INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY	
RED SALMON COMPLEX	Date/Time From: 09/04/2020 0600 FRI	Date/Time To: 09/04/2020 1800 FRI
3. Objective(s):		
Management Objectives		
<ul style="list-style-type: none"> • Follow identified standard procedures to minimize the spread of Covid-19 to all functions of the incident. • Utilize nationally recognized risk management processes to minimize threats to the public and emergency responders. • Use risk-based decision making and MIST tactics to protect and defend cultural values and natural resources. • Foster and maintain positive relationships with all stakeholders and the public by sharing critical information so timely decisions and actions can be implemented. • Provide initial attack within the TFR. • Manage incident costs effectively for the values at risk through regular and ongoing cost analysis. 		
Control Objectives		
Keep Red and Salmon Fires:		
<ul style="list-style-type: none"> • East of the 10N 02 Road, Box Camp and Sign Board Gap • North of Lone Pine Ridge • West of the Virgin Creek Buttes • South of Lunch Creek to Salmon Summit Trail to Red Cap Creek 		
4. Operational Period Command Emphasis:		
:Demonstrate Initiative by taking action in the absence of orders. Utilize leader's intent in briefings to execute safe and effective tasks by understanding the missions at hand.		
General Situational Awareness:		
IF IT'S PREDICTABLE, IT'S PREVENTABLE, RECOGNIZE HAZARDS AHEAD OF TIME.		
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>		
Approved Site Safety Plan(s) Located at:		
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):		
<input checked="" type="checkbox"/> ICS 202	<input type="checkbox"/> ICS 207	Other Attachments:

Fire Weather Forecast

FORECAST NO: 36
PREDICTION FOR: Day/Night Shift
DATE: Friday September 4th, 2020

NAME OF FIRE: Red Salmon Complex
UNIT: Six Rivers / Shasta Trinity
Incident Meteorologist: Lamont Bain (T)
Incident Meteorologist: Dan Borsum

FORECAST ISSUED: 1800 Sept 3rd, 2020

Signed: *Anthony Lamont Bain* *Dan Borsum*

WEATHER DISCUSSION: Areas of smoke will be the primary concern today and tonight with substantial reductions in visibility. Ridgetops will remain obscured through much of the day due to smoke. Winds are expected to remain in the 5 to 10 mph range with gusty southerly winds in the morning into the early afternoon on the ridge tops. Winds may gust as high as 15 mph in these elevated locations.

TODAY:

WEATHER: Hot...Widespread smoke.

TEMPERATURES: Below 4000 FT: 90-93° Above 4000 FT: 86-90°
HUMIDITY: Below 4000 FT: 23-28% Above 4000 FT: 22-27%

20 FT WINDS:

Valleys up to midslopes: Light in the morning becoming westerly and upslope/upvalley 3-6 mph.
Upper slopes and ridges: Southerly winds of 5-10 mph with gusts to near 15 mph.

STABILITY/INVERSION: Strong inversion likely hanging through most of the day. Reduced visibility through the late afternoon.

MIXING HEIGHTS: 4000' MSL **TRANSPORT WINDS:** Westerly around 9-12 mph

TONIGHT:

WEATHER: Widespread smoke.

TEMPERATURES: Below 4000 FT: 62-72° Above 4000 FT: 68-72°
HUMIDITY: Below 4000 FT: 27-32% Above 4000 FT: 23-28%

20 FT WINDS:

Valleys: Downslope/down valley at 2-5 mph developing after 2200.
Ridges: Southerly winds at 5 to 10 mph.

Saturday: Smoke and haze. Hot with max temperatures around 87-90 above 4500 FT and 95-100 in the valleys/low areas. Relative Humidity 15% to 25%. Winds upslope/up-valley 3 to 5 mph and west to near 12 mph at the ridgetops. Mixing heights 4000'-5000' MSL. Transport winds becoming southerly at 8 mph.

SUNDAY THROUGH MONDAY: Very HOT conditions expected toward the latter half of the weekend into early next week. Temperatures in the mid-90s in higher elevations to above 105 degrees in the valleys.

IRAWS Radio Frequency 163.350 (simplex):
Packsaddle Ridge DTMF 0043 Salmon Spike DTMF 0044
LeBlanc (Above Schnable Diggings) DTMF 0045 Lone Pine DTMF 0057

Please text weather observations to IMET at ICP (406) 672-0760

FIRE BEHAVIOR FORECAST

FORECAST NUMBER 39	TYPE OF INCIDENT: Wildland Fire
INCIDENT NAME: Red Salmon Complex	OPERATIONAL PERIOD Day/Night Shift 09/4-09/5, 2020
DATE ISSUED: 3 Sept 2020	TIME ISSUED: 2030
UNIT: Six Rivers NF	SIGNED: /s/ Gayle Sorenson, Gayle Sorenson, FBAN

INPUTS

WEATHER SUMMARY: See Preceding Fire Weather Forecast.

TEMPERATURES: Below 4000 FT: 90-93° Above 4000 FT: 86-90°

HUMIDITY: Below 4000 FT: 23-28% Above 4000 FT: 22-27%

20 FT WINDS: Valleys up to midslopes: Light in the morning becoming westerly and upslope/upvalley 3-6 mph. **Upper slopes and ridges:** Southerly winds of 5-10 mph with gusts to near 15 mph.

STABILITY/INVERSION: Strong inversion likely hanging through most of the day Reduced visibility through the late afternoon. **MIXING HEIGHTS:** 4000' MSL **TRANSPORT WINDS:** Westerly around 9-12 mph

FUELS CONDITIONS: Fuels in the Red Salmon Complex consist of mixed conifer with Mountain brush, timber litter and grass understory. Fires in the past few years including 1999 Megram (SW), 3013 Butler (N), 2006 Bake-Oven (SE), and 2013 Corral (S) have more of a shrub and grass component with standing dead snags and heavy dead/down fuels. ERC's and 1000-hr fuel moisture (9%) at the 97th percentile and climbing.

GENERAL FIRE BEHAVIOR:

Fuels remain critically dry. Primary spread will be thru fire moving in dead/down fuels, torching trees which lofts embers and starts spot fires in the dead/down fuels. Brush fuel types appear to be less involved than the conifers and dead fuels.

Fire will be more active on the upper 1/3 of the slopes in general and rapid upslope runs remain likely. Smoke may damper fire behavior on the lower slopes and valley bottoms.

Flame lengths will generally be 1-4 feet. ROS upslope 15-30 ch/hr and backing <3 ch/hr. Spread is primarily on the surface with associated single/group tree torching. Spotting distances of 0.25-0.5 miles is possible with longer spotting distances occurring as the fire nears ridgelines and is exposed to higher winds.

SPECIFIC FIRE BEHAVIOR:

DIV A/D: Minimal fire behavior expected.

DIV K: Continued burnout of heavy fuels adjacent to control lines along much of the division. Continued spread to the north in the Butler burn scar towards established dozer lines.

DIV M/N: Minimal activity expected. Interior smoldering.

DIV O, P: Possible upslope runs to the ridge in areas where the fire works across the drainage bottom in Red Cap Canyon. High chance of spot fires across control lines with these runs. Continued movement into Eight-mile creek drainage.

DIV Q: The fire continues to move south across the slopes out of Red Cap canyon.

DIV R: Watch for slope alignment and uphill runs. There is continued potential for highly active fire behavior including significant spotting with organized runs.

DIV U: Fire will continue to spread downhill (east) as well as north and south along the flanks of the slop-over. Continued backing down into Tish Tang a Tang Creek. Primarily surface spread with torching and spotting. Fire on the west side of the ridge will continue to roll out and spread downslope.

DIV W, Y: Minimal fire behavior expected.

Night SHIFT: Fire will continue to be active most of the night especially in thermal belt and on the ridgelines.

SAFETY

SAFETY: Weather is getting hotter and drier. Fuels are critically dry. Low visibility due to smoke. Stay heads up!!

AIR OPERATIONS: Smoke lingering over the fire area may hamper air operations likely much of the day.

INCIDENT RISK ANALYSIS RED SALMON COMPLEX CA-SRF-000656 (ICS 215a) Day/Night Shift

DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
A,D,K,R,U W,Y NIGHTS	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> • Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing, or turning around • 5mph speed limit in and around ICP, keep your speed down in all areas. • Use warning lights when working on roads or traveling in smoke.
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> • Follow Hazard Tree Safety Guidelines (IRPG p.22.) • Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. • Be alert around hazard trees during wind events, even green trees. • The hazard zone extends a minimum of 2½ tree lengths. • Do not park vehicles or take breaks under or near hazard trees.
ALL	STEEP TERRAIN AND ROLLING DEBRIS	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Be alert for rolling rocks, debris, or burning material. • Evaluate necessity to send personnel in areas with limited access.
D,R,O,P,Q R,U, NIGHTS CONTINGENCY	INDIRECT FIRELINE	<ul style="list-style-type: none"> • Keep good Situational Awareness while engaged in indirect line construction. • Post lookouts. Stay in contact with someone who can see the main fire • Ensure all personnel are familiar with the plan. • Make sure all personnel know their escape routes and safety zones. • Remember, there is unburned fuel between you and the main fire.
D,K,O,P,R,U,Q NIGHTS	FIRING OPERATIONS and DEVICES	<ul style="list-style-type: none"> • Follow the chain of command when undertaking burning operations. • Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. • Initiate burning after ensuring the plan is authorized and understood by all.
ALL	HEAT RELATED ILLNESS	<ul style="list-style-type: none"> • Drink 2 to 1 water to sports drinks. • Take frequent breaks, minimum of 10 minutes every hour. • Recognize symptoms of HEAT RELATED ILLNESS which include low energy, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating.
ALL	FATIGUE/COMPLACENCY	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Maintain 2:1 work/rest ratio. • Monitor ALL resources for level of fatigue. • Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. • Take steps to maintain situational awareness for the duration of the incident.
A,P,K,O,P,Q R,U,W,Y	AIR OPERATIONS	<ul style="list-style-type: none"> • Follow "Aviation Watch-Out Situations" on page 46, IRPG. • Don't plan on air resources for tactical support or medical transportation. • Refer to page 58, IRPG for directing bucket drops. • Ensure positive communication with all air resources. • Maintain a safe distance from manned and unmanned UAS. • No persons will be within 20 feet of the UAS while it is armed. • No flights over personnel are allowed. • Further information can be found on the Interagency Fire UAS Website
NIGHTS	NIGHT OPERATIONS	<ul style="list-style-type: none"> • Have a purpose for where you drive and what you do. Don't rush into assignments. • Use caution where you park or stage, especially in steep timbered areas. • Use available time for briefings on roads, terrain, and potential rolling material. • Increase SA by trying to see the work area during daylight hours. • Use glow sticks to mark hazards, and ensure personnel have headlamps.
O,R,U,K	BEAR SAFETY	<ul style="list-style-type: none"> • Give the bear every opportunity to avoid you. • Give bears plenty of room. • Bears, like humans, use trails and roads. Detour around areas whenever possible. • Do not leave food scraps on the fireline or in your sleeping area it will attract bears into the work area. • Never run from a bear
ALL	WEATHER	<ul style="list-style-type: none"> • Stay alert for changing weather conditions • It is critical for firefighters to maintain situational awareness, as well as predicted and current weather conditions. • Preplan! Don't wait until you're in the wrong place at the wrong time – with no time. • As fire behavior changes, it is critical to respond correctly to the changing situation

INCIDENT NAME:

Red Salmon Complex

Operational Period: 0600-0600

SEPTEMBER 4/5, 2020

DATE AND TIME PREPARED:
SEPTEMBER 3, 2020 0900 Hours

Red Salmon Complex – Safety Message

INCIDENT # CA-SRF-000656

DATE: 09-04-05,2020 TIME: 0600-0600 Day/Night Shift

“SAFETY is a CORE VALUE to be integrated into ALL incident activities”

LIFE SAFETY IS OUR FIRST PRIORITY

Major Hazards and Risks:

HEAT RELATED ILLNESS: While recognition and treatment are important, prevention is the key.

HEAT RELATED ILLNESS IS PREVENTABLE.

Water is the primary form of fluid replacement. Before engaging in work activities drink 20 ounces of cool water or a sports drink. During the operational period take frequent rest breaks and drink 8 ounces of water every 15 minutes. (1 Qt. /hour) If cold water is available it is preferred. Consider a carbohydrate/electrolyte sports beverage such as Gatorade or equivalent as a portion of fluid replacement – this will help retain fluids and maintain energy and electrolyte levels. Consuming a sports beverage as part of re-hydrating.

SNAGS: Fall hazardous snags that threaten either the line or firefighter safety. Only qualified personnel to fall trees. Remember to use a spotter/swamper and wear full PPE.

EXTREME FIRE BEHAVIOR: Read and understand weather and fire behavior forecasts. Be aware at all times of current and potential fire behavior and adjust tactics accordingly. Plan ahead and be prepared to disengage early.

DRIVING: Drive defensively at all times and maintain safe vehicle separation distances. Keep head lights on and use emergency lighting where appropriate. Use spotters when backing or in tight areas. Keep stopping distance ½ your sight distance.

“CONSIDER EACH STEP”

1. Mitigate the cumulative effects of work on difficult terrain.
2. Look for other ways over and around obstacles
3. Break up long downhill hikes
4. Consider the Terrain a crew is accustomed to
5. Heed that “inner-voice” that so often anticipates accidents
6. Consider the consequences of possible falls

Bear Safety

- Avoid surprising bears at close distances
- Avoid crowding bears.
- Do not feed or toss food to a bear or any wild animal—do not leave food scraps on the fireline to attract bears into the work area.
- Do not approach a bear.
- Never run from a bear.
- Keep calm. Assess the situation.

COMPLACENCY:

- Don't let boredom lead to complacency.
- Remain focused on the task at hand and subsequent changes in driving and working conditions

Prepared by,
Dan Albee SOF-2

EXTREME FIRE BEHAVIOR

Extreme fire behavior has always been present in cases of shelter deployment. It is critical for firefighters to maintain situational awareness of live and dead fuel moisture conditions as well as predicted and current weather conditions. As fire behavior changes, it is critical to act decisively to the changing situation.

Discuss the following indicators of extreme fire behavior:

- Relative humidity less than 15%
- 1-hour fuel moisture less than 5%
- Trees crowning inside the fireline
- Smoldering fires that exist in the early part of the day are beginning to burn very actively as the day progresses.
 - Approaching thunderheads with dark clouds beneath
 - Presence of dust devils indicating an unstable atmosphere
 - Increased spotting
 - Sudden calm
 - High clouds moving fast in direction different from surface wind
- Predicted Haines Index of 5 and 6 in those areas where this level is a good indicator of atmospheric instability

ENVIRONMENTAL/OPERATIONAL CONDITIONS

- Strong winds
- Night operations
- Steep Slopes
- Diseased or bug-kill areas
- Helicopter bucket drops and rotor down drafts
- Retardant drops
- Vibrations from heavy equipment and motor vehicles operating nearby

Red Salmon Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- **As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok Reservations are closed. Please do not stop in Hoopa or Weitchpec.**
✓ **(Exception: The Hoopa Gas Station, which is open for business.)**
- Use the COVID-19 Daily Screening Tool provided in the IAP to monitor self and module.
- Utilize Module-As-One concept to reduce the risk of transmitting the novel Coronavirus. This limits “close contacts” to those within the module. A “close contact” is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks. A “casual contact” is defined as less than 6 feet for less than 15 minutes or more than 6 feet for more than 15 minutes.
- **Social Distancing.** Maintain a minimum of 6 feet physical distancing from those outside of your module-as-one.
- **Face Coverings.** Face coverings are required to be worn in the appropriate manner covering nose and mouth when at ICP and camps.
- **Wash your hands.** Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing or sneezing. If soap and water are not readily available, use hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizer containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- **Clean and disinfect vehicles and equipment.** Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

RED SALMON COVID-19 DAILY SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

Instructions for Screening

Item	What to Do
If Spike or fireline resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	NOTIFY SUPERVISOR IMMEDIATELY
At entries to established camps (Willow Creek ICP, Orleans Base Camp): Temperature screening required for all incident personnel, cooperators and guests. Although medical personnel are ideal, screeners do not have to be medically trained.	DO NOT ANNOUNCE Ask individual or "module-as-one" to step aside and follow the steps below.
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	

Steps to follow for a symptomatic screening
Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel.
Isolation support personnel should begin documentation.
Notify Line Medics or MEDL if at ICP or Orleans Base Camp.
COVID Safety will coordinate with SRF Forest IMO.
Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet.
Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

¹ Symptoms of Coronavirus

FINANCE MESSAGE

Thank you for submitting your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- **Electronic fillable PDF CTR/Shift Ticket.** QR codes to fillable forms are included below. If you do not have QR capabilities, Finance can email you forms directly. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- **Hard copy CTR/Shift Ticket.** You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom. The phone numbers listed below are hard line phones, so texting does not work.

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in Check-in to drop off your time.
- Write your email on your CTR
- Hazard pay justifications are required on your CTR's in comments section. "H=Hazard" is not enough.

WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a "Courtesy Call" to make sure all your documents have been received.
- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to finance tent.
- Abide by scheduled demob time or call finance for an unscheduled demob.

CTR

SHIFTTICKET

EMAIL: 2020.redsalmon.finance@firenet.gov

Equipment Time: (530) 629-1678

Finance Section Chief (530) 629-1677

STANDARD OPERATING PROCEDURES—FINANCE SECTION

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

Personnel time will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

Private Contracted Equipment time must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

Resource Advisor Messages

- Resource advisors are available in nearly all Divisions on the fire and are here to support the mission of containing this wildfire while at the same time aim to minimize resource damage impacts. If you feel something needs to be brought to a Resource Advisor (or Cultural Specialist), go through your appropriate chain of command to make the notification.
- The Six Rivers, Klamath and Shasta-Trinity National Forests, as well as the Great Basin Team 5, have been working very closely with cultural specialists from the three main tribes in this area (the Hoopa, Karuk and Yurok) so please help us to maintain and foster these good relationships.
- The area in which the fire is burning is a very sacred place to these tribal cultures so please work with us utilizing MIST tactics to protect cultural and wilderness values. **Snags can also have cultural significance so please limit those to what is needed for safety and to contain the movement of the fire.**

Message #2 from Leaf Hillman, Karuk Cermonial Leader, about the importance of fire to the Karuk Tribe:

<https://www.youtube.com/watch?v= ahXaXVviIOM>

Important Note: These videos and all parts of them are property of the Karuk Tribe and are not intended for any purpose other than the reason for which they were developed. Usage of the material outside of the Red Salmon Complex fire organization is prohibited.

Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site
F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the
instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Human Resource Message

TEAMWORK

We're all in this together

Team work is essential

A hostile work environment breaks down a team

Be part of the solution—not the problem

You can make a difference with

- Appropriate behavior**
- Positive Attitude**
- And Mutual Respect**

Lauren Dorosz, HRSP

Your HRSP is not located at ICP. Contact Lauren via cell at 707-980-2732. An on-site HRSP will be arriving soon.

TRAINEE CHECK-IN AND CHECK-OUT

Red Salmon Complex
September 4-5, 2020

To check-in: Use the QR code below to download the check-in form.

To check out we need two Things:

- A copy of your Performance Evaluation filled out from your trainer.
- An Exit Interview which is filled out by the trainee.

The exit interview is a way to give some feedback from the trainee to the trainer about your experience on the incident.

Thank You,

Nick Balent

RED SALMON DEMOB

Check in with Demob at least 72 hours prior to demobing if you need air travel arrangements made.

Demob on the Red Salmon is paperless. Use **QR Code #1** to start your process.

If you have difficulties with your phone or need help, stop by the Demob Unit or call 530-629-1679 (Willow Creek) or 208-863-8926 (Orleans).

QR Code #1
Demob Process

Once you have scanned **QR Code #1**, proceed to the following locations to get signed off. This can be done at both Willow Creek and Orleans:

- GROUND SUPPORT *****(Do this prior to Weed Wash)*****
- WEED WASH
- SUPPLY
- COMMUNICATIONS
- TIME (SECOND TO LAST)
 - Contact Finance to ensure that all shift tickets and CTR's are completed and turned in prior to demob:
Equipment Time (530) 629-1678 Personnel Time (530) 629-1677

WILLOW CREEK FINANCE:

Complete the above stops, TIME and DEMOB are last.

TIME: Overhead, or ONE PERSON from each Vendor or Crew will be allowed to visit Finance for payment processing (Equipment Time or Personnel Time).

REMOTE FINANCE:

Call the numbers above to initiate closing out with finance.

Equipment Time will generate the Emergency Equipment Use Invoice (OF-286) and e-mail the invoice to company owner for review and signature.

Personnel Time will generate Incident Time Reports(s) (OF-288) and e-mail the report to designated contact for review.

- DEMOB (VERY LAST)
 - **Visit or call Demob** to verify that your checkout process has been completed
Willow Creek (530-629-1679)
Orleans (208-863-8926)
 - Scan **QR Code # 2** to submit your travel itinerary or verbally report it to Demob.

QR Code #2
Travel Itinerary for
After Demob Process

DO NOT DEPART FROM THE INCIDENT WITHOUT CHECKING OUT WITH DEMOB

Chapter 7 Page 164 (Modified for Single Page)

Assignment Definition

An assignment is defined as the time period (days) between the first full operational period at the first incident or reporting location on the original resource order and the last day worked prior to commencement of return travel to the home unit.

Length of Assignment

Standard assignment length is 14 days, exclusive of travel from and to home unit, with possible extensions identified below. Time spent in staging and preposition status counts toward the 14-day limit, regardless of pay status, for all personnel, including incident management teams.

14-Day Scenario

Assignment Extension

Prior to assigning incident personnel to back-to-back assignments, their health, readiness, and capability must be considered. The health and safety of incident personnel and resources will not be compromised under any circumstance.

Assignments may be extended when:

- Life and property are imminently threatened.
- Suppression objectives are close to being met.
- A military battalion is assigned.
- Replacement resources are unavailable, or have not yet arrived.

Upon completion of the standard 14-day assignment, an extension of up to an additional 14 days may be allowed (for a total of up to 30 days, inclusive of mandatory days off, and exclusive of travel).

21-Day Scenario

A 21-day assignment is exclusive of travel from and to home unit. Time spent in

staging and preposition status counts toward the 21-day assignment, regardless of pay status, for all personnel, including incident management teams.

30-Day Scenario

An assignment longer than 22 days is exclusive of travel from and to home unit. Time spent in staging and preposition status counts toward the assignment, regardless of pay status, for all personnel, including Incident Management Teams. For an assignment exceeding 21 days, two mandatory days off will be provided prior to the 22nd day of the assignment.

Contracts, Incident Blanket Purchase Agreements (I-BPA), and Emergency Equipment Rental Agreements (EERA) should be reviewed for appropriate pay requirements and length of assignment. If the contract, I-BPA, or EERA do not address this, the incident Finance/Administration Section Chief or the procurement official should be consulted as to whether compensation for a day off is appropriate.

ANYTHING THAT DOESN'T FIT INTO ONE OF THESE 3 SCENARIOS MUST BE REVIEWED BY DEMOB UNIT LEADER PRIOR TO ASSIGNMENT EXTENSION FROM COMPLETION. LOCAL UNIT RESOURCES REFERENCE CHPT 07 PG 166.

Resource Extension Request Form

RESOURCE and INCIDENT INFORMATION:

Resource Name: _____

Incident Name: _____ Incident #: _____ Request #: _____

Position on Incident: _____

Home Unit Supervisor: _____ Email: _____ Fax #: _____

EXTENSION INFORMATION:

Prior to any extension, consider the health, readiness and capability of the resource. The health and safety of incident personnel and resources will not be compromised under any circumstances.

Length of Extension: _____ Last Work Day: _____

Justification (Select from the List Below):

- Life and Property are imminently threatened,
- Suppression objectives are close to being met, or
- Replacement resources are unavailable or have not yet arrived

Explanation for Extension:

REQUESTED BY:

Incident Supervisor: _____ Incident Position: _____

APPROVED BY:

- 1) Incident Commander or Deputy: _____
- 2) Resource or Resource supervisor: _____
- 3) Host GACC (excluding single-resource Overhead) : _____
- 4) Home Unit Supervisor: _____
- 5) Sending GACC (excluding single-resource Overhead): _____
- 6) NICC (only if National Resource): _____

Gather signatures in the order they are numbered above. For IMT extensions, only signature lines 1, 3, 5 and 6 are required.

FIRE REPLACEMENT PROCEDURES

START THIS PROCESS AT LEAST 48 HOURS PRIOR TO DEMOB

Submit requests for all incident replacements on a 213, General Message:

- Separate cache from non-cache items on separate 213's.
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

FOR CACHE ITEMS

Requesting resource is **NOT** being demobed and requested items **ARE** available in Supply:

- Supply will attempt to fill request and note on the 213.
- Replace 1 for 1 for NFES issued items.

Requesting resource is **NOT** being demobed and requested items are **NOT** available in Supply:

- The Supply Unit will place an order for the requested items through the regular cache order process on the incident. The order will be shipped to the incident and replacement will take place at the Supply Unit and noted on the 213.
- Replace 1 for 1 for NFES issued items.

Requesting resource **IS** being demobed and requested CACHE items are **NOT** in stock in Supply:

- Along with the 213, complete an OF-315, Incident Replacement Requisition for cache items only and take to SPUL for review and approval. Include the requesting resources email on the form so the Resource Order can be emailed to the requesting resource.
- The SPUL will issue S#'s pending receipt and verification of proper documentation for cache items.

NON-CACHE ITEMS

Non-cache items include any items not available through the National Cache System.

Lost, damaged, or destroyed government non-cache property shall be reported to the appropriate DIVS or higher level overhead within 24 hours of occurrence. The requesting resource shall complete an ICS-213 and OF-289, Property loss and Damage Report—Fire Suppression, available at Orleans and Willow Creek Supply Unit. Include the following:

- All witnesses shall document the facts and circumstances of the loss or damage on the OF-289. Explanations shall be detailed and indicate how the incident caused the damage.
- The requesting resource will deliver the completed ICS-213 and OF-289 to the Comp/Claims Unit Leader. The COMP will make the determination based on the documentation presented.
- Approval for replacement is the responsibility of the incident agency and may be delegated to the Incident Commander/FSC2.
- If the replacement request is approved, the replacement cost will be limited to cache equivalent value. The requesting resource will complete the OF-315 for the Supply Unit.
- Items that do not have a like-item in the cache will be reviewed and approved at the discretion of the FSC2 or IBA, as delegated by the Agency Administrator,

**Great Basin IMT 5
Performance Critique Form**

TO: SINGLE RESOURCE POSITIONS AND OVERHEAD

Our Incident Management Team is interested in doing the best job that we can. Here is your opportunity to critique us. Give us your thoughts on how we are doing and what we need to do better. Before you leave the incident, please take a few minutes to complete this critique and then drop it off with the Plans section. We hope to use the comments we get to do a better job next time. Thanks for your input!

INCIDENT NAME _____ DATE _____

You are encouraged to use QR Code or link to complete the online form.

If you use this form, return completed paper copy to Demob Unit.

1. How would you rate the treatment you and/or your crew received on this incident?

Excellent Good Fair Poor

Comments? _____

2. How well did the following items meet your needs?

Food_____	Excellent	Good	Fair	Poor
Sleeping Area_____	Excellent	Good	Fair	Poor
Medical_____	Excellent	Good	Fair	Poor
Showers_____	Excellent	Good	Fair	Poor
Sanitation_____	Excellent	Good	Fair	Poor
Time _____	Excellent	Good	Fair	Poor
Check-In/DMOB_____	Excellent	Good	Fair	Poor
Transportation_____	Excellent	Good	Fair	Poor
Supply_____	Excellent	Good	Fair	Poor

Comments? _____

3. How would you rate the tactics used on the fireline?

Excellent Good Fair Poor N/A

Comments? _____

4. What were your impression of the knowledge level and the effort of your line overhead?

Excellent Good Fair Poor

Comments? (Please give names of individuals that were either outstanding or unsatisfactory) _____

5. How would you rate the IMT's attitude and efforts toward your safety?

Excellent Good Fair Poor

Comments?

6. Did you disagree in any way with how this incident was managed by this team?

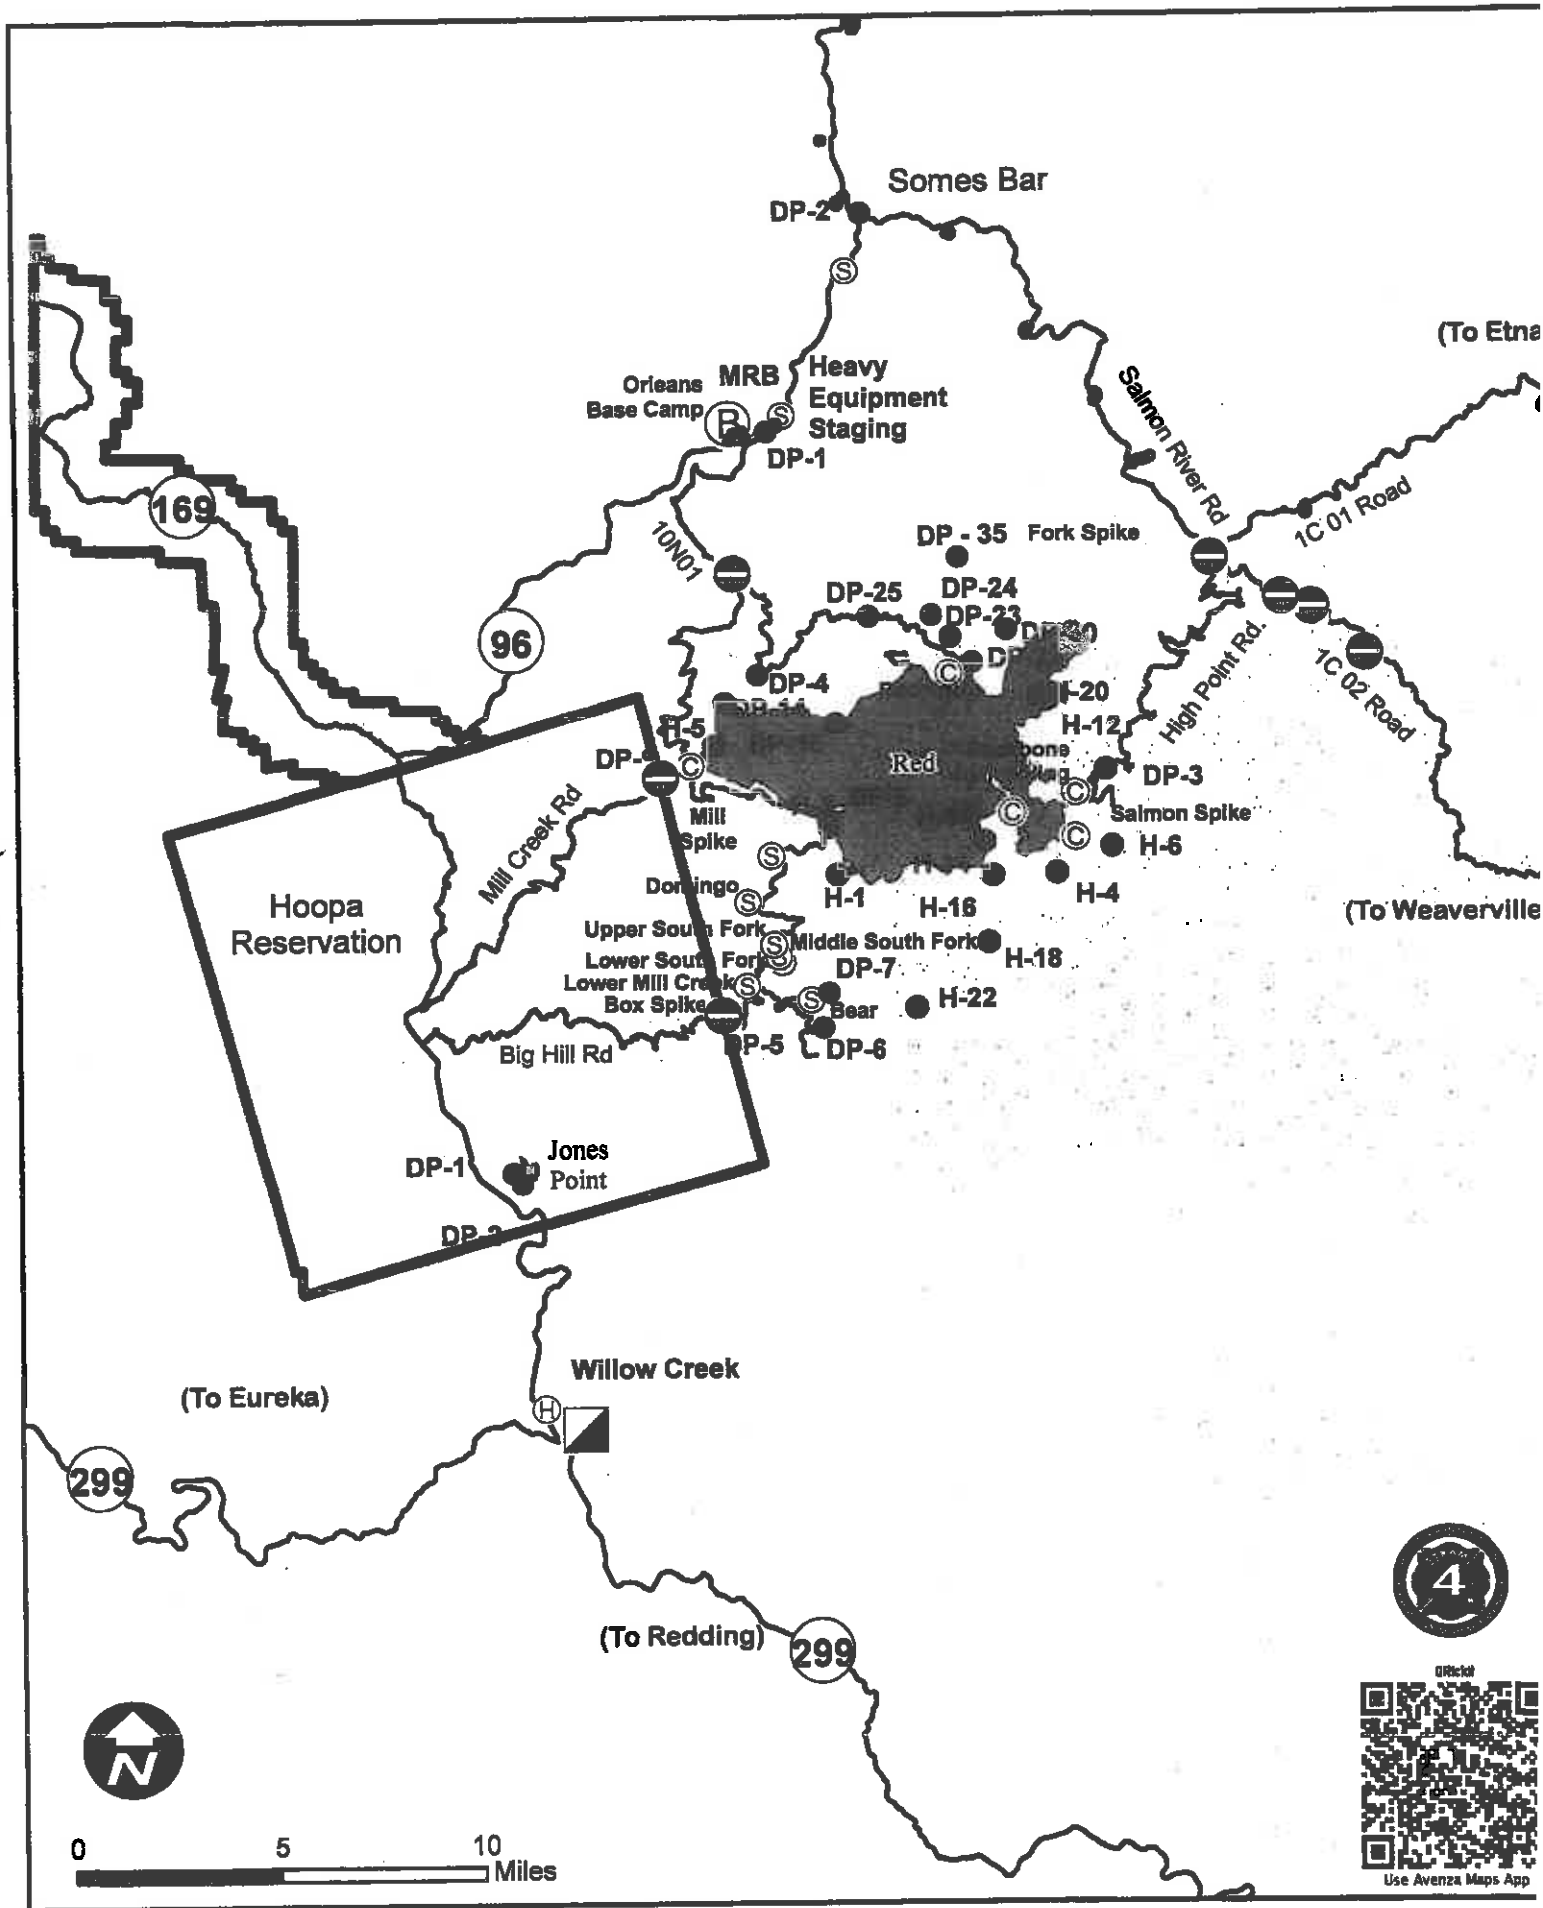

Yes No (If yes, please explain)

7. On a scale of 1 to 10, with 10 being the best, how would you rate the overall job this IMT did on the incident?

1 2 3 4 5 6 7 8 9 10

Comments? _____

8. If you were to pick just one item that you think this IMT would benefit from concentrating on improving, what would it be?

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i>	
	<input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or Illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of injury or illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Crew Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: (IRPG PAGE 106)	Age:	Weight:	Chief Complaint:
Skin Signs: (color/moisture/temp)	Level of Consciousness:	BP:	HR: Respirations:
Treatment:			

4. TRANSPORT PLAN:

Evacuation Location (*drop point, intersection, helispot, Lat. / Long, hazards*) Patient's ETA to Location:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method?
Be thinking ahead.

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

**REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
Be Alert - Keep Calm - Think Clearly - Act Decisively
*** Follow up with MEDL upon return to ICP *****
