## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 24	<b>TYPE OF FIRE</b> Wildfire
<b>FIRE NAME:</b> Red/Salmon	<b>OPERATIONAL PERIOD</b> 08/20-8/21 Day/Night 2020
<b>DATE ISSUED</b> 08/19/2020	<b>TIME ISSUED</b> 2130

### INPUTS

**WEATHER SUMMARY:** For Specifics Please see the attached Incident Weather Forecast.

**WEATHER:** Some mid and high clouds at times.

**MAX TEMP:** Below: 86 to 90° Above: 4000 ft 78-82° **MIN RH:** 18-30%

**20 FOOT WINDS:** Upper Slope/ East 1-4 until 1400, becoming Southwest 4-6 with Gust to 10 mph at sunset

**CHANCE OF WETTING RAIN** ( $\geq 0.10''$ ): 0%

**FUELS:** The major fuel types, found in and around the fire area are timber litter and shrubs.

**Ignition Receptiveness:** ERC levels are at the 90<sup>th</sup> percentile. Probability of Ignition 78% Night 24%.

**Dryness:** Dead and down fuel moistures :1 hour – 4% day, 10 hour– 5%, 100 hour–7%, and 1000 hour– 8%.

### FIRE BEHAVIOR

Expect a moderate risk burn environment (potential for large fire growth) due to high temperatures, low RH and critically low fuel moistures. By mid-day, expect to see activity pick up with active to highly active fire behavior. Once the inversion lifts (approx. 1500) anticipate and increase in fire behavior over the incident especially where open line exist. Uphill runs and spotting will be an issue where slope and wind align. Fire behavior will diminish at sunset or heavy shading along with an increase in humidity.

### SPECIFIC

#### **SPECIFIC FIRE BEHAVIOR:**

**Division A:** Low activity consisting of creeping and smoldering.

**Prospect spot (interior):** Will continue to move with active to very active fire behavior. Expect to see movement to the northwest into China Creek and to the northeast as the drainages align. Uphill runs and spotting will potentially threaten DIV Delta around Whiteys Peak and Red Spike in DIV Alpha.

**Division D, K:** No fire activity in DIV Delta. There is potential due to the activity in China Creek (Prospect spot). Firing operations will be aided with forecasted SW winds. No fire activity in DIV Kilo but a spot from Salmon Mtn. will cause an increase in fire activity (upslope runs, spotting).

**Division M / N:** Minimal fire behavior is expected.

**Division O:** Fire will continue to move south on the eastern side of the drainage. Watch for fire mid-slope to align and make upslope runs. Highly active to extreme fire behavior could be produced with significant spotting potential.

**Division U:** The main fire continues to move south across the slopes. Watch for mid slope alignment and uphill runs. Very active to extreme fire behavior from upslope runs.

**Division W, Y:** low activity mostly creeping and smoldering.

**Night Division:** As the humidity increases and sun sets expect to see fire activity drop off to smoldering.

#### **AIR OPERATIONS**

Low level inversions will lift at approx. 1200, mid-level at approx. 1500.

### Safety Message

**WATCH OUT SITUATION:** Unburned fuel between you and fire.

# Red Salmon Complex – Safety Message

INCIDENT #CA-SRF-000656

DATE: 08-20/21-2020 TIME: 0600-0600 Day/Night Shift

## LIMITED MEDIVAC CAPABILITY DUE TO PERIODS OF SMOKE INVERSION

- Personnel should know where the closest Advanced Life Support capability is at.
- Cache emergency equipment (backboards, wheeled stokes, etc.) in various locations on line.
- Practice with the Rapid Extraction Modules (REM). Ask where they plan to extract you and how long will it take?
- Know where the closest ambulance is located.
- Keep line personnel informed of this issue. Safety briefings to stress that extra care should be taken with high-risk tasks (i.e. tree falling, chainsaw use, etc.).
- Supervisors ensure that personnel with severe reaction to bee sting, etc. have “epi-kits” or develop contingency plans prior to an emergency.

## Firing Operations

Have a firing operations plan in place. Brief all resources in firing operations, have firing teams and holding resources identified.

- Post adequate Lookouts.
- Have a good starting and ending point for firing.
- Hazards: Drip Torch Fuel, Firing Devices and Projectiles.
- Wear and use all PPE.
- Know what your fire is doing at all times.

### COVID-19 INCIDENT STATS

Symptomatic Personnel: 10

Positive # of Cases: 0

## Make a Safety Difference

- As a supervisor, provide constant and relentless oversight.
- Stay focused on the task at hand, all the time!
- Come up with a safer way to perform a risky assignment.
- Discuss the near miss.
- Never tolerate “hey, watch this”.
- Discuss the cause of complacency, and mitigate the trend.
- While in the fire zone, wear your Hardhat when you leave the vehicle.
- Have a purpose in what you do.
- Don’t trust other drivers!

## L.C.E.S

- **Lookouts**- Use experienced people, know your trigger points, don’t depend on air resources and check your surroundings!
- **Communications**- Know your radio frequencies, check batteries, and be cognizant of any problems with direct communications.
- **Escape Routes**- Know them, time them, discuss them, and reassess them!
- **Safety Zones**- Evaluate the “black” as your safety zone. Reassess for problems.

## ***Red Salmon Complex COVID-19 Expectations***

---

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- **As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok reservations are closed so please do not stop in Hoopa or Weitchpec.**
- Use the **COVID-19 Daily Screening Tool**, provided in the IAP, to monitor self and module.
- Utilize **Module-as-one** concepts to reduce the risk of transmitting the novel Coronavirus. This limits “close contacts” to those within the module. A “close contact” is defined as face to face contact for at least 15 minutes or in the same enclosed space for 2 hours.
- **Social Distancing.** Maintain a minimum of 6’ physical distancing from those outside of ~~your module-as-one.~~
- **Face Coverings.** Face coverings are required to be worn, in the appropriate manner covering nose and mouth, when at ICP and Camps. Outside of camps, all incident personnel will wear a face covering when social distancing is not possible with those outside your module-as-one.
- **Wash your hands.** Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

## RED SALMON COVID-19 DAILY SCREENING TOOL

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

### Instructions for Screening

Item	What to Do
If Spike or fireline resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	NOTIFY SUPERVISOR IMMEDIATELY
At entries to established camps (Willow Creek ICP, Orleans Base Camp): Temperature screening required for all incident personnel, cooperators and guests. Although medical personnel are ideal, screeners do not have to be medically trained. If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	DO NOT ANNOUNCE Ask individual or "module-as-one" to step aside and follow the steps below.

#### Steps to follow for a symptomatic screening

- |  |
|--|
| Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel.                    |
| Isolation support personnel should begin documentation.  |
| Notify Line Medics or MEDL if at ICP or Orleans Base Camp.   |
| COVID Safety will coordinate with SRF Forest IMO.  |
| Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet.                              |
| Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI). |

# STANDARD OPERATING PROCEDURES—FINANCE SECTION

---

## WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

## OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

## DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

## PERSONNEL/EQUIPMENT TIME REPORTING

Personnel time will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

Private Contracted Equipment time must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

## MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

## FINANCE MESSAGE

Thank you for submitting your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- **Electronic fillable PDF CTR/Shift Ticket.** QR codes to fillable forms are included below. If you do not have QR capabilities, Finance can email you forms directly. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- **Hard copy CTR/Shift Ticket.** You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom. The phone numbers listed below are hard line phones, so texting does not work.

### PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in Check-in to drop off your time.
- Write your email on your CTR
- Hazard pay justifications are required on your CTR's in comments section. "H=Hazard" is not enough.

### WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a "Courtesy Call" to make sure all your documents have been received.
- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to finance tent.
- Abide by scheduled demob time or call finance for an unscheduled demob.

- Separate cache from non-cache items on separate 213's!
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

### FOR CACHE ITEMS
