Fire Weather Forecast

FORECAST NO: 5

PREDICTION FOR: Night Shift

DATE: August 20th, 2020

FORECAST ISSUED: 1000 August 20th, 2020

NAME OF FIRE: Loyalton
UNIT: Tahoe National Forest

Incident Meteorologist: Derek Williams

Signed: Munch Munch

WEATHER DISCUSSION: A steady southwest wind is expected along higher exposed slopes and ridges tonight. Otherwise, expect lower winds in sheltered valleys and leeward areas of ridgelines. RH recoveries will again be stratified with poorer recoveries along mid and upper slopes. Smoke could cause visibility issues overnight.

TONIGHT:

WEATHER: Dry with smoke and haze. Poor visibility in some locations.

TEMPERATURES: Valleys

47-52° (1-2° cooler)

Upper Slopes

53-58° (1-2° cooler)

HUMIDITY:

Valleys

45-55% (little change)

Upper Slopes

30-35% (little change)

20 FT WINDS:

Valleys: Southwest wind 5-10 mph in the evening. Downslope/downvalley at 2-5 mph

developing after 2000 in sheltered valleys.

Ridges: Southwest wind 10-15 mph with gusts to 20 mph.

CWR (>0.10 of an inch): 0% LIGHTNING ACTIVITY LEVEL: 1.

INVERSION: Inversion developing. Expect poor RH recoveries on mid and upper slopes.

FIRE BEHAVIOR FORECAST

| FORECAST NUMBER: 10 | TYPE OF FIRE: Wildland Fire |
|-----------------------------|--|
| FIRE NAME: Loyalton | OPERATIONAL PERIOD: 1800-0600, Aug 20-21, 2020 |
| DATE ISSUED: August 20 2020 | TIME ISSUED: 1200 |
| UNIT: Tahoe National Forest | SIGNED: Isl Josh Schmalenberger, FBAN (t) |
| | INPUTS |

WEATHER SUMMARY:

See attached Fire Weather Forecast

Discussion: Dry with smoke and haze. Poor visibility likely

Temp: 47-58; Max RH: 30-35% (45-55% in valleys). 20' valley winds SW 5-10 in evening becoming downslope 2-5 after 2000. 20' ridge winds SW 10-15 mph with gust to 20 mph. Inversion developing. Expect poor RH recovery on mid and upper slopes.

FIRE BEHAVIOR

GENERAL

Poor nighttime humidity recoveries and strong SW winds may keep fire behavior active tonight on the upper slopes and ridges. There is low potential for fire to become established outside containment lines.

The primary carrier on the Loyalton Fire is the grass and shrub fuels. The timber stands and stringers with understory brush will continue to burn in the evening and through the night.

Regional smoke transporting from other fires in California will continue throughout the day and night and may reduce predicted fire behavior.

SPECIFIC FIRE BEHAVIOR

Probability of ignition early evening 80% dropping to 30% overnight.

Grass/ Shrub fuel types: Anticipated rates of spread are up to 25 chains per hour with flame lengths 4' when aligned with winds and topography. As winds diminish later in the evening the projected rates of spread and flame lengths will decrease.

Timber with Mahogany/ Bitter Brush: Anticipate active backing and flanking fire with moderate rates of spread. Single tree to group torching may occur with spotting distances max 3/10 of a mile. 10hr fuels will are expected to carry fire where present through the night.

AIR OPERATIONS

Smoke will have an impact and may preclude any evening air operations.

Sunset: 19:49 08/20 Sunrise: 06:19 08/21

SAFETY

The weather is expected to continue to be hot, dry, and windy tonight and into the foreseeable future.

- Evaluate safety zones and escape routes for anticipated fire behavior; post lookouts to monitor fire behavior and maintain situational awareness.
- Communicate weather conditions regularly to Fireline personnel.

Lookouts Communications Escape Routes Safety Zones

LOYALTON

Operation Period: 08/20-21/2020 Night Shift

SAFETY MESSAGE

The Small Things Make a Difference

- Stay focused on the small things that can compromise your safety
- Small issues may seem inconsequential when viewed alone
- Sometimes multiple small issues can develop into a major problem
- Mitigate small issues so they do not snowball into a major issue
- Communicate minor problems so everyone is aware

MAJOR HAZARDS AND RISKS

| STEEP TERRAIN | ROLLING MATERIAL | HEAVY EQUIPMENT |
|---------------|------------------|-----------------|
| FATIGUE | DEHYDRATION | SNAGS |
| SPOT FIRES | BUCKET DROPS | COMPLACENCY |

Be sure all elements of your safety plan are in place prior to engagement

Watch for Over Confidence During Mop Up

*Driving: As you become more familiar with the road systems, we tend to increase speeds. Please be aware of this and keep speeds down, watch for people and vehicles along the roads, and drive defensively.

*PPE: Please recognize that in low stress situations like mop up, it is easy to over-look the importance of wearing the appropriate PPE including eye protection.

*Work Area: Familiarity with your work area can result in a lowering of awareness, especially as conditions change.

Briefing Protocol

Brief your personnel using the IRPG checklist prior to engagement.

Re-brief anytime your plan changes, unexpected changes compromise the plan or your safety, or anytime essential information becomes known and needs to be communicated.

Ask questions to be sure essential content is understood.

Thorough briefings are essential for success.

CHMT Team 10 Safety Office Frank Pingiczer, Chuck. Frank SOF2, Robert Hilfer, SOF2(T)

Instructions for Submitting Electronic Documents to Finance Section

When submitting electronic documents to the Finance Section it is very important to follow the below file naming convention, either by uploading to the File Hub or via email, to help ensure that your document gets to the correct person for proper processing.

When submitting by email, send to: 2020.loyalton.finance@firenet.gov

When submitting via upload to the File Hub:

- 1. Connect to Incident Data XX WIFI
 - a. Each file hub is named "Incident Data" plus a number (XX)
- 2. Browse to Incident Data webpage: http://incidentdata or scan QR code
- 3. Click "Upload Incident Data" button
- 4. Browse to file
- 5. Select to upload
- 6. Click "Upload File" button

Human Resource Message

Employee Advocate

Everyone here today is playing a critical role in fighting the Loyalton fire. We all have our assignments that must be met in order to achieve our mission of protecting life, resources and property. Of course, we cannot accomplish our mission when one of our fellow team members may be experiencing a work and/or personal matter that is impacting their ability to keep focused and remain positive.

If we witness a team member who is having a rough go at it, become their advocate. Ask them how things are going. See if they want to take a break to talk about what's going on. Give them the opportunity to vent and to share with you their concern. You may be the person that brings them back to where we need them to be to help meet our objectives.

Ryan Voelkl - HRSP: 530-457-7276
