name:	Operational Period: DAY/NIGHT
	Red Salmon Complex	September10-11, 2020
	SC2: SOF2: Greg Marfil /C.Carothers(t)	Date and Time Prepared: September 9, 2020 1600 Hours

HEALTH AND SAFETY MESSAGE

SAFETY starts with **YOU**

We are <u>ALL</u> accountable for <u>SAFE</u> behaviors For Day/Night Operations: September 10-11, 2020

INCIDENT: Red Salmon Complex

Day: Thursday/Friday Shift: Day/Night

Major Hazard and Risk:

- ➤ Covid-19: Get your temp checked each day to ensure you are protecting yourself and others. You should remember to avoid stopping in any of the towns to get supplies, visit the snack shop or get gas to help protect vulnerable populations. It is OK to stop in Willow Creek while maintaining strict COVID-19 mitigations.
- > Hazardous Roads: Narrow roads, steep drop offs, erratic drivers, and operator fatigue are all prevalent on this and other assignments. Watch out!
- ➤ Heat Related Injuries: Stay hydrated, eat properly, drink fluids in a 3:1 ratio of water to sports drink, take frequent breaks, and pay attention to your body.
- Extended Extraction Times: Be familiar with the medical plan. Develop a plan on how you would get an injured firefighter out timely. Factor in how smoke inversions will reduce the likelihood of utilizing helicopters for a medevac.

Fire Order of the Day: Give clear instructions and ensure they are understood.

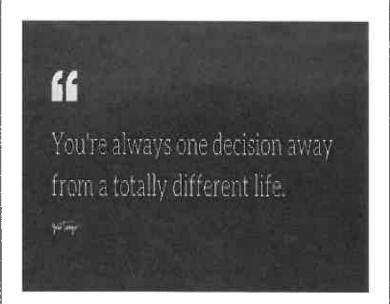

Remember that little things can turn onto big things in both a positive and negative way. Keep it positive and focus on the small wins until you reach your objective.

Thanks from your Safety Team!!

Greg Marfil, Frank Cisneros and Cougan Carothers

Controlled Unclassified Information//Basic

Page 1 of 2

Red Salmon Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok Reservations are closed. Please do not stop in Hoopa or Weitchpec. (Exception: The Hoopa Gas Station, which is open or business.)
- Use the COVID-19 Daily Screening Tool provided in the IAP to monitor self and module.
- Utilize Module-As-One concept to reduce the risk of transmitting the novel Coronavirus. This limits "close contacts" to those within the module. A "close contact" is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks. A "casual contact" is defined as less than 6 feet for less than 15 minutes or more than 6 feet for more than 15 minutes.
- <u>Social Distancing</u>. Maintain a minimum of 6 feet physical distancing from those outside of your module-as-one.
- Face Coverings: Face coverings are required to be worn in the appropriate manner covering nose and mouth when at ICP and camps.
- Wash your hands. Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing or sneezing. If soap and water are not readily available, use had sanitizer that contains at least 60% alcohol. Do not use hand sanitizer containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- <u>Clean and disinfect vehicles and equipment.</u> Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

FINANCE MESSAGE

Thank you for continuing to submit your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- Hard Copy CTR/Shift Tickets. You may fill out a hard copy CTR/SHIFT Ticket, snap a picture and email
 to Finance at the email address listed below. Or you may turn in your actual hard copy as usual at
 either Willow Creek ICP or Orleans Base Camp. If you send in a picture please make sure it is legible
 and includes the supervisor's signature at the bottom.
- Electronic fillable PDF CTR/Shift Tickets. QR codes to the fillable forms are included below. If you do
 not have QR capabilities Finance can e-mail you the forms directly. Make sure the forms are signed
 by the supervior before submitting to Finance. (In order to use fillable forms you must have some
 version of Adobe Acrobat installed on your device.)

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day.
- Write your email or text # on your CTR.
- Hazard pay justifications are required on your CTR's. "H=Hazard" is not sufficient.

WHEN YOU ARE CLOSE TO DEMOB:

- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be at Orleans Base Camp or Willow Creek ICP.
- Submit all time documentation (including travel home) ahead of demob.
- Follow the Fire Replacement Procedures at least 48 hours ahead of demob for any items you are requesting to be replaced that require a Finance signature.
- Send only one representative per resource to the Finance yurt.
- Abide by scheduled demob time or contact Finance for an unscheduled demob.

SHIFT TICKET

2020.RedSalmon.finance@firenet.gov

Personnel Time (530) 629-1677

Equipment Time (530) 629-1678

Comp/Claims (707) 382-2147

Resource Advisor Messages

- Resource advisors are available in nearly all Divisions on the fire and are here to support the mission of containing this wildfire while at the same time aim to minimize resource damage impacts. If you feel something needs to be brought to a Resource Advisor (or Cultural Specialist), go through your appropriate chain of command to make the notification.
- The Six Rivers, Klamath and Shasta-Trinity National Forests, as well as the California Interagency Incident Management Teach 14, have been working very closely with cultural specialists from the three main tribes in this area (the Hoopa, Karuk and Yurok) so please help us to maintain and foster these good relationships.
- The area in which the fire is burning is a very sacred place to these tribal cultures so please work with us utilizing MIST tactics to protect cultural and wilderness values. Snags can also have cultural significance so please limit those to what is needed for safety and to contain the movement of the fire.

Message #2 from Leaf Hillman, Karuk Cermonial Leader, about the importance of fire to the Karuk Tribe:

https://www.youtube.com/watch?v= ahXaXVvI0M

Important Note: These videos and all parts of them are property of the Karuk Tribe and are not intended for any purpose other than the reason for which they were developed. Usage of the material outside of the Red Salmon Complex fire organization is prohibited.

Human Resource Message

Positive Attitude Tip

Giving positive reinforcement to others is one of the best things you can do if you want to see a change in behavior. Finding the good in something is much more effective than focusing on the negative.

The same can be true for you. When you make a mistake do you beat yourself up or do you learn from the mistake. It is all in how you look at it. Keep your attitude positive no matter what or whom you are dealing with, it will make your life much happier and you will accomplish more.

Being positive in a negative situation is not naïve. It's leadership.

A person without a sense of humor is like a wagon without springs. It's jolted by every pebble on the road. Henry Ward Beecher

A workplace filled with and driven by employees with positive attitudes---vibrates continually to the tune of service excellence and passionate team success. Ty Howard

This is a tough assignment, no doubt. Great job everyone!

Stay safe!

Human Resource Specialist---Linda Buck 208-582-0401 Lbuck52@hotmail.com

TRAINING MESSAGE

Red Salmon Complex September 10, 2020

All new trainees to the incident please use the QR code below to check into the training database.

Trainees checking out of the incident, please provide us with a copy of your performance evaluation and exit interview.

let us know and we can send you a copy of these documents electronically or come by the trailer.

Thanks,

Nick Balent TNSP(t) 707.298.1805 nicholas.balent@usda.gov

Arturo Gasdik TNSP 707.296.4484 arturo.gasdik@usda.gov

RED SALMON DEMOB

Check in with Demob at least 72 hours prior to demobing if you need air travel arrangements made.

Demob on the Red Salmon is paperless. Use QR Code #1 to start your process.

If you have difficulties with your phone or need help, stop by the Demob Unit or call 559-321-4977.

Once you have scanned **QR Code #1**, proceed to the following locations to get signed off. This can be done at both Willow Creek and Orleans (except for Finance, see instructions below):

QR Code #1 Demob Process

- GROUND SUPPORT *** (Do this prior to Weed Wash) ***
- WEED WASH
- SUPPLY
- COMMUNICATIONS
- TIME (SECOND TO LAST)
 - Contact Finance to ensure that all shift tickets and CTR's are completed and turned in prior to demob:

Equipment Time (530) 629-1678 Personnel Time (530) 629-1677

WILLOW CREEK FINANCE:

Complete the above stops, TIME and DEMOB are last.

TIME: Overhead, or ONE PERSON from each Vendor or Crew will be allowed to visit Finance for payment processing (Equipment Time or Personnel Time).

REMOTE FINANCE:

Call the numbers above to initiate closing out with finance.

Equipment Time will generate the Emergency Equipment Use Invoice (OF-286) and e-mail the invoice to company owner for review and signature.

Personnel Time will generate Incident Time Reports(s) (OF-288) and e-mail the report to designated contact for review.

- DEMOB (VERYLAST)
 - Visit or call Demob (559-321-4977) to verify that your checkout process has been completed
 - Scan QR Code # 2 to submit your travel itinerary or verbally report it to Demob.

QR Code #2

Travel Itinerary for After Demob Process

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A <u>MEDICAL EMERGENCY</u>: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of	erity of Emergency □ RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.							
A	ND	□YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2° 3° burns not more than 1-3 palm sizes.						
Transpo	ort Priority	Ex: Significant trauma, una	ble to walk, 2° - 3° burns	s not more than 1	-3 paim sizes.			
	y 1, 2, 3)	□ GREEN / PRIORITY 3 Minor Injury or Illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.
