**WEATHER DISCUSSION:** Residual mid level moisture and instability will maintain a slight threat of showers or thunderstorms again today...however chances are lower than yesterday. Relative humidity values continue to be challenging at all levels as pockets of dry air migrate around the region. Smoke from the fires to the south will continue to become more prominent each day around highway 96 as smoke transport winds become a little more southerly.

**Today (Tuesday 0600-1800):**

**Weather:** Mostly Cloudy early...decreasing clouds in the afternoon. 10% chance of thunderstorms or light showers.  
**Max Temperature:** Below 4,000 ft: 82-86. Above 4,000 ft: 77-81.

**Upper Slopes/Ridges:** East-southeast 1-4 until 1500, then West and Southwest 4-6 mph with Gusts

to 10 mph until sunset.

**LAL: 2 Chance of Wetting Rain (0.10"): 5%**

**Stability:** Low valley inversions lift 1200. Mid-level inversion will hold in place through at least 1500 hrs.

**Afternoon Mixing Height:** Valleys: 3,500 feet AGL. Ridges: 5,000 feet AGL.

**Smoke Transport:** Toward the North and Northeast.

### FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 29	<b>TYPE OF FIRE</b> Wildfire
<b>FIRE NAME:</b> Red/Salmon	<b>OPERATIONAL PERIOD</b> 08/25-8/26 Day/Night 2020
<b>DATE ISSUED</b> 08/24/2020	<b>TIME ISSUED</b> 2130
<b>UNIT</b> CA-SRF	<b>SIGNED</b> Stewart Turner FBAN Diondray Wiley, FBAN (T) 

**INPUTS**

**WEATHER SUMMARY:** For Specifics Please see the attached Incident Weather Forecast.  
**WEATHER:** Mostly Cloudy early, decreasing clouds in the afternoon. 15% chance of thunderstorms  
**MAX TEMP:** Below: 4000 ft 82-86° Above: 4000 ft 77-81° **MIN RH:** 30-60% early then 25% by late afternoon  
**20 FOOT WINDS:** East-southeast 1-4 mph until 1400, then West and Southwest 4-6 mph with Gust to 10 mph until sunset.  
**LAL: 2 CHANCE OF WETTING RAIN** ( $\geq 0.10''$ ): 5%  
**FUELS:** The major fuel types, found in and around the fire area are timber litter and shrubs.  
**Ignition Receptiveness:** ERC levels are at the 90<sup>th</sup> percentile. Probability of Ignition 64% Night 25%.

**Dryness:** Dead and down fuel moistures : 1 hour – 5% day, 10 hour– 5%, 100 hour–7%, and 1000 hour– 8%.

**FIRE BEHAVIOR**

Expect a moderate to high risk burn environment due to the potential for dry lightning, moderate temperatures, low afternoon RH and critically low 1000 hr. fuel moistures. Combined, these are contributing factors for large fire growth and control problems. Be aware of erratic outflow winds, ground strikes and new starts.

**SPECIFIC**

**SPECIFIC FIRE BEHAVIOR:**

- Division A:** Low activity consisting of creeping and smoldering.
- Division D:** No fire activity in Div. Delta. Firing operations (if needed) will be aided with forecasted West winds later in the afternoon (after 1500).
- Main fire (Northeast):** Will continue to move with active fire behavior and spotting. Expect to see movement Northeast along China Creek, East across Nordheimer Creek and backing to the Southeast.
- Division K:** Firing operations will be successful once RH drop below 35-40% and East wind surface.
- Division M / N:** Minimal activity expected. Interior smoldering.
- Division O:** Watch for fire mid-slope to align and make upslope runs. Highly active fire behavior could be produced with significant spotting potential.
- Division U:** The main fire continues to move south across the slopes. Watch for mid slope alignment and uphill runs. There is potential for highly active fire behavior
- Division P, R:** No Fire Behavior expected.
- Division W, Y:** low activity mostly creeping and smoldering.
- Night Division:** Firing operations will have greater success after 2200 when East, Northeast winds surface and RH are below 40-50%

**AIR OPERATIONS**

Low level inversions will lift at approx. 1200, mid-level at approx. 1500.

**Safety Message**

**STANDARD FIREFIGHTING ORDERS:** Know what your fire is doing at all times.

# Red Salmon Complex – Safety Message

INCIDENT #CA-SRF-000656

DATE:08-25/26-2020 TIME:0600-0600 Day/Night Shift

## RISK MANAGEMENT

Use the following process to quickly assess risk for the situations you face throughout the day.

**Step 1** - Identify the hazards. Make this an ongoing, continuous process in your daily decision making routine. Gather as much information as possible.

**Step 2** - Assess the risk levels. The probability and severity of an undesirable outcome linked to identified hazards = **RISK**.

**Step 3** - Analyze and select control or mitigation measures. Limiting exposure is almost always an option.

**Step 4** - Reassess risk level with controls in place (residual risk).

**Step 5** - Make your informed decision based on the residual risk. Ask the **risk vs. gain** question: is the benefit of the action I'm considering worth the risk?

**Step 6** - Monitor the situation

## COVID-19 INCIDENT STATISTICS (to date)

## *Red Salmon Complex COVID-19 Expectations*

---

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- **As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok reservations are closed so please do not stop in Hoopa or Weitchpec.**
- Use the COVID-19 Daily Screening Tool, provided in the IAP, to monitor self and module.
- Utilize Module-as-one concepts to reduce the risk of transmitting the novel Coronavirus. This limits “close contacts” to those within the module. A “close contact” is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks. A “casual contact” is defined as less than 6 feet for less than 15 minutes or more than 6 feet for more than 15 minutes.
- **Social Distancing.** Maintain a minimum of 6’ physical distancing from those outside of your module-as-one.
- **Face Coverings.** Face coverings are required to be worn, **in the appropriate manner covering nose and mouth**, when at ICP and Camps. Outside of camps, all incident personnel will wear a face covering when social distancing is not possible with those outside your module-as-one.
- **Wash your hands.** Wash your hands often with soap and water for at least 20 seconds, especially after blowing you nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizers containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- Clean and disinfect vehicles and equipment. Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or Runny nose, outside your normal for firefighting?

### Instructions for Screening

<b>Item</b>	<b>What to Do</b>
<p>If Spike or fireline resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.</p> <p>At entries to established camps (Willow Creek ICP, Orleans Base Camp):</p> <p style="padding-left: 20px;">Temperature screening required for all incident personnel, cooperators and guests. Although medical personnel are ideal, screeners do not have to be medically trained.</p> <p>If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.</p>	<p><b>NOTIFY SUPERVISOR IMMEDIATELY</b></p> <p><b>DO NOT ANNOUNCE</b></p> <p>Ask individual or "module-as-one" to step aside and follow the steps below.</p>

<b>Steps to follow for a symptomatic screening</b>
Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel.
Isolation support personnel should begin documentation.
Notify Line Medics or MEDL if at ICP or Orleans Base Camp.

**FINANCE MESSAGE**

Thank you for submitting your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- Electronic fillable PDF CTR/Shift Ticket. QR codes to fillable forms are included below. If you do not have QR capabilities, Finance can email you forms directly. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- Hard copy CTR/Shift Ticket. You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom. The phone numbers listed below are hard line phones, so texting does not work.

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in Check-In to drop off your time.
- Write your email on your CTR
- Hazard pay justifications are required on your CTR's in comments section. "H=Hazard" is not enough.

**WHEN YOU ARE CLOSE TO DEMOB:**

- Give Finance a "Courtesy Call" to make sure all your documents have been received.
- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to finance tent.
- Abide by scheduled demob time or call finance for an unscheduled demob.

## STANDARD OPERATING PROCEDURES—FINANCE SECTION

---

### WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

### OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

### DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

### PERSONNEL/EQUIPMENT TIME REPORTING

Personnel time will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

Private Contracted Equipment time must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

### MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

## Local Government Resources on CFAA

## Resource Advisor Message

- Resource advisors are available in nearly all Divisions on the fire and are here to support the mission of containing this wildfire while at the same time aim to minimize resource damage impacts. If you feel something needs to be brought to a Resource Advisor (or Cultural Specialist), go through your appropriate chain of command to make the notification.
- The Six Rivers, Klamath and Shasta-Trinity National Forests, as well as California Team 4, have been working very closely with cultural specialists from the three main tribes in this area (the Hoopa, Karuk and Yurok) so please help us to maintain and foster these good relationships.
- The area in which the fire is burning is a very sacred place to these tribal cultures so please work with us utilizing MIST tactics to protect cultural and wilderness values.

**Message #2 from Leaf Hillman, Karuk Cermonial Leader, about the importance of fire to the Karuk Tribe:**

**Important Note: These videos and all parts of them are property of the Karuk Tribe and are not intended for any purpose other than the reason for which they were developed. Usage of the material outside of the Red Salmon Complex fire organization is prohibited.**

## *Human Resource Message*

August 25, 2020

**Our time is getting shorter...  
How about our Tempers???**

We can see the end in sight, although this has been an uncertainty for a while. Some are ready to leave; some are wishing it was longer.

With the hard work and especially the changes taking place, it is easy to get on edge and "on the edge" with each other. Let's guard against that and try to help each other out.

**~Take care and be safe.**

**A quick temper will make a fool of you soon enough.**
