INCIDENT OBJECTIVES	1. INCIDENT NAME River Complex	2. DATE 8/19/2015	3. TIME 2200																
4. OPERATIONAL PERIOD (DATE/TIME) Day Shift 8/19/2015, 0600-2100; Night Shift 8/19-20/2015, 1800-0900																			
5. GENERAL CONTROL OBJECTIVES <u>Incident Strategy</u> The suppression strategy for the River Complex will utilize a combination of direct, indirect and point protection. A key element of the plan is flexibility and the ability to apply the right resource, to the right task, at the right time, for the right duration. It is understood fireline will be constructed only where it is feasible and safe to do so and when there is a high probability of meeting incident objectives. It is the responsibility of the Incident Commander and their Staff to work with the Agency Administrator to ensure the plan is regularly reviewed and updated. <u>Leader's Expectations:</u> Provide the highest level of customer services to all involved with or impacted by the River Complex. All incident assigned personnel should be prepared to take the appropriate actions regarding; <ul style="list-style-type: none"> • Personal interactions both internal and external to the incident management organization. • Personal safety and the safety of others. • An incident-within-an-incident. <u>Management Objectives:</u> <ul style="list-style-type: none"> • Provide for firefighter and public safety by ensuring LCES is evaluated and by utilizing sound Risk Management Principles. • Maintain and build on Cooperator, Partner, and Stakeholder relationships. • Choose strategy and tactics that limit exposing firefighters or aircraft to unnecessary risk. • In Wilderness, where possible utilize natural barriers, topography and watercourses along with suppression techniques that have the least impact on Wilderness values. <u>Control Objectives:</u> <ul style="list-style-type: none"> • Protect life and property in the communities of Denny, Bell Ranch, Hoboken, Trinity Village, Hawkins Bar, Dailey and the Highway 299 corridor from the impacts of unwanted wildfire. • Protect life, property resources and cultural values on or near the Hoopa Valley Indian Reservation.

River Complex Fire Weather Forecast

FORECAST NO: 18

NAME OF FIRE: River Complex

PREDICTION FOR: Wednesday Aug 19th

UNIT: SHF/SRF

SHIFT DATE: 0600 Wed-0600 Thu

SIGNED: Brooke Taber

TIME AND DATE

Incident Meteorologist

FORECAST ISSUED: 2100 Tue Aug 18th

WEATHER DISCUSSION:

A strong ridge of high pressure will continue today across the River Complex with light terrain driven winds and a strong inversion persisting, especially in the deeper valleys. Areas of thick smoke will continue, especially below 3500 feet with slightly cooler temperatures and higher relative humidity values. Dry conditions will result in minimum afternoon relative humidity values in the mid-teens to mid-20s, with the lowest values near the ridgetops. Ridgetop winds will be southeast at 4 to 8 mph, becoming northwest after 1300. Once again, a midslope thermal belt will develop on Wednesday night with mild temperatures and low relative humidity values in the upper slopes and ridgetops. Good recoveries are expected in the deeper valleys.

WEATHER FORECAST Wednesday:

WEATHER: Areas of heavy smoke.

HIGH TEMPERATURES: 84-89 valleys. 83-88 ridgetops.

HUMIDITY: 24-30% elevations below 2000 feet. 16-22% in areas of smoke above 3000 feet.

20 FT WINDS:

RIDGETOP – Southeast winds 4 to 8 mph, becoming northwest after 1300.

SLOPE/VALLEY - Light until 1200 then up-canyon 3-6 mph with localized gusts to 8 mph.

HAINES INDEX: 4. **INVERSION:** Strong inversion holds.

WEATHER FORECAST For Wednesday Night:

WEATHER: Areas of heavy smoke.

TEMPERATURES: 59 to 64

HUMIDITY: Poor recover relative humidity recoveries 18 to 25% in upper slopes and ridgetops. 78 to 88% lower slopes/valleys.

20 FT WINDS:

RIDGETOP - Northwest winds 4 to 8 mph becoming northeast 5 to 10 mph with gusts to 15 mph after midnight.

SLOPE/VALLEY - Evening down-canyon winds 2 to 5 mph.

EXTENDED FORECAST: A trough passage on Thursday will produce an onshore flow with slightly cooler temperatures and some weak instability in the upper slopes and ridgetops after 1400. Northeast winds will become northwest at 8 to 12 mph on the ridgetops after 1400 with a few higher gusts up to 15 mph in the aligned northwest to southeast upper slopes. Relative humidity values will remain very low, especially ridgetops on Thursday afternoon, with temperatures in the 80s. If enough mixing of the winds aloft occurs, the inversion may break after 1500. Otherwise, areas of thick smoke with poor visibilities will prevail, especially in the deeper valleys. Similar conditions can be expected on Friday.

FIRE BEHAVIOR FORECAST

PREDICTION FOR: 8/19/15 24hr.

FORECAST NO. 18

NAME OF FIRE: River Complex

SIGNED: /s/ Nick Yturri

UNIT: CA-SHF 2066

FIRE BEHAVIOR ANALYST

DATE & TIME ISSUED: 08/18 2100 hr

WEATHER SUMMARY: Warm and Dry

Winds: Day, Ridges SE 4-8 mph becoming NW after 1300.

Slopes/Valley: Light until 1200, then up-canyon 3-6 mph gusts to 8 mph

Night: Ridges-NW 4-8 mph, then NE 5-10 w/gusts to 15 after midnight.

Slopes-Evening down canyon 2-5 mph

Min. RH: Day 24-30% low elevations, 16-22% in inversion high elevation.

Night 18-25% Midslope/Ridges. 78-88% lower slopes/valleys

Temperatures: Day 84-89 Valleys 83-88 Ridgetops. Night 59-64

LAL 1 Pig 80-90% ERC 71 96th percentile BI 60 Haines 4

FIRE BEHAVIOR FORECAST

GENERAL FIRE BEHAVIOR:

Smoke should linger over the fire for most of the day, but a thermal belt developing midslope overnight may lead to an increase in fire activity earlier in the shift. Primary fire spread will be where fuels & topography align which could lead to single/group tree torching. Rates of spread will be from 1 to 9 chains per hour with flame lengths 1-9 feet in the timber. Most of the active areas of the fire are in a backing alignment. With warmer and dryer temperatures, the fire could remain active later into the night, especially with the development of the thermal belt. **Falling snags and rollout will challenge containment lines and will increase the potential for fire spread over barriers that would normally hold the fire.**

Specific:

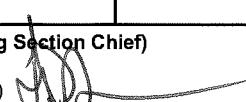

Branch I: Expect surface fire burning in the heavier fuels in DIV L. Single and group tree torching may occur with moderate rates of spread when aligned..

Branch II&III: Expect flanking fire in heavy fuels and surface litter. Single and group tree torching will continue. NE flank of the fire will continue to be active throughout the day and into the night. Fire to the SE will continue to spread laterally along the drainages and on the slope below Iron Mountain. The fire will continue to impact the 5N04 Rd and progress towards the wilderness boundary. The Hwy 299 corridor is still threatened as the N518 road continues to be challenged. The fire is not expected to impact crews working on structure prep along the 299 corridor or in Denny. The fire is burning north of the Miller Ranch and will continue to actively back towards the ranches.

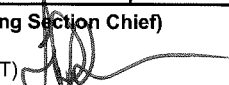

Air Operations: Strong inversion will shut down air operations.

Safety: Watch out for rolling debris in steep terrain that could ignite spot fires below. Post lookouts to ensure safety.

INCIDENT SAFETY ANALYSIS 215a

River Complex CA-SHF-002066 - Wednesday, August 19, 2015

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All	Driving & Traffic	<ul style="list-style-type: none"> ~ Practice "Defensive Driving" techniques traveling on all roads. ~ Use spotters when backing. ~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts. ~ Use chock blocks, turn wheels into hill. ~ Avoid distractions (eating, cell phones, radio). ~ Follow Speed Limit of 5mph in ICP area ~ Be Aware of road construction areas ~ Watch for rolling material in fire areas ~ Maintain awareness of road stability & condition
All	Hazard Trees	<ul style="list-style-type: none"> ~ Follow "Hazard Tree Safety" guidelines, IRPG page 22. ~ Post lookouts, or use a spotter in mop-up areas with personnel. ~ Don't park vehicles or take breaks in high concentrations of hazard trees. ~ Establish trigger points for disengagement during high wind events. ~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights.
Div L, Q, T, W	Heavy Equipment Operations	<ul style="list-style-type: none"> ~ Ensure communications are established with operators use hand signals if needed. ~ Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. ~ Avoid working below heavy equipment.
All	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> ~ Maintain 8'-10' spacing when working & walking. ~ Lookout for rolling rocks, debris, or burning material. ~ Evaluate necessity to send personnel in areas with limited access. ~ Post lookouts (IRPG pg 6).
All	Chain Saw Operations	<ul style="list-style-type: none"> ~ Only fell and buck trees within your expertise, and training. ~ Follow "Procedural Felling Operations" on page 79 in IRPG. ~ Do not fall trees during high wind events. ~ Ensure proper use of all required PPE.
Night Group	Night Operations	<ul style="list-style-type: none"> ~ Maintain high visibility in work area and wear vest while in roadway. ~ Use glow sticks to mark hazards. ~ Ensure personnel have a personal light (headlamp). ~ Watch for signs of fatigue.
Div L, Q, T,W	Indirect Fireline	<ul style="list-style-type: none"> ~ Post lookouts, identify escape routes and safety zones (IRPG pg. 6). ~ Review "Strategy/Indirect Attack" (IRPG pg. 87).
All	Firefighter & Public Smoke Exposure	<ul style="list-style-type: none"> ~ Use warning lights and provide traffic control on roadways during smoky and night operations. ~ Rotate crews out of smoky areas
All	Air Operations	<ul style="list-style-type: none"> ~ Follow " Aviation Watch-Out Situations" on page 44, IRPG. ~ Don't plan on air resources for medical transport or resupply. ~ Refer to page 57, IRPG for directing bucket drops. ~ Ensure positive communication with all air resources.
All	Poisonous Plants	<ul style="list-style-type: none"> ~ Identify and Avoid hazard areas. ~ Launder clothing. ~ Shower frequently.
All, ICP	Heat Related Illness (HRI)& Dehydration	<ul style="list-style-type: none"> ~ Drink Fluids throughout operational period (6-8 qts/shift). Water/electrolyte ratio of 3 to 1. ~ Take Frequent breaks, 10 minutes every hour. ~ Allow out of area resources time to acclimatize ~ Recognize symptoms of HEAT RELATED ILLNESS
All	Marijuana cultivation & processing sites	<ul style="list-style-type: none"> ~ Avoid contact with persons, plants & materials ~ Immediately leave area ~ Notify supervisor & resources of location

Ed B... 5041

HEALTH AND SAFETY MESSAGE

SAFETY starts with YOU PREDICTABLE IS PREVENTABLE

For Day/Night Operations: August 19, 2015

INCIDENT: **River Complex**

DATE: August 18, 2015

TIME: 2000

Major Hazards and Risks:

- **DRIVING:** Drive defensively, Be aware of unstable & hazardous road conditions, Be alert and watch for public and other non-operational personnel in fire areas
- **HAZARD TREES:** Look up, Look down, Look around for signs of fire weakened trees
- **STEEP & RUGGED TERRAIN** – Be aware not to work above persons and rolling material
- **HEAVY EQUIPMENT** – Avoid working below equipment, maintain a safe distance from equipment

Fire Order of the Day:

Identify escape routes & safety zones, make them know (#4)

- Is your escape route free of trip hazards, debris, obstacles?
- Your Safety Zone is a place you can survive without the use of a shelter.
- Flag escape routes and brief your crews.

Signs & Symptoms of Heat Illness

Heat Exhaustion

- Heavy sweating
- Weakness
- Cold, pale, and clammy skin
- Fast, weak pulse
- Nausea or vomiting
- Fainting

Heat Stroke

- Hot, red, dry or moist skin
- Rapid and strong pulse
- Possible unconsciousness

Poison Oak

Remember:

Leaves of three....Let it be!!
Berries white.....Poison site!!!

If you come in contact:

- Wash affected area ASAP
- Change clothes and have dirty clothes laundered.
- See Medical for assistance

Thanks from your Safety Team!!

Laney Cutshaw

A handwritten signature in black ink, appearing to read 'Ed Breece', followed by the initials 'SDF' in a stylized, slanted font.

CHAINSAW SAFETY

Felling Safety Category

Chainsaw safety is every saw operator's job.

- Always wear proper P.P.E. when handling or working around chainsaws.
 - Eye protection- approved goggles or safety glasses (no sunglasses)
 - Chainsaw Chaps- proper size and length
 - Gloves-proper size
 - Long sleeve shirt-no loose sleeves
 - Leather boots-no loose boot laces
- Take the time to inspect the chainsaw before operating the saw.
 - Check the chain and bar- Sharpness of chain, Bar seated correctly
 - Check the bolts and screws all around the saw- no missing screws or bolts
 - Check the casing of the saw- no cracked or missing plastic
- Make sure you're aware of your surroundings while operating the chainsaw.
 - Check the chain and bar- Sharpness of chain, Bar seated correctly
 - Check the bolts and screws all around the saw- no missing screws or bolts
 - Check the casing of the saw- no cracked or missing plastic
- Make sure you're aware of your surroundings while operating the chainsaw.
 - Look for people working in your area- advise all personnel you're operating the saw.
 - Look for any snags or hazards in your area- look up for power lines, widow makers, etc.
 - Make sure you always have a spotter or swamper to use for communications.
 - Always watch your footing while operating the saw- loose, rocky, steep terrain can cause you to slip while the chainsaw is running.
- Always make sure you are comfortable doing the task at hand.
 - Proper training for personnel running saws.
 - While falling trees know your escape route.
 - If you are not comfortable falling the tree walk away. Notify your supervisor and mitigate the safety issues or turn down the assignment.

Have an idea? Have feedback? Share it.

ICS 206	9. PREPARED BY (MEDICAL UNIT LEADER) Bruce Hicks 	10. REVIEWED BY (SAFETY OFFICER)  50F107
---------	--	---

MEDICAL PLAN (ICS 206 WF)

Use items one through nine to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS/DISPATCH

Ex: "Communications, Div. Alpha. Stand-by for Priority Medical Incident Report." (If life threatening request designated frequency be cleared for emergency traffic.)

2. INCIDENT STATUS: Provide incident summary and command structure.

Nature of Injury/Illness		<i>Describe the injury (Ex: Broken leg with bleeding)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
Incident Commander		<i>Name of IC</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient. This is only a brief, initial assessment. Provide additional patient info after completing this 9 Line Report.

Number of Patients:	Male / Female	Age:	Weight:
Conscious? <input type="checkbox"/> YES <input type="checkbox"/> NO = MEDEVAC!			
Breathing? <input type="checkbox"/> YES <input type="checkbox"/> NO = MEDEVAC!			
Mechanism of Injury: <i>What caused the injury?</i>			
Lat/Long (Datum WGS84) <i>Ex: N 40° 42.45' x W 123° 03.24'</i>			

4. SEVERITY OF EMERGENCY, TRANSPORT PRIORITY

SEVERITY	TRANSPORT PRIORITY
<input type="checkbox"/> URGENT-RED Life threatening injury or illness. <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>	Ambulance or MEDEVAC helicopter. Evacuation need is IMMEDIATE .
<input type="checkbox"/> PRIORITY-YELLOW Serious Injury or illness. <i>Ex: Significant trauma, not able to walk, 2° - 3° burns not more than 1-2 palm sizes.</i>	Ambulance or consider air transport if at remote location. Evacuation may be DELAYED .
<input type="checkbox"/> ROUTINE-GREEN Not a life threatening injury or illness. <i>Ex: Sprains, strains, minor heat-related illness.</i>	Non-Emergency. Evacuation considered Routine of Convenience .

5. TRANSPORT PLAN:

Air Transport: (Agency Aircraft Preferred)

<input type="checkbox"/> Helispot	<input type="checkbox"/> Short-haul/Hoist	<input type="checkbox"/> Life Flight	<input type="checkbox"/> Other
Ground Transport:			
<input type="checkbox"/> Self-Extract	<input type="checkbox"/> Carry-Out	<input type="checkbox"/> Ambulance	<input type="checkbox"/> Other

6. ADDITIONAL RESOURCE/EQUIPMENT NEEDS:

<input type="checkbox"/> Paramedic/EMT(s)	<input type="checkbox"/> Crew(s)	<input type="checkbox"/> SKED/Backboard/C-Collar
<input type="checkbox"/> Burn Sheet(s)	<input type="checkbox"/> Oxygen	<input type="checkbox"/> Trauma Bag
<input type="checkbox"/> Medication(s)	<input type="checkbox"/> IV/Fluid(s)	<input type="checkbox"/> Cardiac Monitor/AED
<input type="checkbox"/> Other (i.e. splints, rope rescue, wheeled litter)		

7. COMMUNICATIONS:

Function	Channel Name/Number	Receive (Rx)	Tone/NAC *	Transmit (Tx)	Tone/NAC *
<i>Ex: Command</i>	<i>Forest Rpt, Ch. 2</i>	<i>168.3250</i>	<i>110.9</i>	<i>171.4325</i>	<i>110.9</i>
COMMAND					
AIR-TO-GRND					
TACTICAL					

*(NAC for digital radio system)

8. EVACUATION LOCATION:

Lat/Long (Datum WGS84) <i>EX: N 40 42.45' x W 123 03.24'</i>	
Patient's ETA to Evacuation Location:	
Helispot/Extraction Size and Hazards:	

9. CONTINGENCY:

Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead...

REMEMBER: Confirm ETA's of resources ordered
Act according to your level of training
Be Alert. Keep Calm. Think Clearly. Act Decisively.

Training Message

A special thanks to all the Trainers and everyone else who continue to help make this a valuable learning experience for our trainees. At last count we have identified over 100 trainees who have worked on this incident. So far more than 20 trainees have been recommended for certification.

Trainees and Trainers -- when demobing

Please remember to check out with the Training Specialist (in with Check-In) prior to being demobed to complete the paperwork and discuss the training assignment.

- Trainers need to fill out the relevant parts of the task book and discuss the assignment with the trainees.
- Trainers will also need to do an Incident Personnel Performance Rating (I have some) and discuss this with the trainee.

If you do all this, the rest will take just a few minutes. Stop by the evening before and avoid the rush.

Don Washco 623-695-6487

A Message from Finance

Federal Employees: The end of the pay period is coming up on Saturday. If you need time faxed or emailed, please note on your CTR the phone number, the email address, and the contact name.

Hazard pay must be documented on the crew time report. “Uncontrolled Fire Line” alone is not adequate documentation. The action must be documented, such as “Fighting Fire on an uncontrolled fire”. Please contact Personnel Time if you have any questions.

HUMAN RESOURCE MESSAGE

perseverance [,pɜrsə'vi(ə)rəns]
noun: perseverance

steady persistence in a course of action, a purpose, despite difficulty or delay in achieving success

synonyms: persistence, tenacity, determination, staying power

Karen Hartman and Karen Mora,
Human Resources - 530-629-2010

DOCUMENTATION!!!

This team follows the national filing system for retention of incident records. The documentation represents the work of the team, as well as all other resources. As Documentation Unit Leader, I am busy, initially, setting up the file boxes and handing out labeled file folders to the different units. After that, I am “that little ol’ lady that sits around doin’ nothin’ “. Then, suddenly, the team has timed out and my job becomes very chaotic as most files come in all at once. Many of you have already changed out of your nomex and are sipping a cold one, while I am frantically filing hundreds of documents in their proper order, as the last yurt is broken down around me. It would be a big help to have as many documents as possible turned in early. This would include 213s, 214s (Unit Logs), and performance evaluations, as well as anything else you are able to release to me.

I do not only file all evaluations, but I attempt to send a copy to the home units. This reflects well on the team and reinforces your value on the incident to your home unit. I do not have time to follow through with this at the end of the team rotation.

Thanks! CHARLOTTE DOCL

River Complex Social Media Policy

Your Images Are Powerful – Be Careful How You Use Them...

It is the policy of the Great Basin IMT2 to *allow* firefighters or other personnel to post information, photos, or videos about work-related activities on personal social media accounts or websites outside of work hours. **However**, firefighters should be mindful that posting work-related information or activities on their personal social media accounts or websites reflects on the professionalism of their crew, the team, and the wildland firefighting community.

Firefighters' lives often depend on their ability to be keenly aware of their surroundings and intensely focused on the tasks they are performing. **Activities that distract from firefighters' situational awareness threaten the safety of those directly involved, and also of others around them.** In addition, photographs, videos, and other information taken by firefighters could cause complications in the event of litigation regarding the fire. Any photos taken of accidents or injuries are for internal incident use only. They are not to be shared externally. This will also help to maintain the privacy of those involved.

With the ability to transmit information and images across the globe instantaneously, it has never been more important for firefighters to conduct themselves professionally. If a firefighter has a question about a specific photo taken on the incident that he or she wishes to post when off duty, please discuss it with Fire Information personnel. Remember, it is the responsibility of every firefighter to maintain the entire organization's reputation, regardless of agency or entity.

Firefighters that do capture photos, video or other media while working on the River Complex are encouraged to transfer this information to Fire Information for possible official use.

Ourada's Team Expectations

Safety is the Team's Number One Priority

Everyone is a safety officer—See It, Say It, and Fix It!

The Team is committed to identifying clear Task, Purpose, and End State that achieves the Agency Administrator's direction and objectives in a timely and cost effective manner.

The Team provides every person associated with the incident a safe, productive, and supportive work environment.

The Team operates in a transparent manner, facilitating open communication and dialogue up, down, and across the chain of command, with active listening and opportunity for discussion and collaboration.

Here are a few ways you can help the Team create an atmosphere of **Duty, Respect, and Integrity** as outlined in the Incident Response Pocket Guide (IRPG):

If you Need to Leave the Incident Environment when Off Duty:

Notify your supervisor of destination and estimated time of return in the event you are needed for duty prior to expected time.

Alcohol /Illegal Drugs / Fitness for Duty

Alcohol and illegal drugs are not permitted within the incident environment. Be ready, willing, and able to perform your duties. If you are unable to perform your duties, you may be released from the incident with the home unit or employer being notified of the circumstances.

Work Environment/Human Relations:

Conduct yourselves as professionals and maintain a positive, non-hostile work environment with mutual respect. Sexual harassment, discrimination, acts of reprisal or any inappropriate behavior that violates human rights, the provisions of equal employment opportunity (EEO), or ethics and conduct standards will not be tolerated. If you need clarification of these expectations, contact the Human Resource Specialist.

Your actions in the community outside of the incident environment must also conform to these standards while assigned to this incident. Your integrity is shown by obeying the law and following local rules and ordinances. Non-compliance with these expectations could result in your being released from the incident with the home unit or employer being notified of the circumstances.

Work / Rest Guidelines:

Any shift times over 16 hours require written justification and approval by the appropriate Section Chief on the Crew Time Report, and will be reviewed by the Incident Commander.

Performance Evaluations:

Performance Evaluations will be completed for all trainees and contractors (including ADs). Any unsatisfactory performance will be documented on an evaluation. It is your responsibility to ensure that your supervisor has completed an evaluation.

Use of Social Media on Wildland Fire Assignments:

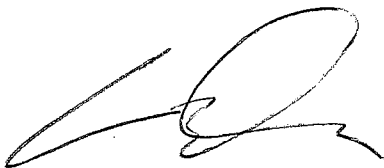

Firefighters and Incident Management Team (IMT) members should be aware that existing agency-specific ethics and conduct regulations and restrictions governing the use of social media by federal employees on fire assignments apply.

Only authorized employees designated by the hosting unit may represent the government on public social media websites. If you choose to post to a social media website you should have a disclaimer that clearly states the views or opinions that you express are yours alone and do not represent the views of your agency or the IMT.

However, anything that you do post regarding wildland firefighting and the agency you work for reflects on that agency, the IMT you are assigned to and all wildland firefighters.

Social media sites are regularly monitored by federal agencies and employees may be held accountable for inappropriate conduct or ethics. When in doubt, don't post!

I hope you have a safe, productive and rewarding experience here. If you have any needs or concerns that cannot be addressed by my Command and General Staff, please feel free to visit with me.

Incident Operations Driving Guidelines

These guidelines document Great Basin Team 2's expectations for driving by personnel assigned to the River Complex. This includes driving while in support, mobilization, and demobilization to an assigned incident.

1. Agency resources assigned to an incident will adhere to the current agency work/rest policy for determining length of duty day.
2. No driver will drive more than 10 hours (behind the wheel) within any duty-day.
3. Multiple drivers in a single vehicle may drive up to the duty-day limitation provided no driver exceeds the individual driving (behind the wheel) time limitation of 10 hours.
4. To manage fatigue, every effort should be made to conduct mobilization and demobilization travel between 0500 hours and 2200 hours.
5. As stated in the current agency work/rest policy, documentation of mitigation measures used to reduce fatigue is required for drivers who exceed 16 hour work shifts. This is required regardless of whether the driver was still compliant with the 10 hour individual (behind the wheel) driving time limitations.
6. A driver shall drive only if they have had at least 8 consecutive hours off-duty before beginning a shift.
7. Drivers should wear seatbelts and operate with headlights on.
8. Utilize a spotter when backing a vehicle.
9. Practice Defensive Driving.

Drivers are responsible to follow these policies and it is the supervisor's responsibility to ensure that employees adhere to the proper driving limitations and monitor employee fatigue.

Great Basin Team 2

Great Basin Team 2 Evaluation

1. How would you rate the treatment you/or your crew received on this incident?
__ Excellent __ Good __ Fair __ Poor

Comments:

2. How well did the following items meet your needs?

	Excellent	Good	Fair	Poor
Food	_____	_____	_____	_____
Sleeping Area	_____	_____	_____	_____
Medical	_____	_____	_____	_____
Showers	_____	_____	_____	_____
Sanitation	_____	_____	_____	_____
Time Keeping	_____	_____	_____	_____
Supply	_____	_____	_____	_____
Transportation	_____	_____	_____	_____
Commissary	_____	_____	_____	_____

Comments:

3. How would you rate the suppression tactics used on this assignment?
__ Excellent __ Good __ Fair __ Poor

Comment:

4. How would you rate the knowledge level and performance of your line overhead?
__ Excellent __ Good __ Fair __ Poor

Comments:

5. How would you rate the team's attitude toward your safety?
__ Excellent __ Good __ Fair __ Poor

Comments:

6. Did anything really frustrate you about how this incident was managed? If so, what could this team do to concentrate on improving performance? __No__Yes Suggestions:
What could we do better?

7. On a scale of 1 to 10, with 10 being best, how would you rate the overall job this team did on the incident?

1___ 2___ 3___ 4___ 5___ 6___ 7___ 8___ 9___ 10___

What could we do better?
