

# *River Complex*

## INCIDENT ACTION PLAN

CA-SHF-002066

0514P5J0HR

### Planning Schedule

0600 Day Operational Briefing

1700 Tactical Meeting

1800 Night Operational Briefing

1900 Planning Meeting

**DAY**

**Thursday 8/20/15, 0600-2100**

**NIGHT**

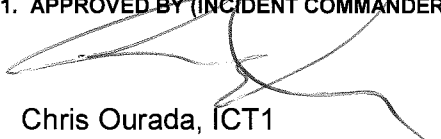

**Thursday - Friday**

**8/20/15, 1800-8/21/15, 0900**

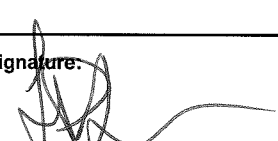

This incident is using  
NAD83  
DD° MM.MM

IAP QR CODE

<b>INCIDENT OBJECTIVES</b>	<b>1. INCIDENT NAME</b> River Complex	<b>2. DATE</b> 8/19/2015	<b>3. TIME</b> 2200																
<b>4. OPERATIONAL PERIOD (DATE/TIME)</b> Day Shift....8/20/2015, 0600-2100; Night Shift.... 8/20-21, 1800-0900																			
<b>5. GENERAL CONTROL OBJECTIVES</b>  <u><b>Incident Strategy</b></u> <p>The suppression strategy for the River Complex will utilize a combination of direct, indirect and point protection. A key element of the plan is flexibility and the ability to apply the right resource, to the right task, at the right time, for the right duration. It is understood fireline will be constructed only where it is feasible and safe to do so and when there is a high probability of meeting incident objectives. It is the responsibility of the Incident Commander and their Staff to work with the Agency Administrator to ensure the plan is regularly reviewed and updated.</p> <u><b>Leader's Expectations:</b></u> <p>Provide the highest level of customer services to all involved with or impacted by the River Complex. All incident assigned personnel should be prepared to take the appropriate actions regarding;</p> <ul style="list-style-type: none"> <li>• Personal interactions both internal and external to the incident management organization.</li> <li>• Personal safety and the safety of others.</li> <li>• An incident-within-an-incident.</li> </ul> <u><b>Management Objectives:</b></u> <ul style="list-style-type: none"> <li>• Provide for firefighter and public safety by ensuring LCES is evaluated and by utilizing sound Risk Management Principles.</li> <li>• Maintain and build on Cooperator, Partner, and Stakeholder relationships.</li> <li>• Choose strategy and tactics that limit exposing firefighters or aircraft to unnecessary risk.</li> <li>• In Wilderness, where possible utilize natural barriers, topography and watercourses along with suppression techniques that have the least impact on Wilderness values.</li> </ul> <u><b>Control Objectives:</b></u> <ul style="list-style-type: none"> <li>• Protect life and property in the communities of Denny, Bell Ranch, Hoboken, Trinity Village, Hawkins Bar, Dailey and the Highway 299 corridor from the impacts of unwanted wildfire.</li> <li>• Protect life, property resources and cultural values on or near the Hoopa Valley Indian Reservation.</li> </ul>

# River Complex Fire Weather Forecast

**FORECAST NO:** 19

**NAME OF FIRE:** River Complex

**PREDICTION FOR:** Thursday Aug 20th

**UNIT:** SHF/SRF

**SHIFT DATE:** 0600 Thu-0600 Fri

**SIGNED:** Brooke Taber

**TIME AND DATE**

**Incident Meteorologist**

**FORECAST ISSUED:** 2100 Tue Aug 19th

**WEATHER DISCUSSION:**

A weak trough of low pressure will approach the River Complex by late this evening, which will increase the onshore flow and provide the region with slightly cooler temperatures. However, a ribbon of very dry air ahead of this system will produce very low relative humidity values on the ridgetops above 4000 feet between 1 PM and 8 PM, with values ranging from 15% to 22%. In addition, winds will become northwest after 1400 at 5 to 10 mph with a few gust up to 15 mph in the aligned northwest to southeast upper slopes and ridgetops. The inversion will hold strong in the deeper valleys with light upslope terrain driven winds and areas of thick smoke. Based on inversion heights ridgetop elevations above 4000 feet should mix out of the smoke by 1400.

**WEATHER FORECAST Thursday:**

**WEATHER:** Areas of heavy smoke in the valleys, some clearing above 4000 feet after 1400.

**HIGH TEMPERATURES:** 78-83 valleys. 81-86 ridgetops.

**HUMIDITY:** 28-33% elevations below 2000 feet. 15-22% above 4000 feet.

**20 FT WINDS:**

**RIDGETOP** – Southeast winds 4 to 8 mph, becoming northwest 5 to 10 mph with gusts to 15 mph after 1400.

**SLOPE/VALLEY** - Light until 1200 then up-canyon 2-5 mph.

**HAINES INDEX:** 4. **INVERSION:** Strong inversion holds.

**WEATHER FORECAST For Thursday Night:**

**WEATHER:** Areas of heavy smoke.

**TEMPERATURES:** 55 to 60

**HUMIDITY:** Ridgetop relative humidity 40 to 50%. 85 to 95% lower slopes/valleys.

**20 FT WINDS:**

**RIDGETOP** - Northwest winds 4 to 8 mph with gusts to 12 mph until midnight becoming northeast 5 to 10 mph.

**SLOPE/VALLEY** - Evening down-canyon winds 2 to 5 mph.

**EXTENDED FORECAST:** A weak onshore flow Friday will produce slightly higher relative humidity values along with cooler temperatures. Expect the daily inversion to hold in the deeper valley locations through the end of the week with areas of smoke and light terrain driven winds. By Friday night an offshore flow will develop at ridgetop at 6 to 12 mph with a few gusts to 15 mph possible in the aligned upper slopes. This offshore flow will result in poor relative humidity recoveries overnight. Little change is expected going into the weekend, with a gradual warming trend and dry conditions prevailing.

**Extra Information:** Portable RAWS freq 163.350 Trinity Village: Tone 0020 Iron Mtn: 0019 Lone pine: 0021

## FIRE BEHAVIOR FORECAST

PREDICTION FOR: 8/20/15 24hr.

FORECAST NO. 19

NAME OF FIRE: River Complex

UNIT: CA-SHF 2066

DATE & TIME ISSUED: 08/19 2100 hr

SIGNED: /s/ Nick Yturri  
FIRE BEHAVIOR ANALYST

---

### WEATHER SUMMARY:

Winds: Day, Ridges SE 4-8 mph becoming NW 5-10 mph gusting 15 mph after 1400.

Slopes/Valley: Light until 1200, then up-canyon 2-5 mph.

Night: Ridges-NW 4-8 mph w/ gust to 12 mph, then NE 5-10 mph.

Slopes-Evening down canyon 2-5 mph

Min. RH: Day 28-33% low elevations, 15-22% in inversion high elevation.

Night 40-50% Midslope/Ridges. 85-95% lower slopes/valleys

Temperatures: Day 78-83 Valleys 81-86 Ridgetops. Night 55-60

LAL 1 Pig 80-90% ERC 72 97<sup>th</sup> percentile BI 62 Haines 4

## FIRE BEHAVIOR FORECAST

### GENERAL FIRE BEHAVIOR:

Smoke will be hang over the fire for the day with a weaker thermal belt in place midslope creating an environment that could produce slightly higher fire activity. Primary fire spread will be where fuels & topography align which could lead to single/group tree torching. Rates of spread will be from 1 to 9 chains per hour with flame lengths 1-9 feet in the timber. Most of the active areas of the fire are in a backing alignment. **Falling snags and rollout will challenge containment lines and will increase the potential for fire spread over barriers that would normally hold the fire.**

### Specific:

**Branch I:** Expect surface fire burning in the heavier fuels in DIV L with continued spread to the NW. Single and group tree torching may occur with moderate rates of spread when aligned.

**Branch II&III:** Expect flanking fire in heavy fuels and surface litter. Single and group tree torching will continue. NE flank of the fire will continue to be active throughout the day and into the night. Fire to the E/SE will continue to spread laterally along the drainages and on the slope below Iron Mountain. The fire will continue to impact the 5N04 Rd and progress towards the wilderness boundary. The fire is not expected to impact crews working on structure prep along the 299 corridor. Moderate fire in and around the Denny area will continue.

**Air Operations:** Strong inversion will shut down air operations.

### Safety:

#### COMPLACENCY

**A feeling of contentment or self-satisfaction, especially when coupled with an unawareness of danger, trouble, or controversy.**

*Just Say No!*

## INCIDENT SAFETY ANALYSIS 215a

River Complex CA-SHF-002066 - Thursday, August 20, 2015

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All	Driving & Traffic	<ul style="list-style-type: none"> <li>~ Practice "Defensive Driving" techniques traveling on all roads.</li> <li>~ Use spotters when backing.</li> <li>~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts.</li> <li>~ Use chock blocks, turn wheels into hill.</li> <li>~ Avoid distractions (eating, cell phones, radio).</li> <li>~ Follow Speed Limit of 5mph in ICP area</li> <li>~ Be Aware of road construction areas</li> <li>~ Watch for rolling material in fire areas</li> <li>~ Maintain awareness of road stability &amp; condition</li> </ul>
All	Hazard Trees	<ul style="list-style-type: none"> <li>~ Follow "Hazard Tree Safety" guidelines, IRPG page 22.</li> <li>~ Post lookouts, or use a spotter in mop-up areas with personnel.</li> <li>~ Don't park vehicles or take breaks in high concentrations of hazard trees.</li> <li>~ Establish trigger points for disengagement during high wind events.</li> <li>~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights.</li> </ul>
Div L, Q, T, W, M	Heavy Equipment Operations	<ul style="list-style-type: none"> <li>~ Ensure communications are established with operators use hand signals if needed.</li> <li>~ Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber.</li> <li>~ Avoid working below heavy equipment.</li> </ul>
All	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> <li>~ Maintain 8'-10' spacing when working &amp; walking.</li> <li>~ Lookout for rolling rocks, debris, or burning material.</li> <li>~ Evaluate necessity to send personnel in areas with limited access.</li> <li>~ Post lookouts (IRPG pg 6).</li> </ul>
All	Chain Saw Operations	<ul style="list-style-type: none"> <li>~ Only fell and buck trees within your expertise, and training.</li> <li>~ Follow "Procedural Felling Operations" on page 79 in IRPG.</li> <li>~ Do not fall trees during high wind events.</li> <li>~ Ensure proper use of all required PPE.</li> </ul>
Night Group	Night Operations	<ul style="list-style-type: none"> <li>~ Maintain high visibility in work area and wear vest while in roadway.</li> <li>~ Use glow sticks to mark hazards.</li> <li>~ Ensure personnel have a personal light (headlamp).</li> <li>~ Watch for signs of fatigue.</li> </ul>
Div L, Q, T, W, M	Indirect Fireline	<ul style="list-style-type: none"> <li>~ Post lookouts, identify escape routes and safety zones (IRPG pg. 6).</li> <li>~ Review "Strategy/Indirect Attack" (IRPG pg. 87).</li> </ul>
All	Firefighter & Public Smoke Exposure	<ul style="list-style-type: none"> <li>~ Use warning lights and provide traffic control on roadways during smoky and night operations.</li> <li>~ Rotate crews out of smoky areas</li> </ul>
All	Air Operations	<ul style="list-style-type: none"> <li>~ Follow " Aviation Watch-Out Situations" on page 44, IRPG.</li> <li>~ Don't plan on air resources for medical transport or resupply.</li> <li>~ Refer to page 57, IRPG for directing bucket drops.</li> <li>~ Ensure positive communication with all air resources.</li> </ul>
All	Poisonous Plants	<ul style="list-style-type: none"> <li>~ Identify and Avoid hazard areas.</li> <li>~ Launder clothing.</li> <li>~ Shower frequently.</li> </ul>
All, ICP	Heat Related Illness (HRI)& Dehydration	<ul style="list-style-type: none"> <li>~ Drink Fluids throughout operational period (6-8 qts/shift). Water/electrolyte ratio of 3 to 1.</li> <li>~ Take Frequent breaks, 10 minutes every hour.</li> <li>~ Allow out of area resources time to acclimatize</li> <li>~ Recognize symptoms of HEAT RELATED ILLNESS</li> </ul>
All	Marijuana cultivation & processing sites	<ul style="list-style-type: none"> <li>~ Avoid contact with persons, plants &amp; materials</li> <li>~ Immediately leave area</li> <li>~ Notify supervisor &amp; resources of location</li> </ul>

## HEALTH AND SAFETY MESSAGE

***SAFETY*** starts with ***YOU*** **PREDICTABLE IS PREVENTABLE**

For Day/Night Operations: August 20, 2015

INCIDENT: River Complex

DATE: August 19, 2015

TIME: 2000

### **Major Hazards and Risks:**

- **DRIVING:** Drive defensively, Be aware of unstable & hazardous road conditions, Be alert and watch for public and other non-operational personnel in fire areas
- **HAZARD TREES:** Look up, Look down, Look around for signs of fire weakened trees
- **STEEP & RUGGED TERRAIN** – Be aware not to work above persons and rolling material
- **HEAVY EQUIPMENT** – Avoid working below equipment, maintain a safe distance from equipment

### **Fire Order of the Day:**

**Keep informed on fire weather conditions and forecasts**

- Evaluate the forecasts provided in the IAP.
- Listen to IMET or FBAN on the radio for updates
- What are your spot weather forecasts telling you????.....

### **Situation Awareness**

- **Speak up if you see something that looks wrong!!!**
- **Get a good briefing prior to beginning task**
- **Ask if you don't understand!!!!**

**HELP BREAK THE “ERROR CHAIN”!!**

### **HAZARD TREE SAFETY**

#### **Hazard Tree Indicators:**

- Trees that have burned
- Shallow tree root systems
- Dead & broken top trees
- Leaning or hung up trees

**Need more?????**

**Check IRPG, page 22**

**Wildland Fire Lessons Learned Center**

### **Thanks from your Safety Team!!**

Laney Cutshaw  
Ed Breece  
Carson Jones  
Aaron Utterback

Lee Freeman  
Dan Mapstone  
Frank Pingiczer

# HAZARD MITIGATION THROUGH RISK MANAGEMENT

*Operational Engagement*

“Risk Management doesn’t get in the way of doing the mission – ***it is the way we do the mission.***”  
The Risk Management Process assists in ensuring that critical factors and risks of the fireline work environment are considered during decision making. Good risk management utilizes a five-step process:

## ● Step 1—Situational Awareness:

- Obtain information.
- Scout the fire.
- Identify hazards—those likely to result in a negative impact.
- Consider all aspects of current and future situations.
- Consider known historical problem areas (Apply information from the Fire Danger Pocket Card.).
- Recognize the need for action.
- Demonstrate ongoing awareness of fire assignment status.
- Note deviations.
- Attempt to determine why discrepancies exist with information before proceeding.

## ● Step 2—Hazard Assessment:

- Assess hazards to determine risks (e.g., fire behavior, snags, unburned fuels, work/rest).
- Use the Look Up, Down, and Around; and the Tactical Watch Outs (both located in the Incident Response Pocket Guide) to identify high-risk tactical hazards.
- Assess the impact of each hazard in terms of potential loss, cost, and mission/operational degradation based on probability and severity (probability—how likely an event will occur; severity—consequences if the event occurs). Keep in mind that increased exposure time increases probability.

## ● Step 3—Hazard Control:

- Determine the best approach to mitigate or control the risk from the hazards assessed.
- Establish controls (e.g., anchor point, LCES, utilize downhill checklist, limit exposure time).
- As control measures are developed, reevaluate each risk until it is reduced to a level where benefits outweigh potential costs.

## ● Step 4—Decision Point (decision to accept or not accept the risk(s) associated with an action):

- Consider whether controls are in place for identified hazards, whether selected tactics are based on expected fire behavior and if instructions have been given and understood.
- Make certain the decision is made at the appropriate level; if not, then elevate to a higher level.
- Reject the action if the risk is unacceptable.

## ● Step 5—Evaluation:

- Ensure controls are implemented and accomplished to standards.
- Supervise/evaluate effectiveness of controls and decisions. Stay on top of the situation and adjust risk controls as necessary.
- Anticipate consequences of decisions; if controls do not work, determine problem and derive a better solution.
- Adjust actions as the situation changes; maintain situational awareness at all times.
- Maintain feedback line.

**Have an idea? Have feedback? Share it.**

# MEDICAL PLAN (ICS 206 WF)

**Use items one through nine to communicate situation to communications/dispatch.**

**1. CONTACT COMMUNICATIONS/DISPATCH**

*Ex: "Communications, Div. Alpha. Stand-by for Priority Medical Incident Report." (If life threatening request designated frequency be cleared for emergency traffic.)*

**2. INCIDENT STATUS:** *Provide incident summary and command structure.*

<b>Nature of Injury/Illness</b>		<i>Describe the injury (Ex: Broken leg with bleeding)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
Incident Commander		<i>Name of IC</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

**3. INITIAL PATIENT ASSESSMENT:** *Complete this section for each patient. This is only a brief, initial assessment. Provide additional patient info after completing this 9 Line Report.*

Number of Patients:	Male / Female	Age:	Weight:
Conscious? <input type="checkbox"/> YES <input type="checkbox"/> <b>NO = MEDEVAC!</b>			
Breathing? <input type="checkbox"/> YES <input type="checkbox"/> <b>NO = MEDEVAC!</b>			
Mechanism of Injury: <i>What caused the injury?</i>			
Lat/Long (Datum WGS84) <i>Ex: N 40° 42.45' x W 123° 03.24'</i>			

**4. SEVERITY OF EMERGENCY, TRANSPORT PRIORITY**

SEVERITY	TRANSPORT PRIORITY
<input type="checkbox"/> <b>URGENT-RED Life threatening injury or illness.</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>	Ambulance or MEDEVAC helicopter. Evacuation need is <b>IMMEDIATE.</b>
<input type="checkbox"/> <b>PRIORITY-YELLOW Serious Injury or illness.</b> <i>Ex: Significant trauma, not able to walk, 2° – 3° burns not more than 1-2 palm sizes.</i>	Ambulance or consider air transport if at remote location. Evacuation may be <b>DELAYED.</b>
<input type="checkbox"/> <b>ROUTINE-GREEN</b> Not a life threatening injury or illness. <i>Ex: Sprains, strains, minor heat-related illness.</i>	Non-Emergency. Evacuation considered <b>Routine of Convenience.</b>

**5. TRANSPORT PLAN:**

**Air Transport:** (Agency Aircraft Preferred)

<input type="checkbox"/> Helispot	<input type="checkbox"/> Short-haul/Hoist	<input type="checkbox"/> Life Flight	<input type="checkbox"/> Other
<b>Ground Transport:</b>			
<input type="checkbox"/> Self-Extract	<input type="checkbox"/> Carry-Out	<input type="checkbox"/> Ambulance	<input type="checkbox"/> Other

**6. ADDITIONAL RESOURCE/EQUIPMENT NEEDS:**

<input type="checkbox"/> Paramedic/EMT(s)	<input type="checkbox"/> Crew(s)	<input type="checkbox"/> SKED/Backboard/C-Collar
<input type="checkbox"/> Burn Sheet(s)	<input type="checkbox"/> Oxygen	<input type="checkbox"/> Trauma Bag
<input type="checkbox"/> Medication(s)	<input type="checkbox"/> IV/Fluid(s)	<input type="checkbox"/> Cardiac Monitor/AED
<input type="checkbox"/> Other (i.e. splints, rope rescue, wheeled litter)		

**7. COMMUNICATIONS:**

Function	Channel Name/Number	Receive (Rx)	Tone/NAC *	Transmit (Tx)	Tone/NAC *
<i>Ex: Command</i>	<i>Forest Rpt, Ch. 2</i>	<i>168.3250</i>	<i>110.9</i>	<i>171.4325</i>	<i>110.9</i>
COMMAND					
AIR-TO-GRND					
TACTICAL					

\*(NAC for digital radio system)

**8. EVACUATION LOCATION:**

Lat/Long (Datum WGS84) <i>EX: N 40 42.45' x W 123 03.24'</i>	
Patient's ETA to Evacuation Location:	
Helispot/Extraction Size and Hazards:	

**9. CONTINGENCY:**

**Considerations:** *If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead...*

**REMEMBER:** Confirm ETA's of resources ordered  
Act according to your level of training  
Be Alert. Keep Calm. Think Clearly. Act Decisively.

## **Training Message**

### **Training Watch Outs**

Your trainer asks you "So how do these darn task books work anyhow?"

You've been working all day and you haven't seen your trainer since you left the rig this morning.

You're a Trainee and you haven't checked in with the Training Specialist.

### **A Message from Finance**

Federal Employees: The end of the pay period is coming up on Saturday. If you need time faxed or emailed, please note on your CTR the phone number, the email address, and the contact name.

The following need to contact Equipment Time, either in person or call 530-529-3947.

- E-16 TEHAMA TRANSPORT
- E-20 MORRISON HANDI WASH
- E-25 COLD CREEK
- E-37 M&S PROPERTY
- E-53 RAYMOND AND SONS
- E-199 G&O BODY SHOP
- E-231 BIG STATE WILDFIRE

## River Complex Social Media Policy

### *Your Images Are Powerful – Be Careful How You Use Them...*

It is the policy of the Great Basin IMT2 to *allow* firefighters or other personnel to post information, photos, or videos about work-related activities on personal social media accounts or websites outside of work hours. **However**, firefighters should be mindful that posting work-related information or activities on their personal social media accounts or websites reflects on the professionalism of their crew, the team, and the wildland firefighting community.

Firefighters that do capture photos, video or other media while working on the River Complex are encouraged to transfer this information to Fire Information for possible official use.

### HUMAN RESOUCE MESSAGE

#### Empathy:

Seeing with the eyes of another,  
Listening with the ears of another,  
And feeling with the heart of another.

#### Compassion:

A consciousness of others' distress with a desire to alleviate it.

"It is during our darkest moments that we must focus to see the light" – Buddha

Please....be kind to one another, today and always.  
Practice empathy and compassion.

### **Ourada's Team Expectations**

*Safety is the Team's Number One Priority*

*Everyone is a safety officer—See It, Say It, and Fix It!*

The Team is committed to identifying clear Task, Purpose, and End State that achieves the Agency Administrator's direction and objectives in a timely and cost effective manner.

The Team provides every person associated with the incident a safe, productive, and supportive work environment.

The Team operates in a transparent manner, facilitating open communication and dialogue up, down, and across the chain of command, with active listening and opportunity for discussion and collaboration.

Here are a few ways you can help the Team create an atmosphere of **Duty, Respect, and Integrity** as outlined in the Incident Response Pocket Guide (IRPG):

**If you Need to Leave the Incident Environment when Off Duty:**

Notify your supervisor of destination and estimated time of return in the event you are needed for duty prior to expected time.

**Alcohol /Illegal Drugs / Fitness for Duty**

Alcohol and illegal drugs are not permitted within the incident environment. Be ready, willing, and able to perform your duties. If you are unable to perform your duties, you may be released from the incident with the home unit or employer being notified of the circumstances.

**Work Environment/Human Relations:**

Conduct yourselves as professionals and maintain a positive, non-hostile work environment with mutual respect. Sexual harassment, discrimination, acts of reprisal or any inappropriate behavior that violates human rights, the provisions of equal employment opportunity (EEO), or ethics and conduct standards will not be tolerated. If you need clarification of these expectations, contact the Human Resource Specialist.

Your actions in the community outside of the incident environment must also conform to these standards while assigned to this incident. Your integrity is shown by obeying the law and following local rules and ordinances. Non-compliance with these expectations could result in your being released from the incident with the home unit or employer being notified of the circumstances.

**Work / Rest Guidelines:**

Any shift times over 16 hours require written justification and approval by the appropriate Section Chief on the Crew Time Report, and will be reviewed by the Incident Commander.

**Performance Evaluations:**

Performance Evaluations will be completed for all trainees and contractors (including ADs). Any unsatisfactory performance will be documented on an evaluation. It is your responsibility to ensure that your supervisor has completed an evaluation.

**Use of Social Media on Wildland Fire Assignments:**

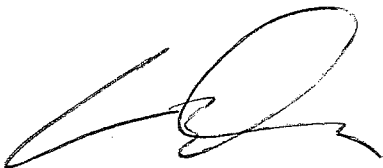

Firefighters and Incident Management Team (IMT) members should be aware that existing agency-specific ethics and conduct regulations and restrictions governing the use of social media by federal employees on fire assignments apply.

Only authorized employees designated by the hosting unit may represent the government on public social media websites. If you choose to post to a social media website you should have a disclaimer that clearly states the views or opinions that you express are yours alone and do not represent the views of your agency or the IMT.

However, anything that you do post regarding wildland firefighting and the agency you work for reflects on that agency, the IMT you are assigned to and all wildland firefighters.

Social media sites are regularly monitored by federal agencies and employees may be held accountable for inappropriate conduct or ethics. When in doubt, don't post!

I hope you have a safe, productive and rewarding experience here. If you have any needs or concerns that cannot be addressed by my Command and General Staff, please feel free to visit with me.

CA-SHF-002066**

**Incident Operations Driving Guidelines**

These guidelines document Great Basin Team 2's expectations for driving by personnel assigned to the River Complex. This includes driving while in support, mobilization, and demobilization to an assigned incident.

1. Agency resources assigned to an incident will adhere to the current agency work/rest policy for determining length of duty day.
2. No driver will drive more than 10 hours (behind the wheel) within any duty-day.
3. Multiple drivers in a single vehicle may drive up to the duty-day limitation provided no driver exceeds the individual driving (behind the wheel) time limitation of 10 hours.
4. To manage fatigue, every effort should be made to conduct mobilization and demobilization travel between 0500 hours and 2200 hours.
5. As stated in the current agency work/rest policy, documentation of mitigation measures used to reduce fatigue is required for drivers who exceed 16 hour work shifts. This is required regardless of whether the driver was still compliant with the 10 hour individual (behind the wheel) driving time limitations.
6. A driver shall drive only if they have had at least 8 consecutive hours off-duty before beginning a shift.
7. Drivers should wear seatbelts and operate with headlights on.
8. Utilize a spotter when backing a vehicle.
9. Practice Defensive Driving.

Drivers are responsible to follow these policies and it is the supervisor's responsibility to ensure that employees adhere to the proper driving limitations and monitor employee fatigue.
