Fire Weather Forecast

FORECAST NO: 52

PREDICTION FOR: Day/Night Shift DATE: Saturday September 20^h, 2020

FORECAST ISSUED: 2000 Sept 19th, 2020

NAME OF FIRE: Red Salmon Complex

UNIT: Six Rivers / Shasta Trinity

Incident Meteorologist: Jon-Pelton, Steve Fano

Signed:

WEATHER DISCUSSION: A warming and drying trend is expected today as weak high pressure builds in from the west. Terrain driven winds are expected in the lower elevations with a north to northwest wind between 5 and 10 mph along with some gusts around 15 mph. Humidity will fall between 20 and 35 percent. Warm and dry weather will continue for much of the upcoming week with increasing wind speeds, however, humidity should slowly increase through the end of the week.

WEATHER: Sunny with patchy smoke.

TEMPERATURES: Valleys: 77-85°

2000-4500 FT: 70-76°

Above 4500 FT: 69-74°

HUMIDITY:

Valleys: 20-30%

2000-4500 FT: 22-32%

Above 4500 FT: 24-35%

20 FT WINDS:

Valleys up to mid slopes: Downslope/downvalley 2-4 mph early, then upslope/upvalley or westerly 2-8 mph with gusts to 12 mph.

Upper slopes/ridges: Northeast to north winds 5-10 mph, becoming northwest to west after 1200.

Some gusts of up to 15 mph possible.

STABILITY/INVERSION: Surface inversion lifting to around 5000 FT MSL.

MIXING HEIGHTS: 5,000'-7,000' MSL TRANSPORT WINDS: Northeast 5-10 mph, then northwest 10-15 mph.

TONIGHT:

WEATHER: Mostly clear

TEMPERATURES: Valleys: 48-55°

2000-4500 FT: 50-56°

Above 4500 FT: 48-55°

HUMIDITY:

Valleys: 80-90%

2000-4500 FT: 50-60%

Above 4500 FT: 55-65%

20 FT WINDS:

Valleys/Lower Slopes: West or upslope/upvalley 2-8 mph, then downslope/downvalley 2-5 mph.

Ridges: Southwest 5 to 10 mph.

Monday:

An upper level disturbance approaches later in the day, favoring passing mid and high clouds at times. Highs in the upper 60s to mid 80s and lows from the 40s to mid 50s. Min humidity generally 25-40 percent is anticipated while recoveries should generally be 35% or greater. Terrain driven winds are expected in lower elevations, while on upper slopes and ridges, north to westerly winds around 10 mph with gusts as high as 15 mph. Tuesday through Thursday:

Zonal flow is expected to continue into Wednesday favoring little change in temperatures and rh. Passing mid and high clouds are expected at times. Lows mainly in the upper 40s to upper 50s. Highs in the upper 60s to low 80s. Min humidity generally 25-40 percent is anticipated while recoveries should generally be 40% or greater. Southwest to west afternoon ridgetop winds are anticipated with gusts as high as the 13 to 18 mph. Increasing clouds, cooler temperatures, higher humidity, and stronger westerly wind gusts up to 20 mph are expected Thursday as an upper level trough and cold front approach.

IRAWS Radio Frequency 163.350 (simplex):

Packsaddle Ridge DTMF 0043

LeBlanc DTMF 0045

Lone Pine DTMF 0057

Please text weather observations to IMET at ICP 208-577-1621

FIRE BEHAVIOR FORECAST

Forecast #2

Incident: Red Salmon Complex

Prediction for: DAY & NIGHT Ops Period 9/20/20

Issued: 9/19/2020, 2030 hrs

by: William L. Klevert Wm. T. 'Sandy' Munns, SITL

Fire Behavior:

General:

Yesterday's warming and drying trend will continue today. Light, flashy fuels will quickly respond to soear radiation, and 10 hr fuels will dry throughout the operational period. Heavy down-dead fuels remain dry and will continue to burn even in higher RH conditions. Live fuel moistures are ac critically low levels, and make foliage available to burn, contributing to higher intensity fire, and greater consumption of vegetation. RH levels will not begin to reverse that drying trend until late into the night shift. However, it will take a little time in the morning for conditions to reach that point. High RH, with possible fog in the lower elevations will effectively suppress any active burning in the morning. Fire should become active on mid to upper slopes by midday, and any lower elevations by late afternoon.

Light Upslope wind in the daytime, and light downslope winds at night will have some influence on spread, but fire will move consistently in all directions in any continuous fuels. Occasional gusts, can cause brief flare-ups and embers to cross the control lines, so good situational awareness is essential, both daytime and night shift

Firing operations should be effective on upper elevations by early afternoon; lower elevations may not be effective to burn until early evening.

Air Operations: Smoke drift from west to east across the fire area may limit visibility.

Safety: Remember Watch out Situation: Conditions Getting Hotter and Drier

BR/DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES					
A,D,K,O,Q,R,U,W, Y	Air Operations	 Follow "Aviation Watch-Out Situations" on page 46, IRPG. Don't plan on air resources for medical transport or resupply. Refer to page 58, IRPG for directing bucket drops. Ensure positive communication with all air resources. 					
A,D,K,O,Q,R,U,W, Y	Hazard Trees	 Follow "Hazard Tree Safety" guidelines, IRPG pages 22-23. Post lookouts, or use a spotter when personnel are in the mop up area. Don't park vehicles or take breaks in high concentrations of hazard trees Establish trigger points for disengagement during high wind events. Remember that the hazard zone extends a minimum of 2 1/2 tree heights 					
ALL	Steep Terrain & Rolling Debris	 Maintain 8'-10' spacing when working & walking. Don't work above any personnel. Be on the lookout for rolling rocks, debris, or burning material Evaluate necessity to send personnel into areas with limited access. 					
A,D,K,O,Q,R,U,W, Y	Driving & Traffic	 Practice defensive driving techniques traveling on all roads and city streets. Use spotters and honk horn when backing. Keep clutter off dash and inside cab, and clean windshields. Follow Driving LCES (Lights, Chock blocks, Emergency brake, & Seat belts). Always use headlights and obey posted speed limits. Use chock blocks, turn wheels into hill. Avoid distractions (eating, & cell phones etc.) and use the 3 second rule. 					
A,D,K,O,Q,R,U,W, Y	Indirect Fireline	 Post lookouts, establish communications, identify escape routes and safety zones (IRPG pg. 7). Review "Strategy/Indirect Attack" (IRPG pg. 82-83). Establish trigger points for disengagement during high wind events. 					
A,D,K,O,Q,R,U,W, Y	Firing Operations	 Follow the chain of command when undertaking burning operations. Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. Initiate burning after ensuring the plan is authorized and understood by all. Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed. 					
A,D,K,O,Q,R,U,W, Y	Heavy Equipment Operations	 Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. Use a spotter when backing. Avoid working below heavy equipment. 					
ALL	Wildlife	 Watch out for wildlife inside the fire area and along roadways Clean up work areas and don't discard unwanted food. Pick up after yourself and manage your waste. 					
A,D,K,O,Q,R,U,W, Y	COVID-19 Environment	 Utilize social distancing, wear facemasks in camp ALWAYS. Maintain the "module of one" concept. Disinfect vehicles, tools, and commonly touch surfaces frequently. Do not share equipment and wash hands frequently.

SAFETY MESSAGE SAFETY IS OUR FIRST PRIORITY

Fire fighter safety comes first on every fire, every time

Incident: Red Salmon Complex Date: September 20-21 Shift: Day/Night

Eric Marsh Foundation

51m - 🔞

Today I cried, cried because so many people do not understand what's at stake for folks like me. Every time 'resources' are ordered up for a wildland fire, those 'resources' are human beings. Brave and amazing human beings who leave behind families and friends and communities to work a job that is harder than anything most of us will ever know. They leave behind every comfort and convenience to work in hellish conditions because they love what they do, and we love them, and WE NEED THEM TO COME HOME. Please be careful out there and treat 'resources' with great care because we love them so.

"Those who cannot remember the past are condemned to repeat it". ~ George Santayana

If you don't know what the Eric Marsh Foundation is ASK!

If you don't know what Storm King Canyon is ASK!

If you don't know what Mann Gulch is ASK!

If you don't know what the Wildland Firefighter Foundation is ASK!

Red Salmon Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok Reservations are closed. Please do not stop in Hoopa or Weitchpec. (Exception: The Hoopa Gas Station, which is open or business.)
- Use the COVID-19 Daily Screening Tool provided in the IAP to monitor self and module.
- Utilize Module-As-One concept to reduce the risk of transmitting the novel Coronavirus. This limits "close contacts" to those within the module. A "close contact" is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks. A "casual contact" is defined as less than 6 feet for less than 15 minutes or more than 6 feet for more than 15 minutes.
- **Social Distancing.** Maintain a minimum of 6 feet physical distancing from those outside of your module-as-one.
- Face Coverings: Face coverings are required to be worn in the appropriate manner covering nose and mouth when at ICP and camps.
- Wash your hands. Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing or sneezing. If soap and water are not readily available, use had sanitizer that contains at least 60% alcohol. Do not use hand sanitizer containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- <u>Clean and disinfect vehicles and equipment.</u> Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

FINANCE MESSAGE

Thank you for continuing to submit your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- Hard Copy CTR/Shift Tickets. You may fill out a hard copy CTR/SHIFT Ticket, snap a picture and email to Finance at the email address listed below. Or you may turn in your actual hard copy as usual at either Willow Creek ICP or Orleans Base Camp. If you send in a picture please make sure it is legible and includes the supervisor's signature at the bottom.
- Electronic fillable PDF CTR/Shift Tickets. QR codes to the fillable forms are included below. If you do
 not have QR capabilities Finance can e-mail you the forms directly. Make sure the forms are signed
 by the supervior before submitting to Finance. (In order to use fillable forms you must have some
 version of Adobe Acrobat installed on your device.)

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day.
- Write your email or text # on your CTR.
- Hazard pay justifications are required on your CTR's. "H=Hazard" is not sufficient.

WHEN YOU ARE CLOSE TO DEMOB:

- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be processed at Willow Creek ICP or Orleans Base Camp.
- Submit all time documentation (including travel home) ahead of demob.
- Follow the Fire Replacement Procedures at least 48 hours ahead of demob for any items you are requesting to be replaced that require a Finance signature.
- Send only one representative per resource to the Finance yurt.
- Abide by scheduled demob time or contact Finance for an unscheduled demob.

SHIFT TICKET

The Resource Advisor Messages

This is just another reminder from your friendly neighborhood Lead READ that...

- Resource advisors are available in nearly all Divisions.
 - o They are here to support the mission of containing this wildfire.
 - o Their goal is to minimize resource damage impacts.

If you feel something needs to be brought to a Resource Advisor (or Cultural Specialist), go through your appropriate chain of command to make the notification, PLEASE.

- The Forest has been working closely with cultural specialists from the three main tribes in this area (the Hoopa, Karuk and Yurok).
 - o HELP US, maintain and foster these good relationships.
 - The area in which the fire is burning is a very sacred place to these tribal cultures so please work with us, by utilizing MIST tactics.
 - Snags can also have cultural significance, so please limit those to what is required for safety and to contain the movement of the fire.
- With fall around the corner, this is the time bears amp up foraging activity to increase fat storage for winter denning (forage for food up to 20 hours a day). Additionally, bear activity is predicted to increase in the fire area because of habitat displacement and extreme drought conditions (limited food source). Please take responsibility for your trash and food while out on the fire line.

Human Resource Message

Communication

Communication is a two way street. When communication becomes a one way, it becomes a traffic jam and turns into an issue.

Some examples are:

- Someone irritating you and getting on your nerves, but you don't say anything until it boils over and causes a crash.
- A misunderstanding of what someone was trying to communicate to you, but you didn't take the time to clarify what was said and just stewed about it.
- * It can be like the telephone game. It starts with specific information, and by the time it gets to the end it very different than what was first communicated.
- Whatever it is, clear the communication lines in a respectful manner and make it a smooth safe flowing two way street!

"The single biggest problem in communication is the illusion that it has taken place"....by George Bernard Shaw

Linda Buck, HRSP

RED SALMON DEMOB

Check in with Demob at least 72 hours prior to demobing if you need air travel arrangements made.

Demob on the Red Salmon is paperless. Use QR Code #1 to start your process.

If you have difficulties with your phone or need help, stop by the Demob Unit or call 559-321-4977.

Once you have scanned **QR Code #1**, proceed to the following locations to get signed off. This can be done at both Willow Creek and Orleans (except for Finance, see instructions below):

QR Code #1 Demob Process

- GROUND SUPPORT *** (Do this prior to Weed Wash)***
- WEED WASH
- SUPPLY
- COMMUNICATIONS
- TIME (SECOND TO LAST)
 - Contact Finance to ensure that all shift tickets and CTR's are completed and turned in prior to demob:

Equipment Time (530) 629-1678 Personnel Time (530) 629-1677

WILLOW CREEK FINANCE:

Complete the above stops, TIME and DEMOB are last.

TIME: Overhead, or ONE PERSON from each Vendor or Crew will be allowed to visit Finance for payment processing (Equipment Time or Personnel Time).

REMOTE FINANCE:

Call the numbers above to initiate closing out with finance.

Equipment Time will generate the Emergency Equipment Use Invoice (OF-286) and e-mail the invoice to company owner for review and signature.

Personnel Time will generate Incident Time Reports(s) (OF-288) and e-mail the report to designated contact for review.

- DEMOB (VERY LAST)
 - Visit or call Demob (559-321-4977) to verify that your checkout process has been completed
 - Scan QR Code # 2 to submit your travel itinerary or verbally report it to Demob.

QR Code #2
Travel Itinerary for
After Demob Process

DO NOT DEPART FROM THE INCIDENT WITHOUT CHECKING OUT WITH DEMOB

09/20/2020

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity o	f Emergency □R	□ RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.								
AND		☐YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.								
Transp	ort Priority	Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.								
(priori		GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.								
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illn (Ex: Unconscious, Struck by Fallii								
	ort Request	Air Ambulance / Short Haul/Hois Ground Ambulance / Other								
Patien	t Location				Descriptive Location & Lat. / Long. (WGS84)					
Incident Name		A.A			Geographic Name + "Medical" (Ex: Trout Meadow Medical)					
On-Scene Incident Commander					Name of on-scene IC of Incident within a Incident (Ex: TFLD Jones)					
Crew P	atient Care					FCare Provider EMT Smith)				
3. INITIAL PATI	ENT ASSESSMENT: Comple	te this section for each patier	nt as applicable (start with th	he most severe pati	ient)					
Patient Assessm (IRPG PAGE 106	•	Weight:	Chief Comple	aint:
