INCIDENT ACTION PLAN

CA-SHF-002066
0514P5J0HR

TUESDAY-8/11/15, 0700-1900

TUESDAY-WEDNESDAY
8/11/15 1900-8/12/15 0700

Scan for an electronic copy of the IAP

INCIDENT OBJECTIVES	1. INCIDENT NAME River Complex	2. DATE 8/10/2015	3. TIME 2200																
4. OPERATIONAL PERIOD (DATE/TIME) Day Shift 8/11/2015, 0700-1900; Night Shift 8/11-12/2015, 1900-0700																			
5. GENERAL CONTROL OBJECTIVES <u>Incident Strategy</u> <p>The suppression strategy for the River Complex will utilize a combination of direct, indirect and point protection. A key element of the plan is flexibility and the ability to apply the right resource, to the right task, at the right time, for the right duration. It is understood fireline will be constructed only where it is feasible and safe to do so. It is the responsibility of the Incident Commander and their Staff to work with the Agency Administrator to ensure the plan is regularly reviewed and updated.</p> <u>Leader's Expectations</u> <ul style="list-style-type: none"> • Provide the highest level of customer services to all involved with or impacted by the River Complex. All incident assigned personnel should be prepared to take the appropriate actions regarding: <ul style="list-style-type: none"> • Personal interactions both internal and external to the incident management organization • Personal safety and the safety of others • An incident-within-an-incident <u>Management Objectives:</u> <ul style="list-style-type: none"> • Provide for firefighter and public safety by ensuring LCES is evaluated and by utilizing sound Risk Management Principles. • Maintain and build on Cooperator, Partner, and Stakeholder relationships. • Suppress the Complex at the smallest size, while not exposing firefighters or aircraft to unnecessary risk. • In Wilderness, favor indirect attack by using natural barriers, topography and watercourses, and low impact, "light hand" suppression techniques. <u>Control Objectives:</u> <ul style="list-style-type: none"> • Protect life and property in the communities of Denny, Bell Flat, Hoboken, Dailey, and Trinity from the impacts of unwanted wildfire. • Scout western side of Complex for access and implement suppression actions to minimize spread of fire toward the Community of Hoopa. • Develop and implement structure defense plan for the Trinity Village/Hawkins Bar area. 																			
7. WEATHER FORECAST FOR OPERATIONAL PERIOD ...RED FLAG WARNING for Southerly ridge gusts 20-30 mph until 8 pm... Highs 75-85. Min Humidity 28-38% Winds (20 ft) Southwest 8-15 mph gusts 20-30 mph.																			
8. GENERAL SAFETY MESSAGE During extreme fire behavior, review throughout the shift, pay close attention to weather, fire behavior and continue spot weather observations.

River Complex Fire Weather Forecast

FORECAST NO: 9

NAME OF FIRE: River Complex

PREDICTION FOR: Tuesday Aug 11th

UNIT: SHF/SRF

SHIFT DATE: 0700 Tue-0700 Wed

SIGNED: Ryan Walbrun

TIME AND DATE

Incident Meteorologist

FORECAST ISSUED: 2100 Mon Aug 10th

...RED FLAG WARNING IN EFFECT THROUGH 8 PM TUESDAY...

WEATHER DISCUSSION: Upper low off the coast will get closer to the River Complex and allow stronger southerly winds aloft to continue today. Please don't let your guard down or get complacent just because you aren't seeing strong winds on your division. The winds are aloft...above 5000 feet but will have the potential to mix down to the ridgelines this afternoon during any periods of active fire. The strong winds will help to ventilate the fire and mix the inversion by midday. Skies will be partly cloudy which will inhibit some of the mixing and wind potential. Temperatures may trend a few degrees cooler and humidity a few points higher as the upper low approaches. Red Flag continues through 8 pm...then the southerly winds aloft will only slowly ease overnight as humidity values recover.

WEATHER FORECAST Tuesday:

WEATHER: Smoke through midday...otherwise partly cloudy. Becoming breezy on the ridges.

HIGH TEMPERATURES: 84-89 lower portions of Branch I along Denny Road. 71-76 at 5000 feet.

HUMIDITY: 25-35% lower elevations in the inversion. 30-40% above 4000 feet.

20 FT WINDS:

RIDGETOP - Light Southerly through 1100...then South/Southeast 8-15 mph gusts 20-30 mph.

SLOPE/VALLEY - Light til 1100 then afternoon upcanyon 4-8 mph gusts 12-15 mph.

HAINES INDEX: 5...unstable after 3 pm. **INVERSION:** Moderate inversion through midday.

WEATHER FORECAST For Tuesday Night:

WEATHER: Smoke settling over the fire. Breezy on the ridges until sunset.

TEMPERATURES: 53-57

HUMIDITY: Moderate to good recovery. 80% lower slopes and 50-60% upper slopes.

20 FT WINDS:

RIDGETOP - Southerly 8-15 mph some gusts to 25 mph in the evening.
Be aware of strong winds aloft that could mix down if fire is active.

SLOPE/VALLEY - Southerly 3-7 mph some gusts to 10-12 mph possible along Denny Road.

EXTENDED FORECAST: Upper low will still be along the coast Weds with south/southeast ridgetop winds gusting 15-20 mph. Slightly cooler with highs 72-82 and minimum humidity 30-40%. Low moves inland over Oregon on Thursday with Southwest winds returning. Warming trend into the weekend with light North and diurnal winds.

Extra Information: Portable RAWS freq 163.350 Trinity Village: Tone 0020 Iron Mtn: 0019 Lone pine: 0021

FIRE BEHAVIOR FORECAST

FORECAST NO. 10

PREDICTION FOR: 8/11/15 24hr.

NAME OF FIRE: River Cmplx

UNIT: CA-SHF 2066

SIGNED: /s/ Dennis Burns

DATE & TIME ISSUED: 08/10 2200 hr

FIRE BEHAVIOR ANALYST

WEATHER SUMMARY: RED FLAG WARNING for Strong Winds until 2000hrs

Winds: Day, Ridges SW 8-15mph Gusts 30mph. Drainages Upslope 3-5mph.

Min. RH: Day 25-35% Night 50-60%

Temperatures: Day 78-88. Night 55-60

LAL 1 Pig70-80% ERC 63 90th percentile BI 56 Haines 5

FIRE BEHAVIOR FORECAST

GENERAL FIRE BEHAVIOR:

Again there is a potential for extreme fire behavior. With forecasted winds expect group tree torching to occur with short crown runs on aligned slopes and drainages with continuous timber. The fire will be wind & topography driven. Falling snags will challenge containment lines and will increase the potential for fire spread over barriers that would normally hold the fire. Rates of spread will be from 1 to 16 chains per hour with flame lengths 1-11 feet in the timber.

Primary spotting will be from rolling material and lofting brands.

Expect the fires to remain active most of the night until the inversion sets in.

Specific:

Branch I: Expect surface fire burning in the heavier fuels. If winds surface fire will transition into the crowns. Expect group tree torching. Fire progression will continue to the Northeast. Expect mainly active backing fire along the west flank. Intense runs probable in aligned drainages. Roll out and falling snags will challenge established line.

If fire crosses the 7N04 Rd. it will be backing fire. Rolling material will challenge the 7N04.

Branch II: Expect flanking fire in heavy fuels and surface litter. Single and group tree torching will continue. Spot fires will continue from rolling material. NE flank of the fire will continue flanking the ridges above Denny.

Fire to the SE around Big Mt. will continue to spread laterally along the drainages and on the slope below Iron Mt..

The fire is not expected to impact crews working on structure prep along the 299 corridor or in Denny. The fire that has crossed Quimby Creek has the potential to impact the Miller Ranch as active backing fire.

Air Operations: Inversion should clear by 1200 to allow for air ops.

Safety:

Pay attention to thresholds for extreme fire behavior: Winds over 10mph, Steep Slopes and trees torching. Review IRPG Pages 3-4.

River Complex Safety Message

August 11, 2015

Operational Period: Day/Night

Back to Basics

Extreme Fire Behavior:

Safety Zones:

- Review severe fire behavior potential related to relative humidity and fuel moisture content and the fire behavior hauling chart. IRPG pg 68, 69.
- Continue to monitor fire behavior, fire weather and record frequent on scene weather observations looking for trends.
- Make sure your safety zone complies with IRPG specs found in IRPG pg. 8.
- Reassess your escape route to the safety zone.
- LCES must be established and known to ALL fire fighters BEFORE it is needed.

THINK L.C.E.S. (refer to I.R.P.G. pg. 7)

Human Resource Message
August 11, 2015

What is **motivation**? **Motivation** is the drive that encourages action or feeling. To **motivate** means to encourage and inspire. **Motivation** can also mean igniting the spark for action. **Motivation** is a powerful force. It can persuade, convince and propel you into action. It can be defined as **motive** for action. It is a driving force in our lives and comes from the desire to **succeed**. The greatest enemy of motivation is complacency. Complacency leads to lack of effort and thus a lack of **success**.

Now is the time to keep your eyes wide open for symptoms of complacency. Now is the time to stay **motivated**. Now is the time to recognize the **success** that has been achieved and strive for more.

“Do not let what you cannot do interfere with what you can do.” -John Wooden-

Cyndie Genzmer, Human Resources Specialist

***TRAINING SPECIALIST
MESSAGE***

A Training Specialist is now on the incident.

***ALL ASSIGNED
TRAINEES***

working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

The Training Specialist is Available at 0630

Location: Main Street Next to SITL

TRAINING SPECIALIST

Rob Scott
