### Red Salmon Complex Weather Forecast

**FORECAST NO: 26** 

**UNITS:** Six Rivers / Shasta Trinity

SHIFT DATE: Tuesday, August 25, 2020

**PREDICTION FOR:** 0600 - 0600

**FORECAST ISSUED:** 2000 hrs. 8/24/2020

SIGNED:

Jeff Tonkin

**Incident Meteorologist** 

Call or Text Obs to: (707) 672-3386

**WEATHER DISCUSSION:** Residual mid level moisture and instability will maintain a slight threat of showers or thunderstorms again today...however chances are lower than yesterday. Relative humidity values continue to be challenging at all levels as pockets of dry air migrate around the region. Smoke from the fires to the south will continue to become more prominent each day around highway 96 as smoke transport winds become a little more southerly.

Today (Tuesday 0600-1800):

Weather: Mostly Cloudy early...decreasing clouds in the afternoon. 10% chance of thunderstorms or light showers.

Max Temperature: Below 4,000 ft: 82-86. Above 4,000 ft: 77-81.

Min Humidity: Below 4,000 feet: 50-60% early...falling to near 35% by late afternoon.

Above 4,000 feet and higher: 30-35%....falling to near 25% late in the afternoon.

20 Foot Winds:

**Lower/Mid Slopes:** Downslope or east 1-3 mph until 1300, then upslope or west northwest 4-7 mph. **Upper Slopes/Ridges:** East-southeast 1-4 until 1500, then West and Southwest 4-6 mph with Gusts to 10 mph until sunset.

LAL: 2 Chance of Wetting Rain (0.10"): 5%

Stability: Low valley inversions lift 1200. Mid-level inversion will hold in place through at least 1500 hrs.

Afternoon Mixing Height: Valleys: 3,500 feet AGL. Ridges: 5,000 feet AGL.

**Smoke Transport**: Toward the North and Northeast.

Tonight (1800-0600):

Weather: Partly Cloudy with smoke.

Low Temperatures: Valley-Midslope: 60-65°; Upper slope/Ridge: 64-69°.

Max Humidity: Below 4000 feet: 50-60%.

Above 4000 feet: 35-45%.

20 Foot Winds:

**Lower/Mid Slopes:** West and Northwest 3-5 mph until 2200 hrs, then East or downslope 2-5 mph.

Ridges: West and South 3-5 mph until 2200 hrs...then East and Northeast 4-6 mph with Gusts to 10 mph through

sunrise.

LAL: 2 CWR: (0.10"): 5%

**Inversion:** Moderate inversion/thermal belt centered around 4,500 ft MSL.

<u>Wednesday:</u> Partly to Mostly Cloudy. 5% chance of dry thunderstorms. Max Temps: 84-89°. Minimum RH: 25-30%. Afternoon winds - Lower and mid Slopes: West or Upslope 5 mph Gusts to 10 mph. Upper slopes/Ridges: West-southwest at 6 mph Gust to 12 mph.

<u>Thursday and Friday Outlook:</u> Partly Cloudy w/ afternoon cumulus. 10% chance of thunderstorms. Max Temperatures in the 80s to near 90. Afternoon humidity 25-30%...Friday much drier. West and northest winds 3-6 mph with gusts around 12 mph. East winds at night and early morning to 5 mph.

FIRE BEHAVIOR FORECAST											
FORECAST NUMBER: 29	TYPE OF FIRE Wildfire										
FIRE NAME: Red/Salmon	OPERATIONAL PERIOD 08/25-8/26 Day/Night 2020										
DATE ISSUED 08/24/2020	TIME ISSUED 2130										
UNIT CA-SRF	SIGNED Stewart Turner FBAN										
	Diondray Wiley, FBAN (T)										
	INPUTS										

WEATHER SUMMARY: For Specifics Please see the attached Incident Weather Forecast.

**WEATHER:** Mostly Cloudy early, decreasing clouds in the afternoon. 15% chance of thunderstorms **MAX TEMP:** Below: 4000 ft 82-86° Above: 4000 ft 77-81° **MIN RH:** 30-60% early then 25% by late afternoon

**20 FOOT WINDS:** East-southeast 1-4 mph until 1400, then West and Southwest 4-6 mph with Gust to 10 mph until sunset.

LAL: 2 CHANCE OF WETTING RAIN (≥ 0.10"): 5%

FUELS: The major fuel types, found in and around the fire area are timber litter and shrubs.

Ignition Receptiveness: ERC levels are at the 90th percentile. Probability of Ignition 64% Night 25%.

Dryness: Dead and down fuel moistures: 1 hour - 5% day, 10 hour - 5%, 100 hour - 7%, and 1000 hour - 8%.

### **FIRE BEHAVIOR**

Expect a moderate to high risk burn environment due to the potential for dry lightning, moderate temperatures, low afternoon RH and critically low 1000 hr. fuel moistures. Combined, these are contributing factors for large fire growth and control problems. Be aware of erratic outflow winds, ground strikes and new starts.

### **SPECIFIC**

### SPECIFIC FIRE BEHAVIOR:

Division A: Low activity consisting of creeping and smoldering.

**Division D:** No fire activity in Div. Delta. Firing operations (if needed) will be aided with forecasted West winds later in the afternoon (after 1500).

Main fire (Northeast): Will continue to move with active fire behavior and spotting. Expect to see movement Northeast along China Creek, East across Nordheimer Creek and backing to the Southeast.

Division K: Firing operations will be successful once RH drop below 35-40% and East wind surface.

Division M / N: Minimal activity expected. Interior smoldering.

**Division O:** Watch for fire mid-slope to align and make upslope runs. Highly active fire behavior could be produced with significant spotting potential.

**Division U:** The main fire continues to move south across the slopes. Watch for mid slope alignment and uphill runs. There is potential for highly active fire behavior

Division P, R: No Fire Behavior expected.

Division W, Y: low activity mostly creeping and smoldering.

**Night Division:** Firing operations will have greater success after 2200 when East, Northeast winds surface and RH are below 40-50%

### **AIR OPERATIONS**

Low level inversions will lift at approx. 1200, mid-level at approx. 1500.

Safety Message

STANDARD FIREFIGHTING ORDERS: Know what your fire is doing at all times.

### Red Salmon Complex - Safety Message

INCIDENT #CA-SRF-000656

DATE:08-25/26-2020 TIME:0600-0600 Day/Night Shift

### **RISK MANAGEMENT**

Use the following process to quickly assess risk for the situations you face throughout the day.

<u>Step 1</u> - Identify the hazards. Make this an ongoing, continuous process in your daily decision making routine. Gather as much information as possible.

<u>Step 2</u> - Assess the risk levels. The probability and severity of an undesirable outcome linked to identified hazards = **RISK**.

<u>Step 3</u> - Analyze and select control or mitigation measures. <u>Limiting exposure is almost always an option.</u>

**Step 4** - Reassess risk level with controls in place (residual risk).

<u>Step 5</u> - Make your informed decision based on the residual risk. Ask the **risk vs. gain** question: is the benefit of the action I'm considering worth the risk?

Step 6 - Monitor the situation

# COVID-19 INCIDENT STATISTICS (to date)

Symptomatic Personnel: 11

Positive # of Cases: 0

## Mitigate or Change Tactics When Faced With

- Indirect Fireline
- Change of fuel characteristics
- Change in fire behavior
- Reburn Potential
- Lack of Communications With All Forces
- Downhill Line Construction
- Under slung Line
- Fatigued Crew

### **Leadership is All About Character**

Fire leaders set the example by exhibiting strong character. Character is based on values. It is the combination of actions and words that others appraise to determine if the leader can be trusted to do the right thing

- Know our values, review them frequently, and look for areas of improvement.
- Admitting when we are wrong.
- Taking time to reflect on our actions.
- Finding role models and asking them to be a mentor.
- Studying leaders and leadership, learning from their successes and mistakes.

Prepared by;

CIIMT #4 Safety Group

[	PENT RISK ANALYSIS RED SAL	MON COMPLEX CA-SRF-000656 (ICS 215a) Day/Night Shif
DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	TRAFFIC HAZARDS AND DRIVING	<ul> <li>Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing, or turning around.</li> <li>Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent.</li> <li>5mph speed limit in and around ICP, keep your speed down in all areas.</li> <li>Use warning lights when working on roads or traveling in smoke.</li> <li>Drive at or below posted speed limits.</li> <li>Be alert for wildlife.</li> </ul>
ALL	HAZARD / DANGER TREES	<ul> <li>Follow Hazard Tree Safety Guidelines (IRPG p.22.)</li> <li>Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled.</li> <li>Be alert around hazard trees during wind events, even green trees.</li> <li>The hazard zone extends a minimum of 2½ tree lengths.</li> <li>Do not park vehicles or take breaks under or near hazard trees.</li> </ul>
ALL	STEEP TERRAIN AND ROLLING DEBRIS	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Be alert for rolling rocks, debris, or burning material.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> <li>Post lookouts where feasible.</li> </ul>
D,F,H, K,O,P, R,U	INDIRECT FIRELINE	<ul> <li>Keep good Situational Awareness while engaged in indirect line construction.</li> <li>Post lookouts. Make sure to stay in contact with someone who can see the main fire</li> <li>Ensure all personnel are familiar with the plan.</li> <li>Make sure all personnel know their escape routes and safety zones.</li> <li>Remember there is "unburned fuel between you and the main fire."</li> </ul>
ALL	FATIGUE/COMPLACENCY	<ul> <li>Be alert for signs of fatigue and take breaks as necessary.</li> <li>Maintain 2:1 work/rest ratio.</li> <li>Monitor ALL resources for level of fatigue.</li> <li>Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents.</li> <li>Take steps to maintain situational awareness for the duration of the incident.</li> </ul>
K,O,U	FIRING OPERATIONS and DEVICES	<ul> <li>Follow the chain of command when undertaking burning operations.</li> <li>Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations.</li> <li>Wear and use appropriate PPE.</li> <li>Initiate burning after ensuring the plan is authorized and understood by all.</li> </ul>
ALL	COMMUNICATIONS	<ul> <li>Share your Situational Awareness (hazards, changes, etc) to those who have a need.</li> <li>Radio communications may be poor in some areas. Use human repeaters as needed</li> <li>Ensure all personnel are familiar with the incident communications plan.</li> </ul>
A,D,K, W,Y	NIGHT OPERATIONS	<ul> <li>Have a purpose for where you drive and what you do. Don't rush into assignments.</li> <li>Use caution where you park or stage, especially in steep timbered areas.</li> <li>Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area.</li> <li>Increase SA by trying to see the work area during daylight hours.</li> <li>Use glow sticks to mark hazards, and ensure personnel have headlamps.</li> </ul>
ALL	AIR OPERATIONS	<ul> <li>Follow "Aviation Watch-Out Situations" on page 46, IRPG.</li> <li>Don't plan on air resources for tactical support or medical transportation.</li> <li>Refer to page 58, IRPG for directing bucket drops.</li> <li>Ensure positive communication with all air resources.</li> </ul>
ALL	ENVIRONMENTAL HAZARDS	<ul> <li>Keep alert for wildlife, deer, rattlesnakes, bees, and plants. Watch footing and hand placement around rocks.</li> <li>Personal hygiene is #1 when it comes to Poison Oak Prevention.</li> <li>Pick up and remove all trash from fireline, return to camp and place in dumpsters.</li> </ul>
ALL	COVID-19	<ul> <li>Utilize social distancing, wear facemasks in camp ALWAYS.</li> <li>Maintain the "module of one" concept.</li> <li>Disinfect vehicles, tools, and commonly touch surfaces frequently.</li> <li>Do not share equipment and wash hands frequently.</li> </ul>

### Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat/Long.)
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity	of Emergency	Ex: Unconscious, diffi	iculty breathing, bleedi	ng severely, 2° – 3° L	burns more than 4 pair	m sizes, heat stroke, disoriented.	
	AND	SYELLOW / PRIOR	ITY 2 Serious in	lury or illness.	Evacuation ma	ny be DELAYED if	
	port Priority rity 1, 2, 3)	<b>necessary.</b> Ex: Significant trauma,				•	
		□ <b>GREEN / PRIORIT</b> Ex: Sprains, strains, m	Y 3 Minor injury inor heat-related illnes	<b>y or iliness. No</b> s.	on-Emergency tr	ansport	
	Injury or Illness & nism of Injury				Brief Su (Ex: Uncon	mmary of Injury or Illness scious, Struck by Falling Tree)	
	port Request					nbulance / Short Haul/Hoist und Ambulance / Other	
Patie	nt Location				Descriptive L	ocation & Lat. / Long. (WGS84,	)
Incid	lent Name					aphic Name + "Medical" Trout Meadow Medical)	
On-Scene Inc	cident Commander					-scene IC of Incident within an dent (Ex: TFLD Jones)	
Crew F	Patient Care					me of Care Provider (Ex: EMT Smith)	_
	ATIENT ASSESSMEN	T: Complete this section for	each patient as applicab	le (start with the most	severe patient)	12.11.2.11.2.1	
Patient Assessr (IRPG PAGE 10		Weight:	Chief C	Complaint:			
Skin Signs: (col	or/moisture/temp)	Level of Conscio	ousness:	BP:	HR:	Respirations:	
Treatment:							
4. TRANSPOR	RT PLAN:						
Evacuation Loca	ation (drop point, intersed	ction, helispot, Lat. / Lon	g, hazards)	Patient's ETA to L	ocation:		
5. ADDITION	AL RESOURCES / EQ	UIPMENT NEEDS:					
Paramedic / EMT	- Crews - Immobilization De	evices - AED - Oxygen -	Trauma Bag - IV/Flu	uid(s) - Splints - Re	ope rescue - Wheele	d litter - HAZMAT - Extrication	-

### Red Salmon Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok reservations are closed so please do not stop in Hoopa or Weitchpec.
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus.
   This limits "close contacts" to those within the module. A "close contact" is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks. A "casual contact" is defined as less than 6 feet for less than 15 minutes or more than 6 feet for more than 15 minutes.
- **Social Distancing.** Maintain a minimum of 6' physical distancing from those outside of your module-as-one.
- Face Coverings. Face coverings are required to be worn, in the appropriate manner covering nose and mouth, when at ICP and Camps. Outside of camps, all incident personnel will wear a face covering when social distancing is not possible with those outside your module-as-one.
- Wash your hands. Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

### **RED SALMON COVID-19 DAILY SCREENING TOOL**

Today or in the past 24 hours, have you had any of the following symptoms<sup>1</sup>?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting

\* Take temperature with no-touch thermometer, if available \*

### **Instructions for Screening**

Diarrhea

Item	What to Do
If Spike or fireline resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed. At entries to established camps (Willow Creek İCP, Orleans Base Camp):	NOTIFY SUPERVISOR IMMEDIATELY DO NOT ANNOUNCE
Temperature screening required for all incident personnel, cooperators and guests. Although medical personnel are ideal, screeners do not have to be medically trained.	Ask individual or "module-as-one" to step aside and follow the steps
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	below.

# Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel. Isolation support personnel should begin documentation. Notify Line Medics or MEDL if at ICP or Orleans Base Camp. COVID Safety will coordinate with SRF Forest IMO. Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet. Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

#### **FINANCE MESSAGE**

Thank you for submitting your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- Electronic fillable PDF CTR/Shift Ticket. QR codes to fillable forms are included below. If you do not have QR capabilities, Finance can email you forms directly. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- Hard copy CTR/Shift Ticket. You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance
  OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and
  includes the supervisor's signature at the bottom. The phone numbers listed below are hard line phones, so
  texting does not work.

#### PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in Check-in to drop off your time.
- Write your email on your CTR
- Hazard pay justifications are required on your CTR's in comments section. "H=Hazard" is not enough.

#### WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a "Courtesy Call" to make sure all your documents have been received.
- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to finance tent.
- Abide by scheduled demob time or call finance for an unscheduled demob.

EMAIL:

Equipment Time: (530) 629-1678 Finance Section Chief (530) 629-1677

2020.redsalmon.finance@firenet.gov

#### WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

#### **OPERATIONAL SHIFTS**

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

#### **DUTY STATUS**

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

## PERSONNEL/EQUIPMENT TIME REPORTING

<u>Personnel time</u> will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

<u>Private Contracted Equipment time</u> must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

#### MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

#### Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site

F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

## Resource Advisor Message

- Resource advisors are available in nearly all Divisions on the fire and are here to support the mission of containing this wildfire while at the same time aim to minimize resource damage impacts. If you feel something needs to be brought to a Resource Advisor (or Cultural Specialist), go through your appropriate chain of command to make the notification.
- The Six Rivers, Klamath and Shasta-Trinity National Forests, as well as California Team 4, have been working very closely with cultural specialists from the three main tribes in this area (the Hoopa, Karuk and Yurok) so please help us to maintain and foster these good relationships.
- The area in which the fire is burning is a very sacred place to these tribal cultures so please work with us utilizing MIST tactics to protect cultural and wilderness values.

Message #2 from Leaf Hillman, Karuk Cermonial Leader, about the importance of fire to the Karuk Tribe:

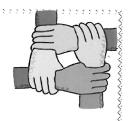

https://www.youtube.com/watch?v= ahXaXVvI0M

Important Note: These videos and all parts of them are property of the Karuk Tribe and are not intended for any purpose other than the reason for which they were developed. Usage of the material outside of the Red Salmon Complex fire organization is prohibited.

# Human Resource Message

# August 25, 2020

# Our time is getting shorter... How about our Tempers???

We can see the end in sight, although this has been an uncertainty for a while. Some are ready to leave; some are wishing it was longer.

With the hard work and especially the changes taking place, it is easy to get on edge and "on the edge" with each other. Let's guard against that and try to help each other out.

~Take care and be safe.

A quick temper will make a fool of you soon enough. ~Bruce Lee

Adam Alvarez - HRSP Text/Call (707) 373-8715

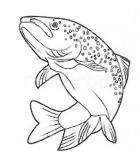

# Training Message

# RED SALMON COMPLEX

# AUGUST 25, 2020

## **Trainer / Mentors:**

If in the event:

You are leaving the incident before your assigned trainee

Or

Your trainee is reassigned
You must complete a performance evaluation for the
period the trainee was assigned to you

#### TRAINEES:

Beat the Rush!!

<u>To receive documented credit for your training</u> <u>assignment – you must close out with the Training</u> Specialist before you Demob!!

If you are ready - DO IT NOW!

The following are needed to close you out

- A completed and signed ICS 225 or 226 Performance <u>Evaluation</u>
  - A completed Exit Interview Form

Arturo Gasdik TNSP 707.296.4484

Emil Picchi TNSP (T) 650.520.5102

# **RED SALMON DEMOB**

Check in with Demob at least 72 hours prior to demobing if you need air travel arrangements made.

Demob on the Red Salmon is paperless. Use **QR Code #1** to start your process.

If you have difficulties with your phone or need help, stop by the Demob Unit or call 530-629-1679.

Once you have scanned **QR Code #1**, proceed to the following locations to get signed off. This can be done at both Willow Creek and Orleans (except for Finance, see instructions below):

**QR Code #1**Demob Process

- GROUND SUPPORT \*\*\*(Do this prior to Weed Wash)\*\*\*
- WEED WASH
- SUPPLY
- COMMUNICATIONS
- TIME (SECOND TO LAST)
  - Contact Finance to ensure that all shift tickets and CTR's are completed and turned in prior to demob:

Equipment Time (530) 629-1678 Personnel Time (530) 629-1677

#### **WILLOW CREEK FINANCE:**

Complete the above stops, TIME and DEMOB are last.

TIME: Overhead, or ONE PERSON from each Vendor or Crew will be allowed to visit Finance for payment processing (Equipment Time or Personnel Time).

#### **REMOTE FINANCE:**

Call the numbers above to initiate closing out with finance.

**Equipment Time** will generate the Emergency Equipment Use Invoice (OF-286) and e-mail the invoice to company owner for review and signature.

**Personnel Time** will generate Incident Time Reports(s) (OF-288) and e-mail the report to designated contact for review.

- DEMOB (VERY LAST)
  - Visit or call Demob (530-629-1679) to verify that your checkout process has been completed
  - Scan QR Code # 2 to submit your travel itinerary or verbally report it to Demob.

QR Code #2
Travel Itinerary for
After Demob Process

DO NOT DEPART FROM THE INCIDENT WITHOUT CHECKING OUT WITH DEMOB

#### FIRE REPLACEMENT PROCEDURES

# START THIS PROCESS AT LEAST 48 HOURS PRIOR TO DEMOB

## Submit requests for all incident replacements on a 213, General Message:

- Separate cache from non-cache items on separate 213's!
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

#### FOR CACHE ITEMS

## Requesting Resource is **NOT Being Demobed** and Requested Items **ARE Available** in Supply:

• R&D shall fill request and note on the 213.

## Requesting Resource is <u>NOT Being Demobed</u> and Requested Items are <u>NOT Available</u> in Supply.

• The Supply Unit will place an order for the requested items through the regular cache order process on the incident. The order will be shipped to the incident and replacement will take place at the Supply Unit and noted on the 213.

## Requesting Resource IS Being Demobed and Requested CACHE Items are NOT in Stock in Supply:

- Along with the 213, complete an OF-315, Incident Replacement Requisition for cache items only and take to SPUL for review and approval. Include the requesting resources' email on the form so the Resource Order can be emailed to the Requesting Resource.
- The SPUL will issue S#'s pending receipt and verification of proper documentation for cache items.

#### NON-CACHE Items - This is the Important Part!!!

## Non-Cache items include any item not available through the National Cache System.

Lost, damage, or destroyed government non-cache property shall be reported to the appropriate DIVS or higher-level overhead within 24 hours of occurrence. The requesting resource shall complete an ICS-213 and OF-289, Property Loss and Damage Report — Fire Suppression, available at Orleans Base Camp Supply Unit. Include the following:

- All witnesses shall document the facts and circumstances of the loss or damage on the OF-289. Explanations shall be detailed and indicate how the incident caused the damage.
- The requesting resource will email the completed ICS-213 and OF-289 to the Comp/Claims Unit Leader at scott\_parsons@firenet.gov. The COMP will make a determination based upon the documentation presented.
- Approval for replacement is the responsibility of the incident agency and may be delegated to the incident Management Team for IC and FSC.
- If the replacement request is approved, the replacement cost will be limited to cache equivalent value. The requesting resource will complete OF-315 for the Supply Unit.
- Items that do not have a like-item in the cache will be reviewed and approved at the discretion of the FSC or Incident Business Advisor, as delegated by the Agency Administrator.
