Red Salmon Complex Weather Forecast

FORECAST NO: 16

UNITS: Six Rivers / Shasta Trinity

SHIFT DATE: Saturday, August 15, 2020

PREDICTION FOR: 0600 - 0600

FORECAST ISSUED: 2000 hrs. 8/14/2020

SIGNED:

Jeff Tonkin

Incident Meteorologist

Call or Text Obs to: (707) 672-3386

WEATHER DISCUSSION: A hot and dry August continues as strong high pressure builds over the region. Thunderstorm chances reduced a bit today but a slight chance remains while storms may form well east of the perimeter this afternoon. Surface winds remain light and mainly terrain driven...and although smoke transport winds will push smoke to the north...some smoke will fill the drainages overnight for limited visibilities during the morning hours.

Today (Saturday 0600-1800):

Weather: Sunny...with some afternoon cumulus. A 10% chance of thunderstorms during the afternoon. Smoke

hanging over the fire area drainages...beginning to mix out by 1300.

High Temperatures: Midslope 2,500ft: 86-93°; Upper Slope/Ridge 5,000 feet and higher: 82-88°.

Humidity: Below 5,000 feet: 16-22%, lowest around 1500 hrs, rising through 1800 hrs.

5,000 feet and higher: 19-23%

20 Foot Winds:

Lower/Mid Slopes: Variable 0-3 mph until 1000, then terrain driven 4-8 mph.

Upper Slopes: Variable 0-3 until 1200, becoming West 4-6 mph until 1500, then Northwest 5-7 mph.

LAL: 2

Chance of Wetting Rain (0.10"): 0%

Stability: Low valley inversions may not lift much. Mid-level inversion will hold in place through at least 1600 hrs.

Afternoon Mixing Height: Valleys: 2,500 feet AGL. Ridges: 7,000 feet AGL, if column breaks the inversion.

Smoke Transport: Toward the north. Good Ventilation in the afternoon.

Tonight (1800-0600):

Weather: A few high clouds. Smoke settling in area drainages.

Low Temperatures: Valley-Midslope: 58-65°; Upper slope/Ridge: 63-67°.

Humidity: Below 5,000 feet: Rising to 34-38% through 0200 hrs, then falling to 29-34% by 0600 hrs.

5,000 feet and higher: Slowly rising to 35-40% near 2300 hrs, then falling to 26-30% by 0600 hrs.

20 Foot Winds:

Lower/Mid Slopes: Variable 3-5 mph until 2300 hrs, then drainage 4-6 mph.

Ridges: Northwest 5-7 mph until 2100 hrs, then Variable 0-4 mph.

LAL: 1 **CWR:** (0.10"): 0%

Inversion: Strong inversion/thermal belt centered around 4,500 ft MSL.

<u>Sunday:</u> Some mid and high cloud cover at times...otherwise little change. Areas of smoke. Max Temps: 84-95°. Minimum RH: 21-31%. Afternoon Winds - Lower Slopes: Variable/Terrain Driven. Upper slopes: West at 6 mph.

Monday and Tuesday Outlook: Partly Cloudy. Temperatures in the mid-80s to lower 90s. Afternoon humidity 22-32%. Southwest winds 9-12 mph with gusts around 20 mph. Moderate to poor humidity recovery staying 40% and below overnight.

Weather near the fires with change from 24 hours ago:

DATE ISSUED 08/14/2020	TIME ISSUED 2130						
UNIT CA-SRF	SIGNED Stewart Turner FBAN Diondray Wiley, FBAN (T)						
	INPLITS						

WEATHER SUMMARY:

Hot and dry weather will be persistent over the next few days. Expect high temperatures and low humidity. There will be a slight chance for a thunderstorm to travel through the region. Sunday and Monday are forecasted to be slightly cooler and coupled with a South to Southwest wind.

See Weather Forecast for details

FIRE BEHAVIOR

GENERAL

We will be entering into a moderate risk burn environment, due to increasingly hot temperatures and RH below 30% (RHs below 30% equate to increased receptibility of fuels, control problems, long range spotting and single/group torching). Once the inversion breaks, approx. 1600, expect an increase in fire activity where clear air exist. Areas on the incident that remain sheltered will continue to smolder, back and make short runs where slope and wind align.

Large fires become more frequent when 1000 hr fuels drop below <u>12%</u>, when BI exceeds <u>66</u> and ERC exceeds <u>50</u>

Forecasted for 8/15/20- 1000 hr. fuels 7%: BI 61: ERC 82: Probability of ignition 70-80%: Spotting .2 mile

SPECIFIC

SPECIFIC FIRE BEHAVIOR:

(Branch I)

Divisions A, D, K: The west side of Division Alpha will be active with the proposed firing operation. Expect backing fire with the potential of upslope runs. The spot in Division Delta (Prospect Peak) will continue to make upslope runs, creeping and backing while under an inversion. Once the inversion lifts fire activity will increase especially in the areas of Whiteys Peak and Indian Rocks.

(Branch V)

Divisions M, N, O, P: Fire activity should be minimal. Be mindful that where open line exists, the potential for an increase in fire behavior is present.

(Branch VII)

Divisions Y, W, U, R: All the Divisions in the Branch except for Romeo will experience active fire behavior consisting of upslope runs when in alignment, lateral movement, backing and slope reversals. When clear air is present the intensity will increase. The areas of Packsaddle Ridge, Mills Creek gap and Black Mountain will be the most effected. Containment lines may become challenged. Firing operations should be successful under the predicted NW winds.

Night Operations (All Divisions): A strong inversion will remain in place overnight. The thermal belt will be centered at approx. 4,500 ft. Fire behavior should be minimal with smoldering and creeping.

AIR OPERATIONS

Low level inversion lifts around 1600 hrs. Smoke will impact aviation visibility on all branches.

Safety Message

Be aware of storm mitigations (IRPG 30/30 Rule) as there is a forecasted 10% chance of thunderstorms

Red Salmon Complex - Safety Message

INCIDENT #CA-SRF-000656

DATE: 08-15/16-2020 TIME: 0600-0600 Day/Night Shift

Situational Awareness

In the wildland fire environment, "SA" is requirement!

- Driving: Maintain safe driving practices
- Trees: Gravity always wins. Look up, down and around
- Steep Terrain: Look for rolling material
- Fatigue: Monitor your health and that of those around you
- Concentrate: Stay focused on the task at hand
- Communications: Be clear, be concise, be accurate

COVID-19 Incident Statistics

(to date)

Symptomatic Personnel: 7

Positive Number of Cases: 0

Points to Ponder

- Vehicle accidents are a common cause of firefighter injuries — Drive Smart
- Wildland FF's are injured or killed more annually from falling trees – Look Up
- Ash pits and stump holes are the most common cause of burn injuries – Look
 Down
- FF's can be the cause of, or recipient of rolling debris – Look Around
- Heat, long hours, and repetition can lead to complacency and injuries –
 Pace yourself
- Multiple Resources of multiple typing doing multiple jobs = Multiple potential for injury – Stay Focused
- Communicate clearly and get confirmation that your message is understood – Communicate Clearly

Individual Accountability

- Know where your crewmembers are at all times.
- Have crewmembers work in pairs.
- Inform Division or your Supervisor of changing locations.
- Review radio procedures, and ensure your radio is properly cloned.
- Check IN with the Division Supervisor on site if not assigned there
- Check OUT with your supervisor (or Division) at the end of shift.

Prepared by:

CIIMT 4 Safety

INCIDE		ION COMPLEX CA-SRF-000656 (ICS 215a) Day/Night Shift
DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	TRAFFIC HAZARDS AND DRIVING	 Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing, or turning around. Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent. 5mph speed limit in and around ICP, keep your speed down in all areas. Use warning lights when working on roads or traveling in smoke. Drive at or below posted speed limits. Use chock blocks, turn wheels into hill. Be alert for wildlife.
ALL	HAZARD / DANGER TREES	 Follow Hazard Tree Safety Guldelines (IRPG p.22.) Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. Be alert around hazard trees during wind events, even green trees. The hazard zone extends a minimum of 2½ tree lengths. Do not park vehicles or take breaks under or near hazard trees.
ALL	STEEP TERRAIN AND ROLLING DEBRIS	 Maintain 8'-10' spacing when working & walking. Be alert for rolling rocks, debris, or burning material. Evaluate necessity to send personnel in areas with limited access. Post lookouts where feasible.
ALL	FATIGUE/COMPLACENCY	 Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor ALL resources for level of fatigue. Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. Take steps to maintain situational awareness for the duration of the incident.
ALL	FIRING OPERATIONS and DEVICES	 Follow the chain of command when undertaking burning operations. Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. Wear and use appropriate PPE. Initiate burning after ensuring the plan is authorized and understood by all.
ALL	HEAT RELATED ILLNESS	 Drink 2 to 1 water to sports drinks. Take frequent breaks, minimum of 10 minutes every hour. Recognize symptoms of HEAT RELATED ILLNESS which include low energy, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating.
ALL	COMMUNICATIONS	 Share your Situational Awareness(hazards, changes, etc) to those who also have a need Radio communications may be poor in some areas. Ensure all personnel are familiar with the incident communications plan.
ALL	NIGHT OPERATIONS	 Have a purpose for where you drive and what you do. Don't rush into assignments. Use caution where you park or stage, especially in steep timbered areas. Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area. Increase SA by trying to see the work area during daylight hours. Use glow sticks to mark hazards, and ensure personnel have headlamps.
ALL	AIR OPERATIONS	 Follow "Aviation Watch-Out Situations" on page 46, IRPG. Don't plan on air resources for tactical support or medical transportation. Refer to page 58, IRPG for directing bucket drops. Ensure positive communication with all air resources.
ALL	ENVIRONMENTAL HAZARDS	 Keep alert for wildlife, deer, rattlesnakes, bees, and plants. Watch footing and hand placement around rocks. Use caution around gas and power lines. Personal hygiene is #1 when it comes to Poison Oak Prevention. Pick up and remove all trash from fireline, return to camp and place in dumpsters.
ALL	COVID-19	 Utilize social distancing, wear facemasks in camp ALWAYS. Maintain the "module of one" concept. Disinfect vehicles, tools, and commonly touch surfaces frequently. Do not share equipment and wash hands frequently.

FINANCE MESSAGE

Thank you for continuing to submit your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- Electronic fillable PDF CTR/Shift Tickets. QR codes to the fillable forms are included below. If you do
 not have QR capabilities Finance can e-mail you the forms directly. Make sure the forms are signed
 by the supervior before submitting to Finance. (In order to use fillable forms you must have some
 version of Adobe Acrobat downloaded on your device.)
- Hard Copy CTR/Shift Ticket. You may fill out a hard copy CTR/SHIFT Ticket, snap a picture and
 email/text that in to Finance OR you may turn in your actual hard copy as usual. If you send in a
 picture please make sure it is legible and includes the supervisor's signature at the bottom. (If you
 are texting pictures to Finance, enter the email address shown below where you would normally
 enter a phone number).

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in the check-in tent to drop off your time.
- Write your email or text # on your CTR.
- Hazard pay justifications are required on your CTR's. "H=Hazard" is not sufficient.

WHEN YOU ARE CLOSE TO DEMOB:

- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to the Finance trailers.
- Abide by scheduled demot time or call Finance for an unscheduled demob.

Personnel Time Office (530) 629-1675

Comp/Claims (707) 382-2147

Equipment Time Office (530) 629-1678

Finance Section Chief (530) 629-1677

STANDARD OPERATING PROCEDURES—FINANCE SECTION

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, <u>and/or</u> be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

<u>Personnel time</u> will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

<u>Private Contracted Equipment time</u> must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

Human Resource Message Alcohol and Drug Free Incident

Red Salmon Complex August 15, 2020

Alcohol, Non-Prescription, and Federal-Illegal Drugs are <u>Not Allowed</u> on This or Any Incident!

Feel free to call/text or come by the HRSP yurt if you have questions, concerns, or just want to chat. Adam Alvarez – (HRSP) (707) 373-8715

MUTUAL RESPECT, YOU MAKE THE DIFFERENCE!

RED SALMON DEMOB PROCESS

Steps for the Demob Process. Note this is a paperless process. If you have difficulties with your phone or need help, please ask the person in the Checkin / Demob tent or call 530-629-1679. This includes those who do not have a smartphone.

Demob Process

Go to the following locations where the Unit Leader will electronically sign off on your demob:

- -ORLEANS GROUND SUPPORT *** (Do this prior to Weed Wash) ***
- -WEED WASH
- -SUPPLY
- -COMMUNICATIONS
- -TIME (LAST)

Contact Finance at the listed numbers to ensure all shift tickets and CTR's are completed: Equipment Time (530) 629-1678, Personnel Time (530) 629-1675

RESOURCES TRAVELING THROUGH YREKA TO HIGHWAY 5
FOR TIME AND DEMOB - NO NEED TO COME TO WILLOW CREEK ICP

* EOUIPMENT TIME*

Finance will generate the Emergency Equipment - Use Invoice (OF-286) and e-mail OF-286 to company owner for review and signature.

* PERSONNEL TIME*

Finance will generate the Incident Time Report(s) (OF-288) and e-mail OF-288 to designated contact for review.

When finished with the items above, return to the Check-in / Demobtent to verify no other information is needed.

Travel Itinerary for After Demob Process

Last, use the QR Code to complete the "Travel Itinerary for After Demob Process", QR Code Form, OR STOP at the Demob / Check-in tent to verbally report your travel itinerary.

RESOURCES TRAVELING SOUTH THROUGH WILLOW CREEK

After all of the above stops, EXCEPT for TIME and DEMOB, have been completed. Travel to Willow Creek ICP.

TIME - Overhead, or ONE PERSON from each Vendor or Crew will be requested to visit Finance (Equipment Time or Personnel Time) for payment processing.

DEMOB (LAST) - STOP AT THE DEMOB TRAILER to use the QR Code to complete the "Travel Itinerary for After Demob Process", QR Code Form, OR to verbally report your travel itinerary.

Red Salmon Complex COVID-19 Mitigations

It is the expectation that all incident personnel will follow the CDC and Agency guidance related to COVID-19.

- <u>Maintain physical distance of 6'+</u>. There is currently no vaccine to prevent the novel coronavirus (COVID-19).
- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is thought to spread mainly from person-to-person.
 - o Between people who are in close contact with one another (within about 6 feet).
 - o Through respiratory droplets produced from an infected person.

- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.

• Wear a face covering. Outside of fireline activity, it is expected that all incident personnel will wear a face covering when social distancing is not possible with those outside your "module as one". Face coverings are to be worn, in the appropriate manner, within the ICP, Base, and Spike Camps.

To protect the local communities along Highway 96, under no circumstances will you make any stops. Be prepared to travel non-stop in the areas from Willow Creek to Happy Camp. Expect to see hard closures.

• Conduct personnel health screenings daily and report illnesses to supervisor. COVID-19 symptoms include cough, shortness of breath, trouble breathing or any two of fever, chills, repeated shaking with chills, muscle or body aches, headache, sore throat, new loss of taste or smell, congestion or runny nose, nausea or vomiting, or diarrhea.

TRAINEE CHECK-IN PROCEDURE

RED SALMON COMPLEX AUGUST 15, 2020

Use the QR code below to download the check-in form.

Fill out the form as complete as possible. Any information you are not sure of we can fill in later.

Hit submit and it automatically comes to me and I enter it into the training database.

If you can't download the form electronically. Just give me a call or a text and we will get things figured out.

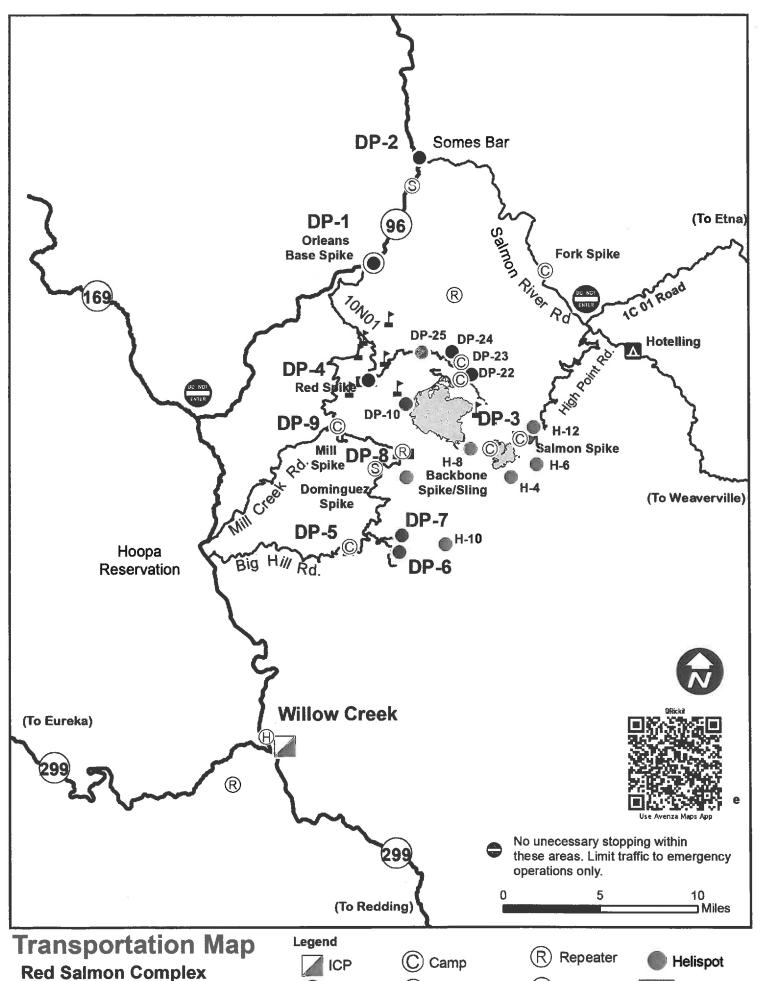

QR codes are located on the training page in every IAP. They are also posted on the message board in the Orleans camp and at the Helibase in Willow Creek.

If you have any questions, please feel free to call me or send me a text.

Thank You,

Nick Balent TNSP (t) 707.298.1805 nicholas.balent@usda.gov

CA-SRF-0656

FIRE REPLACEMENT PROCEDURES

START THIS PROCESS AT LEAST 48 HOURS PRIOR TO DEMOB

Submit requests for all incident replacements on a 213, General Message:

- Separate cache from non-cache items on separate 213's!
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

FOR CACHE ITEMS

Requesting Resource is **NOT Being Demobed** and Requested Items **ARE Available** in Supply:

R&D shall fill request and note on the 213.

Requesting Resource is **NOT Being Demobed** and Requested Items are **NOT Available** in Supply.

• The Supply Unit will place an order for the requested items through the regular cache order process on the incident. The order will be shipped to the incident and replacement will take place at the Supply Unit and noted on the 213.

Requesting Resource IS Being Demobed and Requested CACHE Items are NOT in Stock in Supply:

- Along with the 213, complete an OF-315, Incident Replacement Requisition for cache items only and
 take to SPUL for review and approval. Include the requesting resources' email on the form so the
 Resource Order can be emailed to the Requesting Resource.
- The SPUL will issue S#'s pending receipt and verification of proper documentation for cache items.

NON-CACHE Items - This is the Important Part!!!

Non-Cache items include any item not available through the National Cache System.

Lost, damage, or destroyed government non-cache property shall be reported to the appropriate DIVS or higher-level overhead within 24 hours of occurrence. The requesting resource shall complete an ICS-213 and OF-289, Property Loss and Damage Report – Fire Suppression, available at Orleans Base Camp Supply Unit. Include the following:

- All witnesses shall document the facts and circumstances of the loss or damage on the OF-289. Explanations shall be detailed and indicate how the incident caused the damage.
- The requesting resource will email the completed ICS-213 and OF-289 to the Comp/Claims Unit Leader at scott_parsons@firenet.gov. The COMP will make a determination based upon the documentation presented.
- Approval for replacement is the responsibility of the incident agency and may be delegated to the incident Management Team for IC and FSC.
- If the replacement request is approved, the replacement cost will be limited to cache equivalent value. The requesting resource will complete OF-315 for the Supply Unit.
- Items that do not have a like-item in the cache will be reviewed and approved at the discretion of the FSC or Incident Business Advisor, as delegated by the Agency Administrator.

Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Questions?

OES Assistant Chief Pat Titus 916-634-9225

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4

EXPECTATIONS

Welcome to this Incident.
Thank You for your Cooperation & Support!

2020

CONDUCT AND BEHAVIOR

This team is committed to "ZERO TOLERANCE" of careless, illegal, inappropriate and unsafe actions.

Alcohol and/or illegal drugs are NOT allowed within the incident environment or while actively assigned to the incident. Local Law Enforcement Officials will be called to deal with any suspected illegal activities. Each employee has the responsibility to be ready, willing, and able to perform the duties for which they are qualified.

Sexual Harassment

Inappropriate actions or comments will not be tolerated. Everyone is expected to act in a professional manner. It is your responsibility to stop inappropriate actions or comments immediately upon becoming aware of such. Sexual Harassment must be reported to the Human Resource Specialist or Incident Commander. When outside of your designated sleeping area, you are required to wear at least a shirt, appropriate shorts, and shoes or sandals. If you need clarification of these expectations contact the Human Resource Specialist or IC. What we PERMIT we PROMOTE!!!!

SAFETY

The commitment to and accountability for safety is a joint responsibility of firefighters, managers and administrators. Individuals must personally be committed and responsible for their own performance and accountability. Everyone assigned to this incident can expect an assignment that follows all safety rules & regulations. Every person is expected to perform his or her duties in compliance with all known safety practices at all times. Anything less is unacceptable.

EMPHASIS AREAS

Training

All trainees and trainers are expected to follow the procedures outlined in the California Interagency Incident Management Team 4 Training Expectations – See back page.

Evaluations

All supervisory personnel assigned will complete an ICS 225 Incident Personnel Performance Rating form for their assigned resources according to agency policy or contractual agreement.

Injuries/Claims

Ensure all injuries and potential claims are reported to the Comp/Claims Unit for completion of appropriate paperwork. Contract claims will be reported to the Procurement Unit Leader.

Work Rest Cycles

The 2: 1 work/rest ratio is mandatory. For every two hours on shift you will be required to rest for one hour. Every effort shall be used to limit work hours to a maximum of 16. If circumstances require you to exceed 16 hours, this needs to be coordinated in advance with your supervisor and the Justification/Mitigation form completed to support the excessive hours prior to submitting for approval by the IC. It is your responsibility to comply with this direction and provide the appropriate documentation to your Supervisor and Finance.

Position Qualifications

Personnel shall only be assigned to positions for which they are qualified. Proof of qualifications shall be approved prior to being assigned to any fire line position. Non-fireline positions may be filled based on the word of the employee pending home unit confirmation, which must be requested immediately. Contract dozer operators, tactical water tender operators and contract fallers must provide proof that they have received the annual fire refresher training.

Engagement/Disengagement

The 10 Standard Orders & 18 Watchout Situations will be followed at all times and mitigated as needed. Staying aware of your situation is critical. This includes Geographic Area and incident briefings. Follow the Risk Management Process outlined in the Incident Response Pocket Guide.

Debriefing

All Branch Directors/Division/Group Supervisors will report to their Supervisor and Situation Unit at the end of the operational period for debriefing with emphasis on the accomplishment of objectives. All unit logs (ICS 214) will be turned in after the debriefing to Documentation reflecting accomplishment and/or special incidents that occurred during the operational period.

Crew Time Reports/Shift Tickets

It is your responsibility to ensure all time is properly accounted for and recorded each shift. The records are to be <u>reviewed and signed</u> by the next level supervisor. A finance "Rules of Engagement" document will be provided in the IAP explaining further requirements.

Social Media

It is your responsibility to know and understand guidelines for firefighter photography, video and social media use. California Interagency Incident Management Team 4 goal is simple: to participate online in a respectful, relevant way that protects our incident's professional reputation, does not confuse the public about the incident and follows the letter and spirit of the law. Be mindful that social media postings can be viewed as unprofessional, damage careers and lead to disciplinary actions. For further information, contact the Public Information Officer.

We look forward to working with you as a valuable member of this effort. If you have any questions or feedback, please feel free to contact any Command and General Staff Member.

JAY KURTH

Incident Commander

ROCKY W. OPLIGER
Deputy Incident Commander

THANK YOU FOR YOUR COOPERATION AND GOOD WORK!!

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4

TRAINING EXPECTATIONS

- 1. Upon arrival at the incident and after check-in, the trainee will bring the following documents to the initial meeting with the training specialist:
 - a. A properly initiated Position Task Book.
 - b. Your Request Number and your Agency (3) letter identifier.
 - c. Your agencies Fire Chief or Training Officers name, address, and phone number to insure that a copy of the training documents will be mailed back to your home unit.
 - d. Your current Incident Qualification Card (red card) that identifies you as a Trainee in the position you are seeking to be trained.
- 2. Have you identified or has a Trainer been assigned to you and if so, have the Trainer present when you meet with the training specialist.
- 3. At closeout and prior to entering the demobilization process, you should complete, sign, and review with the trainer the Final exit interview form. Once the form is complete, bring the following documents to the Training Specialist for closeout;
 - a. Position Taskbook (Evaluation Record dated and signed by the Trainer).
 - b. Completed ICS 225 (Personal Evaluation Record) dated and signed by both the trainee and trainer.
 - c. Completed Final Exit Interview Form dated and signed by both the trainee and the trainer.

Trainer Expectations

- 1. Arrive with the Trainee at the initial meeting with the Training Specialist.
- 2. Be ready to provide your Contact information and your Incident Request number.
- 3. Have a Current Incident Qualifications Card (Red Card) in a position of equal or greater qualifications that the Trainee is trying to achieve.
- 4. Be willing to educate, support, and provide professional and consistent feed back to the trainee during the assignment.
- 5. Throughout the incident the trainer shall continue to monitor and review with the trainee their tasks and goals within the taskbook.
- 6. The trainer, where appropriate is expected to sign off task's that are achieved by the trainee and to complete and sign the following documents.
 - a. ICS 225 (Personal Evaluation Form)
 - b. Evaluation Record at the back of the taskbook.
- 7. The trainer shall portray a positive and professional attitude that lets the trainee know that it is desirable to ask for direction and feedback.
- 8. When accepting the role as a trainer, you are expected to act in a professional manner that represents the California Interagency Incident Management Team 4 and your home agency.
