FIR	RE BEHAVIOR FORECAST
FORECAST NUMBER: 23	TYPE OF FIRE Wildfire
FIRE NAME: Red/Salmon	OPERATIONAL PERIOD 08/19-8/20 Day/Night 2020
<b>DATE ISSUED</b> 08/18/2020	TIME ISSUED 2130
UNIT CA-SRF	SIGNED Stewart Turner FBAN Diondray Wiley, FBAN (T)
	INPUTS

WEATHER SUMMARY: For Specifics Please see the attached Incident Weather Forecast.

WEATHER: High clouds to the east most of the day...some afternoon cumulus building.

MAX TEMP: 77 to 91° MIN RH: 15-23%

20 FOOT WINDS: Southwest 4-6 mph with gusts to 10mph in the afternoon.

CHANCE OF WETTING RAIN (≥ 0.10"): 0%

**FUELS:** The major fuel types, found in and around the fire area are timber litter and shrubs.

Ignition Receptiveness: ERC levels are at the 90<sup>th</sup> percentile. Probability of Ignition 86% Night 14%.

Dryness: Dead and down fuel moistures: 1 hour – 3% day, 10 hour – 5%, 100 hour – 7%, and 1000 hour – 8%.

#### FIRE BEHAVIOR

The burn day will get off to a slow start with the good overnight recovery. By mid-day expect to see activity to pick up with active to highly active fire behavior. Sunshine and humidity will be the driving factors for this increase. With the probability of ignition at 86% today spotting will be a problem with adverse winds. Watch for alignment in the drainages that are east and west or northeast and southwest. Fire behavior will diminish at sunset or heavy shading along with an increase in humidity.

#### SPECIFIC

#### SPECIFIC FIRE BEHAVIOR:

**Division A:** Spots across the western portion of the creek may pop-up today with the heating. Interior fuels will continue to burnout and some torching may occur.

**Prospect spot (interior):** Will continue to move with active to very active fire behavior. Expect to see movement to the northwest into China Creek and to the northeast as the drainages align.

**Division D, K:** No fires are present in these divisions however if a burnout is initiated wait for favorable humidity in the 30-40% range.

**Division M / N:** Minimal fire behavior is expected.

**Division O:** Fire will continue to move south on the eastern side of the drainage. The southward movement has been about 100 chains a day. Watch for fire mid-slope to align and make upslope runs. Highly active to extreme fire behavior could be produced.

**Division U:** The main fire continues to move south across the slopes. Watch for mid slope alignment and uphill runs. Very active to extreme fire behavior from upslope runs.

Division W, Y: Some interior burning but mostly creeping and smoldering.

Night Division: As the humidity increases and sun sets expect to see fire activity drop off to smoldering.

AIR OPERATIONS

Low level inversions will lift at approx. 1200, mid-level at approx. 1500.

#### Safety Message

Base all actions on current and expected behavior of the fire.

#### Red Salmon Complex Weather Forecast

FORECAST NO: 20

**UNITS:** Six Rivers / Shasta Trinity

SHIFT DATE: Wednesday, August 19, 2020

PREDICTION FOR: 0600 - 0600

FORECAST ISSUED: 2000 hrs. 8/18/2020

SIGNED:

Jeff Tonkin

**Incident Meteorologist** 

Call or Text Obs to: (707) 672-3386

200

**WEATHER DISCUSSION:** Airmass cooling will continue, albeit gradually. Ridgetop RH values will low again today but low and midslope values will be near normal. Valley and midslope winds will remain terrain and diurnally driven while ridge winds remain out of the southwest and relatively light. The marine layer will also deepen along the coast and provide relatively high RH levels during the Thursday / Friday period. Warming and drying trend returns during the weekend.

Today (Wednesday 0600-1800):

Weather: Sunny.

Max Temperature: Below 4,000 ft: 86-91. Above 4,000 ft: 77-82.

Min Humidity: Below 4,000 feet: 15-19%.

Above 4,000 feet and higher: 18 - 23%.

20 Foot Winds:

Lower/Mid Slopes: Downslope or east 1-3 mph until 1300, then upslope or west northwest 4-7 mph.

Upper Slopes/Ridges: East 1-4 until 1400, becoming Southwest 4-6 mph with Gusts

to 10 mph until sunset.

LAL: 1 Chance of Wetting Rain (0.10"): 0%

Stability: Low valley inversions lift 1200. Mid-level inversion will hold in place through at least 1500 hrs.

Afternoon Mixing Height: Valleys: 3,500 feet AGL. Ridges: 7,000 feet AGL.

Smoke Transport: Toward the northeast.

Tonight (1800-0600):

Weather: Clear.

Low Temperatures: Valley-Midslope: 60-65°; Upper slope/Ridge: 64-67°.

Max Humidity: Below 4000 feet: 68-78%.

Above 4000 feet: 55 to 65%.

20 Foot Winds:

Lower/Mid Slopes: West 3-5 mph until 2100 hrs, then east or downslope 1-4 mph.

Ridges: West 3-6 mph until midnight...then East 1-3 mph through sunrise.

LAL: 1 CWR: (0.10"): 0%

Inversion: Moderate inversion/thermal belt centered around 4,500 ft MSL.

<u>Thursday:</u> Sunny. Max Temps: 76-81°. Minimum RH: 26-31%. Afternoon Winds - Lower Slopes: Variable/Terrain Driven. Upper slopes/Ridges: Southwest at 6 mph Gust to 10 mph.

<u>Friday and Saturday Outlook:</u> Sunny...increasing temperatures and lower RH's. Temperatures in the upper 80s. Afternoon humidity 18-25%. West winds 3-6 mph with gusts around 12 mph.

#### 6. Control Operations/Work Assignments:

Mop-up and hold from DIV A / Y break along Red Cap Creek to Black Mountain. Utilize UAS as needed.

#### 7. Special Instructions:

ICS 204 WF (1/14)

Coordinate with REAFs on all dozer operations to minimize impacts to cultural sites. Limit dozer operations to pre-existing dozer lines and limit dozer width to the extent possible. Utilize MIST tactics. Utilize READ's for cultural and environmental resource concerns.

Do not post lookouts on any bed rock out cropping without first getting clearance from REAF or READ.

\*\*ARCHs / REAFs\*\* Check in / out with DIVS when entering and leaving divisions.

ID helispots and drop points, get lat-longs and provide to the DIVS.

Back-haul trash and excess equipment i.e. nets, swivels and ice chests to logistics.

FOBS assigned to SIT will be working in Branch I: T. Easly/ A. Miyagishim / M. Snyder / John Hard

#### 6. Control Operations/Work Assignments:

Continue to improve the dozer line. Prep Pack Saddle Ridge for firing to the South. Hold and mop up fireline.

#### 7. Special Instructions:

Coordinate with REAFs on all dozer operations to minimize impacts to cultural sites. Limit dozer operations to pre-existing dozer lines and limit dozer width to the extent possible. Utilize MIST tactics. Utilize READ's for cultural and environmental resource concerns.

Do not post lookouts on any bed rock out cropping without first getting clearance from REAF or READ.

\*\*ARCHs / REAFs\*\* Check in / out with DIVS when entering and leaving divisions.

\*\*ARCHs / REAFs\*\* will check in / out with DIVS when entering and leaving their divisions. Assigned to Branch VII: REAFs Roy Ammon, Caw-Tep Sylvia, and Talbert Alvarado.

FOBS assigned to SIT will be working in Branch I: R. Brubaker / T. Peterson / M. Snyder / John Hard

ID helispots and drop points, get lat-longs and provide to the DIVS.

Back-haul trash and excess equipment i.e. nets, swivels and ice chests to logistics.

Mountain Medic at DP-9

Reno REMS available all of Branch VII

# Red Salmon Complex – Safety Message

## INCIDENT #CA-SRF-000656

DATE: 08-19/20-2020 TIME: 0600-0600 Day/Night Shift

# **Hazard Control Around Trees**

- Eliminate the hazards with qualified sawyers, blasters/explosives, or heavy equipment.
- Avoid hazards by designating "No Work Zones" (flag, sign, and map).
- Modify suppression tactics or fireline location to avoid high-risk areas.
- · Post lookouts to help secure high-risk areas.
- Utilize road/traffic controls in high-risk areas.
- Fireproof potential hazard trees to prevent ignition.
- Keep clear of bucket drops near trees/snags.
- Reposition firefighters to secure areas in response to high wind forecast.
- Provide timely feedback to others regarding any hazard trees.

Covid-19 Incident Stats

Symptomatic Personnel: 9

Positive # of Cases: 0

# **LCES**

- Lookouts- Use experienced people, know your trigger points, do not depend on air resources and check your surroundings!
- Communications- Know your radio frequencies, check batteries, and be cognizant of any problems with direct communications.
- Escape Routes- Know them, time them, discuss them, and reassess them!
- Safety Zones- Evaluate the "black" as your safety zone. Reassess for problems.

# HUMAN FACTOR BARRIERS TO SITUATIONAL AWARENESS

## Fatigue

- Carbon Monoxide
- Dehydration
- Heat Stress
- o Fitness Level
- 24-hrs awake affects your decision making like 0.1 blood alcohol content

# Hazardous Attitude

- Invulnerability
- Anti-Authority
- Impulsive
- Over confident
- Complacent
- Resigned
- Afraid to speak up or disagree

# **Common Denominators**

There are five major common denominators of fire behavior on fatal and near-fatal fires. Such fires often occur:

- On relatively small fires or deceptively quiet areas of large fires.
- In relatively light fuels, such as grass, herbs, and light brush.
- When there is an unexpected shift in wind direction or in wind speed.
- When fire responds to topographic conditions and runs uphill.
- Critical burn period between 1400 and 1700.

Prepared by;

CIIMT #4 Safety Group

DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MON COMPLEX CA-SRF-000656 (ICS 215a) Day/Night Shift MITIGATIONS / WARNINGS / REMEDIES
ALL	TRAFFIC HAZARDS AND DRIVING	<ul> <li>Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing, or turning around.</li> <li>Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent.</li> <li>5mph speed limit in and around ICP, keep your speed down in all areas.</li> <li>Use warning lights when working on roads or traveling in smoke.</li> <li>Drive at or below posted speed limits.</li> <li>Be alert for wildlife.</li> </ul>
ALL	HAZARD / DANGER TREES	<ul> <li>Follow Hazard Tree Safety Guidelines (IRPG p.22.)</li> <li>Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled.</li> <li>Be alert around hazard trees during wind events, even green trees.</li> <li>The hazard zone extends a minimum of 2½ tree lengths.</li> <li>Do not park vehicles or take breaks under or near hazard trees.</li> </ul>
ALL	STEEP TERRAIN AND ROLLING DEBRIS	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Be alert for rolling rocks, debris, or burning material.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> <li>Post lookouts where feasible.</li> </ul>
D,F,H, K,O,P, U	INDIRECT FIRELINE	<ul> <li>Keep good Situational Awareness while engaged in indirect line construction.</li> <li>Post lookouts. Make sure to stay in contact with someone who can see the main fire</li> <li>Ensure all personnel are familiar with the plan.</li> <li>Make sure all personnel know their escape routes and safety zones.</li> <li>Remember there is "unburned fuel between you and the main fire."</li> </ul>
ALL	FATIGUE/COMPLACENCY	Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor ALL resources for level of fatigue. Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. Take steps to maintain situational awareness for the duration of the incident.
K,O,U	FIRING OPERATIONS and DEVICES	<ul> <li>Follow the chain of command when undertaking burning operations.</li> <li>Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations.</li> <li>Wear and use appropriate PPE.</li> <li>Initiate burning after ensuring the plan is authorized and understood by all.</li> </ul>
ALL	COMMUNICATIONS	<ul> <li>Share your Situational Awareness (hazards, changes, etc) to those who also have a need.</li> <li>Radio communications may be poor in some areas.</li> <li>Ensure all personnel are familiar with the incident communications plan.</li> </ul>
A,D,W Y	NIGHT OPERATIONS	<ul> <li>Have a purpose for where you drive and what you do. Don't rush into assignments.</li> <li>Use caution where you park or stage, especially in steep timbered areas.</li> <li>Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area.</li> <li>Increase SA by trying to see the work area during daylight hours.</li> <li>Use glow sticks to mark hazards, and ensure personnel have headlamps.</li> </ul>
ALL	AIR OPERATIONS	<ul> <li>Follow "Aviation Watch-Out Situations" on page 46, IRPG.</li> <li>Don't plan on air resources for tactical support or medical transportation.</li> <li>Refer to page 58, IRPG for directing bucket drops.</li> <li>Ensure positive communication with all air resources.</li> </ul>
ALL	ENVIRONMENTAL HAZARDS	<ul> <li>Keep alert for wildlife, deer, rattlesnakes, bees, and plants. Watch footing and hand placement around rocks. Use caution around gas and power lines.</li> <li>Personal hygiene is #1 when it comes to Poison Oak Prevention.</li> <li>Pick up and remove all trash from fireline, return to camp and place in dumpsters.</li> </ul>
ALL	COVID-19	<ul> <li>Utilize social distancing, wear facemasks in camp ALWAYS.</li> <li>Maintain the "module of one" concept.</li> <li>Disinfect vehicles, tools, and commonly touch surfaces frequently.</li> <li>Do not share equipment and wash hands frequently.</li> </ul>

## Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	□ RED / PRIORITY 1 Life or limb threatening injury or lilness. Evacuation need is IMMEDIATE  Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.  □ YELLOW / PRIORITY 2 Serious injury or lilness. Evacuation may be DELAYED if necessary.  Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.  □ GREEN / PRIORITY 3 Minor injury or lilness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.
Nature of Injury or Illness & Mechanism of Injury	Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)
Transport Request	Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location	Descriptive Location & Lat. / Long. (WGS84)
Incident Name	Geographic Name + "Medical" (Ex: Trout Meadow Medical)
On-Scene Incident Commander	Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)
Patient Care	Name of Care Provider (Ex: EMT Smith)

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

#### 4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

## 5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO- GRND					
TACTICAL					

#### 7. CCONTINGENCY:

Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

#### 8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

\*\*Follow up with MEDL upon return to ICP\*\*

# **Red Salmon Complex COVID-19 Expectations**

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok reservations are closed so please do not stop in Hoopa or Weitchpec.
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus.
   This limits "close contacts" to those within the module. A "close contact" is defined as face to face contact for at least 15 minutes or in the same enclosed space for 2 hours.
- Social Distancing. Maintain a minimum of 6' physical distancing from those outside of your module-as-one.
- <u>Face Coverings.</u> Face coverings are required to be worn, in the appropriate manner covering nose and mouth, when at ICP and Camps. Outside of camps, all incident personnel will wear a face covering when social distancing is not possible with those outside your module-as-one.
- Wash your hands. Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

# **RED SALMON COVID-19 DAILY SCREENING TOOL**

Today or in the past 24 hours, have you had any of the following symptoms 1?

Symptom	
Cough more than expect	ed?
Shortness of breath or di	ifficulty breathing?
Fever? Chills?	
Muscle pain, outside you	ur normal for firefighting?
Sore throat?	
New loss of taste or sme	H?
Fatigue, outside your no	rmal for firefighting?
Headache, outside your	normal for firefighting?
Congestion or runny nos	se, outside your normal for firefighting?
Nausea or vomiting	
Diarrhea	
* Take temperature with	no-touch thermometer, if available *

# **Instructions for Screening**

Item	What to Do
If Spike or fireline resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	NOTIFY SUPERVISOR IMMEDIATELY
At entries to established camps (Willow Creek ICP, Orleans Base Camp): Temperature screening required for all incident personnel, cooperators and guests. Although medical personnel are ideal,	DO NOT ANNOUNCE Ask individual or "module-as-one" to step
screeners do not have to be medically trained.  If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	aside and follow the steps below.

Steps to follow for a symptomatic screening	
Escort individual or "module-as-one" to isolation area. Separate the symptomatic person	nel
Isolation support personnel should begin documentation.	
Notify Line Medics or MEDL if at ICP or Orleans Base Camp.	
COVID Safety will coordinate with SRF Forest IMO.	
Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet.	
Protect and secure any collected Personal Identifiable Information (PII) or Personal Heal Information (PHI).	th

## STANDARD OPERATING PROCEDURES—FINANCE SECTION

#### **WORK REST CYCLE**

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

## **OPERATIONAL SHIFTS**

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

## **DUTY STATUS**

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, <u>and/or</u> be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

## PERSONNEL/EQUIPMENT TIME REPORTING

<u>Personnel time</u> will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

<u>Private Contracted Equipment time</u> must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

## **MEAL AND OTHER WORK BREAKS**

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

#### FINANCE MESSAGE

Thank you for submitting your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- Electronic fillable PDF CTR/Shift Ticket. QR codes to fillable forms are included below. If you do not have QR capabilities, Finance can email you forms directly. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- Hard copy CTR/Shift Ticket. You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance
  OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and
  includes the supervisor's signature at the bottom. The phone numbers listed below are hard line phones, so
  texting does not work.

#### PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in Check-in to drop off your time.
- Write your email on your CTR
- Hazard pay justifications are required on your CTR's in comments section. "H=Hazard" is not enough.

#### WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a "Courtesy Call" to make sure all your documents have been received.
- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to finance tent.
- Abide by scheduled demob time or call finance for an unscheduled demob.

SHIFT TICKET

2020.redsalmon.finance@firenet.gov

Equipment Time: (530) 629-1678

Finance Section Chief (530) 629-1677

# Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Questions?

OES Assistant Chief Pat Titus 916-634-9225

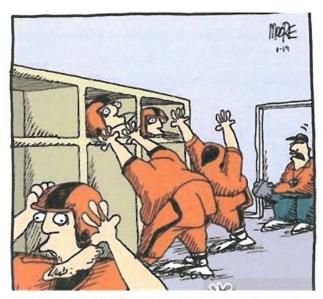

# Human Resource Message Red Salmon Complex August 19, 2020

# **HUMAN RESOURCE MESSAGE**

# **Keep Your Head in the Game**

The demands expected of the people assigned to incidents are complex, fast paced and challenging. No matter what our assignment to the incident is, there is a high expectation placed on each of us. At all times we must be ready to take on the assignment.

To maintain this readiness throughout the incident, we need to continue focusing on the objectives. We must not be distracted by unacceptable conduct that adversely affects personnel and their readiness.

"Get on the field! Let's go! Get your heads in the game!!"

Feel free to call/text or come by the HRSP yurt if you have questions, concerns, or just want to chat. Adam Alvarez – (HRSP) (707) 373-8715

# RED SALMON DEMOB

Check in with Demob at least 72 hours prior to demobing if you need air travel arrangements made.

Demob on the Red Salmon is paperless. Use QR Code #1 to start your process.

If you have difficulties with your phone or need help, stop by the Demob Unit or call 530-629-1679.

Once you have scanned **QR Code #1**, proceed to the following locations to get signed off. This can be done at both Willow Creek and Orleans (except for Finance, see instructions below):

QR Code #1 Demob Process

- GROUND SUPPORT \*\*\* (Do this prior to Weed Wash)\*\*\*
- WEED WASH
- SUPPLY
- COMMUNICATIONS
- TIME (SECOND TO LAST)
  - Contact Finance to ensure that all shift tickets and CTR's are completed and turned in prior to demob:

Equipment Time (530) 629-1678 Personnel Time (530) 629-1677

## **WILLOW CREEK FINANCE:**

Complete the above stops, TIME and DEMOB are last.

TIME: Overhead, or ONE PERSON from each Vendor or Crew will be allowed to visit Finance for payment processing (Equipment Time or Personnel Time).

#### **REMOTE FINANCE:**

Call the numbers above to initiate closing out with finance.

**Equipment Time** will generate the Emergency Equipment Use Invoice (OF-286) and e-mail the invoice to company owner for review and signature.

**Personnel Time** will generate Incident Time Reports(s) (OF-288) and e-mail the report to designated contact for review.

- DEMOB (VERY LAST)
  - Visit or call Demob (530-629-1679) to verify that your checkout process has been completed
  - Scan QR Code # 2 to submit your travel itinerary or verbally report it to Demob.

QR Code #2
Travel Itinerary for
After Demob Process

DO NOT DEPART FROM THE INCIDENT WITHOUT CHECKING OUT WITH DEMOB

# TRAINING MESSAGE

# Red Salmon Complex

August 19, 2020

"Finish each day and be done with it.

You have done the best you could.

Some blunders and absurdities have no doubt crept inforget them as soon as you can.

Tomorrow is a new day.

You shall begin it serenely and well"

-Emerson

New trainees please use the QR code below to check-in.

Those getting close to your demob date, please let me know. I can send you electronic versions of your specific performance evaluation and a copy of the exit interview.

Any questions please feel free to give me a call or send me a text.

Thank You,

Nick Balent TNSP (t) 707.298.1805 nicholas.balent@usda.gov

# FIRE REPLACEMENT PROCEDURES

# START THIS PROCESS AT LEAST 48 HOURS PRIOR TO DEMOB

# Submit requests for all incident replacements on a 213, General Message:

- Separate cache from non-cache items on separate 213's!
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

#### FOR CACHE ITEMS

# Requesting Resource is NOT Being Demobed and Requested Items ARE Available in Supply:

R&D shall fill request and note on the 213.

## Requesting Resource is **NOT Being Demobed** and Requested Items are **NOT Available** in Supply.

 The Supply Unit will place an order for the requested items through the regular cache order process on the incident. The order will be shipped to the incident and replacement will take place at the Supply Unit and noted on the 213.

## Requesting Resource IS Being Demobed and Requested CACHE Items are NOT in Stock in Supply:

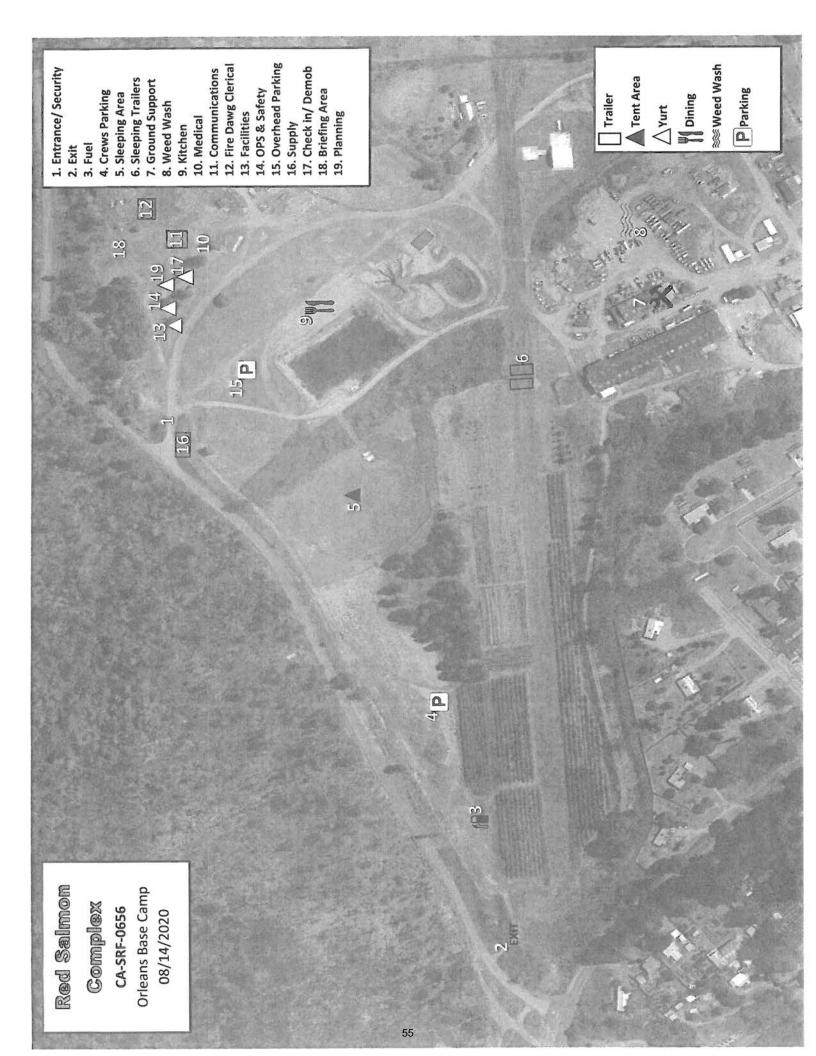

- Along with the 213, complete an OF-315, Incident Replacement Requisition for cache items only and
  take to SPUL for review and approval. Include the requesting resources' email on the form so the
  Resource Order can be emailed to the Requesting Resource.
- The SPUL will issue S#'s pending receipt and verification of proper documentation for cache items.

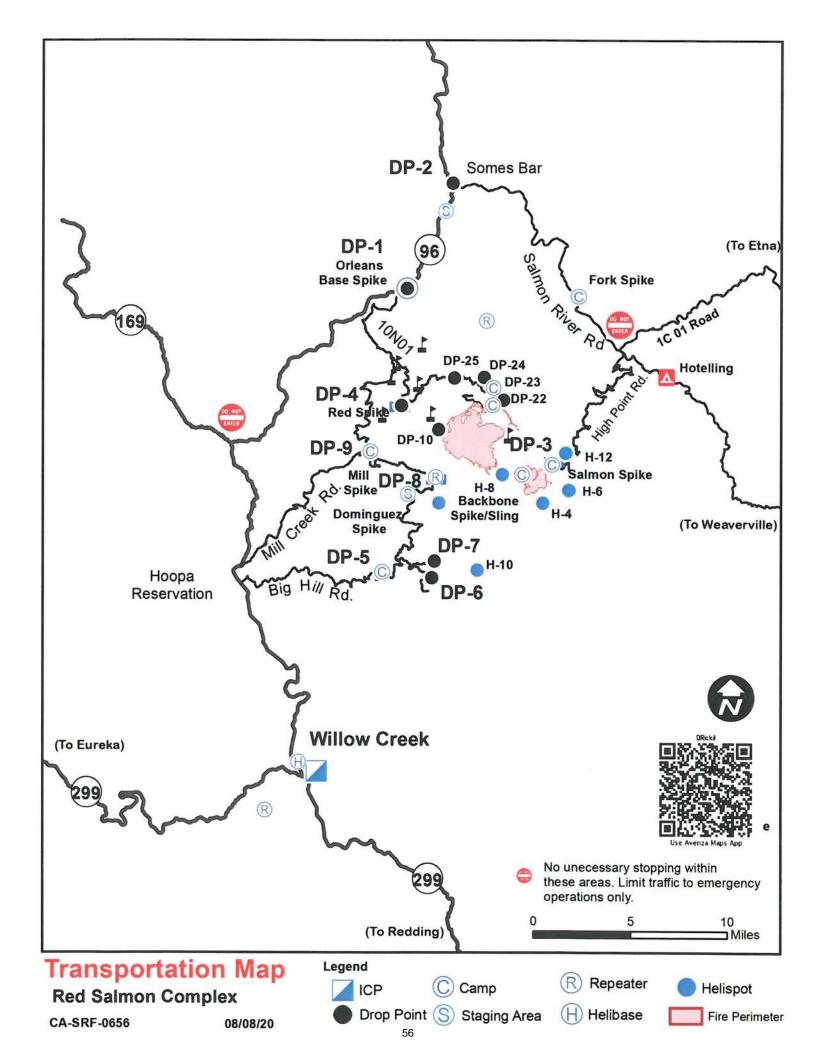

# NON-CACHE Items - This is the Important Part!!!

## Non-Cache items include any item not available through the National Cache System.

Lost, damage, or destroyed government non-cache property shall be reported to the appropriate DIVS or higher-level overhead within 24 hours of occurrence. The requesting resource shall complete an ICS-213 and OF-289, Property Loss and Damage Report – Fire Suppression, available at Orleans Base Camp Supply Unit. Include the following:

- All witnesses shall document the facts and circumstances of the loss or damage on the OF-289. Explanations shall be detailed and indicate how the incident caused the damage.
- The requesting resource will email the completed ICS-213 and OF-289 to the Comp/Claims Unit Leader at scott\_parsons@firenet.gov. The COMP will make a determination based upon the documentation presented.
- Approval for replacement is the responsibility of the incident agency and may be delegated to the Incident Management Team for IC and FSC.
- If the replacement request is approved, the replacement cost will be limited to cache equivalent value. The
  requesting resource will complete OF-315 for the Supply Unit.
- Items that do not have a like-item in the cache will be reviewed and approved at the discretion of the FSC or Incident Business Advisor, as delegated by the Agency Administrator.
