INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: DAY	
RED SALMON COMPLEX		Date/Time From: 08/28/2020 0600 FRI	Date/Time To: 08/28/2020 1800 FRI
3. Objective(s):			
Management Objectives			
<ul style="list-style-type: none"> • Follow identified standard procedures to minimize the spread of Covid-19 to all functions of the incident. • Utilize nationally recognized risk management processes to minimize threats to the public and emergency responders. • Use risk-based decision making and MIST tactics to protect and defend cultural values and natural resources. • Foster and maintain positive relationships with all stakeholders and the public by sharing critical information so timely decisions and actions can be implemented. <ul style="list-style-type: none"> • Provide initial attack within the TFR. • Manage incident costs effectively for the values at risk through regular and ongoing cost analysis. 			
Control Objectives			
Keep Red and Salmon Fires:			
<ul style="list-style-type: none"> • East of Packsaddle Ridge • West of the High Point Ridge • North of the Soldier Creek Trail • South of Lunch Creek to Salmon Summit Trail to Red Cap Creek 			
4. Operational Period Command Emphasis:			
Pay close attention to complacency. Hotter and drier weather may increase fire potential and activity from the slower more smoldering activity.			
General Situational Awareness:			
Plans don't accomplish work. Goal charts on walls don't accomplish work: It is the people who get things done.			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located at:			
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):			
<input checked="" type="checkbox"/> ICS 202	<input type="checkbox"/> ICS 207	Other Attachments:	
<input checked="" type="checkbox"/> ICS 203	<input type="checkbox"/> ICS 208

**Red Salmon Complex
Weather Forecast**

FORECAST NO: 29
UNITS: Six Rivers / Shasta Trinity
SHIFT DATE: Friday, August 28, 2020
PREDICTION FOR: 0600 - 0600
FORECAST ISSUED: 2000 hrs. 8/27/2020

SIGNED:

Inc. Meteorologist
Call or Text Obs to:
(707) 672-3386

...Critically Dry Afternoon Relative Humidity Levels Today Through Sunday...

WEATHER DISCUSSION: A very dry airmass will move into the region over the next few days with near single digit afternoon relative humidity values possible with very poor recovery as well. Despite the periods of smoke around the perimeter, abundant sunshine is expected through the weekend with rising mixing heights and improved ventilation. The combination of these weather elements may lead to an increase in fire activity, especially during the afternoon and early evening hours through Sunday.

Today (Friday 0600-1800):

Weather: Sunny with smoke...hottest day and much drier.

Max Temperature: Below 4,000 ft: 95-100. Above 4,000 ft: 90-94.

Min Humidity: **Below 4,000 feet:** 12-17%...Single digits possible during the late afternoon.

Above 4,000 feet and higher: 18 - 23%...Possible falling to near 10% by late afternoon.

20 Foot Winds:

Lower/Mid Slopes: Downslope or east 2-4 mph until 1200, then upslope or West Northwest 3-5mph gusts to 10 mph.

Upper Slopes/Ridges: East 1-4 until 1200, then West and Northwest 4-6 mph with Gusts to 12 mph until sunset.

Stability: Low valley inversions lift 1200. Mid-level inversion will hold in place through at least 1300 hrs. All inversions breaking by 1400.

Afternoon Mixing Height: 9-11 k feet AGL.

Smoke Transport Wind: Southeast 10 mph.

Tonight (1800-0600):

Weather: Clear with smoke. Low RH recoveries.

Low Temperatures: Valley-Midslope: 59-63°; Upper slope/Ridge: 62-67°.

Max Humidity: **Below 4000 feet:** 25-35%.

Above 4000 feet: 20-30%.

20 Foot Winds:

Lower/Mid Slopes: Upslope or West-Northwest 2-5 mph until 2100 hrs, then East or downslope 3-6 mph.

Ridges: West and Northwest 3-5 mph gusts to 10 mph until 2100 hrs, then East and Northeast 3-6 mph with gusts to 10 mph.

Saturday: Mostly sunny. Max Temps: 94-98°. Minimum RH: 15-20%. Afternoon Winds - Lower Slopes: West Northwest or upslope 5 mph gust to 10 mph. Upper slopes/Ridges: Upslope or Northwest at 6 mph Gust to 12 mph.

Sunday and Monday Outlook: Sunny and very low RH. Max Temperatures in the mid to upper 90s. Afternoon humidity 13-18%. Northwest to North winds 2-5 mph with gusts around 10 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER 32	TYPE OF INCIDENT: Wildland Fire
INCIDENT NAME: Red Salmon Complex	OPERATIONAL PERIOD Day/Night Shift 08/28-08/29 2002
DATE ISSUED: 27 Aug 2020	TIME ISSUED: 2030
UNIT: Six Rivers NF	SIGNED /s/ Gayle Sorenson
	Gayle Sorenson, FBAN

INPUTS

WEATHER SUMMARY: See Preceding Fire Weather Forecast.

Temp -95-100 degrees below 4000 ft and 90-94 above 4000 ft, RH 20-25% below 4000 ft and 18-23% above 4000 ft, Mixing Height 9000-11,000 ft, Winds AM East 2-4 mph, PM Upslope/Northwest 3-5g12 mph, LAL 1, CW

FUELS CONDITIONS:

Fuels in the Red Salmon Complex consist of mixed conifer with Mountain brush, timber litter and grass understory. Fires in the past few years including 1999 Megram (SW), 3013 Butler (N), 2006 Bake-Oven (SE), and 2013 Corral (S) have more of a shrub and grass component with standing dead snags and heavy dead/down fuels. ERC's are slightly above normal and at the 90th percentile. 1000-hr fuel moisture is below normal at 9% which is the 97th percentile.

GENERAL FIRE BEHAVIOR:

The weather is becoming hotter and drier over the next several days and mixing heights increase ventilation. Fire behavior will increase, and spotting will become more of a problem. Inversion will keep a damper on fire activity early in the day but expect a rapid increase in fire behavior as the sky clears and ventilation increases around 1200-1300.

Flame lengths will generally be 1-4 feet. ROS upslope 12-20 ch/hr and backing <3 ch/hr. Spread is primarily on the surface with associated single/group tree torching. Spotting distances of 0.1-0.25 miles is possible with longer spotting distances occurring as the fire nears ridgelines and is exposed to higher winds. Fire behavior will be most active generally on the upper 1/3 of slopes.

SPECIFIC FIRE BEHAVIOR:

DIV A/D: Minimal fire behavior expected. Continue to monitor fire behavior below your position (DP-22)

Main fire (Northeast): General uptick in fire behavior with active fire behavior and increased spotting. Continued movement Northeast along China Creek, North and East across Nordheimer Creek and backing to the Southeast.

DIV K: Firing operations will be successful once RH drops below 35-40%. East winds will be available for a shorter duration (until 1200) during the shift, then again at sunset.

DIV M/N: Minimal activity expected. Interior smoldering.

DIV O, P, R: The main fire continues to move south across the slopes. Watch for mid slope alignment and uphill runs. There is potential for highly active fire behavior including significant spotting with organized runs.

DIV U: The main fire continues to move south across the slopes. Watch for mid slope alignment and uphill runs. There is potential for highly active fire behavior including significant spotting with organized upslope runs.

DIV W, Y: Minimal fire behavior expected.

Night SHIFT: Firing operations (DIV K) will have greater success after 2100 when East, Northeast winds surface and RH is below 35-40%.

SAFETY

SAFETY: In many places we are working along ridgelines with indirect fire below. Ensure you have lookouts in place to observe fire behavior.

AIR OPERATIONS: Inversion over the lower elevations of the fire may hamper visibility until 1200-1300.

6. Control Operations/Work Assignments:

Monitor, Patrol, and Mop-up control lines to the extent necessary to keep fire in the existing footprint to protect native ancestral lands and cultural sites.
 Arrange for backhaul of excess accountable property to ensure all equipment and supplies are returned and tracked through Supply.
 Arrange for backhaul of all trash to ensure areas are returned to as close to normal as possible.
 Prepare for firing and holding operations as necessary to protect cultural assets and other sociopolitical stakeholder interests.

7. Special Instructions:

Utilize MIST tactics where possible and utilize READs for cultural resource concerns.
 Avoid bedrock outcropping and consult with READs if present.
 Limit dozer operations to pre-existing dozer lines and limit width of the dozer lines to the extent possible to minimize disturbance.

****ARCHs / REAFs**** Check in / out with DIVS when entering and leaving divisions.

FOBS Matt Snyder, John Hurd (T), are working in ALL Divisions and will check in/out with DIVS as they enter and leave.

Operations Personnel			
OPERATIONS CHIEF	ISAAC POWNING TYLER HECHT (T)	DIVISION/GROUP SUPERVISOR	JOEL JOHNSON
AIR ATTACK SUPERVISOR	ALEX ABOLS		

6. Control Operations/Work Assignments:

Monitor, Patrol, and Mop-up control lines to the extent necessary to keep fire in the existing footprint to protect native ancestral lands and cultural sites.
 Arrange for backhaul of excess accountable property to ensure all equipment and supplies are returned and tracked through Supply.
 Arrange for backhaul of all trash to ensure areas are returned to as close to normal as possible.

7. Special Instructions:

Utilize MIST tactics. Utilize READs for cultural resource concerns. Identify helispots and DPs, get Lat/longs. Backhaul trash and equipment. Avoid bedrock outcroppings, consult with READs if present.

****ARCHs / REAFs**** will check in / out with DIVS when entering and leaving their divisions.

READ request: Limit dozer operations to pre-existing dozer lines and limit dozer width to the extent possible.

Mountain Medic at DP-9

FOBS Matt Snyder, John Hurd (T), are working in ALL Divisions and will check in/out with DIVS as they enter and leave.

Red Salmon Complex – Safety Message

INCIDENT #CA-SRF-000656

DATE: 08-28/29-2020 TIME: 0600-0600 Day/Night Shift

Situational Awareness

In the wildland fire environment, "SA" is requirement!

- Driving: Maintain safe driving practices
- Trees: Gravity always wins. Look up, down and around
- Steep Terrain: Look for rolling material
- Fatigue: Monitor your health and that of those around you
- Concentrate: Stay focused on the task at hand
- Communications: Be clear, be concise, be accurate

COVID-19 Incident Statistics

(to date)

Symptomatic Personnel: 11

Positive Number of Cases: 0

Points to Ponder

- Vehicle accidents are a common cause of firefighter injuries – **Drive Smart**
- Wildland FF's are injured or killed more annually from falling trees – **Look Up**
- Ash pits and stump holes are the most common cause of burn injuries – **Look Down**
- FF's can be the cause of, or recipient of rolling debris – **Look Around**
- Heat, long hours, and repetition can lead to complacency and injuries – **Pace yourself**
- Multiple Resources of multiple typing doing multiple jobs = Multiple potential for injury – **Stay Focused**
- Communicate clearly and get confirmation that your message is understood – **Communicate Clearly**

Individual Accountability

- Know where your crewmembers are at all times.
- Have crewmembers work in pairs.
- Inform Division or your Supervisor of changing locations.
- Review radio procedures, and ensure your radio is properly cloned.
- Check IN with the Division Supervisor on site if not assigned there
- Check OUT with your supervisor (or Division) at the end of shift.

Dan Albee SOF-2

INCIDENT RISK ANALYSIS RED SALMON COMPLEX CA-SRF-000656 (ICS 215a) Day/Night Shift

DIV/BR	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> • Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing, or turning around. • Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent. • 5mph speed limit in and around ICP, keep your speed down in all areas. • Use warning lights when working on roads or traveling in smoke. • Drive at or below posted speed limits. • Be alert for wildlife.
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> • Follow Hazard Tree Safety Guidelines (IRPG p.22.) • Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. • Be alert around hazard trees during wind events, even green trees. • The hazard zone extends a minimum of 2½ tree lengths. • Do not park vehicles or take breaks under or near hazard trees.
ALL	STEEP TERRAIN AND ROLLING DEBRIS	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Be alert for rolling rocks, debris, or burning material. • Evaluate necessity to send personnel in areas with limited access. • Post lookouts where feasible.
D,F,H, K,O,P, R,U	INDIRECT FIRELINE	<ul style="list-style-type: none"> • Keep good Situational Awareness while engaged in indirect line construction. • Post lookouts. Make sure to stay in contact with someone who can see the main fire • Ensure all personnel are familiar with the plan. • Make sure all personnel know their escape routes and safety zones. • Remember there is "unburned fuel between you and the main fire."
ALL	FATIGUE/COMPLACENCY	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Maintain 2:1 work/rest ratio. • Monitor ALL resources for level of fatigue. • Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. • Take steps to maintain situational awareness for the duration of the incident.
K,O,U	FIRING OPERATIONS and DEVICES	<ul style="list-style-type: none"> • Follow the chain of command when undertaking burning operations. • Ensure that aerial/ground ignition plans have been well briefed including LCES and drought related fire behavior considerations. • Wear and use appropriate PPE. • Initiate burning after ensuring the plan is authorized and understood by all.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> • Share your Situational Awareness (hazards, changes, etc) to those who have a need. • Radio communications may be poor in some areas. Use human repeaters as needed • Ensure all personnel are familiar with the incident communications plan.
A,D,K, W,Y	NIGHT OPERATIONS	<ul style="list-style-type: none"> • Have a purpose for where you drive and what you do. Don't rush into assignments. • Use caution where you park or stage, especially in steep timbered areas. • Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area. • Increase SA by trying to see the work area during daylight hours. • Use glow sticks to mark hazards, and ensure personnel have headlamps.
ALL	AIR OPERATIONS	<ul style="list-style-type: none"> • Follow "Aviation Watch-Out Situations" on page 46, IRPG. • Don't plan on air resources for tactical support or medical transportation. • Refer to page 58, IRPG for directing bucket drops. • Ensure positive communication with all air resources.
ALL	ENVIRONMENTAL HAZARDS	<ul style="list-style-type: none"> • Keep alert for wildlife, deer, rattlesnakes, bees, and plants. Watch footing and hand placement around rocks. • Personal hygiene is #1 when it comes to Poison Oak Prevention. • Pick up and remove all trash from fireline, return to camp and place in dumpsters.
ALL	COVID-19	<ul style="list-style-type: none"> • Utilize social distancing, wear facemasks in camp ALWAYS. • Maintain the "module of one" concept. • Disinfect vehicles, tools, and commonly touch surfaces frequently. • Do not share equipment and wash hands frequently.

FINAL

Red Salmon Complex COVID-19 Expectations

- All incident personnel will follow all local, State and CDC guidelines for COVID-19.
- **As you travel through the highway 96 corridor to the Fire, the Hoopa and Yurok Reservations are closed. Please do not stop in Hoopa or Weitchpec.**
- Use the COVID-19 Daily Screening Tool provided in the IAP to monitor self and module.
- Utilize Module-As-One concept to reduce the risk of transmitting the novel Coronavirus. This limits “close contacts” to those within the module. A “close contact” is defined as less than 6 feet, for at least 15 minutes with or without face coverings/masks. A “casual contact” is defined as less than 6 feet for less than 15 minutes or more than 6 feet for more than 15 minutes.
- **Social Distancing.** Maintain a minimum of 6 feet physical distancing from those outside of your module-as-one.
- **Face Coverings.** Face coverings are required to be worn in the appropriate manner covering nose and mouth when at ICP and camps.
- **Wash your hands.** Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing or sneezing. If soap and water are not readily available, use hand sanitizer that contains at least 60% alcohol. Do not use hand sanitizer containing methanol or 1-propanol. Cover all surfaces of your hands and rub them together until they feel dry. Avoid touching your eyes, nose and mouth with unwashed hands.
- **Clean and disinfect vehicles and equipment.** Disinfect all high-touch surfaces frequently, such as radios, phones, door handles, etc.

RED SALMON COVID-19 DAILY SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

Instructions for Screening

Item	What to Do
If Spike or fireline resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	NOTIFY SUPERVISOR IMMEDIATELY
At entries to established camps (Willow Creek ICP, Orleans Base Camp): Temperature screening required for all incident personnel, cooperators and guests. Although medical personnel are ideal, screeners do not have to be medically trained. If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	DO NOT ANNOUNCE Ask individual or "module-as-one" to step aside and follow the steps below.

Steps to follow for a symptomatic screening

- Escort individual or "module-as-one" to isolation area. Separate the symptomatic personnel.
- Isolation support personnel should begin documentation.
- Notify Line Medics or MEDL if at ICP or Orleans Base Camp.
- COVID Safety will coordinate with SRF Forest IMO.
- Have individual or "module-as-one" fill out WF Employee Contact Assessment Sheet.
- Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

FINANCE MESSAGE

Thank you for submitting your times in the safest way possible. The options for submitting your CTR's and Shift Tickets are:

- **Electronic fillable PDF CTR/Shift Ticket.** QR codes to fillable forms are included below. If you do not have QR capabilities, Finance can email you forms directly. Make sure the forms are signed by the supervisor before submitting to Finance. In order to use fillable forms, you must have some version of Adobe Acrobat downloaded on your device, or you can send to your email and fill out.
- **Hard copy CTR/Shift Ticket.** You may fill out a hard copy CTR/Shift Ticket, snap a picture and email to Finance OR you may turn in your actual hard copy as usual. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom. The phone numbers listed below are hard line phones, so texting does not work.

PLEASE:

- Crews need to include a manifest with their first CTR.
- Try to submit your times at least every other day. There is a drop box at Orleans Base Camp in Check-in to drop off your time.
- Write your email on your CTR
- Hazard pay justifications are required on your CTR's in comments section. "H=Hazard" is not enough.

WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a "Courtesy Call" to make sure all your documents have been received.
- Follow the demob plan instructions based on your travel route home. This will determine whether your demob will be in-person or remote.
- Submit all time documentation (including travel home) ahead of demob.
- Send only one representative per resource to finance tent.
- Abide by scheduled demob time or call finance for an unscheduled demob.

CTR

SHIFTTICKET

EMAIL: 2020.redsalmon.finance@firenet.gov

Equipment Time: (530) 629-1678

Finance Section Chief (530) 629-1677

STANDARD OPERATING PROCEDURES—FINANCE SECTION

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs.). Off duty time will be in a non-pay status. Each federal employee is guaranteed at least 8 hours of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

Personnel time will be reported to the Time Unit daily or every other day once they are signed by the next level supervisor. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

Private Contracted Equipment time must be tracked on a Shift Ticket daily or every other day and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation.

Resource Advisor Message

- Resource advisors are available in nearly all Divisions on the fire and are here to support the mission of containing this wildfire while at the same time aim to minimize resource damage impacts. If you feel something needs to be brought to a Resource Advisor (or Cultural Specialist), go through your appropriate chain of command to make the notification.
- The Six Rivers, Klamath and Shasta-Trinity National Forests, as well as California Team 4, have been working very closely with cultural specialists from the three main tribes in this area (the Hoopa, Karuk and Yurok) so please help us to maintain and foster these good relationships.
- The area in which the fire is burning is a very sacred place to these tribal cultures so please work with us utilizing MIST tactics to protect cultural and wilderness values.

Message #2 from Leaf Hillman, Karuk Cermonial Leader, about the importance of fire to the Karuk Tribe:

<https://www.youtube.com/watch?v=ahXaXVvIOM>

Important Note: These videos and all parts of them are property of the Karuk Tribe and are not intended for any purpose other than the reason for which they were developed. Usage of the material outside of the Red Salmon Complex fire organization is prohibited.

Local Government Resources on CFAA

If you are demobing from an incident and there is no OES AREP on site
F-42 thru the Incident Finance Section Chief or the Incident Commander
One of them must sign your 42's

The Incident keeps the Pink copy and you keep the Golden.
The Original and Green you mail to OES Headquarters as per the
instructions on the front of your F-42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Human Resource Message

It was
CHARACTER
that got us out of bed,
COMMITMENT
that moved us into action, &
DISCIPLINE
that enabled us to follow through
--Zig Ziglar

You won't find your Human Resource Specialist (HRSP) in the Base Camp, but email or give her a call if you would like to talk, or have any concerns or questions.

Linda Overton
707-373-7631
linda.overton@usda.gov

TRAINING SPECIALIST MESSAGE

RED SALMON COMPLEX

AUGUST 28-29, 2020

I can help you with all your training documentation...but it is up to you to make the best of your trainee assignment!

New Trainees: PLEASE USE THE QR CODE BELOW TO START YOUR TRAINING ASSIGNMENT. JUST ENTER YOUR INFORMATION AND YOU WILL BE CHECKED INTO THE TRAINING DATA BASE.

IF YOU HAVE ANY PROBLEMS GIVE US A CALL OR TEXT US

Trainers: PLEASE TAKE THE TIME TO GO OVER THE POSITION TASK BOOK WITH THE TRAINEES TO SEE WHICH SPECIFIC TASKS NEED TO BE FOCUSED ON.

Trainee check in form

RED SALMON DEMOB

Check in with Demob at least 72 hours prior to demobing if you need air travel arrangements made.

Demob on the Red Salmon is paperless. Use **QR Code #1** to start your process.

If you have difficulties with your phone or need help, stop by the Demob Unit or call 530-629-1679.

QR Code #1
Demob Process

Once you have scanned **QR Code #1**, proceed to the following locations to get signed off. This can be done at both Willow Creek and Orleans (except for Finance, see instructions below):

- GROUND SUPPORT *****(Do this prior to Weed Wash)*****
- WEED WASH
- SUPPLY
- COMMUNICATIONS
- TIME (SECOND TO LAST)
 - Contact Finance to ensure that all shift tickets and CTR's are completed and turned in prior to demob:
Equipment Time (530) 629-1678 Personnel Time (530) 629-1677

WILLOW CREEK FINANCE:

Complete the above stops, TIME and DEMOB are last.

TIME: Overhead, or ONE PERSON from each Vendor or Crew will be allowed to visit Finance for payment processing (Equipment Time or Personnel Time).

REMOTE FINANCE:

Call the numbers above to initiate closing out with finance.

Equipment Time will generate the Emergency Equipment Use Invoice (OF-286) and e-mail the invoice to company owner for review and signature.

Personnel Time will generate Incident Time Reports(s) (OF-288) and e-mail the report to designated contact for review.

- DEMOB (VERY LAST)
 - Visit or call Demob (530-629-1679) to verify that your checkout process has been completed
 - Scan **QR Code # 2** to submit your travel itinerary or verbally report it to Demob.

QR Code #2
Travel Itinerary for
After Demob Process

DO NOT DEPART FROM THE INCIDENT WITHOUT CHECKING OUT WITH DEMOB

08/28/2020

FIRE REPLACEMENT PROCEDURES

START THIS PROCESS AT LEAST 48 HOURS PRIOR TO DEMOB

Submit requests for all incident replacements on a 213, General Message:

- Separate cache from non-cache items on separate 213's!
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

FOR CACHE ITEMS

Requesting Resource is NOT Being Demobed and Requested Items ARE Available In Supply:

- R&D shall fill request and note on the 213.

Requesting Resource is NOT Being Demobed and Requested Items are NOT Available In Supply.

- The Supply Unit will place an order for the requested items through the regular cache order process on the incident. The order will be shipped to the incident and replacement will take place at the Supply Unit and noted on the 213.

Requesting Resource IS Being Demobed and Requested CACHE Items are NOT In Stock In Supply:

- Along with the 213, complete an *OF-315, Incident Replacement Requisition for cache items only* and take to SPUL for review and approval. Include the requesting resources' email on the form so the Resource Order can be emailed to the Requesting Resource.
- The SPUL will issue SIF's pending receipt and verification of proper documentation for cache items.

NON-CACHE Items – This is the Important Part!!!

Non-Cache items include any item not available through the National Cache System.

Lost, damage, or destroyed government non-cache property shall be reported to the appropriate DIVS or higher-level overhead within 24 hours of occurrence. The requesting resource shall complete an ICS-213 and *OF-289, Property Loss and Damage Report – Fire Suppression*, available at Orleans Base Camp Supply Unit. Include the following:

- All witnesses shall document the facts and circumstances of the loss or damage on the OF-289. Explanations shall be detailed and indicate how the incident caused the damage.
- The requesting resource will email the completed ICS-213 and OF-289 to the Comp/Claims Unit Leader at scott_parsons@firenet.gov. The COMP will make a determination based upon the documentation presented.
- Approval for replacement is the responsibility of the incident agency and may be delegated to the Incident Management Team for IC and FSC.
- If the replacement request is approved, the replacement cost will be limited to cache equivalent value. The requesting resource will complete OF-315 for the Supply Unit.
- Items that do not have a like-item in the cache will be reviewed and approved at the discretion of the FSC or Incident Business Advisor, as delegated by the Agency Administrator.

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o - 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o - 3^o burns not more than 1-3 palm sizes.</i>	
	<input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of incident within an Incident (Ex: TFLD Jones)</i>
Crew Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: Age: Weight: Chief Complaint:

Skin Signs: (color/moisture/temp) Level of Consciousness: BP: HR: Respirations:

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards) Patient's ETA to Location:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extraction

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

Be Alert - Keep Calm - Think Clearly - Act Decisively
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
***** Follow up with MEDL upon return to ICP *****
