Red Salmon Complex Weather Forecast

FORECAST NO: 19

UNITS: Six Rivers / Shasta Trinity

SHIFT DATE: Tuesday, August 18, 2020

PREDICTION FOR: 0600 - 0600

FORECAST ISSUED: 2000 hrs. 8/17/2020

SIGNED:

Jeff Tonkin

Incident Meteorologist

Call or Text Obs to: (707) 672-3386

WEATHER DISCUSSION: Today marks the beginning of a return to more seasonal conditions to the fire area. Temperatures and RH values will gradually become closer to normal for this time of year while the threat of showers or thunderstorms ceases. The marine layer will gradually deepen over the next few nights allowing a solid increase in overnight recoveries while the beginning of a slight cooling trend begins. Valley and midslope winds will remain terrain and diurnally driven while ridge winds remain out of the southwest and relatively light.

Today (Tuesday 0600-1800):

Weather: High clouds to the east most of the day...some afternoon cumulus building.

Max Temperature: Below 4,000 ft: 87-93. Above 4,000 ft: 81-85.

Min Humidity: Below 4,000 feet: 30-35%, lowest in afternoon.

Above 4,000 feet and higher: 28 - 33% lowest mid morning...rising in aftternoon.

20 Foot Winds:

Lower/Mid Slopes: Downslope or east 1-3 mph until 1300, then terrain driven or west 4-8 mph. Upper Slopes/Ridges: East 1-4 until 1400, becoming South and Southwest 4-6 mph with Gusts

to 15 mph until sunset.

LAL: 1 Chance of Wetting Rain (0.10"): 0%

Stability: Low valley inversions lift 1200. Mid-level inversion will hold in place through at least 1500 hrs.

Afternoon Mixing Height: Valleys: 2,500 feet AGL. Ridges: 7,000 feet AGL, if column breaks the inversion.

Smoke Transport: Toward the northeast.

Tonight (1800-0600):

Weather: Partly cloudy...increased RH.

Low Temperatures: Valley-Midslope: 60-65°; Upper slope/Ridge: 64-67°.

Max Humidity: Below 4000 feet: 78-88%.

Above 4000 feet: 65 to 70%.

20 Foot Winds:

Lower/Mid Slopes: West 3-5 mph until 2300 hrs, then east or downslope 1-4 mph.

Ridges: South and southeast 4-7 mph with Gusts to 12 mph through sunrise.

LAL: 1 CWR: (0.10"): 0%

Inversion: Moderate inversion/thermal belt centered around 4,500 ft MSL.

Wednesday: Partly cloudy. Areas of smoke. Max Temps: 83-87°. Minimum RH: 36-41%. Afternoon Winds - Lower Slopes: Variable/Terrain Driven. Upper slopes: Southwest at 6 mph.

Thursday and Friday Outlook: Partly Cloudy. Temperatures in the 80s. Afternoon humidity 33-37%. Southwest winds 3-6 mph with gusts around 12 mph.

Weather near the fires with change from 24 hours ago:

WEATHER SUMMARY

There will be a gradual cooling trend over the next few days. Daytime RH will will begin to rise to a more seasonal level. A deepening marine layer will aid in overnight recoveries. Drainage winds will be terrain and diurnally driven with ridge top winds from the Southwest.

See Weather Forecast for details

FIRE BEHAVIOR

GENERAL

Temperatures will begin to moderate over the next few days, but the RH will remain critically low. Even though the local thresholds may not be exceeded, the potential for large fires is present. Once the inversion breaks, approx.1500, expect an increase in fire activity where clear air exist. Area of open line will continue to smolder, back and make short runs where slope and wind align.

Large fires become more frequent when 1000 hr fuels drop below 12%, when BI exceeds 66 and ERC exceeds 50. RH 24%

Forecasted for 8/18/20- 1000 hr. fuels 6: Bl 75: ERC 87: RH 28%: Probability of ignition 66%

SPECIFIC

SPECIFIC FIRE BEHAVIOR:

(Branch I)

Divisions A, D: Fire behavior will consist of backing, creeping, and flanking. Division Delta no fire activity.

(Branch III)

Divisions F, H: Unstaffed. The spot on Prospect peak continues to remain active. The fire behavior will consist of backing, flanking, and making uphill runs.

(Branch V)

Divisions M/N, O, P, K: Fire activity should be minimal in the areas of Salmon Mtn., the Salmon Fire and Devils Backbone. Be mindful that where open line exists, the potential for an increase in fire behavior is present to include spotting and upslope runs. Division Papa will be unstaffed.

(Branch VII)

Divisions Y, W, U, R: Fire behavior, due to proposed firing operations will consisting of upslope runs, lateral movement, backing and potential spotting. When clear air is present the intensity will increase. The areas of Packsaddle Ridge, Red Cap Creek, Mills Creek gap and Black Mountain will be the most effected.

Night Operations (All Divisions): A moderate inversion will remain in place overnight. The thermal belt will be centered at approx. 4,500 ft. Fire behavior should be minimal with smoldering and creeping.

AIR OPERATIONS

Low level inversions will lift at approx. 1200, mid-level at approx. 1500.

Safety Message

Base all actions on current and expected behavior of the fire.

Mop-up and hold from DIV A / Y break along Red Cap Creek to Black Mountain. Utilize UAS as needed.

7. Special Instructions:

Coordinate with REAFs on all dozer operations to minimize impacts to cultural sites. Limit dozer operations to pre-existing dozer lines and limit dozer width to the extent possible. Utilize MIST tactics. Utilize READ's for cultural and environmental resource concerns.

Do not post lookouts on any bed rock out cropping without first getting clearance from REAF or READ.

ID helispots and drop points, get lat-longs and provide to the DIVS.

Back-haul trash and excess equipment i.e. nets, swivels and ice chests to logistics.

FOBS assigned to SIT will be working in BranchVII: R. Brubaker/ T. Easly/ A. Miyagishim / T. Peterson

SMA REMS-6 Available for Branch I

Red Salmon Complex - Safety Message

INCIDENT # CA-SRF-000656

DATE: 08-18/19/20 TIME: 0600-0600 Day/Night Shift

"SAFETY is a CORE VALUE to be integrated into ALL incident activities"

COMMUNICATION RESPONSIBILITIES

All firefighters have five communication responsibilities:

- Brief others as needed.
- Debrief your actions.
- Communicate hazards to others.
- Acknowledge messages.
- Ask if you don't know or are unclear.

Leadership

All leaders of firefighters have the responsibility to provide complete briefings that include a clearly stated "Leader's Intent."

• Task = What is to be done

Purpose = Why it is to be done

End State = How it should look when done

Mop-Up Operations

Balance the risk of exposure to hazards against the mop-up objective potentially achieved.

- Evaluate areas for hazard trees and locate stump holes for avoidance.
- Monitor fatigue; shorten shifts to increase rest where appropriate.
- Provide motivation to workers to maintain situational awareness and avoid complacency.
- Evaluate mop up distances against what is safe and necessary.
- Review and follow "Look Up, Look Down, Look Around" procedures (IRPG p. 3-4).

COVID-19 INCIDENT STATISTICS (to date)

Symptomatic Personnel: 9 Positive # of Cases: 0

- Be Smart! Stay Apart! Maintain at least 6 feet distance from people when feasible
- Practice good hygiene. Wash hands often and avoid touching your face
- Cover your nose and mouth with a facial covering and cough into your elbow if needed
- Monitor your health and the health of your crew. Follow the Covid-19 Daily Screening Tool. If any symptoms are present, NOTIFY A SUPERVISOR.

Prepared by:

CIIMT 4 Safety Group

| DIV/BR | ENT RISK ANALYSIS RED SALI HAZARDOUS ACTIONS / CONDITIONS | MON COMPLEX CA-SRF-000656 (ICS 215a) Day/Night Shif |
|--------|---|---|
| ALL | TRAFFIC HAZARDS AND DRIVING | Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing, or turning around. Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent. 5mph speed limit in and around ICP, keep your speed down in all areas. Use warning lights when working on roads or traveling in smoke. Drive at or below posted speed limits. Use chock blocks, turn wheels into hill. Be alert for wildlife. |
| ALL | HAZARD / DANGER TREES | Follow Hazard Tree Safety Guidelines (IRPG p.22.) Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. Be alert around hazard trees during wind events, even green trees. The hazard zone extends a minimum of 2½ tree lengths. Do not park vehicles or take breaks under or near hazard trees. |
| ALL | STEEP TERRAIN AND ROLLING DEBRIS | Maintain 8'-10' spacing when working & walking. Be alert for rolling rocks, debris, or burning material. Evaluate necessity to send personnel in areas with limited access. Post lookouts where feasible. |
| ALL | HEAT RELATED ILLNESS | Drink 2 to 1 water to sports drinks. Take frequent breaks, minimum of 10 minutes every hour. Recognize symptoms of HEAT RELATED ILLNESS which include low energy, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating |
| ALL | FATIGUE/COMPLACENCY | Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor ALL resources for level of fatigue. Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. Take steps to maintain situational awareness for the duration of the incident. |
| ALL | FIRING OPERATIONS and DEVICES | Follow the chain of command when undertaking burning operations. Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. Wear and use appropriate PPE. Initiate burning after ensuring the plan is authorized and understood by all. |
| ALL | COMMUNICATIONS | Share your Situational Awareness(hazards, changes, etc) to those who also have a need Radio communications may be poor in some areas. Ensure all personnel are familiar with the incident communications plan. |
| ALL | NIGHT OPERATIONS | Have a purpose for where you drive and what you do. Don't rush into assignments. Use caution where you park or stage, especially in steep timbered areas. Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area. Increase SA by trying to see the work area during daylight hours. Use glow sticks to mark hazards, and ensure personnel have headlamps. |
| ALL | AIR OPERATIONS | Follow "Aviation Watch-Out Situations" on page 46, IRPG. Don't plan on air resources for tactical support or medical transportation. Refer to page 58, IRPG for directing bucket drops. Ensure positive communication with all air resources. |
| ALL | ENVIRONMENTAL HAZARDS | Keep alert for wildlife, deer, rattlesnakes, bees, and plants. Watch footing and hand placement around rocks. Use caution around gas and power lines. Personal hyglene is #1 when it comes to Poison Oak Prevention. Pick up and remove all trash from fireline, return to camp and place in dumpsters. |
| ALL | COVID-19 | Utilize social distancing, wear facemasks in camp ALWAYS. Maintain the "module of one" concept. Disinfect vehicles, tools, and commonly touch surfaces frequently. Do not share equipment and wash hands frequently. |

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

- 1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)
- Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

| 1-11-11-11-1 | day modera, to le ti Eb conce. Emit office to protecting modera care. | |
|-----------------------------------|--|--------------------|
| | □RED / PRIORITY 1 Life or limb threatening injury or iliness. Ex | acuation |
| | need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 pair. | n cizac haat |
| Severity of Emergency / Transport | stroke, disoriented. | • |
| Priority | ☐YELLOW / PRIORITY 2 Serious injury or liiness. Evacuation ma | ny be |
| • | DELAYED If nocessary. | |
| | Ex: Significant trauma, unable to walk, $2^{\circ} - 3^{\circ}$ burns not more than 1-3 palm sizes. | |
| | GREEN / PRIORITY 3 Minor injury or Iliness. Non-Emergency t | ransport |
| | Ex: Sprains, strains, minor heat-related illness. | |
| Nature of Injury or Hiness | Brief Summary of Inju | ury or Illness |
| Mechanism of Injury | (Ex: Unconscious, Struct | k by Falling Tree) |
| Transport Request | Air Ambulance / Sh | |
| | Ground Ambulan | |
| Patient Location | Descriptive Location (WGS84 | 9 |
| Incident Name | Geographic Name | |
| | (Ex: Trout Meado | |
| On-Scene Incident Commander | Name of on-scene IC of Incident (Ex: TFL | |
| Patient Care | Name of Care F | |
| 2 INITIAL DATIENT ASSES | (Ex: EMT SI | nitn) |

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)
Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

| 6. COMMUN | IICATIONS: Identify 8 | itate Air/Ground | EMS Frequencies and | d Hospital Contacts | as applicable |
|-----------------|-----------------------|------------------|---------------------|---------------------|---------------|
| Function | Channel Name/Number | Receive (RX) | Tone/NAC * | Transmit (TX) | Tone/NAC * |
| COMMAND | | | | | |
| AIR-TO- GRND | | | | | |
| TACTICAL | | | | | |

7. CCONTINGENCY:

Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

Follow up with MEDL upon return to ICP

Red Salmon Complex COVID-19 Mitigations

It is the expectation that all incident personnel will follow the CDC and Agency guidance related to COVID-19.

- <u>Maintain physical distance of 6'+</u>. There is currently no vaccine to prevent the novel coronavirus (COVID-19).
- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is thought to spread mainly from person-to-person.
 - o Between people who are in close contact with one another (within about 6 feet).
 - o Through respiratory droplets produced from an infected person.

- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.

Wear a face covering. Outside of fireline activity, it is expected that all incident personnel will wear a face covering when social distancing is not possible with those outside your "module as one". Face coverings are to be worn, in the appropriate manner, within the ICP, Base, and Spike Camps.

To protect the local communities along Highway 96, under no circumstances will you make any stops. Be prepared to travel non-stop in the areas from Willow Creek to Happy Camp. Expect to see hard closures.

• Conduct personnel health screenings daily and report illnesses to supervisor. COVID-19 symptoms include cough, shortness of breath, trouble breathing or any two of fever, chills, repeated shaking with chills, muscle or body aches, headache, sore throat, new loss of taste or smell, congestion or runny nose, nausea or vomiting, or diarrhea.

RED SALMON COVID-19 DAILY SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

| Symptom |
|---|
| Cough more than expected? |
| Shortness of breath or difficulty breathing? |
| Fever? Chills? |
| Muscle pain, outside your normal for firefighting? |
| Sore throat? |
| New loss of taste or smell? |
| Fatigue, outside your normal for firefighting? |
| Headache, outside your normal for firefighting? |
| Congestion or runny nose, outside your normal for firefighting? |
| Nausea or vomiting |
| Diarrhea |
| * Take temperature with no-touch thermometer, if available * |

Instructions for Screening

| Item | What to Do |
|--|--|
| If Spike or fireline resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed. At entries to established camps (Willow Creek ICP, Orleans Base Camp): | NOTIFY SUPERVISOR IMMEDIATELY DO NOT ANNOUNCE |
| Temperature screening required for all incident personnel, cooperators and guests. Although medical personnel are ideal, screeners do not have to be medically trained. | Ask individual or "module-as-one" to step aside and follow the steps |
| If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry. | below. |

Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel. Isolation support personnel should begin documentation. Notify Line Medics or MEDL if at ICP or Orleans Base Camp. COVID Safety will coordinate with SRF Forest IMO. Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet. Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Questions?

OES Assistant Chief Pat Titus 916-634-9225

FINANCE MESSAGE

Thank you for continuing to submit your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- Electronic fillable PDF CTR/Shift Tickets. QR codes to the fillable forms are included below. If you do
 not have QR capabilities Finance can e-mail you the forms directly. Make sure the forms are signed
 by the supervior before submitting to Finance. (In order to use fillable forms you must have some
 version of Adobe Acrobat downloaded on your device.)
- Hard Copy CTR/Shift Ticket. You may fill out a hard copy CTR/SHIFT Ticket, snap a picture and email/text that in to Finance OR you may turn in your actual hard copy as usual. If you send in a picture please make sure it is legible and includes the supervisor's signature at the bottom. (If you are texting pictures to Finance, enter the email address shown below where you would normally enter a phone number).

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in the check-in tent to drop off your time.
- Write your email or text # on your CTR.
- Hazard pay justifications are required on your CTR's. "H=Hazard" is not sufficient.

WHEN YOU ARE CLOSE TO DEMOB:

- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to the Finance trailers.
- Abide by scheduled demob time or call Finance for an unscheduled demob.

Personnel Time Office (530) 629-1675

Comp/Claims (707) 382-2147

Equipment Time Office (530) 629-1678

Finance Section Chief (530) 629-1677

STANDARD OPERATING PROCEDURES—FINANCE SECTION

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

<u>Personnel time</u> will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

<u>Private Contracted Equipment time</u> must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

TRAINEE CHECK-IN AND CHECK-OUT

RED SALMON COMPLEX AUGUST 18, 2020

To check-in: Use the QR code below to download the check-in form.

To check out all I need is two Things:

- A copy of your <u>Performance Evaluation</u> filled out from your trainer.
- An Exit Interview, which is filled out by the trainee.

The exit interview is a way to give some feedback from the trainee to the trainer about your experience on the incident.

Please let me know towards the end of your assignment and I can send you both forms.

Thank You,

Nick Balent TNSP (t) 707.298.1805 nicholas.balent@usda.gov

RED SALMON DEMOB

Check in with Demob at least 72 hours prior to demobing if you need air travel arrangements made.

Demob on the Red Salmon is paperless. Use QR Code #1 to start your process.

If you have difficulties with your phone or need help, stop by the Demob Unit or call 530-629-1679.

Once you have scanned **QR Code #1**, proceed to the following locations to get signed off. This can be done at both Willow Creek and Orleans (except for Finance, see instructions below):

QR Code #1
Demob Process

- GROUND SUPPORT ***(Do this prior to Weed Wash)***
- WEED WASH
- SUPPLY
- COMMUNICATIONS
- TIME (SECOND TO LAST)
 - o Contact Finance to ensure that all shift tickets and CTR's are completed and turned in prior to demob:

Equipment Time (530) 629-1678 Personnel Time (530) 629-1677

WILLOW CREEK FINANCE:

Complete the above stops, TIME and DEMOB are last.

TIME: Overhead, or ONE PERSON from each Vendor or Crew will be allowed to visit Finance for payment processing (Equipment Time or Personnel Time).

REMOTE FINANCE:

Call the numbers above to initiate closing out with finance.

Equipment Time will generate the Emergency Equipment Use Invoice (OF-286) and e-mail the invoice to company owner for review and signature.

Personnel Time will generate incident Time Reports(s) (OF-288) and e-mail the report to designated contact for review.

- DEMOB (VERY LAST)
 - o Visit or call Demob (530-629-1679) to verify that your checkout process has been completed
 - Scan QR Code # 2 to submit your travel itinerary or verbally report it to Demob.

QR Code #2
Travel Itinerary for
After Demob Process

DO NOT DEPART FROM THE INCIDENT WITHOUT CHECKING OUT WITH DEMOB

FIRE REPLACEMENT PROCEDURES

START THIS PROCESS AT LEAST 48 HOURS PRIOR TO DEMOB

Submit requests for all incident replacements on a 213, General Message:

- Separate cache from non-cache items on separate 213's!
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

FOR CACHE ITEMS

Requesting Resource is **NOT Being Demobed** and Requested Items **ARE Available** in Supply:

R&D shall fill request and note on the 213.

Requesting Resource is **NOT** Being Demobed and Requested Items are **NOT** Available in Supply.

 The Supply Unit will place an order for the requested items through the regular cache order process on the incident. The order will be shipped to the incident and replacement will take place at the Supply Unit and noted on the 213.

Requesting Resource IS Being Demobed and Requested CACHE Items are NOT in Stock in Supply:

- Along with the 213, complete an *OF-315, Incident Replacement Requisition* for cache items only and take to SPUL for review and approval. Include the requesting resources' email on the form so the Resource Order can be emailed to the Requesting Resource.
- The SPUL will issue S#'s pending receipt and verification of proper documentation for cache items.

NON-CACHE Items - This is the Important Part!!!

Non-Cache items include any item not available through the National Cache System.

Lost, damage, or destroyed government non-cache property shall be reported to the appropriate DIVS or higher-level overhead within 24 hours of occurrence. The requesting resource shall complete an ICS-213 <u>and OF-289, Property Loss and Damage Report – Fire Suppression</u>, available at Orleans Base Camp Supply Unit. Include the following:

- All witnesses shall document the facts and circumstances of the loss or damage on the OF-289. Explanations shall be detailed and indicate how the incident caused the damage.
- The requesting resource will email the completed ICS-213 and OF-289 to the Comp/Claims Unit Leader at scott_parsons@firenet.gov. The COMP will make a determination based upon the documentation presented.
- Approval for replacement is the responsibility of the incident agency and may be delegated to the incident Management Team for IC and FSC.
- If the replacement request is approved, the replacement cost will be limited to cache equivalent value. The requesting resource will complete OF-315 for the Supply Unit.
- Items that do not have a like-item in the cache will be reviewed and approved at the discretion of the FSC or Incident Business Advisor, as delegated by the Agency Administrator.
